Lemen Bros. circus attracted quite a
crowd to Wayne, and a good many
were bitten by a set of fakirs and
gamblers who accompanied the show

patronage. We understand the show
was not as good as the average.

Journal: Sioux City attorneys are
interested in the approaching judicial
campaign in the judicial district im-

where an attempt is being made to

peared. The democrats and populists
have decided to hold their judicial con-
ventions next Monday at Pender. The
populists will call their convention to
order at 11 o'clock in the morning and
the democrats will assemble at 2 o'clock
in the afternoon. The democrats who
are in the race for the nomination by
that party are T. G. Strong, of Pender;
F. M. Gooding, of Hartington, and T.
N. Franze, of West Point. J. N. Curry,
of Pender, is the only populist candi-
date.

Rev. Montgomery has secured Rev.
W. G. Craig, D. D., L. L. D., of Chicago,
to deliver the dedication sermon in the
new Presbyterian church, Sunday, Sep-
tember 3. Rev. Craig is one of the
most eloquent orators of the pulpit
and Mr. Montgomery was fortunate in
securing him for the occasion.

Ed. Reynolds went to Churdan, Mon-
day in response to a telegram stating
that his daughter, Maude, who is visit-
ing there was very sick. Miss Maude
Britton and Jessie Ahstin, who were
visiting at the same place, returned
home Tuesday morning and report
Miss Reynolds much better.

A "farbwell service" will be held in
the Presbyterian church this coming
Sabbath. Revs. Montgomery and
Ernst will make addresses and possible
others. In the evening Rev. Ernst will
preach. All members of the church
and congregation are urged to attend
both of these services as they will be
the last held in the old building. There
will be no service Sabbath, Aug. 27.

On Saturday the leaders of the demo-
cratic and populist parties of Wayne
county meet in Wayne to decide how
the spoils of office shall be divided,
and whether they shall fuse or go it
alone separately. There seems to be
a desire on the part of some to resist
the fusion regime, and things will no
doubt be lively before the matter is
settled. But be that as it may, it will
make little difference; the republicans
will carry the day this fall.

Among the Winside people here yes-
terday attending the circus, we noticed
Mr. and Mrs. L. S. Needham, Miss
Kathryn Chapin, Robt. Bonser, Chas.
Needham, H. S. Workman, A. J. Tracy,
Attorney Simons, Judge Peterson,
Thos. Dunn, A. E. Carter, Henry Ul-
rich, Ed Prince, Lloyd Holcomb, Miss
Brower, Miss Johnson, Dolly Farran
and Miss Harrison. There were many
others whose names we do not now
recall.

Times-Tribune: Some time ago Cris
Schavland, the very efficient clerk of
the district court, conceived the idea
of adorning the walls of his office ad-
joining the court room in Madison with
portraits of all the judges who have
ever sat on the district court bench in
this county, and with Chris to think
it out, and he at once began to make
arrangements to secure the same. He
also employed our artist, F. M. Hoyer,
to execute life-size portraits from such
smaller pictures as he might be able to
obtain. Yesterday Mr. Schavland was
in the city, and took back with him
Madison finely executed pictures of
the following judges: Samuel Maxwell,
E. K. Valentine, John B. Barnes, Isaac
Powers, W. V. Allen, N. D. Jackson, S.
Robinson. He has yet to secure the
portraits of Lorenzo Crouse who sat
on the bench here when Norfolk was
yet the county seat, and of the late
Thomas K. Criffey, of Dakota City, who
was elected but whose seat was con-
tested by E. K. Valentine, to whom the
seat was afterwards awarded by the
supreme court by the very close mar-
gin of 2 votes. When he secures these
two he will have a fine gallery of
portraits, which will be an honor to the
bar of the county and Mr. Schavland is
surely entitled to the thanks of the
county for his enterprise in securing
these pictures, which we understand
has been done solely at his own ex-
pense.

One of the Big Events.

you get there. Let everybody prepare
for a day, of Sept. 6, and spend it
with the veterans.—Republican.

Eighth Annual Commencement Exer-
cises Now in Progress.—Best
Year in the History of
the College.

THE BACCALAUREATE SERMON

A Fine Discourse by Rev. Mary A.
Safford of Sioux City.

One more year has been added to the
life and history of the Nebraska Nor-
mal college, and the Eight Annual
Commencement exercises are being
held at the opera house this week.
Each year since the establishment of
the college, has witnessed an increase
in attendance over the preceding
year, and 1899 has been no exception,
unless it be that the increase is larger
than in any other year. It seems al-
most needless for the HERALD to again
state that the citizens of Wayne are
proud of this growing institution, for
no true citizen can be otherwise. It is
not a place of learning simply for the
boys and girls of Wayne county, or
even Nebraska, for young men and
young ladies from all the adjoining
states are numbered among the stu-
dents of the Nebraska Normal. Many
of the graduates are today holding re-
sponsible positions and no student has
graduated from this institution who
has not gone out into the world with
higher aims and more exalted ideals.
The commencement exercises for this
year began last Friday evening when
the Oratorical literary society rendered
an excellent program. On Saturday
evening the Philomathean society en-
tertained a large audience with songs
and recitations.

The Baccalaureate sermon on Sunday
morning was delivered by Rev. Mary A.
Safford, of Sioux City. It was a grand
sermon, and was attentively listened
to by a very large audience. We had
expected to give a synopsis of Miss
Safford's address in this issue, but have
not yet received the copy.

On Monday evening members of the
Teachers' Class delivered their final
orations, as did others of the class
Tuesday evening. The exercises were
interspersed with vocal and instru-
mental music. The members of this
class have all secured positions for the
ensuing year. The class was composed
of the following young men and ladies:
Margaret D. Herriek of Waterbury;
Anna L. Spovel, Pine Ridge, S. D.; Miss
O'Brien of Pilger; Henry Raubach; C.
C. Singer, Page; Theresa V. Bailey, Pil-
ger; Malvina Bulgard, Rosebud, S. D.;
Christena Lundquist, Norfolk; Olive
Dwyer, Randolph; Emma Scherwin,
Pierce; J. J. Byrne, Rogers; J. E. Wag-
goner, Columbus; H. Ruth Jeffery,
Rosebud, S. D.; and the Misses Galford,
Benson, Preston, Sewell, Hughes and
Caffee of Wayne.

Last evening the Conservatory de-
partment rendered the program and
lovers of music enjoyed a rare treat.
The exercises tonight will be by the
elocution department, who will present
the three-act drama, entitled "Segura,
the Spaniard." Friday evening the
Scientific class will deliver the pro-
gram. The members are C. J. Malone
who is Principal at Wausa; C. E. Moran,
Principal at Pilger; C. E. Wilson,
Prin. Stanton high school; Miss Edith
M. Batchelor, Primary, Norfolk; and
Miss Mamie E. Wallace, Intermediate
department at Pierce.

NEARLY 1,000 DEAD

Awful Destruction by the Great West Indian Storm.

AMERICA SENDS AID.

Thousands Rendered Homeless and in Danger of Starvation. Nearly 1,000 lives and millions of dollars' worth of property are now known to have been destroyed by the hurricane in Porto Rico and the adjoining islands of the West Indies...

Porto Rico is Wholly Destroyed and Other Porto Rican Towns Suffer Great Loss—Five Hundred Bodies Recovered—Fears that a Plague Will Follow the Doom that Has Devastated the Country—The War Department Takes Prompt Measures to Relieve the Distress.

The track of the hurricane lay a little farther north than that of the storm which damaged Barbados and Martinique last year. Martinique seems to have escaped entirely, but Dominica and Guadeloupe, a little further north, suffered severely...

Thousands of people are destitute, and the full extent of the fatalities is not yet known. Not since 1876 has a storm of such fearful violence visited these islands. The War Department has taken prompt measures of relief in the matter of food for the stricken inhabitants of Porto Rico.

The storm struck Porto Rico square on the southern coast, doing its worst at Humacao and at Ponce, though at San Juan, in the north, much property was destroyed and several deaths resulted.

The city and the port of Ponce are reported as total wrecks, with a loss of life estimated in the hundreds, and a damage of half a million to property. The fatalities which have been reported were caused chiefly by drowning in the flood that accompanied the storm.

All interior communications have been cut off. It is impossible to tell how much more damage has been done throughout the thickly populated eastern end of Porto Rico.

After wrecking the southern coast of this island the hurricane continued its westward and slightly northward course, devastating the northern coast of San Juan and finally passing out upon the Atlantic with much less force.

The whole track of the storm there now exists much suffering and starvation. A large amount of local shipping has been swept up by the shore and totally destroyed. Whomsoever remains are working through the debris.

Gen. Miles and his expedition were cause for thankfulness that these crowded transports were not caught in a storm of this nature.

The hurricane has been famous for centuries. This is one of the things we have known in Porto Rico, and one of the things we cannot reform. But the signal service can be extended and made so efficient that it can be made to extend over every such storm, so far as preparation is possible.

The weather bureau does not appear to have done much in the present case. The Government should take steps to equip the West India weather service as completely as it has done in Porto Rico. These hurricanes can be predicted many hours beforehand, as is done at the Manila observatory, and their direction can be determined at the start.

Though the shifting motion of the air is incredibly rapid, the progress of the storm is comparatively slow, and with improved cable communication between the islands the weather bureau can easily be warned of what to expect.

The only other palliative that the American people can give to Porto Rico is to order the distribution of relief supplies to the sufferers in Porto Rico. The Secretary instructed the commissary department to load the transport McPherson at New York with 600,000 pounds each of rice and beans and have it proceed to Porto Rico.

ARREST OF FAITH HEALERS.

Zion Followers Held Responsible for a Woman's Death. De Witt C. Holmes, an elder of Dr. Dowie's Zion in Chicago, and Mrs. Henrietta Bratz, also connected with the same institution, were arrested and driven to the county jail on Tuesday afternoon to answer for the death of Mrs. Annette Flinders of 1008 S. Indian avenue, who died July 25 while treated by members of the Zion organization.

The coroner's jury returned a verdict holding the pair responsible for the death of Mrs. Flinders in having prayed for, instead of furnishing medicine, to the dying woman. It was late in the night before members of the organization could be secured to answer for the death.

It would appear that San Domingo is the real thing. It was not ties of affection that effected the railroad trust. When they talk of his resignation, Oom Paul thinks of the money.

Report from Guatemala says there is no revolution there. How dull! The Chicago baseball club has no difficulty in being beaten any old time. In all things, it will be said that the Hague peace conference was peaceful to the last.

It really seems incongruous that there should be all this heat over the Alaskan matter. For reasons all can understand, the Turk will probably never be an assessor of a ruler.

No one was really so much impressed with the importance of the Hague conference as the conference itself. In so far as human book royalties are concerned, Prof. Exell and Dr. Schell did well and raised about \$10,000.

The United States sub-treasury at New York distributed Tuesday among twenty banks the first supply of gold certificates received from Washington. The supply was \$2,000,000 in the denomination of \$20, \$50, \$100, \$500 and \$1,000. The greater number of the \$20 denomination. The banks gave in exchange gold coin from their own vaults of the sub-treasury, but not standing to the credit of the Government.

A crowd of merry young folks gathered at the home of Eli Bonawitz Saturday evening to have a good time. The rain kept quite a number from being present.

Albert Bastain met with an accident Saturday that might have proven more severe but for his activity. He escaped with a pretty badly bruised limb, and we hope he will be able to get out in a few days.

A couple of Plum Creek dudes wonder why electric lights cannot be put in between the Bastain corner and Wayne. They say it would be a great help to them on dark and stormy nights. Election is coming; vote them in, boys.

Come along, get your mules
And we'll have a merry ride,
And we'll think us fools,
We always know how to alight,
And when you see us comin',

Just tell them that you saw me

PUBLISHED EVERY THURSDAY.

It will take a great deal more wind than is possessed by the Stanton Register to make the farmers of this section of Nebraska believe they are not prospering.

Secretary Gage is now issuing gold certificates, but indemnifications of nothing less than 20 dollar bills; another sign of prosperity which gives populism such a black eye.

Five hundred lives were lost in the disastrous hurricane at Porto Rico, last Thursday and thousands of dollars worth of property destroyed. It was the worst storm ever known in that country.

It was a surprise to the pop when they got into power in this state and every election they have won has been a rained surprise. They wonder that they can fool the people so long and so often.—York Times.

Every time the American army goes into a fight the Filipinos get ready to "run". Sedit will be the condition of the insurgents in this country when the volunteers march to the polls this fall. Just watch their smoke.

If the fusionists are not in grave doubts as to their being able to carry Nebraska this fall, why have they got "Coin" Harvey traveling the state in the interest of the lost cause? This fall will be a fitting finale to the biggest fake known in the country.

The two pronounced candidates for treasurer in the pop and democratic parties this fall are L. F. Rayburn and Fred Volpp. Mr. Rayburn served the people in a like capacity four years and Mr. Volpp would like to, and there are others.

According to "Coin" Harvey's latest financial philosophy there must be a normal quantity of anything that is a necessity to the happiness of mankind, but although wheat and meat are regarded as necessities yet you can do without either wheat or meat and still be healthy and happy. If this be true chaff will make people just as fat and healthy as meat and wheat and "Coin" Harvey holds a patent on chaff.—Bee.

Gov. Poynter of Nebraska, who among others has been much exercised over the censorship at Manila is somewhat of a censor himself. He has arbitrarily refused to accept the report of the senatorial investigating committee in which his friend St. Holoomb was accused of wrongfully using state funds. The blue pencil was not believed to be a sufficiently effective weapon by the Nebraska governor, so he quietly "censored" the entire report by declining to receive it and place it on file.—Sioux City Journal.

We do not believe there is an honest thinking farmer in Wayne county who will deny that this country is now blessed with prosperity, and that the rantings of the free silverites three years ago when they proclaimed so vigorously that the country would be ruined if Bryan was defeated, was delusion. Doubtless many of them will register his contempt for such misrepresentation by voting for the party which brought a return of prosperity in addition to having carried on a successful war with Spain brought on by the continuous singing of Bryan and his fusion friends in congress, but which would be colonized and his followers now denounce. But thinking people will no longer be hounded by the oratorical Willard. In fact, it is doubtful if he again gets the nomination.

Bryan Fears for Nebraska.

It is announced that William Jennings Bryan will devote the major portion of his time this fall to his own state; that he intends to canvass it county by county. He is frightened at the outlook and is convinced that only heroic measures can prevent a republican victory.

Undoubtedly the perennial candidate's fears are well founded. All the reports that come from Nebraska tell of the exceedingly great prosperity that prevails in that commonwealth. The crops have been excellent, there has been a great increase in the deposits in the banks, both state and national, mortgages have been cancelled by the wholesale, the towns which for the last two or three years have been languishing are again experiencing a boom. The volunteer soldiers from the commonwealth are returning as heroes.

What wonder that the political philosophy represented by the term "Bryanism" reads its doom in all this. When the state was afflicted with drought, when crops were short, prices low, debts burdensome, when men were idle and signs "For Rent" were everywhere there was some show for a political quack who professed to have a cure all for every evil, real and imaginary. But busy men with ample harvest don't care a plaything about such a fellow now. They feel their life in every limb. They do not thank anybody for telling them that they are sick.

Moreover a state that has made such a glorious record in war as Nebraska has through its troops in the Philippines, will be in no mood to listen to a man who looks upon these soldiers as murderers, and who is demanding that the flag shall be hauled down. But Bryan realizes that if Nebraska goes republican this fall, it will be a serious blow to his candidacy next summer. Hence his anxiety and determination to put forth every effort in order to win. Although the officers to be elected are not numerous, nor very important, the campaign in Nebraska will for this reason be watched with great interest throughout the whole country.—Cedar Rapids Republican.

Congressional aspirants for the place of John S. Robinson are beginning to come to the surface. There seems to be an idea quite prevalent that the Hon. John S. is one term man and that his successor will undoubtedly be a republican.—Wayne Republican.

If you give Burt the right to name the candidate, it will name a man from the people (from the plain, common people) that Mr. Bryan says so much about. It will name a man who has been tried and not found wanting, who has served us in the state legislature in both houses and senate, a man who has the most implicit confidence and respect of all who have had the pleasure of his acquaintance. It will name a man who has an extended acquaintance in the congressional district and is capable of making a vigorous campaign. He is a man whom you all know.—Hon. Fremont Everett of Lyons. If he is the republican nominee, we will have a winner, and he will succeed John S. Robinson as congressman from the third district. It would be in accord with the eternal fitness of things to take the next republican candidate for congress from old Burt, the banner republican county of the district.—Burt County Herald.

Bill Poynter's trip to the Pacific coast to meet the returning Nebraska boys is the oddest act of inconsistency the citizens of our commonwealth have had the privilege of contemplating in some time. The "farmer governor" possesses in a remarkable degree that oleaginous capacity of sliding from rebate to recognition, from censure to sweet conciliation, and the brave boys from the Philippines will be greeted with large and snooty ears in reaching the San Francisco pier. Poor Poynter, Great Governor, how he must suffer for the soldier! How he must love the patriotic boys who so gallantly won the vote of thanks that never came! Great heart!—Pawnee City Republican.

COMMERCIAL SUPREMACY.

New Position to Which the United States Has Advanced Among the Nations.

The most momentous event of a commercial character in modern times was the development during the fiscal year ending June 30, 1899, of an enormous export trade in articles of American manufacture. It was some time before the full importance, before all the significance of this wonderful revolution was appreciated on either side of the Atlantic. In this country there was much gratified comment upon the unparalleled magnitude of the trade balance in our favor, and upon the enormous proportions to which our foreign commerce had attained, but only a comparatively few more thoughtful and intelligent observers perceived that the distinctive and most pregnant feature of the situation was not the immensity of the favor to be balance, but the fact that a large part of it represented the sale in foreign markets of American manufactures.

That was the really important thing. That was the circumstance which gave the assembled figures their real gravity and their true eloquence, for that circumstance was nothing less than the sign of a commercial revolution of immeasurable consequence and world-wide scope. The United States had suddenly advanced to a new position among the great civilized nations. It had consummated its financial and industrial independence. From being, as judged by European standards, an agricultural country, occupying a secondary position as communities are classified, it had compelled recognition as a manufacturing country whose competition was evidently going to be dangerous and at a single bound it had advanced to the front rank of the profession.

This was all the more gratifying to republicans and protectionists—the terms are really synonymous—because it was precisely what the Democratic Free-Traders year after year, in and out of season, had been confidently, dogmatically, intolerantly declaring could never, never happen. They had insisted with a vehemence which admitted of no contradiction that the only way in which the United States could gain access to the markets of the world was by adopting the policy of Free-Trade. Commerce, they used to argue, is nothing but barter and if we won't buy other people's goods, they won't buy ours. Some attempt was made in the enactment of the Wilson Tariff bill at the application of these principles, with what calamitous result every one remembers, but while the Wilson bill killed trade at home it utterly failed to bring any compensating trade from abroad. McKinley was elected president, the Dingley Tariff was passed, and within a few months what the Free-Trade Democrats had declared to be impossible has been accomplished. The American descent upon those famous markets of the world to which only Free-Traders possessed the entry had been made.

Thus discomfited the Democrats sought to "save their face" by questioning the permanence of the commercial conquest. We had been favored, they said, by exceptional circumstances and next year's figures would show a difference. They do, but it is in the wrong direction to suit the democratic argument. It is true that the balance of trade in our favor during the fiscal year ended June 30, 1899, won't be as large as it was during the preceding twelve months, but that is due to the fact partly that, as a result of the good times, imports have increased and partly that our exported foodstuffs have been sold at lower prices. While the quantity has been about the same the value has been some fifty million dollars less.

That has no significance. The important thing is that our exports of manufactured articles have increased in the sum of \$15,000,000, thus showing that we are not only holding our foreign trade, but are actually extending it. The situation could not be more encouraging or the prospects brighter, and to what, if not the Republican administration, is the credit due?—Philadelphia Inquirer.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Washburn, S. D., says: "A little blotch about the size of a pea came under my left eye gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then disappeared altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood, the real cause of the disease—because the blood can be changed only by the action of S. S. S.; nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift's Specific Company, Atlanta, Georgia.

Miss Emma Berry is at Hartington, attending institute. Fred Berry is spending a part of his vacation in Carroll. The Misses Lizzie and Ella Williams left for Colorado, Monday. J. R. Manning returned from his Kansas trip Wednesday evening. Geo. Porter was in Carroll, Monday, having almost fully recovered from his accident. The circus at Wayne, yesterday did not draw a very large crowd from Carroll. Mrs. D. M. Andrews of Carroll, Nebr., is registered at the Garrison—Sioux City Journal, Aug. 12.

Quite a number of our citizens drove over to Dixon, Tuesday to attend the harvest picnic. The Carroll ball team defeated a poked nine at Dixon, Tuesday by a score of 12 to 4. Farmers are having great difficulty in securing help enough to handle their crops, and never in the history of Carroll has help been so scarce. The yield of wheat around here is not very heavy, running from 8 to 16 bu. Oats however seems to be a big crop and is yielding about 50 bu. per acre. The Peavey Elevator company began shelling their corn at this place Tuesday. They have in the neighborhood of 100,000 bu. cribbed here which means a long job of shelling.

BRENNA.

Mr. Worth sold hogs in Wayne, Monday. A large crowd assembled at Grace church Sunday. N. E. Baker and his brother were at the city Saturday. Miss Lucy Martin is visiting Bessie Bonawitz this week. Miss Mary and Lucy Brown went to Omaha last Saturday. Mr. Bonawitz and Coleman sold hogs in the city the past week. L. W. Brown was slight seeing in Strahan week before last. Leonard Gildersleeve will leave for Minnesota in about two weeks. Ed Doland and Lawrence Brown have agreed to disagree after this. Miss Lillie Brown of Strahan, will visit again in Brenna before long. Every body will attend the picnic at Wayne, Aug. 23 and hope to have a big time. Mr. Suhr broke his machine last Thursday while thrashing at Dennis Kelleher's. Marie Brown says there are tricks at all trade, and she has it down pat on going to Laurel. Fred Van Norman and Hansen have become general deliverymen from Wayne to south of town. Baker Bros. are thrashing every day and have had to refuse some who have asked them to thresh. Something has happened to the young man spoken of in the Democrat as he has changed hours. Mr. Wright and Mr. Madden went fishing last Saturday and came home Sunday night with fifty pounds of fish. Leonard Gildersleeve said he was sorry that he had to go away, but he said he would love her picture even though he didn't love her.

There is a young man in Brenna who was told that he was to replace a fence post or a gate post that was broken down in some manner or other. There were some people who overheard some others talking about something the other day. We all think they should not talk so loud after this. L. W. Brown's well has failed to keep Marshall Anderson in water, but Ed said to never mind, he would go up on the hill and see if he could get some. Two young ladies while out riding Sunday, in some manner each had a finger broken and a gold band put around them. We have not yet learned who mended the fingers. There were six young ladies out riding last Sunday who stopped to look at the new painting in Dist. 26. It looks pretty slick, but they said they have seen things look still slicker. John Van Skort who purchased a pony of H. W. Bonawitz, returned it last Saturday. H. W. says he has a team now and no buggy, and John says he has a buggy and no team. We were tired last week and had too much work to do so we could not have time to attend to any body's business. But we may say this is a farewell issue. We trust that there will be more to take up the burden.

Mr. Bonawitz had a dance last Saturday night. It was very well spoken of by those who were present and those who were not. They had a hot old time and everybody stayed until the wee hours of morning. Eli Bonawitz and family had a dinner a week ago Sunday. Mr. Worth and family, Anna and Rosa Lehmkuhl, Leonard and Abram Gildersleeve, Roy, Chester, Lney, Mary and Bertha Brown were all there. They remained during the afternoon.

After taking Dr. Kay's Lung Balm I found relief. I found your Dr. Kay's Kidneycura helped my kidney trouble which has been troubling me for a number of years. After taking only one box of your Dr. Kay's Lung Balm she was almost entirely relieved of her cough and she also found it made her sleep better. We find your remedies work like a charm. HOSKINS.

Born to Mrs. and Mr. G. J. Kaatz, a daughter. Mrs. Roheke and Miss Cowan were Norfolk visitor, Monday. Miss Agnes Shannon returned from Norfolk, the first of the week. Mrs. Blakeman, cousin to L. D. Stosley and Mrs. August Ziemer arrived from Iowa, this week on a visit. There is to be a meeting at Bega, next Sunday and perhaps every evening this week, did not learn what hour. A review of the financial, and industrial condition of Hoskins, never to the writer's recollection looked so well as at present. Messrs. Parson, Cline and Temple's health is quite poor at present. Sherman Weatherholt is having a serious spell of sickness at present; sciatic rheumatism is the affliction. Look where you will you can see no idle men in Hoskins. All are employed and many are looking for help that can not find it at any price. I wish we could say as much for the women and girls of Hoskins. See! Mr. Thos. Shannon arrived from the west this morning with 4 cars loads of cattle for feeding. Messrs. Shannon has about 100 head of fat, white faced cattle in their feed yards which will be heard from as the finest cattle on the market this year when marketed.
