By reference to the commissioners proceedings it will be seen that there is some difficulty over the contract for the plumbing and heating of the new court house, Mr. Relyea refusing to sign a contract for the amount of the bid. Mr. Relyea says that since he filed his bid on the work the material to be used has greatly increased in price and it would be impossible for him to purchase the material now and do the work at his former figures without a great loss. He says that had the plans and specifications been furnished and the commissioners had been willing to sign the contract at the time his bid was accepted he would have been enabled to make his purchases before the rise in price. He asks now that the commissioners pay the extra amount that the material will cost, and this they refuse to do.

New Music Rolls at Davies. Wakefield Republican: The new \$28,000 court house at our neighboring city of Wayne is now in process of construction. It will be an elegant structure and its attractiveness will be enhanced by its commanding situation. We presume it will prove to be the best investment the county ever made. Wayne is a grand county peopled by as prosperous and progressive a body of citizens as there are in the state or the west. All it lacked was a court house commensurate with its dignity and that want will now be speedily supplied.

For fancy Toilet Soap see Davies. Dixon Tribune: M. P. Ahern, one of Wayne's most substantial and live merchants, was in Dixon today. "Two young girls and a couple of 'kidd' dudes from Wayne were in Dixon last Sunday afternoon, and were undoubtedly under the impression that they were "painting the town red" They secured a variety of drinks at the saloon, and leaving their teams down town, proceeded to the school house steps, where they boldly drank the contents of the bottles, afterwards becoming quite hilarious. Evidently their mammas "didn't" know they were out; but when they found out that they were, we suggest, that they take the whole outfit across their knee and use a paddle.

The chances are nine in ten that the office boy will bring a cake of Ivory Soap if sent for "a cake of good soap." But be sure of it. Each cake of Ivory Soap is stamped "Ivory."

The heaviest hail storm ever known in that section occurred in the southwest part of this county in Leslie precinct last Friday afternoon, greatly damaging small grain and corn. And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Swinging Stacker. It takes the place and does the work of an independent stacker. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either stack or barn. This stacker has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a threshing machine. THE WAYNE HERALD.
Entered at the Post Office at Wayne, Neb., as second class mail matter.
W. H. McNEAL, Editor.

PUBLISHED EVERY THURSDAY.
The political pot has begun to bubble and there will be a whole lot of offices seeking the man.

About the biggest boom of the day is the insurance boom. Insurance is a good healthy thing to have.

The First Nebraska will soon be home from Manila. At any rate, all mail for the regiment, has been ordered held at San Francisco.

If the Filipinos had any idea that your Uncle Sam's soldiers were afraid of water, they should recall Brigadier General Funston's famous charge on Calamit.

The dire calamity resulting from the cyclone at Herman cannot be conceived of only by those unfortunate people who went through that trying ordeal. Years of labor blown to the winds, everything to do over, and to face the struggle for an existence was not the most pleasant thing to confront those people. May the liberality of the people of eastern Nebraska be marked in this instance.

The farmers of Wayne county are not feeling very bad, thank you! Crops are looking pretty good, and there are about a thousand and one good, jolly fellows who are not looking for trouble, do not wish their neighbors ill, are not worrying about anything in particular and have no time to spend talking politics. In fact, they have time to chew the political rag, and we don't blame them.

The Massachusetts bureau of labor has published a comparison of tables showing the prices paid for labor in twelve American cities in 1870 and 1898. The comparison includes skilled as well as unskilled labor and shows an increase from 10 to 15 per cent. in favor of present prices. But that is not all that must be looked at in order to gauge the present degree of prosperity. A comparison between the purchasing power of a dollar then and now, as applied to such things as groceries, meat, rent and board, shows that a dollar today will buy from 15 to 20 per cent. more than at the first mentioned time! Thus it may be readily deduced that the condition of the wage earner today is about 30 per cent. better than in the good old times the democrats like to talk about. —St. Louis City Journal.

HAVEMEYER ON TRUSTS.
It seems most remarkable that Henry O. Havemeyer, president of the sugar trust, should give advice as to the best method of destroying trusts or, at least, of rendering them harmless. He told the industrial commission yesterday that the tariff was the mother of all trusts; that duties on imports prevent foreign competition and permit domestic producers to raise prices to an inordinate extent. If the tariff were reduced to a uniform rate of 10 per cent ad valorem, there would be little chance for the trusts to rob the consumers.

One patent fact disproves all that fine-spun theory, and that is the existence of the sugar trust. That monstrous monopoly flourishes with the aid of little protection from the tariff—3½ per cent, as Havemeyer figures it. According to Havemeyer, the American Sugar Refining company is an institution beneficial to the public. The fact is that the public is benefitted from

time to time by the sugar wars, such as that which is now prevailing, for the trust is not without rivals. Every one who buys sugar knows that the price of that article rises whenever the trust is able to put it up. Nothing keeps the price down except competition of rival combinations, such as the Arbuckle and the Sprackles interests.

The democrats and others of the opposition are unfortunate in having Havemeyer's support in their contentions. The sugar trust has a bad name. As Havemeyer shows, its growth has not been fostered by the tariff. If he can prove that other trusts will dwindle and decline for the lack of protection, while his own can flourish without it, his argument will look more plausible. When we see a sugar trust, an oil trust, and combinations controlling coal, crackers, and other articles not affected by the tariff, we are justified in thinking that some other explanation than the tariff must be made for the growth of trusts. The readiest and most apparent explanation is that a great volume of capital can produce so much more cheaply than a small capital that the trusts are able, by more economy in production, to destroy their small rivals.—St. Paul Dispatch.

PLUM CREEK.
C. C. Bastain shelled corn for John Johnson last Friday.

The game of ball the 18th between Leslie and Altoona was won by the latter. Score 6 to 10.

Riley says he would go to Bastain's office with him a little afraid of the old man's tooth-pick shoes.

Some of the Wayne sports went thro' Altoona Sunday, going south. We guess they had started for Texas.

Dr. Bastain was seen out buggy riding with Miss Demie last Sunday. Stay with her, Al, and you are bound to win.

Dr. Bastain had better ask if he can stay all night next time he makes a call. It looks so horrid to stop without asking.

Geo. Thies has traded for a steam engine with which to run his separator this fall. Geo. is going to show them how to thresh.

Geo. Thies is going to build a new implement house and blacksmith shop. Fence it in with Page fence, Geo, and it will be all right.

J. Johnson, A. Roth, A. Johnson O. Bostrom, and P. O'Brien went to the Elkhorn to fish last week. They drove a four-horse team and said they expected to bring home a load of fish. They came home loaded, but not with fish.

We understand that Jake Gasper is offering a reward we did not say anything about him going to Livering's every Sunday night. Never mind, Jake, we will remember you after this.

George Thies made a flying trip to Altoona with his engine after a pound of coffee and when he got back home his wife told him that the yeast was all gone and Geo. made another trip after 100 worth of yeast. He says he will make that engine pay for itself.

Fred Pauling thought he had made a great catch the other day while fishing. His bobber went under and he pulled on the line but could not pull out the fish, so he called to Bostrom to come and help him. They both pulled and soon landed a seventeen century mud-turtle. Fred looked at it and said: "Aint it a beauty, Bostrom; what is it, a picker?" "No," says Bostrom, "it's a mud-turtle." "Not by a darned sight," says Fred, "it's a fish." By some by the rest of the boys were called on and convinced Fred that it was a mud-turtle. He was heard to murmur as he walked off, "I guess I know a mud-turtle from a fish."

Men who go out fishing in an open boat in the midst of a blinding storm and enjoy it, must be strong and healthy and are pretty sure to live to a ripe old age. Unfortunately, the rush and hurry of modern business life will not permit the average man to take frequent outdoor exercise. In lieu of it he spends many of the weeks and on the water, a man must find some kind of medicine to tone up and invigorate him and incite the vital organs of his body to the faithful performance of their normal functions. Dr. Pierce's Golden Medical Discovery is the only thoroughly effective medicine for this purpose. Its principal action is upon the organs that feed the blood, the stomach, the large intestines and the liver. It facilitates the flow of digestive juices in the stomach and the production of healthy chyle in large quantities. It facilitates the flow of pure blood, when the blood is rich and pure the man's tissues throughout the body are torn down and replaced by new and healthy flesh tissues and nerve fibers. If a man's blood is clogged with the rich, pure elements of health, he can get along with a scanty amount of exercise. Disease germs can gain no foothold in his system and enjoy it. I had suffered for several years and then the grip and also had a hemorrhage from the lungs writes Mr. N. C. "I had the best medical attention, but it could bring only partial relief. I had more hemorrhages. I took twenty-five or thirty bottles of medicines, but continued to have spells of bleeding. I commenced taking Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I used eight bottles and have been able to do any kind of labor for more than twelve months. I owe my life to Dr. Pierce's medicine."
