ing Cuban Coffee. Sold at P. L. Mil-
ler's for only 20 cents per pound!

The Y. M. C. A. will not hold a meet-
ing next Sunday on account of the Odd
Fellows memorial at the same hour.

The public school buildings will be
given a coat of paint this summer and
it won't hurt their appearance in the
least.

The battleship Oregon like the good
old state she is named after, is doing
herself proud these days. They are
both solid.

Ponca Gazette: W. R. Norris of
Wayne, delivers the address at the
Sioux City high school commencement
to come off on June 10. We hear the
exercises will be exceptionally good,
and from the fact that Mr. Norris is to
give an address assures us that its suc-
cess will be undoubted, and that they
will be well paid for their choice.

Mrs. R. B. Crawford gave a 5 o'clock
tea Monday evening in honor of Mrs.
DeWitt and Miss Austin of Stanton.
The tables and rooms were decorated
with yellow roses and the ladies spent
a delightful evening. Those present
were Mesdames Duffin, Feather, Ley,

roll on Monday. He informed us while
here that on Saturday evening his lit-
tle son fell from a tree breaking both
arms besides straining his left wrist. A
physician was at once summoned and
the little fellow is getting along as well
as could be expected.

The Laurel Advocate, one of the
brightest exchanges that reaches The
HERALD office, came out in holiday at-
tire last week, a sixteen page paper
containing a superb write of the thriving
town of Laurel and her business
men. Editor Mills is doing the town
of Laurel proud and her citizens should
appreciate it.

Miss Pearl Reynolds, who has been
teaching in the Anderson district in
Dixon county, closed her school last
Friday with a picnic for the pupils and
patrons of the school. A fine picnic
dinner was partaken of, after which a
short program was rendered. Miss
Louie Sullivan assisting with a very
pleasing recitation. Ice cream and
cake were also served.

Chamberlain's Pain Balm has no
equal as a household liniment. It is the
best remedy known for rheumatism,
lame back, neuralgia; while for bruises
sprains, cuts, burns, scalds, and sore
throat it is invaluable. Weritz & Pike,
merchants, Fernandus, Florida, write:
"Everyone who buys a bottle of Cham-
berlain's remedies, comes back and says
it is the best medicine he has ever
used." 25 and 50 cents per bottle at L.
P. Orth's drug store.

The Democrat preparator says "the
HERALD says there will be no celebra-
tion in Wayne." We never said any
such thing, and if the Democrat will
look over the files of The HERALD the
past month it will find that we have
urged the holding of a celebration here,
but last week when a number of the
business men had been interviewed and
thought best not to hold a celebration
this year we announced such the case
and what we said was that probably no
celebration would be held. The Demo-
crat can take it as official or not, just
as it likes. It requires work to arrange
for a celebration, not wind.

ALUMNI MEETING.

The annual meeting of the Wayne
High School Alumni which was to have
been held last Friday night was post-
poned to the evening following owing
to the heavy rain. On Saturday even-
ing about a large number of the mem-
bers of the association and their
friends gathered at the home of W. O.
Gamble and spent several pleasant
hours in conversation intermingled
with selections in vocal music and a
recitation by Miss Sweet, and then, at
ten o'clock repaired to the Boyd hotel
where a banquet had been prepared for
them. An address of welcome to the
new members was made by Pres. S.
H. Alexander, and was responded to in
well chosen words by Jas. Wright in
behalf of the class of '98. "Why are
we here" was responded to by Prof. U.
S. Conn; "Our Flag" by Thos. Holtz;
and "What of Cuba" by E. A. Lund-
burg. At the conclusion of the ban-
quet the company separated, happy in
the thought that they had been able to
participate in the meeting. Officers
elected for the ensuing year are: Pres.,
Thos. Holtz; Vice-Pres., Harry Craven;
Secretary, Rena Olmsted; Treasurer,
Maude Reynolds.

LECTURE ON CUBA.

Dr. Eugene May, of Washington D. C.,
will give his lecture on Cuba at the
M. E. church next Tuesday evening,
June 14. The lecture is a story of a
visit just made by him to the Pearl of
the Antilles, and is replete with inci-
dents of travel, descriptions of the
island, the people the war and the present
conditions. The harbor of Havana,
the wreck of the Maine and four Prov-
inces visited. Dr. May is received
everywhere with crowned houses and is
said to be the peer of the ablest lecturers
on the American platform. Go and
hear him.

A Large Audience Assembled at the
Opera House. The Exercises One of
the Most Interesting Ever Held in
the City. The Music Appreciated.

Thursday evening the weather was
beautiful—though rather warm—and a
large audience of interested and patri-
otic citizens attended the commence-
ment exercises of the Wayne High
School held at the opera house, which
were of a patriotic as well as education-
al nature, and very fitting at this period
in the nation's history being made by
the brave men of the navy and troops
in the field. Beautiful were the class
colors draping the balcony, while the
stage front was a mass of potted plants
and flowers with Old Glory very prom-
inent on the sides. Overhead was sus-
pended the class motto, "Here ends our
first lesson," and true it is, for these
nine bright young people graduating
from one of the best public schools in
the state, have just begun life's work
and the lessons of life's future duties
is before them. Any success crown
their every effort.

The exercises were begun with a
pretty song by the First grade, a su-
perb drill by the Third and Fourth
Grades, and a song by the Sixth and
Seventh grades. The class exercises
were then begun with the invocation
by Rev. Lemon. The quartet, "Queen
of the Night" was rendered by Misses
Lulu Cook, Edna Britton, Reba Nangle
and Anna Gamble.

James R. Wright delivered the salu-
tatory of the class choosing for the
subject of his oration, "The Critical
Period of American History," and for
one so young in years he handled the
subject with a knowledge and vim that
would do credit to one of much riper
years. "It is not too much to say that
the period of five years succeeding the
peace of 1783 was the most critical mo-
ment of all the history of the Ameri-
can people. * * * Today mighty armies
are being mustered on our own shores
to ride the crested waves of majestic
seas in defense of the American flag,
and American honor, to banish the
Spanish oppression forever from the
shores of suffering, bleeding and
wronged Cuba. We, as a nation, are
now just on the threshold of another
ordeal, which may prove the most criti-
cal of all."

"Time, the Threshold of Eternity,"
was the subject of an excellent paper
by Miss Alice Rundell. "The funda-
mental law of nature is progress and
advancement. Nothing is at rest. Even
the tiniest molecule is said by the
scientist to be always in motion." Her
paper was well constructed and deliv-
ered in a satisfactory manner.

"In the Harbor of Havana far away,"
a beautiful solo dedicated to the brave
heroes of the Maine, was splendidly
rendered by Miss Anna Gamble, and
brought forth a burst of applause
leaving no room to doubt the patriot-
ism of the people.

Miss Laura Holtz' oration from her
subject "Rowing up Stream," was very
fine indicating a vigorous mind for one
so young in years. Her delivery was
splendid and gestures very good. "The
question of success in life is as old as
human life itself, but its character is
such that it comes with freshness and
increasing force to every new life. The
only way we can attain the object in
view is to row for it." She thought
each one should have an aim in life,
"for to live without an aim is to die
without having achieved a single suc-
cess."

"Individuality" was the subject of a
most satisfactory oration by Miss Ethel
Tucker, one of the brightest members
of the class. She discussed the subject
admirably, showing an alert mind and
aptness for the subject in hand. "Since
the beginning of time the individuality
of man has asserted itself. Education
has been used as an instrument to
equalize mankind. We are born with
different powers, some many, some few.
All cannot be equal, but each one must
assert his own personality." Then
followed a pleasing quartet by Misses
Gamble, Cook, and Messrs Nangle and
Winterburn.

"The Modern Idea" was the title of a
well constructed oration by Harry B.
Craven, which was handed in an able

OXFORDS, SANDALS, DRESS SHOES.

The latest Styles in Spring
Footwear, at prices that
sidetrack competition, at

Maute's Shoe Store

manner, closely following the lines of
the subject and speaking in a clear and
forceful manner.

Miss Reba Nangle chose for her sub-
ject "Woman," and though she is but a
school girl graduate, yet she portrayed
in a vivid and intelligent manner the
achievements and greatness of woman.
"The hand that has the formation of a
character at its beginning exerts a
more powerful influence than any
other during life. It is more potent in
its mouldings of the young life than
any other agency can possibly be. This
power in all its greatness is wielded by
the mother." Little Alma Farr then
sang a very pretty song entitled "Don't
you hurt my dollie."

"We pay for the Cap and Bells we
wear" was the subject of a very inter-
esting oration by Miss Rena Olmsted.
"True success is attained only by great
labor, but there is dignity in toil, in
toil of the hand as well as toil of the
head, in toil to provide for the bodily
wants of an individual life, as well as
in toil to promote some enterprise of
world wide fame."

Mary E. Pawleski's oration on "Rome
was not built in a day," followed. It
was well constructed and delivered in a
very satisfactory manner. "If we will
win our daily battles," said the speaker
"we must persevere. The great, the
grand, the noble secret of success lies
in perseverance."

Julia H. Andress, the valedictorian,
spoke of "the inspiration of a Great
Trust," and that she thoroughly un-
derstood the subject was manifest in
the great thought contained therein, and
the able construction of it. "There is
no higher, grander or more powerful
motive for the true man than the re-
cognition of a great trust. Ambition
for aggrandizement, moves powerfully
the selfish man. Hate for an enemy
influences strongly the ungenerous,
unforgiving nature." In touching on
Abraham Lincoln the speaker said:
"The trust which he recognized as para-
mount to all others was not the emanc-
ipation of the slaves or the extermina-
tion of slavery, however glorious and
desirable, but to preserve the union
without the loss of a single state."

At the conclusion of the orations, A.
F. Brenner in a few appropriate re-
marks presented the class with their
diplomas. Rev. Montgomery pro-
nounced the benediction.

There were eighteen pretty little
misses who acted as flower girls and
who marched upon the stage and de-
posited their beautiful tokens of flow-
ers with compliments of the donors.
Complimentary words have been heard
on every hand of the manner in which
the class of '98 acquitted themselves.

BATTLE NEAR MANILA

THOUSAND SPANIARDS SAID TO HAVE BEEN SLAIN.

Insurgents Are Eager to Attack Old Manila Metropolis, but Admiral Dewey Will Not Permit It—Sanctiago Bombed by Sampson.

Bloody Battle Near Manila. Manila, P. I., June 27.—The Spaniards have been driven in all along the line, the fighting being very hard and bloody. It is reported over 1,000 have been killed. There was fierce hand to hand fighting for seven hours, despite the typhoon. The insurgents held Melabon, Tarlac and Paco. They are now attacking Santa Maria and Manila the suburbs of the city which is now being shelled for a distance of several miles. The governor has issued a despatch calling upon the insurgents to come to terms and in the meanwhile he is withdrawing his troops from the city. Chief Aguinaldo, in the course of an interview, has said that the insurgents are eager to rush upon Manila forthwith, but that Admiral Dewey refuses to allow "hordes of insubordinate semi-savages to storm a civilized metropolis."

SANTIAGO BOMBARDED.

Havana and Cape Haytien Advices.

Tell of the Attack. HAVANA, A. S. 6 o'clock Monday morning, twenty-four vessels of the American fleet opened fire upon the forts at the entrance to Santiago harbor and along the coast line. The firing ceased about 11 o'clock. Further details are not yet known here. Sunday Col. Aldea, with a Spanish force, sustained a fire near Punta Cabrera, from the insurgents on the land side and from the American warships. The Spanish forces were again ordered on the line from Sibornoy to Aguiñado and Sunday they checked an attempt of the American forces to land and repelled them. It is understood here that the members of the Merrimack crew who are imprisoned at Santiago de Cuba are well treated by the Spanish commander. CAPE HAYTIEN, Hayti, At 8 o'clock Monday morning heavy cannonading was heard before Fort Azouf. A quarter of an hour later the noise of the cannonading greatly increased, the firing evidently proceeding from guns of the largest caliber.

AGAIN INDICT MRS. ATKINSON

Case Against West Virginia Governor's Wife Reopened.

GLENSVILLE, W. Va., Mrs. Atkinson, wife of Gov. G. W. Atkinson, is once more beneath the shadow of an indictment for a felony. In a most peculiar circumstance the felony case against her was reopened Monday and a new indictment was found. Gov. G. W. Atkinson and Mrs. Atkinson's attorneys moved that the word "no true bill" be written upon the indictment which had failed to pass. The state objected, and in the argument which followed the grand jury admitted that witnesses against Mrs. Atkinson had not been cross-examined. By demand of the state the jury was sent back to its room and all the witnesses and documentary proofs in the Atkinson case were re-examined.

A DOUBLE LYNCHING

Suspected Negro Murderers Strung Up—Two More Likely to Die.

CHARLESTON, Mo., An execution team from Quincy, Ill., and Humboldt, Mo., arrived with about 300 negroes. They got into a free fight and City Marshal Milton Pitt Curtis Young, under arrest, when somebody in the crowd shot the marshal in the back, killing him. A posse of fifty citizens gathered and arrested Sam Young, Curtis Young, Don Taylor and Charles Young and took them to the jail. During the night Curtis Young was taken from the jail and hung. It is feared the other two will suffer the same fate.

Elephant Kills His Keeper

RAGS, Wis., Joe Anderson, an elephant keeper, was killed by his elephant, which became enraged at the circus and charged the whole police force and an excited crowd of citizens.

LAST CABLES ARE CUT.

Cuba's Connections with the Outside World Have Been Severed. KINGSTON, Jamaica: The last cables linking Cuba to the outside world were cut Saturday afternoon by a cable vessel conveyed by the dispatch boat Jolly. The coast loop connecting Santiago and Guantanamo was then cut. Proceeding to Guantanamo the vessel grappled and severed the Haytian cable. These are the only ones remaining, except a few coast loops which will probably be severed in a short time. The cutting of these cables is almost as serious for the Spaniards in the coast towns as the cutting of the foreign cables, the land wires connecting the coast towns being wholly in the mercy of the insurgents. Therefore, in the event of American troops landing in Cuba, the absence of these loops will seriously interfere with the mobilization of Spanish troops.

CENTENNIAL UNSEAWORTHY.

One of the Philippine Transports Declared to Be Unsafe.

SAN FRANCISCO, The chartering of the steamer Centennial for carrying troops and supplies to the Philippines has created somewhat of a sensation in business circles. The Centennial was built thirty-two years ago, and one afternoon paper says she has been condemned by the Japanese government and was sold to the Japanese government for \$1,000,000. The company has now chartered her to the United States government for \$500,000. The vessel is not fitted by Lloyd's and is not named in marine records.

DECLARED A DRAW.

Everhardt and Zeigler Quit Even After Twenty Rounds.

NEW YORK, The Everhardt of New Orleans and Owen Zeigler of Philadelphia boxed twenty rounds of either weights in a contest Saturday night and the result was a draw. The bout was very clean and clever and not once did either man utter a word with the suspicion of a foul. The fighting was very fast toward the end and both were still strong at the finish. The referee's decision was received by the spectators with evident satisfaction.

Lets Up on Censorship.

WASHINGTON: The government censorship on cable dispatches has been modified to the extent of allowing commercial houses to send code messages to Venezuela and Brazil. The only restriction on these messages is that they shall not pass through Spanish officials. The modification was due to requests from commercial houses having large commands of cables with Venezuela and Brazil. The censorship not only interrupted their communication, but subjected them to expense in not being able to condense messages. General Gieseler felt that the modification would not prove disadvantageous to the government.

Blue and Gray Unite.

COLUMBUS, Ohio: The great Grand Army of the Republic meets Saturday night with confederate veterans from the south in memorial exercises at the Camp Chase confederate cemetery. Col. W. H. Knass of the Grand Army of the Republic presided. Addresses were made by Col. B. H. Young of Louisville, Governor Taylor of Tennessee, J. H. Leathers of Louisville, all confederates, and Capt. Gilbert H. Brazier, Grand Army of the Republic. The confederate (the Club of Louisville) sang school children here sing. Flowers from the north and south were profusely strewn.

Mrs. Atkinson Is Released.

WHEELING, W. Va.: In the second trial of Mrs. George W. Atkinson, wife of Gov. Atkinson, on the charge of forgery, and jointly indicted with F. P. Owen as accessory, Judge Bizzard sustained the demurrer of the defense, and so far as Mrs. Atkinson is concerned the case was finally released. The decision was upon a technical point of law involving the necessity of alleging the "guilty knowledge" in the indictment.

Two Noted Men Dead.

LONDON: Samuel Plimsoll, known as the "sailor's friend," and originator of the famous "Plimsoll mark," to prevent the overloading of ships, is dead, aged 74. Eric Mackay, the author, is dead. He was born in this city in 1851, and wrote a number of books, the most prominent of which was "Love Letters of a Violinist."

Riots in the Punjab.

BOMBAY: Serious riots occurred Friday at Multava, a city of the Punjab, between Mohammedans and Hindus. The disorders arose in connection with the Muharram festival. Knives were freely used and thirty-six persons were more or less seriously injured. Many arrests were made.

Are Believed to Be Spies.

ATLANTA: Joe Castellanos and Frank Miller, believed to be spies, were brought here and locked up. Castellanos is a Spaniard, and has traveled all along the Atlantic coast. Miller is English. No papers were found on them.

Unknown Schooner Ashore.

CHATHAM, Mass.: An unknown schooner, in on Beane's Shoal in a heavy storm. It is believed she will become a total wreck. No assistance can be rendered the crew, as all the life-saving crews are off duty.

Stock Exchange Building Sold.

CHICAGO: The estate of Cyrus H. McCormick the reaper manufacturer, has purchased from the Peck heirs the Chicago Stock Exchange Building for \$2,500,000.

BRADSTREET'S REVIEW.

Favorable Crop Outlook for the Controlling Factor Now.

NEW YORK: Bradstreet's says: The general business situation might well be expressed in the single word "roses." From all the surplus wheat growing states there comes but one report, that of a large acreage, extremely good weather and crop conditions already freshening an unprecedented production of the king of cereals. With the steady and favorable progress making toward large wheat yield has come the elimination of the May wheat deal, a considerable quieting down of speculative fever and a decline in prices. That the ultimate effect of the decline has been beneficial rather than otherwise, however, is evidenced by the increased inquiry of exporters of wheat and corn, and the total movement for the week is a recent breaking one for this period of the year. Accompanying the decline in wheat have been steady declines in oats and flour, but corn is steady and even higher, partly because of some complaint as to the crop outlook, but largely owing to increased demand. Reports as to the distributive trade are encouraging this week in spite of the advanced stage of the season.

BURNED AT THE STAKE.

Shocking Fate of a Negro Outrager in Louisiana.

SHREVEPORT, La.: A thousand people gathered at Doyle, eighteen miles from here, to witness the burning at the stake of William Street, a negro, who attempted the ruin and murder of Mrs. Parish. The crime was committed on the evening of May 3. The people erected a post near the railroad track near the town, quickly piled the light wood and kindling saturated with kerosene, prepared to chain the condemned to the stake. He confessed the crime to a colored minister, but said a negro minister named John Rhodes was implicated. When going to the stake he looked frightened and refused to say anything to say. He was tied to the stake and uttered not a word as the great crackling flames shot up in succession above his head. It was a shocking sight, which lasted ten minutes when Street was a charred mass. The woman whom Street assaulted is in a most critical condition and could not identify Street when caught, until a doctor held open her eyelids.

STORM IN MINNESOTA.

Wind, Hail and Rain Do Great Damage at Brainerd.

BRINAIRD, Minn.: A terrific wind storm, accompanied by rain and hail, visited this city Thursday afternoon. The property damaged will run into the thousands. No lives were lost. The wind swept through the residence portion of the city, wrecking outbuildings, uprooting trees, demolishing glass store fronts and tearing off the roofs of bridges connecting the business portion with East Brainerd were completely wrecked. The city park is ruined. The tower in which was the bell used for fire alarm purposes was also wrecked. Thirteen freight cars standing on a dump were picked up and thrown in a pile together.

Wreck Near Blair.

A freight train broke down in a cut on the Fremont, Elkhorn and Missouri Valley Railroad, just west of Blair, the boiler derailed, blocking the track. The black hills express, which was following, dashed into the wreck and top caps were scattered. The dead and injured are as follows: Louis S. Cook, engineer passenger train, will die; Charles Hassard, mail clerk; James N. Mason, mail clerk. None of the passengers were injured seriously. All the injured men live in Missouri Valley.

Harb in a Runaway.

ERNEST Krause, aged 18 years, son of Gabriel Krause, a prominent farmer living near Columbia, was very badly injured in a runaway accident the other day. He was coming to town on the running gear of a wagon after lumber and when near the city limits on the north a team following him became unmanageable and ran away, jumping squarely onto his wagon and onto him, trampling him badly and running over him. He suffered a fracture of the skull, beside other injuries about the head and face. The chances are against his recovery.

Shooting Scrape.

NEWS has been received of a murder committed about thirty miles south of Hay Springs in the sand hills. Three ranchmen by the names of Kinkaid, Sylvester and Chase had some difficulty over fencing pasture land, and the result was Kinkaid was killed. It is not known which one of the two men did the shooting, but it is thought to be Chase. There is great excitement about the affair, as there are supposed to be several ranchmen implicated in it. They wanted to get Kinkaid out of the country. There is expected to be more trouble.

Discoveries a Shortage.

EARLY last December the board of commissioners of Cass County contracted with E. P. Hovey, an expert accountant of Lincoln, for a thorough and systematic examination of the records of the county treasurer's office during the period between January 9, 1893, and February 21, 1893. Mr. Hovey has submitted his complete report to the board. Surprising as it may seem, when considering the fact that the books have been examined regularly by the state examiner, shortages of over \$5,000 were brought to light.

Baggage Man Killed.

A. McKimney, who until recently was employed by the Burlington road as baggage man at Nebraska City, was killed in a railroad accident at St. Joseph last week. He went there to work for the Maple Leaf road a short time ago. He leaves a wife and two children.

Boy Drowned.

A party of boys were swimming in the river above the city of Fairbury, and one of the number, Chas. Morris, about 15 years old, waded into deep water and was drowned. The body has not been recovered.

Got the Wrong Bottle.

John A. Westberg, living at Lincoln, drank corrosive sublimate the other day, mistaking it for alcohol and died from the effects of the poison. He had gone into a dark closet to take a drink from a bottle of alcohol and by mistake drank from the wrong bottle. Medical aid was of no avail and he died in great agony.

Mercer Re-nominated.

Wm. David H. Mercer of Omaha received a unanimous re-nomination for a second term in congress from the Second Nebraska district Republicans.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Counsel for Sureties in the Eugene Moore Case File Their Brief with Supreme Court—Claim to Be Liable Only for His Official Acts.

The Moore Case. The counsel for the sureties in the Eugene Moore case have filed their brief with the clerk of the supreme court. After reciting the wording of the bond the brief says: "It is clear from the language quoted that the sureties upon the bond bound themselves only to make good the loss of money received by the principal by a violation of the office and the authority of the court. They did not guarantee the honesty of this court, nor undertake to indemnify persons dealing with him outside his official capacity, for the consequences of his acts. They did not extend or limit his authority as a sheriff. They bound themselves solely to make good the loss of money received officially."

Asks an Injunction.

The Chicago, Burlington & Quincy Railroad has applied to the district court for an injunction to restrain the village board of Wilber and the county commissioners of Saline County from levying or collecting any tax to pay the principal or interest on the bonds issued for the construction of the water works, alleging that they were illegally issued in excess of the 10 per cent. of the assessed valuation of the village at the time of their issue in 1891. Judge Hastings granted a temporary order and the case will come on for hearing at the October term of district court.

Prisoner Escapes with Plunder.

The negro who stole some goods at Deane and Dunbar was apprehended at Silver Creek and the Dunbar was notified to come up and prosecute. On the arrival of the prosecutors they were escorted to the jail, where they were held until they maintained to show such a party had been there was a hole 2x14 inches in the wall and a torn window screen to show where he had made his last break for liberty. The stolen goods and grip were left on a table in the room adjoining the cell where he was a prisoner. When he left he took everything with him except a coat, two vests and the grip.

Big Increase in Deposits.

The sworn statements of all banks doing business in Butler County have been recently published. The returns show the total amount of deposits to be \$635,215.24, an increase in deposits over the report of two months ago of nearly 31 per cent. Fully 99 per cent of the deposits in that county are those of farmers. Loan agents report but little demand for money, and the records of the county clerk's office show mortgages were being paid off and released in such a way that they will wipe out a vast amount of farm loans.

Silver Forces Will Face.

The Democratic and Free silver Republican state committees in session at Omaha decided to hold convention at the same time and place to be settled after a conference with the committee from the Populist state committee which meets June 24. W. J. Bryan was present at the sessions of each committee and advised steps looking to fusion.

Newsboy Painfully Hurt.

A. C. Cohen, an Omaha newsboy, received a painful injury in attempting to board a moving street car in that city. The car struck the curb as he grasped the rail and he was thrown beneath the wheels. He was quick enough to save himself, however, with the exception of his foot, which was caught by the wheel. Two toes were badly crushed and amputation was necessary.

Raising Recruits.

Judge Jesse T. Davis and Don C. Var Densou of Blair have general service recruiting for Company E, Third regiment, and have requested Gov. Holcomb to send a man to examine and muster the boys in so far as can commence drilling.

Sneak Thieves at Shelton.

Sneak thieves made their appearance at Shelton the other night. The cellar of J. W. Webster was entered and a quantity of catfish were taken. The cellar of Rev. C. C. Wilson was visited and two large baskets of dishes taken.

Woman Is Burned to Death.

Mrs. Ella Symons was burned to death at her home in Omaha by the explosion of coal oil, which ignited her clothing. Her injuries were not proved immediately fatal and she lingered in a terrible agony nearly twenty-four hours.

Nebraska Shore Notes.

The town of Areadin is going to put in electric lights. The Craig creamery will start up again in the near future. W. W. Havins of Lortette, Boone County, has lost a number of cattle from black fly.

The Mimco Church was Blown Halfway off its Foundation during the week ending the other day.

The Elkhorn Valley district republic of the Grand Army of the Republic will be held at Plainview June 12 to 15.

The Banner County Stock Association is issuing a brand book containing the brands of the members of the association.

The sheep men in the vicinity of Bay rearing great loss with their flocks in some cases being saved.

The beet fields near Stanton are in good shape this year and the acreage about one third that of last year. There is every prospect for a large yield.

Reports from over the state indicate that a large part of the corn is now planted and much of it is up. As a general thing a good stand is reported.

There was only one criminal case on the Merick County docket at the present term. The defendant pleaded guilty and will go to the penitentiary.

MAXIMUM RATE CASE.

The United States Supreme Court Annals the Former Ruling.

The supreme court of the United States on application of the attorney general of Nebraska, affirmed its decision in the maximum freight rate case as prayed. The opinion was by Justice Harlan. The motion was to strike out the words "and below those now charged by said companies," and also the words "and the freight rates on reducing its present rates of charges for transportation of freight on those presented in said act" in the case of Smith against Smith.

In granting the application to eliminate the court said:

"The general question argued before us on the original hearing was whether the rates established by the Nebraska statute, looking at them as entire, were so unreasonably low as to prevent the railroad companies from earning such compensation as would be just, having due regard to the rights of both the public and the companies. In the original hearing of that question it was appropriate and necessary to inquire as to the earnings of the respective companies under the rates established by them, looking at such rates as an entirety. We do not intend by an affirmance of the several decrees to indicate that the railroad companies should not at any time in the future, if they saw proper, reduce the rates under which they were conducting business at the time the final decrees were rendered, nor that the State Board of Transportation should not reduce rates on specific or particular articles below the rates which the companies were charging on such articles when the decrees were entered. We did not pass judgment upon the reasonableness or unreasonableness of the rates on any particular article prescribed by the statute or by the railroad companies. If the state should by statute, or through its board of transportation prescribe a new schedule of rates, the question will arise whether such rates, taking into consideration the rights of the public as well as the rights of carriers, are consistent with the principles announced by this court. Of course the reasonableness of a schedule of rates must be determined by the facts as they exist when such schedule is put into force."

The decree, as originally entered, not only enjoined the State Board of Transportation from enforcing the maximum rates, but also enjoined the officials of the railroads from "fixing" rates lower than those in force at the time the decision was rendered.

The negro who stole some goods at Deane and Dunbar was apprehended at Silver Creek and the Dunbar was notified to come up and prosecute. CONGRESS

Most of the day Saturday was spent in the Senate in discussion of the war revenue bill, several Senators being heard on different features of the measure. A proposition was made to vote upon an amendment offered by Mr. Gorman, Maryland limiting the excise tax on railroad, steamboat, electric light, telephone, express and other corporations. These were agreed to and the tax one-half of 1 per cent. Mr. Aldrich moved to lay upon the table the amendment offered by the committee, which Mr. Gorman's amendment was intended as a substitute. This brought on the most important vote taken in the Senate upon the bill. The vote resulted in yeas 41, nays 27.

The Senate remained in secret legislative session for three hours on Tuesday. The entire time was given to a rather free discussion of the Hawaiian question based on a motion declaring it to be the sense of the Senate that the question of annexation should not be discussed in open session. At the conclusion of the debate the Senate voted viva voce not to pursue the subject further except by closed doors. The consideration of the bill being now reversible, the Senate adjourned in open session, but no real headway was made. The House passed a bill authorizing the construction of a railway bridge across Lake St. Francis near Lake City, Ark. A concurrent resolution, directing the commission now codifying the criminal laws to prepare and submit a code of civil law and procedure for Alaska, was also approved. A number of private bills were passed and the House, in committee of the whole, passed a bill authorizing the Secretary of the Treasury to keep open during June and July this year such life-saving stations on the Atlantic and Gulf coasts as he might deem advisable.

Wednesday's session of the House was given to the consideration and passage of a bill called up by Mr. Jenkins (Iowa) to Wisconsin to remove all political disabilities incurred by the third section of the fourteenth amendment to the constitution. The debate was given to notable speeches from Mr. Grosvenor (Rep.) of Ohio and Mr. Settle (Dem.) of Kentucky, upon the old-fashioned of all section feeling and the

essential to the debate several minutes. It was viewed the conclusion that a member of Congress could not hold simultaneous offices in military and civil office. (Constitutionally) the bill received a unanimous vote. Marked progress was made by the Senate toward the final disposition of the war revenue measure. The committee reported on nearly sixty pages of the bill were passed upon. The interest in the session centered in the action taken upon the amendment of Mr. Gorman (Iowa) of Maryland, levying a tax of one-half of 1 per cent upon the gross receipts of all corporations doing a business exceeding \$250,000 a year. By a direct vote upon it the amendment was rejected, 27 yeas to 34. The Gorman amendment was considered that it levies a tax of one-half of 1 per cent, on all corporations, and the session ended. Yeas, 23; nays, 26.

The Senate continued its consideration of the war revenue bill through the day of Friday, completing everything but the bond provision and the amendments proposed by the Democrats to take its place. The speech of the day was made by Mr. Butler (Populist) of North Carolina. The House, practically a thousand strong, passed the urgency deficiency bill providing for emergency expenses of the army and navy departments incident to the war.

Two very important votes were given Friday in the Senate. In the first, a concurrent resolution was passed to reorganize the committee on Finance. Mr. Wolcott (Rep., Colo.) proposed an amendment directing the Secretary of the Treasury to coin silver certificates in the amount and to issue silver certificates in the amount of \$1,000,000. The amendment was agreed to by 31 yeas to 31 nays. The second vote was upon the amendment of the Finance Committee providing for the issue of \$100,000,000 of certificates of indebtedness and \$50,000,000 of bonds, to be used exclusively for the payment of the expenses of the war. After an extended debate the decision was brought to an issue, and the decision vote of 45 to 31 the bond amount was incorporated in the bill as a substitute for the amendment to issue legal tender notes.

No less than five systems of law are in use in Germany. In moving from one place to another tourists are often greatly puzzled when they find that an act perfectly allowable in one State is a crime in another. A still greater confusion often results when the right of property is considered.

SANTIAGO IS STORMED BY SCHLEY.

Fortifications of El Morro and Socapa Battered Down by the Yankee Fleet.

Americans Accomplish Their Task Without Loss of a Man or Damage to a Ship.

Washington special. The admiral falls upon Commodore Schley for striking the first blow in the Atlantic. The outer fortifications of Santiago de Cuba are practically wrecked, and Admiral Cervera's fleet of battleships is no longer a dangerous force that crossed the Atlantic to lead the Spanish fleet against the American warships. The admiral's fleet of six Spanish battleships, two cruisers, and two torpedo boats, were sent to the Krupp guns close to the shore, but they did not land. Not one shot struck Schley's vessels.

According to advices received by way of Kingston, Jamaica, the Marbledrake first sighted the presence of the Spanish fleet in the harbor. The admiral, on receiving this news, immediately ordered the fleet to the harbor entrance, and the old fleet of battleships, cruisers, and torpedo boats, were sent to the Krupp guns close to the shore, but they did not land. Not one shot struck Schley's vessels.

It was reported in Key West that the Spanish fleet, under the command of Admiral Cervera, had been captured off the eastern coast of Cuba by the American cruiser St. Paul. SUNK IN THE CHANNEL.

AMERICAN HULK BLOCKS SANTIAGO HARBOR.

Admiral Sampson Reports Having Purposely Sent Collier Merrimac Into the Mined Channel—Bottle Now More Securely Corked.

By one of the most brilliant exploits in naval annals the cork has been driven into the bottle of Santiago de Cuba and the Spanish fleet could not be more securely and double locked and the cork dropped into the bottomless depths of the sea.

Old Monitors Rebuilt. The old monitors, which did such effective service in the civil war, have been practically rebuilt at the League Island navy yard, Philadelphia, and rendered far more formidable than they were originally.

BANK IS IN DANGER.

Spain's Financial Troubles Fast Becoming Alarming.

It would not be surprising to find at any moment that the Bank of Spain had suspended specie payments. A press dispatch to London from Madrid says that Spain is fast drifting to a forced paper currency.

The Spanish Government has vainly tried to stop the run by prohibiting the exporting of silver and proposing to coin millions of pesetas daily, which it cannot do without increasing the machinery of the mint.

Miss Daisy Oman closed her term of school in Dist No. 26 last Friday with a picnic. The patrons of the school together with many of the young lady's friends attended with well-filled baskets. It was a very affectionate scene when the pupils gathered around and draped their teacher with beautiful flowers. Large flags fluttered in the trees which showed the true patriotism of the teacher.

The Democrat's ungentlemanly remark concerning the city clerk being a "stool pigeon" of The Herald, is only on a par with about four-fifths of its sayings. We can truthfully inform Goldie that Mr. Laughlin never said one word to us concerning the city printing being let, neither did the council authorize him to, and neither did Mayor Ley, so he says, tell you that the council had authorized the clerk to notify the papers to put in a bid. Well you haven't the courage to treat men with courtesy that treat you fairly.

During the summer of 1891, Chas. P. Johnson, a well known attorney of Louisville, Ky., had a severe attack of summer complaint. Quite a number of remedies were tried, but failed to afford relief. A friend who knew what was needed procured him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which quickly cured him, and he thinks, saved his life. He says that there has not been a day since that time that he has not had this remedy in his household. He speaks of it in the highest praise and takes much pleasure in recommending it when an opportunity is offered. For sale by L. P. Orth, druggist.

The Feast of the Butterflies.
On the crest of a salubrious slumber
The blossoming hedge, the wind-tars flew
As only the thrills of the fairies do.

And every butterfly came down
From Blige vale to Bliswell town,
In a velvet heave and satin gown.

With green leaf plates was the board
Complete.
With froons of dew for their bead and
mood.
And in blue Delft cups the honey-wine
swirled.

And they only stayed to dine and sup,
Nor cleared the table of butter and cup,
For the fairies shot all the fishes up,

The Chinese Plant.
Is a very queer, but highly affable. It represents the most grotesque of ferns, and grows in a very lowly manner. The leaves are quite not only of the national complexion, but also that of a sufferer from biliousness. To relieve this use Hostetter's Stomach Bitters, which will surely bring you to a healthy and happy condition.

Fancied Attributes of the Rose.
The Syrians regard the rose as an emblem of immortality. The Chinese plant it in their graves, and in the West it is said to produce sleep. Rose leaves are sometimes thrown on the fire for good luck. In France and Italy it is believed that rosy cheeks will come to the lass that lingers a drop of her blood under a rose bush.

STRONG STATEMENTS.
Three Women Relieved of Female Troubles by Mrs. Pinkham's

From Mrs. A. W. Smith, 50 Sumner St., Middleford, Me.
"For several years I suffered with various diseases peculiar to my sex. Was troubled with a burning sensation across the small of my back, that all-gone feeling was dependent, fretful and discouraged; the least exertion tired me. I tried several doctors but received little benefit. At last I decided to give your Lydia E. Pinkham's Vegetable Compound a trial. The effect of the first bottle was magical. Those symptoms of weakness that I was afflicted with, vanished like vapor before the sun. I cannot speak too highly of your valuable remedy. It is truly a boon to woman."

From Mrs. M. A. Phillips, Lexington, Ind., to Mrs. Pinkham:
"Before I began taking your medicine I had suffered for two years with tired feeling, headache, indigestion, no appetite, and a run-down condition of the system. I could not walk across the room. I have taken four bottles of the Vegetable Compound, one box of Dr. Williams' Pink Pills and one package of Sarsaparilla, and am now like a new woman, and am able to do my work."

From Mrs. Mollie Edgerly, Powell Station, Tenn.:
"For three years I suffered with such a weakness of the back, I could not perform my household duties. I also had falling of the womb, terrible bearing-down pains and headache. I have taken two bottles of Lydia E. Pinkham's Vegetable Compound and feel like a new woman. I recommend your medicine to every woman I know."

Introductions.
Do not presume that promiscuous introductions are agreeable. You should be sure that the parties to be introduced are at least willing to be made acquainted. The person of inferior rank should be presented to those of higher rank. The younger to those of superior age, and gentlemen to the ladies in every case. No extended formula is necessary in introductions. A short, courteous presentation of one to the other is all that is needed. No special excessive adulation be indulged, or gushing expressions of pleasure, etc. When a person is introduced to a party, a reference to his name is not out of place.

Because of an introduction, neither party should presume that the acquaintance shall be continued. They must depend on the encouragement in that direction, which either party may be pleased to give. A lady to whom you have been introduced may, at her option, omit to recognize you afterward. This is no discourtesy, it is her proper privilege.

In introducing parties, a formula entirely proper is, "Mr. Webb, permit me to introduce you to my friend, Mr. Curtis." Then turning to the friend presented add, "Mr. Curtis, my friend, Mr. Webb." Gentlemen bow, and shake hands on introduction. If introduced to a lady, let her make the advance in the handshaking, and whether she extend her hand or not, the gentleman should bow.

Let all handshaking be cordial, but not excessive. A mere extension of a few fingers, or a listless offering of the hand, is as far from the proper act as a grasp that splits a glove, and crushes a lady's hand.

The Use of Chicory.
Few people are aware of the extent to which chicory is used as an addition to coffee. This vegetable is usually spoken of as an adulterant, and many look upon it as such. It has, however, gained such a foothold in public esteem that householders are buying it and mixing it with their coffee by choice. It is thought to make the coffee richer, and is employed for the purpose and without any consideration for economy. An immense amount of chicory is grown in Nebraska, and the last year's yield is said to be of excellent quality. At our factory 14,000 pounds of finished chicory are turned out every twenty-four hours. This is but one of the large plants in the State. There are contracts with Nebraska farmers for 15,000 acres of chicory, and at present the drying plant is running at the rate of eighty tons a day.—New York Ledger.

Birds Made to Order.
The Japanese manufacture their tin-ware with nature. If they decide that they want a bird or an animal of a certain shape or color they set about manufacturing the article, so to speak, by the exercise of exceedingly clever ingenuity and untiring patience. Here, for example, is how the white sparrows are produced: They select a pair of grayish birds and keep them in a white cage in a white room, where they are attended by a person dressed in white. The metal effect on a series of generations of birds results in completely white birds.—Rural World.

The Ill-fated Victoria May Be Raised.
A suggestion has been put forward to raise the ill-fated Victoria, which sank in the Mediterranean with nearly all hands, by means of, with other things, heavy electro-magnets. The successful raising of the vessel would cost nearly \$500,000.

NEED NO WAGONS.
Colombo Washerwomen Carry Great Loads of Linen on Their Heads.
The Chicago lumberman with a good custom is quite apt to have her own cart and horse to collect the washing she does at home, says the Daily News. In Colombo it is different. There the washerwoman packs the linen into one

A WASHERWOMAN OF COLOMBO.

huge bundle fully as large as herself and, putting it on her head, calmly walks off with it, in no wise inconvenienced by the weight. Usually she takes it to the bank of some stream and rubs the clothes on flat stones. Modern tubs and patent wringers have no charms for her.

Right Way to Cut Cable.
When the Havana cable was "cut" the men who performed the task did so sever the parts completely, but left

STRANDS INCOMPLETELY SEVERED.

connecting strands, as indicated in the accompanying sketch. So with the Manila cable. There is an art in doing everything—a right way and a wrong.

Queer Kinds of Fuel.
In Southern California, in the peach districts, peach stones are not uncommonly used as fuel. They are sold at the carpenter's by the wagon load. Peach stones burn freely and make a very good fire. On the homeward voyage of vessels in the coconut trade coconuts are used for fuel, as they are also while the vessel is lying at her wharf, discharging, not sound-nuts, but such as are decayed and not salable. The nuts are broken before they are put into the stove. Coconuts burn freely and make a good-hot fire.

How to Detect Chicory.
Coffee which is suspected of containing chicory may be sprinkled on the surface of a glass of clear water. Coffee floats, while the chicory, being heavy, sinks, leaving a brown trail through the water. Chicory is soft to the touch and will crumble between the fingers, unlike the hard, gritty particles of coffee.

A REMARKABLE CASE.
The following case was printed originally in the Monitor, published at Monfort, Ontario. It was a case of a man who was kept for two years in a close watch, for five years. This case has had wide attention. He was confined to his bed, was hearted almost beyond restoration, and could not take solid food. Doctors called the disease spinal sclerosis, and all said he could not live. The Canadian Mutual Life Association, after a thorough examination, paid him his total disability claim of \$1,000, regarding him as incurable. For three years he lingered in this condition. After taking some of the pills of Dr. Williams' Pink Pills for Pale People, he was able to get up and walk, and in a few days he was able to take solid food. Next came a further improvement. He was able to get up and walk, and in a few days he was able to take solid food. Next came a further improvement. He was able to get up and walk, and in a few days he was able to take solid food.

his limbs. This, extended, followed by a prostrating sensation, until at last the blood began to course freely and vigorously through his body. Some time was required to get his digestive system in order, for the month he was kept in bed. Mr. Webb again and was told: "You may say there is no doubt as to my cure being permanent. I am in better health than when I gave you the first bottle of Dr. Williams' Pink Pills for Pale People. In these pills I have my release from the living death, and I shall always bless the day I was induced to take them. In the face of such testimony, can anyone say that Dr. Williams' Pink Pills are not entitled to the careful consideration of every sufferer—man, woman or child? Is not the case in truth a number of modern medicine? These pills are sold by all druggists and available by them to one of the most valuable remedial agents known to science."

LAW OF THE UMBRELLA.
An Important Opinion that Has Been Ascribed to Lord Coleridge.

The law as to umbrellas was settled once for all by Lord Coleridge in a leading English case. His Lordship held: "Umbrellas, properly considered, are a part of the atmosphere or atmosphere of the individual, and as such they are to be considered as personal property. In Sampson vs. Thompson, defendant was charged with standing on plaintiff's foot steps during a storm, and thereby soaking up a large quantity of rain to which plaintiff was entitled. The defendant pleaded that the rain was any man's rain, or rather, where it fell. It follows, therefore, that the umbrella is any man's umbrella. In all ages man and umbrellas have gone together, and there is no reason why they should be separated in law. An umbrella may, under certain circumstances—the chief of which is possession—take on the attributes of personal property, just as if a man set a tub and catch a quantity of rain water, that rain water will be considered as his personal belonging, while it is in his tub. But if the sun evaporate the water and it is rained down again, or if the tub is upset and the water spilled, then the attribute of personal ownership instantly disappears. So if a man hold his umbrella in his hand it may be considered a personal belonging, but the moment it leaves his hand it returns to the great, general, indivisible common stock of umbrellas, whether the law will not attempt to pursue it."

So far as we know there has never been a successful appeal from this decision.—Chicago News.

It costs more to resent injuries than to bear them.

Does Your Head Ache?
Are your nerves weak? Can't you sleep well? Pain in your back? Lack energy? Appetite poor? Digestion bad? Boils or pimples? These are sure signs of poisoning. From what poisons? From poisons that are always found in constipated bowels. If the contents of the bowels are not removed from the body each day, as nature intended, these poisonous substances are carried absorbed into the blood, always causing suffering and frequently causing severe disease. There is a common sense cure.

AYER'S PILLS
They daily insure an easy and natural movement of the bowels. You will find that the use of Ayer's Sarsaparilla with the pills will hasten recovery. It cleanses the blood from all impurities and is a great tonic to the nerves. Write the Doctor. Our Medical Department has one of the most eminent physicians in the United States. Tell the doctor just how you are suffering. You had better seek medical advice without cost. Address: Ayer, Lowell, Mass.

CARROLL

Editor Goldie was in town yesterday. Mrs. K. Merrill was a Wayne visitor Monday.

The corn in the cribs herabouts is being shelled.

Miss Mason of Wayne, was a Carroll visitor on Monday.

C. H. Wolf had business in Wayne on Monday morning.

A. C. VanHorn was down to the county capital yesterday.

Sheriff Cherry and D. L. Strickland were in town Tuesday.

Miss Marie Williams returned from Ponca Tuesday evening.

Mrs. Andrews returned from her Soo City visit Friday evening.

Mr. Huff shipped a car load of cattle to Omaha yesterday afternoon.

John Haines shipped cattle last week that brought him good returns.

The rains of the past week have delayed corn plowing considerably.

Mrs. Geo. Merrill is visiting this week with relatives at Vermillion.

Miss Lena Hitchcock was here yesterday looking after her music class.

Hardware Merchant Merrill is having a cistern dug, the work being done by J. B. Taylor.

It is reported that Geo. Gardner who joined the Schuyler company of volunteers, has been appointed Sergeant.

Geo. Bailey expects to soon begin shelling the T. V. corn of which there is over 100,000 bushels here.

Shannon & Son of Hoskins were here Monday and purchased two car loads of hogs which they shipped to Soo City.

Assessor Simmerman has been looking after the property interests here this week, and we will never be poorer than now.

One of the delightful events of the past week was the Baptist social at the pleasant home of Rev. Sam'l Jones on Saturday evening.

Vaughn Davis, one of Sherman precinct's most prosperous farmers, left yesterday for a three months sojourn in Pennsylvania.

Grocer Linn expects to take a deserved vacation in a short time and with his family will visit their old home in Pennsylvania.

Miss Lore who has been one of the successful teachers in the primary department of the schools here, returned to her home at DuBois, Monday.

J. C. Davis who has been in the general merchandise business here for some time, has decided to move to Soo City and has packed his goods in the Honey building, ready for shipment.

Gus. Boberg shipped three car loads of stock to Omaha the first of the week. They were from the Wadsworth ranch so well known in this part of the county. Gus is the best all-around man for ranch work in the county.

The primary department of the schools gave a decidedly successful entertainment at the M. E. church Sunday evening, the little folks doing themselves proud, indicating careful training at the hands of their teacher. At the close Miss Lore was presented with a beautiful gold pen by her pupils the presentation being made by George Merrill.

PLUM CREEK'S LATEST

Farmers' crops look very well. Corn is ready to cultivate.

C. C. Bastain shelled corn for M. Muth Tuesday.

Mrs. Panabaker and sons are visiting with her parents here.

A few of Plum Creek sports went down to the Elkhorn on a fishing expedition last Saturday but it happened to be high tide so the boys only brought back the fish they took along. Wait until low tide next time boys and perhaps they will bite.

WAR NOTES.

The American fleet bombarded the forts and batteries surrounding the entrance to the harbor at Santiago de Cuba Tuesday morning and rendered them useless and destroyed all the earthworks, while not an American vessel was struck. The bombardment lasted for three hours, giving the Spaniards a touch of the place Bob Evans speaks about. Several Spanish officers were killed, also several officers and sailors on board the Reina Mercedes, of the Spanish fleet, which was sunk.

The fortifications of Caimenera in bay of Guantanamo were bombarded by five American war ships yesterday and reduced.

The American and insurgent troops are moving on Santiago de Cuba and a decisive battle will be fought before Sunday.

Gen. Shafter with 27,000 troops left Tampa yesterday for Santiago and other points.

Admiral Dewey reports that the insurgents at Manila have captured 1800 Spanish soldiers and forty officers in several victorious battles near Cavite.

The Monitor Monterey left San Francisco for the Philippines Tuesday, to join Dewey's squadron.

Captain General August of the Philippine Islands sends an appeal to Spain for aid and it is not sent Manila is doomed. The city will soon capitulate.

TRIP TO LOOKOUT MOUNTAIN.

Ralph Claybaugh and Eight Comrades Visit That Historic Battlefield.

CAMP GEO. THOMAS, JUNE 5, '98, Second Reg. Neb. Volunteers.

(Special to the Herald.)—Today is the first day of the third week in camp at Chickamauga for us. We have become acclimated and do not mind the heat. But it is likely we shall soon be on the move for a better place than this, as a lady told us yesterday. Then she explained that she meant Cuba. We are nearly equipped and expect orders now at any time.

Friday was division review by Gen. Brockenridge. The 2nd did herself proud, getting a marking of 81 per cent, and tying the 14th N. Y. for first place. This is Gen. Fred Grant's old regiment. Grant has asked for the 2nd to be placed in his brigade. Nothing would suit us better.

The water works are nearly completed. The pipe is laid on the top of the ground and the water nearly boils.

About noon it is the finest place for a shower bath imaginable. A person can get almost any degree of heat wanted regulated by the time of day taken, and yet the boys go in swimming and some are drowned nearly every day. Thursday two were drowned, one from Missouri, the other a Tennessean. Yesterday passes were given to nine of us to go to Chattanooga. We walked two miles and a half to Lytle, then took the train. A run of eight miles through the foot-hills of Missionary Ridge brought us to Chattanooga, then three miles on a street car and we were at the foot of Lookout Mt. looking up incline No. 2. This incline is 470 ft. long and raises 1700 ft., nearly 33 ft. to the hundred the entire distance. At 700 ft. up we came to Hooper's battlefield. From here the incline is 67 ft. to the hundred. One has the sensation of the earth falling away from him. My thoughts were: "What a coast we would have if the cable should break." The top reached at last we felt safer, hired a guide and started to see what places our limited time would allow.

On first place was Point rock where the Confederates two batteries were placed. Hanging over the rocks we looked down to the Craven house and Hooker battlefield 700 feet below, and moccasin bend 1700 ft. below. Next we went to Table Rock and then to Umbrella rock, from Umbrella to Point Lookout. It was here the Federal flag was planted by 40 men of the 8th Kentucky. Here the grandest panorama in the world is seen. Standing on this rock a person can see seven states. Far to the northeast the Smoky Mts. of North Carolina are seen and peaks in South Carolina were plainly visible, while farther north looking over Missionary Ridge can be seen mountains in Virginia. One hundred and sixty miles to the north of Lookout Mt. we saw the mountains in Kentucky, while far to the west the peaks of the Snake Mts. in Alabama could be seen. Lookout Mt. is itself in Georgia and Tennessee, a vast pile of rock 85 miles long and rising to the height of 2500 ft. above sea level.

Next Rogers rock was visited; here a corp of the 78th Penn. Reg. stepped backward and was killed on the rocks below; this rock was named after him.

Our next point was High Bluff; a narrow gauge road runs at the foot of this bluff. A train passed while we were looking down. The rock raises 100 ft. perpendicular. We passed the Devil's Fire Place on our way to Sunset rock. A sunset seen here is said to be the prettiest sight on the mountain. Now to Ellis rock where the battlefields of Chickamauga, Chattanooga and Look-

out may be seen. Then down the Mt. to St. Elmo, from there back to Chattanooga and out to Orchid Knob, and the National cemetery. We boarded the train for Lytle at 11:20 p. m. and reached camp about 1:30 a. m., well satisfied with our trip. R. W. C.

One Minute is not long, yet relief is obtained in half that time by the use of One Minute Cough Cure. It prevents consumption and quickly cures croup, colds, bronchitis, pneumonia, la grippe and throat and lung troubles.—Orth.

Albion News: Pittinger Bros. had a peculiar and disastrous runaway last Monday. Their hired man was going to the field with a wagon when the team started to run. They were entirely uncontrollable and were headed for the creek. The man jumped out and they jumped in—to the creek. Before they could be got out they both drowned.

Edward B. Logan of Wakefield writes as follows to Governor Holcomb: "I can get 100 good stout Indian boys who are all good fighters, and would like to have a company of them to fight Spaniards. They are all young strong and brave, and they can all shoot straight. Please let me know when you want them and I will gather them up at Wakefield. They will make the Spaniards run."—State Journal.

It we sell one bottle of Chamberlain's Cough Remedy, we seldom fail to sell the same person more, when it is again needed. Indeed, it has become the family medicine of this town, for coughs and colds, and we recommend it because of its established merits.—Jos. E. HARNED, Prop. Oakland Pharmacy, Oakland, Md. Sold by P. P. Orth.

Billousness, dyspepsia, loss of appetite, disturbed sleep, nervousness, headache, giddiness and drowsiness, wind and pain of fullness of the stomach after meals, cold chills and flushings of heat, shortness of breath—these are the blank cheques of physical bankruptcy. Take them to a physician and he will fill them up with the name of some more or less serious disease. Every time that you carry one of them to him you draw out some of your funds in the Bank of Health. Keep it up, and there will soon be no funds in the treasury.

The man who suffers from these disorders and neglects them will soon be in the reckless grasp of some fatal disease. If he is naturally narrow chested and shallow lunged, it will probably be consumption; if his father or mother died of paralysis of some nervous trouble, it will probably be nervous exhaustion or prostration, or even insanity; if there is a taint in the family blood, it will be blood or skin disease; if he lives in a new or a low, swampy country, it will be malaria; if he lives a life of exposure, it may be rheumatism. There is just one safe course for a man to follow who finds himself out of sorts and suffering from the symptoms described. It is to resort to Dr. Pierce's Golden Medical Discovery. This medicine makes the appetite keen, corrects all disorders of the digestion, renders assimilation perfect, invigorates the liver, purifies and enriches the blood and builds firm, healthy and nerve tissue. It cures almost all diseases that result from indigestion or improper nourishment of the brain and nerves. Bronchitis, throat, and even lung diseases, when a too far advanced, readily yield to it.

It took Dr. Pierce's Golden Medical Discovery for twenty years, writes J. W. Barnhart, of No. 46 West 11th Street, Buffalo, N. Y., and it completely cured me.
