The Iowa State Grand Army Encampment at Sioux City this week is attended by large crowds and people of that city are doing their very best to entertain the Grand Army veterans and visitors.

For a number of years such heavy rain falls as have occurred this spring have not been known in this county, and while in the early part of the spring the farmers were farther ahead with their work than ever before at the same period, nevertheless the rain fall has seriously impeded work, and the husbandmen are now behind with their corn plowing. However, with a few days of good weather, the trouble will all have vanished.

Councilman Sberbahn is not in the best of humor these days. The rainy weather has been a terror to brick manufacturers and on this account John has been delayed with his work several weeks the past spring and that too at a time when brick is needed. But when the dogs start he will make things hum.

The ladies of the Minerva club met with Mrs. Beebe, Tuesday afternoon and elected the following officers for the ensuing year: Mrs. King, President; Mrs. Ludeke, vice president; Mrs. Levy, Secretary and Mrs. Dan Frazier, Treasurer. Owing to the fact that Mrs. Andrews is soon to move from the city the club presented her with a fine book of Tennyson's poems. Mrs. Beebe's little baby girl being the first child born to a member of the club since its organization she was presented with a very neat little souvenir spoon. The last meeting for the year will be held with Mrs. Crothe, next week.

Dr. May's lecture on Cuba at the M. E. church, Tuesday evening, was well attended, and many valuable lessons were learned in regard to Cuba and her people, by those in attendance. The lecture was full of humor, and pathos and of vivid descriptions of the people and island so long oppressed by the tyranny of Spain. Dr. May has wonderful descriptive powers and one could almost see the poor starving Cubans as he told of their suffering and death. He displayed a memento from the wrecked Maine, it being a section of the electric light wire which connected the dynamo with the lamps. He also displayed a machete which formerly belonged to a lieutenant of the Cuban army, who was killed in a battle with the Spaniards.

## A LETTER FROM CAMP MERRITT

(EXCLUSIVE CORRESPONDENCE.)

SAN FRANCISCO, CAL., Camp Merritt, June 4, '98.

(Special to the Herald.)—I have just bought a fountain pen and will try and use it. Not that I have not other writing to do, for I have, but I am going to put it off till about time for Battalion drill, from which I will be excused on account of Clerk's work at Captain's quarters.

This is a very hot day, and the usual Company drill after dinner was passed and now the boys are stretched out under their tents reading or sleeping. The bottom of the tents are most all tied up and the hay extends from beneath them. It is usually windy or dusty here in the afternoons, pleasant in the forenoons, but rather cool at night. But cool nights make it rather pleasant for sleeping, and we sleep pretty fast too, at least I do. Five of us sleep in one tent, and as each has a blanket, we put one under us on the straw and hay and by sleeping close together, with three or four blankets for covers we are always quite comfortable. Three of the boys in the tent with me are Nebraska University boys, while the other is also from Lincoln. They are all of them real nice fellows, as none of them smoke, chew or say coarse words. Their names are Walter Hunting, Alvin Gilbert, Don Hanlen and Harry Gunter. The first two are members of the executive committee of the Christian Endeavor Society for the Nebraska Volunteers. I knew what these boys were before I left Lincoln and made it a point to get them together and have a talk to ourselves. It is the business of the 1st Sergeant to look after the affairs and see that all records of the company are properly kept. I guess I have spoken of him in another letter. He lives at Madison and was formerly a "school-marm" like myself, so we have mutual sympathy. I have been out of camp with him a couple of times. Occasionally our Colonel gives the regiment a leave of absence for a whole afternoon or a night. We have had three of such since being here.

They were given that all might take advantage of either the Eurline or Sutro baths, which were on one day open free to the soldiers. The Sutro is a magnificent crystal palace located right on the south post of the Golden Gate and built on the shore waters of the Pacific. There are ten or twelve pools of water, some heated to various temperatures, from the condition of the water as it is direct from the Pacific to 84 degrees. A man told me that the Sutro baths were the pride of San Francisco, but I could not help but think they were the pride of the Continent as well. It only costs five cents to ride, either on steam cars or cable cars, from any part of the city, and it is about ten miles from the Ferries to Sutro Park and the Cliff House which is near by. Cliff House is another immense structure, built on the edge of the cliff to the south of the Sutro building, from which you get a very extensive view of the ocean, also the Seal rocks to the westward, which are seen a large number of sea-lions. Some of them are six to eight feet long and make quite a noise at times.

Monday, June 6, '98.

I had this much written yesterday morning when Mr. J. Hill of this city called for me and our 1st Sergeant to spend the afternoon and evening at his home. He is a friend of Mr. James of Wayne, who wrote to him; of me, and himself came out to camp and lunched me up.—He went with me to the Reg. Aid for permission, so Sergeant McElhose and myself were out leave of absence from 12 a. m. to 10 p. m. yesterday. We spent the afternoon on the wharves under his guidance. Talk about ships! Here was a forest of masts along the landings. Here was the Zealandia, one of the big transports, and the China, and the Centennial. One can form no idea of the size, finish and convenience of these vessels till he can survey them at anchor. They were putting the straw mattresses, pillows and the rations on board that the soldiers will use on the march. The ship will carry about a thousand men, and everything possible is being done for comfort. All the vessels will carry electricity. I do not know which one will carry the Nebraska Regiment, as there are other ships which have been bought or purchased by the government which have not yet reached port. We went on board a sailing vessel, the "Ben Deare," flying the British flag, and a Hinghamman showed us about deck and through the Captain's quarters. It had but lately arrived from Antwerp with a mixed cargo. The boy who showed us about deck is an apprentice, one whose parents pay for the privilege of having him on board to learn practical navigation. Its masts and yards were of hollow steel and not of wood which is most common.

We were aboard the training ship for the Naval Reserve, the "Marion." It is one of the few old style war vessels remaining. To look upon its hulk, its two masts with the smoke-stack between, the pattern of her guns and their plan of location on deck, one is carried back to descriptions read of

vessels in our early wars. Then I was led to think that perhaps this was a model vessel from our squadron during Washington's time. From the bow of the Marion we had an excellent view of the Monterey, one of our monitors lying in the harbor. Its deck line is so near the water that only its big smoke stacks and turrets with their DR guns protruding are plain to view. The Monterey is the best war vessel on the Pacific coast now, but it has orders to join Dewey at Manila, and as we stood looking at it, the smoke began to increase in volume, preparing itself to start on its 7000 mile journey. It was to leave last night at 5 p. m.

There were a great many vessels along the wharves being fitted for Klondike. Every old saw and tug boat that were formerly unfit for service are being fitted up to carry the subjects of the yellow fever to the ice fields. No wonder we read of so many accidents happening to ships bound for Alaska. It is almost a wonder that any reach their destination at all. We were aboard several vessels carrying sugar from Honolulu and also an enormous sailing vessel—the biggest of all in the harbor, and flying the stars and stripes. It carries wheat to foreign points. At an adjoining pier was a large vessel flying the French flag.

We went to the dry docks and many other places after which we took the electric cars to Mr. Hill's home where we had dinner and spent the rest of the evening. From the back porch of Mr. Hill's place we had an admirable view of the city on the Bay front as the house is on a hill, and with the aid of a field glass we were enabled to see away out over the bay to Oakland.

We were vaccinated this morning and now my left arm feels sore. The whole company marched up and had their arms scratched in turn. Quite a number of our company (26) were sick one day last week. It was just too many goodies—pies, cakes, etc. But they are not so numerous now, for outsiders can not get in camp, or hand things over the fence, unless by special permission. I like my position as Clerk because I become acquainted personally and spend so much time in the presence of the Captain and Lieutenants, as well as coming in contact with the Major of our battalion and the Colonel of the Regiment. I will stop now.

June 11th, 1898.

We go aboard ship on next Tuesday. A detail was sent from our regiment yesterday to guard the "Morgan City" and the "Senator" lying in the harbor here. These two steamships with the China, Colan and Zealandia make up the five vessels comprising the second expedition to Manila. The Morgan City and the Senator are not the largest but they are the swiftest of the five. The Nebraska Regiment will undoubtedly go on the Senator, at least two battalions of them, the 2nd and 3rd. It is the newest of the five, and our Captain who has looked her over, says she is fitted up and more convenient for the purpose than the others. The ships will sail about 240 miles each day, and as it is nearly 7000 miles it will take almost a whole month.

## I. O. O. F. MEMORIAL SERVICE

Sunday was the 22d. follows. Monday and was duly observed by the order in this city. Promptly at 2:30 the procession formed at the Lodge room and headed by the Wayne band marched to the opera house where a company of young ladies under Capt. Ferguson joined the procession carrying flowers to decorate the graves of departed Odd Fellows. On reaching the cemetery the regular ritual memorial services were carried out and wreaths of flowers placed upon the graves of departed brothers. At the conclusion of the Decoration services the procession was again formed and marched to the opera house where a large audience listened to excellent addresses by Revs. Dittell, Lemon and Montgomery. The opera house was prettily decorated with flowers and flags.

DEFENSES IN RUINS.

SAMPSON SHELLS FORTIFICATIONS OF SANTIAGO.

American Warships Throw a Furious Torrent of Deadly Projectiles—Spaniards Admit Serious Damage and Loss—Landing of Troops Under Fire.

Spanish Guns Silenced.

The news from Santiago Tuesday was of a striking character. The bombardment of the fortifications at the mouth of the harbor, which began on Saturday, was resumed Monday morning at 7:30 and continued until 11 o'clock.

The lotted-up crew, who would send as resolute dispatches possible, reported to the Spanish Government that six American warships had bombarded the fortifications at Santiago, but that the damage was "unimportant," though the commandant said that six men were killed and seven wounded on the Reina Mercedes, which would indicate that important damage was done.

That three others were killed and eight wounded on the Reina Mercedes, and that the commandant of the Reina Mercedes, the Spanish warship, notified the Navy Department that the forts were

GENERAL DON ASSENSIO LINARÉS, Commander of the Spanish troops at Santiago.

bombarded and "entirely silenced," which would not have been the case had the damage been important, as asserted by the Spanish admiral.

It is evident there were no casualties on our side or any damage to the fleet, or any danger likely to men in the harbor.

Other official reports state that immense damage was inflicted upon the enemy, that the cruiser Reina Mercedes was badly crippled, and that the Morro, Socapa and Punta Gorda forts were substantially demolished.

The heavy wrought iron foot is further demonstrated by the successful landing of the marines, which appears to have been made at Aguada, a little to the east of the entrance of the bay.

The forts being silenced and the Spanish fleet bottled up, it will be possible to land the troops, which are already on the sea, and make a close attack upon Santiago itself.

Admiral Sampson does not seem to be happy unless he can give his men daily practice in gunnery at the expense of Spanish fortifications.

Nothing gratifies him and his sailors more than to see masonry and earthworks melting away before the irresistible impact of huge shells.

It is reported that the Spanish admiral, General Linarés, and his staff, are reported to have evacuated hurriedly the positions held by them and to have given orders for the burning of the town of La Cañamanera, which lies near the entrance to the bay.

UNITED STATES TROOPS BOARDING TRANSPORTS AT TAMPA.

UNDER A HOT FIRE.

Every Spanish Gun at Santiago Was Trained on the Merrimac.

Commander Miller, who commanded the battleship Merrimac before she was turned over to the Spaniards, is now in command of the Merrimac.

When the Merrimac started toward the harbor the flash of a single gun from the Morro was seen from the deck of the New York.

The Merrimac went straight on to a point where the channel was only 400 feet wide.

Shot and shell were falling all about her, but none seemed to hit her.

When this narrow point in the harbor was reached Lieut. Hobson headed her in shore, and dropped an anchor only a few feet from the shore.

Before starting the Merrimac had been prepared, and torpedoes were ready along the dock.

The Merrimac had seven transverse bulkheads. Torpedoes were arranged so that they could be quickly exploded.

When the Merrimac was in this position that when they exploded they would tear out every bulkhead.

This was to make it absolutely impossible ever to raise her again.

The moment the anchor was dropped Lieut. Hobson and his crew fired their torpedoes over the side and then opened every port hole.

BEARS THE SICK.

Suffering Tars Brought by Ambulance Ship Solace.

The ambulance ship Solace, with the Red Cross flag flying at her masthead, came into port at New York, having on board fifty-four wounded and sick tars.

Some of them were transferred from the American warships in Cuban waters and others taken from the hospitals at Key West.

The Solace anchored off Tompkinsville, Staten Island. She made the run to New York without incident excepting for a gale which tumbled her about a bit and made things to some extent uncomfortable for the patients she carried.

But the sea voyage was a tonic to the men. They had left behind the sweltering heat of the tropics, had exchanged suffocating uniforms for cool breezes, and were now resting in the heart of the great country they had been fighting for.

They were met by a cheering throng, all at least were met in the heart of the great country they had been fighting for.

SMASHED BY OREGON'S SHELL.

Sinking of the Spanish Destroyer Terror Off Santiago.

The Spanish torpedo boat destroyer Terror and her crew of sixty men lie at the bottom of the sea, sent there by a single shell from a thirteen-inch gun of the battleship Oregon.

Not a sign of the vessel has been seen since she tried to run into Santiago Monday night. That she was destroyed with a single shell is a practical certainty.

The destroyed vessel was the Terror, left behind at Martiniague, since reported at Porto Rico, and trying to rejoin Admiral Cervera, is probably in the hands of Manila.

She was first detected by the New Orleans, on guard at the eastern end of the blockade fleet.

The New Orleans threw her searchlight on the stranger, but the latter slipped from under its beams.

The New York and the Marblehead, which were next in line, were alerted, and the alarm was passed to all the fleet.

The hanking vessels were ordered to close in on the New York, Brooklyn and Oregon, and the latter was still in pursuit.

WAR'S HEAVY COST.

Congress Told That for a Year It Will Be \$600,000,000.

Practically without debate, the House Thursday passed the urgent deficiency bill providing for emergency expenses of the army and navy departments incident to the war.

It was based upon estimates prepared by the departments and carried items aggregating \$17,845,000,000 in the Philippine expedition and the early movements upon Cuba.

In explaining the bill during the brief discussion Mr. Cannon, replying to a question by Chairman Dingley of the Ways and Means Committee, said \$600,000,000 was a conservative estimate of the cost of the war for a year.

Incidentally he estimated the appropriations already made on account of the war and likely to develop as essential, including the first six months of the coming fiscal year, at \$300,000,000.

As reported by the Committee on Appropriations and passed by the House, the bill incorporated the following items:

The items appropriated follow: Contingent expenses of the army, \$100,000,000; to be expended under the direction of the commanding general of the Philippine Islands, in his discretion, for such purposes as he may deem proper for the execution of his duties under the order of the President and for such objects as he may deem appropriate for the Philippine Islands, \$100,000,000.

Expeditious force for Cuba, including transportation, \$300,000,000; signal service of the army, \$100,000,000; subsistence department, \$500,000,000; clothing, \$100,000,000; naval establishment for emergency needs to meet any emergency that may arise, \$100,000,000; under existing conditions, \$100,000,000; Bureau of naval supplies and accounts, \$100,000,000; clothing, \$100,000,000; navy, \$1,000,000.

Unless it is decided to take up the Hawaiian question Congress will be able to adjourn soon, and serious conferences are going on daily on this subject.

The President is anxious to have the annexation resolution adopted at once. He objects to a postponement until next winter because that will be a short session and the resolutions can be defeated by filibustering.

The friends of annexation are willing to stay now and fight it out.

The Postmaster General has decided that soldiers in the volunteer army may have their letters forwarded without stamps, provided they are addressed to "regular letters" or "marine letters," which will be printed upon the envelope, with the frank of a field or staff officer, or surgeon or chaplain.

The letters so franked will be forwarded to their destination and the postage collected upon delivery, because it will often be difficult to get stamps at the front.

At the close of the session, Secretary of the Adjutant General argued up the returns of his mustering officers and found that Uncle Sam was short 5,333 men on the first call for 125,000 volunteers.

Iowa is behind 1,640 men; Kentucky, 1,233; Alabama, 1,355; Mississippi, 1,000; and North Carolina, 400.

To give some idea of the quantity of goods necessary to supply an army, it may be stated that there have already been delivered to the quartermaster at Tampa 92,000 tons, 55,000 blankets, 127,000 pairs of shoes, 297,000 pairs of socks, 142,000 undershirts, 142,000 drawers and 63,000 units of uniforms.

The Secretary of State has received a very interesting report from United States Consul Smith at Moscow concerning the recent meeting of the engineers in charge of the construction of the great Siberian railway.

He shows that the entire expenditure up to date on that enterprise has been \$188,614,000.

The agents of the Panama, the Catalina, the Buena Ventura and other Spanish ships that were seized in Cuban waters and held as contraband of war by the prize courts at Key West have pooled their forces and will carry a test appeal to the Supreme Court of the United States.

Philadelphia boasts of a teacher of noble blood, Count Alphonse Alexander Joch, who has charge of one of the night schools in the city.

When a student of the University of St. Petersburg, he was arrested for sedition and sentenced to exile in Siberia. He escaped, was captured again, and escaped again after a desperate fight, and after conducting a Liberal paper in Tilsit, Germany, finally came to Philadelphia.

Cotton Manufacture in Mexico. Mexico has been manufacturing cotton goods for centuries, the first cotton mill on a considerable scale having been established in Puebla by an enterprising Spaniard in the sixteenth century, not long after the founding of that city.

The brightest, freshest, greenest spot in all Nebraska is our little park—Being located between the business houses and the depot, it sheds its beauty from all points of view. Many a traveler passing through here on the trains takes note with him a pleasant little picture in his memory's album, which he labels "Wiseide," and thinks of only with pleasure because of the handsome appearance which the park gives to the city.

East County Herald: Mrs. J. P. Latta entertained a number of ladies Tuesday afternoon in honor of the Mesdames Hamilton of Wayne. At five o'clock the ladies were ushered into the dining room where covers were laid for twelve. The table was beautifully decorated with lovely red roses from Mrs. Latta's own conservatory. Roses were also laid at each place, which were used as bouquets. After partaking of the sumptuous repast prepared to the veranda. Those in attendance were Mesdames Dan Harrington, John Harrington, E. V. Bryant, C. W. Conkling, M. E. Hopwood, W. W. Latta, B. L. Bean, W. E. Brockings, A. M. Anderson, J. V. Stout, G. W. Green.

## ON THE WAY TO KLONDIKE.

Judge Hunter received the following interesting letter recently from J. H. Ashley who is on his way to Klondike with a party of friends.

PORTLAND, OREGON, June 2nd.

JUDGE D. HUNTER, Fraternal Brother.

Dear Sir: I am so far on my road to Alaska. We have to wait here a couple of days for two cars of our machinery, consisting of two Ury dredges, a saw mill and other stuff, 100 Yukon stoves, 150 lbs. candles. We are buying most of our supplies, outside of machinery, here and they are far cheaper here than in the east. There are twenty-two of us in the party and all go in alike. Each man pays in one thousand dollars and if we make it will be divided equally as there are no salaried men in our expedition. We all put in contracts to stay two years and our supplies will be shipped for that length of time. Our boat is constructed for the Yukon River. It will be 20 x 90, 1st and 2nd deck, with state rooms, will be steam heated and electric lighted. The dredge will be 65 ft. long and 20 ft. wide, 4 ft. deep. Our saw mill will have a capacity of 5 or 6 M per day. Our supplies will be 150 cwt. of flour, 3000 lbs. of sugar, 5000 lbs. of bacon, pork and canned beef, 20 bushels beans and other things in proportion, so we will go in good shape. Our clothing was purchased yesterday, same day we arrived here, and such clothing would make you laugh, with those fur caps, coats, pants etc. \* \* \* Yours in C. H. and P.

J. H. ASHLEY.

## Mr. Sneath had a week or so before

extended an invitation to these and some others who were unable to be present, and at about eleven o'clock they began to arrive and soon thereafter to engage in a good old-fashioned visit, such as only old soldiers know how to enjoy. At about half-past one the company was invited to partake of a bounteous dinner prepared by Mrs. Sneath, assisted by the wives of the old comrades, and was just such a dinner as no doubt the boys in blue most devoutly longed for while in the war, but did not have an opportunity to relish from the time the war opened till after its close. There was not an old soldier present, or anyone else, who did not do ample justice to this part of the entertainment. \* \* \* Pender Republic.

## Westpoint Republican, Wisner Cor:

Miss Leona Hunter, one of the many popular teachers of the Wisner schools in the term just ended, took her departure for her home in Wayne on the noon train Wednesday. A large crowd of Wisner young people were at the depot to give her good-bye. . . . Gideon Powell, that loyal old Hoosier of Wayne county, came down Wednesday to go with the rest of the old vets to spend the day with Rob Sneath near Pender, but getting in late and finding them all gone he remained in Wisner. There is no doubt he missed piles of fun.

Johnson, a well-known attorney of Louisville, Ky., had a severe attack of summer complaint. Quite a number of remedies were tried, but failed to afford relief. A friend who knew what was needed procured him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which quickly cured him, and he thinks, saved his life. He says that there has not been a day since that time that he has not had this remedy in his household. He speaks of it in the highest praise and takes much pleasure in recommending it when an opportunity is offered. For sale by L. P. Orth, druggist.

# Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scatch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several physicians, but in spite of their efforts the Cancer grew more and more. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in ten days the Cancer had dropped off. Ten years have elapsed, and not a sign of the disease has returned."

Ionis, Dixon Co., Neb., May 30, '98.

To whom it may concern:

This is to certify that I purchased in the spring of 1895, of the Crescent Nursery Co., of Crescent, Iowa, through their agent, one thousand grape vines; said vines came into bearing the year following, and the year 1897 gave a fair crop and I expect this year not less than three tons of grapes.

P. O. Ionis, Neb. C. H. SMITH, Beemer, Nebraska.

To whom it may concern:

This is to certify that I bought fourteen Russian crab apple trees of the Crescent Nursery Co., Crescent, Iowa, and they bore apples the second year after they were planted.

J. H. BANISTER, Beemer, Nebraska.

To whom it may concern:

This is to certify that I bought fifty plum trees of the Crescent Nursery Co., Crescent, Iowa, which I planted on my farm two miles from Hooper. The trees bore fruit the second year, and I am so well pleased with them that I have bought \$50 more. I can cheerfully recommend this Nursery for fair and square dealing.

J. H. PHELPS, Wisner, Nebraska.

This is to certify that I bought a \$50 orchard from C. E. Turnbull in 1893 and they all grew but seven trees, and they were replaced according to contract. All those who favor the Crescent Nursery Co., of Crescent, Ia., can depend on being fairly dealt with by them.

GODLIE SCHLAUF, Ponce, Neb., June, 1898.

To whom it may concern:

This is to certify that I bought a commercial orchard of two acres of the Crescent Nursery Co. in 1896, only lost 11 trees up to date, and they were replaced free of charge.

A. S. GREEN, Ponce, Neb., June, 1898.

To whom it may concern:

I bought \$35 worth of trees of the Crescent Nursery Co. in 1896. They were fine trees and I can recommend the company for fair dealing.

M. BRACON, Ponce, Ponce, Neb., June, 1898.

This is to certify that I have had the late Russian apple bearing for seven years and have not missed bearing since trees were three years old. Apples keep till July.

C. E. MEARNS, Wayne, Neb., April, 1897.

To whom it may concern:

This is to certify that I have bought Nursery stock of C. E. Turnbull, agent for the Crescent Nursery Co., for the past three years, and he is worthy of your patronage.

S. B. RUSSELL, Clerk of Wayne County, Wayne, Neb., April 28, 1897.

To whom it may concern:

This is to certify that I have bought Nursery stock of C. E. Turnbull, agent for the Crescent Nursery, for 3 years and all stock has been first-class. All that has not grown has been replaced free of charge. Those who favor the Crescent Nursery with their patronage can depend on being fairly and honorably dealt with.

PETER COYLE, Water Commissioner, Wayne, Wayne, Nebraska.

This is to certify that I have bought Nursery stock of C. E. Turnbull for four years and he has fulfilled his contract at all times. I can cheerfully recommend him as being worthy of my neighbors' patronage.

O. O. LEWIS, Wayne, Neb., Apr. 28, 1897.

To whom it may concern:

I have purchased Nursery stock of C. E. Turnbull for the past two years, and everything bought of him is first class and has proven entirely satisfactory.

The city of Portland is strongly republican and no town of any size could create a deficiency in the majority because he thought he had a Lease upon it.

The Wisner Chronicle issued a commendation upon the work in behalf of the graduates of the Wisner Public Schools. It was a very creditable edition and one of which the citizens of Wisner should feel proud.

The balance of Trade in favor of the United States in its commercial transactions with Europe amounts to the handsome sum of five hundred and forty million dollars. Do you feel like kicking about the Dingley tariff?

Some democratic sheets of the Sioux City Tribune are worrying about the cost of the present war. Never fear, Spain brought on this war, and Spain will pay the war debt, and don't you doubt your Uncle Sammel for a minute.

The Herald would like to see Hon. Geo. D. Micklejohn sitting in the Governor's chair of Nebraska, but at this time he is one of the most prominent figures in the affairs at Washington and probably will not be willing to accept a nomination.

Bartley has been sent to the penitentiary for his wrong doings. Let this be a warning to men in whom the people place their confidence. Not one of the smallest character should be tolerated. The young men growing up today should judge this deeply in their memory.

The great American bog is proving a mortgage and tax lift, and the rule working to perfection in Northeast Nebraska, where drouth, rain or nothing else can prevent her fertile soil from producing crops. Facts won't lie and we'll produce the fact with a big F this fall.

When we consider the fact that the Cramps have ship-building contracts with the Russian government to the amount of \$15,000,000, it is easy to perceive that the protective policy of the United States in no way prevents foreign trade relations. All nations need us in their business.

In all probability when the final test comes the great American people will endorse the policy of the present administration and do it in Oregon fashion. The doom that awaited the people upon the establishment of a sound money standard came not, and there is now waiting and watching of teeth among the followers of fusionism.

You will remember, Populist Benoyer, the adopted father of all isms in the state of Oregon, who was elected Mayor of the city of Portland by a large majority over the republican nominee last year; well, that same city spit up **Populism** at the recent election and gave a republican majority of over 1500. The people grew tired of being humbugged!

The republicans will make a good showing in Nebraska this fall, one they will feel proud of. It is to be hoped that in every county where little petty differences have created dissension in the ranks, these differences will be forgotten, and fair and equal treatment granted to all republicans. With such a condition existing in glorious victory awaits the party. Get together!

Senator Toller, Congressman Towne and others, have been bombarded their carthwheels built upon the quicksands of 10 to 1, free and unlimited coinage or bust, have been wrecked by the golden sheaves of sound money, protection and prosperity that shoots in this country in spite of war, and over the forts of the grand old state of Oregon floats the Republican banner.

The result of the congressional elections in Oregon indicates the entire possibility of reclaiming the Third Nebraska district, this fall, and showing the popocratic combine, whistlers and all. One district there which was carried by 378 two years ago was carried last Monday by something like 10,000. Such a landslide in this district would retire Uncle Sammel to the shades of his apple orchard by the comfortable majority of 3,000 or 6,000. Judges Norris will probably be the man to do it. Fremont Tribune. You know it.

**MONEY ORDER OFFICES OPENED.**

Arrangements Made so That Soldiers Can Receive Money at Camp.  
Washington, June 9.—For the convenience of troops at Camp Alger near Ft. Church, Va., the postoffice department has opened there a money order office as a branch of the Washington office, to be known as the Camp Alger postoffice station, Washington, D. C. A money order office has also been opened at Chickamauga park as a branch of the Chattanooga, Tenn., office, so that the soldiers may receive payment of money orders within the lines of encampment. Persons desiring to send money orders to soldiers in these camps, should request they be drawn as above.

W. E. Amin, the State Journal's Washington correspondent, says: "Under the second call, the regiments are to be recruited up to the maximum, the infantry regiments to consist of twelve companies of 100 men each, the cavalry regiments of twelve troops, making a maximum of 1200 men in each regiment. Nearly 50,000 of the 70,000 men to be brought out under the second call will be utilized in increasing the strength of the volunteers now in camp. This is rendered possible by a wise provision in the volunteer act, the result of experience gained in the civil war. With very few exceptions the governors of the various states have recognized the wisdom of this policy and have cheerfully acquiesced in its enforcement. Had the law been rigidly applied to Nebraska no other regiment would have been accepted. Owing, however, to the fact that Mr. Bryan desired to obtain a commission as colonel and to lead the Third Nebraska during the present war, the president and the secretary of war decided that the Governor of Nebraska should be accepted; and that a specific exception should be made in the case of Nebraska upon Mr. Bryan's account."

It was felt that although no criticism should have been made upon a refusal on the part of the government to permit Nebraska to exceed her quota, that such refusal might have been taken as evidence of a desire on the part of the administration to prevent Mr. Bryan from achieving possible prominence, for which he was anxious, and that his friends in the populist and democratic parties might have charged the administration with a desire to suppress him before the public. For this reason the president insisted that if Mr. Bryan desired to raise a regiment and to enter the service as a colonel, he should be permitted to do so and that the application of the law should be strained in his interest. There were a large number of protests against such contemplated action, not only from Nebraska, but from elsewhere. President McKinley and Secretary Alger felt that it would be generous to give another regiment to Nebraska, especially as Mr. Bryan will certainly be its colonel and in view of the fact that as leader of the democratic and populist parties in the last campaign, he was entitled to special consideration."

Lincoln, Neb., June 12.—As a result of the great quantities of rain during the past week hundreds of Chicago and New York commission firms and grain brokers have been wiring their correspondents in Nebraska for information as to the exact condition of winter wheat and corn. After a careful inquiry throughout the state, the indications are that the great rainfall did much good, and no harm. Some little corn will have to be replanted, but this is the extent of the damage. Wheat is of most extraordinary growth and of full size. Rye and oats are in equally fine shape. The small grain harvest will be two weeks earlier in Nebraska this year, and the yield per acre will be 30 per cent. greater than usual as the result of favorable weather.

Reciprocity with France under section 3 of the Dingley bill is an accomplished fact. France reduces her rates on our meats and lard compounds, and gets reduced rates on brandies, distilled wines, vermouth and works of art. Reciprocity is in application the two ways policy of Bismarck. "It gives that you may give." This commercial agreement does not look much like hostility on the part of France.—Watertown, N. Y. Standard.

Samuel Maxwell answered the purpose when the scheming politicians of the fusionist brand sought to catch the so-called free silver republicans, but Maxwell's day has now passed and in its place will appear Judge Robinson. It's nice work! A United States Senator and Congressman from the same little town. However, the voters will speak on this question.

Joseph Leiter, the wheat king of the Chicago board of trade, met with reverses and on Monday was compelled to sell 8,000,000 bushels of wheat at a loss, and as a result, the market slumped about twenty cents in a single day.

The Herald calls the attention of the editors of the Pender Times and Madison Reporter to its "27th" announcement of the death of "the free coinage of silver." For particulars see the Oregon election reports.

If the farmers in your neighborhood will combine to build a first-class road to market, they will confer a greater favor upon themselves than by combining to steer political parties.—Bolton News.

**WORK IN WASHINGTON.**

Remarkable Showing as to the Exports of Manufactured Goods.

WASHINGTON, D. C., June 9.—In view of the fact that the last 12 months of the present fiscal year was covered almost entirely by the Dingley Protective Tariff act, it is interesting to note the fact that a handsome increase was made in the exports of manufacturers. The opponents of the Protective system are so persistent in their claims that it is impossible for the American manufacturers to build up a foreign trade under that system, that it is well to keep the facts in connection with the growth of American trade in manufacturers' hands before the people. Particularly important is it to note that American exports of manufacturers during the period in question exceed the imports of manufacturers by more than \$40,000,000. It is estimated that for the full fiscal year, all of which, with the exception of one month will be under the operations of the New Protective Tariff law, will show a record of fifty millions of dollars worth of exports of manufactured commodities in excess of the imports of goods of this class. That is a record of which the manufacturers and the Protectionists of the country may be proud.

Now, note a few comparative figures: During the fiscal year of 1897 the imports of manufactured commodities exceeded the value of exports of such commodities by about \$27,922,000 worth; in 1898 the excess of imports of manufacturers over exports was \$101,795,000 worth; and in 1899 the imports of manufactured goods \$21,145,000 worth more than we exported. Thus it will be observed that as soon as the country returned to the policy of Protection the balance of our international trade in manufactured goods appeared on the right side of the ledger, and an increased volume of trade and industry was opened up for American manufacturers and working men!

Notwithstanding these striking facts from the records of the Treasury department, it is noticed that the Hon. Robert Q. Mills of Texas, the Senator who has long stood as the advocate of the doctrine of Free Trade, proclaimed during the debate in the Senate on the War Revenue bill that the best course for the Nation to pursue was to reduce the duties on imported goods 25 per cent. He offered this plan as a means of securing additional revenues. Truly the Senate did not agree with the great "industrial agent" from the rural districts of Texas, and his amendment was voted down. During the period from 1894 to 1897, the country tried the "Low Tariff" policy advocated by Mr. Mills and his Free-Trade friends. That experiment cost the country dearly. It ruined manufacturers, reduced laboring men to idleness and want, and a fact which seems to have been utterly lost by Mr. Mills, his favorite Low Tariff scheme failed to produce revenues for the Treasury of the United States in the abundance that has attended the operations of the Dingley Protective Tariff law, even under the adverse circumstances which have existed during the life of the latter law.

Now, setting aside the question of the influences of the Free-Trade policy advocated by Mr. Mills upon the export and import trade of the United States, compared with the influences of the Protective policy, as is demonstrated by the facts recorded above in regard to our imports and exports of manufactured commodities, let the student of American industrial conditions who is inclined to be snatched by the eloquence of Senator Mills for a return to Low Tariff conditions as the best and surest means of increasing the Treasury receipts of revenues, reflect upon a few facts from the records of the Treasury, viz:

During the months of February, March and April, 1898, under the Dingley Tariff the receipts from customs duties alone aggregated \$41,500,000. That was after the Dingley law had been in operation six months, or, including the time quoted, nine months. In the months of February, March and April, 1895, under the Wilson Low Tariff law, the receipts from customs were \$40,600,000. That was after the Wilson law had been in operation about the same length of time as that covered by the Dingley law quotations just made. Those figures tell the story very plainly, and make clear the fact that the Low Tariff policy for which the Free-Traders are constantly clamoring and for which Senator Mills made a plea in the Senate during the consideration of the War Revenue bill, raised less revenues from customs than did the protective Tariff policy.

In order to make certain that the friends of the Free-Trade policy may not claim that the total receipts under the Wilson law made a better showing than has the total receipts under the Dingley law, let us note some of the figures on total receipts:

Month	Total receipts.
February, 1895	\$22,888,957
March, 1895	25,470,576
April, 1895	24,247,836

Month	Total receipts.
February, 1898	\$38,072,958
March, 1898	29,907,251
April, 1898	30,951,443

These interesting figures should be kept before the people as a reminder of the workings of the two systems of revenue collection after a few months of trial of each policy within the past few years. Especially is it important to note these figures, because, under the heavily increased expenditures incurred on account of the existing war, even the Dingley law has proved to be inadequate, and it is necessary to increase the revenues of the Government

by the passage of an emergency war revenue act. Let it not be forgotten in this connection, that the finances of the United States are in magnificent condition: When it is recalled that in 1893-94, under the administration of a Free-Trade President, in a time of profound peace, but as a result of a threatened assault upon the industries of the country by a Free-Trade party, gold was fleeing from the country, and it became necessary to issue bonds to procure gold—here we are in the midst of war, and so admirable are the conditions of the Treasury that the Government is paying out gold for salaries and current expenditures. For two months the Nation has been engaged in war in preparation for war on a most expensive scale, and yet the United States is doing business on a gold basis, paying out gold as a matter of choice, and despite the influence of war upon trade and commerce, the Government receipts, under Protection, from customs and all sources are in excess of the receipts in a time of peace under Free-Trade laws.—Economist.

Moralists may prate and doctors prescribe, and science shout from the house top, but just so long as the birds sing and the bees hum, and a maiden's lips are cherry-red, and a young man's eyes look love, just so long as the kisses and kisses will kiss again.

And where, good men, is the harm if the kisses and kisses be healthy, and true love stands sponsor. It is only when ill health has blasted the sweet cleanliness of youth that death lurks upon its lips. The deadly germs of drouth consumption are as harmless as June-time butterflies to the young man or woman who is thoroughly clean, sweet and healthy in every fiber and tissue. The germs of drouth consumption, that which is already partly decayed.

There is a great medicine that is a sure and certain protection against all germs—a speedy cure for all return diseases. It is Dr. Pierce's Golden Medical Discovery. It gives youthful zest to the appetite. It corrects all faults of the digestion. It cleans the complexion. It fits the blood with the vital, life-giving elements of the food. It builds sweet, clean, healthy tissues in every part of the body. It drives out all cases of bronchitis, throat and lung affections. It takes in time, all good medicine dealers sell it, and have nothing "just as good."

Mr. Jos. Henderson Dirbin, of 34 Josephine Street, New Orleans, La., writes: "I was suffering for some two years, suffering from drouth, tired feeling, and loss of energy and appetite. I tried one bottle of Dr. Pierce's Golden Medical Discovery and found great relief. I took two more bottles, three in all and one or two vials of the 'Pellets,' which I was in good health again. I recommend Dr. Pierce's Golden Medical Discovery to do all that it is claimed to do."

A man or woman who neglects constipation suffers from slow but sure ruin. Dr. Pierce's Golden Medical Discovery cures constipation. "One little 'Pellet' is a gentle laxative, and medicine dealers sell them. No other pills are 'just as good.'"

**Legal Notice.**  
June 2nd.  
M. Holzmann Co., a foreign corporation, will take notice that on the 21st day of May, 1898, Editha P. H. and Gustav B. Holzmann, under the name and style of M. Holzmann & Co., plaintiffs, filed their petition in the District Court of Wayne County, Nebraska, against the defendant, the object and prayer of which are to recover the sum of \$2000.00 from the defendant, to wit: the sum of \$2000.00, for which amount plaintiffs pray judgment. An order of attachment has been issued in said case, and a return thereon has been returned to the court on the 11th day of June, 1898.

Mrs. Rosa Gaum Writes to Mrs. Pinkham About It. She Says:

Dear Mrs. Pinkham: I take pleasure in writing you a few lines to inform you of the good results.

For years I was troubled with an ovarian tumor, each year growing larger, until at last I was compelled to consult with a physician.

In speaking with a friend of mine about it, she recommended Lydia E. Pinkham's Vegetable Compound, saying she knew it would cure me.

Priceless Pain

"If a price can be placed on pain, Mother's Friend is worth its weight in gold as an alleviator. No wife suffers more in ten minutes with a child of her own than she does in a day with another's. No mother has ever known a child to any one excepting to become a mother, says a physician. This writes Henderson Dale, Druggist of Carmi, Ill., to the Bradford Regulator Company, of Atlanta, Ga., the proprietors and manufacturers of 'Mother's Friend.' This successful remedy is not one of the many internal medicines advertised to do away with the things, but scientifically prepared to relieve especially effective in adding strength and elasticity to those parts of woman's organism which bear the severest strains of childbirth. The liniment may be used at any and all times during pregnancy up to the very hour of confinement. The order is begun, and the longer used, the more perfect will be the result, but it has been used during the last month only with great benefit and success. It not only shortens labor and lessens the pain attending it, but greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition more favorable to speedy recovery. 'Mother's Friend' is sold by druggists at \$1.00, or sent by express on receipt of price. Write for book for women. Before Baby is Born, send for application. CARROLL. Rain! Rain! Rain! Grant Swartz came over from Akron, Iowa, last Friday. Let us have a ball team and a good name on the Fourth. Howard Porter and Sam Williamson were in Wayne Saturday. John Hines and Ben Weilbaum were Wayne passengers Friday. The musical program on the Fourth promises to be a "hammer."

Guy Manning left for Chicago with two cars of stock Saturday. J. R. Manning shipped two car loads of stock to Chicago Tuesday. While cheering for Dewey, don't let us forget the republicans of Oregon. Everything favors the largest harvest of wheat this country has ever seen. Miss Abbie Manning is attending the summer school at the Wayne Normal. Notwithstanding the heavy rains the crops in this vicinity are looking fine. Fred Boyer was one of the graduates of the Sioux City high school last week. Joe Boldon returned from New Castle Monday, accompanied by his brother. Corn is doing nicely and with a few clear days will be in advance of last year.

B. W. Wineland has just finished painting his house and it presents a very neat appearance. John Deuch was happily surprised last week by the arrival of his father and mother from Harvard county, Iowa. Misses Nellie and Flossie Swartz arrived in Carroll Saturday and will spend the summer with their brother, A. P.

Mrs. Andrews went to Wayne Friday afternoon to meet her little daughter, Maude, who was returning from an extended visit in Iowa. Miss Emma Berry came up from Sioux City Tuesday evening, having gone there to attend the graduating exercises of the Sioux City high school. Where is our ball team? Last year Carroll had the best local team in this part of the country, and there is material enough here to organize a good one.

Owing to a broken valve in the water tank at this place, the train after reaching Friday morning, was side tracked, and the engine compelled to return to Wayne for water. J. C. Dwyer left for Sioux City Monday. Mr. Davis has been in Carroll the past three years in charge of a stock of goods owned by the Tolerton & Stratton Co. of Sioux City.

M. S. Linn and family left for Pittsburg, Penn., last Thursday where they will spend seven or eight weeks visiting. During Mr. Linn's absence Miss Way will have charge of the store. McKimley's prosperity seems to have found its way to Carroll and vicinity this spring. There has been several nice houses built in town, and we understand that several are in course of construction in the country, while business in general is fully one hundred per cent better than it was two years ago.

Posters are out announcing the grand celebration to be held in Carroll July Fourth, and it promises to be the greatest celebration ever held in Wayne county. The finance committee have already over \$150 pledged and have nearly got started in their work. Now let Winside, Wayne and other neighboring towns come to Carroll this year and well promise to show you a good time. Carroll has patronized Wayne and Winside celebrations the past few years very liberally, and now they will be given a chance to reciprocate. Let us see how well they do so. Neither time nor money will be spared to make the day a grand success. There will be a literary program in the morning while the afternoon will be devoted to all kinds of sports, such as foot races, horse races, sack race, potato race, hurdle race, barrel race, grassed pig, ball game, etc., etc. A flag-bowling will be created so that those who love to spin the light fantastic will be given ample opportunity to do so. A cordial invitation is extended to one and all to come and spend the day, (also some money) with us. We assure you you will never regret having celebrated the Fourth of July in Carroll.

WINSIDE. Miss Mable Dodge went to Dakota City Tuesday. Tom Shannon of Hoskins, was in Winside one day this week. A sister of Broke Schultz has been visiting with her for some days past. Miss Elizabeth Wakefield has been visiting at the home of M. H. Dodge the some days. Parties from near Winsor purchased a table this week from W. M. Gue, proprietor of our Plumbing shop. County Commissioner Russell came up from Wayne Wednesday night to visit his niece, Mrs. Gue, and her family. Our grist mill is being treated to a coat of black paint by Mr. Bonham, very much improving its appearance. John Jaskowick now traveling for the McCormick-Harvesting Machine Co., as expert machinist, was home over Sunday. Six car loads of cattle were shipped from this place to Chicago last Friday; one car belonged to A. M. Averill, one to Frank Weible and four to Klusky & Needham. Mrs. R. Kuro has been visiting Mrs. Frank Parish and others this week. Mrs. Kuro is now residing in Norfolk, having recently removed from Winside to that place. Mrs. Ella Griffith, who has been visiting at the home of her aunt, Mrs. Benser, for some weeks, went to Lake City Wednesday morning, from where she will return to Omaha.

The Ladies Aid Society of this place served tea, cream and cake at the restaurant of Mrs. Tillson on Saturday last. W. J. Lowry's house is about completed; a porch is now being added and the place is beginning to assume a home-like look. Mr. and Mrs. A. H. Carter took the early excursion train Tuesday June 14. They went to Sioux City to attend the G. A. R. meeting. E. E. Olds shipped cattle to Omaha last week and himself and son visited the Trans-Mississippi Exposition while there. They report that the Exposition is well worth seeing. R. E. Benser and his squad of soldiers belonging to Co. G 3rd regiment of Nebraska volunteers, went to Wakefield Tuesday afternoon, expecting to go to Omaha for examination and further orders Wednesday. Our band have engaged the services of Prof. Hendricks, of Bloomfield, as leader and instructor. Mr. Hendricks will reside here for the present; the band takes five lessons per week, besides Saturday afternoon in the Park. Chas. Miller was called to Sioux City the other day by telephone message announcing the serious illness of his wife who is in a hospital in that city being treated. Later information is that she is out of danger and improving rapidly. The tubes in the old boiler at our creamery gave out recently and the creamery has been closed for some days while Mr. Gleason is putting in a new gasoline engine. The temporary closing of the creamery gives considerable trouble to its patrons, but this new engine will ensure good work from now on. George Meister was much surprised and displeased on Monday morning last to discover that the heavy rains of last Thursday and Friday had washed out twenty acres of his best corn, which had been up about five inches and is now utterly gone. He tried to get flax seed but did not succeed in getting enough to sow on the twenty acres and now is intending to sow buck wheat, a little later in spite of the fact that this crop is hard to raise successfully in this country. John C. Bender, our station agent, is a person of reliability and perfect truthfulness, if it were otherwise, we might not feel inclined to credit his word. Last Sunday afternoon he saw a huge, live, gray bear mauling through the oat field of Henry Brune about five miles from Winside. John says that the bear was followed by an inquisitive dog that seemed to be making its acquaintance and that the two strange friends finally started off toward the house as if the dog were about to treat the bear, which seemed tired out, to a good, square meal in his own kennel; it is presumed that the animal had escaped from some wondering showman.

HOSKINS. Mrs. Art Ziegler was in Norfolk on Tuesday. John Shannon made a flying trip to Carroll Monday. Mrs. H. C. Hecht was a Norfolk visitor last Saturday. Come to the ice cream supper at Ferris Saturday night. Wm. Lark was a Norfolk visitor last Sunday. What is de meaning of dat. Eddie Wichman returned from his western trip Tuesday. Nebraska is good enough for him. Andrew P. Johnson commenced this morning to raise the buildings on Mr. Harriford's farm. Rev. Leonard will preach in the M. E. church next Sunday at 11:00 a. m. Everybody invited to come. The Hecker man was in town Monday and got quite a number of new subscribers. Come again. Ludwig Ziemer is making quite an improvement on the building in which he is living. So note it, be! C. W. Anderson has a pig which is quite a curiosity. It has two heads, two mouths, three eyes and one body. One separator receives nearly 10,000 pounds of milk a day now and is run by Ray Gleason with satisfaction to all. Martin Zutz, August Schultz and August Nickel made use of the low excursion rates and went to Sioux City. Our creamery starts up now at 5:30 a. m. and continues running until about 10 o'clock, working to its fullest capacity. Diner Kuntz was in Stanton Sunday visiting his parents, sisters and friends, returning Monday. He reports a heavy rain over there. W. J. Weatherholt, formerly of Hoskins but now of Norfolk, general agent for the Milwaukee Harvesters, was in town Tuesday and Wednesday shaking hands and visiting with old friends. Peter Drummel, assisted by A. T. Waddell, is putting the road west of town in good shape with the road grader. When Poot makes up his mind to make anything good he is going to do it. On Wednesday County Surveyor Al. Hevner, together with P. L. Ransdell, Leslie Baker and Art Jankes as assistants will move to Garfield precinct to survey the same. They will take with them the four wheeled photograph and lery to be used as a boarding house. Last Thursday August Hoehnke while walking about bare footed stepped on a barb wire, but apparently injuring his foot very little. Shortly afterward he entered the granary to shovel over some musty corn. By Saturday morning his foot and leg had swollen so badly that he went to Norfolk where the physician told him that he had a case of blood poisoning and had he waited another day they could not have saved his leg. A number of

incisions were made in his leg and a great amount of puss taken out. He is in Norfolk under the care of Dr. Tashjian. COLLEGE. A large number of bright young people have enrolled for the summer term and both new and old students are doing splendid work. The new term opens with bright prospects and we are glad to note that so many young people are taking advantage of the opportunities offered here. Prof. Pile went to Osmont last Friday evening on the 5 o'clock train, delivered an address to the graduating class there and returned in time that he did not miss a class. No one but a hustler can move so rapidly. Our new teachers, Mrs. Wallis and Miss Chace, are regularly installed and are doing good work. You may study anything you desire at the College this term. The Teachers' Class was organized Monday. There twenty-four members. The following are the officers: Pres., W. E. Mangard; Sec'y., Myrtle Mills; Treas., Lewis Omay. Mrs. Wallis has organized special classes in Education and will give private lessons in ordinary to any who may desire to make advancement in that line. The social given by the Teachers' Class last Saturday night was well attended. We were glad to see so many of our former students. It was so many familiar faces of former students. Miss Cameron of Hemat, who has been in College the past eight months, returned to her home on Monday. Miss Cameron will be missed. Last Saturday brought in three of the Pierce teachers, Misses Edencor, Meek and Wutz. They have enjoyed a very successful term at school the past winter. The Misses Turner and Reimers came with them. All are having an enjoyable time. Our soldier boys are ready to leave at the word of command. The College may well be proud of so large a number of patriotic young men. New students are still coming; classes are large and interesting.

ASSESSORS' REPORT. The following is the report of the assessors of Wayne county, of the real estate and personal property assessed for taxation for the year 1905: Total value real estate, \$1,130,261; Total value personal property, 340,728; Total value banks at one-sixth, 72,357; Total value telegraph, 2,093; Total value railroads, 237,808; Grand total, \$1,821,047. The following is the valuation by precincts: Per. Prop. Real Estate. Chapin, \$10,102 8 79,750; Leslie, 12,657 65,897; Hancock, 12,401 88,134; Logan, 19,094 82,586; Hoskins, 26,000 84,789; Garfield, 14,154 96,072; Sherman, 12,162 70,455; Carroll, 12,000 5,809; Deer Creek, 20,246 75,302; Brenna, 44,190 87,785; Wilbur, 19,022 87,433; Strahan, 21,281 95,518; Winside, 17,900 18,038; Wayne, 73,742 109,770; Plum Creek, 19,435 93,220; Hunter, 26,076 104,533; Totals, \$340,528 \$1,130,261. Total number of cattle in the county 27,700; horses 6,305; hogs 25,372. Total acres wheat 90,193; corn 78,904; oats 21,324. There is an increase this year in the acreage of wheat this year over last year of 19,021 acres, of oats 2,549 acres while there is a decrease of 3,310 acres of corn. There is also an increase of nearly 6,000 head of cattle. Thus it will be seen that Wayne county ranks at the top, especially when it is known that the assessed valuation is less than one fifth of the actual valuation.

THE LATEST BATTLE. The latest war news is from Guatemala Bay to the effect that yesterday the Americans and Cubans made a joint attack upon the Spanish bush whackers and completely routed the enemy, killing about 100 Spaniards and wounding 200 more. No Americans were killed and only two wounded. Two Cubans were killed and four wounded. The yankees are equally as good on land as sea. CHILDREN'S DAY. Children's day, last Sabbath, was appropriately observed by the churches of the city, and unusually large audiences were present. At the Presbyterian church the fact that a new and more commodious structure is needed was evidenced by the crowded condition of the building. An effort had been made to excel any previous undertaking in the way of decorations and the beautiful flags and flowers were so arranged as to win the admiration of all, presenting a pretty scene. The exercises were appropriate. The little folk were thoroughly alive to the fact that it was children's day and they appeared unusually bright and happy. In the morning Rev. Lenor, pastor of the Baptist church, preached a sermon especially for little children, taking for his subject "A little traveler; the paths he should avoid," and judgment from the close attention paid to his remarks the little ones appreciated them very much. Here, too, had assembled a large audience which listened to an excellent programme consisting of music, recitations and class exercises. The church was prettily decorated with flags and flowers and potted plants added to the beauty of the decorations. In the evening the Sunday School had charge of the exercises. The exercises at the Methodist church took place in the morning and consisted of songs by the different classes and the entire school, recitations by Willie Crossland, Laura Lundberg and Maude

Wakefield Journal: Lou Hunter just finished up a job of painting two houses in the country for Mr. Whipperman. He is now painting Wm. Harrison's residence. Miss Bertha Neff left Tuesday morning for Wayne where she will attend the Wayne Normal during vacation. Allen News: Messrs Guy Saberson, Chas. Harper, Ray Saberson and Bert Porter, accompanied by their ladies, drove over to Wayne Friday for the purpose of having some photographs taken, principally of the graduating class and their teacher, Wayne being Mr. Guller's home. The C. L. S. C. has given up its intellectual efforts for the year. The final assembly was of a social nature and took place Tuesday evening June 17th, at the home of Mrs. Bronner. As each one (about twenty) entered the beautifully decorated rooms he was presented with a C. L. S. C. badge, the compliments of Mrs. Brenner. The circle's study for the year has been "History of Medieval Europe," "Imperial Germany," "Social Spirit in America," "Roman and Medieval Art," "Roman's Life in Pliny's Time" and with the interesting magazine articles, and instructive talks by Dr. Ivory and Rev. Bithell the year's work has been exceedingly gratifying. The programme for the evening consisted of music, both vocal and instrumental, recitation, an address, dainty refreshments and a social good time. Circle adjourned to meet the first Tuesday evening in September. Mrs. TERWILLIGER, Sec'y. Superintendent's Notice. I will be in the office Mondays and Saturdays.
