and this holds out the im monions, and this holds out the promise of victory. The state conven-lion last Tuesday indered the national and state administrations and declared in favor of the renomination of Gov-ernor Roosevelt and President McKin-

ley.

The platform declares that the administration of Wm. McKinley found the country, after four years of democratic government, paralyzed as to its industry, weak in trade and commerce

That was their only oure, as the republicate of New York correctly assert, for these distressing conditions. The republicate on the other hand, proposed a plan that would open the mills and give employment to labor, together with the maintenance of a sound currency.

The people accepted the republican policy, and results have splendidly vindicated their judgement. The advent of a republican administration brought with it a revival of industries, an increase of commerce and ademand for labor. It gave confidence to capcount at the an increase of commerce and ademand for above. It gave confidence to capital and invigorated enterprise. Every hat to provide be delegated by the delegation, but it the several and invigorated enterprise. Every assurance the republican party gave the delegation, but it the several and invigorated enterprise. Every assurance the republican party gave the delegation but in the several conditions of the country. It is a several and commercial conditions of the country of the condition of the country of the condition of the unition has been introduced and its financial conditions of the condition of the nation has been strengthened and its financial conditions of the unition has been imprecedented, while the condition of the unition has been introduced in the condition of the unition has been introduced in the condition of the unition has been introduced in the condition of the unition has been introduced in the condition of the unition has been in the condition of the unition has been introduced in the condition of the unition has been in the condition of the unition that the condition of the unition has been in proceedents of the unition that the condition of the uni strengthened and its financial condi-tion immeasurably improved. Mil-lions of people who in the period of depression under democratic govern-ment were unable to earn enough to obtain the necessaries of life have since had well paid employment. Cap-tial that was idle then is now safely and profitably invested. Every portion

of prosperity than it has ever before known.

And this is nbtall, as the republicans of New York say under the administration of William McKinley the prestige of the United States has notably advanced. Our diplomatic successes attest this. This country exerted a greater inducine at The Hague than any other. No other government could have brought about the agreement respecting the open door in China. In all directions the influence of this republic is stronger than ever before in its, history and is steadily growing. While adhering to the traditional polloy of keeping out of alliances and entanglements, the United States is recognized as a power whose voice in the affairs of the world must be respected.

must be respected.

These are facts and conditions which should command the thoughtful attention of all American citizens. They distinguish the present administration from all its predecessors and they make a powerful appeal to national pride and patrotism.—Bee.

COMPARISON

Will-Tell the Tale!

All this loud talk about "the right place to trade," "superior ouying qualities of your dollars," etc., does not amount to a row of oins unless the talk is backed up with the right kind of goods at the right kind of prices. It has been our experience that most "loud talk" is backed up with nothing but "blow." We earnestly request all prospective buyers to compare our Prices, our Styles and our Goods with what our "loud talk" competitors are offering. Bring in your samples from Steel, Roarbuck & Co., Montgomery, Wind & Co, and like concerns, bring in their catalogues, and if we can sell you BETTER GOODS for the SAME or LESS MONEY than you pay them for STUFF, you may use our head for a football Comparison will tell the tale. THE STONE OF GRATITUDE.

As Old Roman Legend That Treats of the Topus.

The topus is called the stone of gratitude, and the old Roman books record the following Jegend from which the stone derives this attribute:

The blind Emperor Theodosius used to hang a brazen gong before his palacy gates and sit beside it on certain days, hearing and putting to rights the grievances of any of his subjects. Those who wished for his advice and help had but to sound the gong, and mimediately admission into the presence of Cæsar was obtained.

One day a great snake crept up to the gate and struck the brazen gong, with her coils, and Theodosius gave or ders that no one should molest the

Causes bilious head-ache, back-ache and all kinds of body aches. Spring is here and you want to get this bile poison out of your system, easily, naturally and gently. CASCARETS are just what you want; they never grip or gripe, but will work gently while you sleep. Some people think the more violent the griping the better the cure. Be careful—take care of your bowels—salts and pill poisons leave them weak, and even less able to keep up regular movements than before. The only safe, gentle inside Spring cleaner for the bowels are sweet, fragrant CASCARETS. They don't force out the foecal matter with whole 30 feet of bowel wall, strengthen the muscles and restore healthy, natural action—buy them and try them. You will find in an entirely natural way your bowels will be promptly and permanently put in good order for the Spring and Summer work.
