Laurel Advocate: Mr. and Mrs. C. E. Novin expect to join some more Nebraska editors and their wives at Omaha next Tuesday and journey with them to Salt Lake City and other points west. During their absence of two weeks the Advocate will be in charge of Elmer Lundburg, of Wayne, who is well and favorably known hereabouts. Personally we have never met the gentleman, but he comes highly recommended. He arrives today and we hope to get acquainted before we go. If, so far as they may, without inconvenience to themselves, our readers will assist Mr. Lundburg by apprising him of matters of local interest, we shall deem it a favor.

Libbie Ellis entertained very pleasantly at five o'clock tea on Thursday complimentary to Luella Brenner. Those invited were, Luella Brenner, Jessie Tucker, Louise Mitchell, Marion Harrison, Monte Theobald, Hattie Weber, Mamie Blanchard, Elsie Warnock, Mamie Feather, Laura Lundburg, Faye Britton, Georgia Terwilliger and Nettie Perry.

STREET FAIR AND CARNIVAL.

That is what Wayne is to have September 20-22, and it will be a hamper. The second meeting to further the movement was held at the Fire Department building Tuesday night.

Reports of committees and communications from other cities were read and the matter discussed. After the election of Nelson Grimsley as treasurer, the chairman, Mayor Ley, was instructed to appoint an executive committee, they to appoint sub-committees and to at once begin the work of giving one of the best entertainments ever given in Northeastern Nebraska.

Band contests, vaudeville street performances, street fair, bower, Republican and Democratic days and various other amusements too numerous to mention will be among the attractions. It will be the biggest event ever pulled off in this section of the state. Handsome prizes will be given for racing contests between neighboring towns. Begin to get ready now. It is proposed to have four or five bands to furnish music. The finance committee are succeeding nicely and everybody should subscribe even if not more than \$1.00. It is an enterprise in which every citizen should take an interest patriotic for his home city, Wayne County and Northeastern Nebraska. Tell your neighbors and speak to your customers about it, write your friends and invite them all to be here. Wayne did not celebrate the Fourth and now cordially invites the neighboring towns to join us and have a time that will show to the world that Northeastern Nebraska is on the map.

The following Board of Control was selected and empowered to select sub-committees: M. P. Ahern, E. J. Raymond, August Piepenstock, S. T. Theobald and W. H. McNeal. The above met at The Herald office last evening and elected Phil Kohl president of the Board of Control and S. R. Theobald, secretary, and also selected the following committees: It is requested that the members of each committee meet as soon as possible and proceed at once with the work designated for them to do.

BUILDING AND GROUNDS—Ed Smith, Lon Ellis, Fred Philleo.

DECORATIONS AND LIGHT—S. T. Wilson Dan Harrington, L. P. Orth, Frank Guenther, F. C. Larson, Geo. Fortner.

BANDS AND MUSIC—Prof. Davies, Chas. Craven and Homer Skeen.

VAUDEVILLE—Henry Ley, Oscar Franks, E. A. Lundburg, E. D. Mitchell and James Britton.

CONCESSIONS—Link Neely, Herman Hanney, Dou Sullivan.

The organization has been named the Wayne Street Fair and Carnival Association and the dates for holding the Fair and Carnival fixed for September 20-21-22. The members of all committees are urged to meet promptly at 8:30 Monday evening, at the Fire Department building to complete plans.

See Crary & Fleming's ad and that of Ralph Ruppel, the hustling grocer.

H. Theobald, S. H. Alexander, Rev. C. R. Welden and F. G. Philleo comprised a party that left for the west Monday on a two weeks camping expedition.

The following were the out of town relatives who attended the funeral of A. F. Whitney on Tuesday: D. Whitney, of Harlan, Iowa; Mrs. Rosa Crowder, Panama, Iowa; E. H. and O. D. Whitney, Randolph; C. H. Whitney, Hartington.

Humphrey Democrat: Peter Merton of Wayne, has found a place to suit him, the Mustang place near Cornlea, 240 acres, for which he paid \$10,000. It is a good price but the farm is one of the best in this end of the county. Mr. Merton bought the land direct from Henry Muester.

Republican: W. H. Gildersleeve came home Thursday from Rushville, where he bought 175 head of feeders. He says the ranchmen are pretty stiff in their prices. "Will Casey didn't exactly 'waltz with the strawberry blonde,'" but he did attempt to make Rome howl down towards the foot of Main street Saturday, and as a result was gattered in by Marshall Miner. Monday morning he was brought before his honor, B. F. Feather, police judge, and for being drunk and disorderly was given a pretty stiff sentence, his choice of two punishments, a fine of \$10 and costs or 30 days in jail on light diet. At present the young man is doing time with Jack Cherry, and Wayne county is putting up at the rate of 50 cents a day for board and \$1.50 a day for jail fees. If the taxpayers of Wayne county will have the good consolation of footing a bill of about \$50 for Casey's drunk—pretty severe sentence on the county.

**ALLIED ARMY ADVANCES ON CHINESE CAPITAL.**

International Relief Force of 20,000 Men Begins the Forward Movement—Fifty Missions Reported Slain—Rumor of Japanese Repulse.

The march on Peking began Wednesday, and the allied troops, it is declared, are in China capable of maintaining international obligations. It is estimated that the expedition numbers 20,000 men of all arms, with 170 guns. The column started toward Peking under the general command of the Russian admiral, Alex. By placing the Russian admiral in command the allies settled the first point of difference. The Russian admiral's troops were the first to be engaged. With this square the mob that killed the Italian prisoners in the Mux... Jackson Square stands in the center of the park. The building on the right is the Civil Court Building.

**LAW COMPILING AUTOMATIC CAR COUPERS NOW EFFECTIVE.**

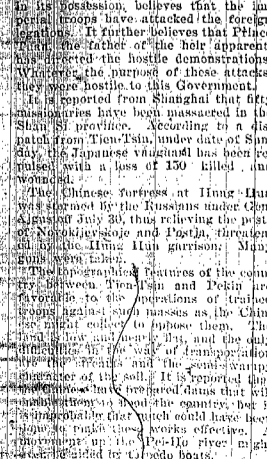

A national statute that will result in a great saving of human life became effective on the morning of Aug. 1. It is the law providing that all railway cars engaged in interstate traffic shall be fitted with automatic couplers and air brakes. Eminent any railway company that uses a car not thus fitted will be liable to a fine of \$100 for each offense.

**WILL SAVE MANY LIVES.**

For years the labor people have fought for this law. The number of accidents on the different lines, due to the lack of the coupler, were becoming appalling. In its annual reports the interstate commerce commission advocated its passage. An average of 250 employees were killed annually while coupling cars, while those injured in the performance of that duty averaged 8,500 yearly.

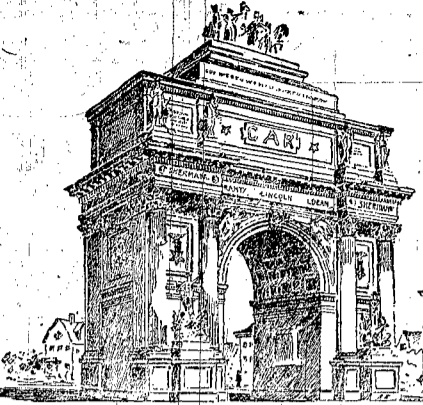

**BLEAK HOUSE FOR SALE.**

It is said that one of America's wealthy enthusiasts may purchase Bleak House, the house which Dickens wrote. It is located at Bradford, Kent in England, and the price has been fixed at \$15,000. It is on the market, and unless soon purchased it will be demolished to make room for a modern boarding house.

Police Captain Day and Officer Lamb were killed in New Orleans by Robert Charles, a negro desperado, while they were attempting to arrest him. These bandits caused the terrible riot, which resulted in much bloodshed.

**LADY RANDOLPH MARRIED.**

Now the bride of Lieut. George Cornwallis West. Lady Randolph Churchill (nee Jerome) has been married to Lieut. George Cornwallis West, after a courtship full of troubles. She is 53 and he is 26. They are both favorites of the Prince of Wales. The ceremony was performed at St. Paul's Church, Knightsbridge, London. The two front pews, which had been reserved for the family of the bride, were occupied, while the Cornwallis West family was not represented. The Duke of Marlborough gave the bride away and shipped away into a sent near his young American wife.

**CHURCH AND CLERGY.**

The Bible is being translated into the Filipino dialects. In his youth the Rev. Dr. Storrs prepared himself for a layman's career. Mrs. Anna J. Johnson of New York has gone to Cape Nome to start an evangelistic mission. Prof. Allen T. Perry of Hartford Theological Seminary has signified his acceptance of the presidency of Marietta College. Dr. Mandel Creighton, the Bishop of London, rarely has time to prepare his speeches carefully, and many of them are thought out while in his carriage. George W. Watts of Durham, N. C. has given \$20,000 to the Presbyterian Union Theological Seminary at Richmond. It is his fourth large gift to the institution. Jeremiah M. Allen of Hartford has been elected chairman of the board of trustees of the Hartford Theological Seminary to succeed the Rev. Dr. Edwin B. Webb of Boston. A movement has been started in Brooklyn to found some suitable memorial to the late R. S. Storrs, D. D., for many years pastor of the Church of the Pilgrims in that city. In D. Sankey, who is likely to visit England in September, has been asked by the Rev. Thomas Spurgeon to take part in the reopening of the Metropolitan Tabernacle, London. Bishop Potter, in a speech at some commencement exercises in New York, told his audience that during the first two years of his ministry he kept a saddle horse on a salary of \$600 a year by doing the grooming himself.

**ITALY'S NEW KING.**

Victor Emmanuel Reported to Be a Scholar and a Soldier. Vittorio Emanuele, Ferdinand Maria Genaro, who succeeds his father to the throne of Italy, was the only son of King Humbert. He was born Nov. 11, 1869, and has the reputation of being a liberal, scholarly and soldierly man. He is a general in the Italian army and a patron of art and literature. He is a cavalier of the Order of the Golden Fleece and a Knight of the Garter. His wife, Italy's new queen, was the Princess Helena, one of the seven daughters of Prince Nicholas, the ruler of the principality of Montenegro. She was born in the royal palace in Cetinje in 1873. With her sisters, she inherited the superb dark beauty of her mother, a Scherzer and a Götter.

Princess of Naples, now King of Italy, as result of assassin's work.

the daughter of a Montenegrin nobleman. She has been most carefully reared by tutors and governesses and is not only admirable in all the arts and graces of European courts, but is well versed in the play of politics and in every way qualified to succeed even so lovely a queen as Margherita of Italy.

**BRESSI IS UNDISTURBED.**

Slayer of King Humbert Has No Regrets. Bressi, the assassin of King Humbert, seems undisturbed by thoughts of the awful work he has accomplished. Reports indicate that he had planned the murder for some time, and that he had chosen Humbert not as an individual personally deserving of violent death, but as a member of the class to which all anarchists are opposed. In New York some misguided malcontents laud the man's deed and call it a masterpiece. Bressi declares that in the event of his release he will have similar work to do. His friends in this country are busy to assert that other sovereigns are marked.

**THE GOLD STANDARD.**

ALL COUNTRIES ARE RAPIDLY ADOPTING IT. Russia, Japan and India, with Their Population of 405,000,000 People, Have Fallen Into Line Since the Campaign of 1896. The currency question was so thoroughly discussed in 1896, and the assertions of the adherents of silver as a standard money metal have been so thoroughly disproven by the events since that date, that a detailed discussion of the question seems now unnecessary. It is not improper, however, to call attention to some great facts which account in some degree, at least for the course of the great nations in one by one abandoning the double, fluctuating standard and adopting the single and now almost universal standard—gold. The general movement among nations for the adoption of the single gold standard began about 1870 (except in the case of England, which took this action in 1816), and since that time all the nations of the world, excepting Mexico, China, Korea, Siam, Persia, and some of the smaller republics of Central and South America, have adopted the single gold standard. Recent statements indicate that China is pushing for the introduction of the gold standard in her customs service. This, if accomplished, will doubtless be the initial step toward similar action with reference to the currency of that country. Consular statements recently published show that Siam is pushing for the adoption of the single gold standard. Even in the short four years since the campaign of 1896 the gold standard has been adopted in Japan, with a population of 40,000,000; Russia, with a population of 125,000,000; India, with a population of 290,000,000, and several of the Central and South American republics.

In the three hundred and fifty-seven years prior to 1850 the gold production of the world averaged less than \$10,000,000 per annum; in the fifty years since 1850 the gold production of the world has averaged \$135,000,000 per annum, and in the four closing years of the nineteenth century the gold production will be greater than that of the entire first half of the century. In the single year 1896 the gold production was as great as that of the first thirty-three years of the century.

This enormous increase in the production of gold as compared with that of previous centuries began, with the discovery of gold in California in 1847, followed by similar discoveries in Australia in 1853, then by later discoveries in Colorado a few years later, then by the enormous discoveries in South Africa, which have proved the greatest gold-producing mines ever known, and within the past three years the great discoveries in Alaska. All these have been supplemented, and their results multiplied many times, by the development of new means of extraction, through which mines formerly abandoned as worthless again became valuable.

These discoveries and developments account for the fact that the gold production of the world in the last fifty years has been more than twice as great as that of the preceding three hundred and fifty years.

As a consequence, the gold in existence today, according to the statistics of such eminent statisticians as Cooke, Newmarch and Munnell, and adding to these the later statements of the Director of the Mint, is more than three times as great as in 1850. During that time the population has increased 50 per cent, being, according to equally eminent statisticians, 1,075,000,000 in 1850 and 1,500,000,000 at the present time. This would give twice as much gold for each person to-day as in 1850.

In addition to this, however, Munnell shows that two-thirds of the gold of the world to-day is coined and used as money, while in 1850 only one-third of the gold was coined. This again doubles the amount of gold money, making therefore, more than four times as much gold currency for each individual in the world to-day as in 1850.

Of the world's silver, according to the same authority (Munnell), 40 per cent was coined in 1850 and 53 per cent in 1896. Gold, unlike most commodities produced, is for the most part retained permanently—not eaten, or worn out, or destroyed—and each year's addition from the mines thus increases the world's permanent stock of the money metal, excepting the small proportion which is used in the arts, which averages, perhaps, 15 to 20 per cent of the world's production of gold in mind. It will be seen that the result of the fact half-century of gold production is the total amount mined is more than twice as great as that in three hundred and fifty years preceding, has enormously increased the world's permanent stock of this accepted money metal, and seems of itself to offer an important, if not a complete, explanation of the fact that during that half century in which the product has so greatly increased, practically all the nations of the world have abandoned the double standard and adopted this rapidly increasing and genuinely accepted measure of value.

There has been also an enormous increase in the production of silver during the same period, the total of the last fifty years being, in round numbers, \$5,000,000,000, against \$1,000,000,000 in the three hundred and fifty years preceding. This silver has also gone largely into use as a money metal, and the amount of silver money in circulation as a full circulating medium has greatly increased.

On an Index. About one thousand million gallons of oil of all kinds are annually exported from the United States, forming one of the largest and most valuable of the products of the country sent abroad. But all the money received in these years for our oil exports would be needed to offset the sum foreign shippers take out of the United States each year for doing 95 per cent of the foreign carrying. People readily appreciate the value of our oil exports, but they seem to be ignorant regarding the gold or its equivalent in our commodities that is sent abroad each year to pay foreigners for carrying our imports and exports.

THE IOWA CENTRAL HAS ORDERED 300 STEEL CARS. Automatic warning bells are to be placed at every grade crossing of the Santa Fe system. Further friction has occurred between the differential and the standard lines east from Chicago over the excess fare question. Pochontas, formerly the only county in Iowa without a railroad, has been linked with the outer world by a branch of the Rock Island.

The White Pass and Yukon route has begun to issue folders setting before the public the facilities it has to offer for reaching the gold fields of Alaska. An alliance between the Santa Fe and Rio Grande railroads which will result in the operation of two systems is, it is reported, about to be formed. Scarcity of farm laborers in the Northwest has caused the owners of big wheat fields to appeal to the railroad companies for help in obtaining men to harvest. Officers of the Great Northern and Northern Pacific have instructed their Chicago agents to send 2,000 laborers if possible. The passenger earnings of the Chicago, Milwaukee and St. Paul Railway for the fiscal year closed June 30 show a marvelous improvement over the previous year. The total passenger earnings amounted to \$7,058,533.51, an increase of nearly 14 per cent over last year. The number of passengers carried was 8,677,822. Traffic officials of the Burlington road say that notwithstanding reiterated reports that the soaking rains which Nebraska received were too late to save much of the corn crop, especially in the central and southern portions of the State, all these reports go to show that the rain was in ample degree to benefit and did actually benefit the great bulk of the crop, and with favorable weather from now to the end there is an average crop in that State.

A person who drops anything from a moving train ordinarily says "good-by" to it, but a noteworthy exception was recently observed on the Burlington Railroad. A pocketbook containing \$109.25, a gold ring, four rubies and other valuables was lost by a passenger on the St. Louis-Portland express while the train was advancing fifty miles an hour. From the first stop the loss was wired to Superintendent Phelan at Alliance, Neb., who immediately sent out a searching party. The pocketbook and jewels were found near the track, three miles from Whitman, in as good condition as when lost. They were returned to the surprised owner the next day.

**OUR ISLAND MARKETS.**

French Journal Shows Their Value to the United States. The prospective value of Cuba, Porto Rico and the Hawaiian, Philippine and Samoan Islands as markets for the products of the farm and factory in the United States, is illustrated by a recent publication in the *Moniteur Officiel du Commerce*, an official publication of the French Government, which discusses at considerable length the consuming powers of those islands and their consequent economic value to the United States, and the prospective increase in their consuming powers through enlarged production under American capital. The statement is as follows: "The consumption of foreign products by these islands is made up almost equally of articles of manufacture and of agriculture of the temperate zone. Out of \$29,125,321 worth of products exported from the United States to Cuba in 1894, the value of \$9,440,973 was in products of agriculture. Out of \$18,616,377 worth of exports for the year 1890, \$9,790,515 worth belonged to the same category. The exports from the United States to the 'Ile de la Antilles' are made up principally of cereals, live animals, salt meat, cotton goods, machinery, footwear, instruments, etc.

"Spain, under normal conditions, sold annually to Cuba, Porto Rico and the Philippines, about \$40,000,000 worth of goods, principally manufactured articles, besides wines, oils, flour, meats and vegetables. Out of 135,000,000 pesos' worth of merchandise shipped from Spain to Cuba in 1895, about 50,000,000 represented the value of products of agriculture. The proportion was nearly the same in the case of Porto Rico and the Philippine Islands.

"Speaking generally, it may be assumed that under normal conditions the surplus production of Cuba and the Philippines before the war amounted to about \$125,000,000 annually, and their consumption to \$100,000,000, but that their productive power is capable of great increase, which in turn will cause a similar increase in consumption. About one-half of the imports into these islands was of Spanish origin and the other half came from other countries proportionate to their proximity or distance. Thus the United States furnished the greater part of the imports into Cuba and Porto Rico, while the Philippine Islands received whatever Spain was unable to furnish them with from Hongkong, Shanghai, Yokohama, Calcutta and Australian ports."

**INTERNATIONAL ARBITRATION.**

Effect of United States, as a Great Power, at Hague Conference. Following immediately after the brilliant naval and military achievements of the Spanish-American war, the Peace Conference at The Hague afforded the Government of the United States an opportunity of expressing the pacific disposition and the love of justice which animate the American people by proposing, through its delegates, a plan for international arbitration, which, reinforced by other similar propositions, resulted in a convention for the pacific settlement of international disputes signed by the plenipotentiaries of twenty-two sovereign states, including all the great powers of Europe.

The United States, in signing this great compact, at the same time insisted on reaffirming, in the document itself, our adherence to the Monroe doctrine, and thus gained for that vital principle of our policy the recognition of the world.

Without cherishing illusions with regard to the practicability of universal peace, it is yet possible to believe that the existence of a permanent international tribunal before which differences may be adjudicated in their incipency and before their accumulation becomes serious, will exercise a profound influence toward a better and more rational solution of disputes between nations. The numerous arrangements for the arbitration of special questions, which the Department of State has recently been able to effect, give evidence of a growing disposition to apply the principle of peaceful adjudication to the solution of controversies wherever practicable.

**EXPORTS OF COTTON.**

Our exports of cotton compare as follows:

Fiscal year.	Value.
1891	\$250,908,722
1890	290,712,898
1889	258,401,241
1888	188,711,445
1887	210,869,280
1886	204,900,990
1885	190,056,460
1884	230,442,215
1883	209,584,774

During the Democratic administration of 1893-96, which closed our mills, cotton became so cheap that its value fell below the cost of production, and we supplied low-priced cotton to the foreign manufacturers who were shipping their goods into our market. Now our mills are using the cotton and its value has advanced. Cotton growers know that "the open mills" policy is the best.

The German-American Vote. The German-Americans of St. Louis will support McKinley this fall, just as they did in 1896. If there is any of the dissatisfaction among the voters of Teutonic birth, upon which the Democratic press of the country has apparently built such ardent hopes, it is completely overshadowed by the German distrust of Bryan. German-Americans of St. Louis say that the citizens of that nationality are still true to the flag and the party, and can be safely counted upon to vote for McKinley and Roosevelt in the approaching election. The Westliche Post of St. Louis, the most influential German newspaper in the West, will support the Republican platform and nominees. "The same is true of every journal of influence printed in the German language in this country.

They Will Not Crack This Nat. A nut for Bryan and his party to crack: Wool and sheep are now twice their value, as compared with their market price in 1896. Why? Can they not see what the gold standard and protection has done? American owners of sheep are now having a little profit. It will be hard to change them off with the Bryan ruse.—Gray's Harbor (Wash.) Gazette.

**OUR BETSUGARSAFE**

Two-Thirds of the World's Sugar Supply Now Comes from Beet Sugar Growing Countries.—The Porto Rican Tariff—Our Island Markets. Simultaneously with the development of the withdrawal of slave labor from the production of cane-sugar, beets increased their percentage of the world's supply from 4.35 in 1840 to 14 per cent in 1850; 20 per cent in 1860; 34 per cent in 1870, and they now produce 66 per cent, or two-thirds of the world's sugar. This fact shows that the farmers of the temperate zone need no longer fear the competition of the tropics in the production of sugar, and especially if a reasonable protection is granted them, as is the case in the United States. The farmers of this country have been encouraged by the Republican party in their ambition to produce the sugar of the country. The experience of other nations and of other parts of the temperate zone has shown that sugar can be produced from beets in great quantities, and at a very small cost, and can successfully compete with cane sugar under the most favorable circumstances. Under the stimulus given to the beet sugar production by Republican legislation, beet-sugar factories sprang up all over the United States, and the production of beet sugar has already reached large proportions and is increasing with wonderful rapidity.

The first thought that came to the minds of the farmers when the events following the war for the liberation of Cuba brought under our control certain tropical areas was whether or not the possession or control of tropical territory by the United States would injure, or perhaps destroy, the opportunities which they believe were afforded them for the growth of supply of the \$100,000,000 worth of sugar which the people of the United States annually consumed. This fear—if it reached the stage in which it could be called by that name—was answered in the negative by the Republican party when it passed the Porto Rican bill. The Democratic party fought with all its power to prevent the enactment of that measure which placed a duty upon articles coming into the United States from Porto Rico. That duty was small, but it was an explicit declaration by the Republican party that it would not yield the power to fix such tariff, as it might deem judicious, against the products of cheap tropical labor wherever located and under whatever conditions. In other words, it was a distinct promise to the American farmer that he need not fear that the Republican party would permit the cheap labor and cheap sugar of any tropical territory to be brought here in a manner which would destroy the American industry of beet sugar production which the farmers of the United States have, under protection given by the Republican party, been building up during the last few years.

The farmers of the temperate zone can produce beet sugar successfully in competition with the sugar cane of the tropics when both are handled by free labor, and this advantage which the American farmer has will be strengthened in the United States so long as the Republican party retains its control and is able to apply the protective principle in the interests of its farmers as it did in the case of the Porto Rican bill, against which the Democrats turned their every energy. With a few years of moderate protection against the cheap labor of the tropics, the beet sugar made in the United States will be placed fairly and squarely upon its feet. Maintaining the improved condition of labor in the tropics, and the opportunities for higher wages which the guidance of the United States will give them, will more nearly equalize the cost of the two systems of production.

One further fact in regard to the world's production and producing capacity is worthy of consideration in this connection, and that is that nearly two-thirds of the sugar now imported into the United States comes from the islands of the Pacific. The total importation of sugar into the United States in the ten months ending with April, 1896, amounted to 5,003,026,763 pounds, and of this amount, 1,500,442,362 pounds were from the United States, the Hawaiian Islands, and the Philippine Islands, thus indicating the possibilities of our Pacific territory to supply that portion of our consumption which it will be necessary to import until the farmers of this country are able to supply the home demand. Instead of sending to other countries and other peoples the \$100,000,000 per year which we have been annually expending for foreign-grown sugar, it may be expended under the American flag and in a manner which will benefit the people of our own people who may enter upon business enterprises in them.

**Political Pointers.**

One deceptive plank in a political platform readily contaminates the entire structure. It is not at all likely that the Kansas City ticket will make near the run that Aguinaldo has.

Was there ever a political gathering so thoroughly bossed as the Kansas City convention?

The Democratic orators may now include the Kansas wheat crop in their list of the foes of the "plain people."

It is not the fault of the Pettigrews, and the Ackisons that Aguinaldo didn't make Manila a forerunner of Peking.

It is a noticeable fact that all of the desirable migration from the Democratic party is toward the Republican party.

Mr. Bryan ought to understand that excessive predicting from a man whose predictions have always gone awry is not in good taste.

Mr. Bryan criticized the Philadelphia platform as an insincere document. What has he to say of the Tammany-made Kansas City affair?

A foreign commerce of \$2,240,000,000 with the gold standard rule, puts silver out of the running. At least it cannot be claimed to be the running mate of prosperity.

If the populists have a national ticket, how does it come that democrats were nominated for president and vice president?

The real democrat is now without a party. He has nothing left but the lost trust and silver trust to stand for, or McKinley and prosperity. Which will it be?

If it shall prove that all foreign ministers and missionaries in China have been murdered, there would be enough left of that empire to make it an object to sue for force when the powers get through with it.

The fusion forces of Nebraska, will meet with one of the severest frosts in November that ever fell to the lot of any political aggregation, joined together for the object of securing the spoils of office only.

"The Second Battle" has been issued by the publishers who did the work for Bryan in his "First Battle," but he denies the allegations and allegations, proclaims it a fraud because the publishers stole his speeches the past four years which were not copyrighted.

So transparent is the democratic trick of declaring that "imperialism" is the paramount issue in this campaign behind which to hide the free silver fallacy, that it will not even fool the most ignorant. Any reader or man of common sense knows that if there was any such thing as "imperialism" or "militarism" or any likehood of either ever existing in this country, the republican party would in no uncertain tones declare against it.

The soothing and healing properties of Chamberlain's cough remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by Ed. Raymond.

The National Responsibility.

Representative Littlefield of Maine, one of the ablest members of congress, in a recent interview very clearly defines the attitude of the republican party in regard to the Philippines. In a recent interview he points out that the treaty of Paris is not only an accomplished fact, but the fact that it could not have been ratified without aid of seventeen democratic votes and the personal influence of Mr. Bryan leaves the democratic party and its candidates equally responsible with the republican party for its existence. Being the supreme law of the land it must be obeyed and sustained by both executive and people.

The republican party proposes, said Mr. Littlefield, that the republic shall fearlessly, faithfully and properly discharge the duties and responsibilities developed upon it by the treaty of Paris. More than this is not required or proposed by the party in its platform. "The establishment of law and order," said the Maine congressman, "the protection of persons, life and property in the Philippine archipelago against insurrection or violence from all quarters is the constitutional duty of the president. The authority to which the people of the archipelago had the right to look for this protection prior to the treaty was Spain. We have driven Spain out and in so doing have assumed her duties and responsibilities, and we must manfully accept and discharge them. This is not imperialism or empire; it is simply an exemplification of the fundamental proposition upon which our institutions now rest, that ours is a government of laws and not of men."

This is the rational view, which must commend itself to all who are not stark mad on the subject of so-called imperialism. The Philippines, as President McKinley has declared, are ours and being ours, we are charged with the duty of establishing and maintaining order there and protecting the lives and property of the people who are not engaged in insurrection against American authority. Every citizen of a foreign country living in the Philippines has a claim to the protection of this country and not to give it would be to discharge one of the most important of international duties. The charge is made that the president is exceeding his constitutional authority in the Philippines. It is utterly groundless. When the senate ratified the treaty of Paris transferring the sovereignty of the Philippines to the United States, the president as commander-in-chief of the army and navy, had full authority to uphold that sovereignty. It was his imperative duty to do so.

It is an interesting fact to which Mr. Littlefield alludes, that while many rambling suggestions were made and there was a great deal of carping and fault-finding by democratic representatives during the last session of congress, no democratic representative or senator undertook to formulate any measure, even a tentative one, for the disposition of the Philippine archipelago.

"They apparently preferred," said Mr. Littlefield, "to leave the subject to the ingenious method of a declaration in a national platform"—a characteristic democratic practice. The republican party recognizes the duty and responsibility of the nation in the Philippines and will go on fearlessly and faithfully meeting them, confident that it will be sustained in so doing by the intelligent and patriotic opinion of the country.—See

The Omaha-World-Herald is so hot that it stutters whenever it calls to mind the wicked conspiracy of the middle-of-the-road pops to beat the democratic ticket in Nebraska. It can hardly hold itself in its indignation and it solds with the fury of an unboomed mother-in-law.

It is alright and proper for a pop to help the democrats defeat the republicans and a free silver republican who embarks in the same enterprise is sacrilegious as an angel all but the wings. But for any pop to take the other way of boosting one of the "corrupt old parties" about which he heard so much five or six years ago, is the sin against the holy ghost. Of course all depends upon whose bull is gored in this game of politics.

Doesn't it seem exceedingly strange that the same political party that abused, vilified and hated Abraham Lincoln from the time he was nominated until he was assassinated by accomplices of that party, should now place Lincoln along with Jackson and Jefferson? Doesn't it smack of hypocrisy, which, next to inability, is one of the chief characteristics of Bryanocracy.

Pardon us for boasting, but the Herald feels just like stating the fact that no spot on the face of the globe is superior to Wayne county. Take it year in and year out, and this year she's dandy and hard to equal. That's why they all come back when the go elsewhere to look for something better. It doesn't exist and it might just as well be understood now as at any time.

CONVERSION OF ROSSER.

Noted Confederate General Forsakes the Bryanite Party.

PIERCE CALL.

Already a notable convert to republicanism is recorded in the person of General Thomas I. Rosser of Virginia. General Rosser was a confederate cavalry leader during the civil war and later was noted as a fire eater and a hater of the "Yanks." At the beginning of the Spanish war, Governor Taylor, by request of General Lee recommended him for appointment as brigadier in the volunteer army and assigned him to General Lee's corps. It was one of the most noteworthy examples of the obliquation of the old civil war animosities in the face of which the new struggle upon which the united nation had entered. It was notable because Rosser had shown himself since the civil war one of the most irreconcilable of the irreconcilables, a fire-eater and a waver of the bloody shirt of the most pronounced type. So recently as 1895 Rosser made a speech at a dedication of a monument to confederate soldiers in Richmond which contained, according to reports in the press at the time the following passage:

"The men who overran our remnant of the locusts which are now infesting portions of this state. They couldn't whip us, but they devoured our substance. The army that devoured us was an army of substitutes. We killed all the substitutes. The men whom they represented stayed at home and made money and now draw pensions. I despise the man who gives United States money to a pensioner. Some time ago we unveiled a monument to the greatest general that ever lived. Today we unveil a monument to the greatest private soldier who ever lived and in time we will unveil a monument to the president of the confederacy. But we will live to see the Yankee army march again through the south and pill down our monuments. I don't know what kind of stuff the rising generation is made of, but if you and I are living there'll be blood shed when that is done."

The same Thomas I. Rosser has just written to Gov. Roosevelt the following letter:

"The Hon. Theodore Roosevelt: I have hitherto been an earnest worker in the ranks of the democratic party, but circumstances and conditions have so changed that I cannot affiliate with it any longer. I naturally came out of the great war of the '60s between the states soured and prejudiced and it was easy to believe all the charges of evil that were made against the party which I antagonized as a soldier. Though as a boy I was not a secessionist, in the fierce and bitter fight that followed I became thoroughly saturated with its venom. When war was declared against Spain in 1898 the fear that my country was in danger passed through me like an electric spark, clearing my vision and revealing the follies behind which I had been sulking. That the south is unanimous in its political opposition to the north cannot satisfactorily be ascribed to my mind, but by the difference in primary belief, but is founded solely on a blind prejudice which all candid, loyal citizens should spurn, if the north can prosper, and it does, under republican administration, the south would blush to admit that it cannot do the same, for it has equal opportunities. To say that republicans alone are dishonest and that democrats alone are honest is foul black-guardianism. I most heartily approve the administration of President McKinley and shall do all in my power to insure his election to the high office he now holds, and fully approving your political and admiring military record. I rejoice personally and congratulate my country on our good fortune in securing your services as our vice president. Believing that it plants your feet firmly in the certain road to further advancement for you and additional prosperity for our country. Sincerely yours, THOMAS I. ROSSER.

Algeld's Answer.

Theodore Roosevelt in his St. Paul dispatch arraigned the democratic party on its record and platform. It was not a milk and water arrangement for it went straight to the roots of the issues involved and it out the democratic spell binders to the quick to see their platform analyzed by a master of plain English and all its specious pretenses riddled with the buck and ball of common sense. And now the Bryanites having set up the anarchist Algeld to "answer" our rough rider of San Juan, must be ashamed with the result. Instead of answering Teddy, the speech of Algeld was a blackguardly personal attack on the governor of New York in which he pours out slanders and abuse as from a full cup.

He pretends that because he lived at Washington as an office holder, Teddy swore in an attempt to evade his taxes that he was not a resident of New York. This is a lie because he simply testified that he was a resident of Oyster Bay and had paid his personal taxes there, and consequently could not possibly be made to pay them again.

Algeld's falsification would make the people believe that he swore that he was a resident of Washington and could not be taxed on his personality in the State of New York which is an entirely different thing. Oyster Bay is in the state of New York and has always been Teddy's home and when he has stepped outside it was on official business, which does not affect one's residence according to the laws of this country.

Then he says that the colonel, who led his men to the charge of San Juan Hill actually shot a Spaniard after the enemy began to run and he says this is the only instance on record of an American soldier shooting at the backs of his enemy. What Algeld doesn't know about the ethics of war would doubtless fill a book but is really the custom of Americans to keep on shooting. And the enemy falls or surrenders. And it is the custom of all other fighting nations. Running away doesn't fill the bill. Algeld is an ass to pretend that it is unseemly to fire on a retreating enemy if he believes it, and a common slanderer if he knows better.

But this low flung personal attack on a man who never descends to personalities in his political speeches is characteristic of the Algeld gang. The man who loathes his government and its flag naturally hates the hero who stands up on the forum or on the battlefield to defend his country and his flag, and will stoop to any method of defiling him.—State Journal.

Fred Castle and son of Omaha, have been the guests of Robt. Mellor the past week.

C. A. Grothe returned Friday evening from Red Oak, Iowa, where he had been on business.

Several Wayne people attended Ringling Bros. circus at Norfolk Thursday afternoon.

DeWitt's Little Early Risers are famous little pills for liver and bowel troubles. Never grip. L. P. Orth.

Civilization begins with the plow. I may almost say it ends with the same instrument, says a practical farmer.

The Stanton hose team made a splendid record at the Fireman's Tournament at York last week. "Bully boys."

The coolest man you ever see during these hot days is the ice man who knows that his product is rapidly turning to watered stock.

Mr. and Mrs. Wily Rikabaugh returned Friday evening from Red Oak, Ia., where they had been visiting for several days with relatives.

Charles Denel, of Lanark, Ill., a cousin of Geo. L. Devine, was in the city a few days the past week looking up a location to engage in the law business.

You assume no risk when you buy Chamberlain's Colic Cholera Diarrhoea Remedy. Ed J. Raymond will refund your money if you are not satisfied after using it.

Everybody smokes the Wayne Leader manufactured at home by Wm Dammeyer. Why? Because it is the best little cigar in the city and most smokers who have tried them say so.

If our citizens will only awaken to the possibilities nothing that has ever been held in Northeast Nebraska will excel the fall festivities to be held here in September in the way of a street fair and carnival. Pluck and energy and liberality will work wonders.

The farmers who are threshing out the choicest wheat ever known in this county, in addition to a large yield for which they are receiving 60 cents per bushel, are not doing much calamity howling and it will be hard work to convince them that there is no prosperity existing.

Blisthes and excoriation, which so often annoy people, are simply efforts of nature to throw off impediments to the proper performance of her duties. Herbine will aid and assist nature in her work, and insure a skin clear and beautiful, entirely free from all imperfections. Price 50cts at Raymond's drug store.

A practical farmer in the Iowa homestead says: I have learned to not always cut off and jump into some out-of-the-way place, say that is supposed to be spoiled by the rain. Most of it can be stacked up when dry enough, and in mid winter can be utilized in some way by feeding it to cattle or colts. A stack of it put up well on my place was left where stock could run to it in the winter time, and it was all consumed. Get as much good hay in the barn as possible and should any of it get wet a time or two, stack it up for the winter.

Poison Journal: A peculiar case was coming in the district court this week started from Wakefield and growing out of the fact that J. B. Kreitle passed some counterfeit dimes on a saloon keeper at that place some time ago, as was fully described in the Journal at that time. Kreitle claimed the obols as a joke, but the saloon keeper had him taken in limbo and he is now in prison awaiting action of the government authorities. His wife has now begun an action against the three saloons of Wakefield to recover damages in the sum of \$3,000, claiming that they are responsible for her husband's downfall. The case will be unique and interesting in its character. Attorney Millard of Hartington, is the attorney for the plaintiff.

Iowa Homestead: An editor who writes an agricultural column for a paper says he never liked the plan of going out and jerking off the head of a rooster and getting him in the frying pan before he gets cold. I would dislike to tempt the aforesaid editor with fries killed in this manner if I desired them unseasoned. I believe he would eat them in almost any presentable condition. He believes in ripening fowls just the same as any other meat. How ripe? Ripe enough to become soft, so that it will require less cooking? Not for me. At our house we are living on fried chicken at this time and they are deplorable and in the frying pan in short order, and eaten in the same way.

New Campaign Documents. "American Tariffs from Plymouth Rock to McKinley and Dingley," by Senator Gallinger of New Hampshire "American Tariffs and American Sheep," by Congressman Grosvenor of Ohio; "The Tariff," or extracts from the speeches of President McKinley and Mr. Bryan; and "Policy of Protection," a speech of Senator Gallinger. All embracing 144 pages of reliable reading matter will be forwarded to any address for fourteen cents. Ask for nos. 39, 62, 69 and 75.

"Uncle Sam's Balance Sheet," is the name of large poster illustrating the benefits of the protective policy. It should be placed wherever voters can see and read. Forwarded to any address for four cents. Ask for poster G. Address American Protective Tariff League, 135 West 23d St., New York.

THE EVENT OF THE YEAR.

Sioux City's Great Carnival and Interstate Festival to be held October 1st to 6th, inclusive.

A call for a meeting to decide whether or not to have the Annual Carnival and Interstate Festival in Sioux City, brought out a large number of representative men of that city; it was the unanimous expression of opinion that the Carnival should be held; and with their accustomed liberality, the business and professional men of the city have subscribed sufficient money to make the festival a great success. Mr. Will H. Beck, who has been identified with the famous Corn Palaces and the Carnivals was selected as the director and general manager and has the support and assistance of an executive committee, which is composed of fifteen of the leading citizens of Sioux City.

There is the greatest enthusiasm in Sioux City for this Festival, and nothing will be left undone to make it the most interesting and attractive event of the kind ever given in the Northwest. While the plans have not been matured, a large number of novel and pleasing entertainments have been contracted for, and one of the week will be the oriental Midway, which will be a source of continuous delight to all.

There will also be many fine parades and gorgeous spectacles, as well as a Political Day, at which mammoth audiences will be addressed by speakers of national renown, representing the great political parties.

In fact, nothing will be left undone to make this the very best Festival ever held in the Northwest, and everyone in the territory tributary to Sioux City is earnestly invited to be present. The Festival will be held October 1st to 6th inclusive.

HANS MULLER'S FATE.

How a Religious Fantic of Dialect Extraction Was Knocked out by St. Peter.

A long time ago, dear children, a humble, hard-working, Religious Fantic, of dialect extraction, who had kept the faith in all things, even down to opposing secret fraternal societies, as his pastor demanded had a violent altercation with his verminiform appendix and was counted out.

His weary shade traveled to the gate of heaven.

"Hallo, who have we here?" inquired St. Peter.

"My name is Hans Muller," replied the Religious Fantic.

"Ah, yes; the shoemaker—the savior of soles," remarked St. Peter facetiously, where at there was great commotion and ringing of bells among the angles.

"Der same," answered Hans.

"How did you leave Mrs. Muller and the children?" asked St. Peter.

"Ach! how can I tell! I leave dem not one cent, for I make little, and I fear me dere is no food in der house," blubbered Hans.

"Yes, but how about the fraternal society insurance—I saw a solicitor in your shop not long ago, showing you a Woodman benefit certificate. That was within your means, surely, only \$4.50 per year for \$1,000, and would have left your family in comfort. You joined the Woodman?"

"Ja, you did saw der solicitor and der certificate, but I joined nefer, because I did believe the Lord would provide" answered Hans.

"Oh that's it," remarked St. Peter sarcastically, as he side-stepped "You believed the Lord would provide, did you?" he remarked as he handed him a right wallop. "You bigoted son of a rabbit, you have the nerve to come here with that antiquated 'oon,' have you?—there!" and he planted his left on Hans' solar plexus. "You're not a fraternalist hey? You believed the Lord would provide, hey. So, He will sure enough, you relic of middle age superstition," puffed Peter, as he dragged Hans to the toboggan and shrew him on. He'll provide a nice worm corner for you and a wash tub for your wife. Nixky throw that Dutchman into the religious Panatic's pen in Crematory No 510," he shouted down the slide.

"Aye, aye, str," answered a hoarse voice from the depths, and then there was a "plump" as Hans struck the bottom.

So that's what happened to poor honest Hans Muller, the Religious Fantic, dear children. The good Lord favors those who provide for their own always, and thus keep His commandments.

A Mother tells how she Saved her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysterentia in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw an advertisement in our paper that Chamberlain's colic, cholera and diarrhoea remedy was highly recommended and sent me a bottle at once. It proved the best medicine we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours Truly, Mrs. G. F. Buzlock, Liberty, R. I. For sale by Ed. Raymond.

THE ROLE OF COWARD.

That's a Part Bryan Would Have Uncle Sam Play.

Jones Says Bryan's First Official Act Would Be to Recall Troops From the Philippines.

Why the Prices of Farm Products Have Advanced and Why the Republican Party Claims Credit.

OMAHA, Aug. 6.—Viewed from a Republican standpoint, the campaign in Nebraska is progressing nicely. Chairman Lindsay has the honor in splendid working order and is doing some very effective work.

Thus far the work has been largely preparatory, preparations being made for a vigorous educational campaign, beginning at an early date and continuing to the close.

Additions to the list of speakers are being made daily and when completed it will contain the names of some of the most eloquent and forceful speakers in the nation.

The Farmer's Vote. Republican leaders, generally, are hopeful of receiving a very large vote from the patron of husbandry. It is a matter of course to everybody that the farmers of Nebraska have been progressing to a degree never before attained during the last four years under President McKinley. They have had good prices for their crops and the yield has been large. Both of these are essential to prosperity on the farm. More mortgages and debts have been paid off, more homes have been purchased, more farm improvements have been made and better times generally have prevailed in Nebraska the last four years, than for any other four years in the history of the state.

Causes of Good Prices. The Republican party claims, and rightfully, too, the credit for prosperity. It accomplished this in several ways, the principal causes being in furnishing employment to American labor at increased wages, and in building up and extending American trade in foreign countries. It is a matter of history that under Democratic rule free soup houses had to be maintained in nearly all the large cities of the United States to alleviate suffering and distress among the working classes. Democratic policies had closed the factories and workshops and labor was sorely distressed through want of employment. There are more than 10,000,000 working people employed in the workshops and factories of this country. Many of these were idle and those who were not were compelled to work at reduced wages. There was, therefore, a large demand on public charity, the ultimate outcome of which was the establishment in the large cities of free soup houses.

McKinley's election and the consequent overthrow of Democratic policies was followed by a complete transition. The factories were opened, labor was given employment at increased wages, the soup houses were closed, and the demand and consumption of farm products and by-products greatly increased.

Under the policy of a large part of the laboring classes lived on free soup. Under Republican laboring people are living on meat, potatoes, canned goods, fruit, and in short, are well supplied with all the necessities of life. Today 10,000,000 laboring people on their way home from work stop and order a pound or two of meat, a supply of butter, eggs and other eatables, whereas four years ago many of these people boarded at free soup houses and those who did not lived on scanty rations. This change has greatly increased the demand and consumption of farm products, has increased the price of farm products, and has contributed largely to the prosperity of the farmers of Nebraska and other agricultural states.

Under Republicanism new markets have been opened up for the products of American labor and of American farms, with the inevitable result that the foreign demand for American products has in the last few years been substantially increased. The increase in the price of farm products and in the wages of labor in the industrial states has in the last few years put into the pockets of the producers of this country upwards of \$2,000,000,000, an amount almost as large as the cost of the civil war.

It makes a big difference to the farmers of the United States, in the way of prices, whether the labor element consumes each day 20,000,000 pounds of meat, 6,000,000 loaves of bread, 5,000,000 pounds of butter, 2,000,000 bushels of potatoes, 4,000,000 dozens of eggs, and a corresponding volume of other food products, or whether it consumes but free soup houses (as it was under Democratic rule) and this vast demand for farm products destroyed.

It is for this reason that the Republican party claims the credit for making the farmer and laborer prosperous, and it is for this reason that it looks to them, with confident faith in their intelligence, judgment, and gratitude for their support in the campaign, and at the polls in November.

World Dishonor the Flag. Chairman Jones of the Democratic national committee is out with the bold announcement that "if Bryan is elected his first official act will be to recall the American soldiers from the Philippines and leave those islands to care for themselves." Bryan, with characteristic strategy, refused to confirm or deny this statement of his national chairman, but there is every reason to believe that the statements attributed to Chairman Jones distinctly foreshadow that part of Mr. Bryan's foreign policy in the event of his election as president.

The blighting effect of such a policy needs hardly to be pointed out. It would disgrace the United States in the eyes of all the civilized nations of the world, for it would put this nation in the attitude of deserting a post of duty at a time and in a way that would reflect selfishness, ingratitude, and inability to discharge the high obligations imposed by civilized civilization.

CANCER IS NOT INCURABLE

Time was when Cancer was considered as incurable as leprosy. Physicians and friends could give little relief or encouragement to one afflicted with this terrible disease. Now doctors know of a remedy for this fearful malady; while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in its place, for the disease is in the blood—is deep-seated and destructive, and beyond the reach of the surgeon's knife or caustic. The only way to cure the Cancer is to purify the blood so that it will be purified and strengthened, the system relieved of all poisonous effete matter before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood. S. S. S. is a purely vegetable remedy; no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you? Cancer is not always inherited; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may develop from a sore or ulcer on your tongue or other part of your body; a slight bruise or hurt, a little pimple on the eyelid, a little or more, a small lump on the jaw or breast, a harmless looking wart or mole, and other causes so insignificant as to attract little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it—begin with S. S. S. at once; it will cleanse your blood and prevent the formation of cancerous cells.

Mrs. R. Shirer, La Plata, Mo., writes: "A small pimple came on my jaw about one inch below the ear on the left side of my face. At first it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and eat into the flesh, and gave me intense pain. I tried everything I could hear of, but nothing did me any good. I then began the use of S. S. S., and after taking several bottles the Cancer healed, and there is no more sore, and I am still enjoying perfect health."

Send for our special book on Cancer; it contains much information that will interest you; it is free. Write our physicians about your case, and for any advice or information wanted; they have made a life study of Cancer and all blood diseases. We make no charge whatever for this.

Impure Blood Invites Disease.

Such a policy would place the United States in the role of coward and would hold this nation up to the scorn, contempt and humiliation of the world in general.

All the world knows, and the people of the United States know, though Bryan and his people, and the numerous Boxers of China are to the law-abiding people of China what Aguineldo and his followers are to the law-abiding, peaceful populace of the Philippines.

The world at large is holding the empire of China to blame for the cruel murders and outrages perpetrated by the "Boxers."

The United States holds the same position to the people of the Philippine islands, so far as maintaining law and order is concerned, as the government of China to its people, and the numerous Boxers of China are to the law-abiding people of China what Aguineldo and his followers are to the law-abiding, peaceful populace of the Philippines.

The people of the Philippines may be capable of self government, but continuous strife and warfare have impoverished these people, the islands are preyed upon by roving bands of savages, and it is beyond the ability of these people, without the aid of the United States, to restore domestic tranquility or form a government of their own.

The treaty of Paris, voted for by Senator Allan of Nebraska and advocated at that time by Bryan, placed the Philippines under control of the United States and the United States is morally bound to establish peace and domestic tranquility in these islands at the earliest possible moment. To call the troops home while the people of the islands are still being terrorized and shocked by the wholesale commission of atrocious crimes would be to commit a crime against humanity and one that would forever remain a stigma on American citizenship and patriotism.

Apart from the commercial importance of retaining the Philippines it is the highest duty of the United States to prosecute conquest until insurrection, robbery and discord shall be suppressed and the safety of the lives and property of the law-abiding people of the islands established.

There are a large number of Americans, Germanis, French, Scandinavians, and people of other civilized nations in the islands, besides a large number of natives who are friendly to the American people. Would Bryan withdraw the troops and expose all these people to the ravages of the savages, and the thieves? Would he withdraw the troops and thus give Aguineldo license to continue his campaign of rapine and murder? Bryan says Aguineldo is a patriot. There were people who said that of Benedict Arnold, Aaron Burr and Jefferson Davis. Patriots do not barter and sell for money the confidence and secrets of their country. They do not conspire to rob and murder a people who in the interest of humanity alone accepted that responsibility and that duty which involves the sacrifice of life and millions of money.

Aguineldo a patriot? Perish the thought. History recites that Aguineldo agreed with the Spanish government to betray his devoted followers upon the payment of \$80,000. History further recites that after having received and dissipated the money Aguineldo broke faith with Spain. He affected to pose as a friend to the United States, but the diabolical eye and perceptive mind of Admiral Dewey soon discovered that he was playing false and that the purpose of his visit to the United States to further his own interests. The official messages on file at Washington will show that at no time did Admiral Dewey impose confidence in the good faith of Aguineldo. On the contrary, Aguineldo's deportment was such as to cause Admiral Dewey to mistrust him from the very start. And yet, with the blood of American citizens on his hands and with a record stained by atrocious crimes, unexampled duplicity and perfidy, he was permitted to lead the troops and place the Philippine islands at the mercy of this monster of iniquity.

State Institutions. Reports concerning the management of the various state institutions are certainly not intended to inspire public confidence in the integrity of the functionaries. It is the intention to carefully investigate each one of these institutions and give to the public an impartial record of the condition of affairs as found. In some of these institutions already investigated a considerable amount of fraud has been discovered, and to say nothing of the startling exhibitions of dishonesty presented in ignorance and impudence. From one end of the state to the other the Paymaster administration savors of incompetency, malfeasance, profligacy and fraud. In several of the institutions the laws of the state are at this very time being openly and flagrantly transgressed. The offenses range all the way from maintaining incompetent persons in responsible positions to the misappropriation of funds and open raids on the treasury. Evidence has been found of state property having been sold and the money appropriated to private use, and also of property having been bought with state funds for private use. The exact condition of affairs obtaining at each of the various institutions will from time to time be given to the public.

# There's a Time for Everything.

Now is the time to purchase your Fruit for winter use. I have had an excellent sale of fruits during the past few weeks, and yet not more than 25 per cent. of fruit for canning has been sold. Now is the time to buy and it will pay to do as hundreds of others do; supply your wants at Rundell's Fruit Headquarters. Peaches are of a fine quality and at a wonderfully low price. Plums of various varieties are of excellent quality, and have sold over one hundred crates in the last three weeks. These plums make delicious preserves and you will never regret placing your order for a crate. And as to Peaches, it is probable the market will decline both on free and cling stones some time next week. However, I have plenty on hand at all times, and it you desire something for table use, the late Crawford's are very "toothsome." It matters not whether it is peaches or anything else in the fruit line, you may depend, if you call at Rundell's, you will get just what you want and at a "Rock Bottom Price." If you desire to know the best time to purchase certain fruits, will tell you to the best of my ability and not deceive you for the sake of making a sale. Fruits arrive two and three times a day, and you may depend that fruits kept at Rundell's are fresh and strictly first class.

From the Republican:  
WHITNEY—At his home in this city, Sunday evening, August 5, A. F. Whitney, aged 52 years, 4 months, and 5 days. Deceased had been ailing for about 18 months, the immediate cause of death being a stroke of paralysis Thursday August 2. Mr. Whitney was a native of Michigan and came from there to Marshall county, Iowa, with his parents when he was 8 years of age, they being among the early settlers of that part of Iowa. He moved to Shelby county, Iowa, in 1876, and was married to Ella M. Collins in 1878 and to them six children were born, four of whom, with the wife and mother, mourn the death of a kind husband and a loving father. The family came to Wayne county, Nebraska, in 1892. Five years ago deceased united with the M. E. church of this city and has been a devoted member of that faith to the time of his death. The funeral occurred from the M. E. church at 11 a. m. yesterday, Rev. Bithel delivering the funeral sermon. The sympathy of friends and neighbors, among which is the Republican, will be with the bereaved family in their time of extreme sorrow.

In view of the recent news from New Orleans, it would appear that they were holding an election according to the system advocated by Senator Tillman.

Towne was forced to resign as the populist nominee for the vice presidency and his declination was made public yesterday. It was rather a black eye for populism, but after all Towne was sensible. A declination beats disastrous defeat a whole lot.

If the reports the HERALD hears are reliable, and we have no reason to believe they are not, the wheat crop in the county is yielding from 11 to 22 bushels per acre, but in general runs from 14 to 18 bushels per acre. But in every instance the grain is reported to be of extra good quality.

The pop organs are circulating a beautiful tribute from the late Proctor Knott of Kentucky to the pious and privity of Adlai Stevenson. Well, he may be very pious and pure but that didn't stop him from trying to put Lieut. Jenkins, now of Pawnee, in this state, in the penitentiary for bringing a "nigger" into the sovereign state of Illinois when a colored boy brought him home from the front too sick to raise his head. That sort of Christian needs a heap of watching.—Journal.

C. H. Dietrich, the republican nominee for governor, presents a striking personality—well and compactly built, with a bright, clear cut, decisive language and movements. His face is built on lines of firmness, determination, push and vigor—nothing weak or vacillating about him. He is a man who makes friends quickly and never forgets them. Not a college man, yet he has learned widely in the school of life. His conversation is perfect grammatically and pleasing to the ear, nothing harsh or gruff enters therein. He makes no pretense to aristocracy and appears as common and genial with all classes as the most precise might desire. In fact he is a man who will take with the people and the more people he meets the more friends he will make. He came to Norfolk unannounced and unheralded. Instead of taking rooms and inviting friends he went around and saw all he could of them, although after the fact became known that he was here many went to the hotel to see him. His personal appearance leads one to think of Emperor William of Germany and a comparison of the pictures of the two men will show quite a resemblance. Judging from a passing acquaintance Mr. Dietrich will make a governor who will be an honor to the state.—Norfolk News

Damn is a bad name for a labor agitator or any other kind of an agitator. It is too descriptive.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene County, Pa., is one of these. He uses Chamberlain's colic, cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by Ed. J. Raymond druggist.

### Order of Hearing.

August 9-30.  
The State of Nebraska, vs.  
Wayne County.  
At a County Court, held at the County Court Room in and for said County of Wayne, on the 3rd day of August, 1900.  
Present, E. Hunter, County Judge.  
In the matter of the estate of Charles A. Johnson, deceased.  
On petition and filing the petition of Anna Louisa Johnson, praying that the instrument filed on the 3rd day of August, 1900, and purporting to be the last Will and Testament of said deceased, may be proved, approved, probated, allowed and recorded as the last Will and Testament of Charles A. Johnson, deceased, and that the execution of said instrument may be enjoined, and that the administration of said estate may be granted to Anna Louisa Johnson as executrix.  
Ordered, that September 3rd, A. D. 1900, at 3 o'clock p. m., be assigned for hearing said petition when all persons interested in said matter may appear at a County Court, to be held in and for said County, and show cause why the power of the petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Wayne County Standard newspaper printed in said county, for three successive weeks prior to said day of hearing.  
E. HUNTER, County Judge.
