Number 12.

McNeal & Beebe, Publishers.

REPUBLICAN—LEADING AND OFFICIAL PAPER OF WAYNE AND WAYNE COUNTY—REPUBLICAN.

Subscription \$1.00 in Advance.

The above flag is dedicated to Wayne's brave boys who have volunteered their services in behalf of the government, Messrs Ralph Claybaugh, who joined the Norfolk militia, and Elmer Lundberg and C. A. Berry, the Allen Rifles of Madison. The boys started for Omaha yesterday. The HERALD wishes them God-speed and a safe return. The flag will hold its position at the head of the column until they are safely back. The boys were given three cheers as they took their departure.

B. F. Swan and family went to Sioux City Friday afternoon for a short visit. Mrs. Swan was called to Cedar Rapids, Iowa, Monday, by a message announcing the death of a relative.  
The Angell's gave a splendid performance at the opera house last night. Hear them tonight in "A Jay in New York," a very laughable comedy. Admission is only 10 and 20 cents.  
The Y. M. C. A. next Sunday will be led by S. R. Theobald. Subject, "Joseph." Read up on his life and come prepared to answer questions and give information as to his life and times. Special music.  
While standing on the corner near the First National Bank Saturday evening, Alfred Olson who resides southeast of the city fainted and fell while talking with J. W. Mason. Water was brought immediately and he soon revived. It seems he had just taken a hot bath at the barber shop and coming out into the cool air caused him to faint.

Mrs. E. S. Blair left for Freeport, Ill. yesterday morning, where she will make an extended visit with her mother who has been in very poor health for some time.

Jas. Hoover and family departed for Fremont Tuesday morning, and their many friends here regretted very much to see them leave. Mr. Hoover will travel throughout Nebraska in the interest of the Odd Fellows insurance company, and the HERALD wishes him success in the work.

The friends of A. J. Tracy will be pleased to learn that he has been tendered and accepted a position in the county treasurer's office and will begin his duties the first of May. Gus is a splendid penman, has had training in the Commercial school at Omaha and will make a courteous and efficient assistant.

The way "Commache Bill" scooped in the quarters for small boxes of cosmoline on the street Saturday afternoon, was a caution, and to make the matter worse he politely told the large number who bit to attach themselves to a string he held. He then gave his dark wavy curls a toss and looked fierce out of his eyes, as he perceived what a fine string of suckers he had caught. He then drove to Winside where he did a land office business.

Lloyd, the young son of W. H. Gildersleeve, met with a very serious accident Monday afternoon. He fell from a heavily loaded wagon as the team started up and it is thought that both wheels ran over his body. Dr. Blair was summoned and did all that medical aid could do to relieve the little fellow of the pain. Mr. Gildersleeve informed us yesterday that the boy suffered a great deal Tuesday night and it is feared that he has received serious internal injuries.

### Aug. Loebe returned to Hartington this morning.

The Monday club have decided to place their library at the pharmacy of R. W. Wilkins & Co. A large and new collection of books has been added and the reading public will be privileged to obtain almost any book they desire.

The Angells are pleasantly entertaining their audiences at the opera house this week, if the applause which greets them is any indication. The admission is reasonable, 10 and 20 cents, and the entertainments are at least worth the money.

The young people of the Presbyterian had a most delightful time at a social last Friday evening at the home of Miss Etta Beokenhauer. A jolly crowd of young folk, about 40 in number, came over from Wakefield, and the evening passed too quickly. Light refreshments were served.

Judge W. F. Norris and Ed. Reynolds have received authority to organize and drill a volunteer company and enlistment blanks have been furnished to them by Adjutant Barry. At the time of going to press about a dozen young men had already enlisted. If you desire to enlist call at the Boyd Hotel.

We are informed by Col. Richardson that he has secured nearly enough names to warrant the placing of a station of the University of the Traveling Library in Wayne and that those desirous of becoming members should make application at once. Names of any wishing to join may be left at the Hotel Boyd or at The HERALD office.

Postmaster-editors are now singing, "How happy would be with either were 't'other dear charmer away." They were appointed by McKinley at the instance of Thurston and now that these two leaders disagree they are between the deep sea and the devil as to which one they had better follow.—Madison Reporter.

Don't you believe the present postmasters are "between the devil and the deep sea," A. P. It's only ex-postmasters that get in that condition.

The HERALD has viewed some of the pen drawings by Miss Anna Weaver who teaches in the Wilbur district, also the drawings of her pupils, and we do not exaggerate in asserting that it can not well be surpassed by any school in the county, or in any other county in the state. The fact of the matter is, the drawings of the different countries such as the United States, Europe and Asia, are very near perfect. These drawings will be placed in the Nebraska exhibit at the Trans-Mississippi Exposition and will rank high. The work of the pupils of Miss Mabel Preston in the Gorton district is exceptionally good, also. There can be no mistake as to the ability and work of these two teachers.

### FIRST NAVAL BATTLE.

Engagement Between Torpedo Boat Cushing and Spanish Gunboat Lijero. Both Vessels Badly Damaged.

The first naval battle between the United States and Spain occurred about 75 miles east of Havana yesterday morning, between the torpedo boat Cushing and the Spanish gunboat Lijero. The Norfolk News special from Key West says:

The first naval battle of the present war took place this morning at ten o'clock at a point about 75 miles east of Havana. The vessels taking part in the engagement were the United States torpedo boat Cushing and the Spanish gunboat Lijero. While the engagement is reported to be of short duration, the firing while it lasted is described as terrific. The Cushing had much the best of the encounter, its opponent being badly riddled and all its ventilator funnels were shot away. During the fight a rapid fire of shells was kept up and damage was done by them on both sides. The firing finally ceased with neither boat a pronounced victor and both were in a badly damaged condition when they drew away from the scene of the conflict. The crews of each ship fought with desperate valor and it is supposed that the fight only ceased because the able bodied men left were overcome with fatigue.

LATEST.—A Spanish cruiser loaded with provisions and \$400,000 for the Spanish soldiers in Cuba, was captured this morning, and Commodore Dewey of the Asiatic squadron, has given the Spanish fleet at the Philippine Islands 38 minutes to surrender.

### WAR NOTES.

The greatest enthusiasm is in evidence in every city of any import in the United States over the declaration of war, and in many smaller towns flags and bunting are flying, cannons roaring, bells ringing, and patriotism rampant.

The rules in the capturing of prizes is that in case the vessel captured is worth more than the one by whom captured, then the marines get the whole of the prize money, but if the captured vessel is of less value than the captor, then the government receives one-half of the prize money, and the marines the other half. This is done to encourage the capture of larger vessels.

War badges of every description are being into sight.

On Monday in accordance with President McKinley's message, Congress formally declared that a state of war exists between the United States and Spain.

Secretary of State Sherman resigned on Monday and Asst. Secretary W. R. Day was tendered the place which he accepted. Prof. John B. Moore of New York, was appointed Assistant Secretary of State.

Up to noon Monday the U. S. Navy had captured nine prizes in the way of Spanish vessels and their cargoes.

The militia of the different states has been called and are mobilizing at special points. The Nebraska militia has mobilized at Lincoln.

In Spain they are drafting men. In United States men are volunteering.

On Tuesday the U. S. Navy captured three more Spanish vessels. One of them contained an especially rich cargo, to have been unloaded at Havana.

Small pox and yellow fever is thinning the ranks of the Spanish soldiers in Havana.

The Spaniards in Havana may come to know what it is to be hungry before they get through with that blockade.

Matanza was bombarded yesterday by the United States vessels the New York, Puritan, and the Cincinnati. The engagement lasted about an hour and a half, which prevented the completion of the earthworks at Punta Gordo. The land batteries returned the fire but failed to even touch a vessel.

## ROBERT HEFT'S

# DR. TALMAGE'S SERMON

**THIS** sermon of Dr. Talmage will have a tendency to take the gloom out of many lives and stir up a spirit of healthful anticipation; text, Job xxxviii, 21, "And now men see not the bright light which is in the clouds."

Wind east. Barometer falling. Storm signals out. Ship reefing masts. Swains taken in. Prophecies of foul weather everywhere. The clouds close in. The sun, proposing to establish him. But after awhile he sends the fogs of the clouds with firing artillery of light, and here and there is a sign of clearing weather. Many do not observe it. Many do not realize it. "And now men see not the bright light which is in the clouds." In other words, there are 100 men looking for storm where there is one man looking for sunshine. My object will be to get you and myself into the delightful habit of making the best of everything.

You may have wondered at the statistics that in India in the year 1875 there were over 10,000 people slain by wild beasts, and that in the year 1876 there were in India over 20,000 people destroyed by wild animals. But there is a monster in our own land which is year by year destroying more than that. It is the old bear of melancholy, and with gospel weapons I propose to chase it back to its midnight caverns. I mean to do two things—a subtraction and a sum in addition—a subtraction from your days of depression and an addition to your days of joy. If God will help me, I will compel you to see the bright light that there is in the clouds and compel you to make the best of everything.

In the first place, you ought to make the very best of all your financial misfortunes. During the panic a few years ago you all lost money. Some of you lost it in most unaccountable ways. For the question, "How many thousands of dollars shall I put aside this year?" you substituted the question, "How shall I pay my butcher and baker and clothier and landlord?" You had the sensation of rowing hard with two oars and yet all the time going down stream.

You did not say much about it because it was not politic to speak much of financial embarrassment, but your wife knew. Less variety of varieties, no economy at the table, self-denial in art and taste. Compression, retrenchment. Who did not feel the necessity of it? My friend, did you make the best of this? Are you aware of how narrow an escape you made? Suppose you had reached the fortune toward which you were rapidly going? What then? You would have been as proud as Lucifer.

**What Is Success?**

How few men have succeeded largely in a financial sense and yet maintained their simplicity and religious conservatism. Not one man of 100. There are glorious exceptions, but the general rule is that in proportion as a man gets well off for this world he gets poorly off for the next. He loses his sense of dependence on God. He gets a distaste for prayer meetings. With plenty of bank stocks and plenty of Government securities, what does that man know of the prayer, "Give me this day my daily bread?" How few men largely successful in this world are bringing souls to Christ or showing affection for others or eminent piety? You can count them all upon your eight fingers and two thumbs.

One of the old covetous souls, when he was sick and sick unto death, used to have a basin brought in, a basin filled with gold, and his only amusement and the only relief he got for his inflamed hands was running them down through the gold and turning it up in the basin. Oh, what infatuation and what destroying power money has for many a man! Now, you were sitting at 30 knots the hour toward these vertices of worldliness—what a mercy it was, that honest defeat! The same divine hand that crushed your storehouse, your bank, your office, your insurance company, lifted you out of destruction. The day you honestly suspended in business made your fortune for eternity.

"Oh," you say, "I could get along very well myself, but I am so disappointed that I cannot leave a competence for my children!" My brother, the same financial misfortune that is going to save your soul will save your children. With the anticipation of large fortune, how much industry would your children have, without which habit of industry there is no safety? The young man would say, "Well, there's no need of my working. My father will soon step out, and then I'll have what I want." You cannot hide from him how much you are worth. You think you are hiding it. He knows all about it. He can tell you almost to a dollar. Perhaps he has been to the county office and searched the records of deeds and mortgages and he has added it all up, and he has made an estimate of it all, and you will probably stay in this world, and is not as much worried about your rheumatism and shortness of breath as you are. The only fortune worth anything that you can give your child is the fortune you put in his head and heart. Of all the young men who started life with \$40,000 capital, how many turned out well? I do not know half a dozen.

**Inspiring Inheritance.**

The best inheritance a young man can have is the feeling that he has to fight his own battle, and that his only way of struggle into which he must throw body, mind and soul or be disgraced, is to win. Where are the burial places of the men who started life with a fortune? Some of them in the potter's field, some in the cemetery's grave. But few of these men reached 35 years of age. They drank, they smoked, they gambled. In their hands they destroyed the man. Some of them lived long enough to get their fortunes

and went through them. The vast majority of them did not live to get their inheritance. From the ginshop or house of infamy they were brought home to their father's house and in delirium began to pick off bath-tubs, and to fight back imaginary devils. And then they were laid out in highly upholstered caskets, the casket covered with flowers by indolent porters, flowers suggestive of a resurrection with no hope.

As you sit this morning at your breakfast table and looked into the faces of your children perhaps you said within yourself: "Poor things! How I wish I could start them in life with a competence. How I have been disappointed in all my expectations of what I would do for them!" Upon that scene of pathos I break with a psalm of congratulation, that by your financial losses your own prospects for heaven and the prospects of your children for heaven are mightily improved. You may have lost a toy, but you have won a palace.

"How hardly shall they that have riches enter into the kingdom of God!" It is easier for a camel to go through a needle's eye than for a rich man to enter the kingdom of heaven." What does that mean? It means that the grandest blessing God ever bestowed upon you was to take your money away from you. Let me here say, in passing, do not put much stress on the treasures of this world. You cannot take them along with you. At any rate, you cannot take them more than two or three miles. You will have to leave them at the cemetery.

**Profit by Bereavement.**

Again, I remark you ought to make the very best of your bereavements. The whole tendency is to brood over these separations, and to give much time to the haunting of memories of the departed, and to make long visitations to the cemetery, and to say: "Oh, I can never look up again! My hope is gone. My courage is gone. My religion is gone. My faith in God is gone. Oh, the wear and tear and exhaustion of this loneliness!" The most frequent bereavement is the loss of children. If your departed child had lived as long as you have lived, do you not suppose that he would have had about the same amount of trouble and trial that you have had? If you were 40 years of age for your child, vacation, exasperation and annoyances, loss, vexation, and 40 years in heaven, would you take the responsibility of choosing the former? Would you snatch away the cup of eternal bliss and put into that child's hands the cup of many bereavements? Instead of the complete safety into which that child has been lifted, would you like to hold it down to the risks of this mortal state? Would you like to keep it out on a sea in which there have been more shipwrecks than safe voyages? Is it not a comfort to you to know that that child, instead of being beset and flung into the mire of sin, is swung clear into the skies? Are not those children to be congratulated that the point of celestial bliss which you expect to reach by a pilgrimage of 30 or 40 or 70 years has been reached at a flash? If the last 10,000 children who had entered heaven had gone through the average of human life, would you be sure all those 10,000 children would have finally reached the blissful terminus? Besides that, my friends, you are to look at this matter as a self-denial on your part for their benefit. If your children want to go off in a May day party, if your children want to go on a flowery and musical excursion, you consent. You might prefer to have them with you, but their jubilant absence satisfies you. Well, your departed children have only gone out in a May day party, and flowery and musical entertainment, amid joys and hilarities forever. That ought to quell some of your grief, the thought of their glory.

**Giorious Welcome.**

So it ought to be that you could make the best of all bereavements. The fact that you have so many friends in heaven will make your own departure very cheerful. When you are going on a voyage, everything depends upon where your friends are—if they are on the wharf that you leave or on the wharf toward which you are going to sail. In other words, the more friends you have in heaven the easier it will be to get away from this world. The more friends here the more bitter goodbyes. The more friends there the more glorious welcome. Some of you have so many brothers, sisters, children, friends, in heaven that I do not know hardly how you are going to crowd through. When the vessel came from foreign lands and brought a prince to our harbor, the ships were covered with huzzing, and you remember how the men-of-war thundered hosannas, but there was no joy there compared with the joy which shall be demonstrated when you sail up the broad bay of heavenly salutation. The more friends you have there the easier your own transit. What is death to a mother whose children are in heaven? Why, there is no more grief in it than there is in her going into a nursery amid the romp and laughter of her household. Though all around may be dark, see you not the bright light in the clouds, that light the bright faces of your glorified kindred?

**No More Pain.**

From my observation, I judge that invalids have a more rapturous view of the next world than well people and will have higher renown in heaven. The best view of the delectable mountains is through the lattice of the sick room. There are trains running every hour between pillow and pillow, between hospital and hospital, between bandages and robes, between crutch and palm branch. Oh, I wish some of you people who are compelled to cry: "My head, my head! My foot, my foot! My back, my back!" would try some of the Lord's medicine. You are going to be well anyhow before long. Heaven is an old city, but has never yet reported one case of sickness or one bill of mortality. No ophthalmia for the eye. No pneumonia for the lungs. No pleurisy for the side. No neuralgia for the nerves. No rheumatism for the muscles. "The inhabitant shall never say: I am sick." "There shall be no more pain."

Again, you ought to make the best of life's finality. Now, you think I have a very tough subject. You do not see how I am to strike a spark of light out of the flint of the subject. There are many people who have an idea that death is the submergence of everything pleasant by

everything doleful. If my subject could close in the upsetting of all such preconceived notions, it would close well. Who can judge best of the features of a man—those who are close by him or those who are afar off? "Oh," you say, "those can judge best of the features of a man who are close by him!"

Now, my friends, who shall judge of the features of death—whether they are lovely or whether they are repulsive? You? You are too far off. If I want to get a judgment as to what really the features of death are, I will not ask you. I will ask those who have been within a month of death, or a week of death, or an hour of death, or a minute of death. They stand so near the features, they can tell. They give unanimous testimony, if they are Christian people, that death, instead of being demoniac, is cherubic. Of all the thousands of Christians who have been carried through the gates of the cemetery, rather up their dying experiences, and you will find they nearly all bordered on a jubilate.

**Season of Blossoms.**

One week of the year is called blossom week—called so all through the land because there are more blossoms in that week than in any other week of the year. Blossom week! And that is what the future world is to which the Christian is invited—Blossom week forever. It is as far ahead of this world-as-paradise is ahead of Dry Tortugas, and yet here we stand shivering and fearing to go out, and we want to stay on the dry sand and amid the stormy petrels when we are invited to arbors of jasmine and birds of paradise.

One season I had two springtimes. I went to New Orleans in April, and I marked the difference between going toward New Orleans and then coming back. As I went on down toward New Orleans, the verdure, the foliage, became thicker and more beautiful. When I came back, the further I came toward home the less the foliage and less and less it became until there was hardly any. Now, it all depends upon the direction in which you travel. If a spirit from heaven should come toward our world—he is traveling from June toward December, from radiance toward darkness, from hanging gardens toward icebergs. And one would not be very much surprised if a spirit of God sent forth from heaven toward our world should be slow to come. But how strange it is that we dread going out toward that world when going in from December toward June, from the snow of earthly storm to the glow of Edenic blossom, from the arctic of trouble toward the tropics of eternal joy!

"Oh, what an ado about dying." We get so attached to the material march in which we live that we are afraid to go up and live on the hilltop. We are alarmed because vacation is coming. Eternal sunlight and best program of celestial ministrations and ballistics, no inducement. Let us stay here and keep cold and ignorant and weak. Do not introduce us to Elijah and John Milton and Bonaldine. Keep our feet on the sharp cobblestones of earth instead of planting them on the bank of amaranth in heaven. Give us this small island of a leprous world instead of the immensities of splendor and delight. Keep our hands full of nettles and our shoulder under the burm and our neck in the noose and our ankles and handwrings on our wrists. "Dear Lord," we seem to say, "keep us down here where we have to suffer instead of letting us up where we might live and reign and rejoice."

**Amazing Infatuation.**

I am amazed at myself and at myself for this infatuation under which we all rest. Men would suppose would get frightened at having to stay in this world instead of getting frightened at having to go toward heaven. I congratulate anybody who has a right to die. By that I mean through sickness you cannot avert or through accident you cannot avoid—your work consummated. "Where did they bury Lily?" said one little child to another. "Oh," she replied, "they buried her in the ground." "What! In the cold ground?" "Oh, no, no, not in the cold ground, but in the warm ground, where ugly seeds become beautiful flowers!"

"But," says some one, "it pains me so much to think that I must lose the body with which my soul has so long companionship. You do not lose it. You no more lose your body by death than you lose your watch when you send it to have it repaired, or your jewel when you send it to have it reset, or when you send it to send it to have it touched up, or the photograph of a friend when you have it put in a new lock. You do not lose your body. Paul will go to Rome to get his, Payson will go to Portland to get his, President Edwards will go to Princeton to get his, George Cookman will go to the bottom of the Atlantic to get his, and we will go to the village churchyards and the city cemeteries to get ours, and when we have our perfect spirit rejoined to our perfect body then we will be the kind of men and women that the resurrection morning will make possible.

So you see you have not made out any doleful story yet. What have you proved about death? What is the case you have made out? You have made out just this—that death allows us to have a perfect body, free of all aches, united forever with a perfect soul, free from all sin. Correct your theology. What does it all mean? Why, it means that moving day is coming and that you are going to quit cramped apartments and get a mansion forever. The horse that stands at the gate will not be the one lathered and beattered, carrying bad news, but it will be the horse that St. John saw in Apocalyptic vision—the white horse on which the King comes to the banquet. The ground around the palace will quake with the tires and hoofs of celestial equipage, and those Christians who in this world lost their friends and lost their property and lost their health and lost their life will find out that God was always kind, and that all things worked together for their good, and that those were the wisest people on earth who made the best of everything. See you not now the bright light in the clouds?

## ODD METHODS OF PUNISHMENT.

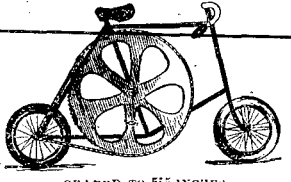

The recent exhibition of objects relating to prisons and the safe keeping of prisoners, held in New York, revives interest in the various modes of punishing evil-doers in the early days. Among the methods in vogue in Massachusetts, when that stern State was a new settlement, were the bilbaws, which originated in Spain. This contrivance was a kind of stocks with a heavy iron bar and a sliding shackles. The stocks have become familiar to every one and went along with tongue-boring, ear-cropping and similar gaffe remainders of sins committed. An iron frame gag was quite popular in the far-off days, and what with this barbaric machine and the ducking-stool talkative women did not enjoy the liberties of their latter-day sisters. The pillory was used on all occasions for all sorts of misdemeanors, though like other forms of punishment it had but little effect as a deterrent.

### WONDERFUL, BUT USELESS.

Here's a Freak Bicycle Geared to 555 Inches.

The claim of having the highest geared wheel in the world belongs in Newark, according to the Cycling Gazette, where a dealer has constructed the freak bicycle. When it is said that the machine is geared so high that no one can ride it it will be conceded that he has accomplished his point. If an ordinary gear is to be constructed of the same relative gear it would have a wheel 555 inches in diameter.

GEARED TO 555 INCHES.

words the front wheel would be 392 feet in height. As it is on the Newark safety there are few men in the world who can reach from saddle to pedal, for the distance from the seat to the pedal at its lowest point is about 52 inches. If the freak cycle be ridden each revolution of the pedals would carry the rider 145.29 feet and it would require but thirty-six revolutions to cover a mile. As an advertisement, however, the affair is said to be proving its value.

**Founder of Monte Carlo.**

Monsieur Blanc, founder of the Casino at Monte Carlo, though immensely wealthy, was very close in small affairs. He never played but once. It was on a very hot day, and his wife demanded that he buy her a parasol. They went to a store, and she selected one that cost \$16, which, with a disgruntled gesture, he paid. That afternoon, when the Casino opened, Monsieur Blanc appeared and placed \$2 on the red at one of the trente et quarante tables. He won, pocketed his winnings and left the original stake on the table. For a second time he won and had got his \$16 back. Not content he wagered again, but lost, then doubled his stake and won again, and then set about playing for the two louis he was behind. He played and lost, broke a thousand-franc note, then wrote a check, and finally, when the last deal was called, M. Blanc seized his yellow

and started for home. There he found his wife playing "patience" with a pack of cards, the offending parasol lying on the table. "Madame," said the old gentleman, "do you know what that thing has cost me?" "Mais oui, mon ami. It cost you \$16." "Madame," rejoined he, "you are mistaken. I have just paid the bill—\$18,000. That is all."

### Longest Continuous Speech.

A twelve-hour speech of Dr. Lecher in the Austrian Reichsrath beat all British records, speaking not merely one day to the dawn of the next, but for twelve mortal hours. He did not greet the rising sun, like Pitt or Gladstone, with a neat quotation from Virgil; perhaps it was foggy, perhaps he knew no Virgil. But he did very well, all things considered. They only gave him two pauses of ten minutes and one of five, and he only consumed three glasses of wine, two cups of black coffee and fifteen glasses of water. If that seems a lot to you, just put in your Saturday afternoon and evening at a twelve-hour speech and see. There was a little assistance. Toward the end his comrades sang "Long may he live," at intervals, and all through they cheered and banged their desk lids whenever he seemed to want breath. Also there was Herr Wolf, who did not understand the game at first, and spoke and desk-lidded simultaneously with Lecher for an hour. But Lecher did it, and played out the majority and all of the Presidents.

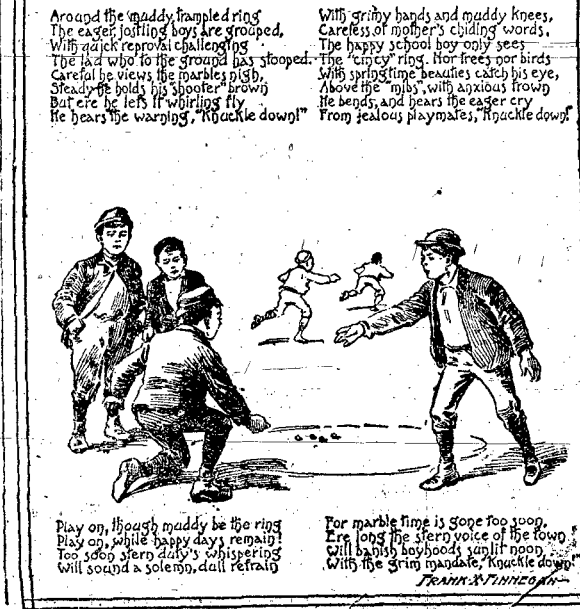

**Thoughtful for the Old Ladies.**

The Duke of Norfolk, having given an excursion party permission to visit his fine park at Arundel, his steward had a number of notices, "Keep off the grass," printed and put up at different spots. On the day of the trip the Duke was seen busily engaged in removing all the boards he could reach. The steward, at a loss to explain this strange conduct, asked his Grace the reason of it. "Many of the old ladies," replied the Duke, "will have corns, and I am sure, would rather walk on the grass than on the footpaths." It is a pity the old ladies did not learn at the time how much they owed the Duke.

## KNUCKLE DOWN.

Around the maddy-fangled ring, The eager, jolly boy is grouped, With eager, reproving challenge, The head who to the ground has stooped. Careful he views the marbles pish, Steady he holds his shooter brown, But ere he lets it whirling fly, He hears the warping, "Knuckle down!"

With grubby hands and maddy knees, Careless of mother's chiding words, The happy school boy only sees The "city" ring, nor fears nor birds. With springtime beakies catch his eye, Above the "mbs," with anxious frown, He bends, and hears the eager cry From jealous playmates, "Knuckle down!"

Play on, though maddy be the ring, Play on, while happy days remain; For soon, when dawn's daisy blossoms, Will sound a solemn, dull refrain.

For marble time is gone too soon, Will long the stern words of the town? By happy school boys' snuffing noon, With the grim "Knuckle down!"

**Shark Charters.**

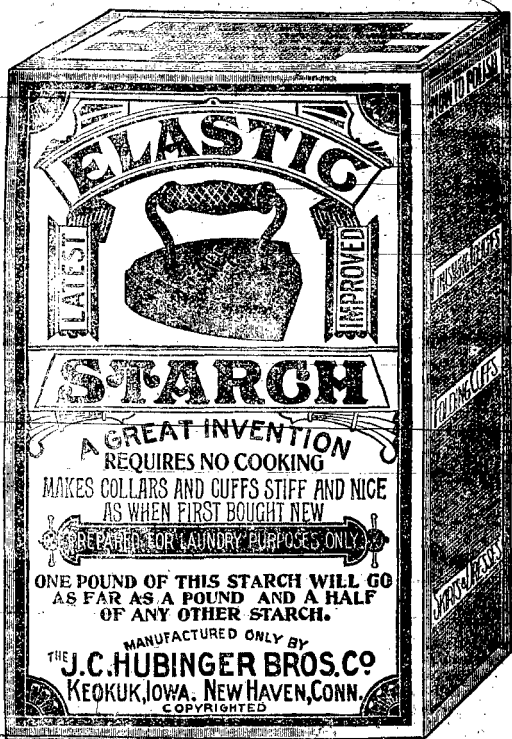

In the Persian gulf the divers have a curious way of opening the season. They depend implicitly upon the shark conjurers, and will not descend without their presence. To meet this difficulty the government is obliged to hire the charmers to divert the attention of the sharks from the fleet. As the season approaches, vast numbers of natives gather along the shore and erect huts and tents and bazaars. At the opportune moment—usually at midnight, so as to reach the oyster banks at sunrise—the fleet, to the number of eighty or a hundred boats, pulls out to sea. Each of these boats carries two divers, a steersman and a shark charmer, and is manned by eight or ten rowers. Other conjurers remain on shore, twisting their bodies and mumbling incantations to divert the sharks. In case a man-eater is perverse enough to disregard the charm and attack a diver an alarm is given, and no other diver will descend on that day. The power of the conjurer is believed to be hereditary, and the efficacy of his incantations to be wholly independent of his religious faith.

**Telephonic Talks.**

According to statistics, the number of yearly telephonic conversations in the United States is 75,000,000; of telegraphic messages, 65,000,000; of arc lights, 1,000,000; of incandescent, 15,000,000, and several hundred thousand electric motors. There are 1,000 electric railways. It is estimated that 2,500,000 persons in this country electrically contribute a means of livelihood.

# ALL FLUFF AND FUSS

LIGHT AND AIRY, BODICE CREATIONS FOR SPRING.

Puffs and Frills, Shirring and Smocking, Are Used with Great Profusion on This Season's Swiftest Waists—Some Very Pretty Popular Models.

What Is Fashionable in Gotham. New York correspondence:

U S T A B O U T half sham are some of the ingenious affections that are classified as bodices in the newest fashions. Little caplets are shown, for instance, that are nothing more than an elaborated collar. At the back with only a point appearing from the throat to between the shoulders, said point widening to the shoulders, nothing but a collar is pretended. In front a pair of long tabs sloped and fitted in to the waist, and revers showing at the neck at each side of the vest effect that may be either a part of the caplet or what is allowed to show of the under bodice. The whole gives quite the appearance of a close-fitting coat. Sleeves of the under bodice show, with perhaps a shoulder frill added that belongs to the caplet. Such a covering is just the thing to put on over one of the new gauze bodices that, with all their simplicity of cut, have the look of being so elaborate. It is a wonder how much trimming can be accomplished in a small space now that shirring, smocking and puffing have reached such a point of profusion.

being simply a maze of smocking. Wonderful effects are gotten now by the use of cross threads, and material comes by the yard plaited into the most elaborate smocked effects, but beware! If you should be caught in the rain, or even stand around in the damp, all this pressing will come out and the beauty of your bodice be gone forever. Orange silk gauze that had cross threads of white was used here, the whole body being smocked, pulled white chiffon gave the yoke, and sleeves and belt were orange silk. High neck and long sleeves are the rule for this sort of garment.

BLUEBIRDS THAT ANNOUNCE SPRING... and so made, though neck and arms may show through the gauze, the garment is admissible for house, theater or garden wear. So such a bodice is a good investment just now, because of the many uses to which it may be put. Because of their perishability these bodices are not so attractive to women who must practice economy as were other sorts that Dame Fashion has brought. As yet they are susceptible of being twisted to that everlasting ques-

### New California Discoveries.

Californians are stirring about in their mountains, prowling into deserted canyons, looking over places in creeks unvisited for years and picking into Sierra hillsides for new quartz pockets. The belief that the mother lode of the California mines has been discovered, since the Klondike excitement set men looking, is of curious interest. There would be nothing surprising in a big find in the Sierra any day, says the Boston Transcript. There are remote back country mountain sides which have been well washed down in these past forty years, whence new placers have been developed. Many old claims and placer streams in California and British Columbia have never been deserted by the Chinese, who in their unworshipful wisdom are content to wash out a few cents a day, and live in peace on a little rice.

### Fabulous Wealth.

The "imperial wealth" of newly found mining regions largely run by syndicates is in too many instances a fable. The prospects nearer home are surer and promise more rewards. ### Berlin's Divorce Record.

A statistical table giving the number of divorces in Germany during the last twelve years has revealed the fact that Berlin, of all the cities of Europe, can boast the greatest number of divorces. Even in America its record is only beaten in Utah and a few Western States. In Berlin thirty-two divorces are granted for every thousand marriages. After Berlin comes Hamburg, with twenty-seven, while Paris is far behind, with only twenty-one.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. The railroads have made reduced rates for the Exposition. For the opening ceremonies a rate of one cent a mile will be made from all points within 150 miles of Omaha. From points beyond the 150 mile limit the rate will be one fare for the round trip. All tickets of every character through Omaha, in either direction, will be made good for stopover at Omaha not to exceed five days. Summer tourist tickets will be sold at 80 per cent. of double locals to Omaha from all sections of the country with final return limit on Nov. 15. From all association points east of Colorado a rate of one fare and a third of the round trip will be made from June 1 until October 1, with a thirty day return limit.

Ralph Claybaugh, Elmer and Edw. Lundburg, C. A. Berry and Geo. Nangle went to Norfolk Saturday morning and enlisted in the militia company of that city. The four latter are on the reserve force. It is a commendable act and while The HERALD hopes they will not be called out, yet if they are, the boys will be found ready to go and will make soldiers in every sense the word implies.

The Best Liniment—"Chamberlain's Pain Balm is the finest on earth," writes Edwards & Parker of Plains, Ga. This is the verdict of all who use it. For rheumatism, lame back, sprains, swellings and the numerous slight ailments and accidents common to every household, this liniment has no equal. With it in the house, a great deal of pain and suffering may be avoided. For sale by L. P. Orth, druggist.

McNeal says "the efforts of the Bryanites and the free silver 'propaganda' to continue congress in a long drawn out session that the people might become disgusted, was beautifully shelved." Mac's friends should take him in hand at once; he's liable to be "attacked by snakes" any moment.—Democrat.

Never fear, Goldie; we can see snakes every day, some of whom are engaged in the newspaper business, while a large percentage of the fusion element are so addicted as to become fit subjects for seeing snakes, which is about all they can or care to see.

The Wakefield Republican makes the following pleasing remarks concerning the Nebraska Normal College: "Last Saturday evening, Apr. 16, the opening of the new dormitory of the Nebraska Normal College at Wayne was celebrated by a musical program rendered in the chapel of the College by the students, and a banquet later in the dining hall of the dormitory given by the college authorities. Being privileged to be present on that interesting occasion we can truly say that it was indeed a pleasant and also a highly successful affair, and served well to mark another important step in the triumphant progress of the Wayne Normal. \* \* It is a large, prosperous and thickly settled portion of the state that the College has to draw upon for recognition and support. Therefore Mr. King may well have been within the strict lines of truth when he remarked that the management, looked forward in the future years to an attendance of thousands where now there are but hundreds. \* \* Success to the Wayne Normal College! It fits teachers the better for teaching and prepares young people for their life's work. It stands between the common school and the university, an inspiration to the one and a training ground for the other. Long may it prosper, and all its future course be one of usefulness, prosperity and honor."

There is slim chance for the Wayne boys to see army service, according to the following from the Norfolk News: Captain Tracy of Company L is having no trouble at all to recruit his company up to its maximum strength of sixty-five men. Applications have been coming in thick and fast and the company now lacks but four men of its peace limit and many applications for these four places are now on file. It is the calculation to keep these applications in mind so that in case of need they can be called on. Besides numerous applications from Norfolk, letters have been received from patriots in Pierce, Battle Creek and Petersburg, while one man came up from West Point and four from Wayne to personally see what the chances were for going to the front. The captain is anxious that the entire company should be composed of young men from Norfolk, however, and these outside applications will probably not be received unless an order is received to recruit up to 100, and even then it is probable that the entire company would come from Norfolk.

W. H. McNEAL, Editor.

Member of the Northeastern Nebraska Press Association

Published every Thursday.

Up to date Bryan has not enlisted in the great Cuban cause.

The distribution for the relief of the Cubans will begin with a grand opening in the harbor of Havana, the opening notes being deep and sonorous.

Some of the ex-republicans, now of the fusion order, who condemn everybody and everything, blurt out that the present war is a republican war. So was the war of '61.

Isn't it about time for those who were howling about Wall street controlling the government to admit their error? Its about on a par with every other old thing the opposition springs.

The war is on but it doesn't stop the farmers from going right ahead with their work—the work of preparing for a mighty crop. They will not have to turn their plow-shares into swords.

Says the Omaha Penny Press: "The man or set of men or party, who or which attempts to make political capital out of the situation in which this country at present finds itself, not only merits, but will receive execration at the hands of all patriotic people."

If President McKinley is an "imbecile" it must be a new brand, and it would be a grand good thing if some of the would be statesman of the fusion stripe would find out where the President got his brand that they might procure some of it to fill up the vacuum in their make-up.

The Herald wants to see men nominated from governor down who are men tried and true. The republican party in Nebraska cannot afford to experiment with the "good fellow" sort of politicians. Candidates should have something to commend them to the suffrages of the people besides personal popularity. Known ability and integrity should be the watchword of the nominating convention.—Hartington Herald.

Governor Holcomb has at least the judgment to decline a re-nomination for governor this fall. His foresight is pretty good. The next governor will be a republican if the republican press of the state will devote more attention to inducing republicans to return to the fold instead of trying to drive other republicans out of the party. Too much attention to berating the Bee is also indulged in which is doing the party no good. Break away and unite for the good of the cause, and give all men and workers in the party a hearing.

Sixty of the State Journal hoisted Uncle Sam's flag, pointed his gun, and "let flicker" a charge of grape shot as follows: "The little 3x5 editors of Nebraska who have so pompously criticized the statesmanship of President McKinley in the controversy now ending in war, can probably reflect upon the magnitude of their presumption and the sublimity of their insignificance. In the face of unreasoning clamor the president has kept his head until passable preparations could be made for a conflict the extent of which cannot be foretold."

Don't get scared; Uncle Sam has seventy-five regularly classified warships of the navy to which an auxiliary fleet of ocean liners has been acquired during the past ninety days, such as the magnificent St. Louis and St. Paul of the American line, eighteen in all which are being equipped with first and second class batteries. The United States now owns thirty-one torpedo boats proper, besides the same number of yachts and small vessels that with small attention can be turned into an admirable torpedo fleet. There are six divisions of these boats and destroyers with from twelve to fifteen vessels to a division.

**INCREASING CIRCULATION.**

Prophecy is dangerous business. The popocrats have proven themselves neither prophets nor the sons of prophets. Their ante election predictions have signally failed to maintain parity with facts. They have parted company with developments more widely than silver or wheat have moved from each other. The ratio of even sixteen predictions to one fact has not been maintained. Prosperity and confidence have returned in the face of the silver defeat where panic and continued hard times were predicted. So far from the gold standard circumscribing the basis of confidence it has afforded for it such a solid foundation that in the very presence of war it remains unshaken.

The prediction most often heard during the campaign of 1890 was that the effect of victory for gold would inevitably be shrinkage in the volume of the currency with its attendant of continuously falling prices. We have had thirteen months of republican administration with a generally reviving prosperity, which has shown itself in the resumption of industry and the appreciation in prices of farm products which had got below the point of profitable production. Money is not only circulating more swiftly, which is the important thing as showing a revival of business, but in spite of all popocratic predictions there is more of it in circulation. There is more money absolutely and more relatively as to population. There is not only more gold passing from hand to hand in the channels of trade, but more silver of all sorts, both standard dollars and subsidiary coins.

According to the official figures of the treasury department for the year ending with March there was the very considerable increase of the money in circulation last month of \$29,681,986. The principal item in the increase was of gold coin, the gain in which was \$28,244,800. This is remarkable in view of the timidity of gold and the fact that war rumors were especially rife during the month. It is strong evidence of the confidence inspired by the verdict of 1890. The story of gain in the circulating medium is not all told by the figures for March. The gain has been large and constant for the year of which it was the last month. The sum of the money in circulation April 1, exclusive of the amount in the treasury, was \$1,750,058,045. This was \$87,000,000 more than the sum in circulation on the corresponding date last year. On the basis of population estimated by the treasury experts, April 1, 74,122,000, the circulation per capita is put at \$23.63, or 68 cents per head of population over amount of a year ago. The increase for March alone was 36 cents per head.

Among the items of increase in the circulation for the year were over \$65,000,000 of gold coin, over \$4,000,000 of standard silver dollars, and over \$4,300,000 of subsidiary silver coins. It is to be noted that the increase of standard dollars for the year is equal to half of the "dollars of our daddies" coined in all the period prior to the "crime of '73," and with the increase of silver change was greater than the sum of all the silver dollars coined before that awful transaction. This was not all the gain in the use of silver for the year, for \$23,700,000 more of silver certificates were issued. There were some decreases of other paper, which will account for the apparent discrepancy between the total gain and the aggregate of the items mentioned. An increase of about thirty-two millions of silver money in a year shows that the gold standard is very compatible with the circulation of the white metal.—Sioux City Journal.

**APRIL IN AMERICAN HISTORY.**

(Chicago Times-Herald, April 14.)  
April is an eventful month in American history. Thirty-seven years ago today, and two days after the firing of the shot that initiated the bloody battles of our civil war, Fort Sumter surrendered. Thirty-three years ago today Abraham Lincoln, who exhausted every honorable means to avert war, and whose statesmanship saved the republic, was assassinated. The fatal shot was fired on April 14 and death ensued on the following day. April witnessed both the beginning and the end of the war of the rebellion; Sumter was fired upon on April 12, 1861, and Lee surrendered to Grant April 9, 1865. The same is true of the revolutionary war; the battle of Lexington was fought on April 19, 1775, and the preliminary treaty of peace with Great Britain was ratified by Congress on April 15, 1783.

The Mexican war began in the same month, the first battle being fought on April 25, 1846.

Three momentous events in our earlier history have their dates in the month of April; the first congress met on April 6, 1789, George Washington was inaugurated President on April 30 of the same year, and the navy department was organized on April 30, 1798. It was on the last day of April, 1803, that the treaty was made with France for our purchase of Louisiana.

The necrology of the month is too voluminous to be considered, but from the list of earth's greatest who died in April may be singled out the name of Benjamin Franklin, philosopher, statesman, scientist, patriot and father of the printing craft.

As a natal month of historic events April has a fruitful record, and at the rate we are now making history the April of 1898 will contain many important additions.

**Northeast Nebraska Press Association.**

The Northeast Nebraska Press Association held its annual session in Emerson last Friday afternoon and evening and while only fifteen members of the press were present, it was without doubt one of the most interesting sessions held for a number of years. The new constitution and by-laws adopted are about the same as those in force with the South Dakota Press Association and will do much toward building up the N. E. N. P. A. The Secretary was instructed to have the constitution and by-laws printed and forward a copy to each member of the association. The annual assessment of 50 cents was made and each member of the association not present will be notified to forward his dues to Sec. Editor Mills, of the Laurel Advocate.

The afternoon session was devoted to business and at the conclusion of the adoption of the constitution and by-laws the following officers and committees were elected and appointed for the ensuing year: President, E. Cunningham; Vice-Pres., Z. M. Baird, Secretary, J. F. Mills; Treasurer, C. S. Cobb; Executive Com., W. H. McNeal, Mark Murray and G. W. Huntsberger; Com. on program for the next meeting, Z. M. Baird, W. H. McNeal and Judge Wilbur. The executive committee was authorized to correspond with the committee of the State association in regard to publishing the session laws.

Wayne was selected as the place for the semi-annual meeting and the date fixed for Monday, November 14th, 1898, at 5:00 p. m.

At the conclusion of the regular business the program for the evening was taken up. President Watson delivered an address, or rather presented some advice and suggestions to the association, which were very much appreciated by the members, and, no doubt, were productive of much good. The different papers and subjects were taken up and pretty thoroughly discussed, the different views being presented in a manner at least candid if not convincing. During the evening the association was pleasantly serenaded by the Emerson Cornet Band.

The bright and witty Wayne Democrat is a great newspaper, but is one sided in its views and growls because we do not hesitate to expose political traitors like Rawlings, such lecherous brutes as Tibbles and the monopoly-tainted Cornell. The Democrat believes it is policy to cover all sins within its own party and try to make the world understand that no man, if he believes in free silver, can do wrong. The Tribune is in favor of exposing perfidy and rottenness wherever it can find it. We think a party is stronger and better by a quick denunciation of anything crooked within its own ranks and certainly Mr. Cornell's letter is proof that he fell by the wayside. The Democrat is bold and aggressive but evidently feels that a state official is above criticism, if he was elected by the reform forces, no matter how much he may betray their trust. No party or creed binds us in that way and in spite of the Democrat we propose to keep whacking at public offenders, no matter in what party they may be found.—Dixon Tribune.

While Wm. J. Bryan has been frantically waving Cuban flags before large audiences of excited people, gaining the applause of the hour, William McKinley, calm and self poised, has been making every preparation possible for the defense of Old Glory, and will receive the plaudits of history.—News.

Tabler's Buckeye Pile ointment gives instant relief. It allays inflammation and heats. It is prompt in its action and positive in its effect. It is the kind that cures without pain or discomfort. It is for piles only. 50c.—Wilkins & Co.

M. L. Yocum, Cameron, Pa., says: "I was a sufferer for ten years, trying all kinds of pile remedies but without success. DeWitt's Witch Hazel Salve was recommended to me; I used one box; it has effected a permanent cure." As a permanent cure for piles DeWitt's Witch Hazel Salve has no equal. Orth.

**ONE OF TWO WAYS.**

The bladder was created for one purpose, namely, a receptacle for the urine, and such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys; the second is from careless local treatment of other diseases.

**CHIEF CAUSE.**

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for 24 hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root is soon realized. If you need a medicine you should have the best. At druggists, fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention THE WAYNE HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

**HOOKED THE HARNESS THIEF.**

From the Democrat.  
When Jack Barber went out early Saturday morning to the field to plow he was somewhat surprised to find the plow gone. About the same time Bill Pond discovered that a set of harness had been stolen from his barn. They at once came to town and reported the theft to Sheriff Cherry, who soon got on to the thief's trail by means of a peculiarity in the shape of the shoes on one of his horses. By this means they tracked the robber to about nine miles southeast of Wakefield, where they caught the rascal just changing the handles on Barbour's cultivator, he having evidently arrived at home late that morning. The sheriff got the thief and Barbour and Pond took the team belonging to the highwayman and hauled home the plunder.

When brought before Judge Hunter late Saturday night the man gave his name as Henry Hansen which is probably assumed. He is known as "Klondike" in the neighborhood where he lives, and is a hard old citizen, gray-headed and about sixty years old. He pleaded guilty to stealing Barbour's plow, but claimed another party, whose name he would not divulge, swiped the harness. The judge fined him \$60 and costs, and the culprit will probably take it out in jail, with the prospect of being charged with burglary on a second count, and going to the penitentiary. Sheriff Cherry drove back Sunday to Klondike's rendezvous but everything had been carted off the place. He says when he left there Saturday there was a wagonload of neckyokes, whiffletrees, etc., probably twenty sets of harness, and no end of truck. There has been a great deal of petty stealing going on for the past year all about Wayne and Wakefield, and Klondike no doubt is the man who did the work. If the farmers who are short on these articles go hunting at once they might regain their possessions.

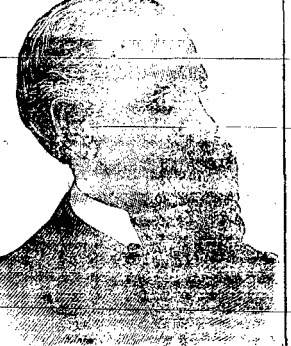

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "DeWitt's Little Early Risers" and gave him a bottle of those famous little pills for constipation, headache, liver and stomach troubles.—Orth.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

The Parole System for Mildly Insane in Vogue at the State Hospital is Working Well—Benefits Both the State and Patient.

Parole for Mildly Insane.

The parole system at the Lincoln Hospital for the Insane, whereby indigent or mild patients may be sent out of the institution and placed in the care of friends, has proven to be a wise provision in the regulation of the hospital, not only making room for new patients, but lessening the expense on those who are afflicted with only a mild form of insanity.

Western Nebraska Teachers.

The sixth annual convention of the Western Nebraska Educational Association was held last week at Sidney. There was a good attendance and much interest manifested.

NEW SHEEP SHEARING PLANT

One of the Industries Brought Into Prominence at Lincoln. The new plant for shearing and dipping sheep, which was added to the Lincoln stock yards last October, is now handling a large business and is becoming one of the important industries of that section of the state.

Edward Lorenz Acquitted.

Perhaps the most exciting trial in the history of Red Willow County ended at McCook last week, when Edward Lorenz was acquitted of the charge of murdering Michael Travers. This is the second trial, the case having been remanded back for a rehearing by the supreme court.

Want New County Buildings.

A petition containing 1,000 names was presented to the board of county commissioners at Auburn, asking them to call a special election to vote bonds to the amount of \$69,000 to build a court house and jail at Neuhaua County.

Burglars at Aurora.

Some parties as yet unknown—supposed to be tramps—entered the residence of ex-State Senator Mighell of Aurora while the family was out and after helping themselves to the contents of the cupboard ransacked the house for valuables, taking some jewelry and what little money Mrs. Mighell had in the house and then left parts unknown.

Attempted Suicide.

Timothy Cliff of Auburn fired a bullet into his brain with suicidal intent. He came to this country from France in 1878. Despondency from excessive drinking is supposed to be the cause of his act.

Nebraska Short Notes.

Falls City has a daily paper. The Ponca creamery has opened for business. Burglars last week made a \$200 haul at Fremont.

Boy Has a Narrow Escape.

Willie Pollard, aged 8 years, and his sister, older, were in the pit of the Omaha elevator at Silver Creek pushing down corn, when Willie was drawn down near the buckets. His sister being unable to hold him back, called to their father, who tends the elevator, for help.

FIRE AT HOSPITAL FOR INSANE

Chapel and Kitchen of Norfolk Institution Destroyed.

Fire broke out at the state hospital for the insane at Norfolk and it was only by the heroic efforts of the attendants assisted by the fire department that serious consequences were avoided. The fire started in a woodshed adjoining the building used for a chapel and kitchen, but this was soon subdued by the attendants and the attendants retired to bed. Soon, however, fire broke out in the chapel and kitchen and burned fiercely, as it was fanned by a strong wind.

McKey Brothers Discharged.

The preliminary hearing at Falls City of Thomas and James McKey for the alleged murder of Oliver S. Jones, near Argo on the 9th inst., was held last week. The only evidence brought against the McKey brothers was that on the day of the murder they had passed the house of Jones in going from their home to their father's, and stopped at the time the act was committed.

Western Nebraska Teachers.

The sixth annual convention of the Western Nebraska Educational Association was held last week at Sidney. There was a good attendance and much interest manifested.

No Extra Session.

Gov. Holcomb has been interviewed on the probability of an extra session of the legislature. He said that the emergency had not yet arrived. Nebraska was able to at once equip and place its entire national guard at the disposal of the government, and until some further call is made it would be unwise to make any move toward an extra session.

WHEAT ALL RIGHT.

Good Growth and Development Over About the Whole Area. The past week was marked by temperatures, but slightly differing from the normal, at the beginning of the period rather below and later rather above.

WHEAT ALL RIGHT.

East of the Rocky Mountains the actual changes in the situation have been small. Wherever there are any reports of present accruing damage they represent but very small areas, and are of little consequence when the field is viewed at large.

WHEAT ALL RIGHT.

A few low bottoms flooded in the valleys of the Ohio tributaries, and an occasional complaint of lack of moisture in southern Kansas and in Texas make up the sum of complaint. Against this there has been continued growth and development over almost the whole area, so that the wonderful improvement which was noted during the month of March has been continued in a less marked degree during April up to date.

WHEAT ALL RIGHT.

Reeding of spring wheat is progressing rapidly under circumstances almost uniformly favorable. In this respect the season is remarkably early, and seeding is now being prosecuted in the more northern portion of the belt at least a month in advance of last year.

WHEAT ALL RIGHT.

Over the whole district the ground is working well, soft and friable, and with no rains to interfere with the work. As far north as southern Minnesota and South Dakota the bulk of the acreage is now in and the area seeded is limited only by the desires of growers.

WHEAT ALL RIGHT.

There are districts in southern Minnesota and in Iowa which a dozen years ago were great wheat centers, and in which since that time the crop has dwindled down to nothing, where the acreage seeded this spring will make wheat the dominant crop this year.

WHEAT ALL RIGHT.

The same thing is largely true in Nebraska, and these three districts, generally overlooked in wheat calculations in recent years, are likely to prove large factors in this year's wheat aggregate. Oats seeding has continued under generally favorable conditions, interrupted a little in some parts of the Ohio valley by local excesses of moisture, but elsewhere with no special drawbacks.

WHEAT ALL RIGHT.

Spring work in general and corn planting in particular are decidedly in advance of a normal season, and very greatly ahead of last year. With the exception of low bottom lands in parts of the Ohio valley there has been no break in plowing during the past week, and unless weather conditions now become radically unfavorable the corn crop will be planted much earlier than usual.

## NEBRASKA CROP CONDITIONS.

Remarkable Progress Made in the Way of Spring Seeding.

Lincoln, Neb., Apr. 25.—Special: Reports received by the state board of agriculture show a remarkable progress in the way of spring seeding. More spring wheat has been put in than for years, and one half of the corn is in the ground. This is nearly three weeks ahead of the usual season. All grain seeding is far advanced. Winter wheat condition is estimated by the tabulated reports at 60 per cent. The average of all cereals is much larger than even last year.

The war rumors and the general reports that a protracted war will double the price of corn and wheat has had the result of making all farmers of the state put every acre of their farms in some good cereal. Another feature that contributes to this was the removal of all corn and wheat stored in the state from the last two years' crops to be placed on the market for consumption in the east.

## THE BANKERS MEET.

The bankers of Northeast Nebraska held a large and enthusiastic meeting at Wakefield Arbor Day, Friday, April 22nd, and perfected an organization to be known as the Northeast Nebraska Bankers' Association. The attendance was most gratifying to the promoters, over forty bankers being present. The proceedings and discussions were of an unusually interesting and pleasant nature. In the evening they were banquetted and entertained by the citizens of Wakefield and were treated to a serenade by the Wakefield Band. The Wayne bankers in attendance were A. L. Tucker, H. F. Wilson, H. Ley, D. C. Main and Nathan Chace. The following officers were elected for the ensuing year: Pres., A. L. Tucker of Wayne; Vice-Pres., W. H. Bucholz of Norfolk; Secretary, W. P. Logan of New Castle; Treasurer, L. Kimball of Wakefield. Wayne was selected as the place for holding the next meeting.

At the close of the session resolutions were adopted, one clause of which read as follows: "The course of the administration in its treatment of the Cuban question was heartily approved, and it was recommended that now that hostilities have begun, we are in favor of so vigorous a policy to be pursued that the punishment of Spain shall stand as a warning to the barbarous and uncivilized nations of the earth forever."

The war fever has struck Hunter and a number of our young men have declared their intention of enlisting at the first opportunity. Hurrah for the United States and down with the uncivilized Spaniard.

Look out for lightning rod sharks. They are working Hunter at present and roped in one of our prominent farmers recently. They offered to put up rods for him and only charge him \$5 for the work. But after he had signed the contract he discovered that it called for 78c a foot for the braces, which would have made it a very costly job for him. He got out of it by giving them \$10 to surrender his contract and considers he got off cheap. If a lightning rod man comes around your place, avoid him.

Politics will begin to drop out of sight as the war progresses. All Americans enjoy being united against the tyranny of Spain and her black history.

The mystery of life and death has puzzled many a wise man. The alchemists of old searched in vain for some combination of drugs that would prolong life indefinitely. Common sense, chemistry and medical science have combined in this age to show man the way to a long and healthy life.

Common sense teaches that a man should not over-work or over-worry; that he should take ample time for his meals, for resting and for recreation and sleep; that he should not neglect the little ills of life, because these are the precursors of serious and fatal maladies. Chemistry has enabled men to make combinations of drugs that were impossible in the days of the alchemists. Medical science has taught when, how and why these combinations of drugs should be used. Dr. Pierce's Golden Medical Discovery is the most valuable of all health-restoring medicines, and the most effective. Its first work is upon the fountain-head of life—the stomach. A man who has a weak and impaired stomach who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

It does not make flabby fat, but solid, muscular flesh, nerve force and vital energy. All medicine dealers sell it. J. W. Jordan, Esq., of Corbin, W. Va., writes: "About two and a half years ago I was taken with severe pains in the chest, began to spit up blood, was troubled with night sweats, and so weak that I could hardly walk half a mile. Tried Dr. Pierce's Golden Medical Discovery and have improved both in strength and weight. The medicine dealer who urges some substitute is thinking of the larger profit he'll make and not of your best good."

# Priceless Pain

"If a price can be placed on pain, 'Mother's Friend' is worth its weight in gold as an alleviator. My wife suffered more in ten minutes with either of her other two children than she did all together with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a mother," says a customer.

Thus writes Henderson Dale, Druggist, of Carmi, Ill., to the Bradford Regulator Company, of Atlanta, Ga., the proprietors and manufacturers of "Mother's Friend." This successful remedy is not one of the many internal medicines advertised to do unreasonable things, but a scientifically prepared liniment especially effective in adding strength and elasticity to those parts of woman's organism which bear the severest strains of childbirth.

The liniment may be used at any and all times during pregnancy up to the very hour of confinement. The earlier it is begun, and the longer used, the more perfect will be the result, but it has been used during the last month only with great benefit and success.

It not only shortens labor and lessens the pain attending it, but greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition more favorable to speedy recovery. "Mother's Friend" is sold by druggists at 75c, or sent by express on receipt of price.

## Sheriff's Sale.

Apr. 28—5w  
By virtue of an execution to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon a judgment rendered in the County Court of said county on the 15th day of December, 1897, a transcript of which said judgment was filed in the office of the Clerk of the District Court, January 22d, 1898, in an action wherein J. P. McKeesson was plaintiff and John H. Shere was defendant, I will, on the 31st day of May, 1898, at ten o'clock a. m., at the door of the office of the Clerk of the District Court, in the Court House in Wayne, in said county, sell to the highest bidder for cash, the following described real estate to-wit: Lots 11, 12, 13, 14, 15, and 16, in Block One (1), original town of Winfield, Neb., and lot Two (2), in Block One (1), Bressler & Patterson's 1st addition to Winfield, Neb., to satisfy the above judgment, the amount due thereon being \$53.38, with interest at 7 per cent. from Dec. 15, 1897, and costs and accretions thereon.  
Dated at Wayne, Nebraska, this 27th day of April, 1898.  
J. M. GIBNEY,  
Sheriff of Wayne County.

## Order of Hearing.

Apr. 29—3w  
State of Nebraska, vs  
Wayne County, vs  
At a County Court, held at the County Court Room, in and for said County, on this 27th day of April, A. D. 1898.  
Present, E. Hunter, County Judge.

In the matter of the estate of Edward W. Banks, deceased.  
On reading and filing the petition of John T. Bressler praying that the instrument purporting to be a duly authenticated copy of the last Will and Testament of said deceased, and of the Probate thereof by the Surrogate Court of the County of Dutchess, State of New York, and this day filed in this Court, may be allowed, filed, probated and recorded as the last Will and Testament of said deceased in and for the State of Nebraska, and County of Wayne.

ORDERED, That May 10th, A. D. 1898, at 10 o'clock a. m. is assigned for hearing said petition, when all persons interested in said matter may appear at a County Court to be held in and for said County, and show cause why the prayer of said petition should not be granted; and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Wayne Herald, a weekly newspaper printed in said County, for three successive weeks prior to said day of hearing.  
E. HUNTER,
