Evidently the "kissing buggy" found it more congenial to tackle the wheat crop the past week. At any rate some son-of-a-bug kissed the wheat stem just above the first joint and the farmers were obliged to hustle in order to save the grain before it went down. In fact, some of it did go down before recovery.

He keeps constantly at it, and by an extra effort during the busy harvest he keeps his daily sales up to the average. He does it by keeping at work while his neighbor merchants are taking a vacation. This is the season of the year when the big city catalogue house seeks to infringe upon the territory of the local dealers. If the latter are alive to their own interests they will not slacken their efforts to keep ahead of these monstrous concerns.

Madison Chronicle: The fusion bosses better keep their eye on Editor Goldie of the Wayne Democrat, for every once in a while he breaks over the traces and tells about the return of prosperity, just as he does in an account of a visit he made to Winside, in which he says:

Ed. Cullon the hustling implement dealer, we found head-over-heels in business, setting up binders, buggies and wagons. Merchant Brown talked about taking a trip out west or to Paris to get rid of his surplus wealth. . . . Walt Gaebler was so busy selling hardware that he scarcely had time to talk a little politics. . . . D. J. Cavanaugh who has just started the second harness shop in the city, is doing a big business and is looking for another harness maker, Mark Stringer, jr., being unable to keep up with the trade. . . . Dr. Cherry was laying carpets in his new and elegant residence. . . . At the Tribune office we found two big fat men that the little burgeois evidently takes good care of.

Wisner Free Press: While driving down from their home below Wayne Monday morning with three horses attached to their old binder they were bringing in to exchange on a new one J. W. Conley and son met with an experience in crossing the iron bridge over Saint Creek, west of town that they wouldn't care to have happen again. The man wheel encountered an obstruction on the narrow approach to the bridge and the near horse already close to the edge was stuck off, slipped through the harness, struck the ground eight or ten feet below and rolled down the sloping bank into the water. This one regained his feet alright and came out without being hurt, but the next one to go over hung in the harness and in floundering around was bruised and skinned up considerably and the harness was put to release him while the third horse braced himself and held his footing. Fortunately they were all able to resume duty and the machine was drawn over the bridge by hand, the horses put on and the journey resumed to town. . . . Mr. and Mrs. S. F. McManigal are the happy parents of a bouncing boy baby arriving at their home the 18th inst.

Four doctors gave me up saying, I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured my cold and thank God, I am saved and now a well and healthy woman. Trial bottles free at Wilkins & Co.'s drug store. Regular size box, and \$1.00. Guaranteed or price refunded.

**NEVER TOO OLD TO BE CURED.**

S. S. S. is a Great Blessing to

Old People. It Gives Them

New Blood and Life.

Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among older people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping their blood pure they can fortify themselves so as to escape three-fourths of the ailments from which they suffer so generally. S. S. S. is the remedy which will keep their systems young, by purifying the blood, thoroughly removing all waste accumulations, and imparting new strength and life to the whole body. It increases the appetite, builds up the energies, and sends new life-giving blood throughout the entire system.

Mrs. Sarah Pike, 477 Broadway, South Boston, writes: "I am seventy years old, and had not enjoyed good health for twenty years. I was sick in different ways, and in addition, had Eczema, terribly on one of my legs. The doctor said that on account of my age, I would never be well again. I took a dozen bottles of S. S. S. and it cured me completely, and I am happy to say that I feel as well as I ever did in my life."

Mr. J. W. Loving, of Colquitt, Ga., says: "For eighteen years I suffered tortures from a fiery eruption on my skin. I tried almost every known remedy, but they failed one by one, and I was told that my age, which is sixty six, was against me, and that I could never hope to be well again. I finally took S. S. S., and it cleansed my blood thoroughly, and now I am in perfect health."

**S. S. S. FOR THE BLOOD**

is the only remedy which can build up and strengthen old people, because it is the only one which is guaranteed free from potash, mercury, arsenic and other damaging minerals. It is made from roots and herbs, and has no chemical whatever in it. S. S. S. cures the worst cases of Scrofula, Cancer, Eczema, Itch, Tetter, Open Sores, Chronic Ulcers, Boils, or any other disease of the blood. Books on these diseases will be sent free by Swift Specific Co., Atlanta, Ga.

The Epitaph Times (Dem.) sneers: "Good morning, Silas, have you paid your house rent?"

It is but in a very humble position, ex-Governor Holcomb finds himself. Wouldn't he make a warm nominee for supreme judge?

Since his death it has developed that the late Robert Ingersoll had a mighty host of admirers, and among them the clergy was numerous.

The Baltimore Sun, one of the leading democratic daily papers of the country, is of the opinion that the instant the silver pluck of the Chicago convention is re-affirmed, the election of a republican president in 1900 becomes an absolute certainty.

Mrs. Gould's testimony concerning the Holcomb house rent is met by an attack upon Chairman Frost of the investigating committee. This may be the best defense that can be made, certainly nothing could be more irrelevant and immaterial.

It will no doubt be gratifying to the person who is running for office to know that he will be protected hereafter from the professional leg puller, as the law passed by the last legislature requires a candidate to file a bill of expenses in securing his election before he can qualify to hold the office.

The gallant First Nebraska regiment arrived in San Francisco harbor from Manila about midnight Saturday. After inspection by the quarantine officers the vessel was given a clean bill of health. On Monday the troops landed and marched to the Presidio where they will be mustered out in about two weeks.

Let us see, Silas A. Holcomb was governor of Nebraska four years. During that time he drew from the state for house rent \$50 per month, a total of \$2,400, and paid out \$30 per month, a total of \$3,600, a net gain to Holcomb of \$1,200. Holcomb is a "reformer."

There are at least two reasons why that professed, or alleged, professed, or Secretary of the Navy Whitney got Dewey to let the Democrats nominate him for President will fail. In the first place, Dewey will not accept a nomination from any party, and in the second place he is a "republican."

**1896 and 1900.**

The campaign of 1896 gave birth to a party offshoot that did a good deal of blustering and talking, but not much voting, and which, for purposes of present identification was known as the National Democracy. It was composed of democrats who could not adopt the Chicago platform, and who, as a slave to their political consciences, voted for Palmer and Buckner, instead of Bryan and Sewall.

Where is the gold democratic vote today, and where will it be in 1900. The men who were in the lead of the Palmer and Buckner movement in 1896 will not lead a similar movement in 1900. What was right in 1896 will be right in 1900 and not only right, but proved right by the experience of four years.

What we know as the gold democracy in 1896 was only pioneer corps of the forces that will be driven out of the democratic party when the Chicago platform is reaffirmed next year.

What we know as the gold democracy in 1896 was only pioneer corps of the forces that will be driven out of the democratic party when the Chicago platform is reaffirmed next year. Thousands of honest democrats remained with the party before, hoping that one campaign would be less than the party and that it would return to its senses when it saw the result.

One would think that ex-Colonel Bryan, standing candidate for president who believes he is "called of God"—a Moses as it were, to lead the democratic hosts to victory—would not want more than actual expenses to proclaim the everlasting principles of sixteen to win and anti-expansion. Such is the case however. It is "no money no speech."

J. Sterling Morton points out the inconsistency of the fusionists in denouncing trusts and trade combinations and then combining three political parties for the purpose of monopolizing the offices. Of course, that's different. A trust is a bad thing only when you are not in on the ground floor.

It is well known that rabbits, rats and squirrels eat all apples. Ants have brains larger in proportion to the size of their bodies than any other living creature. "DeWitt's Little Early Risers" did me more good than all blood medicines and other pills, writes G. H. Jacobs of Thompson, Conn.

**Notice to Bridge Contractors.**

The County Commissioners of Wayne county, Neb., hereby notice that the building and repairing of county bridges from Aug. 3, 1899, to Jan. 30, 1900, the work to be done in accordance with the following general plans and specifications: All buildings and repairing to be done from date of contract to July 31st.

Ballard's Snow Liment gives instant relief in cases of bleeding, burns, bruises, scalds, cuts, etc. Price 25 and 50 cents. Wilkins & Co. Aguinaldo is falling back further and further from Manila, but it must be confessed he is holding his own in the democratic party.

Kidd's Dyspepsia Cure thoroughly digests food without aid from the stomach, and at the same time heals and restores the diseased digestive organs. It is the only remedy that does both of these things and can be relied upon to permanently cure dyspepsia. L. P. Orth.

Perhaps Gen. Pope might ease things up a little by getting out a modus vivendi, or something of that sort. Blotches and eruptions, which so often annoy people, are simply efforts of nature to throw off impurities to the proper performance of her duties. HEALING WILL aid and assist nature in her work, and ensure a skin clear and beautiful, entirely free from all imperfections. Price 50c. Wilkins & Co.

The elephant has 40,000 muscles in his trunk alone, while a man has only 577 in his entire body. An enlightened public has at last reached the point where it takes some thing more than an experienced circulation liar to move it.

Irritating stings, scratches, wounds, bites and cuts soothed and healed by DeWitt's Witch Hazel Salve, a sure and safe application for tortured flesh. Beware of counterfeits. L. P. Orth.

These insects keep us busy. We have the gold bug once in four years, the kissing bug whenever he feels like it, the "tater bug" every summer and the hum-bug all the time. No one knows the unbearable torture or peculiar and agonizing pain caused by piles unless they have suffered from them. Many believe them incurable. This is a mistake. Proper treatment will cure them. TADLER'S BUCKEYE PILE OINTMENT is an infallible cure. 50c in bottles; tubes 75c. Wilkins.

"The people of Kentucky are back of Geobel," remarks the Courier Journal. And every man, we surmise, with a six-shooter back of him; so Mr. Geobel better look out. The democratic papers are already beginning to discover signs of a halo around the head of Russell A. Alger.

Spina's Greatest Need. Mr. R. P. Olivia, of Barcolona, Spain, spends his winters at Alken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest blood and nerve remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. It works, tried or selling you need it. Every bottle guaranteed, only 50 cents. Sold by Wilkins & Co., druggists.

Notice to Bridge Contractors. The County Commissioners of Wayne county, Neb., hereby notice that the building and repairing of county bridges from Aug. 3, 1899, to Jan. 30, 1900, the work to be done in accordance with the following general plans and specifications: All buildings and repairing to be done from date of contract to July 31st.

Contractor to drive all piles necessary for repairing of the bridges of the county, to land the same from the nearest railroad station in said county to remove all lumber from said bridge and to drive all piles and replacing the same after the piling is driven. Piling on bridges so situated in condition for travel thereon so far as the same has been rendered unsuitable therefore by reason of work necessary to be done on the same, or when driving the piles up so not to split, the same and to so build and repair each bridge within the time allowed by the county to repair the same. The county to furnish all the material for the repair of such bridges as it may direct contractor to repair, delivery to be made at the railway station nearest to the bridge.

The contract entered into shall cover any new bridge or addition which the county by board of commissioners may see fit to have built, without further let or contract, but shall not prevent the county by its board from letting the building of any and all new bridges to other parties should see fit to so upon advertising therefor. Also be amended to read: "to be done by J. R. Coyle, County Clerk."

## Does Your Head Ache?

Are your nerves weak? Can't you sleep well? Pain in your back? Last energy? Appetite gone? Headache? Boils or pimples? These are sure signs of poisoning.

From what poisons? From poisons that are always found in constipated bowels.

If the contents of the bowels are not removed from the body each day, as nature intended, these poisonous substances are sure to be absorbed into the blood, always causing suffering and frequently causing severe disease.

There is a common sense cure.

# AYER'S PILLS

They daily insure an easy and natural movement of the bowels.

You will find that the use of **Ayer's Sarsaparilla**

# Down Dawson's Main Street.

Along the blawing bell called the main street, littered and odoriferous from sanitary neglect, were two rows of saloons and gambling halls, with many brokers' offices and the stores of stewards and operators in food supplies. The scene was a sad one, and the people who lived there were in a state of poverty and suffering.

downs of those palaces were illuminated for a moment by a ray of light, as if a gleaming shaft of ivory and walking on Boons of Ivory bones whom we knew and loved on earth. Yes, I know them. There are father and mother, not 82 years and 79 years as when they left us, but little and young as when on their wedding day. And there are brothers and sisters, merrier than when we used to romp across the meadows together. The cough gone. The cancer cured. The dyspepsia healed. The heartbreak over-ruled. How they are in the happy mood, and how they are in the happy mood, and how they are in the happy mood.

such a hard reception as Jesus had? A hostler the first, an unjust trial in over and temper another, a foul mouthed, yelling with the last. Church of Jesus was not his name. Church of Jesus was not his name. Church of Jesus was not his name. Church of Jesus was not his name. Church of Jesus was not his name.

John leaned his head on Christ, but who did Christ lean on? Five thousand men and women, who had been waiting for him. They were waiting for him. They were waiting for him. They were waiting for him. They were waiting for him. They were waiting for him.

## SHORT SERMONS.

The Real Life.—The real life, according to the teaching of Jesus, is not a life of material success and worldly power, but a life of love and service to others. It is a life that is centered in God and that seeks to bring glory to Him through good works.

How soon you will know how sweet it is to have your sins forgiven, and how sweet it is to have your sins forgiven, and how sweet it is to have your sins forgiven.

## How Indians Swear Floutly.

It is said that a certain tribe of Indians have a useful divinity which they call a swearing god. It is very small, usually ugly and even more convenient. It generally stands on a pedestal, or is nailed to the wall of the living room, and the use of the picturesque language in its presence is accounted not a sin, but a pious duty.

## HENRY VIII'S LOVE LETTERS

One of His Epistles to Anne Boleyn

Photographic reproductions have been made recently of various ancient archives in the Vatican Library in Rome, particularly those that bear upon the episodes of early English history. Sir Benjamin Stone, M. P., was the lucky man to obtain special permission to make the copies. Among the treasures selected by him for the purpose was a series of manuscripts on the achievements of King Henry VIII's administration for the church, including one bearing the king's signature and arguing against Martin Luther's teachings. That paper was sent by an envoy extraordinary to Pope Leo X, in return for which the Pope gave the King the title of "defender of the faith."

### CARROLL NEWS.

Grain is about all harvested. J. A. Jones was in Wayne Wednesday. Fred Berry is able to be around again. F. A. Berry was in Randolph the first of the week. J. E. Manning shipped four cars of stock to Chicago Saturday. Rodney and Guy Manning returned from their western visit Saturday. Rdy Manning was quite sick last Saturday but is much better now. John Vaughn is recovering from his illness, and is now able to be around. The rain, Monday night was very beneficial to corn and was needed badly. Dr. Love and Lena Gardner went to Randolph Monday returning Tuesday afternoon. Geo. Bailly left for Dubois Sunday, when he will spend a week, and upon his return he will in all probabilities be accompanied by a—well, we will give particulars next week. Last Sunday evening death claimed the infant son of Mr. M. S. Linn. It would seem that Mr. Linn has had more than his share of trouble this season and the sympathy of the entire community is extended to him in his sad affliction.

The editor of the Randolph Times says we "lied" when we said Mr. Mosher offered to bet \$20 and then refused to put up when his bet was called. Maybe we did, Brother Boughn, but if you will come to Carroll we will prove to you that two different parties called his bet for \$20 and he refused, and a dozen different persons heard the offer and refusal.

The ball game played here on Tuesday, July 25th, between Carroll and Randolph, and which resulted in a victory for Carroll, seems to have left a very aggravating sore on a few of the Randolph players, and especially the editor of the Randolph Times, who had the dire misfortune to be playing third base on that occasion. Through the kindness of that gentleman, the residents of Carroll were furnished with a free copy of the Randolph Times which contained as scandalous an article on the people of a neighboring town as was ever published in a newspaper. The whole article is nothing but a tirade of abuse from a defeated and sorehead ball player, and but for the request of those who were attacked we would not deign to notice such an article. The Randolph boys brought their own umpire and absolutely refused to abide by his decision and in order to "be at peace with all men" the Carroll boys gave them their own way on a play that seems to have caused so much soreness on the part of the Randolph club. The whole trouble lies in the fact that they came to Carroll thinking they had a soft snap and with more money than brains. The money they left in Carroll, and now they roast the Carroll people for betting with them. Never mind, boys, you are young yet and have lots to learn, and you will find as you go through life, that experience is a very good teacher. You took great pleasure in roasting the Carroll team on your own grounds a few days before and because a few admirers of the Carroll boys saw fit to get out and pull for them on their own grounds, you get sore and try to take your spite out through a newspaper. How, "ye gods" how! we got your money which we enjoyed immensely, and your base ball scalp dangles from the flag pole on Main street.

Geo. Thies brought out three kegs of beer Saturday night and asked his friends in Sunday to help drink it. Geo. had a lot of grain that needed stacking and they were going to shock the grain and then drink the beer, but the crowd thought they had better drink the beer first. Well, they drank the beer, but we noticed Monday morning that the grain was not shocked. Get some more beer, Geo, and try it again.
