### JUST 10 DAYS TO EASTER!

Don't wait until the last day, come in at once and select your Easter Hat and a Nice Tailor Made Suit at AHERNS.

Iowa Honey in bulk at Brookings. A new car of that Hocking Coal at E. M. Smith's.

A light snow fell last night, but it has disappeared. A full line of PULLEY BELTS, the latest fad, at AHERNS.

Just received! A fine lot of buggies and carriages at Eli Jones & Son's.

If you want the Best, try Hanna Lump or Egg Coal. PHILLIPS & SON.

Call in and see the new lines of bicycles at Otto Vogel's. They are beauties.

The weather yesterday reminded one much more of blustering March than spring weather.

Thos. Hennessy was called to Norfolk Saturday, owing to the dangerous illness of his mother.

The regular meeting of Logan Valley Camp No. 1076, M. W. A., will be held next Tuesday evening.

Will and Emil Weber returned from the Plate Friday where they enjoyed a pleasant week's hunt.

Jas. Hurst and W. O. Harmon ran a foot race at the fair grounds Thursday evening, which was won by Mr. Hurst.

The little son of Daniel Baier died last Thursday. The funeral occurred Friday from the Lutheran church southwest of Wayne.

The ladies of the Lutheran church will give a supper for the benefit of the church at the home of Mrs. H. Goll on next Thursday the 19th.

If you are needing anything in the buggy line stop in and look over the new stock of Moon Bros. and Henney work. They are the best, lines manufactured. Eli Jones & Son.

Easter service next Sunday at 11 A. M. Subject: "The Easter Joy," and the holy communion will be administered. In the evening the Sunday School will render, "Our Victorious Victim."

Dr. Sisson of Norfolk, will preach at the M. E. church next Sabbath. Services begin at 10:30 A. M. At the close of the morning service the Sacrament of the Lord's supper will be administered.

There is a call for a special meeting of the members of the M. E. church, to be held on Saturday, at 8 P. M. of this week. Dr. Sisson will be present and have charge of this meeting. He will also preside at the third quarterly conference on the same evening. All the members are requested to be present these services.

The price of corn is not so bad to think about unless you are obliged to purchase it to feed cattle. Some of the farmers who sold their corn a few weeks ago, now realize that they missed it from 5 to 10 cents per bushel or almost as much as a bushel was worth under the "good old Cleveland democratic times."

At the Presbyterian church next Sabbath appropriate Easter exercises will be held. The subject of the morning service will be: "The Angel of the Resurrection." In the evening members of the Sunday School, under the efficient management of Prof. Davies, will render a program entitled, "The Prince of Peace." This will consist of solos, duets, choruses, recitations, etc.

### A beautiful line of SILK WAISTS

at AHERNS. The county commissioners are in session today.

John Beckenhauer was up from Leslie yesterday.

Moon Bros. Buggies are leaders. At Eli Jones & Son's.

Superintendent Panabaker of Hartington, was a Wayne visitor yesterday.

The small grain crop is all in and farmers are busy plowing for corn planting.

When you want a Shirt Waist—one that fits and wears well you will find it at AHERNS.

Perry & Porterfield have moved into their new office in the Kruger building just south of Kruger's saloon.

Mrs. Andrew Gould went to Detroit, Michigan, on Thursday to join her husband, where they will reside in the future.

There will be a sunrise prayer meeting in the lecture room of the Presbyterian church on Easter Sunday morning at 7 o'clock sharp. Everybody invited.

Be sure to visit the New Millinery Parlors, north of Furchner, Duerig & Co's., before making your Easter purchase. We are prepared to show you the very latest in our line.

BAYER SISTERS.

The Sabbath School will have charge of the service at the M. E. church next Sabbath evening. Among the principal features will be a solo by Miss Lucy Buffington and addresses by Dr. Sisson of Norfolk and Rev. L. U. McKee of this city. The recitations and chorus singing will be of high order.

There were 174 new camps of the Modern Woodmen society chartered by the head office in Rock Island, Ill., during the month of March, 1900. In March, 1899, 139 new camps were chartered. In May, 1899, 181 new camps were chartered, which was the largest increase in camps in any one month of the society's history.

The farmers who went into partnership with the Farmers' Mutual Hall Association won't do it again very soon, as it has been a source of annoyance for several months. This they discovered when they were called upon to pay outrageous rates which they refused to do. Several of the members hereabouts employed an attorney at Wakefield and one at Emerson to defend them against any suits brought by the company, and they were assured by the attorneys that any legal proceedings could not be maintained. One of the attorneys sent word to his clients a few days ago that he had succeeded in making arrangements whereby he could settle claims for 50 per cent. of the original amount, and rather than continue the matter they began to pay their money to the banks authorized to receive the same, and were glad of the chance. About this time they received a letter from the other attorney in the case warning the clients against acceding to the advice of the other attorney and at the same time offering to release all claims against them for 25 cents on the dollar. Now the farmers have begun to feel that they have been the victims of a set of plunderers all around and are not clearly satisfied as to who it is that is endeavoring to rob them.

### Dr. J. C. Clark, Eye Specialist, will be at Wayne, April 12th, 13th and 14th.

To the Citizens of Wayne.

HARRINGTON & ROBBINS The Leading Clothiers.

## IT MUST BE

That we are giving the best values and selling the best goods for the lowest prices--if not the people wouldn't continue to come here. It's a common-sense proposition, and the people are not fools.

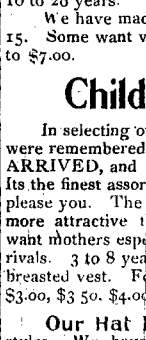

### Mens' Easter Suits.

There's no use trying to get out of it, the men folks are just as anxious to look their best on Easter morning as are the women folks. Your wife of course, will look her best, and she would be ashamed to have you along with your winter suit on. It doesn't cost you as much as you might think for to be just as dressy as your neighbor who spends \$35.00 for a suit. We don't sell any mens' suit for \$35.00, but will sell you a ready-to-wear suit of clothes for less than half, and the only difference is the place you buy it. The guarantee that is sewed in the coat pocket is a proof of economy, a proof of sound judgment. If you buy a suit of clothes here and change your mind about the pattern or style you can return it or exchange it. If you shouldn't find just the pattern you want we will return your money. How about it if its made to order, or if you had sent away for it? We have the latest styles and you can choose with very little trouble. Sometimes we have customers who do not buy at first, looking, but they come back. We suggest the \$9.00, \$10.00, \$11.00, \$12.00, \$13.50, \$14.00, \$15.00, \$16.50 and \$17.50 Suit for your Easter outfit.

### Boys' Suits.

When a boy gets so particular he won't eat bread and molasses for supper and wants hot pie with his lunch, he has arrived at the age when he is "ticklish" about his clothes. It's the particular boy—the boy that knows just what he likes when he sees it that we can always please. A large stock and choice patterns do this. The little prices marked on them make quick sales. For Easter we suggest the \$5.00, \$6.00, \$7.00, \$8.00, \$9.00, \$10.00 Suits. Made in double and single breasted vest and stylish patterns. Age 16 to 20 years.

We have made a special effort to please the boys in ages 15. Some want vest, we have them in choice patterns from \$7.00.

### Childrens' Suits.

In selecting our stock for spring the children were remembered. THE GOODS HAVE JUST ARRIVED, and we're really surprised ourselves. Its the finest assortment we've ever seen. It will please you. The prices in their lowness, are even more attractive than the suits themselves. We want mothers especially to examine these late arrivals. 3 to 8 years old made with fancy double breasted vest. For Easter Suit we suggest \$2 50, \$3.00, \$3 50, \$4.00, \$5.00 and \$6.00.

Our Hat Department has all the late styles. We have no old style hat to show you. You can feel safe in buying a hat of us. It will be latest style, and the price will be right.

Furnishing Goods! Here is where we excel for we buy only the best and latest styles in furnishing goods. You must go to an exclusive house to get the best in Neckwear, Shirts and Hosiery.

### Mens,' Boys' and Little Gents' Shoes.

We have the best and the latest styles, and prices at the lowest. We have had a score of years' experience in the shoe business. We can fit your feet and purse. Wide shoes and good wearing shoes our specialty. For your Easter outfit go to

KLINGLING MET HIS MATCH.

London Publishers Became Sarcotic
Over a Bill for Three Pence.

An amusing correspondence on a
small matter recently passed between
Rudyard Kipling and a London firm of
publishers.

The enclosed letter has just reached us
from America to Mr. Kipling. It was
reposted direct to him at Rotterdam.

Dear Sirs—Rudyard Kipling desires me
to acknowledge the receipt of your letter
of Nov. 30.

In forwarding you the letter from
America addressed to our care we
thought we were doing a courteous act.

Recent examination by Prof. J. O.
Bonney of bowlders containing dia-

monds from the famous "Blue ground
rocks" of South Africa leads to new
views of the origin of the gems.

Bonney considers that the diamond is
not produced in the blue ground, as
was heretofore thought, but that it
was, but is present in it as a derivative

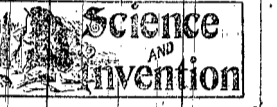

from older rocks. The bowlder crystals
were evidently water worn, and
consisted of garnetiferous rock.

The diamond and the garnet, Prof. Bonney
remarks, are brought into very close
relations by the discovery of two spec-

imens showing the diamond apparently
embedded in the garnet. The blue
ground in which the diamond and gar-

net bearing rocks are found, is a vol-
canic product.

Call for Republican State Convention.

The Republican Electors of the several counties of the State of Nebraska are hereby called to meet in convention at Lincoln, Nebraska, May 2, 1900, at 2 o'clock p. m.

- High Presidential Electors. Governor. Lieutenant Governor. Secretary of State. Treasurer. Auditor of Public Accounts. Attorney General. Commissioner of Public Lands and Buildings. Superintendent of Public Instruction.

It is recommended that no proxies be allowed, but that the delegates present cast the full vote of the delegation.

Webster Davis has resigned his office as assistant secretary of the Interior, in order that he may devote his time to speaking in aid of the cause.

The basis of representation is one delegate at large from each county and one delegate for each 100 votes or major fraction thereof.

Table with 2 columns: County Name and Number of Delegates. Includes Knox, Madison, Merrick, Nemaha, Pierce, Platte, Stanton, Thurston, Wayne.

It is recommended that no proxies be allowed, but that the delegates present cast the full vote of the delegation.

Admiral Dewey is up to his old tricks again. At Manila he caught the Spaniards in their pajamas and now he has thrown a shell into the Bryanite camp.

It is said that the missing link in this year's campaign will be that between the "price of wheat and the price of silver."

In the Third Congressional district there is strong talk among republicans of nominating Major J. N. Kellan for congress.

The democrats were not backward in howling at the Dingley tariff bill and the deficit caused by the immense amount of goods imported before the passage of the bill.

Just before the recent election in South Omaha, there was issued from democratic headquarters at 2422 N. street upstairs, a circular letter, setting forth the necessity for voting the city ticket for Bryan's sake.

Webster Davis has resigned his office as assistant secretary of the Interior, in order that he may devote his time to speaking in aid of the cause.

In trying to define the political position of Billy Mason and Bryan of Nebraska, the New York Times finally classifies them as "curiosities."

Wm. J. Bryan should at once make tracks for the east where they democrats are planning for his overthrow.

Republican weather has been largely in evidence the past week, and if it continues throughout the year Bryan will never carry Nebraska.

When things are "the best" they become "the best selling" Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years."

Cuts, wounds, burns, sprains and bruises quickly heal if you apply Ballard's Snow Liniment.

The Republican voters of Hoskins precinct will hold their caucus at their usual voting place at 8 p. m., Saturday evening, April 14, 1900.

The Republican voters of Strahan precinct will hold their caucus at their usual voting place at 8 p. m., Thursday evening, April 19, for the purpose of electing delegates to the county convention.

A caucus will be held at the Moses school house in Brenna precinct, Saturday evening, April 14th, 1900, for the purpose of electing delegates to the republican county convention.

Remarkable Cure of Rheumatism. Kenna, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month.

Mrs. Harriet Evans, Hinsdale, Ill., writes, "I never fail to relieve my children from fever at once by using One Minute Cough Cure."

These horrid fits of depression melancholy, low spirits, and sudden irritability, that sometimes afflict even good-tempered people, is due to the blood being permeated with black bile.

For coughs and colds there is no medicine so effective as Ballard's Horehound Syrup.

The Kentucky legislature will not erect a monument to the late Mr. Goebel. The Goebel election law is that "DeWitts Little River Risers always bring certain relief, cure my headache and never gripe."

Let us hope no more of the daughters of Philadelphia's mayor will marry off until Philadelphia has made another \$4.98 payment on her national obligation.

MADE EASY BY Cascarets CANDY CATHARTIC BEST FOR THE BOWELS

A LETTER FROM W. F. NORRIS.

March, Feb. 1, 1900.

Dear Mr. ... There is a very pretty custom in the army, introduced I believe by secretary of war Lamont, of standing with uncovered head when the flag is lowered at sunset. Last Sunday night I was impressed with this custom. The flag came down with the sun at the Centre Meade, the officers standing with their heads watching the descending flag with the band playing "The Star Spangled Banner." While watching this scene the thought was presented to me, what are we doing to make the flag respected in these islands? Unless the American flag becomes an object of regard and respect to the natives our occupation of the Philippines is a failure. It matters not what else may occur. The American people will not be satisfied unless our occupation results beneficially to the people of the islands. The heart of the people is right, whatever politicians and military officials may do, the American people mean right, and if they understand the conditions will insist that right be done.

In the case of this archipelago, merely material success will not satisfy them. Our occupation of the islands may open up trade, and have a financial success, but if it results in the debasement of, or more than that, fails to benefit the native population, then the people will regard the whole matter a failure.

The late General Lawton set a most laudable example as to the treatment of the natives. He would never allow them to be called Niggers in his presence. He spoke well of them and apparently thought well of them. I was told yesterday by a civilian employee who had been with him a good deal, that he would not allow his hats under hardy any provocation, even when such hat had been used by hostiles for shelter, to be burned. While many differ from him in this as a matter of military necessity, yet it shows his abundant consideration for the native, and General Lawton, as the best soldier and preeminently the military hero of the Philippine war, could afford to be lavish in his sympathy for, and earnest desire to do, perhaps more than justice to the native in hostility to us. The natives appreciated his sentiments towards them and I have been told that those living in the northern part of the island regret his death. I was somewhat surprised to hear that as we took it for granted that the Philippines, that is, insurgent Philippines, would exult in his death, as that of their most formidable antagonist, but my informant, a young fellow from our state, and who has seen good deal of the country and recently returned from a long expedition, assures me the reverse is true, and that the people he came in contact with are sorry he was killed.

Gen. Lawton was brave to rashness. He was always a most conspicuous figure on the battle field, it seemed certain that he would sooner or later be killed or wounded. The circumstances of his death, as I have since heard, are slightly from the first accounts, he was standing in an exposed position, a fair target for the enemy, and as he stated presented a very conspicuous mark. He was a tall man, some six foot four or five inches, and rode the largest horse in the islands, and on his head wore a shako, the largest head known to the service, so that when with the troops on horseback he could be seen if any man in the command was visible. At the time he was shot he was dismounted, his side had urged him to withdraw as it was evident that he was the aim of several of the enemy, as he was standing. In reply to their caution that he would be shot, he answered "I guess not." Shortly after it was noticed that his lips become compressed and his face white and he said "I am hit." Where? asked those around him. "In the lungs," he answered, and almost immediately expired, and thus perished the man who will be known in the future as the hero of the Philippine insurrection.

While as yet what the development of the islands will produce in the way of industries, is a matter of future experience, but there is one occupation that thrives exceedingly. The saloon should from appearances be better property than any gold mine, that the Philippines contains. There are no restrictions on the saloon of Manila. No checks or limitations embarrass the saloon keeper. Such a thing as screens on the windows and closed doors are unknown. The most conspicuous place of business on the most fashionable street of the city, and I may say the best patronized, is the saloon. I would correct the above statement, to be more accurate, and say as conspicuous a place of business as any of the city, but will make no modification of the statement as to patronage.

The place is owned, I understand, by a native, who ought to be a man of wealth and substance as very much of the city's money goes into his pockets via the medium of the U. S. Army. The situation in the North seems, at this writing, to be in a somewhat unsatisfactory condition. For some reason there is a good deal of dissatisfaction owing, I am informed, to the fact that the native officials have been put in place of those who are initial to those over whom they have been placed. The organized resistance probably ended, at any rate for the present, but the difficult thing to do is to the guerrilla, or irregular forces, that are being kept up by the remnants of Aguinaldo's army. It has been reported that the country, and he is now in Hong Kong or some other place, but I think there is a possibility of his being somewhere in the Philippines.

The other day I noticed several Caracoas going along the road laden with broken shells. These pieces of iron were about the last remnants of Spanish sovereignty in these islands. A man has been in the city a long time buying up the Spanish guns, mortar shells and material convertible into old iron. The party alluded to, represents a large firm from the States, I think New York.

There is something pathetic in witnessing the past grandeur of the old Castle making its final exit in the shape of several loads of old iron. I have considerably changed my impressions of the Spanish character since my arrival in this country. There is no evidence like that of persistent observation. What few Spaniards I have met are, to my acquaintance with them, gentlemen in the true sense of the word, and while I know but few personally, I have no reason to think otherwise of the Spanish citizens of Manila in general. I think in the United States we have had very exaggerated ideas of their vices, and generally underestimate their virtues. The Spanish soldiers are still seen about the Alphonso, a large steamer, sailed for Spain lately, and I suppose those left are waiting transportation home.

The Government proposes to establish a regular line of steamers across the Pacific, to leave San Francisco every ten days or three times a month. I don't know that it is yet decided as to the exact time. I noticed in the paper some time since that it was proposed to build two or three steamers of 9,000 tons each, and establish a line between Seattle and Manila. I hope they will for when I have occasion to cross or sail on the Ocean again I want the largest ship that floats the sea. The larger the ship, as a rule, the less the motion and the less the sea sickness, and that I am safe from sea sickness there should be no motion at all, the sea must be as calm as the proverbial dam. They say that the very large ships out the waves in such a way that there is hardly any pitching or rolling so that when the 9,000 ton steamer fleet is on the sea we will expect all the world to come to the Philippine islands. Yours very truly, W. F. NORRIS.

MAN IS DANGEROUSLY SHOT.

Cass Christman of Waterloo, is Shot Twice by One Hudson Feather.

WATERLOO, Neb., April 7.—(Special Telegram.)—At 7:30 o'clock this evening Hudson Feather shot Cass Christman twice, once through the left hip, the ball passing entirely through the hip, then through the testicles and lodging in the right leg. The doctor has not been able to locate the ball. The second shot was a little lower down and went entirely through the right limb. The shooting was done with a 38-caliber revolver, and while the parties were about three feet apart. Both men live on the Elk Horn river, a mile south of town.

Hudson Feather lives in a small shack on the river bank and as there was no road to his place, Christman allowed him to cross through his place, also allowed him to use his boat and let his cow run in the stalks and be trampled in in every way possible he could. Lately Christman has had to be away from home, working at his trade as a plasterer, and as there was no man around the place, Mrs. Christman had to carry water for the cattle running in the stalks. She asked her husband to send word to Feather to take his cow out, as she could not carry water for it. This seemed to have angered him, and when one of Christman's animals got out Feather looked it up. When Louis Zwybold, Christman's helper went after it Feather told him he ought to pay him something for it, but gave it up without insisting on payment of any amount, but told him to tell Christman to come down and get his boat. When he returned to the house and gave Feather's message both Mr. and Mrs. Christman walked down to get their boat, intending to tie it up further up the river. When they reached the boat Feather was apparently waiting and expediting them. One word brought on another, and Christman turned to go home, when Feather shot him.

The wounded man walked probably a block before he fell to the ground exhausted. Hudson Feather came to town and gave himself into the custody of Town Marshal Campbell, saying he had shot a man in self-defense. He says that when Christman started for the house he thought he was going for a gun and that he had better shoot while he had a chance. Hudson Feather bears a bad reputation, having run away with another man's wife about a year ago, and six months ago he threatened to shoot Arthur Blake when he refused him permission to cross his farm in getting to the main road. Mr. Christman, on the other hand, is one of the most quiet men in the vicinity and bears the best of reputations. He moved from Omaha here about three years ago and is well known here. The injured man is resting easily and the doctor has some hopes of his recovery.

Hudson Feather will be taken to Omaha tomorrow, as there is talk of lynching.—See.

On Monday the British forces in Africa sustained another severe defeat. Gen. DeWitt of the Boer forces engaged the British in battle at Muckfontein, killing and wounding 900. He also captured 900 with twelve wagons. Five Boers were killed and nine wounded. "I used Kodol Dyspepsia Cure in my family with wonderful results. Program.

The first literary meeting of the Federation of Womens Clubs will be held at the home of Mrs. Frank Skeen on Tuesday evening, April 18th. This meeting is open to all women whether they are club women or not.

PROGRAM. Quartette, Mesdames Blair, Welch, Wilson and Norris. Inaugural address, Mrs. Burdick. Recitation, Mrs. Elliott. Paper, "What the 19th Century has done for Women." Mrs. Pie.

Notice to Voters. Division, Leader, Mrs. Warnock. Piano solo, Mrs. Dearborn. Reading or recitation, Quartette, Mesdames Blair, Welch, Wilson, Norris.

To the voters of the School District of Wayne: The undersigned members of the Board of Education desire to say that two plans for providing more school rooms are discussed. 1. The building of a new building as contemplated by the proposition to issue bonds for \$10,000.00. 2. The erection of an addition to one of the present buildings at an expense of from two to three thousand dollars and when necessary, an addition to the other building at about the same expense.

Either of these plans would meet the requirements of the district. The school board has not adopted either plan nor asked for one in preference to the other. The necessary petition to vote bonds for \$10,000.00 being presented the board felt it to be its duty to call the election.

The erection of a new building would require the purchase of a new site and increased expense for janitors and heating apparatus, and decrease the efficiency of supervision of the schools. We therefore believe it would be more economical and for the best interest of the district to build an addition to one of the present buildings. April 9, 1900.

W. H. M. S. Convention.

The sixth annual convention of the W. H. M. S. of the Norfolk District convened in the M. E. church Tuesday evening. Dr. Sisson and Rev. G. H. Main of Norfolk, were present and took part in the meetings. The address of Rev. Main was one of the best Missionary speeches ever delivered before a Wayne audience, abounding in argument, appeal and pathos. It evidently was well thought out and delivered in a style that was pleasing. The ladies met at 9:30 a. m. for business. Mrs. Esplin of Randolph being elected president for the next year. Wednesday afternoon Miss Sullivan of Bemer, read a paper on "Methods for Arousing Missionary Zeal" it was a splendid effort on the part of the writer and was enjoyed by all. This was followed by an inspiring address by Mrs. Newman of Lincoln, lectured on Honolulu. The writer is unable to give anything like an adequate description of the lecture. It was full of facts, rebuke, warning, interest, instruction, etc. Mrs. Newman is one of the most remarkable women of our land. At present she is engaged in writing a report of facts as she found them in Honolulu and expects to present them to President McKinley.

The first meeting of the Wayne High School Alumni will be held at the home of E. Phillee on Friday, April 20, at 8 o'clock. We desire a full attendance. EDWARD PHILLEE, Pres.

The Porto Rican tariff bill passed the House by a vote of 181 to 153, yesterday, and will undoubtedly receive the signature of the President today. In due time it will be recognized as a wise measure though for the present factionism will rant about it. But they will be obliged to reverse their judgment and admit it a good thing, just like they have had to admit that a republican administration was followed by prosperity.

Republican: Mrs. Frank Ballinger was in the city the past week—a guest at the home of the editor of the Republican. Agnes Coleman who a short time ago underwent an operation at St. Joseph's hospital in Sioux City, and whose life was despaired of, is now recovering nicely. A report was current on our street yesterday, that the Altona blacksmith had been given 24 hours in which to get himself away from that vicinity, and he was preparing to obey the mandate. He is charged with being too loving to the wife of another. Life Sintonon, W. L. Richardson, Fay Arnold, Jenn Christensen, and several others whose names we have not learned, started during the early part of the week for Pocahontas county, Iowa, where they expect to work on the new grade of the Rock Island railway.

"A Bit Shaky."

A man looks at his trembling hands and says: "I feel a bit shaky this morning, and shall need a brace." His real need is not nerve stimulant, but nerve strength. Dr. Pierce's Golden Medical Discovery gives strength to the nervous system. It does not brace up, but builds up. It is entirely free from alcohol and from opium, cocaine, and other narcotics usually found in so-called nerve medicines.

Accept no substitute for "Golden Medical Discovery." It cures. David Duggins, Esq., of Jones, Ohio Co., Ky., writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day."

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for book bound in paper, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.
