Next Monday evening the Wayne School board meets and there is some talk of the members submitting a proposition to vote \$10,000 bonds for a school building. It would be a good time for those interested in the matter to appear before the board and express their views. Many others coincide with us in our views. We mention this as we feel it a duty as one of the papers representing Wayne.

GEN. CRONJE.

One of the costliest actions of the war occurred at Vanderkloof Drift Sunday, Feb. 13. Gen. Kelly-Kenny, in his pursuit of Gen. Cronje, followed the latter's rear guard at Klip Drift and caught the burghers, to the Boers' anger at Klop Drift.

The British main body advanced to outflank the Boers' laager on the north bank of the river. Gen. Kelly-Kenny, having seized two bridges, found the Boers strongly entrenched on the north bank of the river.

It is reported that Col. Plimmer, who is serving in the rank of Major, surprised the Boers by a night attack on Crocodile Boers. The Boers were entrenched on a steep, thorny ridge.

Ex-Governor Hogg, of Texas, professes to think that "everything looks as though this would be a Bryan year."

While millions of dollars are being added to wages distributed generally throughout the country the Boston Herald selects two industries for a special and very interesting comparison.

The two great industries that lead the procession of prosperity are the cotton and the woolen, and in both of these the advances carry the wages of the employees beyond the boom rates of 1892.

The boom rates of 1892, it will be remembered, were slaughtered in cold blood by the wage-earners themselves, under various slogans of inflated rot aimed at capital.

A SMALL SPOT MAY BE CANCER.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm Walpole, of Washburn, S. D., says: "My left eye gradually growing larger, from a small shooting pain at intervals ran in all directions. I became greatly alarmed and consulted a good doctor. He pronounced it Cancer, and advised that it be cut out, but this I would not consent to. I read in my local paper of a cure effected by S. S. S. and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scar which soon dropped off and now only a healthy little scar remains where what threatened to destroy my life once held full sway. Positively the only cure for Cancer is Swift's Specific."

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

I am indebted to One Minute Cough Cure for my health and life. It cured me of a long trouble following grippe. Thousands owe their lives to the prompt action of this never failing remedy. It cures coughs, colds, croup, bronchitis, pneumonia, grippe and throat troubles. Its early use prevents consumption. It is the only harmless remedy that gives immediate results. L. P. Orth.

Lines upon horses are intended to guide them, and to set a valve against accident. While driving the reins should not be held so slack that it is difficult for a horse to know which way the driver intends he should travel, and he should not be compelled to find it out by a sudden, vicious, telegraphic jerk, supplemented by an uncomplimentary remark from the driver. This is a species of cruelty to animals which cannot be condoned too severely. The driver who understands holding a steady rein saves his wagon from striking any obstructions that may be in the road, supports his horse and allows him to travel easier. In a great measure it prevents stumbling, and should an accident happen to the vehicle, or should the horse become frightened, he can usually be brought under control in time to prevent any serious mishap.—Homestead.

DR. LEYDS' COUSIN IN CHICAGO.

Relative of the Transval Representative Working for the Boers.

Prof. E. M. C. Ezerman, a cousin of Dr. Leyds, European representative of the Boers, is in Chicago. He arrived yesterday to engage the services of local singers who are to take part in a pro-Boer meeting in Cedar Rapids. Several days ago he received a letter from his cousin, Dr. Leyds, in which the latter expressed his satisfaction at the sympathetic feeling evinced throughout the United States for the Boers. Prof. Ezerman says: "I saw Dr. Leyds shortly after the Jameson raid in The Hague, where we studied together. He has been stated that Dr. Leyds was born in the Transvaal, and had married a daughter of President Kruger. This is wrong. Dr. Leyds was born in Malaga, a city in the Netherlands East Indies, and remained there until 8 years of age. He attended school in Holland, and was introduced to President Kruger when the latter visited the Amsterdam university. 'Oom Paul' took a liking to the young jurist and offered him the position of state attorney in the Transvaal. Dr. Leyds accepted, and a few years later was made secretary of state. His wife is the daughter of a prominent Dutch family living in Amsterdam."—Chicago Record.

A Finnish Attack

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, next in a brief except propped by castles; No remedy helped him until he tried Electro Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at Raymond's drug store.

Cleaning House

The modern and most effective cure for constipation and all liver troubles—the famous little pills known as DeWitt's Little Early Bile Beans.

Mr. Bryan probably approved expansion because the territory of the enemy's country is already as great as he can stand.

Low Dennis Salem, Ind., says: "Kodol Dyspepsia Cure did me more good than anything I ever took. It digests what you eat and can't help but cure dyspepsia and stomach troubles. Orth."

A democrat these days is a person who believes in some vague and undereated set of principles supposed to have been discovered by Thomas Jefferson, but who votes for populist candidates for office.

E. B. Thirkield, Health Inspector of Chicago, says, "Kodol Dyspepsia Cure cannot be recommended too highly. It cured me of severe dyspepsia." It digests what you eat and cures indigestion, heartburn and all forms of dyspepsia. L. P. Orth.

A man never gets a nomination for office or catches a cold in exactly the same way.

Size doesn't indicate quality. Beware of counterfeit and worthless salve offered for DeWitt's Witch Hazel Salve. DeWitt's is the only original; an infallible cure for piles and skin diseases. L. P. Orth.

Texas occasionally lynches a White man, of course, but that isn't saying that Texas believes in race equality.

G. H. Appleton, Justice of Peace of Clarksburg, N. J., says: "DeWitt's Little Early Bile Beans are the best pills made for constipation. We use no others. Quickly cures all liver and bowel troubles. L. P. Orth."

No woman would marry a man just because he was rich, but she might fall in love with him because he was rich and then marry him for love.

L. T. Travis, Agent Southern R. R., Selma, Ga., writes, "I cannot say too much in praise of One Minute Cough Cure. In my case it worked like a charm." The only harmless remedy that gives immediate results. Cures coughs, colds, croup, bronchitis, and all throat and lung trouble. L. P. Orth.

Prof. Sumner, of Yale says 90 per cent of married people are unhappy. It is enough to make any man unhappy to live with a woman who would live with a man like that.

J. I. Berry, Loganton, Pa., writes: "I am willing to take my path that I was cured of pneumonia entirely by the use of One Minute Cough cure after doctors failed. It also cured my children of whooping cough." Quickly relieves and cures coughs, colds, croup, grippe and throat and lung troubles. Children like it and mothers adore it. L. P. Orth.

The starting out of the trusts is proceeding very deliberately under Prof. Hadley's plan, very deliberately.

To still pain, subdue inflammation, heal foul sores and ulcers, the most satisfactory results are obtained by using Ballard's Snow Liniment. Price 25 cents and 50 cents at Raymond's drug store.

You can be cheerful and happy only when you are well. If you feel "out of sorts" take Herbine. It will brace you up. Price 50 cents at Raymond's drug store.

Congressman Dooliver, the brilliant orator of Iowa, delivered an address on the Porto Rico Tariff Bill, Tuesday that captured the congress, galleries and all. It was a triumph of eloquent logic.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—S. D. Meakle, general merchant and farmer, Mattie Bedford county, Pa. For sale at Raymond's drug store.

Once or twice a year the good housewife has a thorough house cleaning. The house has been swept and dusted every day in the year, but the housewife knows that in spite of vigilance dust accumulates in cracks and corners, and is only to be removed by special effort.

It's the same way with the body. You look after it every day. You take all the ordinary precautions of cleanliness and health. Yet the body needs its special cleaning to rid it of the accumulations of waste and poisonous matter which invite disease. Doctor Pierce's Golden Medical Discovery, taken regularly once or twice a year, would save many a sickness. It purifies the blood, strengthens the stomach, and cleanses the body of poisonous accumulations.

"Last spring I had a severe attack of pneumonia, which left me with a bad cough, and also left my lungs in a very bad condition," writes John Russell Esq., of Great Cherokee Nat. Ind. Ter. "I had no appetite and was so weak I could scarcely walk. My breast was all sore with running sores. I got two bottles Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am able now to do very good work."

Dr. Pierce's Medical Adviser, in paper covers, sent free on receipt of 27 one-cent stamps to pay cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

WELL DRESSED MEN.

ORDER OF THE CITIES IN WHICH THEY MOST ABOUND.

An Expert Says Denver Leads the List, With San Francisco Second, Chicago Third, Washington Fourth, and New York Trails Along Fifth.

"I'd probably be discharged, mobbed and have all sorts of things happen to me if I said this over in the big town, but I can name you at least four American cities the men of which are better dressed than the men of New York," said a man who travels for a New York merchant tailor's supply house and whose territory is the whole continent. "I'll name them in the order of their standing as communities inhabited by the best dressed men: Denver, San Francisco, Chicago and Washington. How do I figure it? Just according to the rule of sight, that's all. I don't profess to know much about Egyptology, but I do know a well dressed man when I see him.

"Mind, I don't say that all of the men of those four cities are better dressed than all of the men of New York, but I do maintain and say any impartial man who knows the four towns mentioned as they are now will uphold the standing of that in ratio to their respective population. The men of Denver, San Francisco, Chicago and Washington are very much better dressed than are the men of New York. Of course this has been the case only in very recent years. New York was until, say, five years ago away ahead of all its rivals as a city of the best dressed men. At that time if you wanted to see hundreds of perfectly dressed and perfectly groomed men engaged in doing business all you had to do was to take an elevated train up town to the neighborhood of 10 o'clock in the morning and watch the men, young, middle aged and old, who boarded the train for the downtown financial district.

"Of course you'll still see slews of thoroughly got up men down in the financial district of New York, but not so many by 75 per cent as formerly. In show occasions, such as Easter Sunday afternoon, New York will still turn out a finely clad batch of men, but I'm not talking about show occasions now. In talking about men who are well clad year in and year out, and it is in this respect that New York has fallen into the 'also ran' list.

"When you meet up town in New York a genuinely swaggar man—not a flashily dressed man, but one who is thoroughly and properly rigged out from his hat to his shoes—you are liable to turn around to get a rear view of him, and then the fact is liable to be slowly borne in upon you that he is some member of a theatrical profession whom you have seen upon the stage. There are still plenty of flashily dressed men around New York, but a flashily dressed man never will be a well dressed man.

"The reason why the men of Denver are such a well dressed lot isn't entirely clear to me. It can't be especially because there are so many well off men in that town, because there are myriads of well off men in New York. Maybe it is because, in proportion to the population, there are probably more men with large incomes in Denver than in any city on the continent, not excepting Helena, that used to bear that distinction. You scarcely ever see a badly dressed or an over-dressed man in Denver. Shabby men there are in plenty, of course, but I don't call a shabby man a badly dressed man. A badly dressed man is one who, while having plenty of means to equip himself with a good make up, hasn't the taste to do it and therefore makes his appearance as a slouch—that's the word for it—slouch. A shabby man is simply a man who is on his uppers and makes no pretensions to the clerks and other men of very moderate incomes in Denver, men who can't afford to 'keep in the push' as far as correct dressing goes, don't make any effort whatever to tog themselves out in cheap, dismal imitation of the men with plenty of money; but, like the young woman in the song, 'they always dress in black.' The business men who run plants of their own, however, seem to pay just as much attention to the job of getting themselves ready for business on weekly mornings as they do to the task of arraying themselves for social functions or evening appearances.

"Easterners who have gone out to the coast have often commented upon the swiftness of the average well fixed San Francisco man in the matter of clothes. The San Francisco man with an income certainly gets himself up 'proper' as we say, and he's got the right kind of a make up for every occasion. Take the race tracks around San Francisco, for example. Every man who goes to the races out there goes in a regular racing rig, from paddock coat to fieldglass and from the top of his flat crowned derby to the soles of his 'dovus' boots, and so do the Frisco women for the matter of that. Another thing, I'll venture to assert that one out of ten men in San Francisco who are well fixed are a year or over rig out in evening clothes every night in the year, summer included. A great many more men of moderate incomes in Washington don evening clothes than men of similar incomes in New York. The men of Washington dress with singular neatness, many with notable elegance. The excellence of the Washington average, I suppose, is to be accounted for by the absence of a large 'showing class here.'—Washington Post.

To the People of Wayne and Vicinity:

Having purchased the Shoe Store formerly owned by Mr. Maute, I intend to make your town my future home, and ask you for at least a share of your patronage. You are familiar with our stock, and while we do not claim to know it all, nor to have the only shoes in town, we do claim to have as good a line of all kinds, and by FAIR DEALING, QUICK SALES and SMALL PROFITS we will try to please all. We are strangers among strangers, seeking an honest living, and all we ask is an opportunity to prove to you that we mean JUST WHAT WE SAY.

Our New Spring Goods

Are coming in and to make room for the next 30 days we will sell at a great reduction most everything in stock. WE ONLY BOUGHT the best part of Maute's stock (all the old stock being thrown out) so we have a nice clean line. However we have a few sizes in odd lines that you can buy at almost your own price. We bought this stock at a low figure and will give our customers the benefit of it. We carry but one line and will give our whole time and study to that alone. Your town deserves and can support a first-class Shoe Store. If you will do your part we will endeavor to do ours, always ready and willing to show goods. Come in and look our stock over, get our prices and acquaintance. Yours to please,

Oom Paul Kruger says there must be a mighty power behind the throne, when Sheriff Cherry showed up the other day with a distress warrant issued by Mr. Fritz Volpp and levied on two gallons of booze and one half box of cigars and one broken chair, and one water pitcher for personal tax. Mr. Fritz thinks Oom Paul would leave town and beat the county out of taxes. Oom Paul says he is willing to do anything, his friend Fritz says. The power behind the throne said some time ago Oom Paul can't get license next spring and must sell out. So Oom Paul sold out to please Fritz. If his Honor would ask Oom Paul to move out of town, would in the morning, also will Oom Paul run his friend Fritz a foot race, climb a pole a hundred feet high and put the boxing gloves on in the opera house for a ring of bologna and one quart of sauer kraut, and half the gate receipts to go to the Boers. OOM PAUL KRUGER.

Major J. M. Burke told a good story of his experience in helping a friend to get the girl of his choice. "He was a good fellow," said he, "but young and without much capital. The girl was a beauty and loved the boy, but the father (the same old irate father) objected and demanded that the boy show that he was capable of supporting a wife. This was in St. Louis about ten years ago, and the boy came to me with his troubles. "Never mind," said I. "I'll fix it up all right. By the way, how much will you take for your right leg?" "He looked at me as though I were crazy, but made no answer. "I'll give you \$10,000 for it," I said. "Will you take it?" "No, I won't," he said. "What do you take me for?" "Well, I knew the girl's father; he was a merchant, and I called to see him. We finally drifted around to talking about this young fellow, and the old man flared a little, stating that he wanted some one who could support a wife to have his daughter. "Support a wife?" said I, in surprise. "Why, he certainly can do all that. Only a few days ago he refused \$10,000 for a piece of property." "His own property?" asked the father. "Certainly," said I. "Who offered him the money?" asked he. "I did, and he refused it," I answered. "He claimed it was worth more." "Well, this made a hit, and no more questions were asked. The boy is doing well now and has a good family. I haven't spoken to the father since."—Washington Times.

\$15,000 in Premiums!

For the nearest correct estimate of the census for 1900 of your own state.

RULES:

The Weekly Bee will give away \$15,000 in premiums for the census estimate of the population of your own state as announced in the 1900 census. Think of it! \$15,000 in premiums! Each subscriber who gives on his own state the estimate of the population which he believes to be most correct. The first premium will be awarded to the one making the closest estimate of the state in which he lives. (That is, closer than the guess of any other subscriber on his own state.) For example, if the nearest estimate is made by a Nebraska person, which is \$4,000 from the 1900 census population of Nebraska, \$4,000 will be given to that person. If a man in Iowa were within 100 of the correct figure for Iowa, the Iowa man would get 1st prize and the Nebraska man 2nd prize.

In case of a tie the estimate received first will be awarded the premium.

All territories, D. C., and Nevada, are barred and their inhabitants may estimate Nebraska instead.

Each estimate must be accompanied by \$1.75, which is the price of the Omaha Weekly Bee, the greatest western weekly, and the Illustrated Bee, a splendid western weekly news magazine, both for one year.

NAPOLEON AT ST. HELENA.

His Indignation at Being Spied Upon by His Keepers.

One of the "Talks With Napoleon" quoted from Dr. O'Meara's diary in The Century records Napoleon's indignation at being spied upon by the British while living at St. Helena. "I understand," said he, "that an officer is placed here to report about me and to see me two or three times in the 24 hours and that they are talking of making him go into my chamber to see me if I did not come out. Any person," said he then, with considerable agitation, "who endeavors to force his way into my apartment will be a corpse the moment he enters it. If he ever eats bread or meat afterward, I am not Napoleon. This I am determined on.

"I know that I will be killed afterward, as what can one do against a camp? But what of that? I have faced death many a time. Besides I am convinced that this governor, this chief of jailers, has been sent out on purpose to poison me or put me to death some way or another or under some pretext by Lord Castlereagh.

"I have seen," continued he, "Gisians, Prussians, Arabs, Cossacks, Tartars, Spaniards, Persians, Turks" (here he enumerated a great many more), "and never in my life before did I behold so ill favored and forbidding a countenance or so down and horrid a look. He carries crime imprinted on his countenance. (Il porte le crime empreint sur son visage.) He is a man, to judge from his physiognomy, that one would select for the commission of any atrocious crime and as such has been selected out by your ministers, I suppose, on purpose to make away with me."

WON HIM A BRIDE.

The Reason Why One Young Man's Credit Was Established.

Major J. M. Burke told a good story of his experience in helping a friend to get the girl of his choice. "He was a good fellow," said he, "but young and without much capital. The Height of Storms.

Professor F. H. Bigelow furnishes The American Journal of Science with some of the results of the international cloud work for the United States. The penetration of ordinary cyclones into the higher regions of the atmosphere is slight. They are only two or three miles deep. Hurricanes are five or six miles deep. The anticyclonic and cyclonic areas are hardly to be considered as centers of motion except in the very lowest strata, since currents of air blow directly over them from west to east, even in the cumulus region of the Rocky mountain districts. The ordinary circulation theory does not hold good. In each stratum from the surface to the cirrus level about as much air moves north as south, for there are enormous counter currents, passing by each other at the same level and not over one another at different elevations. This puts a new aspect upon the entire problem of the general circulation.—Nature.
