Just a Cough

Not worth paying attention to, you say. Perhaps you have had it for weeks. It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a fatal ailment. At first it's a slight cough. At last it is a hemorrhage. At last it is easy to cure. At last, extremely difficult.

Ayer's Cherry Pectoral

Quickly conquers your little hacking cough. There is no doubt about its cure now. Doubt comes from neglect. For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. Its effect on consumption also is proven in time.

Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough. We shall send you a book on this subject, free. Our Medical Department. If you have any complaint what Ayer's Cherry Pectoral will cure, send for our book. Address, Dr. J. C. Ayer, Lowell, Mass.

Syrup of Figs

NEVER IMITATED QUALITY

THE EXCELLENCE OF SYRUP OF FIGS is not only in the originality and simplicity of the combination, but also in the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. Its active ingredients are pure and its composition is such that it is not only safe but also most effective. The CALIFORNIA FIG SYRUP CO. has the knowledge of that fact which is in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction of the genuine SYPHON OF FIGS, makes it a name known to millions of families, makes the name of the Company a guarantee of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not grip or purge. It is a safe and effective remedy. Please remember the name of the Company.

NO CHANCE FOR PEACE. Here's a writer who says married people ought to live across the street from each other. That wouldn't do at all. They'd fall out then about things they'd borrow.

Some Corrections.

Horrals never defended the bridge. The story was manufactured by the same gifted author who gave the world the account of Scævola's heroism. Blunder, the harper, did not discover the prison of King Richard. Richard paid him the ransom, and the receipt for it is among the "Annals of the Kings." Queen Elizabeth was not the anglic creature represented in the histories and poems of her own times. Her hair was red, her temper red hot. She sometimes drank too much, and at any occasion would curse like a trooper. She frequently swore at her maids, and sometimes struck, kicked and pinched them.

Mary Stuart of Scotland was not a beauty. She had cross eyes, and, to save the trouble of having her hair dressed, cut it off close to her head and wore a wig. When, after her death, the executioner lifted her head to show it to the people, the wig came off and showed a close cropped skull, covered with gray hair.

Vinegar will not split rocks, so Hannibal could not thus have made his way through the Alps. Nor will it dissolve pearls, so that the story of Cleopatra drinking pearls melted in vinegar must have been a fiction. The blood of Rizzio, Mary Stuart's favorite, cannot be seen on the floor where he was murdered by Darley and the other conspirators. What is seen there is a stain of red paint, annually renewed for the benefit of gaping tourists.

Small Loss.

Miss Cutlag—Did you witness the funeral game last week, Mr. Softly? Softly—Yes; and the excitement was so great for a time that I actually lost the head, don't you know. Miss Cutlag—Really? But I am at a loss to understand how you happened to miss it.

Will It Come to This?

Mrs. Ballot—But what qualifications has she for the office? Mrs. Ward—Why, she's a self-made woman.

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"Can Do My Own Work."

Miss GERTIE DEKIN, Franklin, Neb., writes: "I suffered for some time with painful and irregular menstruation, falling of the womb and pain in the back. I tried physicians, but found no relief. I was at last persuaded to try Lydia E. Pinkham's Vegetable Compound, and cannot praise it enough for what it has done for me. I feel like a new person, and would not part with your medicine. I have recommended it to several of my friends."

Fit the Case. "Sober—I see that Shocks, the wife-venter, is to be taken before Judge Boozeman for trial to-morrow; don't seem to me that he's the proper man to try such a case."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the natural, God-given, remedial system. Deafness is caused by an inflammation of the mucous membrane of the Eustachian tube. When this tube gets inflamed, you have a running nose or a running ear, and when it is entirely closed, deafness is the result. The inflammation must be taken out and this tube restored to its normal condition, hearing will be restored. The only way to do this is by the use of our medicine. It is a simple, natural, God-given, remedial system. It is a simple, natural, God-given, remedial system. It is a simple, natural, God-given, remedial system.

TAILOR-MADE SUITS.

DISTINCT CHANGE FOR MIDWINTER GOWNS.

Health Skirts are the Only Correct Thing—Elaborate Waistcoat and Front Effects Seen with Otherwise Several Continues.

New York correspondents: THE WINTER tailor-made suit will show a distinct change in fashion. It is no longer a simple, straight, single-breasted affair, but a more elaborate and dignified garment. The waistcoat is now a distinct feature, and the front effects are more pronounced. The skirt is also a distinct feature, and the front effects are more pronounced. The skirt is also a distinct feature, and the front effects are more pronounced.

AN ADVANCED STREET SWEEPER.

With long folds and a dacker gray velvet. Next a brown tweed mixture whose only ornamentation was machine stitching and not much of that. Then is shown a suit of automobile red cheviot, trimmed with black velvet for the collar and with black silk buttons for the rest, the buttons being black horse. The last of the four together was hipster's green cloth, bias folds and steel buttons for finish. Plain skirts that touched the ground were included with each suit. In the last two of today's pictures are costumes of much the same grade, but shown in full length because they included "advanced" skirts. The first one dragged a little, not more than moderate fashions indorse, though even its sweeping is far from sensible.

TWO-PIECE TAILOR SUITS OF THE SIMPLEST SORT.

But the second shirt had a distinct train, though intended for the street. A woman in such a dress can feel that she is not only leading the fashions, but that few of her sisters will follow her. Fancy brown broad trimmed up suiting prettier in the first of these suits, and black ladies' cloth was used for the other. This last would can be had, too, in the most delicate grade, but think of how long a light gray would last in such a street sweeper.

At the Concert.

"I wonder why they have two pianos on the stage?" "So that if the celebrated virtuoso should smash one to pieces in playing that fantasia at which he is said to be so fine he will have the other to fall back on without stopping the performance."

"Might I ask you lives here?" asked a polite gentleman of a stranger he met in front of a handsome mansion. "Certainly, sir," as politely replied the other. "In what is it?" "In 'St. Louis' don't you know," replied the stranger. "London, London, London."

Step Down.

Not even the most ardent advocate of woman's rights at a banquet recently given to a "distinguished guest" from abroad, could help smiling at one toast which was proposed. A brilliant speech had been made with reference to the wide variety of careers now open to women, and their success in every direction. When it was asked a mild little man, the twinkling of whose eyes betokened the gravity of his countenance, proposed the following toast: "To the ladies—once our superiors, now our equals!"

Had a Cigar.

Two well-known traveling men were members of a card party the other night. One of them asked the other if he had a cigar in his pocket. The answer being in the affirmative the questioner said: "Give it to me. I don't like the cigars they sell here." Then the man who had a cigar began to go through his pockets. He first took out his cigar case. That was empty. They searched all of his pockets and they were unable to find a single one. The man who had a cigar began to go through his pockets. He first took out his cigar case. That was empty. They searched all of his pockets and they were unable to find a single one.

Mean His Own Country.

A traveling American made a visit to Greyfriars' Churchyard at Edinburgh. The sexton was a man of Aberdeen-shire, and his heart was in the Highlands; playing the violin had been at Greyfriars' burial, and said to the sexton, as the old man pocketed his fee: "I have seen your Highlands since I was here last." "Oh," said he, with faintly Highland inflection, "and had ye never been there before?" "No, I have never been in Scotland before." "I live in America." "Oh! 'Tis a grand country, that." "America? It is, indeed." "The old man looked up in other surprise. 'Nay, nay,'" he said, "impatiently, 'the Highlands! A grand country.'"—Argos.

BRADSTREET'S REVIEW.
Export Trade for 1918 Will Probably Exceed \$1,250,000,000.
New York, Bradstreet's says: Holiday quiet in general demand, sustained activity in industrial lines, particularly iron and steel, exceptionally large shipments of goods on orders, liberal clearing exports and especially a heavy decline in expenditures. The export trade of the country for the year, as heretofore estimated, is the heaviest ever known and will probably exceed \$1,250,000,000 in value, this being early 1918 in the imports. Our export trade in manufactured goods, amounting to \$117,474,000,000, declined in the first ten months of the year by 1.1 percent, but in the first nine months of the year by 1.2 percent, and in the first eight months of the year by 1.3 percent.

There were 11,930 failures in the United States in 1918, a decrease of 13.1 percent from 13,754 in 1917, a number of 11.2 percent, and in liabilities, of 9.5 percent.

BOUGHT BROTHER'S PENSION
Luttrell of Oregon Arrested by Federal Officials.
PORTLAND, Ore., Dec. 19, 1918. (Special Agent in Charge of Oregon, Oregon) has been arrested in the United States circuit court, Portland, Ore., for allegedly endeavoring to obtain a pension, and committed to jail in default of \$2,000 bail. He made application to the United States commissioner of pensions under the name of John Luttrell, who was rejected by the pension board. He was arrested during the war by his brother, Luttrell, who was a soldier in the United States army. He is now in the hospital in Portland, Ore., and is being treated for a nervous breakdown. WHAT THE WAR COST
WASHINGTON OFFICIALS SAY IT WILL REACH \$250,000,000.
This is about the amount estimated by careful observers at the time the Protocol was signed—Mexican Ambassador Dies from Epidemic.

The cost of the Spanish war, including garrisons in the dependencies, during the remainder of the present fiscal year, will probably fall within the limit of \$250,000,000. This was about the amount estimated by careful observers at the time the Protocol was signed in September, 1917, and the estimate has been sustained by subsequent events.

The signing of the protocol was far from putting an end to the expenditures, and the net cost of the military and naval services, as a whole, in 1918, was actually larger than for the fiscal year in August. The figures for later months have shown a gradual decline of several millions per month, and it now looks as though existing revenue laws would meet the cost of the fiscal year on June 30, next.

Stated in round figures the combined cost of the army and navy service over the cost of 1917, when both services were upon a peace basis, was \$140,000,000 in July, \$220,000,000 in August, \$250,000,000 in September, \$200,000,000 in October and \$170,000,000 in November. The cost during December has been about \$150,000,000.

These expenditures are not entirely for the maintenance of troops now in the field, but include the construction of contracts entered upon in the spring, the manufacture of arms and supplies at the armories, which is still going on at a higher rate than before the war, and the payment of troops which have been mustered out of service.

The following table exhibits the warrants drawn upon the treasury for the service of the War and Navy Departments for each month since the emergency appropriation of \$50,000,000 was made by Congress, the warrants drawn for the months of 1917, and the excess of the warrants for the months of last year, which indicates substantially the additional military and naval expense imposed upon the country by the expansion of Spain from Cuba, Porto Rico and the Philippines.

TO DIVIDE STANFORD ESTATE
AN ORDER GRANTED BY THE SUPREME COURT FOR ITS DISTRIBUTION.
SAN FRANCISCO, Superior Judge Coffey has granted a decree of distribution of the estate of the late Stanford Leland Stanford Jr., which was made in full, the executor of \$228,000, which is in dispute and which has been deposited with a trust company. Nearly all this amount is claimed by the wife of the late Stanford Leland Stanford Jr. for her dower interest. The executor has paid under protest, and on an appeal to the supreme court that tribunal declared the tax illegal, but a rehearing has been granted.

MRS. BOKIN GUILTY OF MURDER
California Jury Sentences Her to Life Imprisonment.
At San Francisco, Mrs. Cordelia Bokin was found guilty of murder in the first degree for causing the death of Mrs. John P. Dunning by sending a box of poisoned candy to her temporary home in Dover, Del. The condemned woman will be spared death on the gallows, however, the jury imposing the penalty of life imprisonment. The verdict was rendered. An acquittal was confidently awaited by the defense, while the prosecution feared discomfiture.

The crime for which Mrs. Bokin stands convicted is one of national interest, owing to the peculiar circumstances connected therewith. On Aug. 22, 1918, Mrs. John P. Dunning, her sister, Mrs. Dean, and a number of others partook of some candy at the home of Mrs. Dunning's father, in Dover, Del. Mrs. Dunning and Mrs. Dean died, and investigation showed that the candy had been heavily dosed with crystallized arsenic.

In the box of candy was a note signed "Mrs. C.," sending love to Mrs. Dunning and her baby. By a wonderful chain of circumstances the crime was traced to Mrs. Cordelia Bokin, who had become infatuated with Dunning during his stay in San Francisco. Mrs. Dunning had previous to receiving the candy, received anonymous letters, which Dunning declared had been written by Mrs. Bokin.

Handwritten extracts declared positively that the candy had been heavily dosed with arsenic, and the address on the box of candy, which Mrs. Bokin had purchased the candy.

BETTER MAIL SERVICE
From New York to Chicago Time is Considerably Cut Down.
The Postal Assistant Postmaster General and the Postal General manager have agreed on a general change in the transcontinental mail service.

The time of the fast mail leaving New York at 9 p. m. on the New York Central hours between New York and Chicago, arriving at the latter point at 8:30 a. m. instead of midnight, as now. From Chicago fast trains will leave for Milwaukee, St. Paul and Minneapolis, and for Omaha, Mail departures reaching St. Paul at 11 p. m. and Minneapolis at 11:30 p. m. respectively. The overnight train now leaving at 12:30 p. m. will leave about 9:30 a. m., thus effecting a material gain throughout Minnesota and expediting the mails all the way through to the east.

Trains leaving Chicago at 11:45 a. m. and will connect at Union Pacific transfer with the overnight train leaving Omaha in the morning over the Union Pacific railroad, instead of the one leaving in the afternoon. This effecting a gain in transit of thirty days, for example, between Omaha and San Francisco, arriving at San Francisco at 8:45 p. m., instead of 9:40 a. m. the following day, as at present. Nearly the entire State of California will receive this mail practically for business purposes about twenty-four hours earlier than at present.

East-bound there will be a corresponding gain. Mails from the West via Omaha will arrive at Chicago at 6:45 a. m., will arrive at 2:30 p. m. and mails now arriving from St. Paul and Minneapolis at 7 a. m. will arrive at 2 p. m., connecting with the fast mail to New York at 2:30 p. m. Mails from the West via the first carriers' delivery. The fast mail which now reaches that city at 2:30 p. m. will arrive at 7:30 a. m. There will be a corresponding gain for forty all Eastern points.

Special Election Will Be Held at Fremont on Proposition to Redeem City's Bonded Indebtedness Will Be Great Saving if Carried.

Fremont Will Drive a Bargain.
At the meeting of the city council of Fremont last week an ordinance was passed, without opposition, calling a special election for January 20 to vote on the proposition to refund the bonded indebtedness of the city. The bonds now out bear 4 and 5 percent interest. It is proposed to refund them with twenty-year 4 1/2 percent bonds, due March 1, which will make an annual saving to the taxpayers of \$1,300. Secretary for Cheyenne County
The Cheyenne county board of trustees administrator of the estate of William J. Chayeville, was held at Sidney before District Judge H. M. Grimes. The ruling of the court stated that the petition failed to establish a sufficient interest of the trustee in the property and it was accordingly dismissed. This is the first time the county trustee has been held liable for his failure to pay nearly \$100,000 in personal taxes.

Clayman Under Suspension
Bishop A. C. Graves has suspended Rev. Tyrer of Oak because of a series of suspensions recently delivered from his pulpit. He said he had been under a suspension of both the new and old testaments. The Episcopal community there is excited over the verdict and as Rev. Tyrer is popular, many declare they will support him in opposition to the will of the hierarchy.

Omaha Wants an Agent
A petition is being circulated at the agency in San Francisco, proposed at the request of the Omaha people, that they be given a separate agent. They maintain that they are neglected and that there is business enough for two agents. Mr. Chase, who drew the petition, said that it will be generally signed by both tribes. He hopes to bring it to the notice of re-establishing the Omaha agency.

AFRAID OF INDIANS.
An Adventure of Two Scotch Boys in Upper Canada.
About sixty-five years ago, says a writer in the Montreal Witness, two young lads from Scotland, and set out for the wilderness of Upper Canada. They had heard that Indians might be found in the region, and they kept a sharp and somewhat fearful watch. Nearing their destination, they overtook one chilly night by the side of a stream. While they were getting their lunch, hovering over the fire, they were overwhelmed with astonishment and fear by seeing a small band of Indians suddenly appearing.

As the Indians were very friendly and as the boys were too young to fight, the young fellows decided to parley with the savages; but their "parleying" was rendered of no effect by the fact that while the Indians spoke not a word of English, the Scotch boys were totally ignorant of the sign language in which the Indians tried to converse. But presently the savages made a gesture which the boys understood. It was a beckoning sign, and plainly meant, "Come with us." "Well," said one of the boys to the other, "it is evident that we have got to die, and we may as well die at their camp as here." "In any event, we will die like men," said the other.

So they started along, following the Indians, or rather followed by them. Soon they reached a large Indian lodge, which they entered. The Indians beckoned to them to sit down in front of a large fire in the center of the lodge, which was directly beneath a hole in the roof that served for chimney, window and ventilator. The Indians offered them food, but appetite had been scared out of them. The Indians ate, and then got out hatchets and knives. "Our time has come," said one of the boys. "So it seems," said the other, "but let us sell our lives dearly." However, instead of falling upon them with the weapons, the Indians procured a lot of strips of ash wood and went to work making baskets, stripping, measuring, splitting and bending the wood. The boys were amazed, and yet they argued that probably the savages would pretend to fall asleep, and would murder them in the night. They resolved that but one of them should lie down, while the other would sit up watch, each taking his turn. After the Indians had worked at basket-making for some time, one of them, who seemed to be a sort of chief, suddenly gave a yell that froze the blood in both boys' veins. The Indians threw down their implements, and formed in a circle about the fire and the white boys. The terrible ceremony of death was about to commence. The chief Indian sounded a note with his voice, and all the Indians began to sing; but what was it that they were singing? The Scotch boys, plucking their hearts, knew the tune well; it was the note to which they were accustomed to sing the words: "How pleased art thou, O God, to hear the people cry, 'Come, let us seek our God to-day.'" The boys looked at each other in astonishment, and when the Indians had finished this song in their own language, more of course they sang a greater and more thrilling one: "Rock of Ages, cleft for me!"

Swiss Chimney Sweeps.
In Switzerland the chimney-sweep is an official personage. He is the employe of the commune, receiving a fixed salary, his actions controlled by the government, and he himself holding on by the back straps of his state. He is also, as many tourists will have noticed, one of the few sons of the Helvetic Republic who on Sunday will wear a cap of any color but white. This he wears with dignity, but if it is generally brushed the wrong way. On his official tour he takes it off finally, and informs the holder of the house that he is "empowered by the State to inspect his flues." In the Canton of Geneva he is generally known as the "maneuver communal" was opened to competition. The salary was thirty-two pounds a year, and the candidates were numerous. But the strange thing was that they were mostly village schoolmasters from Italy. A painful sight of the times in that unchristian land. "But the chimney-sweep in Switzerland that a schoolmaster in Italy." But the "Italia dei Popoli" has recently been suppressed.

Twelve Business Maxims.
The president of the London Chamber of Commerce, Mr. James G. Thompson, has issued a list of twelve business maxims, which he has thought worth publishing. They are: 1. Have a definite aim. 2. Go straight for it. 3. Master all details. 4. Always know more than you are expected to know. 5. Remember that difficulties are only made to overcome. 6. Do your work as if it were for the public. 7. Never put your hand out further than you can draw it back. 8. At times be bold, always prudent. 9. The minority often beats the majority in the end. 10. Make good use of other men's brains. 11. Listen well; answer cautiously; decide promptly. 12. Preserve by all means in your power "a sound mind in a sound body."

LIVE AND DEAD ISSUES.
POLITICAL SURPRISES IN THE RECENT ELECTIONS.
The potency of the tariff issue in determining the results of the November elections becomes more and more apparent from a survey of the leading events of the campaign and of the marked changes wrought thereby. It was in the Middle West that the free silver craze had been the strongest, that the battle was fought and won. Farly managers were never before so completely at fault. They figured that the East would be found more solid than ever for the gold standard, and that the West would remain unswayed from the money question. They were disastrously wrong in both calculations. In the Eastern States the losses to sound money and the gains to the free coinage ranks were so great as to wholly reverse the alignment of parties in the House of Representatives, giving the control of that body to the Democrats, Republicans and free coinage men by a safe majority. In the West, on the contrary, there were enormous gains for Republicanism and sound money, and by these gains the control of the House was saved to-and won over to-the Republican party. What caused this extraordinary reversal of political form in the States of the West and far West—in California, Oregon, Washington, Idaho, Wyoming, North and South Dakota, Utah, Colorado, Nebraska, Kansas and Missouri? Wherefore the gain for sound Republican doctrine and the loss for Populism in these twelve States? Let the question be answered by the following, which is a summary of the daily newspaper statistics for Washington, where in the country has the case been more plainly and more truthfully stated than in the following, from the paper just mentioned.

India has perhaps a greater variety of soil and climate than any other country in the world. It has all the different classes of native species, while the flora of the entire continent of Europe only embraces about ten thousand. Some rarest Indian plants were recently discovered from the sea near the island of Sumatra. They were found to be a hundred years old, and were found to be a hundred years old, and were found to be a hundred years old. A scientific writer says that night is the time when nature utilizes for the growth of plants and animals; children grow more rapidly during the night. In the daytime the system is kept busy digesting the waste output of the day, but while asleep the system is free to extend its operations beyond the mere replacing of worn-out particles, hence the rapid growth. This is why invalids need so much rest and sleep. In South Dakota most successful results are being achieved with artesian wells. The cause for supplying water for irrigation doubles and triples the yield of the land. A single well over one thousand feet deep is cited, which gives sufficient water for nearly two square miles of land. Other wells are being bored in the vicinity of many of the surface streams, which will distribute the surface water to the arid lands of the West. The terrible fate of some of the Indian tribes struck by American shells has emphasized the need of rendering wood proof against fire. It is henceforth to be employed in naval vessels. Wood that will not burn is, of course, equally important in buildings. Recently an American invention for rendering wood unattackable has been tested on a considerable scale in England. The cap is first withdrawn from the wood by evaporation in heated vacuum chambers. Then a fire-proof solution is forced into the pores of the timber under hydraulic pressure. It is claimed that wood thus treated resists fire as well as fire.

The dust of coal of any kind mixed with air forms an explosive agent which has been the cause of many a mine and four-mill disaster. Advances in this kind of property of combustible dust in a new process of labor fitting. The fuel reduced to dust is fed by machinery into the furnace in which a fire must constantly be maintained. The instant the dust falls into the furnace chamber it burns with a flash, almost explosively, and the production of smoke is absolutely prevented and the firing becomes economical as regards consumption of fuel. It is a very simple and brilliant idea in the utilization of the enormous quantities of coal slack which cover so many square miles of land in the mining districts.

Andrews' 10,000 Bottles of Wine.
Andrews is the happy owner of some of the most handsome villas of Monte Carlo. He is adding to it by a by six cows. The musician has bought the "cellar" of the villa. It contains 10,000 bottles of wine and a quantity of kirsh water years old. The vineyard on the property produced last autumn 6,000 bottles of white wine. As the vintages of 1898 are not of a high order, 4,000 bottles were sold. Andrews made large profits in a few years ago in growing for himself around Warsaw, a city which has begun to flourish in wine and brandy. It is said that he has shown a marked tendency to deal kindily toward Poland—London Times Paris letter.

If it makes no difference how good a husband a man has been, his death bed scene is not entirely satisfactory to the neighbors unless he asks his wife's forgiveness.

It's Real Menial.
The real meaning of the open door is simply a guarantee of equal opportunity to trade and under like conditions it does not exist. It is not a tariff or a protection, which may be a welcome benefit, but it is not a guarantee of equal opportunity to the government. It simply means that

Had for Spanish Merchants.
Porto Rico continues to buy large quantities of supplies from Spain. That is because under existing arrangements the Spaniards are the most favored nation dealing with Porto Rico. When the Porto Rico tariff is the same as that of the United States, some of the Spaniards' business will be lost. Getting wealthy of the trade with the islands will discover a sudden and disastrous falling off in their business. The majority of the ships delivering goods at Porto Rico will be sailing under American register soon after the tariff is extended to our new possession.—Buffalo Review.

Popular with the Masses.
It was noticed that Mr. McKinley made more speeches during the campaign of 1896 than were made by any other candidate who was ever elected. All of them were given to the people, private, however. Since his election he has gone among the people to a greater extent than any other President ever did in the same length of time, and consequently has had to talk more. Here as in his campaign speeches he always says something worthy of the occasion and of their author. No man ever in the White House was more popular with the masses than is the present occupant.

A National Necessity.
The part which American merchant vessels and their crews performed in the war with Spain demonstrates that this service to the American merchant fleet, furnishing both pickets and the second line of defense, is a national necessity, and should be encouraged in every constitutional way.—President McKinley's message to Congress, Dec. 5, 1898.

Under the American Flag.
There should be established regular and frequent steamship communication, encouraged by the United States, under the American flag, with the newly acquired islands.—President McKinley's message to Congress, Dec. 5, 1898.

Words Will Be Remembered.
Integrity and industry are the best possessions that any man can have, and every man can have them. Nobody can give them to him nor take them from him.—The President puts a truth in a form likely to be remembered.

Majority for Expansion.
A canvass of leading newspapers throughout the country gives 305 for expansion and 103 against it. Every seventh of the country is for it except the South, and that is nearly a tie in newspaper sentiment.

Prompt, Durable, Liberal.
It will be conceded that the present situation calls for legislation on the subject of American shipping which should be prompt, durable and liberal.—President McKinley's message to Congress, December 5, 1898.

Diute President McKinley.
The South cannot but concur in the sentiments expressed by Mr. McKinley, and applaud him for his courage in delivering them.—Arkansas Gazette.

Mr. McKinley's public address have been so full of generous sentiments beautifully expressed that the people have been moved to enthusiasm.—Richmond Times.

He is the first Republican President who has been regarded as truly the Chief Magistrate of the entire union. He is so regarded, and has been treated accordingly.—New Orleans Play-une.

This utterance from President McKinley, a Republican and an ex-Union soldier, is authoritative. It marks the end, not only of sectional ill-feeling, but of sectional mistrust.—Nashville Banner.

President McKinley's patriotic tribute to the heroic dead of the Confederacy is authoritative. It marks the end, not only of sectional ill-feeling, but of sectional mistrust.—Nashville Banner.

Colonel Bryan makes it quite clear that he is an expansionist opposed to imperialism.—Milwaukee Sentinel.

Posterior must remember that Mr. Bryan's book, "The First Battle," is not a treatise on his military career.—St. Louis Globe-Democrat.

SHORT SERMONS.
Sanctification.—Surrender heart and brain to his who gave them life and thought. Sanctify them to his service, employ them at his bidding, use them solely for his purposes, and they shall have strength and honor and beauty and length of days ever and for evermore.—Rev. S. P. Cadman, Congregationalist, New York City.

JOY OF DOING GOOD.
I repeat a word that is many—do good. I wish there were more—who are estimating life by the good they can do.
John Bradford said he counted that day nothing at all in which he had not, by pen or tongue, done some good. If a man be good, he will do many good things; if he be bad, he will do many bad things. The man who does good, his name will be remembered; the man who does bad, his name will be forgotten.—Rev. Dr. Abbott, Congregationalist, Brooklyn, N. Y.

John Belahert's little girl died Friday morning and his little boy is very ill; the disease has been called scarlet fever and the family has been quarantined.
Ed Krause was shelling corn for Mr. Schafer west of town the other day and attempted to shell an iron shoe that some mule had left in the sheller or among the corn in such a way as to cause sad havoc among the machinery of the sheller.
There were 80 numbers sold at the 4th annual Woodmen's ball held at the opera house here on Friday night. Among those from abroad R. Kar. and wife and John Jaskowak were present. The large crowd thoroughly enjoyed the fine music furnished and the evening and early morning were pleasantly spent at the opera house and over the sumptuous supper spread by the Commercial hotel.

HUNTER.
Beh Skiles returned to Lincoln on Tuesday.
Miss Grace Davis of Carroll was visiting friends in this vicinity Sunday.
The skating is fine on the out-off at present and skating parties are all the rage.
Look out for a wedding on the Logan before many moons. Can you guess who?
Miss Anna Ochoa returned from So City last week where she has been for some time past.
C. D. Siefken lost a valuable colt this week, another horse kicking it and breaking its leg.
J. J. W. Fox is spending this week at Hartington, Colorado, Laurel and Belden on I. O. O. F. business.
One of our young men seems to find something that draws him over north of the Logan about seven nights in the week. What is the attraction, Matt?
W. J. Weatherholt of Hoskins, was working this precinct last week in the interests of the Standard Food Co., of Omaha, and was meeting with good success.

CARROLL.
A. J. Swartz left for Omaha Wednesday.
Listen for the wedding bells in the near future.
Geo. Merrill was a passenger to Wayne Monday.
J. R. Manning shipped in 7 cars of feeders last week.
A literary society has been organized at the Morris school.
Revival meetings have commenced in the Methodist church.
If you treat some people well they inflate like a balloon and blow away.
M. S. Merrill of Vermillion, S. D. spent Sunday with relatives and friends.
The stock holders of the Carrill Creamery Co., held a meeting Monday afternoon.
Sheriff Cherry took Bert Wilcox to the insane asylum at Norfolk last Thursday.
Saturday was the coldest day of the season, the thermometer registering 18 below zero.
J. T. Marriot of Wakefield was in town looking after business interests Wednesday.
Mrs. Henry Krebs and Mrs. Chas. Stephens were passengers to Wayne Wednesday.
Morris Wadsworth of Red Oak, Iowa, was looking after business interests here last week.

That President McKinley has "come to the kingdom for such a time as this" is clearly shown in his broad statesmanship and the consummate tact and ability with which he treats every question arising in the mind of the public regarding his administration. His political opponents seem hopelessly at a loss to find something to criticize in his speeches or policy. The cry of "imperialism" which threatened for a time to become formidable, has been quite effectually silenced. Referring to the opposition to our retaining the Philippines, in a speech before the multitude, he referred to American flag which had been raised in Manila and asked: "Who will haul it down?" That question places his opponents in a forlorn predicament since it arouses a protest in the mind of the average American citizen. Like Abraham Lincoln, President McKinley has the art of interpreting popular thought and feeling and of giving it happy expression in his addresses.—Omaha Christian Advocate.
