Montgomery started for Norfolk yesterday but some one telling him that he was on the wrong train, he stepped off the train just in time to notice his mistake, but the train went right along without him. Several very humorous motion pictures will be shown at the moving picture exhibition next Wednesday evening, June 20, at opera house. It would be interesting to turn back to the platform and personal promises of the original popocratic candidates in Nebraska and see how many of them have been fulfilled. The popocrats gained office on the strength of these promises, but have not made many of them good.—Bee. Mr. and Mrs. N. Grimsley of this city, and Mr. and Mrs. Haskell of Wakefield, leave tomorrow for Philadelphia to attend the republican national convention. Mr. Haskell is a delegate and Mr. G. an alternate. The former will spend the summer in the east and Mr. and Mrs. Grimsley will visit at Washington and several other cities before returning home. E. E. Gurney, cashier of the Laurel State Bank, recently purchased a controlling interest in the Merchants State Bank at Winside, which on the face of it looks as though he and his family might ultimately move from our midst. He informs us, however, that under no circumstances will they leave inside of six months or a year. We sincerely hope that he will see his way clear to remain in Laurel permanently. Mr. Gurney has long been one of the leading business men of Laurel; an indefatigable worker, he has toiled incessantly for her upbuilding, and would be greatly missed should he go away. In Laurel what E. Gurney says, goes; and far be it from us to wish to see him leave; but as we have said before when a man outwows his position in the business or professional world he is bound to move on, and it is right and proper that he should. Mr. Gurney has earned for himself this larger place, and if he sees it his duty to go and fill it we can but wish him God-Speed. We have but to say that if Winside gets E. E. Gurney she will have gained a citizen one of the best and most enterprising business men in northeast Nebraska; a man who will simply do a day's work, and who will stand during the day for the inspiration to those above.

There were 165 death claims allowed at the May session of the board of directors of the Modern Woodman society. The total paid out was \$31,500. Mrs. J. E. McFarland and children were arrivals from Ohio on Saturday and will visit for some time with her parents, Mr. and Mrs. W. O. Gamble. When in the city call at the Corner Restaurant for a first class meal, lunch or anything in the short order line. Everything fresh and up-to-date. O. P. BEZSON. A very distinct rainbow was noticeable for several minutes in the northwest at 20 minutes after nine o'clock Tuesday night, the colors being plainly visible. The Modern Woodman society paid a total of \$1,749,304.50 in death claims from January 1 to May 25th of the present year. This amount was paid in settlement of 928 death claims of members. The HERALD wishes to call the attention of our readers to the splendid price that is being paid for wheat in Wayne this week which is 58 cents or two or three cents higher than is being paid in the surrounding towns. A regular meeting of the Modern Woodman will be held at the Lodge room Tuesday June 13th at which time a committee from Pender will be here to talk over the matter concerning the annual picnic. Members requested to be present. Last Friday the spring term of the college, which has been a most successful one, closed and during the day following students boarded every train bound homeward. The summer term began Tuesday and all trains brought in students from all parts of the state. It now looks as though the present term would outpace previous terms in the matter of attendance, while Prof. Pile will leave nothing undone to make it a successful one for the students. Mr. and Mrs. C. H. Bright left for Grand Island this state where they expect to visit Mrs. Bright's mother this week. They will go to Wayne next week where Mrs. Bright is to teach this summer in the college, and Mr. Bright is going to school. They will return to Winside again in the fall and take up the position they held last year in the schools here. They are first class teachers and Winside is lucky to be able to keep them. Ed Jones brought two as fine hogs in town Tuesday night as was ever marketed here. The two together weighed 1120. One was about 100 pounds heavier than the other which would let it weigh about 650. They looked like cows and came very nearly bringing the price of cows. They were complexioned.—Winside Tribune.

Mr. Crane is looking well. The reasons for his long continued absence are not known to the public.—Bee.

Miss Jessie Austin entertained a few friends on Wednesday afternoon. Those invited were Misses Maude and Pearl Reynolds, Mason, Tucker, Webber, Armstrong, Britton and Sullivan. Mrs. C. A. Chace and Mrs. E. R. Chace entertained the ladies of the Aid Society on Wednesday afternoon. For amusement they had a public auction at which most everything imaginable was sold. At the close of the auction the ladies all did justice to the elegant "Papa Lunch." Each lady took her plate and went to the dining room and helped herself. They left for their homes about eight o'clock having all spent a merry afternoon. Garfield Hoguewood came very near death's door Saturday morning. He was working at Sberbah's brick yard and was cleaning clay off of a wheel just before starting up the brick making machinery. Mr. Sberbah, believing everything was clear, started the machinery but, fortunately, thought of what he was doing, at once threw the machinery out of gear, for fear the boy was not through, but not before the belt had carried him down on to the wheel, where one of his arms was drawn up between the belt and the wheel and started his head into the same position. Fortunately the machinery was stopped just in time to prevent a fatal and horrible accident. As it was the boy was severely bruised and sprained. J. W. Bartlett of this place and Levi Kimball of Wakefield were at Grand Island last week attending commencement exercises and taking part in the meeting of the directors of the college. The Northeast Nebraska District C. A. R. Reunion will be held at Pierce, July 10, 11, 12, 13, 1900. The program as arranged is a good one. The Speakers of National reputation are to be present. F. are requested to meet at the hall promptly at 10 o'clock Sunday morning June 17 for the purpose of attending memorial services at the Presbyterian church in a body.—Republican.

The evening was very pleasantly spent by those present and an adjournment was not taken until a late hour.

Ten crowded coaches of excursionists left here Sunday morning for Riverside Park near Sioux City, each town along the line contributing about a coach load. It was a happy throng and there was an amount of every description of entertainment. It seemed more like a party than simply a day's outing. The day was a success and it was a pleasure during the day to have the inspiration to those above.

It was Craig's Indian Medicine that I took to relieve rheumatism, so says Charles Fink, a young prosperous farmer and stockman living five miles northwest of Wakefield. One year ago I was suffering fearfully in my bones, and limbs. I could hardly follow a plow and worked in awful pain all the time. Could not sleep at night. I tried a great deal of medicine but received no good till I took Craig's Indian Medicine. I am delighted beyond expectation for my health is restored, my back and kidneys are sound and I feel as well as ever I did in my life, and it is my duty to recommend this medicine. Respectfully, CHAS. FINK, Wakefield, Neb. Office and Laboratory, Wayne, Neb.

Republican Judicial Convention. The republican electors of the several counties of the Ninth judicial district of Nebraska are hereby called to meet in convention at Norfolk, Nebraska, June 21, 1900, at 2 o'clock p. m. for the purpose of selecting in nomination a candidate for district judge of said district and the selection of a judicial central committee and such other business as may properly be considered.

The basis of representation is one delegate at large from each county and one delegate for each one hundred votes and major fraction thereof cast for Hon. M. B. Reese, for judge of supreme court, at the election held in 1899. The several counties will be entitled to delegates as follows: Antelope, 10; Knox, 12; Madison, 17; Pierce, 8; Wayne, 10.

It is recommended that no proxies be allowed but that the delegates present at the convention cast the full vote of the delegation.

By order of the central committee of the Ninth judicial district of the state of Nebraska. JOHN R. HAYS, Chairman. JACK KOENIGSTEIN, Secretary.

It would be a great deal better for Popper if the democrats defeat him than to wait and have the republicans do it at the polls. During the present generation of voters the democratic party has been tried at the helm and always found wanting. Will the people be foolish enough to try it again? Not Yet!

Just watch John R. Hays closely until election day and you will notice votes turning to him that have not voted the republican ticket for several years. The eyes of those men have been opened.

Congress adjourned at five o'clock on Thursday, June 7, concluding with one of the most picturesque scenes ever witnessed in the hall of representatives, all partisan rancor and party passion having been laid aside.

When fusionism runs up against republican organization in Nebraska this year, they will begin travelling with breakneck speed for their kopies from which they will be dislodged with the onward advance of republicanism and prosperity.

The demagogues known under the name of fusionism has about run its course in Nebraska, and with fine crops and gloomy republican victories this fall the people will show the outside world how to get up a thoroughly genuine celebration.

The democrats and populists didn't do a thing but defeat the anti-trust bill in congress after the howl they have made about trusts. But one republican voted against this bill. What do you think of popocratic hypocrisy now? Doesn't it smell pretty-loyal?

McKinley beat Bryan in Oregon in 1896 by a majority of 2,117. The republicans on Monday last carried the state by over 8,000 majority. The same ratio of increase will—the Journal forbears. Statistics and mathematics are dry subjects for hot weather discussion. Besides a popular majority of 2,400,000 for McKinley next November would be too brutal for anything.—Lincoln Journal.

THE SIDE THAT IS BOTH SIDES.

Expansion a Vindication of the Protective Policy of the United States

It is time that there was a revival of clear thinking on the moral aspect of Protective duties. It has become quite too much the fashion among the mere expediency politicians bearing the republican name to talk or rather not to talk, to be quite silent, as if the historic Protection principles of Jefferson, Hamilton, Jackson, Seward, Morrill and Chairman McKinley of the Ways and Means Committee, to say nothing of the stainless memory of Dingley, had been repealed by the circumstances of greater America. But principles can no more be repealed by circumstances than mountain ranges can be blown down by wind.

Expansion is a vindication of the Protective policy of the United States. This nation has grown into the moral and material supremacy that made its expansion in 1898 possible by taking care of its own people and developing resources. In due time, as the prophets of Protection have always said, it would come, there had come an opportunity to benefit the world beyond our boundaries of a generation ago, not by ignoring those boundaries and letting in the flood of ungoverned and unguided influences, but by extending the boundaries of our Government and guidance the principles meanwhile remaining constant.

Which is the safer method of helping the world? Which affords the better guarantee of steady progress? Our influence abroad, our foreign trade, exceed the wildest dreams of the Free-Trade theorists of a dozen years ago. It is we and not they who are entitled to say, "We told you so." Other things being equal, both plans contemplated among their ideal motives the benefit extension of America's advantages to the civilized world. They have been expanded. The fact remains that the Protective Principal has taken the double moral advantage of taking care of the interests of the world outside, while Free-Trade in its utmost moral aspirations, has proclaimed a Jelly-bell mission to the world outside, with America's own children left to starve in the dirt.

Nor is the problem changed in its essentials by the new conditions, unless it be the importance of a strict adherence to Protective ideas is rendered more urgent by the fact that what we now have to guard our labor against is the fifteen-cent wages of hundreds of millions of the Asiatics instead of the fifty-cent wages of millions of Europeans. We have expanded till we are face to face with that fact.—New York "Press."

Sample of Popocratic Desperation. The desperation of the popocratic politicians for capital against the administration at President McKinley to counteract the irresistible logic of prosperity following upon the inauguration of republican policies in the conduct of our national government is illustrated no more graphically than in the contradictory positions assumed by the Bryanites with reference to the Philippines and the South African republics.

The whole tenor of the popocratic posing as ultra radical Boer sympathizers is that the United States should go further than it has in coming to the assistance of the struggling Boers without reference to the obligations of international law. To go further, of course, would mean that this country would have to stand ready to reinforce the Boers with force of arms—in other words, to send an army to South Africa to help them hold their own against the British invader.

Such a course would be impossible under present circumstances without an immense increase in the regular or volunteer army. Yet while the menace of military force is feared from the suppression of the insurrection of the Philippines is held up by Bryan and his followers as endangering the life of the republic they experience no scruples about the militarism that would be threatened from an American army in South Africa. The specter of an army to fight the rebellious Philippines is a veritable popocratic nightmare, but the vision of an army to fight the British is a dream of loveliness and security.—Bee.

Glorious News. Comes from Dr. B. B. Cargile, of Washita, I. T. He writes: "Electric Bitters has cured Mrs. Brewer of scrofula which had caused her great suffering for years. Terrible sores would break out on her head and face and the best doctors could give no help; but now her health is excellent." "Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates the liver, kidneys and bowels, expels poisons, helps digestion builds up the strength." Only 50c. Sold by E. J. Raymond, druggist. Guaranteed.

If the British would only look for the Boers where they don't expect to find them they would doubtless come upon them with greater frequency. "DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles. L. P. Orth.

The helm is but a little thing, yet it governs the course of the ship. When everything else will fail a beautiful bonnet will turn a woman's head. Hardly a day passes, in families where there are children, in which Ballard's Snow Linctament is not needed. It quickly cures colds, wounds, bruises, burns and scalds. Price 25 and 50 cts. Raymond's.

A Farmer's Mistake. A farmer boarded a passenger train the other day, says the Newton (Kan.) Kansan, and took a seat beside a traveling man. After surveying the man and everybody in it, the eyes of the farmer fell on the ax in the glass case on the side of the car to be used in case of a wreck. The Farmer had lately joined a Modern Woodman lodge. He thought he had found another Woodman, and walked forward to the man sitting in the seat beneath the case containing the ax.

"Hello, Neighbor," he said, and gave the stranger the grip when they shook hands. The stranger did not grip back, and the farmer gave him another sign, which was equally unsuccessful. The farmer tried still another sign, but still the other did not catch on. "Ain't ye a Woodman?" asked the farmer. The other traveler said he was not.

"Well, y've got the sign there all right," remarked the farmer in a puzzled manner. He walked slowly back to his seat, and asked the traveling man who owned the ax in the case. "It belongs to the railroad company," answered the traveling man. Still the farmer did not appear to be satisfied. He looked out of the window a long time in apparently deep study. After a while he again turned to the salesman.

"The conductor don't own this yere road?" he asked. "No," said the drummer. "Well then," remarked the farmer, "the man that owns this yere road is a Woodman—a brother o' mine. I know it because he has got the sign up there, and if he's on the train I would like to meet him." He had not found him at last reports.

Very Hot. The election news from Oregon spoiled the tempers of the democrats in congress and the two foul mouths par excellence, Pettigrew of the senate, and Lenz of the house, broke out with almost unbridled blackguardism on Tuesday. Sc the last hours of the session were characterized by extreme partisan bitterness.

Unless the democrats brace up against the inauspicious omens that now torment them, the Kansas City convention will be a seething caldron of vituperation; a veritable pandemonium of anger, hate and vindictiveness. The ethos of that Niagara over which the party is about to plunge in November are even now ringing in the ears of the doomed leaders, and they are frantic with evil passions and disappointed hopes. It will be a very hot time indeed that coming July 4 in Kansas City.—State Journal.

A Life And Death Fight. Mrs. W. C. Hines of Manchester, Ia., writing of her almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00. Trial bottles free at Raymond's drug store.

The indolent man knows nothing of the enjoyment resulting from honest labor. For relief and comfort in asthma, Baldard's Horehound Syrup has no equal. Price 25 and 50 cents. Raymond's.

They will never be able to convince Buller that Bobs is a great military chieftain. "After suffering from piles for fifteen years I was cured by using DeWitt's Witch Hazel, Salve," writes W. J. Baxter, North Brook, N. C. It heals everything. Beware of counterfeits. L. P. Orth.

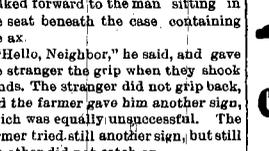

The American Steel and Wire Company is not arranging for an edition of "Gates Ajar." Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in rectal regions. Piles should not be allowed to run on unchecked. Tabler's Buckeye Pile ointment is an infallible remedy. Price 50 cts. a bottle, tubes 75 cts. Raymond's.

A woman never thinks of anything special she wants to say until some other woman is talking. "I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodo's Dyspepsia Cure. It has done me so much good I call it the savior of my life," writes W. R. Wilkinson, Albany, Tenn. It digests what you eat. L. P. Orth.

Stage comedians find that the stulticisms do not always pass as capital jokes in Washington. Down East a man set a set of harness and the detectives were helpless because he left no trace behind.

AN IDEAL CLIMATE. The first white man to set foot on Utah soil Father Silvestre Velaz de Escalante, reached the GREAT SALT LAKE on the 23rd day of September, 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. To enable persons to participate in these scenic and climatic attractions and to reach the famous HEALTH, BATHING AND PLEASURE RESORT OF UTAH, THE UNION PACIFIC has made a rate to OGDEN AND SALT LAKE CITY, of one fare for the round trip, plus \$2.00 from the Missouri River; to be in effect June 23rd, July 7th to 10th inclusive, July 13th to 16th inclusive, and August 13th to 16th inclusive. For these dates and full information call on your nearest agent or address E. L. LOMAX, G. P. & T. A., Omaha, Nebraska.

ABOUT GIRLS.
(Exchange.)
Every girl should know how to cook. It is all right to be able to play the piano, or to paint a picture, or to embroider things; but it is better to know how to cook. The girl that undertakes to boil beefsteak or fry roasting ears may have the best intentions in the world, but when she is married she has many solemn half hours. It is a good thing to be able to dance; it is a better thing to know how long to boil an egg so that it will be left soft, and not as hard as a door knob.

When an old girl has grey hair and wrinkles all over herself, she should quit dressing like a filly. If there is anything ridiculous in the world it is the spectacle of a grandmother decked out in bright colors, with all sorts of feathers and gewgaws on her hat and gingerbread on her dress. It is very seldom that you see an old maid dress herself in golf clothes or with pink ribbons on his whiskers. But the old women who fix themselves up like hired girls on a circus day are as numerous as sands on the seashore. And old lady attired in somber rags is something to respect and admire; and old lady flaunting around in bunting is something to scare horses with.

Blood Troubles: Cancer, Scrofula, Old Sores, Rheumatism, Contagious Blood Poison, Chronic Ulcers.
As the blood contains all the elements necessary to sustain life, it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by a certain sore, ulcer, eruption or inflammation appearing on the skin. Every blood disease shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, ointments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment.

FREE MEDICAL TREATMENT.
Our Medical Department is in charge of skilled physicians, who have made blood and skin diseases a life study, so if you have Contagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer, or any similar blood trouble, write them, fully for advice about your case. All correspondence is conducted in strictest confidence. We make no charge for this service. Book on blood and skin diseases free. SWIFT SPECIFIC CO., Atlanta, Ga.
