MINES, The Leading Jeweler.

Patience and Batic. The following tear-pumping and sobbing statement regarding the political conflict of 1900 could have been originated in no other than the great thought factory of that peerless leader.

W. J. Bryan, in welcoming the Bryan Home Guards and Traveling Men's Club on their return from the national convention, Saturday, July 7, 1900.

"The light this year will be to carry out the sentiment of that song we have so often repeated, 'My Country, 'tis of Thee,' if we lose our children and our children's children will not succeed to the spirit of that song, and celebration of the Fourth of July will pass away for the spirit of empire will be upon us."

Down the long vista of Fourth-of-July centuries the patriotic and burning prophet of disaster beholds, with streaming eyes, "our children and our children's children" sliding "My Country 'tis of Thee," and hears with ear reaching ears the band playing Yankee Doodle. Who will fail to job and patriotically howl in anguish when treated to remaining eloquence like this?—Conservative

Builders. The building up force of Bryanarchy in the state of Nebraska, has never been properly delineated, portrayed and appreciated. The vast industrial plants, the great powers of constructive capital in fabulous amounts, which the Alliance, Bryan, Edmestons and Tibbles have caused or created for the material development of this commonwealth, have never been photographed, described or eulogized. The diabolical envy and the malignant enmity of the plutocratic press have obscured and hidden, in the blackness of its wrath, all the contented cottages and busy manufactories which the mighty and creative hands of Bryanarchy and the Alliance and Tibbles have so generously and deftly founded and built upon these plains. Who are the builders of the state? The wretched gold bug imperialists? No! No! my buds, sixteen orations to one day's sixteen efforts to get an office in behalf of patriotism. Those sixteen speeches to one thought, failures to one fact, built Nebraska. —Conservative

S. M. Sloan left Monday for Inwood Iowa, where he has purchased a livery and city dry line. The family will remain here for the present. The Herald will keep him posted on Wayne events, and wishes him unbounded success in his new home.

A Satisfactory Entertainment.

The entertainment given at the Opera house Thursday night under the auspices of the Federation of Women's clubs for the benefit of the public library was a very creditable one and was well appreciated by a large audience. "A Bachelor for a Day" was well presented under the supervision of Mrs. Wallis, each character being well sustained. Chas. Culler as Alexander Meander, Mrs. Wallis as Mrs. Meander and Thos. Holtz as George Merrigale were exceptionally good evidencing the fact that Wayne has some excellent talent in the theatrical line. The instrumental and vocal solos by the Misses Mae Cunningham, Clara Philleo, Bertha Armstrong, Maudie Britton and George Wilbur and Fred Pile were exceedingly pleasant features of a very creditable entertainment.

Cuming County Democrat: Chas. Beckenhauer and Emma Ackerman who have been visiting in Wayne and other points for the past four weeks, returned home Monday. Chas. was looking up a location for the opening of a law office and in all probability he will return to Wayne, Neb., in the fall to practice law. Good luck to you Carley and may you expand and prosper and become one of the most eminent lawyers of the 20th century known to this country.

For Heinz Pickle Vinegar go to Brooking's. Chas. Vail went to Pilger Saturday on business.

"The Wives of Woodman; or, What Insurance did for Melvins," is the title of a serio-comic Royal Neighbor and Woodman play, in four acts, 753 caoli-nations, and a dozen convulsions, just issued from the press. M. C. Riddle is the author.

Hattie Weber gave a delightful party to a number of young friends Monday evening which was greatly enjoyed by her guests. The early evening was devoted to vocal and instrumental music. At the conclusion of a beautiful spread, carriages arrived and the company was taken to the concert, give by the Davis Twin Sisters Co. in the tent near the Baptist Church.

The total number of deaths of members of the Modern Woodman society reported to the head office during the month of June was 146, being the lowest number of deaths during any one month since July, 1899, when the deaths reported totaled 120. As the Woodman society has now over 525,000 members in good standing, the percentage of deaths is remarkably low.

A. C. Grace departed for Wayne last Saturday morning where he has accepted a position as tinner for the hardware firm of Olmsted & Co. We have nothing but best wishes for Mr. Grace. We are sorry to see him leave the community.—Wausa Enterprise-Herald.

A gentleman recently cured of dyspepsia gave the following appropriate rendering of Burn's famous blessing: "Some have meat that cannot eat, and some have none that want it; but we have meat and we can eat,—Kodol Dyspepsia cure be thanked." This preparation will digest what you eat. It instantly relieves and radically cures indigestion and all stomach disorders. L. P. Orth.

Entertaining conversation in not alone dependent upon a well-stored mind, a ready wit or broad culture. It lays under contribution qualities of heart as well as head, and should reveal sincerely, sympathy and simplicity. We must feel an interest in our subject before we can inspire it, and enthusiasm is contagious when it is sincere. It gives animation to the face, vivacity to the manner, and has a thought compelling power that adds fluency of expression.—August Ladies' Home Journal.

The Dixon Tribune man, or woman, was at Laurel on July 14th and says everybody had a nice time and all "believed themselves except Jim Ahern of Wayne." They don't specify the acts of misbehavior on Jim's part, but leaves us to infer most anything. Next time Jim goes away from home we move to have a chaperone appointed for him and suggest that be one of the city's sweetest maidens, age or previous engagements not to act as a bar.—Wayne Republican.

Lord bless you, Mr. Cunningham, Jim had six of Wayne's sweetest maidens on chaperones that day and yet he acted "woful."—Dixon Tribune.

Who were they, Jim?

The Mason home was the scene of a pleasant party on Tuesday when the Misses Mason, Mettlen, and Craven entertained their friends at "Five o'clock Tea." The house was prettily decorated with flowers. An elegant two course menu was served, the guests found their places at the table by matching flowers. Those present were: Mes. James Harvey Mason, Rinald, Misses Dor Edith and Virginia Bashel, Mr. Cook, Chase, Stewart, Weber, Effie and Lucy Buffington, Culler, Sprague, Armstrong, Bash, Sparger, Napier, Stringer, Ahern, Spears, Philleo, Baker, Britton, Winterburn, Hunter, Ella and Jennie Bayer, Burson, Cunningham, Virginia Cunningham, Merriman, Maude and Pearl Reynolds, Anderson, Rhoda Hill, Scace, Benshoof, Edna and Pearl Sewell, Wallace, Atkins, Graves, Connable, Preston, Jeffrey, Warnock.

The Cuming County Advertiser of West Point, feels a trifle sore because Wayne won out in the Bee summer vacation contest, and like a booby says: "though Miss Mohl was defeated by Wayne it did not cost her \$655 for votes and \$3,000 for advanced subscriptions!" Neither did it cost Miss Chase any such amount, but if it had cost her friends such a sum no higher compliment could be paid her or whom than this striking picture of loyalty. It is true that about every man in Wayne county is a reader of the Bee. But how did Miss Mohl and her friends feel their votes,—just the same, but the only trouble was they underestimated the task before them. It was a good natured rivalry the people here felt in the matter and there would have been no sore spots had Miss Mohl won.

A Word to the Wise

About Summer Suits

Many clothiers are feeding you through the daily papers with large doses of the word "cheap." We try to do better. Mean clothing we will not sell at any price. What is the sense of promising a \$20 Suit for \$10. Does the person of average intelligence expect it?

We promise to do better. We sell a Suit for \$20 that is worth \$10—worth every cent of it, made so well that you can depend on its giving you satisfactory service, but we don't try to deceive you by saying that it is as good as you can buy for \$20. We give you your money's worth every time—that is why we are doubling our business in clothing.

Editors Become Knights.

In response to invitations issued, about 100 newspaper men of Nebraska and Western Iowa went to Omaha Monday, where at night they were initiated into the mysteries of the Knights of Ak-Sar-Ben, and that they run up against the real thing will be vouched for by every editor fortunate enough to have been in attendance. The editors were royally welcomed and were shown every possible courtesy. The Knights of Ak-Sar-Ben is an organization, perfected for the purpose of bringing the people of Omaha and Nebraska closer together and to provide a season of enjoyment for a period during the fall. It is a most worthy organization and fortunate indeed is he who becomes a member of it. It was a night of unrest for the editors—they never knew what was coming and it kept coming all the time, nevertheless it was a session of enjoyment for the pencil pushers who were loud in their praise of the gallant Knights of Ak-Sar-Ben who will hold high carnival in the magnificent city of Omaha the last week in September.

After many intricate experiments, scientists have discovered methods for obtaining all the natural digestants.

These have been combined in the product found in the human body and united with substances that build up the digestive organs, making a compound called Kodol Dyspepsia Cure. It digests what you eat and allows all dyspepsia to eat plenty of nourishing food while the stomach troubles are being rapidly cured by the medicinal agents it contains. It is pleasant to take and always gives quick relief. L. P. Orth.

For burns, injuries, piles and skin diseases use DeWitt's Witch Hazel Salve.

It is the original. Counterfeits may be offered, use only DeWitt's. L. P. Orth.

Electricity in Capsules.

This new compound which is made from cheap chemicals, is put in capsule form and when added to a certain quantity of water will furnish enough electricity to light a house, drive an automobile or even a railroad train, but this is nothing compared to one of Eli Jones & Son's durable and well finished buggies which makes life a pleasure to all who use them.

Fables of the Rail.

A bashful young married couple were riding in an ordinary sleeping car one night, and when he thought no one was listening he called her bride and asked whose duds she was, whereat a wicked Traveling man yelled rubber and the bashful bride and groom were covered with confusion, etc.

Moral—They might have called each other duds and dearie all night without interruption if they had occupied one of our elegant private drawing rooms or compartments on the sleeping Cars of the North-Western Limited.

What do you Expect to Find?

In a first-class Bakery? The first thing is the class of Bread kept on hand, whether it is nice, sweet and light, or heavy and sour and unfit to eat. Being satisfied on this point you begin to look around as to the cleanliness of the store, and we would be pleased to have you call and put us to this test. We pride ourselves on our cleanliness, and all our Breads, Pies, Cakes, etc., and groceries will be found first-class and the best on the market. Our prices are right, too.

TO THE MAN WHO THINKS.

LOOK yourself squarely in the face and see if you are not half ashamed to be without Ivory Soap in your house. Worse than this, your wife is without it. It is bad enough for a man, though a man often doesn't care how his comfort is mis-spelled. But a woman misses all these little helps to housekeeping. And Ivory Soap is one; its great potency makes it actually cheaper than yellow soap for general work. It floats.

If silver is not an issue what did the Kansas City convention declare for it in its platform.

There are five state tickets in the field. It's a very poor man who can not select a choice out of the bunch.

If the democratic party is opposed to imperialism why in the deuce don't it break loose from the shackles of Bryanism.

The Columbus Times says that "the cry of 'imperialism' is not going to fool the German born citizen of this country or any other sensible people."

The middle of the road populists met in convention at Grand Island last Friday and placed a full state ticket in nomination, adopted a platform and are sworn in every way against fusion. This insured the election of C. H. Dietrich by a handsome plurality and mark the beginning of the end of Bryan-one-man rule in Nebraska.

Praying for the safety of American missionaries in China is all right in its way, but plenty of bluejackets, infantrymen, artillerymen and ammunition should be sent along to reinforce the prayers.—World Herald.

Well, well, well! Isn't this running an awful risk of militarism? How can we accompany the American missionaries into China with bluejackets, infantrymen, artillerymen and ammunition unless we maintain an army on a scale commensurate with the demand for protection to American citizens abroad? How can we get the soldiers to the Orient unless we have a navy and transport service able to do the work? Isn't the baggage of militarism one of the most transparent soreheads that can be constructed for the campaign?—Bee.

Trying to Fool Somebody.

The fusion state convention, by apparently dividing its electoral ticket between Bryan and Stevenson and Bryan and Towne, hoped to delude the fusion populists of this state into thinking that there is such a thing as a national fusion populist ticket.

The fusion leaders know that Mr. Towne intends to decline the Sioux Falls nomination and that even if he does not do so that in no other state in the union will there be a Bryan and Towne ticket in the field.

In any event, why all this laudation of Ohas. A. Towne, who is now and has been for four years simply a deoxy duck to lead populists and also free silver republicans into the democratic party?

These are Mr. Towne's own words: "The truth is, in 1896 I should have gone into the democratic party had it not been for the advice and request of Mr. Bryan and Senator Jones that I aid in forming the silver republican party and maintaining my relation with it with the view of ultimately leading it into the democratic party. It was the opinion that I hereby could aid the democratic party. They believed many silver republicans would go back to the republican party or to the populists unless I took that course.—The Trap Populist (Omaha).

Will They Deny Facts.

Will our fusion friends be so foolish as to deny the fact that under the gold standard, which Dictator Bryan avowed would "fill the future with blood," the "common people" who were afflicted with debts are getting out of debt the past three years? The state of Nebraska, where calamity has been the hugh and cry, is out of debt. Isn't such things terrible in controversy of Bryan's hypocritical prophecies of 1896? We hear, even by some republicans, Fred Volpp, county treasurer, praised for the splendid manner in which he has collected back taxes and giving him the praise that is only in part due him. There was a time some three or four years ago, he could not have collected with a distress warrant, revolver by the devil, but such is not the case now, and it is claimed that more back taxes have been collected than ever before and not a man has had to have property sold. Is this not an evidence of prosperity? Will you fusionists deny the fact? Then isn't the present national administration good enough? Then do you want a change?

In his speech of acceptance President McKinley gave some convincing reasons why the republican party should be continued in power as representative of the laborer's and farmer's interests. Among them was the following: "We have lower interest and higher wages, more money and fewer mortgages. The world's market has been opened to American products which go now where they have never gone before. We have passed from a bond-issuing to a bond-paying nation; from a nation of borrowers to a nation of lenders; from a delinquency in revenues to a surplus; from fear to confidence; from enforced idleness to profitable employment."

The democrats had a mass meeting the other day down in Keokuk, Kansas, to discuss the situation. After taking a squint at the doings and sayings of the Kansas City convention the meeting resolved that "as between populism and socialism filtered through Bryanism it preferred McKinleyism," and a McKinley and Roosevelt club was organized and thirty democrats signed the constitution on the spot. They expect to raise the number to a hundred.—State Journal.

The strength of Bryan as a dictator was marvelous at the Kansas City convention, says the Conservative, but now more wonderful than the weakness of the convention. The potency of a single mind, when exercised through the emotional nature, can control a tremendous turbulent mass of heterogeneous idlers. It is not that the one is so strong, but that the many are so weak. Assumption can control feeble intellects. The K. C. convention proved that.

Knocking down a Straw Man.

In a carefully prepared statement given to the general public, William Jennings Bryan puts up a straw man to knock down in the shape of an inquiry whether the anti-imperialist vote would be seriously affected by the opposition of some of the so-called anti-imperialists to the silver plank in the Bryan platform. Answering this self-proposed question Colonel Bryan says: "If any opponent of imperialism refuses to support the democratic ticket because of the silver plank it must be because he considers the money question more important than the Philippine question; that is, he prefers a gold standard empire to a bimetallic republic."

This is a palpable and willful distortion of facts, because no one is compelled to choose between "a gold standard empire and a bimetallic republic." The bogie of imperialism which is set up in the democratic platform as the paramount issue cannot frighten intelligent men, because they know that the republic has no truer or stauncher friends than President McKinley and the republican party, who have protected it when it was in actual danger.

The idea of a "bimetallic republic" is equally fallacious because the enactment of 16 to 1 free coinage legislation would not mean bimetalism, but simply a reduction of the country's currency to a silver standard. Mr. Bryan and every advocate of 16 to 1 know that no stable system of bimetalism could be maintained except at a ratio closely approximating the exchange value of the two metals on the market and that the proposed overthrow of the gold standard would mean merely the substitution of the silver standard.

When Mr. Bryan, therefore, pretends that the issue is between a gold standard empire and a bimetallic republic, he is simply trying to throw dust into the eyes of the people who do not look deeply into the subject. But the people cannot be fooled by such sophistry. They have shown their distrust of 16 to 1 by repudiating the Bryan ticket four years ago and they have found no reason in the prosperity that has ensued for changing their minds and returning to the era of idleness and depression.

The issue of free coinage proved to be a false issue in 1896 and the issue of imperialism will prove to be equally false in 1900.—Bee

The Paramount Issue

The paramount issue to be fought out in the battle of 1900 can be summed up in five small words: Do you want a change.

This is a simple question that every citizen will ask himself before he casts his ballot and the verdict will depend upon the conclusion reached by a majority of the 15,000,000 voters who will record themselves on one side or the other next November.

It cannot be gainsaid that the American people are as prosperous and well-to-do this year as they ever have been. Do the American people want a change?

Do the American farmers, whose products are in steady demand at good prices at home and abroad, want a change?

Do the merchants and tradesmen of this country, who are doing a larger business in the aggregate than ever before, want a change?

Do the manufacturers and employers of labor in mill and factory, whose products are remarkable now at fair profit want a change?

Do the professional men, whose services command higher remuneration than ever before, want a change?

What would any of these classes gain by a change?

This is the poser which neither Mr. Bryan nor any of his champions will be able to answer satisfactorily. They will talk about the Declaration of Independence, about the crime of 1873 about the beauties of free silver coinage, about the disastrous gold standard, about the menace of imperialism and militarism and about the rapacity of the trusts. But all these subjects are overshadowed by the question that dominates all men who are constantly striving to better their condition, but do not willfully and deliberately expose themselves and their families to the risk of a relapse to the distressing hard times experienced before the advent of McKinley and the ascendancy of republican policies that have restored confidence, raised the national credit and set the wheels of industrial and commercial activity in motion.—Bee.

An Epidemic of Diarrhoea.

Mr. Slanders writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best remedy ever used. AN ICE CREAM WEDDING.

Weddings in prison are not uncommon; marriages in theaters are not rare occurrences; and every once in a while an adventurous couple plight their troth in a balloon. But Sioux City now puts in a bid for true originality with a marriage in an ice cream parlor, that institution which tradition has it is one of the bones of the man with a sweetheart.

Rudolph Anderson, aged 25 years and Miss Gracie Breckenridge, not yet 13, were the principals in the interesting performance, which took place in John E. Butter's fruit store at 813 Fourth street at high noon yesterday. In the presence of a number of curious neighbors who had been invited by Mr. Butters who acted as master of ceremonies, to be present at the event. To Justice F. A. Magill fell the pleasant duty of gratifying the two hearts and pocketing the usual fee for such an occasion.

Rudolph and Gracie came down from Cherokee on the train which arrives here at 7:45 in the morning. There was nothing swell about Rudolph's costume but Gracie wore a white gown white slippers and a man with half an imagination could have guessed she was thinking some of getting married.

On the streets they attracted much attention, but they did not realize as they strolled about, taking in the sights of a great city, that they were one of the sights. Their wanderings took them as far as Mr. Butter's fruit store and they dropped in and called for some ice cream. Rudolph sat down on one side of the table and Gracie sat down on the other. Rudolph called for some ice cream, and he ate two dishes, while Gracie ate one but they did not allow any coldness to come between them.

After disposing of the cream, Rudolph confided to the storekeeper that he and Gracie were thinking of getting married. The fruit man told them they would have to get license. They also would have to get some one to identify them before the county clerk. Rudolph hadn't thought very much about that. He wanted the fruit man to do the identifying, but Mr. Butters did not feel that he was competent to do so. Rudolph and his sweetheart left the store but it was not a long time before he returned. He had the license.

"Say," he drawled out, while the girl stood rather nervously by his side, "can we get married here?"

The storekeeper hadn't thought of such a thing, but he good naturedly consented to allow the ceremony to be performed within his walls.

"Say," drawled Rudolph again, "can't you get someone to marry us?"

The good natured fruit man said he would try, and he sent for Justice Magill, who went to the store to do his share in the matter. When the judge arrived Rudolph and Gracie were stood up in their places, and in the presence of a gaping crowd they were transformed into Mr. and Mrs. Rudolph Anderson.

Rudolph works in the railroad yards at Cherokee. When asked why they did not get married at Cherokee, instead of in Sioux City, they said they wanted the thing done up in their own way. Up in Cherokee this friend had this suggestion and another had that idea, and so they decided to come down to Sioux City and have the matter attended to as they saw fit.—Sioux City Journal.

On Friday the home team defeated the Emerson boys on the latter grounds, by a score of 12 to 1. Quite a number of Wayne people went over to help win the game. Harry Fisher pitched an excellent game for seven innings, striking out 13 men.

Every ball team and friends that visit Wayne and get defeated go home and bellyache about being treated discriminatorily. It is true that there are "rooters" as they are termed, but all towns have them, the writer has seen about as many games of ball as the next fellow, and every town is alike in all the towns, and that it would not be a ball game if there was not "rooting" so as to speak. Quit squaking or get out of the game. The treatment accorded visiting clubs here is no different than that accorded the home team in other towns.

Threshing time will soon be here and a great deal of it will be done from the shock. It is safe to say that a great deal of the outside help will be obtained by exchange. It is all right to expect as much and as good help from a neighbor as one gives. It may be possible that better help will be obtained sometimes. As a rule where neighbors go together and form a team, the very best help is obtained. I never had much use for frivolous boys or striking men. I would rather give a neighbor what he owed me in help than to be imposed upon in such manner. Not every man can stack straw. A great many do not like to work on the straw stack. If I can't have two good men to assist in the work I would rather be in this straw pile than at any other post. In passing through the country we see many piles of straw bearing evidences of the work of boys, lazy men and men who never had the first ideas of stacking. The revolving stacker and the blowers have done away with a great deal of this labor.—Homestead.

READY FOR ACTION

Nebraska Republicans Making Preparations to Reclaim the State from Fusion Mismangement.

Chairman Lindsay of the State Central Committee Formulating Plans for a Vigorous Campaign.

Able Orators are to be Secured and Everything that Pertains to a Campaign of Education Will be Utilized.

Concerted Efforts to Be Made to Redeem Nebraska From Fusion Vice Which Threaten Her Public Institutions.

Appreciating the potency of an educational campaign, and imposing confidence in the sagacity and intelligence of the electorate of Nebraska, the republicans have opened up headquarters at the Grand, in Omaha, and are preparing to conduct a vigorous campaign along this line.

The campaign in Nebraska will be directly in charge of H. C. Lindsay, chairman of the State Central Committee, and he will be ably assisted by competent men at the head of the various departments who will devote all their time and energy to reclaiming Nebraska from fusion mismangement.

President McKinley.

Looking out upon a peaceful sea of prosperity bequeathed to them by the statehood of McKinley it was in keeping with good judgment and sound reasoning for the republicans in national convention assembled to attest their appreciation and gratitude by unanimously choosing William McKinley for their presidential candidate. In the four years he had been at the helm of the state he had not only banished distress from the doorway of millions of American homes, but he had gone forth to a struggling people of unhappy islands and up from their limbs the chains of a virulent and silenced fever the government had inherited from one of the most mercenary monarchies known to modern history.

The Vice Presidency.

Mindful of the importance of positive and experienced statesmanship, the republicans staked, as second on the ticket, that sturdy patriot, Theodore Roosevelt. There are few better known to the interests of the people and of the state here so openly disregarded and trampled upon. There is not a state institution that is not blighted by dishonesty or cursed by incompetency. The public patronage has been so divided as spells among the politicians, and the treasury, in many instances, wrecked the institutions under their care. Nebraska under the administration of Governor Poynter has complete control of the patronage and incompetency. This applies no more to Poynter than to the rest of the state officials, particularly to the Attorney General's department, where the people have been led to an exhibition of robbing the state to startle the Chinese.

The State Reform.

Fusion management is a stench in the nostrils of the people of Nebraska. Governor Poynter's administration has made it so. Never before in the history of the state has there been such an exhibition of utter incompetency and political depravity. Never before have the interests of the people and of the state been so openly disregarded and trampled upon. There is not a state institution that is not blighted by dishonesty or cursed by incompetency. The public patronage has been so divided as spells among the politicians, and the treasury, in many instances, wrecked the institutions under their care. Nebraska under the administration of Governor Poynter has complete control of the patronage and incompetency. This applies no more to Poynter than to the rest of the state officials, particularly to the Attorney General's department, where the people have been led to an exhibition of robbing the state to startle the Chinese.

In nominating a state ticket the republicans, having in mind the evils of the fusion administration, and the necessity of selecting honest and capable men to conduct the government, composed of the strongest material in the party, it headed the ticket with C. H. Dietrich for Governor, a man of wide business experience and splendid judgment. In business and social affairs Mr. Dietrich commands the respect and esteem of all. He is not a politician, in the general acceptance of that term, but is a citizen who recognizes the right of the people to summon him to duty, and a compliance with that request at the expense of his name and promise and assurance that he will, if elected, perform that duty fearlessly, honestly and conscientiously. The election of Mr. Dietrich will insure an economic, business-like administration of the state, and the people of Nebraska are vitally interested and deeply concerned.

During the campaign the electors of Nebraska will have the pleasure and opportunity of securing party issues in this the commissioners from the United States voted, not alone the sentiment of President McKinley, but the recorded sentiment of the republican party.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered six months with a frightful running sore on his leg; but he writes that Backlin's Arnica Salve wholly cured in five days. For ulcers, wounds, cure it is the best salve in the world. Cure guaranteed. Only 25 cts. Sold by Raymond.

"We have sold many different cough remedies, but none has given better satisfaction than Chamberlain's," says Mr. Chas. Holzhauser, Druggist, Newark, N. J. "It is perfectly safe and can be relied upon in all cases of coughs, colds or hoarseness. Sold by Raymond."

Cannibals at times might be classified as snare eaters.

The man in the moon may bring the most ferocious dog to bay.

What among human ills are more annoying than piles? The afflictions that prevent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among martyrs. Tabler's Pile Ointment will cure the most obstinate of the cases. L. P. Orth.

Nebraska will be washed.

In the approaching campaign no other state will be more closely watched than Nebraska. One reason is that it is the home of the fusion candidate for president, William J. Bryan. Another and still more potent reason is that it is an agricultural and manufacturing state, and as such has been largely benefited by republican prosperity. Four years ago Nebraska, hypnotized and frightened by the alluring promises and startling predictions of the fusion opportunists, and by those of Bryan in particular, gave its electoral vote to the fusionists. The people of Nebraska had faith in the predictions of the fusion orators, and they followed his leadership. He was defeated notwithstanding and his predictions have been exploded.

The silver dollar, "with a remembrance of what Bryan's election meant, gave its vote to Bryan. What will it do this year? Will it still believe in a prophet who has fallen and in prophecies which when now held up before the lamp of intelligence and experience appear ridiculous? Will it have its back to the advance agent of prosperity and its face to the advance agent of the silver or bullion trust? Will it still insist on the government making it so that the market value of the silver dollar shall have its value increased 100 per cent. so that he may trade 50 cents worth of silver bullion for a dollar's worth of wheat, or corn, or labor, or will it be loyal to itself and insist on getting 50 cents worth of silver or 50 cents worth of gold for 50 cents worth of wheat, corn or labor?"

Nebraska Otherwise Concerned.

And Nebraska is otherwise concerned than in the ultimate triumph of the national republican ticket. The interests of the congressmen and state tickets are of the highest importance. The re-election of Congressmen Burkett and Mercer should by no means fail. Both have rendered splendid service. Congressman Burkett during his term secured the allowance of 342 pensions, mostly for veterans of the civil war. He has been, like Mercer, a strong advocate of the rural mail service, and has succeeded in establishing three of these in his district, with more to follow. He has also succeeded in having several additional postoffices established. Though not on the committee, he was successful in securing an appropriation of \$250,000 for improvements along the Missouri river, special provisions being made for improvement at Rulo and Nebraska City.

Congressman Mercer was equally successful in securing appropriations for the rural mail delivery system and has done much to encourage it. Much credit is due him for the Missouri river appropriation.

In the other districts the republicans have chosen their candidates for congress from among the very best and ablest men in the party. Every one of these stands in strict accord with the administration, and their election means support to republicanism as typified in President McKinley. It should be noted that the republicans determine the importance of such planting fusion congressmen with these.

Fusion management is a stench in the nostrils of the people of Nebraska. Governor Poynter's administration has made it so. Never before in the history of the state has there been such an exhibition of utter incompetency and political depravity. ECZEMA = SATANIC ITCH.

This most aggravating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes itchy and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted.

This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scabs over. This is a painful and stubborn form of the disease.

While Eczema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because

THERE CAN BE NO EXTERNAL IRRITATION WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin. External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the cause. Only S. S. S., the real blood medicine, can do this. S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-seated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation subsides, and all signs of the disease disappear.

Mrs. Lela M. Hoffman, of Cardington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so badly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in Iowa without being benefited, and in her search for relief, was told by an old physician to take S. S. S. She followed his advice and was promptly cured, and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in bed for years ago but for S. S. S., and adds, "what it has done for me I send for our book on Blood and Skin Diseases, and write our physicians fully about your case; they will cheerfully give any information or advice wanted. We make no charge for this. Address, Swift Specific Co., Atlanta, Ga.
