VERY BEST in WAYNE at Prices that can't be matched elsewhere.

AT MAUTE'S SHOE STORE.

Local and Personal.

Dr. Ivory went to Omaha today.

Iowa Honey in bulk at Brookings.

Maud Tucker went to Sioux City on Tuesday.

Mrs. N. Grimley was a Sioux City visitor Tuesday.

The "White Star" coffee is the best at Sullivan's Grocery.

Henry Meyer shipped a car load of cattle yesterday afternoon.

L. S. Needham of Winfield had business in the city yesterday.

Joe Jones of Carroll, is enjoying a visit from his father of Red Oak.

Mrs. H. E. Griggs went to Minnesota this morning for an extended visit with relatives.

Robert Woods of Dakota City, an old friend of Druggist Raymond, was in the city a few hours Tuesday.

Phil Kohl will hold a public sale at his farm one mile west of Wayne on Monday, Dec. 11, at which time he will sell a lot of farm implements in addition to a lot of cattle, hogs and horses.

The Equal Suffrage club will hold their first meeting next Monday evening, Dec. 11, at 8 o'clock in the College chapel. A full attendance is desired as a report of the state convention will be made, plans talked over and a drill in parliamentary law conducted by Prof. Gregg. Come and bring your friends.

Dr. Love was here from Carroll yesterday.

Henry Ribbeck of Logan, was here Tuesday.

Mrs. Phil Kohl was a Sioux City visitor on Tuesday.

Hand-picked Navy Beans wanted at P. L. Miller & Son's.

Attorney Walsh was a Sioux City visitor on business Tuesday.

A very pleasant dancing party was held at the opera house last night.

Mr. and Mrs. Homer Wheaton were treated to a pleasant surprise party by a number of friends Tuesday evening.

Nothing will please your friends more than your photo. Let Craven make you some of his new styles for Christmas.

Remember the Hawkins-Roberts Comedy Company at the opera house all next week beginning Monday night. Admission 10 cents.

John Farman, a 17-year old boy, is in the hands of the sheriff of Stanton county, for attempting to wreck a passenger train near Hoskins one day last week. At a bridge two and one-half miles west of Hoskins, five iron planks were placed upon the track, and the passenger train being pulled by Engineer Carter was almost derailed. The boy admits the crime, his reason being that he wanted to "test eyes" with the company because one of its engines had set fire to his father's hay stacks several months ago.

See the new ad of Beeson Bros in this issue.

A fine line of nuts of all kinds at Brookings.

Duchess Peas by the peck or barrel at Brookings Grocery.

The largest and finest line of Medallions at Orth's store.

P. L. Miller & Son have the finest line of Chinaware in the city.

Tone up and renovate the system with Dr. Kay's Renovator. Druggists sell it.

Go to Craven's gallery and have some nice photos taken for Christmas presents.

The sweetest Candies and the best Nuts can be found at P. L. Miller & Son's.

For beautiful banquet lamps and most servicable Nickle stand lamps go to Orth's store.

Haviland, French and Japanese Chinaware for the holiday trade can be found at the Star Grocery. The finest line in the city.

Phil Kohl will sell at public auction a lot of cattle, horses and hogs at his farm one mile west of Wayne on Monday, December 11th. Terms made known at sale.

The merchants of Wayne are putting in an elegant line of holiday goods, but if you want real French, Japanese or Haviland China you should go to P. L. Miller & Son's.

Col. George W. Reed, late publisher of the Kansas State Journal, will deliver a lecture at the opera house Friday night, on behalf of the Woodmen of the World. He is an eminent speaker. Admission free and everybody is invited.

CHRISTMAS CANDIES. The Star Grocery has the finest line in the city. It wouldn't be Christmas for the little folks without Candy and Nuts and you can find just what you want at P. L. MILLER & SON'S.

The members of the Epworth League will give a "crazy social" at the home of Mrs. Duerig tomorrow evening. Doughnuts, pumpkin pie and coffee will be served. If you have no voice, you will miss a big time if you don't go; it will only cost you 10 cents.

That an ordinance should be drafted and passed protecting the interests of the businessmen of Wayne who have the wellfare of the city at heart and who contribute yearly in every way to that effect cannot be gainsaid. Such a measure can be none too stringent. If we are not right, we stand ready to argue the point on being corrected.

Now that it appears certain that W. V. Allen will be appointed United States Senator to succeed Senator Hayward it would seem that in a spirit of fairness Governor Poynter ought to state that while he has no voice in the matter, we should like to see Hon. Frank Fuller named as Allen's successor.

NEW COUNTY COURT HOUSE!

A Handsome Structure Costing When Completed About \$34,000, Including Furniture.

Can Be Seen for Miles in Any Direction Approaching Wayne. Contractors Have Done Well Their Work.

About a year and a half ago the question of voting bonds for a \$25,000 court house for Wayne county became a topic of general conversation and was agitated by citizens having the welfare of the county at heart, until the county commissioners decided to submit to the voters the proposition to vote \$25,000 five per cent. bonds for the construction of a building. At the general election in November, 1898, the question was voted upon and the bonds carried by a large majority. Later a large number of bids were filed for the purchase of the bonds, the sale finally being made to C. H. Imhoff of Lincoln, for \$27,450, a premium of \$2,450. The commissioners, upon the sale of the bonds advertised for plans and specifications for a building, and the number of plans submitted was surprising, and the contest was a warm one. After a careful examination of the plans and specifications, that of Orlin & Gulliver of Minneapolis, was accepted, and bids for the construction of the building advertised for, and on May 12th many propositions were submitted which the commissioners examined carefully. That of Rowles & Moors of Omaha, seemed to give the most satisfaction, and they were given the contract, and that the commissioners made no mistake is evidenced by the handsome structure which adorns the hill in the northwest portion of the city. That Messrs. Rowles & Moors have fulfilled their contract there is no doubt, and the handsome building stands as a monument to their skill as contractors. The interior of the structure in dimensions is 10 x 80. The basement is 10 feet in the clear to the ceiling. The second story is 12 foot ceiling and the 3rd story 16 foot ceiling. The building is solid brick, the outside being Omaha pressed brick, with portage extra, Lake Superior red stone trimmings. Through the courtesy of Supr. C. F. Ferrin of Minneapolis, we are enabled to give the following details: The interior of the building throughout is finished in oak with hard maple floor except the basement floor which is cement. The court room is on the second floor above the basement in the northwest part of the building, and is 45 x 58. Leading off to the south of the court room are the Judge's chambers and three spacious jury rooms. To the east is the office of the county attorney, also the office of county superintendent. In the southwest corner on the first floor above the basement is the office of county judge. To the north of the county commissioner. In the southeast corner is located the office of the clerk of the district court. These offices are all large and well lighted and

have large fire proof vaults in connection. The main corridor, which is on the first floor above the basement, is 20 1/2 x 35 with tile flooring, and is supplied with a drinking fountain for the use of the public. Two stairways lead to the basement which has cement flooring throughout. In the southeast corner is the farmers hall, a large and commodious room. In the southeast corner is the office of sheriff, and in the northwest corner is a suite of rooms for the janitor. On the east side of the basement in a hallway is located the ladies and gents toilet rooms, while to the rear end of the basement is the boiler room. The building throughout is supplied with water works and is heated by steam and will be lighted by electricity. In fact, about every convenience found in any city will be found here. The tower is about eighty feet high and adds materially to the appearance of the building. The new officers will feel like they have moved into a new sphere when the old court house has been vacated. The furniture has not yet been put in but we wish it will all be in place by the 16th of January. The Board has been called to meet the 15th of December, for the purpose of accepting the building providing it is ready as the contractors expect it to be.

WHY WOMEN ARE NERVOUS.

[BRITISH MEDICAL NEWS.] The frequent cases of nervous prostration or utter collapse of the nervous system under which women "go all to pieces," as the saying is, have caused much thought and investigation on the part of physicians.

Certain inorganic substances are well known to cause various forms of nervous diseases which are readily traced to the poisons producing them. Further research leads to the belief that alum is a prevailing cause of so-called nervous prostration, for the symptoms it produces on the nervous system after its absorption into the blood are very remarkable indeed. Experiments physiologically made upon animals by Orfila, Professors Hans Mayer, Paul Selim and others, show that alum frequently produces no visible symptoms for many days after its introduction into the body. Then follow loss of appetite and other alimentary disturbances. The alum powders may generally be distinguished by the lower price at which they are sold.

It is probable that many medical men are unaware of the extent to which salts of alumina may be introduced into the body, being under the impression that the use of alum in bread is prohibited. Alum, however, is still used surreptitiously to some extent to whiten bread, and very largely in making cheap kinds of baking powder. In families where baking powder is generally used great care should be exercised to procure only those brands made from cream of tartar. The alum powders may generally be distinguished by the lower price at which they are sold.

How About The Boys?

is your boy Fixed for Winter in the way of

Warm Clothing

As well as you wish to have him; if not call on us and let us fit you out.

We carry the Best Known Brands

of Boys and Childrens Clothing at Medium Prices.

JUST GLANCE AT OUR NORTH WINDOW

And see if this statement is not correct, and then come in and inspect the Goods.

Little Gents Vestee suits from 3 to 7 years, at \$1.25 to \$3.50.

They are Right

Yours for Good Values and Square Dealing **The Racket.**

W. A. Ivory, Dentist, over 1st Nat'l Bank.

Go to Goll's for excellent Mince Meat.

Smoked White fish at Brookings Grocery.

The Best Hog Fence on earth at E. M. Smith's.

If you want the Best, try Hanna Lump or Egg Coal. PHILLES & SON.

Leggripes and the worst coughs and colds speedily cured by Dr. Kay's Lung Balm. 10 and 25 cents at druggists.

For fattening hogs use Wilbur's Hog Food. It fattens quick, saves time and prevents disease. Ask Eli Jones for it.

ALL WEEK!

Beginning next Monday night the celebrated Hawkins-Roberts Company will appear at the opera house for six consecutive nights. A new bill will be presented every night. Admission 10 cents, reserved seats 10 cents extra.

My son has been troubled for years with chronic diarrhoea. Some time ago I persuaded him to take some of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using two bottles of the 25-cent size he was cured. I give this testimonial hoping someone similarly afflicted may read it and be benefited. -THOMAS C. BOWEN, Gloucester, O. For sale by Raymond's druggists.

REVIEW OF THE WAR

SECRETARY ROOT MAKES HIS ANNUAL REPORT.

Policy of Administration as to Cuba and Porto Rico—Operations of Troops in the Philippines—Recommendations for Reorganization of Army.

Secretary of War Root's first annual report is of exceptional interest in that it deals exclusively with great questions of military policy and organization.

The report begins with a recital of the progress made in reorganizing the army since the beginning of the year.

WOODVILLE COMMAND.

Woodville, Pa., Dec. 10.—The Woodville command, which has been in the hands of the late General Wood, is now being reorganized.

MEETINGS OF AFFAIRS.

Martin's address himself. John's address himself. The meeting of the House of Commons is an expert at golf.

END OF FOOT-BALL SEASON.

Michigan 17 to 6 in the football game played last night at the University of Michigan.

The football season of 1890 ends with a flourish. In the West as well as in the East, there is no team that can be considered a champion.

DAWES TELLS OF BANKS.

Great Increase in Deposits During the Fiscal Year. With respect to the condition of national banks during the year, as shown by the five reports required from the banks.

The number of banks in operation on Sept. 7, 1890, was 2,255, with a paid up capital of \$905,723,761.

SPARKS FROM THE WIRES.

New York Stock Exchange will erect a seven-story building to cost \$3,000,000. Emma Meyers, colored, was killed by Mrs. Anselmy, another negro, in New York.

Miss Lillian Paunceforte, daughter of Sir Julian Paunceforte, the British Ambassador to Washington, will be married at 22, Washington, on Thursday.

California increased its newly acquired superiority over its Pacific coast rival, Stanford. Another championship was snatched by the victory of Indiana over Purdue.

John's holiday, but all concerned are now delighted with the happy choice of Sir Julian himself having stated that he is very much of an American.

A question of precedence has been settled by Secretary Foster, the official architect at the White House. Occasionally the wives of cabinet officers are unable to take their place in the official line at the state receptions.

The Roberts case is an annoying one to both parties. The Pacific coast against allowing the Mormon member to hold a seat in Congress. Mr. Roberts contends that the constitution of Utah, accepted by the United States Government when the State was admitted, prohibited them who had plural wives from living with them and caring for them and their families.

Mr. Madden, the fourth assistant postmaster general, in his annual report tells how fourth-class postmasters sometimes neglect their duties.

Members of both houses of Congress are receiving largely signed petitions of sympathy with the Boers, which ask that Congress shall interfere to protect them from the ignominious policy of Great Britain.

The Pope proposes to make a New Year's address to nonagenarians of all countries. George Hitt, 7, Louisville, Ky., got the carbolic acid bottle instead of the whiskey and it slipped and landed a blow at Louisville, and it landed.

FOILED THE WOODPECKERS.

Ingenuous Scheme to Save Telegraph Poles and How It Worked. "Speaking of modern ingenuity," remarked a certain Superintendent of Telegraph Rooms the other day.

A month later he journeyed to Stafford Junction, and attached to the train was a carload of hollow iron poles, each painted to resemble ordinary rough red cedar.

A peculiar result was that the property of the mutilated birds showed bills without points, and consequently these birds are unable to do any damage. Every woodpecker along the line now wears his bill as rounded as a baseball and we experience no more trouble.

To have eaten apples that ripened more than 1,500 years ago, bread made from wheat grown before the children of Israel passed through the Red Sea, spread with butter that was made when Elizabeth was queen of England, and washed down with wine that was old when Columbus was playing barefoot with the boys of Genoa.

FOR EXPLOSIONS.

A correspondent of the Scientific American describes a remarkable phenomenon sometimes witnessed of the Upper Missouri River in South Dakota. About noon one day in January, 1893, a heavy report, audible for miles, led the writer's companions to remark that "another big blowout had occurred on the river."

TRAVEL ON LONDON BRIDGE.

It is computed that about 200,000 pedestrians and 20,000 vehicles cross London bridge every day. Each leads behind a little shoe leather or a little iron—just a trifle. But when litter and dust are added to these minute losses the whole fills between three and four carts.

THE GRASS TREE OF CEYLON.

Cases have been known of the friction of branches against one another producing a fire, which has eventually destroyed the tree, with its roots to the base of the trunk.

SHAKES AS MATTERS.

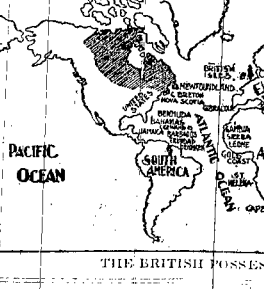

Snakes are the professional rat-catchers in the Philippines. Nearly all of the older bungalows in Manila possess what are called house snakes—huge reptiles, generally 12 or 14 feet long and as thick as a fire engine hose.

THE BRITISH EMPIRE.

HAS HAD GREAT GROWTH DURING THE CENTURY.

John Bull is a Past Master at the Empire Building Business, and a Land Grabber He has Never Had an Equal.

As a land grabber John Bull has no equal. Empire building is his business, and the enthusiasm and industry with which he absorbs territory is perhaps not altogether unshared with a few of those little boundary disputes which he at present has on his hands.

John Bull and the peaceful absorption of the whole of Beluchistan has taken place. Early in the century British settlements, mostly of convict, but now that great compact stands a self-governing but loyal colony of the peaceful Britisher.

One of the most interesting and at the same time valuable acquisitions to the crown of recent times was that of the rocky little island of Hongkong. Hongkong was the little sore spot which was first subjected to the ravages of English commerce.

not slow to follow. To just what extent the empire will continue to enlarge during the next year or two it is impossible to say, but judging from the present attitude of the colonial office and the increased armaments of the imperial forces, there may be a little map changing in certain portions of Africa which it is quite superfluous to point out.

In view of these facts and figures relating to the area and population of this gigantic empire at the present time it is of especial interest. The approximate population of the United Kingdom itself is only 42,000,000, while the area is a mere 121,360 square miles.

CURIOUS METHODS.

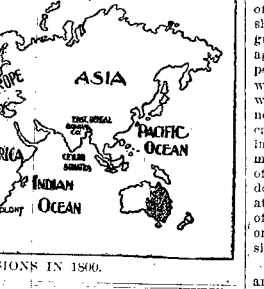

Some persons have peculiar ideas of how to cheer one up. A fond Brooklyn mother was endeavoring the other day to comfort her daughter, who had not received a letter for several days from her fiancé.

TRADE IN HUMANITY.

CANNIBALISM IN THE CONGO COUNTRY OF AFRICA.

Savagery of the Slave Traffic Victims—Two of the Native Tribes—Victims of the Slave Trade, and Choice Cuts Sold "on Foot."

Of the numerous instances that might be recorded in illustration of the organized traffic in human beings which exists, reference may be made to the conditions which hold in the district through which the Luango River passes. This river, which constitutes a considerable affluent of the Congo, empties into the latter river, on the south bank, at a point some 800 miles from the Atlantic coast.

In cases where a suspicion existed of an individual captives' intention or ability to escape, such unfortunate creature was doomed to be hobbled with one foot forced through a hole cut in the section of a log, while a spearhead was driven into the wood close beside the foot, rendering it impossible to move except at the expense of laceration. Other means to insure the prisoner's safe custody consisted in binding both hands above the head to the kingpost of a hut, or in binding the arms and plating the back into a brand, which was made fast to a branch overhead.

DO ANIMALS REASON?

A little girl fell off the dock at High Bridge yesterday. Her mother screamed for help. A stray Newfoundland dog responded to the call, rushed down the dock and, seeing the situation, jumped into the water, caught the girl and swam with her to the dock. Then a policeman ran down, swung himself over the dock and lifted first the child and then the dog to land.

Not long since an alleged philosopher proved to his own satisfaction, in a magazine article, that "animals do not reason." If this dog, now adopted by the police of the High Bridge precinct under the name of Dewey, did not reason, did the policeman who took him and the girl from the water reason? Brooklyn Citizen.

THE WAR SPIRIT.

"Yes, when Willie grows up we intend to get him a commission in the army." "Which branch of the service?" "Oh?" "Which branch of the service-in-fantry?" "No, cavalry, I think. He looks just beautiful on his rocking-horse."—Cleveland Plain Dealer.

HOW TO ABBREVIATE 1900.

The judicial department of the German empire has recently been called upon to pass on the proper abbreviation for 1900. The common abbreviation for 1899 is, of course, '90, but the German judges have decided that '00 would not do at all for the last year of the present century. Accordingly the year will have to be written out in full on all German documents.

ISLAND OF LAKES.

NEWFOUNDLAND IS COVERED WITH FRESH WATER, MOSTLY IN THE FORM OF LAKES.

It is a man's weakness that finally overpowers his strength.

Old Gen. (who knows the young man's salary) "If you and my daughter could live respectably and comfortably on \$20 a week, I should not object to the match. But you can't." "Young man, don't look any salary \$20 a week, but the \$200 a week you are talking about would make \$40.—Paris Messenger.

A MATHEMATICIAN.

One of the oldest cannon in existence has just been fished out of the bottom of the River Thames, near Twickenham. This archaic cannon is 28 inches in length and about four and a half inches in diameter, being made of bars of iron, strengthened with hoops of the same metal welded together.

ARCHAIC PIECE OF ORDNANCE.

Elephant on Battlefield. An old story is told of a battle on the plains of India in a standard bearer and carried on his huge back ever learned to say "No."

BOOK MADE OF MARBLE.

At the Strozzi Palace, in Rome, there is a book made of marble, the leaves being of marvelous thickness.

ELPHANT ON BATTLEFIELD.

At the Strozzi Palace, in Rome, there is a book made of marble, the leaves being of marvelous thickness.

SHAKES AS MATTERS.

Snakes are the professional rat-catchers in the Philippines. Nearly all of the older bungalows in Manila possess what are called house snakes—huge reptiles, generally 12 or 14 feet long and as thick as a fire engine hose.

TRAVEL ON LONDON BRIDGE.

It is computed that about 200,000 pedestrians and 20,000 vehicles cross London bridge every day. Each leads behind a little shoe leather or a little iron—just a trifle. But when litter and dust are added to these minute losses the whole fills between three and four carts.
