Rev. Thos. Bithell called at the school house one morning this week and treated the students of the high school to a pleasant talk on "Polish the heels of your shoes." They hope it will not be long before he will call again.

Mrs. M. P. Ahern of this city, has opened a millinery and dress making establishment at Winside where she has been the past three days completing arrangements. The citizens of Winside are fortunate in securing such an establishment of one of the leading milliners in Northeast Nebraska.

Dr. Ellinwood, president of the Wesleyan University of Lincoln, who preached two excellent sermons at the Methodist church a short time ago, will be in Wayne again on Friday March 18, and deliver his lecture, "Am I my Brother's Keeper." This lecture will be worth hearing. Don't forget it.

Fred Stockwell and wife, Miss Mame Brown, daughter of Sheriff Jno. Brown of Cedar County, who were united in marriage at Omaha last Thursday, arrived in Wayne Friday evening. They will board for the present. Mrs. Stockwell has many friends in Wayne who will welcome her here. Both are worthy young people, and The HERALD with many other friends, wishes them happiness and prosperity.

Prepare to vote for electric lights. Mayor Ley has informed The HERALD that after a careful investigation of the matter he finds, and knows whereof he speaks, that the entire city can be lighted up with arch lights and the efficiency of the water works much increased for \$5,500, one thousand dollars more than the bonds asked to be voted, the latter amount, \$1,000, to be obtained from other sources. Mr. Ley has the interests of the city at heart as much as any other man, and we do not believe he would advocate anything he had not investigated and believed to be to the city's interest. This being true we believe those who may oppose voting bonds should make themselves familiar with the matter before they begin working against them. The HERALD will endeavor to put the question clearly before the people in our next issue.

Chas. Chace representing the Stanton County Agricultural Society, was in the city on Monday endeavoring to make arrangements with the Wayne County Agricultural Society for the purpose of working jointly in arrangements for an exhibit and proper representation at the Trans-Mississippi Exposition. It is thought that excursions will be run into this part of the state.

Communion services and reception of new member will take place at the Presbyterian church next Sabbath morning. Subject of the evening service "Doubting Castle." The first painting will show the pilgrims asleep in By-path Meadow, and Giant Despair approaching to apprehend them. The second will represent them in Doubting Castle cast down and helpless, while the third painting will show them escaping by means of a newly discovered key.

The attendance at the best factory meeting Saturday night was large but as the committees were not ready to report little of interest was done. Mr. Gunn went to Fort Scott to complete arrangements there while H. F. Wilson and J. T. Bressler went to Omaha Tuesday morning where they may enter into an agreement for several hundred acres of land west and south of the city, the land to be platted into five and ten acre tracts for the purpose of raising bees, or for other purposes, which will be sold and stock issued in the best sugar company at purchase price. Nothing will be left undone to secure a factory in a just and equitable way, and insuring satisfaction to all concerned.

The committee returned from Omaha this morning and a meeting of the whole committee will be held at Bressler's office this afternoon at 4:00 o'clock. What the outcome will be cannot be determined by us before going to press, but it is probable that the factory cannot be erected before next year.

Bro. Childs of the Madison Reporter says that "Signor Blitz, who closed a two-nights engagement at the opera house last evening, was worthier of much better houses than he received. He is one of the most clever illusionists ever seen in Madison and the closing scene with Miss Fay, the psychic wonder, was sufficient to convince a spiritualist present that Miss Fay was a physical medium. The songs were fair and the trick bicycle riding of Mr. Johnstone was alone worth the price of admission." The HERALD can conscientiously add that the company gave a very creditable entertainment at the opera house here last night, and altho' the room was not properly heated and there were two or three hoodlums present, the audience gave strict attention to every act. Signor Blitz will give another entertainment to night and those who attend will no doubt be well repaid.

Mrs. A. Harding, Grand Chief of Honor of D. of H. of Nebraska, was in Wayne the latter part of last week.

Dr. W. A. Love of Carroll, was in the city yesterday to meet with the Board of Pension Examiners. Two applicants for examination were present.

W. J. White and family left on Monday for Neigh where they will reside in the future. The HERALD will keep them posted on Wayne events.

Mrs. B. F. Swan entertained a few friends Tuesday afternoon at duplicate whist, complimentary to Mrs. P. Kohl, before her departure to her country home.

Services at the Baptist church every night this week and next. The pastor is assisted in these meetings by Rev. E. M. Jones, of Iowa, who is a forcible and eloquent speaker.

If Wayne is fortunate enough to secure a best sugar factory this year, you can rest assured that a court house will be a close second, and one of the improvements for '98.

D. L. Strickland was in Carroll last Friday. Mr. Strickland is one of the best judges of good horses in this section of the state, and his judgment is well worth considering.

Wayne is pushing right to the front, and while we may never hope to have paved streets, they will be lined with fine brick buildings and people who come to do business on business principles.

Mrs. Phil Kohl entertains a number of her lady friends this afternoon at a "Kaffee Klatsche." Each lady is requested to take with her a photograph of herself taken not later than five years of age.

We owe Bro. Childs of the Madison Reporter, an apology for having referred to Tamnyson in speaking of the "Lady of the Lake," but as Scott is busily engaged on the other shore there is no need of seeking safety in flight.

At the public sale of cattle at A. B. Clark's ranch on Monday, cows sold at exceptionally high prices; in fact, all the cattle sold well. A great many people depend much upon Mr. Clark's judgment of live stock, which was a prime factor in the prices received.

S. E. Auker, who lives on the Snoddy place east of Wayne, received the final papers last Monday on a farm gate which he has patented. One of the gates is on exhibition at Edwards & Bradford's lumber office, and appears to be a very useful and convenient gate. A number of them are used by farmers and ranchmen in Sheridan county, where Mr. Auker came from, and give the best of satisfaction.

Mesdames Fuller and Ellis gave three delightful evenings to their friends last week, the first on Wednesday evening occurred at the pleasant home of Mrs. Ellis, at which time covers were laid for some sixty guests at a six o'clock tea. On Thursday and Friday evenings the guests were entertained at the home of Mrs. Fuller. The evenings were devoted to playing whist and on Thursday evening E. M. Smith was awarded the prize having won every game; Mrs. Britton winning the ladies prize. Friday eve Mrs. Will Weber succeeded in winning the ladies prize and S. R. Theobald the gentlemen's. The parties were among the most pleasant ever given in the city, and were thoroughly enjoyed by the guests.

Mr. and Mrs. Geo. Westrope of Winside were given a royal surprise by a host of their friends last Friday night. Mr. and Mrs. W. have been married seven years and their friends assembled to remember them of it. It was a most delightful outcome of a pleasantly planned surprise.

"For some time I have suffered with rheumatism and tried every imaginable remedy without effect. Mr. F. S. G. Wells advised me to try Chamberlain's Pain-Balm, telling me that it had cured many cases of long standing like mine. I have used four bottles and feel sure that one more bottle will make my cure complete. - A. P. Kontz, Claremore, Ark. Sold by L. P. Orth, druggist.

The Wayne HERALD says there is a man in Wayne who will give \$100,000 towards building a new court house, if five other persons will give a like amount. Whew! We never knew that Wayne was lousy with millioners. \$200,000 to build a court house! They must want it to be of national importance to ever think of expending such an amount as that. The whole thing is nothing but blow and bluster. There is not a man in Wayne county that could fish up that amount in a life time. - Ponca Gazette.

What's this? Wayne may not be "lousy with millioners" but she has a whole lot of millionaires - in their mind. Look at her newspaper men, for instance! At least, one of them.

DOGS OF WAR GROWL

Belief that a Conflict with Spain Is Inevitable.

MINE UNDER THE MAINE

Destruction Said to Be Beyond the Power of a Torpedo.

DISASTER DUE TO DESIGN.

American People Believe the Spaniards Are Guilty.

The Most Reliable Advice, Pending Official Reports, Are to the Effect that the Ill-Fated Ship Met with Foul Play—Senators and Representatives at Washington Become Aroused—Governors of Many States Offer Troops—Crisis in Our National History.

Since the terrible destruction of the battleship Maine in Havana harbor the United States has been facing the gravest crisis of the last thirty years of its history. The people have been stirred by the disaster as they have not been since the close of the war for the Union. From the South, from the North, and from the far West have come magnificent outbursts of national sentiment showing how profoundly this great nation is agitated.

The Maine was one of the finest battleships afloat; one of the most perfect in construction, one of the most complete in equipment. All that modern invention, long experience and trained intelligence could do to make her efficient and safe had been done. And yet this magnificent vessel, at anchor in the harbor of a friendly nation, was destroyed with greater loss of life than would have followed an engagement with the whole Spanish fleet in Cuban waters. Had the Spanish cruisers and torpedo boats attacked the Maine, and sent her to the bottom with the loss of 250 lives, the calamity would have been hard to bear. But to have the Maine destroyed as she was destroyed is calamity unbearable. It was useless to cry patience when there was no patience. It was useless to ask for suspension of judgment when judgment had been given. That judgment was against Spain, and if

"Mississippians are fighters, and will only be satisfied in the front ranks." Gov. Stephens of Missouri declares that if war is declared he will issue a call for 150,000 troops.

And so it goes and so it comes, with other warrior States to hear from. There is no lack of soldiers. Spain can depend upon that. Old Glory was at half-mast because the tears were being shed for the dead in Havana, but it proudly and defiantly waves in the breezes that blow from the north, south, east and west, and it will be well for the Spaniard if the good ship Maine went to the bottom of the Havana harbor as the result of an inscrutable act of providence.

This Washington correspondent, whose assertions are thought to be reliable, says that private talks with members of both of the Senate and House clearly indicate that there is a volcano at the Capitol which may burst into activity at almost any time. The pictures of the wreck received in Washington, reproductions of which are shown on this page, coupled with the general tenor of newspaper dispatches, have gone far to convince members of Congress that the Maine was blown up from the outside. They are willing to wait a reasonable length of time for the board of inquiry to discover something definite, but as the general opinion is in favor of a torpedo or submarine mine, failure to discover positive evidence of an accident will only serve to confirm this opinion.

Several well-known Senators talked with say that they are being fairly inundated with letters and telegrams regarding the catastrophe in Havana harbor, and that ninety-nine out of a hundred of them look upon the explosion as the result of a Spanish plot and demand action accordingly. Conservative leaders are becoming startled by these expressions of public opinion, and they say this is evidence of a rising tide of popular indignation which will sweep Congress from its seat unless something is done to allay the excitement.

The newspaper reports indicate with surprising unanimity that a submarine mine destroyed the Maine. If these reports are not contradicted promptly and officially Congress will surely respond with a declaration of war, which is clearly within its powers, and which the President will be forced to obey. The people demand that if ships and men are to be lost in open warfare, and not in so-called peaceful harbors. Any police magistrate would hold the Spaniards under the evidence now at hand on suspicion and require them to prove their innocence. This is exactly the position taken by nine-tenths of the members of Congress. This opinion, declares the correspondent, represents clearly the private

sentiment of Senators and Representatives. They all say that the time has gone by for any questions of belligerency and that the only point at issue now is whether the United States shall seize Havana harbor, root up its submarine mines and make it free and safe to the navies of the world. The administration fully recognizes the dangerous situation and is making preparations for war. War may not come, but the Government will be prepared if it does come.

The suspicion that the Maine was blown up by a torpedo or submarine mine has grown almost to a conviction. No one in Washington, says this correspondent, can explain why such an act should have been committed, and many hope that it may be proven that it was not committed by any Spaniard, but that there are few who any longer hold to the theory of an accidental explosion in one of the magazines or have any assurance that a conflict with Spain will not follow the development of the fact that the Maine was destroyed by an act of treachery.

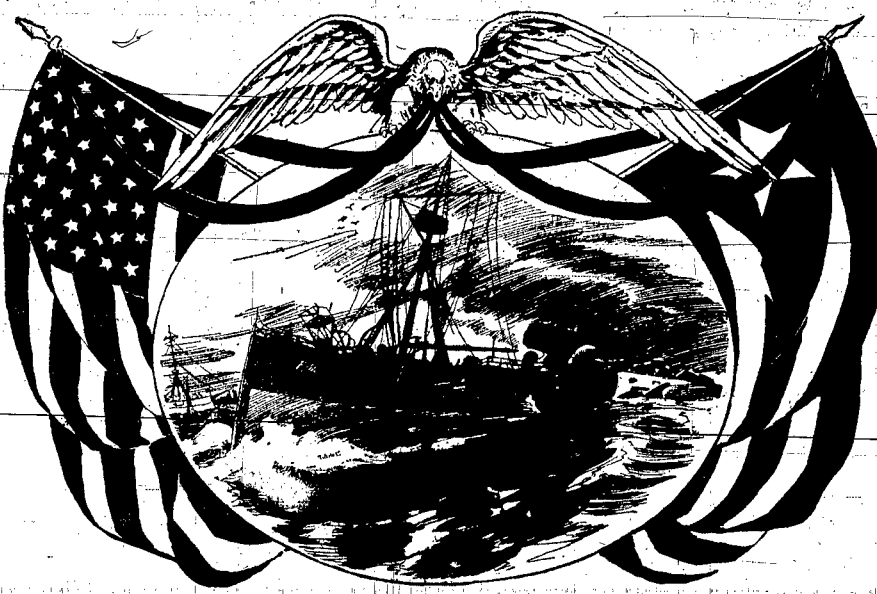

It is admitted that Consul General Lee has warned Americans who are in Havana on pleasure to leave because they are not safe. Cabinet members are talking guardedly about indemnity. Naval officials admit that warships are moving toward Key West and that work is being pushed with all possible speed on ships now in the various navy yards. Army officials admit that fortifications are to be manned at once and that other preparations are making to place our military arm in the best possible condition.

Activity Is Significant.

All these things are explained as only in keeping with the plans formulated months or weeks ago, and that they have no especial or immediate significance at this time. But they are in keeping with the suspicion now almost a conviction, that the Maine was destroyed by a hostile act of some one connected with the Spanish army.

It is not, however, the preparations in the Navy or War Department, or the warnings of Gen. Lee, for Americans to fear Havana, that point to a crisis as much as it is the feeling that the Maine was destroyed by treachery. The most conservative member in Congress fail to find any possible plan for fighting the great

THE NATION MOURNS FOR ITS DEAD MARINES.

—New York Journal.

It has been suggested that the Maine was blown up by a torpedo or mine. They brush aside the suggestion that it could have been the act of a fanatic of either faction in Cuba. No mere enthusiast or fanatic could have access to the secret keyboard which communicated with the torpedoes laid in the harbor under Government supervision. Spain must stand responsible for the men who could gain access to that keyboard, just as she is responsible for the men who control the guns in her forts and on her big cruisers. Governments do not have such secret agencies open to the access of fanatics, and if they do they must be held responsible for their acts.

The work of the board of inquiry will therefore end when they have examined the ship and found the evidences of foul play. There will then be left no alternative for this Government but war, unless Spain sues for peace and asks for conditions of peace.

war if it should be established that the Maine was blown up by a torpedo or mine. They brush aside the suggestion that it could have been the act of a fanatic of either faction in Cuba. No mere enthusiast or fanatic could have access to the secret keyboard which communicated with the torpedoes laid in the harbor under Government supervision. Spain must stand responsible for the men who could gain access to that keyboard, just as she is responsible for the men who control the guns in her forts and on her big cruisers. READY FOR A FIGHT.

In Case of Trouble with Spain the United States Would Be Prepared.

In spite of all denials it is well known that unusual efforts are being made to arm and equip every sea coast fortification, and that the regular army officers throughout the country have been quietly notified to put their commands into the best possible condition. The President does not want war, and will go a long way out of his way to avoid it, but he fully recognizes the force of public sentiment and is preparing rapidly for the worst that may come. Press dispatches from different points show preparation that is being made:

New Orleans, La.—The United States cruiser Marblehead has joined the North Atlantic squadron at Dry Tortugas.

St. Louis, Mo.—The war fever continues unabated, and already the work of organizing companies here has begun.

At Norfolk, Va., the Norfolk navy yard received instructions to have the monitor Terror ready for sea. Both the Puritan and Terror have been shipping recruits for the vacancies caused by the Maine disaster.

Providence, R. I.—The 150 officers and men in the three companies of the Rhode Island naval reserves are fully equipped for any emergency and are prepared to answer a call to duty on board any of the

Government war vessels within five hours.

Washington.—All the marines on shore duty have been ordered to hold themselves in preparation for service at the shortest possible notice.

New York.—Never before since the days of the war of the rebellion has the Brooklyn navy yard seen so pronounced an ac-

tivity on the part of officers and men. No longer do the officers deny that the Government is making the most strenuous preparations "to meet any emergency."

Tampa, Fla.—The cruiser Montgomery has been ordered to Havana, where she takes the place of the wrecked Maine until further instructions are received.

Columbus, O.—The Ohio militia is preparing to respond to the President's call for troops in the event war is declared between the United States and Spain.

At Charleston, S. C., work on the Government fortifications is being rapidly pushed. The navy yard force is kept busy putting the guns in shape for war.

St. Augustine, Fla.—Captain Hubbell, with one battery, has been sent to Sullivan's island, and a few days ago Lieut. Van Duzen departed for Fort Moutrie with a detail of twenty men to take charge of coast defenses. Army officials here freely discuss the probability of trouble with Spain.

At Cincinnati, O., a recruiting office for soldiers to serve in case of war with Spain was opened at Mergerd's Hall. Many men signed the muster roll. A member of Nelson Post, G. A. R., issued a dodger headed "To arms, to arms." Hundreds of white badges and buttons with the words "Volunteer—On to Havana" have been distributed.

New York.—Preparations for war, carried on with the greatest secrecy, have been going on in New York harbor. If the United States declares war and Captain Eulate tries to leave port by force, he will find a barrier such as he has not bargained for. All that is necessary to do to blow up the Spanish warship Yzcaya is to touch an electric button if she tries to pass out through the narrows.

NOTES OF THE DISASTER.

Brief Bits of Important News Bearing on the Horror in Havana Harbor.

The wreck has sunk several feet already in the soft mud.

The Spanish Government will stake all on the claim that the disaster was accidental.

The main portion of the wreck, as seen from above and noted from below, was blown to starboard.

A large quantity of clothing has been

taken from the wreck and will be given to the reconcentrados.

The Spanish anti-American feeling in Havana is growing and Americans are insulted openly on the streets.

The most intense anxiety is shown by the Spanish officials in Havana, who are in constant communication with Madrid.

Divers found the bodies of twenty men in hammocks, where they had been instantly killed by the shock of the explosion.

Admiral Sicaud issued orders forbidding any United States official or sailor to talk of the Maine disaster with outsiders under severe penalty.

Significance is attached to the fact that the wrecked ship was the first foreign war vessel to be anchored to that particular buoy since the Cuban trouble began.

Sharks have given little trouble, but the vultures left scarcely anything but the skeletons of three men, who were entangled in debris very near the surface of the water.

A Spanish lieutenant openly boasted that if any other United States warship arrived she would be served the same way. His brother-officers applauded him uproariously.

One thing seems certain, if the Maine was blown up by an outside agency, the agent was a mine, and not a torpedo, as no torpedo known could have produced such tremendous results.

The number of missing is eighty-five or eighty-six, and five have died in the hospital. Of the missing many doubtless were blown to atoms, no portions of their bodies being recoverable.

Cubans claim that there are mine galleries under the harbor leading from subterranean passages known to have existed for years between Fort Cabanas and Morro Castle and Havana.

Havana newspapers are not permitted to publish any news concerning what is going on in Washington, and American papers have been called for by the censor, who seizes all printing any disturbing news.

After four days of consideration the House on Saturday passed the bankruptcy bill reported by the House Committee on Judiciary as a substitute for the Nelson bill passed by the Senate at the extra session last summer. The bill is known as the Henderson bill, and contains both voluntary and involuntary features. It is considered less drastic than the measure passed by the last House by a vote of 157 to 87. The involuntary feature, however, had but 16 majority. On Saturday a motion to strike out the involuntary feature was defeated by a majority of 19, and the bill was passed by a majority of 23, the vote standing, yeas 158, nays 125. Eighteen Republicans voted against the bill and twelve Democrats for it. The Populists, with one exception, voted against it.

Monday was private bill day in the House. The feature of the day was a spirited contest over the bill to pay Newberry College a Lutheran institution in South Carolina \$15,000 for damages by Federal troops. It was finally passed. On motion of Mr. Bailey, the Democratic leader, the House voted—88 to 28—to observe Washington's birthday by adjourning over until Wednesday, but Mr. Dingley raised the point of no quorum and before further action could be taken the House recessed. For three hours the Senate had under discussion the bill providing for the taking of the twelfth and subsequent censuses. It was amended so as to place the census bureau under the Secretary of the Interior, but the extended discussion which followed disclosed so wide a divergence of views as to the various features of the measure that no further action was taken. A resolution offered by Mr. Allen, directing the Committee on Naval Affairs to make an investigation of the Maine disaster, was adopted without debate.

In the House on Tuesday Mr. Johnson of Indiana made a sensational speech opposing the annexation of Hawaii. Political speeches occupied the rest of the day. The sundry civil bill was before the House. The debate was finished. In the Senate a bill was passed increasing the army by two artillery regiments. In executive session the Cuban question was discussed.

On Wednesday a variety of subjects occupied the attention of the House during the consideration of the sundry civil bill. Mr. Mahan of New York made an attack on the patriotism of some of the social leaders of New York, who, he said, held high rank while the nation was bowed down with grief over the loss of life resulting from the Maine explosion. The Southern members, who have for years been fighting the appropriation for "informers" on illicit distilleries, succeeded in killing the appropriation in committee of the whole, but Chairman Cannon gave notice that he would demand a yeas and nays vote in the House. A resolution was adopted inquiring of the Treasury Department what has been done by the United States to prevent the conveyance to the Cubans of articles produced in the United States; also as to the prevention of filibustering. In the Senate the entire day was devoted to debate on the Cuban question. By a vote of 53 to 5 Mr. Allen proposed to add a belligerency rider to the consular and diplomatic appropriation bill was rejected.

The House disposed of thirty additional pages of the sundry civil appropriation bill on Thursday. The fact that the Government is preparing for contingencies was recognized when Chairman Cannon, who has been laboring to keep down appropriations, accepted without a word of protest an amendment to increase the appropriation to care for the unused machinery at the Springfield arsenal. Resolutions which were objected to a few weeks ago for the appointment of two extra naval cadets to positions in the engineer corps of the navy were also adopted. One of them will fill a vacancy caused by the death of Lieut. Merritt of the Maine. A feature of the Senate's session was the speech of Mr. Spooner (Wisconsin) on the right of Henry W. Corbett to a seat in the Senate from Oregon upon appointment of the Governor. Mr. Spooner made a constitutional argument in favor of seating Mr. Corbett. An effort was made to obtain consideration of the Alaskan home-stead bill, but a parliamentary technicality went over. The resolution offered on Wednesday by Mr. Allen (Nebraska) to appoint a committee of five Senators to investigate the Cuban situation was withdrawn by its author when it was laid before the Senate.

In the House on Friday a long and somewhat exciting debate over the question of river and harbor appropriations was held during the consideration of the sundry civil appropriation bill. It was practically agreed by all those who participated that there would be no river and harbor bill at this session of Congress. The item appropriating \$400,000 for San Pedro harbor, California, was passed, and the Oakland harbor appropriation remains in the bill by a vote of 118 to 16. An unsuccessful effort was made to secure consideration of the bill passed by the Senate for two additional regiments of artillery, but on objection from Mr. Cox (Tenn.), it went over. In the Senate Henry W. Corbett's right to a seat in the Senate from Oregon was under consideration for five hours. A bill permitting the building of a dam between Coon Rapids and the north limits of Minneapolis, across the Mississippi River, was passed. Early in the session an attempt was made to get up the Alaskan bill, but it failed.

THE WRECK OF THE MAINE--FROM A PHOTOGRAPH TAKEN THE MORNING AFTER THE EXPLOSION.

NAVAL experts claim that the appearance of the twisted and torn wreck is in itself evidence of the fact that the Maine was destroyed by outside influences. The position of the wreck shows that the shock was from the port side. The main deck between the forward and after magazines is blown upward and to the starboard. The forward smokestack is thrown back and to the starboard. The whole wreck has a list to port. It is claimed that the picture indicates that the Maine was destroyed by a submarine mine. After awning is in view; ship's rail is six feet under water; superstructure twisted and thrown aft; forward superstructure thrown 200 feet from the ship forward; smokestack lying down.

READY FOR A FIGHT.

In Case of Trouble with Spain the United States Would Be Prepared.

In spite of all denials it is well known that unusual efforts are being made to arm and equip every sea coast fortification, and that the regular army officers throughout the country have been quietly notified to put their commands into the best possible condition. The President does not want war, and will go a long way out of his way to avoid it, but he fully recognizes the force of public sentiment and is preparing rapidly for the worst that may come. Press dispatches from different points show preparation that is being made:

New Orleans, La.—The United States cruiser Marblehead has joined the North Atlantic squadron at Dry Tortugas.

St. Louis, Mo.—The war fever continues unabated, and already the work of organizing companies here has begun.

At Norfolk, Va., the Norfolk navy yard received instructions to have the monitor Terror ready for sea. Both the Puritan and Terror have been shipping recruits for the vacancies caused by the Maine disaster.

Providence, R. I.—The 150 officers and men in the three companies of the Rhode Island naval reserves are fully equipped for any emergency and are prepared to answer a call to duty on board any of the

Democrat: Mat Moore and family of Harlan, Iowa, were arrivals Sunday, bringing a car load of farm stock and goods. Letters have been received from E. P. Surber, stating that they had arrived at Sullivan, Mo., all o. k.; that it rained beastly the first day, froze up tighter than a vice the first night, and the mud had been knee deep ever since. Mr. Surber also finds lots of farms for sale, showing that there are many people anxious to be "from Missouri!"

Randolph Times: Jno. T. Bressler a prominent citizen of Wayne and Northeastern Nebraska, was attending to interests here Tuesday. The series of lectures at the M. E. church was opened Tuesday evening by Judge Norris' lecture on "Immortal Man."

The Judge loses none of his powers by dropping the political, in which he is the giant of our district, in taking up this grand subject. It is impossible for one to give any review which will do him any justice with those who failed to hear him. All that can be said is, that those who were unavoidably absent were unfortunate, and those who failed to hear him for any other reason do not know him or fail to realize the treat that is in store whenever Judge Norris speaks.

"I can say one thing for Chamberlain's Colic, Cholera and Diarrhoea Remedy, and that is that it excels any proprietary medicine I have ever seen on the market, and I have been in the practice of medicine and the drug business for the past 40 years," writes J. M. Jackson, M. D., Bronson, Fla. Physicians like Chamberlain's Colic, Cholera and Diarrhoea Remedy because it is a scientific preparation, and always gives quick relief. Get a bottle at Orth's drug store.

Ponce Journal: Wayne is still wriggling in uneasiness over not having a court house and the question is agitated from one end of the county to the other, though no definite action is taken. One man made the very safe proposition to donate \$100,000 towards a building if five others would act in a like manner. There having been no responses, the philanthropic citizen has closed his pocket book and sought other avenues of circulating his spare cash—has now probably drifted into the charitable work of buying unbought and parcels for unfortunate Laplanders and Klondikers. Seriously, though, it is surprising that Wayne county hasn't had a court house long before now. Where does it keep its records in safety? Do officials carry them in their hats as was done during the primitive years of this country?

When you have a sick horse, him up to a sulky and take him to the race track for a little healthful spin. You doctor him with a little work or recreate a man into good health any more than you can a horse. Bicycling will make healthy men more healthy. It will make unhealthy men more unhealthy. When a man has been living in too big a hurry, it is time for him to take medicine. Then, when he is braced up a bit, it is time enough for him to take the bicycle.

When a man's nerves have an edge on them, so that the least little disappointment raps on his temper like a file, when his stomach and liver and nerves are deranged, and he is continually gloomy and melancholy, he should take Dr. Pierce's Golden Medical Discovery. It makes a man as hungry as a fisherman and sees to it that the vital elements of the food are absorbed into the blood. It braces up the liver and puts it to work in the right way. It drives all bilious impurities from the system. It fills flesh, nerves, brain cells, sinews and bones with the life-giving elements of rich, red, pure blood. It makes a man healthy and then a bicycle will make him strong. Medicine dealers sell it, and have nothing "just as good."

THE WAYNE HERALD.

Entered at the Post Office at Wayne Nebraska as second class mail matter.

W. H. McNEAL, Editor.

Member of the Northeastern Nebraska Press Association

PUBLISHED EVERY THURSDAY.

It is now intimated that Spain is not responsible for the Maine disaster. Can this be true?

That the Cubans will gain their independence there is no longer any question. Spain has a good many things to atone for.

It is not generally believed that the American people desire war, if the honor of the United States can best be sustained by diplomacy.

There will be an endless number of Yaukees for the Spaniards to deal with should Uncle Sam decide to give Spain a much needed spanking.

When our banking institutions have so much money that they scarcely know what to do with it, it will hardly do for the fusionists to longer howl poverty.

The fighting editor of The Herald is in no belligerent state, but if war comes to war he will be found staying at home and acting as guardian over the mails.

Five United States Senators and two Congressmen departed for Cuba today from Washington, where they will thoroughly investigate the conditions as they exist on the Island. They do no in an official capacity, however.

The Omaha Exposition will be a second World's Fair almost. Many foreign countries will be represented while nearly every state in the Union will take part. The attendance will no doubt, be something miraculous.

The people who so cordially hate protection, sound money, and that "hideous Dingley tariff bill," will please make a note of the fact that the decrease in the public debt for the month of February was \$1,597,122. Who says that the Dingley bill is not a revenue producer? Facts are what the people want and they will get them before the close of the year 1898.

What has become of the sixteen to one bugaboo of our fusionist friends? What's the matter with your goddess? Has the benign influence of prosperity captured her or is she seeking new and greener fields? A change must have come over her dreams. Senator Wolcott asserts that another basis will have to be adopted, while several silver conventions that have met recently have repudiated the 16 to 1 idea entirely. Give it a kick and let it die quick, for mourners there will be few.

Ex-President Harrison's address before the Marquette club of Chicago, on Washington's birthday, on the subject "The Obligations of Wealth," was one which the people of the entire nation will applaud. His statement that if wealth would come forth and show patriotism and loyalty to the country by paying its just proportion of taxes instead of remaining in hiding it would go far towards alleviating the ill feeling existing between wealth and the common interests of the country.

Nothing could be sadder than the sight of those old political back numbers so common in this country who refuse to believe that they have outlived their usefulness, and who are always frantically endeavoring to keep themselves under public notice. When a man has been turned out of office by his party, he should accept his fate gracefully, realizing that he has reached the premium department, all determined to remain in private life unless dragged therefrom to save the country. Some act in this way, and are respected and admired; but others prance around the country having themselves interviewed, and build up political schemes which generally fail. The chief feeling for such people is one of commiseration, tinged with disgust; and it is safe to say that not one in a hundred ever wins his way back to office. Beatrice Express.

PROFITABLE CATTLE FEEDING.

We have long been of the opinion that the profitable feeding of cattle on the farm required that the feeding stock should be largely grown on the farm. The belief is still strong with us that, taking one year with another, the cattle industry pays best when growing the cattle and feeding them are regarded as one continuous operation. Sometimes the bulk of the money is found in the first half of the work, and sometimes the last half pays best, but taking them together they will always pay. When feeders are wanted badly they are invariably high like everything else that people want. A large number of high priced feeders that have been almost exclusively grown on the ranges are now in the feed lots of the various cattle feeding states. Nebraska, perhaps, has a larger number than any other state in proportion to the number she habitually handles. According to an estimate by the Corn Belt, there are now on feed in Nebraska 127 per cent. of the number fed last year, or not far from a third more. Kansas has 43 per cent, Missouri 80, Iowa 77, Illinois 63, Indiana 62, South Dakota 51, Wisconsin 43, and Minnesota 40 per cent. of the number fed last year. By the time these cattle are fed out, all these states will have a pretty good idea whether it is profitable to buy feeders from the ranges rather than grow them on the farms. On this point the Nebraska Farmer, which, in view of the large number of range cattle on feed in that state, ought to have a good opportunity to form an opinion, says:

Buying range bred cattle for our corn belt feed lots is all well enough to a certain extent, and during an off season for our farm reared cattle, but the prices that are ruling today on such cattle show to what extent the feeder of the corn belt places himself at the mercy of the range cattle king when he can no longer fill his feed yards with a fair proportion of cattle raised on his own farm. The farmer has no business to be paying out this enormous tax. Let him grow good cattle of his own.

The range cattle king cannot be blamed for taking all he can get for stock he grows. The feeder will do the same thing when they are fed out, and then wish it was twice as much. But when cattle growing is neglected on the farms it will always be in the power of the range cattle men to get for feeding stock the big end of the final selling value of fat cattle whenever feed is plenty. Under such circumstances the competition for the feeders will fix the price high. The only way to escape it is for the farm feeder to grow enough good cattle for his annual average needs, and only rely on range cattle to furnish any extra supplies that an unexpectedly abundant crop may render necessary. Homestead.

Developing Good Hogs.

First, choose the breed. Have an ideal animal and work for it. Breed from matured and well-bred sows. Don't sacrifice individuality to pedigree. Breed prolific sows only. Avoid cross-breeding and feeding too much corn and ice water, as this lessens the vitality and tends to make too light a bone. Feed young stock and the breeding sows oats, shorts, bran and oilmeal, with but little corn. Give plenty of exercise. In finishing off a fat hog nothing is ahead of corn and pure water. Give plenty of room in sleeping quarters and teach young pigs to eat early. March and April litters are best. Keep salt and charcoal by them at all times. The growing of frame for the first six months and the keeping of equal-sized pigs together must be looked to. It requires intelligence of the highest order, after the ideal hog is realized, to keep it, and not allow it to degenerate. Orange Judd Farmer.

Winside Tribune: Will Wayne county have the good sense to provide for a court house before its records are destroyed by the burning of the old wooden rat trap now used for that purpose, or must she be penny wise and pound foolish by waiting until her valuable records are destroyed and then be obliged to build anyway? Then, too why pay every year twice what the building itself is worth for the rent of the ancient barn everyone is ashamed of?

The people of this grand old state are not going to waste their votes this fall by casting them for anybody's hobby of "16 to 1," in the face of as good times as the state has ever known and that under a sound financial system.

There may be war, but it will not be of many months duration, and the people of Nebraska will go right along raising the products of the farm to supply the boys in blue, while they are knocking the hay out of the treacherous Spaniards.

Children and adults tortured by injuries, burns, scalds, eczema or skin diseases may secure instant relief by using DeWitt's Witch Hazel Salve. It is the great Pile remedy. L. P. Orth.

There are three little things which do more work than any other three little things created—they are the aut, the bee and DeWitt's Little Early Risers—the last being the famous little pills for stomach and liver troubles. Orth.

Norfolk citizens are after an opera house with prospects of securing one. No city needs such a structure worse than the sugar city.

From all over the country come words of praise for Chamberlains Cough Remedy. Here is a sample letter by Mrs. C. Shep, of Little Rock, Ark.: "I was suffering from a very severe cold; when I read of the cures that had been effected by Chamberlains cough remedy, I concluded to give it a fair trial and accordingly procured a bottle. It gave me prompt relief and I have the best reason for recommending it highly, which I do with pleasure." For sale by L. P. Orth, druggist.

Laurel Advocate: J. W. Mason and E. Warner of Wayne, were transacting business in Laurel Thursday. L. Lewis, brother-in-law to M. T. Woodruff, will occupy O. W. Martin's place north of town this season. He comes from Wayne. Julius Tower of Wayne, was in Laurel Monday. Mr. Tower owns a nice farm 4 1/2 miles south of town, and was up making arrangements for building a house and barn on the same. The house is to be 14x24, 14 feet high, and the barn 24x32. Fowler & Mann do the work.

Madison Chronicle: Wayne will vote bonds this spring for an electric light plant, there isn't any doubt about that, and she has good prospects of getting a sugar factory. Madison hardly aspires to a sugar factory at present, but we do need electric lights and we ought to have 'em this summer. The Chronicle has time and again urged this matter and shown that a plant of this kind would be self-sustaining from the start. If the town is not in a position to build and operate the plant, let us encourage private capital to go ahead with the enterprise. It would be a good investment from either standpoint.

Superintendent's Notice.

I will be in the office Mondays and Saturdays. Examinations the third Saturday of each month and Friday preceding. CHARLOTTE M. WHITE, Supt. of Public Instruction.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine, and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention THE WAYNE HERALD and send them to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Baby Mine!

Every mother feels an indescribable dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger of the ordeal make its anticipation one of misery.

MOTHER'S FRIEND is the remedy which relieves women of the great pain and suffering incident to maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is removed by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are avoided, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of **MOTHER'S FRIEND**. It is a blessing to woman.

THE NEW WAY.

WOMEN used to think "female diseases" could only be treated after "local examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their suffering. Their introduction of Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure

Wine of Cardui

taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles"—disordered menses, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

Ponca Journal: "Bachelor Girls" is the name of a social organization at Wayne. That fact clearly denotes that young men were lagging in performing their duties. With a million more men than women in the United States, the cause can't be assigned to a scarcity of males. Either they or the fair sex are not properly inclined.
You don't know the "Bachelor Girls" of Wayne.
Norfolk Journal: The governor is receiving offers from all over the state of men and companies of soldiers in case of war with Spain. Nearly every town in the state that hasn't an organization of the kind wants to organize a militia company, and wants to organize at once. Among others applying for necessary blanks to organize a company is C. J. Rundell of Wayne, the longest winded single-handed talker in Nebraska.

The large and intelligent audience that assembled to witness the performance of Signor Blitz at the Theatre Royal were not disappointed. There is no doubt but that the Signor is far and away the "pleasant" and most bewitching exponent of black art that has ever visited Kingstons. His most astonishing feat was the catching of two bullets fired at him by K. A. M. marksmen.
Miss Evelyn Fay's soeance with the spirits was intensely interesting, and carried all the features of profound mystery.
Above comment comes from the press of cities where the Signor and his company have played. The entire company of eight people in the highest class Vaudeville will be seen March 2 and 3 at the opera house. Prices 15-35-55.

We are anxious to do a little good in this world and can think of no pleasanter way to do it than by recommending One Minute Cough Cure as a preventative of pneumonia, consumption and other serious lung troubles that follow neglected colds.—L. P. Orth.

Mr. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., says that his wife paid for operation for small tumor which appeared in her breast, but it developed into a cancer of the worst type, and notwithstanding the treatment of the best physicians, it continued to spread and grow rapidly, eating two holes in her breast. The doctors soon pronounced her incurable. A celebrated New York specialist then treated her, but she continued to grow worse and when informed that both her aunt and grandmother had died from cancer she gave the case up as hopeless.
Someone then recommended S.S.S. and though little hope remained, she began it, and an improvement was noticed. The cancer commenced to heal and when she had taken several bottles it disappeared entirely, and although several years have elapsed, not a sign of the disease has ever returned.

A Real Blood Remedy.
S.S.S. (guaranteed purely vegetable) is a real blood remedy, and never fails to cure Cancer, Eczema, Rheumatism, Scrofula, or any other blood disease.
Our books will be mailed free to any address. Swift Specific Co., Atlanta Ga.

Sheriff's Sale
Feb. 3-5-98.
By virtue of an order of sale to me directed by the clerk of the district court of Wayne county, Nebraska, upon a decree rendered at the April 1897 term thereof, in an action pending in said court wherein Charles H. Burr was plaintiff and Frank P. Wilbur, E. P. Swan, Wayne National Bank, J. S. French, John Lewis Jr., were defendants, I will on the 3rd day of March, 1898, at 10 o'clock a. m., at the door of the office of the clerk of said court, in the court house in Wayne, in said county, sell to the highest bidder for cash, the following described real estate situated in said county to-wit:
The Southwest Quarter of Section Twenty-three, Township Twenty-seven, Range Three, East of the Sixth P. M. to satisfy the said decree the amount due thereon being in the aggregate the sum of \$953.93 with interest thereon at ten per cent from April 19, 1897, and \$3.35 costs, and accruing costs.
Dated January 26th, 1898.
