The proceeds of the picnic go to the support of the State Orphans' Home.

Wausa Gazette: The Northeast district G. A. R. Reunion, which will be held at Plainview July 11, 12, 13, and 14, promises to become very interesting throughout. Among the men of national reputation who will deliver addresses we notice the names of Gov. Wm. A. Forster, Senator M. L. Hayward, Ex-Senator W. V. Allen, and Adj. General F. H. Barry. Ball games and other amusements will be the order of each day. Grand shooting tournament will be held on the 13th and 14th. The 13th will be W. R. C. Day.

Mayor Moore of Omaha has appointed a committee of 300 prominent citizens throughout the state to make arrangements for bringing the fighting First Nebraska to that city and giving them a rousing celebration as soon as they are mustered out, which will be about the first of August. It is estimated that \$40,000 will be needed to carry out the plans and most of that sum has already been raised. It is prepared to send special trains to San Francisco to bring the soldiers home without extra cost to themselves.

Mayor Lay of this city has been appointed as one of the committee of 300.

Wayne had the check to post up in Randolph a lot of Fourth of July bills, Wednesday, but some of them didn't stay long.—Randolph Reporter.

Our neighboring town should not be jealous. Wayne has lots of room for posters announcing a celebration at that town, or any other kind of an entertainment. Wayne has a way of making it known through this part of the state when she has anything going on, but she would not be so small as to remove any bills hung up by a neighboring village.

THE EXPOSITION of 1899

Some of the New and Interesting Amusement Attractions Planned for the Greater America Midway.

The Big Colonial Show to be opened in a Blaze of Glory and Fireworks on July 1.

The amusement features of the Greater America Exposition, which opens in Omaha, July 1, for a season of four months, will surpass those of last year in point of numbers and in the quality of the attractions. Never before at any exposition held in this country since the World's fair, have so many strange and decidedly interesting features been arranged to interest and amuse the public, as will be seen on the Midway the coming season. Among the latter will be a Filipino village, with a large number of native men, women and children, in their native costumes, showing the habits, ceremonies and every-day life of the people. Their huts will be exact representations of those found about Manila, and the native animals, tropical plants and agricultural implements, will here be found. There will also be Cuban villages, Hawaiian villages, and natives of Porto Rico, with dancing girls and all that goes to show the daily life and habits of these people.

The opening day, July 1, will be one of the notable days of the exposition; the day follows on July 3, and on the national holiday, July 4, a magnificent celebration will be held, making the first week one of special interest. "Hobson Sinking the Merrimac," will be one of the chief attractions in connection with which a novel and beautiful display of colored pyrotechnics and fire displays will be presented, commemorating the great naval victory in the destruction of Admiral Cervera's Spanish squadron last summer. The sinking of the Merrimac and the destruction of the Spanish war ships will be faithfully reproduced on a lake of real water, and with all the accessories necessary to make it realistically true to that great event. Railroads will offer very low excursion rates and the city of Omaha will assist in preparing a monster demonstration for those who visit the exposition.

In the work of building the new Midway, comfort as well as pleasure has been especially taken into consideration. A mammoth and elegant structure having been erected on the site of the former Chinese village located in West Midway. Here the visitor tired of sight-seeing can rest in the cool and inviting shade of leafy bowers of fragrant and rare tropical trees, plants and flowers, while strains of sweet music in hidden nooks tunelessly play in suggestive harmony of passing scenes. Theatrical performances will be given in the main building under the famous Orpheum Theater Circuit management, where some of the world's most talented artists will appear in vaudeville, comedy sketches, thrilling acrobatic feats, juggling, startling fire dances, cakewalks and the latest musical productions. A large and well appointed arrangement under the same roof which will be a great delight to the hungry, is the Midway Restaurant and Buffet, where every style of prepared food will be supplied at prices which visitors will not need to find fault with.

The great cyclorama of the Battle of Missionary Ridge is now complete, with the exception of the outside decoration. It is certainly one of the finest cycloramas of the civil war ever exhibited, and as many Nebraska soldiers took part in this battle, it will be of exceptional interest. The foreground is covered with sand, gravel and trunks of trees and relics from this famous battlefield.

The wonder of the exposition now nearly completed, will be a spectacular electrical illusion called the "Naids of the Fountain." It is the result of three years work by a French designer and was exhibited in Paris for the first time a year ago. The details are of the most elaborate kind, and the subject significant of Greek mythology. Permission to exhibit it in this country was obtained by a gentleman in Boston, who, at a great expense secured the concession at the Greater America Exposition. Human types of female beauty are used in the allegory, aided by powerful spectacular effects, colored fires of surpassing brilliancy and gorgeous costumes, music, etc.

The Old Plantation will not be recognized by the visitors of last season. The grand theater, much larger and finer than the former one, has been erected at the front, instead of at the rear as it was last year. Some queer looking types of colored people from the cotton, tobacco and sugar states will be seen at the old plantation, among them the old body servant of Jefferson Davis, who was captured by the federal cavalry with his master, just at the close of the civil war, and has a remarkable history of his own.

Other amusement features will be Pain's London magnificent display of fireworks, which are to excel the exhibition of last year, and which will be one of the most beautiful, unique and novel attractions of the exposition. Dazzling displays of colored fire, and a series of remarkable set pieces are being prepared, which will illustrate some of the principal events of the late war. Horse races by electric light fire and ghost dances by half-dressed Indians, and scores of other attractions will be seen, leaving little or nothing to be desired in this line by the visitor at the Greater America Exposition.

PUBLISHED EVERY THURSDAY.

The hardest job a democrat has during these days of prosperity is to discover where his party is in politics. The republican state convention has been called for Thursday, September 21st, and will be held in the city of Omaha. Wayne county is entitled to nine delegates.

President McKinley finds time to visit around among the people and to one and all extends a cordial greeting and handshake, while he receives rousing receptions wherever he goes. Such a president can well lay claim to the hearts of his countrymen.

The First Nebraska regiment will be accorded two state receptions on their return home and they will be made to know that their valor is not only recognized and appreciated by relatives, sweethearts, and friends who will welcome them, but by the whole people of the state.

The good the old soldiers have done in promoting the beautiful custom of decorating the graves of comrades cannot be measured. The recurrence of annual memorial and decoration days now instituted by nearly all fraternal orders, show how extensively the custom has been adopted, which is a grateful tribute to the Grand Army of the Republic, and shows distinct and definite progress in the fraternizing of the world.—Fremont Tribune.

The popocratic party wants every thing free, and evidently has a hankering for the free soup houses of the balmy days of democratic administration. But the producers of this country, including the farmers, mechanics and laborers, will not again be deluded through the popocratic cry of trusts, expansion, free trade and a lot of other rot. The present excellent condition of affairs suits them and they have time to be hoodooed by parties so daft as to advocate the free coinage of silver.

The nomination and re-election of President McKinley is assured, and if there be any other republican who cherished hope that lightning might strike him, he may as well take his lightning rod at once and join the McKinley possession. Next year is going to be a McKinley year that will far eclipse 1896, and there will be so little opposition to the president that he will be practically elected unanimously. The leaders are for him and the rank and file have always been for him, and what more could be asked of the American people?—Harrisburg (Pa.) Telegraph.

From all signs now predominating Ex Gov. Holcomb will be the fusion nominee for supreme judge. While he is by no means the strongest man in the party, he will pull the delegates to carry off the honors of the convention. One thing is self evident no democrat need apply. Judge Harrison has made a good justice and an honorable record, but the republicans will show a wisdom born of experience that should not pass unheeded. If they will pause long enough to stop this "good fellow" business, and nominate the very best and most available man in the party, a man whose judicial attainments are the peer of the best, a man who is without the circle of any and all political rings and jobberies and combinations, a man who would be an honor to any position in the gift of the people of this state. Take the best and you have more than a fighting chance this fall. We are of the firm opinion that Hon. M. B. Reese of Lincoln is the right man.—Columbus Times.

No doubt the Fourth this year will be a big day throughout this grand nation, and it should be. A glorious surprise was sprung on the morning of the Fourth last year, when the glad news was sent broadcast throughout the land of the magnificent victory of the American navy and army, and the people celebrated the event, but the arrangements for celebrating were naturally impromptu. The American people have every reason to feel proud and more patriotic than ever. During the year Cuba has been liberated and the grand work of humanity carried forward. The flag floats over the victorious army in the Philippines and floats over many new possessions that broaden the destiny of a great nation. These glorious achievements of one brief year suggest a national holiday on broader grounds than ever before.

His Life Was Saved.
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected soon to die of consumption, when I heard of Dr. King's new discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say to much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50 cents and \$1.00. Trial bottles free at Wilkins & Co's drug store; every bottle guaranteed.

There was an election the other day in Dingley's old congressional district down in Maine. The democrats, true to their genius for sticking to a hoodoo, nominated the man Dingley defeated and he was annihilated this time, the majority being so much against him, they haven't quit counting it yet. It doesn't look as though the Dingley bill was greatly executed in the Dingley district, nor that there is any saving grace in anti-imperialism or free silver.—Fremont Tribune.

Missouri mules are said to be unusually strong on the market just now. And one of the strongest is ex-Gov. Stone.
