A SURPRISE PARTY.

The home of Mr. and Mrs. G. P. Artley was the scene of a very pleasant gathering last Friday evening. Mr. Artley and family expect to leave for Iowa next week where they will make their future home and a few of the Methodist ladies thought that it would be very appropriate to give them a farewell party before their departure so the word was quietly passed around that the event would take place on Friday evening the 17th. Accordingly about sixty of their friends and neighbors gathered at the home of Mr. and Mrs. Crossland and proceeded from there to the Artley home and never was any one more thoroughly surprised than were Mr. and Mrs. Artley. The evening was very pleasantly spent; a number of songs and recitations were listened to and various games played. After which an elegant supper, which the guests had taken with them was served. Mr. and Mrs. Artley will be greatly missed by their many Wayne friends and all will join in wishing them happiness and prosperity in their new home.

MARRIED.

CUNNINGHAM BROWN: On Wednesday, Feb. 15th, 1899, at the home of the bride's mother, in Vermillion, S. D. M. O. Cunningham and Miss Dottie Brown were united in marriage. The bride and groom have both made their home in Wayne for a number of years, the bride being the daughter of the late J. H. Brown, and the groom the son of B. Cunningham, one of our most prominent farmers. Miss Brown is a graduate from our city schools and later a teacher in the primary department of the same school. Mr. Cunningham recently graduated from the law department of the state university and has located in Omaha for the practice of his profession. The young couple arrived in Wayne last Wednesday evening and visited with the groom's parents until Tuesday when they left for Omaha. They have the hearty congratulations and best wishes of their many friends.

FREDERICK KREI: At the German church northeast of Wayne, Wednesday, Feb. 15th, 1899, Rev. Gutknecht officiating, Miss Lizzie Krei and Herman Predefick. A reception was held at the home of the bride's parents in the evening, at which time the happy couple received the congratulations of a large circle of friends.

Davies, Mel Norton and the Registrar. Real snaps in footwear—the February clearing sale at the Shoe Store. D. A. Jones and Phil Kohl went to South Dakota on business Tuesday morning. Clay Logan, hypnotist of Ponca, was in Wayne last week, hypnotizing one of Wayne's young ladies. The Jan MacLaren club met at the home of Mrs. Geo. Damon by special invitation last Thursday evening. J. G. Morrison came up from Lincoln Tuesday afternoon to look after his real estate interests in the county. The weather the past week has been very fine and if it continues any length of time, farmers will begin seeding. Mr. and Mrs. Jeff Stockwell, of the Norfolk News, visited over Sunday with Fred Stockwell and wife of this city. On Monday of this week Dr. Leisenring out the towels from the little four year old son of G. Reed who lives near Concord. The Federation of Women's Clubs will meet at the home of Mrs. Walter Weber, on Friday evening at 7:30 o'clock. Hazel Weber was treated to a very pleasant surprise party Tuesday afternoon by a large number of her little friends in honor of her birthday. The official board and trustees of the Methodist church are sending out circular letters to the members of the church this week, in regard to the starting of a church building fund. The Ladies Aid Society already have \$200 and the League \$60 in the building fund. One-half the money received from all sources by the League is put into the building fund. It is proposed now to ask every member of the church for subscriptions to the building fund to be paid monthly, quarterly or yearly and every cent received in this manner will be put into this fund. It is a good move and by the time the society is ready to build a church they will have a large sum of money in the building fund and it will be much easier to raise the balance necessary for the erection of a new church.

The following verses were written by Arthur Tucker who is attending school at Mt. Vernon, Iowa.

I will tell you all I know About Nebraska. Her beauties I will show Old Nebraska. About the country and the land Of her inhabitants so grand It's the place to make a stand In Nebraska.

If by chance you hap' to roam In Nebraska, Don't forget to make a home In Nebraska. For you'll always rue the day When you threw your chance away When you knew you ought to stay In Nebraska.

One thing more I wish to tell About Nebraska. So far down you must go That you'll think there is no show For you want you'll want to know In Nebraska.

But you must not feel that way About Nebraska. Just stake a claim and stay In Nebraska. Here your lot should be cast And you'll make your money fast. Then content you'll be at last In Nebraska.

That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. Orth.

Norfolk News: The concert given at the Congregational church last night by the Wesleyan Male quartet of Lincoln, sustained the previous reputation of the company. The music was excellent and was thoroughly enjoyed by the large audience that was present. The high school boys were well satisfied with their venture from a financial stand point, the concert netting them \$24, which will be applied toward purchasing a gymnasium for their use.

The W. C. T. U. gave an anniversary tea on Tuesday evening at the home of Mr. and Mrs. H. F. Wilson. The husbands of the members were invited on this occasion and attested by their appetites their appreciation of the many good things spread before them. Mrs. Blair sang two beautiful solos with violin obligato and piano accompaniment, and Mrs. Mines recited in a charming manner "Kate Ketchum."

Altogether it was pronounced by those present one of the most socially pleasant evenings the club has yet had.

The ladies of the Minerva club met with their president, Mrs. J. D. King, Tuesday afternoon and rendered a very interesting Washington Day program. It was also Mrs. King's birthday and the ladies presented her with a very pretty silver meat fork and a silver napkin ring. The husbands of the ladies had received invitations from Mr. and Mrs. King to be present in the evening and about seven o'clock the guests were invited to the dining room, where they partook of an excellent supper served in two courses, after which a short time was spent in playing dominoes and other games. It was certainly one of the most pleasant evenings ever spent by the club. On Tuesday of last week the club celebrated St. Valentine's day with an appropriate program at the home of Mrs. Grothe. Mrs. Burdick received a beautiful valentine for writing the best verse of poetry. Mrs. Grothe served refreshments and presented each lady with a miniature cupid.

A citizen wrote to the mayor of Vineland, New Jersey, regarding the article on Vineland's curfew law which appeared in the Sioux City Journal and Wayne Democrat, and received the following reply, which has been handed in for publication:

VINELAND, N. J., Feb. 17, 1899. DEAR SIR: Yours of the 13th inst. containing clipping relating to the Vineland curfew law at hand, and in reply I would say that the article in question is a very silly mess of ridiculous falsifications. There is scarcely a line of truth in the entire article. The curfew law went into effect without any undue excitement whatever. There was no parade whatever, with the exception of a single one-horse wagon containing a half a dozen young men ornamented for the occasion, just for a little innocent fun. There has not been any arrest under the law for the simple reason that there has not been any call for any, as thus far the law has most effectively enforced itself. The various articles that have been published in the papers are gross misrepresentations and the authors of such untruthful and silly articles are worse than hogs, for even a hog will not defend its own nest. These scribblers manufactured the articles for the penny-a-line compensation they receive for their trash. Personally, I was opposed to the curfew law, but that cut no figure with me when it became a law and I do not believe in making false statements about a law because I did not favor its enactment. I enclose a clipping from the Philadelphia Press from my pen. Respectfully, C. P. Lord, Mayor of Vineland.

The clipping contains substantially the same statements as above.

Woodmen of the World. On Saturday night the Woodmen of the World gave a supper at the lodge room to which each member had the privilege of inviting a friend, and a large number were present. After supper was served a program was entertained and a highly interesting and entertaining address delivered by Rev. Shea, of Omaha. The order is making a wonderful growth and soon promises to be among the leading insurance orders.

 F. M. Hooper returned from Topeka, Kansas, Friday, where he attended the Head Camp, District A, of the Woodmen of the World, as a delegate from the Wayne Lodge. He reports one of the most interesting sessions yet held. At the conclusion of the convention the delegates were taken by special train to Kansas City by the citizens of Topeka, where they attended a number of lodges. The delegates were welcomed to Topeka by the Governor of Kansas and the Mayor of the city.
 Everybody appears to be figuring on attending the performance of John Dillon and his admirable company in "Bartlett's Road to Seitzerville," next Wednesday evening. Mr. Dillon is such a great favorite, that no matter what he plays he is sure to draw a full house. This time, however, he presents the best play he has had in years. His supporting company is guaranteed to be one of unusual excellence. Seats are being rapidly taken, and theatre parties are being made up in surrounding towns to attend.
 Children who are troubled with worms are pale in the face, fretful by spells, restless in sleep, have blue rings around their eyes, bad dreams, variable appetite, and pick the nose. White's Cream Vermifuge will kill and expel these parasites. 25c. Wilkins & Co.
 The citizens of Hartington have begun to talk expansion, and that they are right on the premises there can be no question. They are seeking to gain a competing line of railroad, and the matter of building a stub from that town to Laurel by home capital which is plentiful according to the Herald, has been suggested, and a meeting to further such a move has been or is to be called. Wayne could well afford to take such a move. A stub from here to the nearest point on the Short Line would not only pay the builders but would be worth thousands and thousands of dollars to the citizens of Wayne and the country tributary to the city. The burden of listening to the song of how much more the dealers pay for grain at points on the Elkhorn and Short Line has become terribly heavy and if there is any remedy The Herald would like to see it applied.
 His Life Was Saved.
 Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it and am now well and strong; I can't say too much in its praise." This marvelous medicine is the safest and quickest cure in the world for all throat and lung troubles. Regular sizes 50 cents and \$1.00. Trial bottles free at Wilkins & Co's drug store. Every bottle guaranteed.

A GREAT LITERARY WORK!

Opinions Regarding Charles Dudley Warner's "Library of the World's Best Literature."

The project to publish a work which should enclose within its covers "a Library of the World's Best Literature," was not entirely novel when it was undertaken by the "International Society" a few years ago. The manner and extent of the achievement, however, have no parallel in the making of books even in this book making age. In selecting Mr. Charles Dudley Warner for editor of this work the publishers gave the best possible guaranty that it would be worthy of its name, and this assurance was strengthened by securing as his assistants and advisers the most eminent professors of literature in the universities of America. In two years these editors, assisted by many other eminent scholars and specialists and backed by abundant capital, have produced a work in 30 volumes of about 700 pages each. It is not extravagant to call this "a library," for it is one, and its completeness is something surprising considering the vast field which it attempts to cover. The work is not merely a cyclopaedia of the literature of all ages, giving more or less elaborate reviews of thousands of books and long extracts from many hundreds, but it is a dictionary of authors, giving biographical sketches and fine portraits of many hundreds of great authors, while thousands more are given sufficient space for a biographical sketch of appropriate length. The whole work is arranged alphabetically so as to be ready reference value and it is illustrated and illuminated by thousands of pictures in all the art of the best illustrations. If one has a fine collection of books the Warner Library will be its crowning glory and if one has no library, the Warner Library will constitute one.—Editorial, Omaha World-Herald.

"My confidence in books sold by anything approaching the subscription process has been so frequently abused and I have been fooled so often by some high sounding name connected with a book proposed to be published that I declined for some time to purchase the Library of the World's Best Literature. Meeting my friend, Charles Dudley Warner, in Hartford during the summer of 1897, I asked him if he was really devoting his time and energies to the supervision of this great work. Upon his assurance that it was receiving his every care I purchased it. It is about the best investment that I have ever made in adding to my private library. It contains the cream of literature of all ages and all countries and the selections that have been given show that the distinguished gentlemen who have had the preparation of the material have done their duty faithfully and with a judgement that could only be exercised by men of literary tastes and scholarly minds.—Chas. E. Manderson, Genl. Solicitor, B. & M. R. R. Omaha.

"I have a copy of Warner's Library. The work is an ornament to any library and it gives most admirably selected passages from the immense mass of the World's literature from the earliest times. It is fitly called a library. The possessor of it can dispense with almost all other books.—J. M. Woodworth, ex-President of American Bar Association.

"I have just purchased the Library of the World's Best Literature and think it a very valuable work without which no general collection of books can be entirely satisfactory.—Chas. E. Manderson, Genl. Solicitor, B. & M. R. R. Omaha.

Not one child dies where ten formerly died of Croup. People have learned the value of One Minute Cough Cure and use it for severe lung and throat troubles. It immediately stops coughing. It never fails. L. P. Orth.

Ponca Gazette: As will be noticed in another column of this paper, C. A. Kingsbury and Judge W. F. Norris have formed a partnership and will practice in the state and federal courts. Mr. Kingsbury is well qualified as a practicing lawyer, and the reputation of the Judge is beyond question. Their offices will be at Wayne and Ponca.

The HERALD wishes to state that in our judgment the case of the State vs. Geo. Harrifield, in which the defendant was charged with assault with the intent to do great bodily injury, should have been tried. Nevertheless, the district of the Democrat last week against County Attorney Northrop was wholly unfounded. Mr. Northrop's personal character has always been above reproach, and such unfounded attacks through the columns of any paper will not meet with the approval of any fair-minded person if he will stop and reason with himself for a moment. Few men are they who could not be called to task severely in some manner or other and in a way that the best friends of the Democrat would not approve. Especially is this true when a man bases his attack merely upon supposition.

The legislative grind at Lincoln goes merrily on, but O, what shall the harvest be.

The burden of Kipling's song has expanded until it has come to be a universal burden.

Next to war the most destructive thing is a Colorado snow slide, and a man's politics won't save him, if he gets mixed up with one of them.

Cot. Sedgwick of York avers that if all the bills introduced in the legislature were passed no one could live in Nebraska outside of the penitentiary.

The United States is not the only country to fight its battles over again in the magazines. The esteemed British are re-conquering the Sudan with their newspapers.

Senator Gorman did not succeed in rejecting the treaty but he did succeed in punching a big hole in Mr. Bryan's claim to be leader of the democratic party.—Wauson Enterprise.

When such men as Carnegie and Wannamaker get out of business and into politics, they make the same kind of a mess of it that a divinity student would make of a faro game.

What the United States needs is its own Merchant marine. It will mean millions of dollars to this country in the matter of carrying our products. It is almost of as much importance as protection.

President Faure of the republic of France died very suddenly last Thursday night after an illness of but a few hours, death resulting from apoplexy. He was the sixth president of the third republic of France.

The Attorney General of Missouri has commenced an action to break up the tobacco trust. In all probability it will be a case of tobacco going up in smoke, for even a Missouri has got to show his own pipe.

A bill to appropriate the \$20,000,000 to pay Spain for the Philippines passed the House with only 34 votes against the bill. Congress is getting to be pretty nearly unanimous in all affairs pertaining to the war with Spain.

The speech of President McKinley at Boston has put a number of metropolitan papers in a sad plight. In fact they are having an extremely difficult task in finding language to untangle the snarl in which they have placed themselves.

State Treasurer Meserve announces publicly that he rides on railroad passes and does not care who knows it. Slowly but surely, the populist who regards the free railroad pass as a bribe is discovering that he has been hoodwinked by the man who secured his support for office on pledges to uphold populist principles.—Bee.

Spain still has her troubles. Count d'Almenara proclaimed before the Cortez on Monday that "five months have elapsed and not a single general has been shot." According to all reports the Spanish generals got their fill of Yankee shot, but blood fills the eye of the average Spaniard and the head of a few generals of their flesh and blood is needed to appease their thirst.

This section of Nebraska has never had a representative in either branch of the legislature whose ability was as generally recognized and admitted as is the case with Lewis Smitthberger, and this is not speaking lightly of any previous member from this district, they having been fully up to the average. Nothing passes Mr. Smitthberger's notice and few, if any of the members are being more highly honored by their colleagues than is he.—Stanton Picket.

A bill has passed the senate reducing the interest on state warrants to 4 per cent. It is the irony of fate that the revisionists who predicted that the triumph of the gold standard would impoverish the people and make money scarce and dear, should lose the legislature and have the republicans make a law reducing the interest to another notch under the gold standard.—Promont Tribune.

If you misguided fusion friends will read the speech of President McKinley made at a banquet given by the Home Market Club of Boston on Thursday last, those who have howled so much about imperialism will realize how senseless their claims have been. They will also come to know that this country had a president, who is second to none, not even Abraham Lincoln. In years to come he will be known as the emancipator of ten millions of people. He is the president of the people and by his great statesmanship has added glory to our nation.

THEY GO HAND IN HAND.

Farmers and Manufacturers Traveling the Same Road to Prosperity.

An examination of American exports for 1908 reveals the fact that for every dollar's worth of American manufactures rather more than \$2 worth of American agricultural products found their way abroad. How long this gratifying proportion will continue it is hard to guess, in view of the strides which American manufacturers are now taking to secure their full share of foreign trade. But the fact which agriculture still has in this country over manufacturing is sufficient to promise a long lease of life to American industrial progress along present lines. Time was in our history when the cultivation of the soil embraced interests so predominant that they but had to demand a certain policy at the polls for that policy to be adopted, no matter how entirely destructive it might prove to every other than the agricultural interests. Under such circumstances manufacturing had pretty hard sledding in this country for many years. No sooner had it lifted its head and attempted to flourish as it should than the agricultural interests, conceiving that American manufacturers were being encouraged at the expense of the tiller of the soil, changed the policy of encouragement to manufactures at home to one of encouragement to manufactures abroad, leaving the smokeless chimneys of American plants as a pathetic monument to the fickle patriotism of American farmers and the pitiful shortsightedness of unbridled human selfishness in general.

Times have vastly changed since then. The farmer has learned the value of the adjacent manufacturing villages as a market, and has come forth fully to realize the truth of Adam Smith's declaration that the home market is twice as valuable, sale for sale, as the foreign market. On the whole, though availing himself of the foreign market as an outlet for his surplus, the farmer has become a sturdy champion of American manufacturing. The reason why a good lead in agriculture is necessary to the country's general industrial thrift is that a large agricultural export indicates that food is cheaper here than it is at least in the countries which purchase our food, which are chiefly the manufacturing countries. As long as foreign laborers engaged in manufacture are compelled to pay at least as dearly for their food as American laborers in the same pursuits, our manufacturers cannot complain that they are hampered in their struggle for foreign markets by a higher cost of provisions here and their consequent compulsion on that score to pay higher wages, and thus go handicapped into the foreign market.

Just as long as manufacturing and agriculture go hand in hand and agree mutually to enjoy between them the great blessings of the American policy of American markets for American products, so long will the road to American greatness and predominance in the world's affairs be unobstructed. But if either of these great interests become jealous of the other and carries its grievance to the polls an international struggle is likely to result, during which the wealth of the great American market will be dissipated among foreign producers. Then the American people will again learn the bitter lesson that family quarrels are the most destructive, as they are the least excusable, of all quarrels.—New York Commercial.

No Right to Ugliness.
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has ossipation or kidney trouble, her impure blood will cause pimples, blotches skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate kidneys, liver and stomach and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 cents at Wilkins & Co's drug store.

FOR LA GRIPPE.
Thos. Whitfield & Co., 240 Wabash Ave, corner Jackson st., one of Chicago's oldest and most prominent druggists, recommend Chamberlain's Cough Remedy for the grippe as it not only gives a prompt and complete relief, but also counteracts any tendency of the grippe to result in pneumonia. For sale by L. P. Orth.

Frequently accidents occur in the household, which cause burns, sprains, cuts and bruises. For use in such cases Ballard's Snow Liniment has for many years been the constant favorite remedy. Price 25 and 50c. Wilkins & Co.
Of course, oil is not so very dear but it is a shame for Mr. Kookfeller to have all that money.
Taylor's Buckeye Eye Ointment is no panacea, but is recommended for piles only. These it will cure. Price 50c. in bottles, faces 75c. Wilkins & Co.

Dangers of the Grip.
The greatest danger from the grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken all danger will be avoided. Among the tens of thousands who use this remedy for the grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure the grippe in less time than any other treatment. It is pleasant and safe to take. For sale by L. P. Orth.

"I had to resort to a queer ruse once
to get an admission from a man I was
after," said a private detective. "There
had been some trouble at a club be-
tween two young men. One threw a
glass of wine into the other's face.
The other did not resent the insult as
he should have done. When his father
had thrown the wine in his face, the
father was a member of the same club
and he made a wager of a wine-supper
that his son could and would whip the
other fellow. Soon after this the son
met the man who had insulted him and
whipped him. The fight occurred in a
prominent street, and as two of the
young man's friends were with him at
the time, there was talk of an action
against them and his father for con-
spiracy. Our agency was retained to
get the evidence needed.

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the surgery, dieting, and medicine that the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes: "I could see no improvement whatever, though I was constantly treated with surgery and washes, and different medicines."

Finally it was found that Catarrh was not a disease, and after thinking it over I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S. and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to stop their other remedies, and use S. S. S. a few bottles and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, chronic diseases, which other remedies have no effect whatever upon. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.

S. S. S. For Blood
The Blood is the life of the body, and is the only blood remedy guaranteed to contain no dangerous minerals. Books mailed free by Swift Specific Company, Atlanta, Georgia.

NEW LIGHT ON HEROD.

The editor of the Republican compares the outflow of ordnance to the slaughter of the innocents by Herod. I do not wish to enter into a comparison—it seems rather a contrast, when we think of it—but I would like to set the editor right on his misquoted Bible history.

The editor speaks of Herod as "a Jewish king." Herod the Great—the one who killed the children of Bethlehem—was not a Jew, but an Edomite. The Edomites were descendants of Esau, and were ever at enmity with the children of Israel.

This editorial further tells us that in ordering the slaughter of the innocents "Herod was conscientious and believed he was doing the will of God and that he was performing an act of great service to mankind." Mr. C. is the first writer that I know of that has given Herod such a saintly character. All others who have written of Herod tell us that he was a semi-heathen king whose deeds of cruelty were most appalling. He killed one of his wives, his mother-in-law, his brother, his grandfather, three of his own sons, and when dying ordered that the chief men of all the cities of Judea should be killed in order that there might be universal mourning at his funeral. His slaughter of the innocents, as well as his other crimes, was not a result of any desire to "do the will of God" or to perform any act of service to mankind, but simply to make his place secure on the throne.

Had Mr. Cunningham informed himself on the character of this despotic king, probably he would not have compared the 150 signers of the curfew petition and the five members of the city council that voted to grant the petition to the treacherous and bloody king Herod.
