We had a mighty good time over in Wayne the other day. Called on Goldie and had a pleasant talk with him. Wayne popocrats do not seem to feed that rustling editor very well, he's too thin when it's necessary to serve in all departments especially when doing the lighting part. We called on Fred Volpp and found him to be one of the squarest men that walks. Met lots of the boys and all seemed to do their best to entertain this wayfarer. The free silver officials are nice fellows, but on the square if we had to be in office in Wayne county, we'd rent an office where it would not scare our party friends to come in to talk. Without fear of successful contradiction we will say that Stanton hasn't a barn but what would be an improvement over the Wayne county court house. We're glad we went, and hope to see the boys again some time.—Stanton Register.

TO VOTE COURT HOUSE BONDS!

Proposition to Issue \$25,000 Bonds to be Voted on this Fall.

At a meeting of the county commissioners yesterday it was decided to submit to the voters of Wayne county the question of voting bonds for erection of a court house. It is proposed to vote bonds in the amount of \$25,000, of the denomination of \$500 each, bearing interest at the rate of 5 per cent. The principal of the bonds to become due in installments of \$2,500, the first payment to be made on December 1, 1904.

Wayne county must have a new court house and in order to hold the location deeded to the county for that purpose a building must be erected before 1902. No class of people should be more interested in this question than the farmers. The present building is a disgrace to any county, besides the records are in danger of being destroyed by fire at any time. As a sample of what strangers say in regard to the present building we reprint the following from the Stanton Register: "Without fear of successful contradiction we will say that Stanton county hasn't a barn but what would be an improvement over the Wayne county court house."

Talk court-house from now till election day! and we feel sure that the proposition as submitted will carry by a large majority.

Mr. and Mrs. A. J. Ferguson started into the country yesterday morning and stopped at Mr. Atkins' residence, where Mr. Ferguson got out of the buggy leaving Mrs. Ferguson to hold the horse. The animal became frightened at some little boys playing along the sidewalk and turning short around upset the buggy, throwing Mrs. Ferguson out and bruising her quite badly besides breaking her nose. The horse ran a short distance before stopping and was quite badly hurt, one of the buggy thills penetrating its side.

Hon. John R. Hays, who was yesterday placed in nomination as candidate for senator from the eleventh senatorial district, is in every way a wise selection. A lawyer of more than average ability, a man of broad experience and good common sense, who is capable of stating his views in a logical, logical manner, he will make a model senator at Lincoln next winter, where his voice will be heard upon questions which concern not only his district but the state at large. Mr. Hays did not seek this nomination, was not present when it was made, and it was virtually forced upon him, and for the good of the party of which he has always been a consistent member, he should certainly allow his name to be placed upon the ticket. He is well and favorably known throughout Northern Nebraska. He has been a resident of Norfolk about 12 years where he is respected and regarded in the highest esteem by everyone. Before he came here he was a resident of Story county, Iowa, where he was kept in the office of county auditor for 12 years, and would probably be there yet had he not flatly refused to run again, and left the county to escape his political friends. The last charge that could be brought against him is that he is an office seeker in any sense of the word. Yet his friends believe that he will make a superior public officer, for which reason he was nominated and will be elected.—Norfolk News, Sept. 27.

REPRESENTATIVE CONVENTION.

The republican representative convention for the 17th district met at the court room in Wayne Saturday afternoon. The convention was called to order by F. M. Northrop, who was elected temporary chairman and A. F. Enos, of Stanton, was elected temporary secretary. The credentials of the delegates were then read and the temporary organization made permanent. C. P. Jones of Stanton nominated Louis Smithberger of Stanton county for representative, and on motion of Nelson Grimsley the nomination of Mr. Smithberger was made by acclamation.

Bob Appleby of Stanton, in behalf of Mr. Smithberger who was not present, thanked the convention for the nomination, and promised that the nominee would make the fight for the election. Among other things he said that Mr. Smithberger had been clerk of Stanton county for eight years and that each time he was elected by a large majority. His books had been examined by an expert and such examination showed that the county of Stanton was indebted to Mr. Smithberger and that he was paid the amount of the indebtedness by the county. Mr. Smithberger is a farmer and is at present working on his farm. He is also a business man, and one whose record both public and private will bear investigation. Mr. Smithberger did not seek the nomination, but was told that in times past he had needed the assistance of the republican party and that the time had now come when the party needed him and he finally consented to accept the nomination. Mr. Welch and Mr. Northrop spoke a few words in behalf of the Wayne delegates and promised Mr. Smithberger the hearty support of the republicans of Wayne county.

The nominee is the strongest man the republicans could have named for this office, and we honestly believe that Louis Smithberger will be the next representative of the 17th district. He is a clean, honest, upright man; one whom the republicans can be proud of and whose record will bear the closest inspection.

Charley Chase of Stanton was named as committee man from that county and H. L. Kimball from Wayne county.

Louis Smithberger, the nominee of the republicans of this district for representative, is a native of Iowa but has been a resident of Stanton county since 1870, coming here with his parents when but eleven years old, and is now in his 40th year. His home was on a farm three miles southwest of Stanton up to the time of his marriage, when he moved on to his own farm in Union Creek precinct and continued farming until the winter of 1887, after being elected county clerk when he removed to town. He served two years as clerk, and was again the nominee but was defeated by W. T. Sharp, one of the strongest democrats in the county, by only nine votes, although the county was at that time strongly democratic. At the expiration of his term in office he again moved to the farm and remained there until after the death of Clerk Sharp, who he was appointed as county clerk to fill the vacancy by the board of county commissioners. In the fall of 1891 he was again nominated, his competitors being Lon Sharp and John P. Robinson, and was elected by a plurality of over 400 votes, and held the office for six consecutive years, being elected over F. O. Edwards in 1893 by a vote of 911 to 271, and again in 1895 in a three-cornered fight by 855 to 472 given to J. W. Tyler, the democratic candidate, notwithstanding the fact that a majority of populists forsook their own candidate and voted for Mr. Tyler.

As a county officer he made an excellent record. Twice were his office records examined by experts and in both instances found to be in a most excellent condition. His conduct in and out of office has been such as to inspire confidence and respect, and it is safe to assert that no man in Stanton county enjoys to a greater degree all that those terms imply than does he.

During his season in office he continued to supervise the management of his farm, and since retiring has superintended every detail in person. At present his yards are filled with some of the best bred cattle in the county, many of them of his own raising. He is a farmer and stockman in the fullest sense of the term, and is a shrewd, wide-awake, stirring man of brains and ability, just the kind the farmers and others of this district need to represent them in the legislative halls of the state. He is an excellent campaigner and will secure a strong vote.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. NICKLE, of Nickle Bros., merchants, Nickleville, Pa. For sale by P. L. Orth.

DIED.

WILSON.—Mrs. M. Wilson died Tuesday morning, Oct. 4, 1898, at the home of her son, S. T. Wilson, in this city. Mrs. Wilson had been a sufferer for some time, having received a stroke of paralysis about two years ago. She was a native of Pennsylvania but removed to Nebraska a number of years ago and has lived with her son here for the past year. The remains of deceased were taken to Ponca yesterday afternoon and buried at that place.

A Sad Death.

In May last, H. H. Burnett, a student at the college, joined the 3rd Nebraska regiment and went with it to Jacksonville. While there he was advanced from private to first sergeant. He was in the hospital with malarial fever for some time during the summer, but was thought to be well by the surgeon and was granted a month's furlough commencing Sept. 1st. On being private Mead's body home to South Dakota. He did this, and also visited the college the Crescent literary society of which he was an honored member.

His affianced bride, a Miss Weber from Dixon, also an old student of the college, passed through here Monday morning on her way to the funeral services which were held at Gibbon Monday evening.

Sergeant Burnett was a fine student and a fine soldier and had remained in school would have finished the teacher's course with the class last August. His sudden death is much lamented by all who knew him.

Robbed the Grave.

A startling incident, of which John Olliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying 'Electric Bitters' and to my great joy and surprise the first bottle made a decided improvement. I am now a well man. I know I saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at Wilkins & Co's. drug store.

Sandwich Islands Will Have a Government Patterned After that of the District of Columbia—Garcia Accepts Position of Commissioner

Governing Hawaiians.
WASHINGTON: Hawaii is to have a government patterned after that of the District of Columbia, if reports are true. The system here was devised by Senator William P. White of Maryland and is satisfactory to a majority of the residents of Washington in spite of the perennial agitation for "home rule" on the part of the minority here. The general government assumes one-half the taxes. The District of Columbia is the ward of the government just as the Hawaiian Islands now are; therefore the proposition to govern the islands in the same manner meets with favor and the prospect is that it will receive the sanction of congress. The establishment of this system for the Hawaiian Islands will avoid all the embarrassments and complications which the present would result from territorial form of government including even a modified suffrage.

GARCIA ACCEPTS POSITION.

To Act as Commissioner in Negotiations with Cuban Affairs.
NEW YORK: A Santiago de Cuba authority that Calixto Garcia has accepted a position with the American administration here. Garcia is to receive \$200 a month and all expenses. He will act as commissioner to go through the country and conduct negotiations with the Cuban army with a view to its disbanding. He will start in a few days and be gone three or four weeks. He will be accompanied by his son and a few of his officers. On his return he will go to the United States with Gen. Wood to confer with the authorities in Washington.

Georgia Storm Damage.
More Believed to Have Perished Near Brunswick.
SAVANNAH, Ga.: Complete details from Brunswick and surrounding country are being received because of the destruction of telegraph and telephone systems. Campbell Island, twelve miles from Darien, on the Altamaha River, is said to be completely swept away and only three persons succeeded in getting off the island. Four deaths are now reported from Brunswick. The damage to property there is estimated at half a million dollars. News from outlying islands is not obtainable. Eight vessels have been driven ashore. There are no docks at Darien.

A. O. U. W. OFFICIAL REMOVED.
Matter Likely to Go Before Grand Lodge for Adjustment.
ST. LOUIS: As the result of a difference of opinion, Grand Master Workman Miller of the Ancient Order of United Workmen, has removed from office Walter F. McIntyre, chairman of the executive committee. The matter is likely to be taken before the grand lodge for adjustment. The members of the order question the right of the grand master to remove McIntyre. It is asserted the proper course for Miller to pursue would have been to prefer charges against McIntyre.

Trial of Destroyer Farragut.
SAN FRANCISCO: The torpedoed destroyer Farragut, which sank her crew, has been shafts broken down, and it will be three weeks before the frail but fast vessel can have another trial. She made three trials. On the first she made twenty-four knots, on the second twenty-eight knots and on the third thirty and seven-eighths knots, and then a shaft broke.

Col. Andie Is Suspended.
JACKSONVILLE, Fla.: The findings of the court-martial in the cases of the Fourth Illinois officers have been published from their headquarters. Col. Casimir P. Andie was found guilty of conduct to the prejudice of good order and military discipline, and was ordered to be suspended from his rank and command for the period of six months and to forfeit half of his pay during that time.

Earns \$100,000 Endowment.
NEW YORK: George A. Plimton, treasurer of Bernard College, announced that the entire indebtedness of the college, \$122,000, had been paid, and that the conditional endowment of \$100,000 offered a few days ago by a friend of the college would now be available. The time for raising the amount of the debt expired at midnight Tuesday night.

Request to Pennsylvania University.
PHILADELPHIA: At a meeting Tuesday of the trustees of the University of Pennsylvania, it was announced that Col. Joseph Bennett, the late mechanic and inventor, had bequeathed to the institution a number of valuable properties valued at over \$400,000, to be devoted to the higher education of women.

To Replace Minister Cambon.
PARIS: The Figaro states that Count D'Anthony, now French chargé d'affaires at Munich, will replace M. Cambon, and that the minister to the United States, M. Cambon, will go to Madrid. These changes, the paper says, were decided upon at Tuesday's cabinet council.

Hay Sworn In.
WASHINGTON: Col. John Hay was sworn into the office of secretary of state at 11 a. m. Friday. He immediately took place in the president's room in the White House. The oath was administered by Justice Harlan of the supreme court. Hay immediately joined his colleagues in the regular Friday cabinet session.

White Whips McBride.
NEW YORK: Tommy White of Chicago, and Danny McHenry of New York, were at the Madison square garden today to decide the 120-pound championship, but the fight failed to materialize, White being the victor by a technicality. McBride was given to the crowd by the referee.

Passenger Service to Havana.
DETROIT: Michigan has proposed the Mobile and Ohio companies that railroad will inaugurate through passenger service to Havana, Cuba, next Saturday via the Mobile and Ohio. The Southern Railway Company's route.

TO CASH PENSIONERS' CLAIMS.

An Order Issued Giving Postmaster Authority to Cash Pensioners' Claims.
WASHINGTON: It is estimated that a quarter of a million dollars will be saved to the pensioners of the United States each year by an order issued the first part of the week by the postmaster department authorizing the postmaster to cash the checks in which the pensions are paid. The payments are made quarterly, and the pensioners are now compelled to pay varying rates of discount in order to obtain the cash for their checks. This system will, of course, be abolished by the latest orders, as the postmasters will cash the checks at their face value.

While the pension checks drawn in favor of pensioners are payable at a limited number of places, the holders who reside in cities have no difficulty in negotiating these checks through banks, but inasmuch as the greater number of pensioners reside in places remote from banks, the matter of providing means whereby these checks could be cashed without expense to themselves has been for years past a question which has received attention from the pension department.

Through the new method millions of dollars will be paid the pensioners through the money order system of the department, and without any expense whatever to them. On the contrary the checks will be of advantage to postmasters at the smaller places for use for remittance purposes, and the measure will undoubtedly prove popular and convenient.

DECISION AGAINST PINGREE.
Michigan Supreme Court Decides Michigan Book Case.
LANSING, Mich.: Gov. Pingree has failed in his effort to compel Michigan contractors to pay a family mileage book at the rate of 2 cents per mile. A decision by the state supreme court late Monday afternoon decides that the Michigan Central's charter confers the right upon the company to fix its own rate of tolls and that this is a vested right which cannot be withdrawn by the state without adequate compensation. The court also decides that the law passed by the legislature in 1891, fixing the rate of mileage books at 2 cents, did not apply to the Michigan Central. The suit was begun by George G. Galt, a contractor of Michigan Central ticket agent at Detroit to sell him a family mileage book in compliance with a law passed by the legislature. The governor tendered his money in the presence of witnesses and the agent stated he had no objection. Thereupon the governor brought suit.

LAWYER GETS FIVE YEARS.
Kansas Attorney Sent to Prison for Complicity in a Murder.
HUTCHINSON, Kan.: Judge Simpson has sentenced Lawyer E. G. Clark to five years of hard labor in the penitentiary for complicity in the murder of W. C. Boyd over a month ago. Before receiving his sentence, which was the highest that could be imposed for the crime, Clark made a long speech to the judge, in which he pleaded guilty to the crime, and asked for leniency from the judge before whom he had but recently been practicing. A week ago a verdict of manslaughter in the second degree had been rendered. Mrs. A. L. Postlewaite, an accomplice in the murder and her son, who confessed to the killing, are yet to be tried.

DIES OF HYDROPHOBIA.
Dr. F. A. Todd of Ohio Succumbs to Rabies in Chicago.
CHICAGO: Dr. F. A. Todd, a prominent physician of Toledo, Ohio, who has been a patient at the Presbyterian hospital, died at that institution from the effects of hydrophobia Saturday evening. His death was the outcome of being attacked by a rabid dog on the lawn of the Ohio state hospital for the insane, of which Dr. Todd was assistant superintendent a month ago. Dr. Todd was taken to the hospital from the Great Northern Hotel, where he had been taking the Pasteur treatment Saturday morning. He appeared to be much improved, but shortly after noon he became worse and sank gradually until evening, when he died.

OUT OF SPRECKELS' CONTROL.
Hawaiian Commercial and Sugar Company Owned by Syndicate.
SAN FRANCISCO: The Hawaiian Commercial and Sugar Company has passed from the control of the Spreckels (Rudolph and C. A.) and is now in the hands of a syndicate of financiers and brokers. Some time ago the Spreckels began to unload and the stock was snapped up as fast as possible by the syndicate. This was done very quietly and in a short time the new owners were in control. The Spreckels, it is said, tried to buy the syndicate, but failed to sell and the syndicate for the complete transfer were arranged, the deal being consummated Saturday. The purchase price will reach \$3,000,000 or \$500 a share.

To Send More Troops.
WASHINGTON: The war department has decided to send more troops to Porto Rico. Orders have been issued directing the 15th and 24th regiments of the United States Infantry and Forty-seventh New York to proceed to such a point in Porto Rico as may be desired by the commanding general of that island. All the troops at Camp Meade will soon be ordered to Cuba in the south. Some may go to Cuba.

Idaho Ballot Case.
BOISE, Idaho: The supreme court has decided that the Taylor faction of the United party has the legal organization and it alone is entitled to have tickets printed on the official ballot under the name of the People's party. This is a triumph for Congressman Gunn. It is practically settled that the two wings will now meet with Gunn for congress and D. H. Andrews if the Blake faction for governor.

Caroline Miskel Hoyt Dead.
NEW YORK: Caroline Miskel-Hoyt, wife of Charles Hoyt, the playwright, died at her home in this city Sunday of Bright's disease. Mrs. Hoyt had been ill for some time. Her husband and her condition showed a marked change for the worse Sunday morning. She became unconscious and died within an hour. Her husband, her mother and her sister were with her when she died.

Eight Will Take Place.
BUREAU: William B. Gray, manager of "Kodak" McCoy, in an interview Monday said: "You can say positively and definitely that eight fights will be fought. The first will take place in New York state on the original date set, October 15, if it is a pleasant day, for it will be a picture fight, all reports to the contrary notwithstanding. Every arrangement has been completed."

GRIEF CAUSES A TRAGEDY.

Unhappily Married Woman Kills Mother and Suicide.
PITTSBURGH, Pa.: Bertha Bollstein killed her mother Sunday and later put four bullets into her own body. To one of her brothers, living in this city, is said to have lost all of her youthful beauty. From a light-hearted, happy girl, she became a quiet, depressed, despondent woman. Hence the friends of the family says she was temporarily insane when she committed the awful crime.

CONFEDERATE VETS PROTEST.
Object to New "Daughter of the Confederacy."
RICHMOND, Va.: The camp of confederate veterans of Virginia have adopted resolutions protesting against the naming of anyone as "The Daughter of the Confederacy" to succeed Miss Winnie Davis and calling on the grand camp, which meets next week at Culpeper, to put its veto on the matter. The resolutions also call upon the United Daughters of the Confederacy to protest against the movement. Advice from several points in the state indicate that the grand camp will veto the matter. The feeling among the veterans is that the title of "Daughter of the Confederacy" died with Miss Davis.

KILLED BY BROTHER-IN-LAW.
Ex-Senator Richardson of Ohio Is Shot by W. J. Haldeman.
CINCINNATI: Ex-Senator J. C. Richardson died at his home in Glendale Saturday night. The coroner's inquest holds his brother-in-law, W. J. Haldeman, a wealthy and prominent business man, responsible for the death. Richardson was shot in a large paper mill at Rockland, and quartered two weeks ago over the ownership of a car of paper. They were alone in the office at the time, when Haldeman shot Richardson five times, and the facts about the case are not known, as Haldeman refused to talk. Both men have large families that are prominent in social and business circles.

MUST GO BACK TO GERMANY.
Six Contract Immigrants Headed Off in Chicago.
CHICAGO: Six immigrants alleged to have been imported in violation of the contract labor law, were arrested by the immigration inspectors and sent to New York, to be transported to Germany, where they came. They were expert electricians and it is said they were employed by Brady & Lopp, who were proprietors of a spectacular entertainment at Tattersall's. The men, with five others, were under suspicion from the immigration office from the time they landed at New York, and passed under the scrutiny of Inspector Fitchie, of that port, two weeks ago.

Verdict in Jennie Hickey Case.
CHICAGO: The coroner's jury in the Jennie Hickey murder case returned a verdict Friday, five jurors declaring it a case of murder and one asserting it a case of suicide. The police have all along contended that the girl drowned herself, and the coroner's physicians declared positively that such a nature that they could not have been inflicted by the girl herself.

Great Japanese Storm.
SAN FRANCISCO: The steamer Gaelic has met with a terrific calamity, which swept over Japan on September 8. The wind did great damage to shipping. A summary of the loss of life and property follows: Deaths, 250; houses swept away, 164; houses overthrown, 1,135; partially wrecked, 11,400; houses inundated, 15,557; river banks broken, 78.

Weekly Bank Statement.
NEW YORK: The weekly bank statement shows the following changes: Surplus reserve, increase, \$7,074,267; loans, decrease, \$6,889,590; specie, increase, \$6,067,890; legal tenders, increase, \$750,200; deposits, increase, \$1,374,000; circulation, increase, \$324,590. The banks now hold \$18,327,115 in excess of the requirements of the 25 per cent. rule.

Big Shoplifters Caught.
CHICAGO: Mrs. John Polie and her daughter Minnie, about 20 years of age, have been arrested on a charge of shoplifting. They were caught at 82 West Sixth Street, which was packed with goods of every description which had been pilfered from downtown stores. The police recovered goods worth about \$8,000.

Transport Senator at Honolulu.
WASHINGTON: A dispatch to the war department announces that the transport Senator, long overdue at San Francisco from Manila, is at Honolulu undergoing repairs which she suffered from a typhoon.

A Drogas Rumor.
PARIS: It is rumored that Drogas has already been transferred from the Isle de Diabolo to Cayenne, where he awaits a steamer to bring him to a French or an Algerian port.

With Her Four Children.
MONTREAL, Que.: The insane wife of Joseph Clouthier, a farmer of St. Severin, killed her four children Monday by cutting their throats.

PRIDE OF THE NAVY.

MAMMOTH BATTLESHIP ILLINOIS LAUNCHED.
Steel Monster Will Probably Be the Most Powerful Fighting Craft Afloat—Nucleus of the "New Navy"—Cost Will Exceed \$3,000,000.
The mammoth United States battleship Illinois, one of the three latest additions to the navy and probably the most powerful fighting machine afloat, was launched at Newport News, Va., Tuesday under auspicious circumstances. As the steel monster trembled in its flight from earth to sea, Naval Lieut. broke a bottle of sparkling champagne upon the vessel's prow and pronounced the words that made it the godchild of the great Western commonwealth and caused 25,000 people assembled to send up a cheer that could be heard for miles. Gov. Tanner of Illinois took command with the Governor from Virginia, the newly floated ship rose proudly from its initial dip, and the launching was pronounced a success.

From many points of view the launching of the Illinois was the most important of the kind in the history of the country. The vessel is the largest fighting ship ever floated under the Stars and Stripes, is the costliest ever built by the navy, and experts believe it will be the most formidable warship ever put in commission by any power.

There was never such a crowd in Newport News at any previous ship launching. The vessel is the largest fighting ship ever floated under the Stars and Stripes, is the costliest ever built by the navy, and experts believe it will be the most formidable warship ever put in commission by any power.

MOUNT VESUVIUS, WHICH HAS AGAIN BECOME ACTIVE.

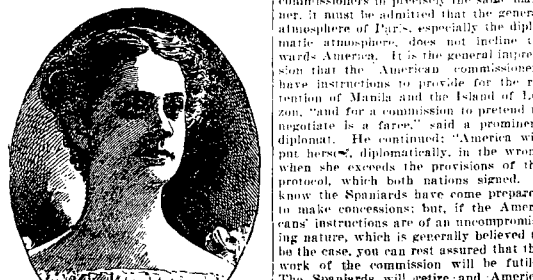

DEATH IN ITS FLAMES.
Eruption of Vesuvius Threatens Destruction of Naples.
Vesuvius, the greatest volcano in the world, is again in eruption, belching forth great masses of fire and molten lava, which threaten destruction to the city of Naples. Some new centers have formed within the past week around the central crater. The smoke, in a brownish yellow cloud, overflows the mountain like a great fall. The lava torrent is half a mile in width and divides into three principal streams, each seventy or eighty yards wide, as they pour down the mountain side subdividing into numerous smaller streams, carrying death to everything living, and advancing at the rate of forty yards an hour.

Lava in a volume of a thousand tons a minute pours out of the volcano. It has killed Vesuvius a deep ravine. The ashes lie several inches deep for a long distance down the sides of the mountain and in the adjacent villages. At night the volcano is splendidly awful. The crater belches forth a flame, which rends the pall of smoke, reaches to the heavens, and at times takes on the colors of the rainbow. The eruptions are noticed in the broad waters of the Bay of Naples, the levelled in Tremblings of the earth and subterranean explosions precede the outpourings of lava, and the walls on the mountain sides are beginning to dry up. A great stream of lava threatens to overwhelm the observatory built on that part of the mountain known as Monte Conito. This observatory is on a hill 2,200 feet above the sea level. This observatory was established for the purpose of giving warning of all eruptions to those living on the mountain.

Vesuvius is eight miles from Naples, whose bay it overlooks at the eastern extremity of a chain extending to the island of Ischia. It is believed that the whole of the northern end of a great part in the earth's crust, Asia being the southern end and Stromboli about the middle. At its base Vesuvius is thirty miles in circumference. Its height varies after its eruptions, but the average is about 4,000 feet. Its great crater is some 2,000 feet in diameter and about 500 feet deep.

was born in Marinette and graduated at Milwaukee-Dowse College and LaSalle College, near Boston. She was graduated from the latter institution with high honors. Miss Stephenson is a magnificent specimen of young womanhood. She is almost six feet tall, and slender. She has dark eyes and a bright, attractive face. Her father is quite wealthy, and he will take his daughter across the continent with a large party of Wisconsin people in fine style.

NOT AS A STATE.
Hawaii to Come into the United States as a Territory, with all the Government Machinery of an embryonic state, according to plans reached by the commission which has returned from its visit to the islands. In a dispatch box, which is carefully guarded by a sergeant-at-arms, lies the draft of a bill for the organization of the new territory. It was carefully considered by the entire commission, section by section, and while it has not passed to final approval, it contains all the salient features which will be found in the report which the commission makes to Congress at the opening of its session in December. The American members of the commission arrived in San Francisco by the steamer Gaelic, after nearly two months' absence, and started for the East. They will meet again in Washington Nov. 14, when they will be joined by the Hawaiian members, who are expected to come to this country about the first of next month.

KILLED AN AMERICAN.
Spanish Troops Mistook American Soldiers for Outlaws.
Word has reached San Juan, Porto Rico, that a Porto Rican soldier at Aguadilla, near Mayaguez, asked the protection of both American and Spanish troops in a just depositions by outlaws, which it is predicted would occur. In response to his request, the American authorities have been ordered to send a detachment of their regulars, who arrived there Sunday evening after dark. The resident had not notified the Spaniards that he had requested American protection and some Spanish soldiers who had been sent to guard his residence, mistook the Americans for the outlaws, mistook the latter for outlaws. In the confusion resulting the Spaniards fired and fatally killed one of the Americans.

HARD LUCK OF KLONDIKERS.
Out of a Party of Twenty-Six Only One Succeeded in Reaching the Pole.
Out of a party of twenty-six men that left San Francisco early in the year to go to Dawson via the Stikine trail, Herman Long of Seattle, Wash., is the only one that pushed through. Two of the number were drowned, two are missing and the others are far into the interior, regarding their health, trading points. In the swift Chleyer river, in the north rivers, seven of their boats were dashed to pieces on the rocks and the outfits were lost. In two of the wrecks Dr. Black and a man named Morgan, both from California, were drowned. The other two boats were saved, but temporarily lapsed after their provisions began to give out, as several attempts at suicide were made.

Wheat for Higher Prices.
Flouring mills all over Kansas are shut to grind. It is estimated by grain men that nearly 100 flouring mills in the State have been forced to close for this reason. It is declared that the farmers of Kansas have combined to hold their wheat for better prices. More than 70,000 bushels of wheat is being held.

WISCONSIN GOSSIP.

The freedom with which the Spanish minister of war affairs, Don Mateo Almodovar de Irujo, has given publicity to the instructions to the Spanish peace commissioners as to the disposition of the Philippines has given rise to the suspicion among the officials at Washington that there is behind it a deliberate purpose to draw out of the minds of the American commissioners on this most important point. It is stated now that heretofore the Spanish Government has waited upon the United States Government to make each of the steps towards final peace before making a move on the side so that this would change in policy accounted for only on the ground stated. There is beside this apparent purpose a veiled threat in the last instruction, under any circumstances to allow the United States to interfere with any disposition of the islands outside of those provided for in the Spanish proposals, such as that the Spanish Government should be believed to be an invitation to some of the continental powers to step forward in support of Spain in this extremity in the hope of receiving as a quid pro quo some of the Philippines as a coaling or naval station.

Chief Clerk Peters of the Navy Department has received a bronze bust of Columbus which was taken from the deck of the Cristobal Colon by the gunboat Montgomery immediately after the battle of Santiago. It had fallen from its position as was lying on the deck of that ill-fated vessel, but was not injured by the fall. It will be placed on exhibition at the National Museum, in connection with other trophies of the Spanish war until the President indicates what their final disposition will be. A large number of applications for these relics have been received from different States, The States and cities want the relics which were captured by the ships named from them. The department has decided that to comply with these requests would scatter these precious relics too widely, and they will be retained by the Government.

President McKinley will probably recommend to Congress the organization of a new cabinet office, the income tax department, the Secretary of the Colonies. The enlarged foreign policy of the United States, it is believed, will make his new office necessary for the purpose of giving unity and coherence to the policy adopted in the colonies. The President will not formulate the organization of the new department until the peace commission has determined the final disposition of the Philippines. The colonial office would have charge of the civil government, the judiciary and the financial administration of Porto Rico, the Hawaiian Islands, Cuba, the Philippines and of the island of Guam in the Ladrones.

Secretary of the Navy Long has received complete estimates from his department regarding the amounts they deem necessary for the operation of their respective departments during the coming fiscal year. Their figures foot up to \$47,000,000, the largest peace estimate which has ever been submitted. Secretary Long proposes to recommend to Congress an important ship building program, which will necessitate the raising of considerable money during the next four years.

The Nicaragua Canal project is forging to the front in a manner that foreshadows an aggressive campaign during the short session of Congress next winter. The necessity of a waterway across the Isthmus of Central America, which is being covered by the opposition, which has heretofore been able to defeat congressional aid in the construction of the canal, will appear prepared to continue the fight hard as ever.

Col. John Hay was sworn in as Secretary of State at the White House shortly after 11 o'clock Friday morning. Secretary Hay took the oath before the Supreme Court administered the oath. The ceremony was performed in the presence of President McKinley, Secretaries Smith and Wilson and Attorney General Griggs.

It has been decided by the Navy Department to establish a naval station on the island of Cuba, which is located near the Porto Rico and guards the Virgin Passage. This island furnishes a magnificent natural harbor with a depth of fifty-four feet, in which the largest ships in the navy can enter without difficulty.

In the opinion of those who are best informed as to the actual condition of Cuba a majority of the voters of the island would, if a test could be had which would call out a full expression, declare for an independent government and against annexation.

Both classes of the Cuban population are represented continually in Washington. They are industrious in many ways. They are ingenious in seeking to influence public opinion for an independent government and for annexation, as their interests lie.

Secretary Alger has returned to Washington. The Secretary looked much improved by his trip. He made a very successful tour of the States, and he had concluded the army camps which he had concluded.

Admiral Schley will be restored to his old position as chairman of the lighthouse board after enjoying a leave of absence. He is said to prefer this to sea duty.

One hundred thousand \$5 gold pieces were coined at the San Francisco mint expressly for the troops in Manila.

Ponca Gazette: In their enthusiasm over the success of the barbecue, or peace jubilee, the Wayne papers forgot last week to fire their humiliating 13-inch shells of anger and contempt into each other. Whether they have put up the flag of truce and come to a peace declaration, or it is the calm before the storm, we know not, but we do know that their readers would greatly appreciate it if the protocol of peace was signed and good will reigned supreme once more.

Admiral Schley won the nation's applause some fifteen years ago, when, as a captain in the United States Navy, he led a relief party successfully to the rescue of General A. W. Grealey and the few survivors of his band of Arctic explorers. General Grealey has let last consented to tell the story of his terrible winter in the frozen North, and his article appears in the October Ladies Home Journal. It is a remarkable paper, valuable, besides being a record of the Arctic's darkest tragedy, in showing the heroism and abiding faith of American soldiers when brought face to face with death.

Dixon Tribune: The Ponca papers nearly went wild last week, just because a poor little in-offensive animal, called "mephitis americana," got into somebody's chicken coop, and after being besieged by the enraged owner, his dog and all the neighbors for blocks around gave up the battle, leaving a trail of license behind which causes the people living in that locality to elevate their noses and hold their breath when ever they go near the terrible piece of encounter. Whew! That's nothing compared to Wayne's stock yards last spring.

A SOLDIER'S LETTER.

Elmer Lundburg Writes an Interesting Letter to a Wayne Friend. Anxious to Come Home.

MANILA, PHILIPPINE ISLANDS, Aug. 22, 1898. WAYNE, NEBRASKA.

DEAR FRIEND: The ships of the 4th Expedition brought several letters for me and among them one from you. I want to thank you for sending papers and always so promptly. Through your courtesy I have always had Wayne papers with me, at Frisco, on the ocean, and here so far from home. I doubt whether home papers ever had such anxious readers and who were so delighted at receiving them. At Camp Dewey Fred Bartlett came over to read them, also Will Morin of Winside, who is in Battery H, 2d U. S. Heavy Artillery. I never was so surprised since I joined the army as when, the second day after arrival of the Newport with Merritt, on returning from morning drill to find the former Winside boy awaiting me at my tent. Of course we have enjoyed several visits in talking over old times, when Wayne and Winside played ball, etc. Since we took Manila his Company has been stationed in Spanish forts with heavy guns over on the east of the city and I have only seen him once since our triumphal entry. His company has undergone pretty hard service, being under a heavy fire several times, and I believe has lost more men than any other Co. here. And like myself, he has enough of war and is now more than ready to go home. He says they can't send him a moment too soon. I wish I could go on the same ship that carries this letter.

It has just rained torrents most every day since we arrived, and I have come to the conclusion that the country is only adapted to bull-frogs, fish and mosquitoes. But since getting into the city the water is not so noticeable for the streets are paved with cobble stones, and we are stationed in a large warehouse opposite the headquarters of the captain of the Port, on the north bank of the river Pasig. It was the Third Battalion with Gen. Greene who hauled down the Spanish flag from the flag-pole of the "Captain of the Port," building and run up a beautiful emblem of Liberty in its stead. This was the most inspiring privilege of my life to me. For just think! Three hundred years has the Spanish colors flaunted their sovereignty to the rippling waters of the historic Pasig. But the "dirty Yankees" came from the "pig districts" of America, hauled it down and swung "Old Glory" in the sparkling sunlight and floating breezes of this distant land. Let us hope the Spanish flag is banished for evermore. I have very little use for the natives here as they now are, but have confidence as to their future under the influence of education and civilization. They are easy going and not all slow to learn, willing to work always and ready to make money at every possible chance. If a ready market is provided for what can be produced here, I can not help but think the production would be enormous. I have not seen a single piece of modern machinery. The old stamp style of plow which is pulled along by a water buffalo, is used, and they just scratch the ground. They pound the juice out of cane with a club. Here is a good market for Yankee ingenuity. But I don't want to live here. This country belongs to the natives; God didn't put the white man here. So let us start them out right and leave them to work out their own destiny. The natives hate the Chinese and what a great thing to their credit, let it be said. The "Chinos" are numerous here, 1000 on the island of Luzon, half of them in Manila alone. I didn't go through Chinatown in Frisco, but have taken in their locations here in Manila. It was just awful to endure. I had to take copious doses of ginger through the night to restore my nominal health condition.

Our time here since landing has been very busy and exciting. If I were to tell all things I would write many full pages. But you have read the whole story by this time. I wish the papers would be saved so I can read the reports of the important events here after I am home.

The Nebraska and Pennsylvania boys with a few Companies of regulars, have the credit of real active service here. And through reports of Spanish officials in conversations since being in the city, the Nebraska boys can assume the honors for the most effective work in the number of Spanish soldiers killed and wounded. In the battle on the night of Aug. 2, when we occupied the trenches, it is said the Spaniards

made the attack with upwards of five regiments and did so with the determination of taking our breastworks. But being met by such a deadly fire they were obliged to retreat after two attempts. From accounts received they had about 302 killed and over 400 wounded. Some of them have said since that they were almost forced to believe the Yankees could see at night. The city is full of Spaniards but they have no arms of any kind. It appears a little odd, indeed, to see them walking about the street smoking cigarettes and drinking with our boys. We meet hundreds of them every day on the beach, along the river bank and about town. They conduct themselves very nice, always giving military salute to our officers, but we extend the same respect to theirs. We will go home with a better opinion of the Spaniard than when we left. We have taken one in as a Co. mascot. He has messed and stayed with the boys nearly a week. He don't want to return to Spain, but desires to go with us home. I think the boys will put him in Uncle Sam's clothes and take him aboard when we sail. There are a great many little experiences and funny things that have happened but they must not be written of. Such things are just to be talked about. The rumors are now that our Regiment will be home for the last days of the Exposition at Omaha. Hope to goodness its so. I have failed to find a single one of the soldiers coming here who is not real anxious and willing to go home right away. Give my respects to the boys. Respt.,

A stubborn cough or tickling in the throat yields to 1 Minute Cough Cure. Harmless in effect, touches the right spot, reliable, and just what is wanted. It acts at once. L. P. Orth.

Fred Berry, brother of our townsman T. A. Berry, and who has a large acquaintance here and at Carroll, has recently gone to Cedar Rapids, Iowa, to attend college, where he was elected president of the freshman class. The Sioux City Journal of yesterday has the following account of the election: "It was Berry's oratorical abilities, with which Sioux City high school boys are familiar, which won him the presidency of the class. There were five candidates for the office, each of whom had a considerable following, except Berry, whose boom was not launched until after the meeting had been called to order. As it turned out however this made little difference, for the meeting was to be a duplication of the Chicago democratic convention, at which William J. Bryan was nominated for the presidency of the United States. Each candidate was called on for a speech, and here is where Berry won the day. As he waved his arms and shook his head, the followings of other candidates flocked around his standard, and his handful of original supporter went wild. When the vote was announced they took him on their shoulders, and amid cheering and applause, bore him around the hall.

The descent is certain from weak lungs, lingering coughs, throat troubles or bronchitis. These affections through bleeding, congestion, to consumption, if the first stages are neglected. Thousands of people who are now in their graves would be alive and well to-day if they had heeded the first warnings, these troubles which lead to consumption and death.

The hacking cough, spitting of blood, weak lungs, and all similar troubles of the organs of breathing, will surely lead to consumption, if they are not already the signs of it. Then there are the other indications of the approach of consumption, such as night-sweats, emaciation, or wasting away of flesh from bad nutrition, which, if neglected, lead to certain death.

Ninety-eight per cent. of all the cases of weak lungs, consumption, or other obstinate coughs, and other bronchial and throat diseases, which have been treated with Dr. Pierce's Golden Medical Discovery, have been cured by it. Do not wait until your throat trouble becomes serious. All bronchial and throat troubles are serious. The time to take the "Golden Medical Discovery" is right at the start.

Even if your throat trouble has been neglected until it has been pronounced pulmonary disease or consumption, do not hesitate to use the "Golden Medical Discovery," for thousands of letters from the sufferers themselves, who are now well, bear evidence that the "Golden Medical Discovery" will cure, even after good physicians have pronounced the disease pulmonary consumption, was cured by it.

I had been troubled with bronchitis for several years," writes Mrs. O'Hara, Box 214, Pease Falls, Ontario, Can., Minn. "In the first place, I had sore throat. I doctored with different physicians and took various medicines, but got no relief. I raised from my throat a sticky substance like the white of an egg. Could not sleep and had made up my mind that I would die through the winter. I took Dr. Pierce's Golden Medical Discovery and Favorite Prescription alternately, and in a few days began to see the light. I took a course of both and have not felt as well in years as since using Dr. Pierce's Pleasant Pellets for constipation and biliousness.

Nebraska is a republican state; please make a note of this.

When a fusionist attempts to talk politics to you just tell him to remember the Oregon.

The Weekly Gazette is the name of a new paper published by Anderson and Boggstrom at Wausa. It has a healthy appearance.

W. M. Wright will show the fusionists that there should be a little honor in the political tie-ups of the three-ringed office-grabbing bombine.

According to the fusion regime of the state the prosperity all over the United States is due to the fact that Nebraska has a set of fusion officials. "Gee whizz!"

The Supreme court has rendered a decision declaring that Frank E. Moores, mayor of Omaha is ineligible to office. Mayor Moores is charged with being a defaulter at the time of his election and the Supreme court has sustained the charges.

The democrats are endeavoring to find consolation in the fact that the republican vote in Maine was considerable less than in 1896, but you never hear them mention that the democratic vote in Arkansas a few weeks ago was nearly 35,000 less than Bryan received in 1896.

Judge N. D. Jackson, the republican nominee for attorney-general, was appointed by Gov. Crouse to fill the unexpired term of Wm. V. Allen in this district when the latter was elected to the Senate. Mr. Jackson is one of the ablest and best-known lawyers in the state, and in appearance is the peer of any lawyer in Nebraska.

Slowly and steadily goes forward the campaign in the state of Nebraska, being conducted on the one side by a people anxious to uphold the grand American republic and the splendid achievements of her people; while the other side seeks to accomplish its purpose by misrepresentation. The republicans of Nebraska will wage an honorable campaign under the supervision of an able state committee and there can certainly be but one result, the election of such patriotic American citizens as M. L. Hayward for governor, T. L. Matthews for auditor, N. D. Jackson for attorney general, and so on, without prejudice.

The United States' exports for the last year amounted to \$4,000,000 for every working day. One-fourth of the exports were of manufactures. We sold therefore, \$1,000,000 worth of these goods every working day. That was a pretty good trade for a young nation to carry on with the outside world. In view of the fact that the men who make these wares receive better wages than the artisans of any other nation, and that their wages have steadily increased while the industries have been built up, the result is a vindication of the American industrial policy which has put the country at the head of all the nations in manufacturing and yet maintained the quality of its citizenship.—Sioux City Journal.

THERE'S MILLIONS IN IT.

The Nebraska Pioneer publishes documentary evidence to show that Judge Robinson has some pretty substantial reasons for wanting to go to congress. The documentary evidence is a copy of a contract to which the judge is one of the parties. The contract is between Santee Sioux Indian claimants and four attorneys, of whom the judge is one. The Indians have claims against the government on account of their lands in South Dakota and North Nebraska and these attorneys have agreed to and are pushing the claims against Uncle Sam in consideration of being paid a collection fee of 10 per cent. therefore, said fee acting as a lien against any check of money that may be issued by the government in satisfaction of such claims, from which it will be seen that the lawyers propose to have the first whack at the funds; in other words, the white man is to have the turkey, and the Indian the buzzard, as usual.

The Pioneer sets forth that these claims, in which the fusionist congressional candidate is interested, will aggregate something like a million dollars. A simple computation shows that the 10 per cent. attorneys' fees provided for in the contract between Judge Robinson and his thrifty gentlemen the modest little sum of \$100,000. The Pioneer also states that the claim has "made fairly good progress in the Indian department, but some of the mixed blood Santee Sioux have objected to this percentage feature of the transaction, and for the time being the claims remain dormant, having been blocked by the non-percentage faction. The senate (of which Robinson's law partner, Senator Allen, is a member) is understood to be ready to act, but the house is not so ready. This firm, of which Judge Robinson is the attorney in fact, is doing all in its power to place him in a position to pluck this big plum."

It must be conceded that Judge Robinson, if elected, will be in a much more advantageous position to press this claim, with voluptuous attorneys' fees attached. In view of the fact that he would also be paid \$5,000 a year salary by the government for collecting from it, it must likewise be admitted that the judge is preparing for himself a very soft snap. It explains very satisfactorily why he resorted to a still hunt and trickery to overthrow Mr. Maxwell, who is the only one of the present populist congressmen not renominated for a second term. There will be almost literally "millions in it."—Fremont Tribune.

The commission appointed by President McKinley to investigate the administration of the war department has commenced the inquiry and every effort will be made to secure a thorough investigation. President McKinley, in addressing the commission at the first meeting, said among other things: "I cannot impress upon you too strongly my wish that your investigation shall be so thorough and complete that your report, when made, will fix the responsibility for any failure or fault by reason of neglect, incompetency or maladministration upon the officers and bureaus responsible therefor, if it be found the evils complained of have existed. 'The people of the country are entitled to know whether or not the citizens who so nobly responded to the call of duty have been neglected or misused or mal-treated by the government to which they so willingly gave their services. If there have been wrongs committed, the wrong-doers must not escape conviction and punishment.'"

It is well for every republican to bear in mind that Judge Norris of Wayne, our candidate for congress should be worked for from now till election day. He has a hard fight on his hands in this district but can be elected by hard consistent work. We can never afford to have such a man as Norris defeated.—Schnyler Sun.

Judge Norris will be elected. The business men and business farmers of this district recognize the need of electing a man in harmony with the present administration which brought such a splendid return of prosperity. A great many men who voted the fusion ticket two years ago are thinking today and the silence observable indicates that they will go to the polls and quietly vote for the republican candidates for congress, state senator and representative.

In view of the splendid condition of the whole county today, can any sensible citizen of Wayne county step up to the polls this fall and cast a vote against these conditions? We believe not. The welfare of the country and the welfare of ourselves is much more important than aiding fusionists in their scramble for office. Think this matter over well and be deliberate in your judgment. Every thinking man well knows that he, has the rights of a freeman and that he can cast his vote unchallenged and without fear or favor, but for his country and his countrymen.

General Fitzhugh Lee is an avowed candidate for the United States senate from Virginia, but none of his friends, much less himself, are demanding that he be mustered out by the president so that he can go home and attend to politics. General Wheeler will run again for congress in his district, but he has just obtained an assignment to a command that will take him to Cuba as soon as the weather gets cool enough to occupy that island, which will be probably right away. But comparisons are odious.—State Journal.

The next Senator from the Eleventh district will be Jno. R. Hays of Madison county. The comparison between him and Fleck Hale so far as ability is concerned, is practically unanimous in favor of Mr. Hays.

The "reformers" have also been impeached and convicted in the claim set up about the wonderful economy practiced by the popocratic legislature of 1897 in comparison with the republican legislature of 1895. They seem to presume in their circulars that the people of Nebraska do not comprehend the difference between appropriation and expenditure. Money may be appropriated, but it doesn't always follow that it is all paid out, though it may be if necessity requires it. Reformers declare boldly that they have actually "saved" in their appropriations the sum of \$371,378.13, in 1897 as compared with republican appropriations in 1895, when the truth of the matter is and they know it, they have spent in round numbers \$100,000 more for the ordinary expenses of our state government than did the republicans in 1895, covering the same period of time. They employ the same tactics in figuring out their great "saving" in this case as in all the others. In short, they have deliberately lied about it.

The difference between the republican and fusion senatorial conventions held in this city was so marked that it could not fail of comment. Yesterday's convention was an orderly gathering of quiet, sincere men who came together and harmoniously conducted the business, nominated John R. Hays without any friction, and at the end of an hour had adjourned. The fusion senatorial convention held some weeks ago, was called to order at about the same hour in the afternoon, and after wrangling all the rest of the day, adjourned for supper. After partaking of needed refreshments the delegates congregated again and the ball was opened and continued open until 6 o'clock the next morning, when F. J. Hale was pronounced the nominee. One convention was orderly, quiet and harmonious; the other was turbulent, noisy and frequently bordered on the verge of dissolution.—Norfolk News.

The report of Judge Hayward's speech as it appears in many papers of the state contains a typographical error. Judge Hayward said that "Douglas county pays one-eighth of the taxes of the state," and some of the reports have him say "one-half." The state treasurer takes issue with Judge Hayward on the statement of the amount of money turned over by Bartley. Mr. Meserve says the amount that was available January 7, 1897, and not tied up in suspended banks, was \$864,602.13. The republicans of the state are willing to accept this statement as correct, it being the first time any popocratic official has admitted that Bartley left any money in the treasury.

We point with pride to our fulfillment of the promise of tariff reform. With a return to protection there has come a change in the balance of trade. Under Cleveland we were shipping millions of gold to Europe in exchange for goods bought from foreigners. Under McKinley Europe is shipping millions of gold to us in exchange for our products and manufactures. We point with pride to the revival of trade, the increased demand for labor, the advance of wages, the improved condition of the agricultural class that we predicted as a result of return to republican policies. The coming winter will make no call for free soup houses for the hundreds of thousands of unemployed.—Chicago Inter Ocean.

Business before nonsense seems to be the motto. The popocrats have become so busy that they haven't time to talk politics and preach calamity now. In fact, we never knew a time when the popocrats had so little to say. The truth is, with few exceptions, they do not care how many republicans are elected.

M. S. Moats, the republican nominee for county commissioner of the third district, is a business man, a successful farmer, an honorable man, and one who will look after the county's business in the same splendid manner in which he looks after his own business. He is the man to vote for.

The fusionists have come to realize that Judge Norris is in the race for congress and that that majority claimed for Robinson has vanished. The people who desire to uphold an administration that has brought a return of prosperity having turned that majority down.

The Kansas City Weekly Journal says: "It isn't true that Kansas Populists are persistently staying away from campaign meetings. They are seen in large and increasing numbers—at Republican meetings."

It is reported that the largest tin plate establishment in the world is to be moved from Wales to the United States. And still the free traders used to say that tin plate could never be made in this country.

Judge W. F. Norris is a man of the people and will represent all the people if he is elected congressman from the Third district, as he should be. No corporation has a string tied to him.—Omaha Bee.

The manner in which the fusionists are trying to show up the economy of the present state officials is one of the biggest fakes of the age, but the people are not easily humbugged this year.

OUR DESTINY IN THE PACIFIC. Nelson wrote the British admiralty in 1780 that he proposed to seize the great lake of Nicaragua, with the regard as the inland Gibraltar of Spanish-America. Had Nelson carried out his plan England would hold today this natural fortress and would be mistress of the Caribbean sea, the gulf of Mexico, and the Pacific. In Nelson's time the English statesman was intent on securing an eastward route to the Asiatic Pacific, and they have never yielded a point gained. The United States has supplanted England in the Caribbean sea and the gulf, and is pledged to do what Nelson dreamed of a hundred and more years ago—build a canal from ocean to ocean by way of the inland Gibraltar, Lake Nicaragua.

The Fall Mall Gazette points out England's mistake in losing sight of the great problem of piercing the Central American isthmus, and adds: "The key to the Pacific is in the Caribbean sea and the Mexican gulf, Pekin or Yokohama may be menaced or defended at Porto Rico, Jamaica, or Santiago de Cuba." These words show that many Englishmen are taking a more prudent and more far-seeing view of the present situation than are Americans themselves. These Englishmen whose fathers secured for England an eastern route to Asia see the relations between American victories in Cuba and Porto Rico and Hawaii's victory in the Philippines in the light of the United States' acquisition of Cuba, Porto Rico, and Hawaii. The purpose is the same in all. We are holding the outposts to a new circle of influence and activity and to yield at one point is to weaken the whole line of advance. To become a mere spectator in the contest over Cuba, Porto Rico, the Nicaragua canal, Hawaii, and the Philippines. As the right of the line of occupation the Philippines are as important as the left or the center. They are the key to our position in the Pacific; they connect the great continent of America with Eastern Asia. As well might Mexico have withdrawn his right wing at Gettysburg as for the Americans to retire from the Philippine islands.

In view of a possibility of the surrender of the Philippines the Fall Mall Gazette says: "The Americans have now the opportunity to establish their westward road to the Asiatic Pacific. They would be strangely blind to the warnings of history and unaccountably forgetful of the example of other countries if they regarded what they have been lucky enough to gain." With the greatest opportunity ever presented to any nation open to them Americans will not be blind. The advantages of going forward are too great, the obligations imposed by victory are too heavy, and the call to a higher national duty is too urgent for the United States to surrender the opportunity. A manifest destiny has been driving the nation in the direction in which it has moved with startling rapidity since last April, and not many Americans will care to resist its force.—Inter Ocean.

Thousands of the most stubborn and distressing cases of piles have been cured by Fabers' Pile Ointment. It never fails to cure. Price 50c. in bottles, tubes 75c. Wilkins & Co. There is no fear of the eastern states voting for the free and unlimited coinage of silver, and for that reason the republicans there pay little attention to politics as these states go largely republican anyhow. But in the west it is different this fall. It is here the work will be done, and a number of states like Oregon will speak in no uncertain tones their allegiance to republicanism, though having temporarily gone astray.

Three Doctors in Consultation. (From Benjamin Franklin.) "When you are sick, the best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; and what the Theory says is best to be chosen in the last place. But if you can get Dr. Inclinatio, Dr. Experience and Dr. Theory to hold a consultation together, they will give you the best advice that can be taken." When you have a bad cold Dr. Inclinatio would recommend Chamberlain's Cough Remedy because it is pleasant to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. COURT HOUSE BONDS.

NOTICE OF ELECTION TO VOTE BONDS FOR COURT HOUSE.

Notice is hereby given that on Tuesday, the 8th day of November, 1898, at the general election held in the County of Wayne, in the State of Nebraska, there will be submitted to the vote of the people of said county the following proposition: "Shall the County of Wayne, in the State of Nebraska, by its Board of County Commissioners, issue its negotiable coupon bonds in the amount of Twenty-five Thousand Dollars (\$25,000.00) of the denomination of Five Hundred Dollars (\$500.00) each, to be dated December 1st, 1898, bearing interest at the rate of five per cent (5 per cent) per annum, interest payable semi-annually on June 1st and December 1st of each year. The principal of said bonds to become due in installments as follows: Twenty-five Hundred Dollars (\$2,500.00) on December 1st, 1899, and the balance of said bonds in five equal annual payments, the first of which shall be made on December 1st, 1904, and including December 1st, 1908, until the full amount is paid; the principal and interest payable at State of Nebraska Fiscal Agency in the city of New York. For the purpose of the construction, erection and completion of a Court House at the county seat of said county, upon Block Two (2) Crawford & Brown's addition to the town of Wayne, known as the 'Court House Block,' for County purposes and all purposes for which said Court House may be legally used." "And shall said Board of County Commissioners, or other officers charged with the levying and collection of taxes, levy annually a tax as provided by law, in addition to all other taxes, sufficient to pay the principal and interest on said bonds as the same becomes due and payable, and appropriate the money realized from the sale of said bonds for the construction and completion of such Court House?"

"All the cost thereof not to exceed the sum realized from the sale of said bonds. The said bonds not to be sold for less than Twenty-five Thousand Dollars (\$25,000.00)."

Work on said Court House to be commenced as soon as practicable after the adoption of this proposition by the legal voters of said county of Wayne.

The above proposition shall be printed upon the regular ballot, as follows: "Shall the County of Wayne issue its negotiable coupon bonds in the amount of Twenty-five Thousand Dollars (\$25,000.00), in denominations of Five Hundred Dollars (\$500.00) each, to be dated December 1st, 1898, bearing interest payable semi-annually at the rate of five per cent (5 per cent) per annum; principal payable in installments as follows: Twenty-five Hundred Dollars (\$2,500.00) December 1st, 1899, and Twenty-five Hundred Dollars (\$2,500.00) annually thereafter, until the same are fully paid, and levy a tax annually as provided by law, in addition to all other taxes, sufficient to pay the principal and interest on said bonds as the same becomes due and payable, and appropriate the amount realized from the sale of said bonds for the construction and completion of said building, the cost of same not to exceed the amount so realized; and said bonds not to be sold for less than per?"

And the words "Yes" and "No" printed on the right hand thereof, with squares as provided by law for voting thereon; a cross placed in the square against the word "yes" shall be a vote in favor of said proposition, and a cross in the square against the word "no" shall be a vote against said proposition.

And if a majority of the legal voters voting thereon shall be in favor of said proposition it shall be deemed and taken to be carried.

The County Clerk is hereby directed to cause notice of this proposition to be given for four weeks in the Wayne Herald, Wayne Democrat, and Winside Tribune, weekly newspapers published and of general circulation in said County, in addition to preceding said general election, they being the official papers of said county.

And he is further instructed to deliver to the Sheriff of said county of Wayne a sufficient number of copies of said notice, and said Sheriff shall post said notices, with a notice of said general election, in each of the Precincts of said County as provided by law, and make due return thereon.

And it is further ordered that the County Clerk shall furnish to the Judges of election in each precinct a copy of said notice, to be posted up at each place of voting in said precinct during the day of election.

Norfolk News (Saturday): The sugar factory force this morning completed a day's run, which in the amount of beets handled and tonnage of sugar made, broke all previous records made since the establishment of the institution. The run was in fact something phenomenal. During the 24 hours 448 tons of beets passed through the machinery and various processes, and were converted into 83,500 pounds of high grade sugar. People can perhaps better realize the size of this run when they understand that the capacity of the factory is but 250 tons of beets.

Laurel Advocate: M. H. Dodge, wife and daughter, are boarding at Hotel Laurel, until they can build. The gentlemen is an attorney, and has entered into a partnership with Ocell Ward. He comes from Winside, where he is well spoken of. The new owners are welcome. Miss Grace Atkins of Wayne, an expert behind the dry goods counter, is employed at the new store. Wayne will soon have her electric lights. Well, in a bold, bad town like Wayne the lighting should be perfect. Of course the people of Laurel are so good that it is safe for a woman or child to grope their way by the light of an ordinary gasoline street lamp. Never mind, Wayne, we'll give you a hot house, and in a few years you will be big and great as you are, with all of your metropolitan airs.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she ought to make which settled on her lungs, she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking six bottles, found herself sound and well; does her own house work, and is as well as she ever was.
