Expert Employees.

G. J. Savidge now has a corps of expert employees and is prepared to do all kinds of plumbing, wind mills or machine repairing or any kind of work in the line of sinking wells, putting in pumps and windmills.

Electricity in Capsules.

This new compound which is made from cheap chemicals, is put in capsule form and when added to a certain quantity of water will furnish enough electricity to light a house, drive an automobile or even a railroad train.

Excellent programs are being prepared for Commencement week and all hope to have a good attendance and pleasant time.

The fall term of the college will open Sept. 3, and indications are that the attendance will be much larger than it was last fall which was larger than former openings.

Rev. F. E. Hopkins who lectures on the evening of the 16 is highly recommended as a lecturer by Speaker Henderson, Senator Allison, Rev. Talmage and other prominent men who are acquainted with him.

Judging from the work of the students, we believe the present term has been the most successful term in the history of the college. The enrollment exceeds that of last year and everyone is not only satisfied but enthusiastic over the work they have done.

NOTICE.

Parties having 32 cattle and up, and would like to send them to London, Liverpool, Glasgow or Bristol, can secure space by writing to Ewart Bros. Ewart, Iowa, who have sent 1000 of their own cattle to a profit, and have more to follow; or write to A. C. Baker their agent, care H. D. Copeland & Co., Live Stock Commission Dealers, Union Stock Yards, Chicago, Ills.

NOTICE.

The yolk of the egg spoils much quicker than the white. For this reason it is important that the yolk should be surrounded with a layer of the white. If the egg is placed on the side of large end the heavy yolk will settle to the bottom and come in contact with the shell, which admits the air. If it is placed on the small end it will always have a layer of white between it and the shell. Eggs absorb odors easily, therefore only odorless materials should be used when packing them.—August Ladies' Home Journal.

Superintendent's Notice.

Examinations the third Saturday of each month and Friday preceding. Each month—office days.

MINISTERS ARE ALIVE

ALL DOUBT REGARDING THEIR SAFETY REMOVED.

Official Advice Received from the Chinese Capital Under Date of July 22—Dispatches from Peking and Macdonald—Other Items.

London, July 31: The admiralty has made public the following from Rear Admiral Price at Tien Tsin.

The British legation in Peking, June 29 to July 7, was repeatedly attacked by Chinese troops on all sides, with both rifle and artillery fire.

The Chinese troops are close to our. All the women and children are in the legation building.

The casualties to date are: Capt. H. W. Mearns, including Capt. S. Mearns, a number of wounded are in the hospital, including Capt. Hall.

AGUINALDO WOUNDED. Leaves Trail of Blood as He is Carried Away.

HOT POINTS IN POWERS CASE.

Judge Accuses Gov. Brown of Making Political Speeches in Court.

The Powers trial at Georgetown, Ky., developed several new features Monday. In addition to the testimony, which was interesting, there was a snarl between Judge John Young Brown, senior counsel for Powers, and Judge Cantrell, in which the attorney and the judge exchanged a hot passage of words.

Judge Cantrell accused Gov. Brown of making political speeches in the courtroom and his associates to oust the Republican. "We will not tolerate his case," said that one of the counsel in this case said Gochel would be Governor if every white Republican in Kentucky had to be killed.

During the afternoon Adjt. Gen. Murray was on the stand and produced several letters written by Powers. They were of no material value. W. P. Reed, one of the counsel for Powers, said that he told him there would be no Frankfort and that he would not be surprised if Gochel was killed.

BOERS' BOLD STROKE. Dewet Captures Roberts' Communications and Captures 100 Highlanders.

Gen. Dewet succeeded in cutting Lord Roberts' communications, both by railway and telegraph, and captured 100 of the Highlanders. The story of the Federal army's bold stroke is given in a dispatch from the Cape Colony.

WORK OF SHAM REFORMERS.

How the Fusionists Are Preying Upon the Interests of Taxpayers of Nebraska.

COME FOR FEEBLE-MINDED YOUTH AT BEATRICE SCENE OF TURMOIL AND DISCORD

Fraud and Spoilation, Drunkenness, Incompetency, Dishonesty, Treasury Raids and Kindred Offences Committed by Officers, High and Low—Public Officials and Employees Held Up for Part of Their Salary Each Month by Party Leaders.

When the public funds were placed in the hands of the fusionists, it was not only the power to reward party adherents, but also the power to punish. The fusionists have used this power to reward party adherents and to punish their opponents. This is an epitome of the condition of the fusionist government in Nebraska.

Foreman Ellis of the brush factory at Beatrice stated that he had received a check for his salary from the fusionist government. He found that the check was for a smaller amount than he was entitled to. He inquired of the fusionist officials and was told that the check was correct. He then discovered that the fusionist officials had been skimming off the top of his salary.

It is not only the fusionist officials who are guilty of these offenses, but also the fusionist party leaders. They have used their power to reward party adherents and to punish their opponents. This is an epitome of the condition of the fusionist government in Nebraska.

The fusionist government in Nebraska is a disgrace to the state. It is a government of fraud and corruption. It is a government that has no regard for the interests of the taxpayers. It is a government that has no regard for the honor of the state.

The fusionist government in Nebraska is a disgrace to the state. It is a government of fraud and corruption. It is a government that has no regard for the interests of the taxpayers. It is a government that has no regard for the honor of the state.

ABOUT IMPERIALISM.

DEMOCRATIC CAMPAIGN SQUARE-CROWN ANALYZED.

The "Anti" Want the Country to Shirk Its Duty and Furl the Flag—Yet They Welcome Hawaii or 10-to-1's Sake.

Imperialism may serve as a campaign scarecrow, but before the harvest of votes is garnered next November, the people will recognize that it is but a thing of straw.

Imperialism presupposes an empire, and the magnificent dream of which our lovely banner flies is imperial in its nature. Such a wealth of hill, moor, plain and prairie, such an abundance of crystal lakes and such a network of commerce-bearing rivers were never bestowed upon any people.

Imperialism, if it means anything, Democracy would have the people believe, implies an emperor, a dynasty, a throne, a crown and a scepter.

The partisan accusation of imperialism, when translated into plain English, in the light of the history of the United States, is simply this: The Republicans declare that it is the duty of the United States to protect its territory and to defend its interests.

The same is true of the Philippines as of Porto Rico. Will the Democrats dare to fix a date for the evacuation of either? They are under the flag of the republic, and there they will remain.

The people will learn that imperialism, as employed by the Democrats, means that they would have the country shirk its duty, furl its back on destiny, count all bloodshed as lost, furl the flag and withdraw its protection from people who need it to-day more than ever before in all their history.

The American tin plate industry has grown proportionately to the Welsh Trust's decline in its business with the United States.

PENNSYLVANIA'S PRODUCTS.

Enormous Increase in Output and Employment Under Prosperity.

Pennsylvania produced of pig iron in 1900, 1,542,008 gross tons, or more than 70 per cent of the entire production of Great Britain, over 48 per cent of the production of the United States and over 94 per cent in excess of her production in 1894.

The aggregate value of the output of these enumerated industries in Pennsylvania for 1900 was approximately \$500,000,000, and employment was given to some 115,000 workmen, skilled and unskilled, at an average daily wage of \$1.51, as against \$1.29 in 1894; 40,882 were employed in rolled iron and steel in 1900 at an average daily wage of \$1.95, as against \$1.52 in 1894 at \$1.61.

The black plate tin works comparison cannot be made with 1894, but in 1899, 7,082 workmen were employed at an average daily wage of \$2.39, as against 4,474 in 1895 at \$1.87.

The territorial jurisdiction of the United States has been augmented by the Atlantic by the cession of Porto Rico, which, with the occupation of Cuba, held in trust for the future, serves to guard the Gulf of Mexico and to extend our influence in the West Indies.

The necessary link to connect our Atlantic and Pacific interests, continental as well as insular, had to be an interoceanic canal, owned and controlled by the government of the United States.

The annexation of the Hawaiian Islands to the United States, the cession of Guam and the acquisition of the Philippines extend the sovereignty of this Government across the Pacific Ocean and provide a series of valuable naval stations and outposts of commerce which promise to facilitate incalculably the Oriental trade, and secure the pathway to an opening market of increasing importance.

The exorbitant claims of the Canadian Government with reference to the Alaskan boundary, unreasonable and unhistorical in their extent, though impending and for the time thwarting the efforts of this Government to adjust the matter in a mutually advantageous manner, which had been referred to a joint commission, have nevertheless been firmly met by the President, who has this day preserved our important territorial rights by the motus viendit of Oct. 20, 1899, and defeated the attempt to destroy the continuity of our Alaskan coast line and to divide the control of the Northern Pacific.

The Commission of Patents states that the most prosperous one of the patent offices, the cash receipts have been \$1,388,228.35—a larger sum than received in any previous fiscal year. The number of patents issued is also the largest in the history of the office, numbering 20,540. There has been a corresponding increase in the number of trademarks, patents and labels registered.

BEET SUGAR AREAS.

DEFINED BY THE DEPARTMENT OF AGRICULTURE.

Trade Possibilities for Farmers Arising From Our War with Spain—Experiments with Grasses and Forage Plants—Importing Foreign Seeds.

An attempt has been made by the Department of Agriculture to define with greater certainty the areas in the United States suited to the growth of high-grade sugar beets. To this end, seeds of the sugar beet have been distributed in the most promising localities and grown under identical conditions of culture, according to instructions prepared by the division.

The report on the trade possibilities for farmers arising from our war with Spain, which was presented to the President in 1898, has been published in a circular by the Department of Agriculture.

The necessary link to connect our Atlantic and Pacific interests, continental as well as insular, had to be an interoceanic canal, owned and controlled by the government of the United States.

The annexation of the Hawaiian Islands to the United States, the cession of Guam and the acquisition of the Philippines extend the sovereignty of this Government across the Pacific Ocean and provide a series of valuable naval stations and outposts of commerce which promise to facilitate incalculably the Oriental trade, and secure the pathway to an opening market of increasing importance.

The exorbitant claims of the Canadian Government with reference to the Alaskan boundary, unreasonable and unhistorical in their extent, though impending and for the time thwarting the efforts of this Government to adjust the matter in a mutually advantageous manner, which had been referred to a joint commission, have nevertheless been firmly met by the President, who has this day preserved our important territorial rights by the motus viendit of Oct. 20, 1899, and defeated the attempt to destroy the continuity of our Alaskan coast line and to divide the control of the Northern Pacific.

The Commission of Patents states that the most prosperous one of the patent offices, the cash receipts have been \$1,388,228.35—a larger sum than received in any previous fiscal year. The number of patents issued is also the largest in the history of the office, numbering 20,540. There has been a corresponding increase in the number of trademarks, patents and labels registered.

The American tin plate industry has grown proportionately to the Welsh Trust's decline in its business with the United States.

MAJ. GEN. WESLEY MERRITT.

Soldier Whose Honorable Service with Uncle Sam is Ended.

Maj. Gen. Wesley Merritt has been retired from active service owing to his having reached the age limit. He was born in New York in 1836 and was graduated from West Point in 1856. He entered the regular service and had attained to the rank of colonel at the outbreak of the civil war. His career in the war was marked by several acts of gallantry, in consequence of which he was made a brigadier general of volunteers in June, 1863, and was afterwards appointed to succeed Gen. Buford in command of the First Division of Cavalry. Later he was advanced to lieutenant colonel in the regular army. He was made a brigadier general in April, 1887, and a major general three years ago, at which time he was stationed at Governor's Island.

Soon after the news of Dewey's victory at Manila, Gen. Merritt was appointed military governor of the Philippine Islands, and assigned to the command of the Eighth Army Corps, with headquarters at San Francisco. Gen. Merritt sailed for the Philippines with the third expedition and arrived in the islands late in July, 1898. Later Gen. Merritt relinquished the military command to Gen. Otis and assumed the duties of military governor.

He had been appointed a member of the Peace Commission in Paris, the general left Manila on Aug. 30 on the steamship China. After the conference in Paris he went to London and married Miss Laura Williams, of Chicago, on Oct. 24, 1898. The general and his wife returned to New York on Dec. 17, 1898, and from that time until his departure for Europe he was stationed at Governor's Island.

Kate Masterson's First Poem. Kate Masterson, the poet and humorist, thus describes the beginning of her literary career:

"I was at school in Brooklyn when I first sent a poem to Judge, signing it Kittle K. It was accepted and published with an illustration, and my cup of joy was overflowing. When I got a check for \$2.10 overruled. I then sent some verses to Puck, which were then edited by H. O. Bunner. They were also signed Kittle K., but were written from a masculine point of view, and as I wrote a very gentlemanly hand Bunner evidently came to the conclusion that I was a boy. He sent me some very funny letters, and I replied, keeping up the idea that I was a very fresh, slangy boy. He accepted the verses, 'She Stood on the Stair,' and they were published in a Christmas number with a picture. As this was only the second poem I had sold in my life, you can imagine how wildly anxious I was to have it appear. I bothered Bunner with inquiries, for, of course, that was the only poem on earth to me just then. I recollect faintly writing him, 'Do you mind my poem will be published during my lifetime?'"

How He Was Cured. A South African farmer who had lost some cows by the cattle plague was fully persuaded that he had himself been attacked by the epidemic. He was hurried off and consulted his medical man, who tried to laugh him out of the absurd notion, but to no purpose.

The doctor thereupon wrote a prescription, sealed it up, and told the farmer to go to a druggist in the next town. The farmer lost so much time in going with the prescription, but was somewhat startled when the druggist showed him the formula, which ran thus: "This man has the cattle plague. Take him into the back yard and shoot him, according to law."

Mohammedans. The number of Mohammedans has been estimated at 196,000,000. Of these 18,000,000 are under the rule of the Turkish Government, 25,000,000 are ruled by other Musselman sovereigns, 38,500,000 are subject to African Princes, 20,000,000 live in China, and 90,000,000 are under other rulers. Of these last about 53,000,000 belong to India and Bolochoistan.

TEMPTATION RESISTED.

St. Peter's Editor, 'What Good Things Have You Ever Done?'

St. Peter's Editor, 'What Good Things Have You Ever Done?' 'I once told the blame for one of my own mistakes, instead of throwing it on to the lightning-rod post.'

There is no great achievement that is not the result of patient working and waiting.—J. G. Holland.

It is significant that in homes of wealth where the very best is demanded, Ivory Soap is used in the nursery. At the same time, in hundreds of families where economy decides the choice, Ivory Soap is selected. Thus its purity attracts the rich; its economy attracts the poor. High quality and low cost: is there any better combination?

- For Congressman, Third District—John R. Hays of Norfolk.

JUDICIAL.

- For Judge, 9th District—J. F. Boyd of Antelope.

COUNTY.

- For County Attorney—Anson A. Welch of Wayne.
- For County Commissioner—August Wittler of Straban.

Secretary Long calls the Oregon the constitution of modern days. In all probability the Spaniards look at in the same light.

The defeat of Bryan will be far worse than that of Horace Greely. Just paste this in your hat and see when the votes are counted.

If there are any sound money democrats who are afraid to vote their honest convictions, under present conditions, then they are not very stable.

Buffalo Bill (Cody), a life long democrat, has come out and declared for McKinley and Roosevelt. That's the way men are doing all over this great land.

We don't hear much about Adlai Stevenson. What's the matter with the pops and free silver republicans? Have you all moved away from the town?

It is already conceded that O. H. Dietrich has a cinch on the Governor's chair and that the Farmer Governor, who farms the farmer will be released from the duties of that office of which he knows so little about.

The present administration has built up a most magnificent "stable" government in the country in the past three years. Do you want to set it back to the one that was most devilish unstable during the good old democratic times of four years ago? Do you?

Bryan is the son of a copper head but Adlai Stevenson was old enough to be a copper head on his own account. If these two are the only barrier between the patriotic people of the country and the abolition of the Fourth of July there is reason to apprehend the extinction of the great day—York Times.

What Did Bryan Do.

We believe that if congress had adopted before ratifying the peace treaty someone of the several resolutions that were introduced in the senate giving assurance to the Filipinos that they would ultimately be permitted to establish their own government there would be no fighting now at Manila. We have no doubt that the passage of any one of these resolutions would have averted all hostilities.—World Herald.

This gives the whole case away so far as Bryan is concerned. If Mr. Bryan were in earnest to secure a declaration assuring the Filipinos that they would ultimately be permitted to establish their own government rather than overruler to force the Philippine question as a political issue, the treaty would not have been ratified until some such declaration had been incorporated into it.

Mr. Bryan has boasted that the treaty has secured the necessary majority for ratification in the senate as a direct result of his own personal efforts with popular senators. The vote of Senator Allen of Nebraska alone would have defeated ratification had it been recorded against the treaty instead of for it. Had the treaty been sent back to the State department for modification according to the lines now demanded by Mr. Bryan and American peace commissioners could have easily secured the agreement of Spain to such a revision.

The Bryanites are so much responsible for the peace treaty which gave us the Philippines as the republicans. Mr. Bryan showed what he would do in that instance by placing his own political interests above those of the Filipinos for whom he professes such devotion, and if he were in the executive chair now political and partisan considerations would doubtless overshadow all the claims of Filipino insurgents.

If Mr. Bryan could notice above party politics when the treaty was pending in the senate how could he be expected to respond to the purely patriotic demands of the nation it invested with the responsibility that now devotes upon the president.—Bee.

No Coalition.

The refusal of the gold democratic national committee to tie up with the anti-imperial league and nominate another set of candidates for president and vice president is very significant and will leave the league in a damaged condition.

The gold democrats say that it is inexpedient to cast a half vote each against sixteen to win when a whole vote can be placed where it will do the most good for McKinley and Roosevelt. As to the anti-imperial fake, they have no use for it; they are of the opinion that it is now too late to abandon the Philippines, or to cede Porto Rico back to Spain. They accept things as they are, so far as expansion is concerned, and will devote their attention to the work of preventing any more food legislation on the money question.—State Journal.

The pops down in Kansas are still busy burying their fathers. The venerable Puffer was laid out and duly waked a year or two ago and has been no more seen in the party councils. Mary Ellen Leese who is also a father has been freed and is attempting the state against them. And now Jerry Simpson has been given his quietus at Topeka, two-thirds of the convention nutting in the enterprise of pounding him into the ground. Ex-Governor Lee who cut a swath a mile wide and clear across the state a few years ago is a defunct tornado and "went bust" on a zinc mine over in Missouri a few weeks ago. Partridge is the favorite crime of the modern pop.—State Journal.

Webster Davis is morally certain that he will pull himself into prominence in this campaign if his boot straps will only stand the strain. For genuine kicking, a Missouri mule isn't in it with a real sore head pop.

Mr. Bryan's Responsibility.
Senator Hoar of Massachusetts has repeatedly charged that W. J. Bryan is largely responsible for the ratification of the treaty which gave the United States sovereignty over the Philippines. He asserted this in his speech in the senate on April 17 last and he has reiterated it in a recently published letter to one who had criticized him for announcing that he should vote for McKinley. The Massachusetts senator stated in his speech that the opponents of the treaty had it surely defeated Mr. Bryan went to Washington and induced his followers to give it the necessary votes. In his letter Senator Hoar says: "It is true that afterward there was a resolution proposed in the senate, which failed because of a tie vote, promising them (the Filipinos) independence at a latter day. But there was no possibility that that resolution could pass the house. Indeed, the treaty became the law of the land and the resolution could not have become the law of the land without the assent of the house and of the president. The treaty was the great battle ground in this matter, if we desired really to defeat imperialism and not simply to make political capital for a party out of it."

This effectually disposes of the claim of Mr. Bryan that in supporting the treaty he expected congress to make some such expression of the purpose of the United States as was embodied in the Bacon resolution, for he must have known, as Senator Hoar points out, there was no possibility of such a resolution passing the house. What, then, was the motive that prompted Bryan to go to Washington and exert his influence for the ratification of a treaty which gave the United States sovereignty over the Philippines for the consideration of \$20,000,000 paid to Spain? We venture to think that most people will answer that it was a desire to make political capital. The Philadelphia North American says: "The treaty of Paris and its consequences were forced upon the country by Mr. Bryan and his party and they cannot be permitted to evade their responsibility and raise a false issue by repudiating in their platform what they did in the senate. President McKinley and his supporters in the senate believed the treaty to be right and acted consistently in advocating its ratification. Mr. Bryan and his seditious partisans in the senate said they believed the treaty to be wrong and bad and declared their opposition to it with much vehemence, yet for the purpose of gaining some political advantage they suddenly reversed their course and the senators took Mr. Bryan's advice, ratified the treaty and purchased the Filipinos at \$2.50 a head."

No explanation that Mr. Bryan or his adherents can offer for his course regarding the treaty of Paris, will relieve him of the responsibility charged by Senator Hoar. Mr. Bryan unquestionably understood all that was involved in that treaty. He knew what would inevitably result from its ratification. The senators whom he persuaded to vote for ratification were perfectly aware of what would follow. But with a view of political capital Mr. Bryan urged his partisan friends in the senate to do that which brought about the so-called imperialism which the Kansas City platform declares to be the paramount issue and for which Bryan and his party decline to acknowledge any responsibility. Fair-minded men know that the statement of Senator Hoar is true and just.—Bee.

J. F. Boyd, the republican nominee for Judge of the ninth Judicial district was here Friday and Saturday greeting friends and forming new acquaintances. He is one of the best that ever came down the pike, and will make Doug Cones the partisan partizan dispenser trot a merry clip if he wins in the judicial race. The office of district judge should be non-partisan, but the Herald has ample proof to show that Cones has no disposition whatever to be fair, and there are three persons who will swear to this. Then could he be fair in his decisions in court.

A "practical farmer" very sensibly says: Take as good care of the self, if you do the watch in your pocket. The former costs about \$125 and the latter about \$25, and yet no one would think of treating a watch as he does his blinder. Make it last as long as the watch if possible. It certainly can be made to last a great deal longer by paring off if than if no care is given it. Put it away as soon as the harvest is done and note any repairs that should be made.

It Helped win Battles.

Twenty nine officers and men wrote from the front to say that for scratches, bruises, cuts, wounds, sore feet and stiff joints, Buoklen's Arnica Salve is the best in the world. Same for burns skin eruptions and piles. 25 cts. a box. Cure guaranteed. Sold by Raymond.

The notification committee from the Sioux Falls convention should sneak up on Mr. Towne by gradual approaches. A severe surprise might cause heart failure.

Ballard's Snow Liniment gives instant relief in cases of bleeding, burns, bruises, scalds, cuts, etc. Price 25 and 50 cts. at Raymond's.

Mr. Donnelly might at this time issue a manifesto to the farmers admonishing them to "Hold your votes."

No one knows the unbearable torture, the peculiar and agonizing pains, caused by piles, unless they have suffered from them. Many believe them incurable. This is a mistake. Proper treatment will cure them. Tabler's Buckeye Pile Ointment is an infallible cure. Price 50c in bottles, tubes 75c at Raymond's.

Wayne County Institute.

Wayne, Nebr., July 25, 1900.

To the Teachers of Wayne County:
The Wayne County Annual Teachers' Institute will convene in the District Court room, Wayne, Monday, August 27, at 8 o'clock, and continue six days, adjourning Saturday, September 1.

It is imperative that all active teachers and those who expect to teach in the county the coming year, attend. The institute is not planned and teachers compelled to attend simply because the law requires it. It seems a common practice with many teachers to attend institute, listen to all that is said, nod their approval, and when institute is over go back to their work and teach the various branches just as they did the year before. Such conduct is not to be tolerated, improvement is the watchword. Our institute this year will give the beginner an opportunity to get some of the fundamental principles of teaching and give to all a working knowledge of some of the more improved methods of instruction in the common branches. Teachers will be excused from no part of the work and are expected to be in attendance the full six days' session. There will be no special examination for teachers' certificates, only the regular examination the third Friday and Saturday of each month.

INSTITUTE FEE.
An enrollment fee of One Dollar will be charged, except to students who expect to teach at some future time but who desire to gain their preparation by attending institute this year. They may do so at half price—fifty cents. If more of our future teachers would do this just think how much better prepared they would be for the work.

Instructors.
Supt. Frank R. Dyer, of Wichita, Kansas, will have charge of the work in Literature, Grammar, U. S. History, and Pedagogy. Mr. Dyer comes very highly recommended. Superintendent Marshall of Washington county, says of him: "His work last year was so well received that the teachers of the institute unanimously requested that he be engaged again this year."

Miss Lucy S. Williams of Norfolk City Schools, will present the work in Primary Reading and Numbers. Miss Williams has had successful experience as an instructor in institute work, and as a special correspondent of the Omaha Illustrated Bee last winter, to visit many of the schools in the state, an opportunity was given her to compare the various methods in vogue, and she will, no doubt, give the teachers the benefit of her experience.

Prin. C. H. Bright of Winslow, will instruct in Geography and Civil Government. While Mr. Bright has not had previous experience in institute work, he needs no introduction to the teachers of the County.

Prof. M. S. Davies of this city, will have charge of the work in Music. Each teacher will be furnished with a copy of an excellent collection of school songs, suitable for use in their schools, and a portion of each day's program will be devoted to becoming familiar with some of the songs. Besides this, Mr. Davies will arrange for special music to be given during the week.

Lectures and Entertainment.

Prof. A. E. Davison of the State University, will deliver one of his popular lectures Tuesday evening.

Supt. Frank R. Dyer will also lecture during the week. On Friday evening Prof. M. S. Davies will arrange to give an entertainment, by local talent.

NOTE BOOKS.
Teachers will be given note books for use during institute, which will be taken up and examined at the close of the institute, graded and returned to them.

Very truly,
E. A. LUNDBURG,
County Superintendent.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., says: My wife was no help for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleepiness, melancholy, headache, backache, fainting and dizzy spells. It is a godsend to weak, sickly, run-down people. Cure guaranteed, Only 50c at Raymond's.

Sometimes it is a good rule to gratify a man's political ambitions in the adverse ratio of their intensity.

There are no better pills made than DeWitt's Little Early Risers. Always prompt and certain. L. P. Orth.

A lot of the Chinese officials will wake up some morning and find that they have not got their heads on straight.

For burns, injuries, piles and skin diseases use DeWitt's Witch Hazel Salve. It is the original. Counterfeits may be offered, use only DeWitt's L. P. Orth.

The German voter must feel pretty proud of himself not when he sees the cheap bait that is being set for him by the democratic fishermen.

Herbina is well adapted to the cure of fevers of all kinds, because it thoroughly cleanses the stomach and bowels of all bilious secretions of the body. Price 50 cts. at Raymond's.

We timidly suggest that Mr. Bryan take a balloon instead of a rear platform this year.

Money flows from W. A. Clark into the democratic campaign fund like musk from a muskrat.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene County, Pa., is one of these. He uses Chamberlain's colic, cholera and diarrhoea remedy and says he never found anything that would give him such quick relief. It is for sale by Ed. J. Raymond druggist.

It requires a pretty keen judge to tell the difference between an inspector of the dairy and a food commission and the traveling representative of a trust packing house.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle cured her; and she writes, this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50c and \$1.00. Guaranteed. Trial bottles free at Raymond's.

State Issues.

Important as are the national issues of scarcely less importance to the people of Nebraska are the state issues. It is no secret that under the Poyner administration widespread corruption has been practiced, to say nothing of the evil effect of ignorance and incompetency.

One of the many state institutions there is scarcely one whose management is not contaminated and tainted by fraud, corruption and spoliation. The state has been swindled out of thousands of dollars, and that, too, by the representatives of the very party that promised the people of Nebraska an honest and economical administration of public affairs. Not only have state institutions been made asylums for broken down politicians, but public funds have been exposed to their rapacity with the result, that while the 26th general assembly or session of the legislature appropriated the enormous sum of \$2,591,378 for public purposes, there will be a large deficiency at the end of the current year. Nearly every institution has already exhausted the amount appropriated for it and there are yet six months of the time unexpired. In some of the institutions laborers have not been paid for several months and they will have to wait until the legislature meets and passes an appropriation before they can draw their pay. There is scarcely an institution, in fact, there is not one, that at the end of the present year will not have a sadly depleted exchequer.

What is equally as bad as raiding the treasury is ignorance and incompetency in managing the public institutions. Evidence of this evil is abundant. Scarcely an institution has escaped. All have been used to reward party satellites regardless of qualification or fitness. Poyner has gone farther in making the public patronage a legal tender for the payment of personal obligations than any other governor has dared to go. Positions requiring skill and knowledge of particular branches have been given to party favorites irrespective of their ability to fill them.

The law holds both maker and circulator of a counterfeit equally guilty, dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks his life to make a little larger profit. You cannot trust him. DeWitt's is the only genuine and original Witch Hazel Salve, a well known cure for all skin diseases and piles. See that your dealer gives you witch Hazel Salve, L. P. Orth.

Some Reasons Why You Should Insist on Having EUREKA HARNESS OIL
Unqualed by any other. Renders hard leather soft. Especially prepared. Keeps out water. Has a very bodied oil.

HARNESS
An excellent preservative. Reduces cost of your harness. Keeps it from turning leather; its efficiency is increased. Secures best service. Oil is kept from breaking.)

Oil
Is sold in all Localities. Manufactured by Standard Oil Company.

GRAND CLEARING SALE
Of Summer Merchandise!
For less than cost to us—because we want to make sure that we will become rid of all summer stock before fall goods arrive. Note the following prices:
6c to 20 cent Washgoods at 4, 5, 8 and 9c.
15c and 20c Novelty Dress goods at 10 cents.
50c to \$2.00 Shirt Waists at 20c to 99c.

In the Hat line we offer Misses and Childrens' Straw hats worth 25 to 75c to 10 cents. Mens and boys Crush hats worth 50c at 19c. Mens and boys felt hats worth \$1.00 to \$3.00 at half price. Mens and boys Clothing at greatly reduced prices. Also other goods too numerous to mention. Come in and see for yourself.

Carroll

The quality of wheat this year is excellent. Mr. B. Hornby was a passenger for Wayne Friday.

Windsle

A. Berry and wife drove to Windsle on Tuesday to witness the ball game. George Yaryan threshed last week and reports a yield of 13 bushels of wheat.

Brenna

The weather is fine these days. Corn looks well. Send the rains. Bertha Brown was visiting her brother-in-law last Sunday.

W. S. and L. W. Brown

W. S. and L. W. Brown were threshing Monday and Tuesday. A crowd of young folks will go to the Elkhorn fishing before long.

Mr. and Mrs. Dunk Berger

Mr. and Mrs. Dunk Berger of Ida Grove, Iowa, are visiting relatives in this vicinity.

Mr. and Mrs. L. W. Brown

Mr. and Mrs. L. W. Brown, Mr. and Mrs. Wright and son, Roy, and Pearl Yost visited Mrs. Vaughn Sunday.

Some of the young boys

Some of the young boys who have buggies don't have very good success in keeping their girls. Try some more boys; don't be afraid.

The young folk had a surprise party

The young folk had a surprise party on Monday last Thursday evening. Ice cream and cake was served. A number of presents were given, and everybody reports a good time.

Some of the young people were going

Some of the young people were going to Norfolk to the big show, but we heard some of the young men tell their ladies that they would have to help lift that day, so they gave it up.

Girls do you know or did you ever

Girls do you know or did you ever stop to think that more than half of the young fellows who try to make a "dash" do you would rather help you to go to hell than assist you to rise in the world and become a good, useful and virtuous woman.

The young man who approaches you

The young man who approaches you with respect and deference may not be as flip as the other fellow, but you can be sure that he would rather help you to be a good girl than lead you to be a bad one.

The young man whose mother

The young man whose mother "cracks" at you on the street nor use language in your presence that would cause a really modest young woman to blush.

The young man who never works

The young man who never works (except when he works somebody for a loan) but always looks "nice," who spends his days in idle "josh" and his nights over a game that he will never learn to play, who makes "cracks" at you in public and who gabs about how you are stuck on him to his associates, is a good fellow to keep away from.

If your skin is too dry

If your skin is too dry, and presents a really wrinkled appearance, use Cole's Carboll soap at night, followed by a good old cream well rubbed in.

The Mask Torn Off

Governor Roosevelt Removes the Cover From the Haggard and Deceitful Face of Fusion.

A Fierce and Forceful Fire on the Fallacy of Bryanism by America's Soldier-Soldier.

Quotes General Lawton in Saying That the Band of American Soldiers is On the Hands of American Sympathizers of Aguinaldo.

Speaking to the National League of Republican clubs in session at St. Paul, Governor Roosevelt gave utterance to some things which in a large degree show the true character of the man.

Spending to the National League of Republican Clubs in Session at St. Paul.

"I have met here today a few men from my old squaring grounds in the Dakotas and Montana, where I used to be a delegate to the cattle conventions.

The Rush of a Shell.

As a shell rushes through the air at the rate of 1,000 miles an hour it gets heavily charged with electricity by friction, says London Answers.

The Copperhead Prophets

Disaster had frantically foretold. In '98 and '99 you yourselves saw regiments and brigades and divisions retrained from Cuba, Porto Rico and the Philippines.

Her Touch.

A sailor who met with a serious accident was carried to the London Hospital. The poor mother hurried to the building to see her son.

A Match Trick.

A feat which any one can perform with little or no practice is that of placing 14 matches upon a table and lifting them all up with one of the matches.

The Jefferson Bible.

The Jefferson Bible in the Smithsonian Institution says the Washington correspondent of the Chicago Record says never been printed.

Can't Expect It.

Hardupped old fellow, I heard you a hundred, will you?

That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their mistletoe merit for sick and nervous headaches.

As between the quitter and the sooner

As between the quitter and the sooner there is little to be chosen.

A free and easy expectoration is

A free and easy expectoration is produced by a few doses of Ballard's Horehound Syrup.

Dr. Kay's Renovator.

GUARANTEED to cure the very worst cases of dyspepsia, constipation, bilious headaches, liver and kidneys.

Handwritten of Slavery

and rebellion, and danced to any tune which the apostles of slavery chose to pipe.
