### A FINE RAIN.

A fine rain fell Monday morning accompanied by heavy thunder and lightning, which greatly purified the air besides greatly benefiting the small grain and setting at rest all doubt concerning the corn crop, which was just tassing out. The rain came just at the right time, in fact it most always does in this section of the country, which should cause a condition of happiness and prosperity among our people. This being true, we are of the opinion that the business men of Wayne should give a harvest celebration and invite the citizens of Wayne and neighboring counties to celebrate with us, say about the 20th of August.

### The Best-Lake City Wagons-

Philleo & Son.

A personal letter received from Rev. F. P. Baker, now of Sheldon, Ill., states that they are well and that their thoughts turn to Wayne much and often. He also says that they cannot get along without the HERALD.

The men who shipped the train load of cattle to Chicago Monday received splendid prices, ranging from \$5.00 to \$5.10 per hundred. This is conclusive evidence that with good judgment and due care stock feeding is a success and a paying business, for all feeders who have shipped cattle the past month have done exceedingly well.

The Wayne band, the champions of northeast Nebraska, will furnish a part of the music in Hartington August 25. This band alone will put 10,000 people in a trance. Speak for reserve seats early. Everything free.—Cedar County News.

# SANTIAGO IS OURS.

### General Toral Surrenders to Shafter and Sampson.

## FELL WITHOUT FIGHT

### Spaniards Saw the Utter Futility of Further Resistance

Unconditional capitulation was the demand from Washington. Naming of Terms to Be Left to the Discretion and Generosity of Victory—Spanish Commander Agrees to All the Terms Offered by the United States—The Prisoners to Be Sent Back to Spain.

Washington special. Santiago is ours. The capitulation of the city came at noon Thursday. The United States land troops under Miles and Shafter had completely surrounded the beleaguered Spanish stronghold, and the Spaniards were ready to throw their terrible destructive shells right into the heart of the doomed town. General Toral saw the utter futility of further resistance. He agreed to the terms of the truce extended to the Spaniards had expected for the appointment of commissioners to arrange terms of surrender. Shafter wired Toral's request to Washington, where the Spanish proposition for commissions was promptly declined, and the matter went out that nothing short of an unconditional surrender, and that immediately, would be considered.

The conference at the White House over General Shafter's message regarding commissions lasted only about ten minutes before an answer to the dispatch was framed. In this dispatch General Shafter was instructed to carry out the orders last sent him—namely, to secure the investment of the city was completed, and a second demand for surrender was sent. July 13 overtures were made by the Spanish general for the appointment of a commission to arrange terms of peace and the armistice was extended again to noon of July 14. On that date, convinced of the hopelessness of further resistance, Gen. Toral surrendered the city and his army.

The southeastern end of Cuba, east of a line drawn from Aserradero on the south to Sagua on the north—an area of about 5,000 square miles, the capital of the province, the forts and their heavy guns, and Toral's army, about 15,000 strong, have passed into our possession. There still remain in the western part of the province the garrisons at Holguin and Manzanillo, about 6,000 strong, under Gen. Pando, which are outside the zone of capitulation, but there is no longer fear of this force. Toral's army will be shipped to Spain, where it will be housed to us and an object lesson to Spanish fire-eaters on the peninsula. Meanwhile it is the intention to garrison Santiago with immune regiments, and every effort will be made to get the sick into safer and more comfortable quarters. It will be a matter for congratulation that this important result has been achieved with the least necessity of a general engagement and the storming of the city. Our loss of life has been comparatively small, amounting to about 250 killed, while we have about 2,000 wounded and sick in hospital. The Spaniards have suffered much more severely, a thousand of their sailors having been killed or drowned, several hundred of their soldiers killed, while a great number have died in the trenches. It is also a matter for congratulation that the Government proposes to push the expedition forward to Porto Rico as soon as Gen. Miles and Brooke will be in command.

For the success which has crowned our arms again all honor to Gen. Shafter and his men, both regulars and volunteers. They have struggled against almost overwhelming obstacles and have nobly over-

surrendered of Santiago by hour or to relieve the attack upon the city. The dispatch to General Shafter bidding him justify Toral that he must fight or surrender unconditionally without further delay was received at the White House within a few minutes of 12 o'clock noon. Then there was barely two hours of anxious waiting before the news was received announcing Santiago's fall, and that the Spanish general had concluded to quit on condition that he and his men be allowed to return to Spain. These

terms were such that the American commander could accept, and the end was therefore hailed as a deed. Indeed, it had been informally decided at the conference between the President and Secretary of War earlier in the day, in the event of the capture of the garrison, to send the prisoners to Spain. This will accordingly be done as the best possible way of disposing of the Spaniards, who would otherwise be an expensive charge upon us.

The ancient capital of Cuba is now in possession of the victorious American army under Gen. Miles and Shafter. The operations of the Army were leading up to the surrender of the city. The interest. Gen. Shafter's forces arrived off Santiago June 20, and June 23 they were safely landed at Baiquiri. The advance upon Santiago began promptly. June 24 Juraguá was captured, and on the same day occurred the great repulse of the Spaniards at Las Guasimas by the regulars and rough riders. June 26 Shafter occupied Sevilla and June 27 his advance was within three miles of Santiago. June 30 Caibari was taken, and July 1 and 2 there was fighting all along the front, which resulted in the capture of San Juan and the driving back of the Spaniards from their outer line of defenses. July 3 Gen. Shafter, demanded the surrender of the city, and the demand was emphasized by the destruction of Corvera's fleet in its desperate effort to escape from Santiago harbor. An armistice was arranged, which was successively extended on July 9 and 30. In the last named date Gen. Miles demanded unconditional surrender, and the flag hoisted over the city. July 11 reinforcements came up.

# DEWEY'S QUICK WORK

### BOMBARDS SPANISH FORTIFICATIONS AT SUBIG BAY.

### Makes Captive 500 Dons and Teaches a German Commander to Mind His Own Business—Had Protected Spaniards from Attack by Insurgents.

Victory Was Complete. Admiral Dewey has gained another victory in the Philippines. The Spanish garrison on Grand Island, Subig bay, is now in the possession of the Americans. Col. Rio, commander of the Spanish forces, and 500 men were taken prisoners. Six hundred Spanish rifles, 40,000 rounds of ammunition and one Hotchkiss gun were also captured. So suddenly was the attack made by Dewey's ships that not a shot was fired by the Spaniards, and the most important harbor in the Philippines, next to Manila, was secured without the sacrifice of a single life.

July 6 Gen. Aguinaldo, the insurgent chief, reported to the admiral that his soldiers controlled all the Subig bay ports except Grand Island, which was held by a strong Spanish garrison. He also reported that the Spanish general intended to permit them to attack the Spaniards on Grand Island. Admiral Dewey early on July 7 dispatched the Raleigh and Concord to take Grand Island and capture the garrison. Almost before daylight the ships steamed close to Grand Island, and the Spanish sentries knew what was going on. American shells were being poured into the torpedo station and the earth-

works. Both the station and earthworks were soon a mass of ruins, but still the enemy showed no indications of surrendering. "Throw a shell into the commander's house," ordered Captain Coghlan of the Raleigh. "These fellows don't seem to be in a hurry to show the white colors." A six-inch shell from the Raleigh was sent toward the enemy, and the aim was true. It went tearing through the Spanish commander's house, and the white flag was instantly shown. Lieut. Rodman of the Raleigh and Ensign Napier of the Concord were placed in command of a landing party, and Col. Rio surrendered with his entire force and arms. The

GERMAN GUNBOAT IRENE.

She attempted to protect Spaniards in Manila, but desisted when Dewey sent the Raleigh and Concord to investigate. The Spaniards are as docile as lambs, and seem entirely broken in spirit and half starved. The place was captured almost before the foreigners knew that such a step was contemplated. The German warship Irene quickly withdrew when the engagement began. Admiral Dewey's possession of Subig bay defeats Germany's supposed plans to interfere in the Philippines. The insurgents captured the valuable merchant steamer named Philippine, and it was their intention to land rebel troops on Grand Island and attack the Spanish garrison. Insurgent officers on the Philippine say the Germans on the Irene ordered them away from Subig bay, and they were afraid to attack for fear of being fired upon from the emperor's warship. When this situation was reported to Admiral Dewey he at once decided to attack the Spaniards on Grand Island.

Not Disappointed. The total annihilation of the fleet of Admiral Cervera, danger to the United States fleet from the Spanish navy has not altogether disappeared from Cuban waters. Admiral Cervera's squadron was sent to the West Indies for a specific purpose, which it failed to accomplish because the Spaniards were not realizing the trap into which his ships were entering, ventured into the harbor of Santiago and discovered, when it was too late, that it was impossible for him either to do the beleaguered city any good or to make his own escape. But the defeat of Cervera is only a part of the general power of Spain in Cuban waters, and if that Government was disposed to mobilize the extensive fleet of cruisers, gunboats and mosquito vessels which now abound in the numerous keys and small bays on the Cuban coast possibly it could make a good showing in a sea fight. Spain has now twelve cruisers, thirty gunboats of various sizes, and a number of small yachts and tugs of various sizes and armaments, which were converted into war vessels at the beginning of the Cuban insurrection in 1895.

Advance on Second Spanish Island Has Actually Begun. The movement of the American army on Porto Rico may be said to have begun. No troops have left our shores openly en route to the island, but the general re-arranging of additional regiments in Santiago when it is recognized that Gen. Shafter has as large an army as he needs is in reality the laying of the foundation of the Porto Rican expeditionary force, and the hurry orders that have been sent to the southern concentration of the army made ready to march, bodies of troops for early movement mark the preparation for the superstructure. The determination of the War Department to send a formidable force for the capture of Porto Rico has been strengthened by the message made by the Spaniards in Santiago. The expedition to go against Porto Rico will consist of between 25,000 and 30,000 men. It is not doubted that this American force, with the help of the fleet, will be ample to take the island.

Can Save Cruiser Colonel. A dispatch from Captain General Augustin states that Gen. Menéndez will be court-martialed for deserting his command and going to Manila.

# GRANDE ISLAND AND SUBIG BAY, TAKEN BY DEWEY.

GRANDE ISLAND AND SUBIG BAY, TAKEN BY DEWEY.

GRANDE ISLAND. SAGASTA GIVES UP. Prime Minister of Spain Resigns His Position. The ministerial crisis in Spain which has been indicated and inevitable for some time appears to have occurred at last. It is reported that Sagasta called upon the Queen Regent and tendered his own resignation and that of the entire cabinet. While nothing definite is said in the dispatches about the significance of the action, there seems to be little doubt that it is directly due to the general conviction that the time is at hand for the initiation of peace overtures. There are apparently irreconcilable differences of opinion in the present ministry on this vital question, and at least a partial reconstruction has become necessary.

## "YELLOW JACK" IN THE FIELD.

Advice Say the Scourge Has Made Its Appearance Before Santiago. Under the white flag of truce the most formidable ally of the Spanish army, yellow fever, has crept into Santiago and fallen with appalling force upon the American forces. Gradually the details were whispered about Washington. It was said the scourge had actually reached the army and that over a hundred cases were reported. The situation was regarded as distressingly bad, the terrible rains and floods doing their share to add to the army's misery. Gen. Miles reports that he has taken steps to isolate the yellow fever patients and to remove the refugees far enough away to prevent the disease from being communicated any further. Every precaution is being taken to prevent the spread of the fever. The army has the benefit of the most experienced yellow fever experts in the medical profession. The War Department is relying principally upon prompt action to stay the disease. The condition of the army at Santiago has been favorable to the spread of yellow fever. Soldiers lying in the trenches under tropical suns, or in drenching rains, are particularly susceptible to the disease.

## PRISONERS ARE QUARTERED.

Spaniards Transferred from the St. Louis to Seavey's Island. All the Spanish prisoners from the auxiliary cruiser St. Louis, with the exception of Corvera and his officers, are now quartered in the hospital and half-finished stockade on Seavey's Island. Two Gatling guns manned by marines frown down upon the prisoners from the high

## BLANCO ATTEMPTED SUICIDE.

Became Desperate Over the Loss of Corvera's Fleet. A dispatch from Key West says that, according to advices received there, Governor General Blanco attempted to commit suicide when he learned of the destruction of Corvera's fleet. The dispatch does not state the manner of Blanco's alleged attempt to kill himself, but says his staff officers despaired before he could inflict injury upon himself.

## MAIL FOR SOLDIER BOYS.

Through Defects in Addresses Many Letters Go Astray. The Postoffice Department is experiencing considerable trouble in forwarding mail to the army and navy because of letters being improperly addressed. All mail matter, as far as possible, is made up in separate pouches for regiments and companies, but many letters are found in the mails without indicating the company or regiment in which the addressee is serving. If the public would be particular to let the company and regiment appear on the envelope, it would insure the prompt delivery of the letter. Otherwise it may be necessary to send some of this mail to the dead letter office, in which case it would eventually be returned to the writer.

# WAR HISTORY OF A WEEK

Saturday. Thousands of refugees from Santiago have flocked to the American lines, and the problem of feeding them is a serious one for Gen. Shafter.

Damage sustained by the battle ship town in the Santiago fight may prevent that vessel joining the western squadron that is to attack the Spanish coast.

The Associated Press correspondent at Berlin reiterates that, notwithstanding official denials, Germany, Russia and France are scheming to intervene in the Philippines when certain conditions arise.

President McKinley has refused the offer of Gen. Linartes, Spanish commander at Santiago, to surrender conditionally. The truce which would have expired Thursday at noon was extended twenty-four hours, and all day the question of surrender was considered.

Monday. Austria is said to be contemplating proposals for immediate intervention by the European powers in behalf of Spain. It is said at Madrid that peace negotiations are considered urgent, the likelihood of the war situation being recognized.

Admiral Cervera, fifty-three of his officers and 638 of his men, arrived at Portsmouth, N. H., on the auxiliary cruiser St. Louis as prisoners of war. Gen. Brooke has placed an embargo on passes for soldiers at Chattanooga because of frequent acts of lawlessness in Chattanooga since pay day. The arrests have averaged 200 daily.

From 4 o'clock in the afternoon until dark the American artillery poured a deadly fire into the Spanish lines at Santiago. The only Spanish weak, indicating, as is believed, that the end of Spanish resistance is near.

Tuesday. Gen. Miles arrived at Santiago de Cuba at noon. Report is made that the Infanta Maria Teresa is the only ship of Cervera's fleet that can be saved. Gen. Shafter reports that in the action of July 13 at Santiago twenty-three officers and 209 men were killed, 80 officers and 819 men were wounded, and that 81 men are missing.

For two hours in the morning Admiral Sampson's ships threw shells toward Santiago. One of them blew up a church filled with ammunition. Just as Gen. Shafter began his land attack a flag of truce was seen coming from the city, which stopped the fighting. Attack on Santiago resumed, the fleet joining the army in sending shells over the hills into the town. Great damage done. General Wheeler went into the city under a flag of truce and demanded the surrender of the town for the third and last time. During the fighting the Spaniards in the trenches suffered heavy losses.

Wednesday. Fierce rainstorms have drenched the troops at the front. Sagasta said at Madrid that the moment for peace negotiations has arrived. A few cases of yellow fever are being treated in a field hospital near Santiago. The victims are teamsters and refugees. President McKinley and his cabinet have decided that the capture of Santiago must be effected with expedition in consequence of the terrible climatic conditions and the danger to our men owing to an outbreak of yellow fever.

Admiral Dewey reports that a German cruiser prevented the Philippine insurgents from capturing Isla de Grande, Subig bay. Whereupon he sent the Raleigh and Concord to capture the island and turn it over to the insurgents. Over 1,000 Spaniards were made prisoners and a quantity of ammunition was captured.

Thursday. Gen. Toral, commander of the Spanish forces at Santiago de Cuba, surrendered to Gen. Shafter. The United States Government will turn its attention to the capture of San Juan, Porto Rico. An expedition is to be started at once under Gen. Brooke. An inspired article in the Cologne Gazette declares that there is no truth in the report that a German cruiser interfered in any way with the operations of Admiral Dewey in the Philippines.

The Florida and the Faunita, conveyed by the gunboat Peoria, have landed large expeditions at Palo Alto, on the south coast of Cuba, in the fighting with the place Captain Jose Manuel Nunez killed and Winthrop Chanler of the rough riders and several soldiers wounded.

Friday. Blanco expressed bitter opposition to peace negotiations. Maj. Gen. Chaffee in the field hospital at Santiago suffering from dysentery. The Harvard, with over 1,000 Spanish prisoners, arrived at Portsmouth, N. H. Up to Friday noon but twenty-three new cases of yellow fever developed among the forces in Cuba. The disease of a mild type.

A royal decree published suspending throughout Spain individual rights as guaranteed by the constitution and asserting a state of war exists. Inhabitants of coast cities of Spain in case of an invasion are to be evacuated to the United States fleet. Barcelona, which is not fortified, particularly in terror.

Santiago de Cuba not yet ravaged over by Gen. Shafter. Spaniards gubbling over the terms. President McKinley instructed Gen. Shafter to insist on instant surrender, and if his demand were not complied with to begin bombardment.

Sparks from the Wires. Twenty business blocks in the little town of Rogers, Texas, were destroyed by fire. Chill has sent an ultimatum to Argentina giving her until Aug. 15 to settle the boundary dispute. The number of immigrants to the United States shows a marked decrease during the past few weeks.

With five German war ships facing Admiral Dewey's fleet at Manila, and the intentions of the German Kaiser still a matter of some doubt, the leading article presented in the Cosmopolitan for July will be read with interest. The forty-six portraits and poses of the Emperor William which illustrate the article are in themselves an extraordinary exhibit. They might be described as "The Evolution of an Emperor shown by forty-six human documents." Undoubtedly so large a number of portraits were never before gathered together of any royal or imperial personage.

They were bound to celebrate the surrender of Santiago Thursday night and patriotism was turned loose. Even the young ladies, catching the spirit, and they didn't make much less noise than the young men. The streets were alive with people, and as the huge bonfire lit up things for some distance a wave of patriotism surged up and down Main street. Young America was in his glory and determined to burn everything possible, and dry goods boxes melted away at a rapid rate. A firing squad with shot guns repeatedly fired volleys into the air. The good news had been received about two o'clock and immediately whistles blew and flags were run out.

Wakefield Republican:—F. C. Largen drove over from Wayne Sunday and informed us that our sister town would soon be blessed with electric lights. My, wont Wayne feel proud.

The following from the Wakefield Republican indicates that things are not very lively around that burg on Saturdays: "Why not have a base ball game, and some bicycle races, etc., in town Saturdays during the summer months, or revive the auction sales, have something going on to stir things up."

Winside Tribune: Last Thursday Mr. and Mrs. M. P. Ahern drove up from Wayne, packed up their millinery stock here, and had it hauled back to Wayne. This move was made necessary just at this time because Mr. Bender, in whose store the millinery stock was located, needed all of his room. We have not learned whether Mrs. Ahern will open up here again later or not. Under the management of Mrs. Cavanaugh they have done a good business since opening up here in the spring. . . . W. C. Bonham drove over to Hoskins and scoured the school there the nine months for the coming year. He will also repaint and kalcamine it. Mr. Bonham is to be congratulated, and the people of Hoskins will find in him a live, energetic and enthusiastic teacher.

A man must reap as he sows. If he sows ill-health he will reap ill-health. If he neglects his health the weeds of disease will grow up and choke it. It is a daily and hourly marvel that men will recklessly neglect their health, when a moment's thought should tell them that they are courting death. It lies in most every man's power to live to a great old age. If a man would only take the same care of himself that he does of his horse, or cow, or dog, he would enjoy good health. When a man owns a hundred-dollar horse, and it gets sick, he does not waste any time about doctoring it. He has his garden gets full of weeds, he doesn't delay about rooting them out, for he knows they will choke out his vegetables. . . . Which he is out of now sick, nervous, headachy, has no appetite and is restless and sleepless at night, he pays little attention to it. The result is, consumption, nervous prostration or some serious blood or skin disease. Dr. Pierce's Golden Medical Discovery is the best of all medicines for hard working men. It gives edge to the appetite, facilitates the flow of digestive juices, purifies the liver and purifies and enriches the blood. It is the great blood-maker and Rest-builder. It cures 98 per cent of all cases of lingering coughs, bronchial and throat affections, weak lungs, bleeding from lungs and kindred affections. Do not wait until the lungs are too far wasted to admit of being cured. . . . As you know, five years ago the doctor had given me up to die with consumption, writes Mr. T. G. Moore of Des Moines, Fayette Co., W. Va. I took treatment from Dr. R. V. Pierce, and am entirely well now. I had taken nothing but the Golden Medical Discovery. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a dose.

### PRETTY RAPID PEOPLE.

There is nothing slow about the Nebraska Epworth Assembly. Their program for '08 is an eight days' winner. Robert McFatigue, General O. Howard, Bishop Bowman, John G. The dates are Aug. 3-10 and the amazing success of last year will doubtless be repeated. Write President L. C. Jones, Lincoln, for prospectus and full particulars.

Hartington Herald: L. O. Mehus of Wayne, has bought out the tailor shop of O. C. Hoogen and will henceforth identify himself with the business interests of our growing city. Stanton Pickett: Only two men in Wayne county returned any money on hand to the assessors, and they only for small amounts, and yet in the little hamlet of Hoskins, over \$7,000 has been subscribed for government bonds, which leads the Wayne Democrat to inquire where the money come from, with which these bonds are to be purchased.

A man in Virginia rode forty miles to Fairfax Station for the express purpose of getting Chamberlain's Cough Remedy, and took home with him a dozen bottles of the medicine. The druggist who relates the incident, adds: "Your remedy seems to be a general favorite wherever known." Its effects are indeed wonderful in all lung and throat troubles. Procure a bottle at L. P. Orth's drug store.

Dixon Tribune: A fatality among Win. Shilling's cows is attracting the attention of our farmers just now, and there is much dispute and conflicting opinions about the cause. Dr. Knaak of Coleridge was called and gave an opinion that the disease was caused by the stock eating poisonous weeds or something of that kind, and about the same view was also taken by a veterinary surgeon from Wayne, but as Mr. Shilling's dog went mad a short time ago many think that he did the damage particularly since the cattle show many symptoms of hydrophobia. Five more were shot Tuesday, making eight that are now dead, and no one can tell where it will stop. . . . Mrs. D. H. Sullivan came over from Wayne yesterday. . . . J. L. Winterburn of Wayne, is in Dixon this week looking up the interests of the Woodman Fraternity. Mr. Winterburn is no stranger here and the Tribune highly endorses him as a man who is reliable and straightforward in his dealings.

Wouldn't some of our popoatist farmers howl if they had to resort to the old way of binding their grain by hand? Harvest hands would command two and three dollars a day. Yet they tell us the improved methods don't lessen the cost of raising grain.

Mr. Berry's explanation in last week's paper in regard to his attitude at the last school election, sounds very well perhaps, to those who believe as he does. In the first place you are somewhat mistaken in regard to the correspondent at this place, as we never said anything about "scorching Berry."

What we did say was, "that usual, that man running under the leadership of Berry was decidedly knocked out," but through a mistake of the compositor it was a little mixed. We aren't here to malign any one, simply to report current events. If Mr. Berry has any proof of rottenness in any of the offices it would be very suggestive to go after the guilty parties. If we understand the Nebraska school law, the books of the district are open for inspection by anyone, and if there had been any crookedness on the part of Mr. Manning, we feel certain that Mr. Berry would have been publishing the fact long before this.

The facts of the case are, the district has been governed very nicely the past six years and we do not hesitate to say that an inspection of the books and the condition of the district will bear us out in our statement. However, there are a few people in Carroll who are not of the crop sower and your correspondent happens to be one of them, hence we have no desire to pick or carry on as is the custom of that particular bird, and will hereafter pay no attention to the quibblings of anyone, not even a would-be attorney. Mr. Berry has the forgiveness of the correspondent, if there is any thing to forgive, and we gladly second a motion to place him on the staff of Gen. Toral, with our best wishes for a happy voyage.

Probably the Spaniards will call the surrender of Santiago another victory, because the troops are returned to Spain without their arms.

It makes little difference in the American navy whether they are admirals, commodores or captains, they all have a captivating way about them, even if they do have to use powder.

In the present war Spain has lost twenty-one war ships and as many merchant vessels, while the United States has lost none. Isn't that pretty good evidence of the efficiency of the U. S. Navy? And doesn't it clearly show that our gunners are the best known in the world?

When a young man asks a father for his daughter's hand in marriage, if the father is a wise one, he thinks of one thing equally as important as the young man's social and business standing and intelligence. A young man who suffers from ill-health has no right to marry until his health is restored. To do so is to commit a crime against the human race. While all diseases may not be directly inherited, the constitutional tendency to acquire them is inherited. A young man is a commodity, and the chances are that his children will have weak, undersized lungs, and a predisposition to acquire the same disease.

The young man who suffers from bronchitis, weak lungs, spitting of blood or any disease of the air-passages which, if neglected leads up to consumption, may take Pierce's Great Peppercorn Cure with almost absolute assurance of recovery. It cures 98 per cent of all cases when taken in time. It soothes and heals the delicate and sensitive tissues of the passages and from its cough and wheezing, restores expectation, drives out all impurities and discharges germs from the thinned blood and builds new man.

Mr. John G. Horn of 422 Liberty Ave., Pittsburgh, Pa., writes: "Some thirty months ago I said to my wife, 'I don't wish to keep anything from you, but I tell you I am in the last stage of consumption.' In December 1896 I commenced using Pierce's Great Peppercorn Cure. Formerly I could not eat without suffering very much immediately after, but now I can eat anything."

Sec. 4. The poles in this ordinance contemplated shall be under the control and supervision of the Council of the City of Wayne and the poles and wires hereinafter mentioned for the sole and only purpose of erecting and maintaining a toll free telephone system in the City of Wayne.
