DISASTROUS PRAIRIE FIRES!

Four Lives Lost and a Large Amount of Property Burned.

A dispatch from Coleridge to Monday's Sioux City Journal says that "a prairie fire burning in the country along the north tiers of counties of Nebraska, ten miles from this place, yesterday passed into the track of a tornado and was swept with the speed of the wind diagonally across this county for twenty-five miles, destroying everything in its path. The only lives lost so far as known were those of Mrs. Rolla Livingston and her 1-year old boy. The woman saw the fire coming and ran to a pasture to release the family stock. The boy followed her. Both were knocked down by the terrified animals. The fire caught them before they could reach a place of safety. The body of the boy was almost consumed and Mrs. Livingston lived but a few hours. A great many cattle were over-taken and burned. A large number of farm houses were destroyed and the families escaped by seeking refuge beyond the track of the storm. The path of the fire was nearly one mile wide. Some of the losses are: Rolla Livingston, \$15,000; Stanley Martin, \$20,000; David Walker, \$10,000; Isaac Pritchett, \$2,000; W. A. Bennet, \$5,000; Joseph Hodgins, \$20,000; Wm. Weber, \$25,000; James Parsons, 300 head of stock.

HARRINGTON, NEB., Apr. 29. (Special.) One of the worst wind storms that has been experienced here for years occurred yesterday and last night. During the storm Mrs. B. Lungren, living seven miles east of here, tried to stop a prairie fire and she and her six-year-old boy were burned in a horrible manner, and before help could arrive from the city the lady was dead and the child is not expected to live. She was fifty years old and leaves a husband and four small children to mourn her awful death.

In the same neighborhood the fire burned up everything belonging to several farmers and also a good sized herd of cattle were burned before help could reach them. In the north part of the county fire started from an old burning strawstack, and nearly a dozen farmers lost everything they had.

At the meeting of the city council on Monday evening saloon licenses were granted to Frank Kruger and Herman Milder by the council. Geo. L. Miner was appointed city marshal. Mayor Ley decided not to announce any other appointments until the meeting next Monday night.

During the storm Tuesday lightning struck the electric light wires, burning out the fuse at the power house, and giving Electrician Largen a severe shaking up. He does not appreciate acting as a conductor for electricity. As a result the lights were not turned on for a couple of hours.

Mrs. Armstrong and Mr. Kass gave a delightful high five party to a number of their lady friends Monday evening at the home of the latter. After a series of games in which Mrs. John Harrington won the prize, very pretty refreshments were served. The guests invited were Mesdames Frazier, Weber, Ellis, Buffum, Harrison, Goldie, Neely, Coyle, Hammond, Crawford, Strahan, Dinsdell, Heckert, Weber, Robbins, Damon, Uter, Miller, Jones, Cunningham, Wilson, Britton, Bressler, Mellor, Williams, Chase, Moran, McNeel, Kohl, Smith, Fuller, Harrington, Grimsley, Swan, Harrington, Theobald, Weber, Wittler, Dearborn, Wightman.

The thanks and gratitude of every citizen of Wayne is due to Nels Orutt, for it is undoubtedly due to him that we owe the fact that our city was not destroyed by the fire fiend on last Friday. He observed the smoke arising from the burning manure on Conable's land just east of the Frazier feed yards and as the wind was blowing a gale at the time and coming in a direction that would carry the fire into the hay stacks corn fields, etc. Realizing the danger he braved himself with a shovel and got there just in time to prevent an awful conflagration. He worked alone for an hour or more when the Mayor sent a couple of men to relieve him.

THE HERALD failed to mention two very pleasant social events last week. One was a surprise of Mr. and Mrs. Heckert by the members of the Pioneer club and the other the birthday party of little Edith Harrison. It was her fifth birthday and a large number of little girls helped her celebrate the event.

Last Friday Thos. Fitzhmons of Logan township lost everything on his place, barn, stock, implements, grain, etc, and it was with difficulty that the house was saved. The fire was caused by the high wind blowing sparks from an old straw stack that had been burning for a number of days. Mr. Fitzhmons only carried \$200 insurance on the property last.

Southwest Iowa, Malvern, Ia. Mr. Wm. Mellor and Mrs. George McCabe stopped off here Thursday night, enroute home to business Illinois, from Wayne, Nebraska. They continued their journey Sunday morning.

J. M. Straub lost seven head of his calves yesterday in a peculiar manner. They were in a pasture on Jas. Ward's farm and the place where they drink easily reached from one side. With the obstinacy of calf nature the animals would not go around to the easy side, but jumped down into the water from the high side, diving in on each other, and they were all drowned.

DIED.

SKAHILL—At the home of her parents south of Wayne, Friday, April 28, Gertrude, daughter of Mr. and Mrs. Thos. Skahill, aged 9 years, death resulting from inflammation of bowels. The funeral was held at the Catholic church and a large concourse of friends followed the remains to the Wayne cemetery, where they were interred. The stricken parents have the sympathy of the community in their sad bereavement.

CURFEW WHISTLE.

"Curfew shall not ring tonight" No, but it will ring, or rather whistle, next Monday night and every night thereafter. Instead of ringing the bell the water works whistle will be blown at nine o'clock every night. When the whistle blows next Monday night our citizens should remember that it is not a fire, and all boys under the age of 14 should remember that it is time for them to be at home. Marshal Miller will enforce the ordinance and parents can greatly assist in this matter by impressing upon the minds of their children the fact that the law should be respected.

Whoooping Cough. "I had a little boy who was nearly dead from an attack of the whooping cough. My neighbors recommended Chamberlain's Cough Remedy. The wind blew a terrific gale most of the day last Friday and as a result, in some places, quite a little small grain was uncovered. A cold and disagreeable rain fell Sunday, but it was a good thing for the small grain and was of great benefit to the farmers plowing for corn. Axel Koefoed has moved into the Sam'l Jones residence west of the school house and Vaughn Davis will occupy the residence vacated by the former. By allowing the accumulations in bowels to remain, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowels. Try them and you will always use them. Orth. Mrs. R. Craven received the sad news last Thursday of the death of her sister, Mrs. Zimmerman of Monroe, Wisconsin. She departed on the afternoon train to attend the funeral. Frank Kruger has purchased the lot just north of his saloon on which stands the office of J. S. French & Co. and will at once begin the erection of a building 24x60, which he will occupy when completed. Chas. Neiss told a HERALD reporter the first of the week that his wheat crop is in excellent condition, and that it was standing splendidly. In fact, he avers that he never had a better prospect for a wheat crop. Ballard's Snow Liniment cures sick headache, rheumatism, neuralgia, sore throat, cuts, sprains, bruises, old sores, corns and all pain and inflammation. The most penetrating liniment in the world. 25 and 50c. Wilkins & Co. In response to the Signs of the Times it would be most fitting to remark that a beautiful war is now progressing in the political situation of this country which will no doubt startle the Agulaisides of the city and their band wagon at the finish. No, it never pays to not a "hog." "I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicines for it. At last I found one remedy that has been as successful as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy."—P. E. GRISMAN, Gaare Mills, Ia. For sale by L. P. Orth. Burr Cunningham purchased the farm of J. W. Campbell northeast of Wayne last Saturday and will take possession at once. His many friends here will be pleased to learn that he has decided to locate in this vicinity although he becomes a resident of another county. Mr. Cunningham has also purchased 400 acres of land in Holt county. Casey Post G. A. R. is making extensive preparations to appropriately celebrate Decoration day in this city. In view of the fact that many of the sons of veterans have lost their lives in behalf of their country during the late war with Spain and the present struggle in the Philippines, every citizen loyal to his country should make it his duty to assist in properly observing this day designated by the nation for the purpose of commemorating the brave soldiers who died for their country in behalf of liberty. The May number of Conkey's Home Journal is as bright and attractive as one could wish for, and from the handsome cover to the last page is filled with many good things. Space will not permit calling attention to all the commendable features, but if any of our readers are interested they can secure a copy on request to the Publishers, W. B. Conkey Company, Chicago, Illinois. We have a special arrangement with the publishers and will accept subscriptions for Conkey's Home Journal in combination with THE HERALD, both papers one year for only \$1.50. Subscriptions should be sent to our office.

Mrs. W. H. Bradford of Whiting, Ia., has been the guest of Mrs. Walt Weber the past week.

The soda fountain at the pharmacy of L. W. Wilkins & Co. is running full blast, dealing out all the latest summer drinks. It makes no difference how bad the wound if you use DeWitt's Witch Hazel Salve; it will quickly heal and leave no scar. Orth. Redmer Bros. of Wisner, have decided to establish a saloon at Beemer and at their opening day dispensed seventeen kegs of beer. E. E. Reed has purchased the old John Connor property in the western part of the city and will move there in a short time. L. Soraggi of St. Louis, a skilled pharmacist and a pleasant gentleman, has accepted a position at the drug store of R. W. Wilkins & Co. Ernest Piepenstock expects to soon have the new building of Otto Voget completed, when the latter will move from his present quarters to the new. Plainview Gazette: J. P. Duffy of Wayne, came over last Friday, to look after his real estate interests. He owns a part of the old Gardner place, west of town. Tuesday afternoon Chas. Worth shipped three car loads of cattle to Omaha, Chas. Erxleben two cars, Chris Bastain two, Chris Sedow one, Chas. Neiss one and Geo. Bush five cars. Mrs. J. J. Pneumonia, la grippe, coughs, colds, croup, whooping-cough all readily yield to One Minute Cough Cure. Use this remedy in time to save a doctor's bill—or undertaker's. Orth. The city of Wayne was filled with builders and contractors the first of the week. They sought to make or lose their all in securing the contract for the new court house building. A cyclone visited Kirksville and Newton, Mo., last Thursday night, causing a frightful loss of life and property. More than fifty persons were killed while the number injured runs up into the hundreds. Harry Gamble of this city is attending one of the colleges in Kirksville, but fortunately escaped injury. Paul L. Ford, the historian and novelist, has gathered together from various sources a number of new stories of Washington, and publishes them in the May Ladies' Home Journal as "The Anecdotal Side of Washington." All the stories are capitally told, and together they reveal the characteristic of the great American in a most interesting and impressive manner. If you suffer tenderness or fullness on the right side, pains under the shoulder-blade, consumption, biliousness, sick head-ache, and feel dull, heavy and sleepy your liver is torpid and congested. DeWitt's Little Early Risers will cure you promptly, pleasantly and permanently by removing the congestion and causing the bile ducts to open and flow naturally. They are good pills. Orth. Nebraska can show more farms which have paid for themselves by a single crop than any other state in the Union. There are hundreds of farms now in possession of contented and well-to-do families in Nebraska which were purchased upon the distinct agreement and understanding that they were to be paid for out of their own products in five years. And there are hundreds of farms also that, besides paying for themselves in five years, fed, clothed and schooled large families during the same period. Nebraska farms are unsurpassed in fertility and fecundity.—The Conservative. Let the slogan be sounded that neither Poynter nor Bryan can besmirch the heroism of the American volunteer. Nebraskans are proud of their regiment in the Philippines. Every story of American gallantry and endurance flashed over the wires shows that the valorous First has the same great qualities which have always made the boys in blue the pride of the nation. They are doing their work in the good old American way, are brave in action, undaunted in the face of discouragement, and heroically patient under difficulties. Ninety per cent of the people of this state realize that they are fighting in a good cause and that the world will be better for the work they are doing so brilliantly. With them it is "Our country right or wrong; but whichever it may be—our country still." The legat of them is greater than the cowardly politicians who would tear them down.—Culbertson Era.

CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last. This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed. Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence. The wonderful success of S. S. S. in curing obstinate, deep-seated and diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight, S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

MRS. S. M. IDOL.

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dread affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C. Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

Attention Parents and Patrons of our Schools.

Our High school law, enabling children who have completed a common school course and received a certificate from the Co. Supt. to attend the nearest High school, the county paying the tuition is reenacted and takes effect immediately. Also the law, requiring all children between the age of 8 and 14 to attend school twelve weeks in each year is changed so that any parent or guardian violating this law is subject to a fine of not less than ten dollars or more than fifty dollars for each and every offense. I hope all will take notice of this and all school officers will report every offense so that we may have all our children in the schools.

There are a number of other changes but these are the ones that most concern us so I have called attention to them, and in order to make them effective the teachers must give reports fourteen weeks before the close of the year's school whether the children between eight and fourteen are in school or not, so that parents and guardians may be notified and the law enforced. In cities and incorporated towns they may appoint one or more trust officers.

The school land law is also changed and while it is too long to reprint in full the main features of the changes are: A provision that owners of sale contracts may pay all or part of their principal and at the same time settle the interest on a basis fair alike to themselves and the state. Also a manner for listing all of the educational lands so they are decided in such form the schools have the benefit of the taxes.

C. M. WHITE, A. County Superintendent.

Beginning Right

In nothing does a good beginning count for so much as in raising turkeys. Many are not very successful in turkey growing and after they have given as good care as they know how they wonder how they fail. The beginning should be good. What does this mean? It is a common practice among the short-sighted turkey growers to pick out all the best for market, keeping the smaller ones under the impression that they will grow large enough by the time they are wanted for breeding. This is a grave mistake. In a flock of turkeys there will be those that are better developed, bigger boned, and these are just the kind needed for breeding purposes.

To achieve success in turkey growing it is well therefore, to make a good beginning, by selecting the best hens in a flock—good, deep, blocky birds with large bone and short leg and dispose of the long legged ones, loose built ones. To make a success does not really mean the selection of a certain breed, for the breed of your choice may make you more money than any other. The Bronze is a very excellent breed, and any of the breeds which has a large sprinkling of the wild blood in it will do very well. The greatest trouble with the sorts with wild blood in them is that they are harder to keep near home and are very easily frightened.

Having selected the breeding stock, which should be done in the fall, they should be wintered in the best conditions without too much fattening, which can be done by letting them run out all the time. You will be in a position to start in right.—Iowa Homestead.

"Let us face the facts" says the Democratic Richmond Times, let us no longer deceive ourselves. The democratic party today is without character and standing in the nation. It has lost the confidence if not the respect of the great body of intelligent, thoughtful men of this country. What does the party stand for? What are its principles? What man is there in this party today who can stand up with any sort of confidence and declare them?

The Times reviews all of the issues, examines all of the leaders, and frankly bursts into tears in the presence of the congregation over the sad state of the party of Thomas Jefferson, which it thinks has "surely fallen upon evil times. It is paying for the folly of 1896."—State Journal.

The cyclone has begun the season early and the destruction wrought is something appalling. Kansas, Iowa and Missouri have suffered immensely from these destructive storms during the past two weeks, while portions of this state have sustained some loss from severe storms.

Congressman D. B. Henderson, one of the "Noble Romans" of Iowa, is a candidate for the speakership of the next House of Congress. If it cannot be Congressman Dave Mercer of Nebraska, then the people of this commonwealth will be pleased to see Iowa's statesman secure the place.

It is horrible enough to think of lynching any individual, be they white or black, without a chance to prove his innocence, let alone cutting them to pieces and burning them at the stake. The civilization of some portions of the south is almost as far behind the times as that in the Philippine Islands. Law should be given a chance.

With last week's issue of the Madison Reporter, A. F. Childs severed his connection as editor and manager. A. F. has accepted a position on the Daily Times-Tribune of Norfolk, which he assumed this week. Art's newspaper career has been a varied one, but he still holds the fort and his friends will wish him success in his new field.

It is amusing to see all the republican papers defend Judge Norval and all the pop papers defend Auditor Corntall when everyone knows they are crooked. What is politics coming to, Dixon Tribune.

You are putting it a little bit strong when you say "all of the republican papers."

As any of the volunteer-soldiers have the privilege of asking for a discharge with the assurance of having it granted, the "business" who continue to howl for the discharge of the volunteers will be obliged when they discover that the boys are not asking for discharge. They are of the old Yankee stock and have business to attend to and they don't propose to quit the job until they have finished it.

It is hard to tell whether the Nebraska or the Kansas troops have won first place in their fights in the Philippines. It is conceded, however, that the two regiments stand at the very top. It is a common remark among the army people that these boys will do anything they are told to do, and in all around fighting they are as good as seasoned regulars, and much better than the average regular regiment now on the scene of action.—State Journal.

There has been an increase of \$1.76 per capita in the circulation of the country in the past twelve months. It now amounts to \$25.45. Business is gaining at rapid rate, but the growth in currency keeps pace with it. Moreover the money which is in circulation is all so safely anchored to the gold standard, that the people prefer all other sorts of it to the actual gold coin. This is a widely different sort of a condition from which prevailed in 1896 when Bryan was making his assault on the monetary stability of the country. The Republican victory in that year is responsible for the business activity and the expanding currency. So long as the Republicans remain in power the financial and general business conditions will remain satisfactory. Happily the indications are that they will control the government for many years to come.—Globe Democrat.

The State Journal remarks that Colonel Bryan is not heading the gallant Third Nebraska on its homeward march. The colonel's homeward march was made in a Pullman car several months ago, and he has long since recovered from the fatigue incident to his home coming. At present Jeffersonian banners are at no numerous to permit him to lead any march excepting the march to the banquet rooms where platformers feast and drink more than their stomachs require.

American Sunday School Union Diamond Anniversary.

Much interest is being developed in this great National Society as the occasion of its 5th Anniversary approaches.

Meetings will be held in the Academy of Music, Philadelphia, May 24 and 25, at which addresses will be made by the following eminent speakers:

D. L. Moody, the well known evangelist; Rev. Dr. A. A. Phelps, Rev. J. M. Crowell, D. D. of Philadelphia, the Rev. Newell Dwight Hillis, D. D., successor of Henry Ward Beecher, Rev. E. W. Rice, D. D., Rev. Russell H. Conwell, D. D., Rev. Dr. E. K. Bell, Rev. Addison P. Foster, D. D., Rev. J. C. Trembull, D. D., E. P. Bancroft, W. E. Dodge, W. A. Hillis, Rear Admiral J. W. Phillip, F. C. Esinger, Gen. Joseph Wheeler, Morris K. Jessup, the President of the Society, Rev. R. K. King, Editor of Jones' Rev. Theodore Cuyler, D. D., and others.

The work of the Society for 75 years in part, is as follows:—100,928 Sunday schools organized, containing 578,080 teachers and 1,000,000 scholars; 22,824 cases of aid to schools, having 13,333,068 members. Nearly four schools a day organized for every day of the last 75 years. Value of publications distributed by sales and gifts, over \$200,000.

After all this work that has been accomplished by the Union and the great work which the denunciations are doing, there are no less than 11,000,000 children in the United States between the ages of five and eighteen, who are not in any Sunday school. Realizing the great need, as the Union does, it is desired that this Anniversary shall be the occasion for arousing fresh interest in the work of the Society for the neglected children of the land. This especially request that the 28th of May be observed in all the Churches and Sabbath schools as American Sunday School Union Day.

A Hard Fought Case Won by Dr. Plimpton, of Glenwood, Iowa.

The following is from the South West Iowa, Malvern, Iowa, and is a portion of an extended article in regard to a case in which Dr. Plimpton, of Glenwood, a son-in-law of J. W. Bartlett, of this city, was defendant.

"The case of malpractice against Dr. Plimpton, of Glenwood, which monopolized the attention of the court and jury last Friday and Saturday and all day Monday has probably excited more universal interest than any case tried during this term of court. The plaintiff, Roy Anderson, is but four years of age and the malpractice by which it is claimed that he was made a cripple for life occurred during the summer of 1897. It appears that about the 21st of May of that year the little fellow fell and broke his leg between the hip and knee. Dr. Plimpton was called and with the aid of his brother set the fractured femur and attended the case until the child was able to be on his feet again. But now it appears that the injured limb is about two inches shorter than the other and that instead of the broken parts uniting evenly and smoothly there is almost a right angle at the place of union. * * * Dr. Plimpton made a good witness in his own defense, testifying with an air of sincerity that was the respect of the jury. After giving a minute account as to the setting and treatment of the broken limb, he testified that at different times he had called and found the child was not being cared for according to instructions, but was once lying crosswise in the bed with the large side splint across his body, that three days after putting on the plaster cast he called and found the boy out in another room in a baby carriage, that before he knew it and without his consent the mother removed the cast and he was surprised upon calling a few days later to find his patient without the cast and kicking about on a blanket in the doorway. * * * Various witnesses testified as to the boy having fallen out of a swing or high chair afterwards and breaking his leg over again or to admissions from the mother to that effect; but the evidence was very conflicting on this point and really amounted to nothing by way of proof.

The case went to the jury about six o'clock, and the jury after being out nearly all night brought in a verdict in favor of the defendant.

OUR GREAT CLUBBING OFFER.

The unparalleled clubbing combination we have been offering our farmer readers during the winter is still open for acceptance and gives the largest value for the money ever offered by a newspaper. It consists of The Homestead, which is the leading agricultural paper in the west; its special farmers' institute editions, containing the cream of western farm experience and bringing a farmers' institute into every home every month. The Poultry Farmer, which is the great farm poultry paper of the country, The Farmers' Mutual Insurance Journal, The Humane Alliance, and last, though we hope not least, the paper for local and county news, making six papers in all for only \$1.40. The Homestead alone for the first week in April consists of forty pages and the special farmers' institute edition accompanying it of twenty four pages, the largest weekly agricultural paper in this country or in the world. All our farmer readers who have not availed themselves of this great combination should do so at once, for nothing giving so large a value for the money has ever been known before, nor any combination so suited to the farmers' needs at all points.
