Lincoln has five candidates for the United States senatorship. It seems to be a capitol idea.

Senator Allen ought by all means to do everything possible to help Bryan get the presidential nomination in 1900(?) But will he!

Apparently Omaha wants to play the hog act; nevertheless if she undertakes to hold an exposition next year, that city will get a blow that will be heard from one end of the state to the other.

What would the U. S. Senate be without Senator Stewart and his "orime of 78"? Somehow or another that infernal orime seems to have got lost in the battle of ballots evidencing the fact that the people have grown tired of Stewart's song of sixpense.

The resignation of General Blanco, the Governor General of Cuba, has been accepted by the authorities at Madrid. This will save Blanco the job of surrendering Hayana to General Lee, but it's all the same whether Blanco performs the act or some other Spaniard.

Judging from all reports as well as from the natural trend of events the next United States senator from Nebraska will be the Hon. M. L. Hayward, and it should go to him or to Judge Norris who did so much in the third congressional district towards redeeming the state from populism. ing the state from populism.

Joelah Quincy in his day was afraid of expansion. He declared that the admission of Louisiana as a state would speedily destroy the American unioh. By New Train Service, The Best Paper in the West Reaches Wayne the Earliest.

The change in time on the C. St. P. M. & O. enables the Bee to reach Wayne early in the morning, Sunday as well as week days. Everybody is subscribing because they can get their papers so much earlier than before. Perhaps this is also accounted for because the Bee publishes a big twelve paper Daily filled with news, including the full Associated Press dispatches and Now York World Cable Service, the most complete and reliable market reports, and correspondence from everywhere, to say nothing of a live editorial page. Then the legislature is about to meet to elect a United States Senator, and the people want to know about it. You can get the Bee for 15 cents a week through Robert Utter, the agent, or order it by mail by writing the Bee Publishing Co., Omaha. This makes everyone appreciate the improvement in the train service.

The year so exceptional in magnitude and variety of its blessings draws near its end with yet another good gift, a marked increase of configence in prospects for the year to conie.

The term expansion means a world of things but there is nothing too good for Unole Sam. Every indistrious oitizens is doing his level best to expand, in other words, is laboring hard to increase his possessions. Its the atture of the live human being.

Fusionists are having a very difficult time endeavoring to make it appear that there was no republican victory at the recent election. However, such strange treaks only remind the people of a long whiskered tilly goat bucking up against a stone wall.

A host of admiring friends through out this great state are thankful that Senator Thurston has decided to serve out his term. He is heart and soul with President McKinley, and so are the people.

Then, too, it seems to us that it was quite out of place to try to mix politics with bhurch affairs. Another thing, a majority of the people in attendance that night were republicans and to try and froast" them simply because they saw fit to keep their money in their pockets, was entirely out of place. The ladies who had the fair in charge were not to blame for such consummate audacity as was displayed by the auctioneer. But it is nevertheless to be regretted that it occurred.

Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you cannot get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single scale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one. This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs colds sind croup there is nothing equal to Chamberlain's Cough Remedy.
