Our . . . Anniversary

One year ago we came to Wayne and we have met with greater success than we had reasons to expect. We came with a new well selected stock. Our trade was good from the start and has been increasing every day since. To meet an increasing trade we have put in more than double the stock we had last year. We now have the largest and best selected stock of clothing ever brought to Wayne county. Our stock would be a credit to a town twice the size of Wayne. The class of goods we sell has induced people to come from neighboring towns to trade with us. When we located in Wayne we believed there was room for a first class, one price cash clothing store and we are glad to state we were not mistaken. Our success has proven that the people appreciate our efforts. Some of our competitors predicted that we would be here about six months; others said that about one year would satisfy us that Wayne would not support an up-to-date clothing store such as we are conducting. Our method of buying and selling goods has proven that the old way of selling clothing on long time cannot compete with us. The class of goods we sell cannot be bought outside of a city. We can prove to your entire satisfaction that you need not go to Omaha or Sioux City for good clothing as our prices are lower and our selection will please you. If you have never looked at our clothing it will pay you to call on us before you buy. Our goods are all marked in plain figures and we sell strictly at one price. If you should change your mind after you bought the goods you can return them and your money will be cheerfully refunded.

Men's Suits.

Men's and Boys' Shoes.

We are expert shoemakers and have a complete line of men's and boys' shoes. We sell only the best and warrant every pair to give satisfaction. We have a line of Little Lord's shoes for boys that wear 8 to 13. Made to fit a boy's foot, with low, broad heel. No old out-of-date style to show. Lowest price and latest style. Try us for shoes, and get the best!

Men's and Boys' Underwear.

In this climate you need good wool underwear. We sell the celebrated Staley underwear. This line is entirely different from any other line sold in this part of Nebraska. If you have had trouble with your underwear buy Staley's and you will wear no other. If you will call and let us show the difference between Staley's and other makes of underwear, you will be satisfied to buy your underwear of us. If you want all-wool underwear for your boys, we have it. Come in and ask to see Staley's underwear. No matter if you are not ready to buy, it will pay you to see this line. We have sold this line for over twenty years and we know we can satisfy you.

Young Men's Suits.

Young men like nice clothing. They like stylish suits. We make special effort to please the young men. We have the latest things out, cut single and double breasted vest, in all late patterns of cloth. We have a line of suits made expressly for young men. Nothing like it can be bought outside of a city. We can please you. If you are particular, give us a chance to fit you. Price \$10 to \$16. Also a nice line of cheaper suits at from \$4 to \$10.

Boys' and Children's Suits.

This is where we excel all other stores. We make it a rule to have the latest things in boys' and children's suits. We get trade from all the neighboring towns for children's clothing. If you want nice clean clothing for boys and children come to Wayne and you will be pleased with our line. Our prices will please you. Our goods are the best in the market, entirely different than is sold in dry goods stores. Our children's department has pleased the ladies of Wayne and surrounding towns and our stock is now more complete than heretofore. Marked in plain figures and sold at one price only. If you take it home and change your mind, bring it back and get your money.

Men's Pants.

We carry a complete line of separate pants, and pants that fit and wear and look well. The Dutchess Trousers beats them all for fit and wear. You will find this warranty sewed in every pair.
WARRANTY.
 You buy a pair of Dutchess all-wool trousers at from \$2 to \$5 and wear them two months, for every suspender button that comes off we will pay you 10 cents. If they rip at the waist band we will pay you fifty cents. If they rip in the seat or elsewhere we will pay you \$1.00 or give you a new pair.

We feel gratified to the people in Wayne and adjoining counties for their liberal patronage during the past year. With the largest stock in Wayne county, and lowest prices, we hope to increase our trade the coming year. You are invited to call on us during the Street Fair and we will be pleased to have you look at our goods, no matter if you are not ready to buy.

Who is giving away every 25th pair of shoes.

The same fellow is closing out all his lines of work shoes at cost. We have been selling at a reduction in these lines but to finish up will sell them out at less than we can buy them wholesale. Our reasons are that we want to handle and to put in their place a different line of shoes made by other factories.
 We will sell Boy's Shoes in some lines at same rates, but will not repair shoes sold at these reduced prices free of charge as we make no profit and can't work for nothing.

republic that may be established in the old world? Could we do anything that would more endanger our peace and security than this extension of our international obligations? Would we not thus become perpetually involved in all the strife and dissension of the eastern hemisphere? Is it possible to conceive of a policy that would necessitate a greater military armament or a larger standing army than this proposition to become god-father of the world? Yet this is the way Mr. Bryan would avoid "militarism" and "imperialism.—Conservative.

olion upon any man who is nominated for this office, as well they should. The last eight years have given a record that is very questionable to say the least. The delegates to the convention were even suspicious of what might be the outcome of the nomination for this office. West Point and Cuming county solved the problem by presenting the name of William Stuefer. Mr. Stuefer was born in Watertown, Wisconsin, in 1847, removing to Cuming county Nebraska in 1864, locating on a homestead near the present site of West Point.

He remained here looking after his own farm until 1873, when he moved to West Point and engaged in the insurance business. In 1875 he was appointed deputy county clerk, and held the office for four years. His election was on the republican ticket in the face of a good stiff democratic majority in that county. In 1894 Mr. Stuefer was elected state senator from his district and served with credit in the legislature of 1895, his record proving him to be a man of sterling integrity. At the present time he is president of the West Point National Bank and vice-president of the West Point Creamery, both institutions enjoying a state reputation. In his official, business, and private life, Mr. Stuefer has made a creditable record which can be verified by his many warm personal friends not alone in Cuming county but in all parts of Nebraska.

Anyone with a whit of sense knows that there is no danger of this country ever becoming an empire through the influence of any party, and the song on this line by the fusion press is the merest nonsense. It will fool no man with a grain of intelligence. Editor Rosewater won not handsome in the primaries held at Omaha last Friday, every ward electing delegates in his interests in the U. S. senatorial contest.

NEBRASKA IN LINE

Indications That It Will Give Its Vote to McKinley.

Public Sentiment Steadily Changing. Abuse of Executive Authority.

Omaha, Sept. 10.—At a pace that evinces deliberation and sober thought Nebraska is making its way toward the republican column.

It is no idle assertion to say that at this very time Nebraska is a doubtful state, with sentiment steadily changing in favor of the republicans, in that degree as to justify the assertion that it will give its electoral vote to McKinley.

The effort of the fusion campaign managers to stem the tide by trying to meet the logic of events with bugaboo and vagaries is falling far short of accomplishing its purpose.

In the first place, the people of Nebraska are too intelligent to be duped in any such way. They know that the cry of "imperialism" and "militarism" is only a screen to divert attention from the real issues. They know that it is intended for no other purpose than to keep them from thinking of the terrible distress of four years ago, and from comparing the philosophy and prophecy of the "chry orator" in 1896, as to what terrible things would happen if McKinley was elected, with what really has happened. Knowing this, the people are turning their backs upon bugaboo and are giving forebodings associated with their domestic affairs careful consideration.

The people are asking themselves what guarantee have they. If Bryan is elected, that the terrible industrial and commercial distress of four years ago will not return?

They are asking themselves why they should desert a wise leader and sound policy—a policy that has brought good prices for all farm products, that has closed the free soap house and opened the factories to ten million laboring people—for an unwise leader, and an unsound policy that, every time it has been tested and applied, has precipitated a financial and industrial crisis, has killed the hand of labor and extinguished the fires in hundreds of every factory.

They are asking themselves why they should reject that which has been proven to be for their best interest for that which history proves to be fraught down with injury and danger.

There was a time when many of the people of Nebraska permitted others to think for them. They were too busy with their own personal affairs, or too confiding, to devote attention to political problems. For that reason many honestly believed in the vagaries of Bryan in 1896. They accepted what he said as gospel truth without stopping to consider for a moment.

It is different today. They have learned to the contrary in the school of experience. They have been taught to think for themselves, and, in doing this, they have discovered to what extent their confidence has been imposed upon. They have discovered that not one of Bryan's predictions of 1896 has come true. That he was wrong in each and every instance. He told them McKinley's election would visit upon the country inconceivable disaster. He told them that just so soon as McKinley was elected, this country would be visited by such suffering and distress as it had never before known.

Results have demonstrated that this, to say the least, was a vicious and shameful imposition on public credulity.

NOTHING TO GAIN. The people of Nebraska know by this time that they have nothing to gain by voting for the Bryan electoral ticket. They know full well that established policies of government are in such close sympathy with industry and conditions that they cannot be disturbed without causing unrest, and they know further, that to substitute policies that are a tax on enterprise and energy for policies that are a tax on labor means to do that which sober reason holds to be inimical to the public weal.

It is vastly more important to the voters of Nebraska that there shall be good markets and good prices for farm products, that labor shall be employed, that the money of the nation shall be free from spurious contamination and shall be the very best, that money may be had at a low rate of interest as a stimulant of industry and as a relief to the debtor, than that the Philippines shall be turned over to Aguinaldo's final government.

Concerned as all patriotic Americans are in the proper solution of the Philippine problem the first and foremost thing to be considered is the welfare of the American people at home, especially since the McKinley administration has demonstrated its ability and intention to adjudicate the Philippine question along that line inconsistent with American customs and traditions.

There is no danger, as regards the Philippines. That problem will be properly solved. The great danger that confronts the American people is free trade, spurious money and consequent low prices for the farmer and his farmer.

ON A JUNKER. Attorney General Smith is off on another "trust-busting" expedition. Why he had to put the state of Nebraska to the expense of a junker to New York with no possible objective point other than to achieve partisan notoriety, is a question difficult of solution. Thus far he has accomplished nothing, nor is he likely to, but on the other hand has added a few more figures to the enormous amount expended by his department in one way and another the last two years. No other attorney general ever made more grand stand plays for political effect and no other was ever less successful. No attorney general ever gave the people such small returns on the money expended. From first to last it has been a play to the galleries, with the result that much money has been expended and very little if anything accomplished. If Attorney General

money really intended to arrive trusts into exile he would hardly indulge in the profitless practice of chasing phantoms about the country when he has any amount of material to work on right within the limits of his home community. It may be enjoyable sport for him, but it is rather expensive sport to the tax payers, who will have to go down into their pockets and pay the bills.

ATTESTED PROSPERITY.

Reports from the various towns and cities throughout Nebraska, bearing on the financial condition of the people, go to indicate that there has been a substantial increase in the earnings and savings of the people the last four years. Of the many reports received not one shows a decrease in the amount of money deposited. All show a substantial increase. Four years ago money was a scarce article and the borrower, even on the best collateral found it difficult to negotiate a loan. Today money is abundant, and what is more significant, much of the money being loaned out, is not the money of eastern capitalists as formerly, but money deposited by and belonging to the people of Nebraska. More than \$30,000,000 is money belonging to people of Nebraska. Nearly 50 per cent of the mortgages held against Nebraska collateral is held by Nebraska people. In the last four years the people of Nebraska have increased their bank deposits by more than \$30,000,000, while the amount that has gone into new homes, new farms, new enterprises and new industries, is fully twice as large. The prosperity of the business man, of the farmer and of the laborer, is abundantly attested by these figures.

INVADERS OF THE ASYLUM.

Since it has been discovered that the editor of the Des Moines Globe paper from which the fusion organ has been borrowing a campaign material as a result of the incendiary utterances on imperialism, was formerly an inmate of an asylum for the insane, the fusion editors have with a display of rufeness deserted him, and they now find themselves subjected to the humiliation of having quoted as authority the irrational, irrelevant and insane opinions of an insane man.

The Omaha World-Herald, which has devoted columns after columns of space to the reproduction of the editorials of this poor unfortunate, after having learned that he was at one time an inmate of an asylum for the insane, and after knowing that his mental faculties have not as yet recovered their equilibrium still persists in palming off his spurious opinions upon its readers. Other fusion papers have discovered their mistake and quit it. The World-Herald alone still keeps at it, presumably because it had given up more space to the reproduction of his articles and was therefore all the more sadly taken in. Its readers, however, will hardly fail to hold it to account, even though pathos, for persisting in doing its column with the distorted quotations of a disordered brain. It is no doubt the consensus of opinion that the fusion editors are abundantly able to work of insanity, without going into partnership with a person admittedly insane.

It is safe to assume, the high having discovered that the author of these articles which they have been palming off on their readers is a responsible person by reason of a disordered mind, not one of the fusion editors will have the unwholeness to apologize to the public or to acknowledge the mis take.

In attempting to fix the issue to overshadow the fusion editor as less considerate than himself generally, he is a well established principle of ethical jurisprudence, that no one of unsound mind shall be held accountable for his words or deeds. In this instance, however, no one dares to affect to hold the inmate accountable, but they persist in holding the Republican party accountable for holding the Republican party accountable about with him. It is a flagrant imposition upon the public, nothing more.

A VULNERABLE PRACTICE. The custom or practice which permits officials to sell public property and not make a proper accounting of the funds to the treasurer and auditor is a vulnerable one. Surrounded by every safeguard possible it nevertheless affords an opportunity for the dishonest and designing official to rob the tax payers.

In the reports that have been published from time to time concerning the management of the state institutions the last two years, evidence of this character stands out prominently. In more than one instance it has been discovered that property has been sold and the money misappropriated. Some of Governor Poynter's appointments have not been slow to make use of this opportunity to replenish their pockets. Just to what extent this practice has been carried is not as yet fully known, though there is evidence that much money has been diverted from the proper channel in this way.

This custom of practice has been in vogue for some time, yet it is a most expensive one to the tax payers.

Bryan's large volume of oratory will be taken with due allowance and for what it is worth this fall. His prophecies don't materialize. Hon. John R. Hays is making a clean canvas for congressman, and if ability and worth count for anything he is the man to elect, and the people who believe in sound money, protection and prosperity will see that he gets their votes.

Mary Ellen Lease is a true populist but she seems to be too conscientious to favor fusionism for the spoils of office, therefore she is stamping the state advocating the election of McKinley because of the condition of affairs under his administration.

Do you want a change? That is the most important question before the voters at this time. The cry of imperialism and militarism is all bugaboo. If you are doing well and are satisfied you will vote for a continuance of the present times by voting for William McKinley. The Springfield Republican (dem.) sees no promise of democratic victory in the election returns from Vermont. It calls attention to the fact that for many years the republican majority has gone up or down in a way to indicate clearly which party would win the presidential election in the same year. Every republican defeat in presidential campaigns since 1872 has been preceded by a slump in the republican majority in Vermont in September of the same year. The republican vote of 1896 was so abnormally large that a majority of 30,000 this year as opposed to 28,000 then cannot be considered a "slump." The Republican argues from it, therefore, that McKinley will be elected, but by a narrower margin than in 1896.

Mr. James Bailly is treating his horse to a coat of paint. Work on the new school building is progressing very nicely. Geo. D. Meiklejohn will be the next United States Senator from Nebraska. Lion the past two years, left Saturday for Lincoln, this state, where he will attend school. The ladies of the Baptist church will serve dinner and supper, picnic day, in R. D. Merrill's machine house and extend a cordial invitation for all to dine with them on that occasion. There is weeping and wailing in the camp of the popovers party in Nebraska this fall. The hand writing on the wall is so plain that they who run may read: Nebraska is repudiated by 10,000.

Saturday is picnic day and a grand good time is looked for. Lay aside your work for that day and come to Carroll and enjoy yourself. Good speaking, plenty to eat and lots of amusements are promised for that day. Bring your wife and your children. Invite your neighbors to come, and tell everybody you know to come to Carroll next Saturday. **HOSKINS.** Seven cars of live stock and grain shipped since our last report. The heaviest rain fell in this vicinity last Monday night that has fallen for a year. Everything was flooded. A. T. Waddell, Fred Ziemer Jr., and L. Ziemer Jr. drove to Wisner Wednesday. Negroes and Filipinos. A dispatch from Nashville, Tenn., says that certain self styled negro leaders there are appealing to colored men to vote for Bryan on the ground that the Republican administration is holding the Filipinos in slavery like that of the negroes before the civil war. The dispatch adds that this appeal is expected to be especially effective with "the more ignorant colored men." The colored voter who would be caught by such a self-evident lie must indeed be of a low order of intelligence.

There is no slavery in the Philippines proper. Every man, woman or child in the islands, of whatever race has the same unquestioned freedom as has every American. Nor are the Filipinos in political slavery. They do not vote for president and Congressmen, but neither do black or white men in Alaska or New Mexico. Yet no one asserts that slavery exists in those territories. In Luzon, wherever the rebels have been suppressed and peace has been restored—and that is nearly all over the island—the Filipinos vote for their local officers. So they do in other islands. Within a few months, if present plans succeed, the Filipinos will be voting for members of their island Legislatures, as those of Negroes island have voted already.

On the other hand Mr. Bryan's party has disfranchised and reduced to political slavery over 500,000 blacks in Mississippi, Louisiana, South Carolina and North Carolina. These voters are not only denied voice in the election and Congressmen, but vote for city and county an act of Mr. Bryan's party men has fewer political opponents than the "opposed" Filipinos. His party is now preparing to vote about 600,000 more colored men in four other Southern states no hope of righting any in Republican success on legislation.

It daily denounces the aggression of the Filipinos, denunciation of "consent of the governed" by his party in the Philippines. He is so busy with his own party's interests that he has no time to care for the colored man who would vote for Mr. Bryan. Inter-

Blood Troubles: Cancer, Scrofula, Old Sores, Rheumatism, Contagious Blood Poison, Chronic Ulcers.

As the blood contains all the elements necessary to sustain life, it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by a certain sore, ulcer, eruption or inflammation appearing on the skin. Every blood disease shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, liniments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment.

BLOOD TROUBLES REQUIRE BLOOD REMEDIES. The poison must be completely and permanently eradicated—the blood reinforced, purified and cleansed, or the disease goes deeper and saps the very life. Mercury, potash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small doses—never cure, but do much harm by adding another poison to the already overburdened, diseased blood. S. S. S., Nature's own remedy, made of roots and herbs, attacks the disease in the blood, antitoxins and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, unfailing specific for all blood and skin troubles. **Free Medical Treatment.**—Our Medical Department is in charge of skilled physicians, who have made blood and skin diseases a life study, so if you have Contagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer, or any similar blood trouble, write them fully for advice about your case. All correspondence is conducted in strictest confidence. We make no charge for this service. Book on blood and skin diseases free. **SWIFT SPECIFIC CO., Atlanta, Ga.**

Norfolk Journal: Miss Lillie Bartram has returned from Peru where she attended the summer term at the state normal, also the Wayne county institute. She has engaged to teach this winter near Hopkins beginning the first week in October.

The emergency bags sent by a church society to the Kansas soldiers in the Philippines contained among the necessities a box of DeWitt's Witch Hazel Salve, the well known cure for piles, injuries and skin diseases. The ladies took care to obtain the original DeWitt's Witch Hazel Salve, knowing that all counterfeits are worthless. L. P. Orth.

Tekamah Herald: We find the sentiment ignoring stronger among the farmers: "It is a good thing to let well enough alone." It is no stretch of memory to recall the hard times of '96, and they are not going to take any chance of having them repeated. They also remember that every promise Bryan made in 1892-94 was erroneous. If he was wrong then, why trust or believe him now.

Wayne Enterprise: From Wayne papers we learn that the board of insanity did not act wisely in the matter of the Wainland murder case. Wainland was taken before the board and pronounced insane and then turned over to Wainland's brother who agreed to take care of them. The action of the board would naturally carry the impression that they were slightly insane themselves. Their duty was certainly to send him to the asylum. This is the second Wayne county insane murder case and a bad disposition was made of both.

It digests what you eat. You need not diet yourself. It contains all the digestants combined with the best known tonics and reconstructives. It will even digest all classes of foods in a bottle. No other preparation will do this. It instantly relieves and quickly cures all of the stomach troubles. L. P. Orth.

A leading Wayne business house sent over a column ad to this office Saturday with instructions to run it two weeks at a certain rate, stating that it was the same rate they paid other papers, and if not satisfactory to return the copy. As the rate offered was only one-half regular rates of any respectable newspaper, the copy was promptly returned and the ad declined with thanks. While we are not so flush with home advertising at the present time as not to have room to spare for paying advertisements, still, outside people must pay the same as home merchants or else their business cannot be handled at this sanatorium.—Wakfield Republican.

Pierce Leader: So many new uses for corn have sprung up that it begins to look as if this product were not to go a begging again soon. Spirits are employed largely in the manufacture of smokeless powder, so necessary in modern warfare. These spirits are manufactured from corn and America seems to be the almost exclusive manufacturer of them. All the nations of the earth are ordering spirits for that purpose. Besides it is made into many articles of food such as glucose, grape sugar used by bakers, another kind of sugar used by ice makers, starch, grits, flourine, corn oil, rubber substitute and gum. The new rubber is made of the refuse or waste in ordinary yellow corn. A very good quality of this article is now made in Chicago which will bend, stretch and show characteristics of ordinary rubber. Verily corn has a big field.

E. R. Lundburg returned to his home at Wayne last Saturday after a month's work on the Advocate. Mr. Lundburg came to us a stranger but he proved a "joy forever." We would have gladly kept him longer, but he felt obliged to go as time is nearing when he enters the law school at Lincoln for his final year. No preventing providence next June will find him a full fledged lawyer and that he will prove an ornament to the profession cannot be doubted by those who know him. His principles are right and his ideas high, and best of all he has the moral courage to stand by them. The Advocate people are glad to have made his acquaintance and bespeak for him the success that he deserves. Chas. Kelly living seven or eight miles south of Laurel, sold three or four loads of fat steers to H. A. Ankeny. One of the "writers" weighed 1910 pounds, and brought nearly one hundred dollars. Such animals as these are better than nine tenths of the gold mines and more sure.

Telling the truth is a good thing. It may not always be the best to tell the whole truth. There are extenuating circumstances in telling the whole truth. A California gentleman who is a Sunday school teacher now comes forward with a statement that he gathered 350 pounds of tomatoes from a single vine. This is said to be the tomato truth and to tell a truth (if it is a truth) is straining on ones reputation. It is a poor plan to tell a whole truth that no one will believe.—X

"If there is anyone who believes the Gold Standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me, because if I promote him it will not be maintained in this country longer than I am able to get rid of it."

This language was used by Hon. W. J. Bryan in a speech at Knoxville, Tenn., Sept. 16, 1896. We will notice that Mr. Bryan does not want the vote of "anyone who believes the Gold Standard is a good thing." Can anyone believe different after witnessing our sound business and financial prosperity since the Gold Standard law has been enacted? Mr. Bryan made a "promise" to the American voters that the Gold Standard law "will not be maintained in this country longer than I am (he is) able to get rid of it." The election of Mr. Bryan to the presidency would, therefore, be immediately followed by attacks on the financial integrity of the United States and of every individual citizen. The result would be a repetition of the business panic and disaster that we experienced during the last Democratic administration.

A Letter from Everett Laughlin.

Jackson's Hole, Wyo., Aug. 23, 1900.

On Monday, Aug. 20, we reached the antelope country. The antelope, elk and deer were not scarce until Sept. 1 and the fine being 50 an animal and the third offence the penitentiary of course did not kill any. We saw a herd of about 30 antelope feeding about 300 yards from the road Monday forenoon and for the next day we saw from two to five in a bunch feeding with the cattle and horses, some as close as 50 yards. We were told that we could kill antelope if we were good shots, but a man who couldn't kill an antelope at 50 or 75 yards distance standing still, it seems to me would be a pretty poor marksman. I have no doubt that residents here kill the game out of season the same as they do chickens at home. The law also provides that each man can kill two antelope, two deer and two elk in a season, but this part of the law also is not obeyed. The state employes and wardens, one of whom was stationed in the antelope country, we passed through. Since Monday we have seen no antelope but are told there are plenty of elk up in the mountains.

The mountains along Green River are covered with pine from 6 inches to three feet in diameter. So far no effort is made to use this pine except by the settlers who build all their houses, barns, sheds and fences of it. The U. P. railroad has one or two lumber camps on Green River about 185 miles above the town of Green River, where they have a gang of men going out cutting and floating them down the river.

Thursday at 10 o'clock we left Green River going up a little stream called Little Grant for a few hours, when we left it to cross the divide. All forenoon we rode in our shirt sleeves while at noon we got drenched in our faces in a snow and rain storm. About five o'clock we came down over the divide and struck the Big Grant which we followed out to Jackson's Hole on the Snake River where we are now camped at the extreme northern end. This country will be remembered as the place where the first big game was shot years ago occurred. It is a strip of valley about 50 or 60 miles long and from 2 to 5 miles wide. It is a good grazing country and there is some irrigation done but not much. The cattle here are all fat enough for market, which shows that the grass is very nutritious.

We are now about 25 miles from the park which we expect to reach Tuesday.

The last week has been a poor one for game, and we have been rather short on meat but we hope that when we get into the park we will find good fishing. We will probably spend from 10 to 15 days in the park going back the way we came as far as the antelope country and try to get an antelope apiece at least.

We are all enjoying the trip very much. Our horses are losing some flesh owing to the fact that they have to eat all night and have little time to rest and the cold nights in the mountains cut them down some. On Tuesday night we had a heavy frost and freeze. We are in plain sight of the Teton range of mountains and they have tons of snow down their sides which makes a west wind chilly, to say the least.

There seems to be a good many people coming into the upper Green River country and the Big Grant valley. The Great Teton valley we passed over or more new log houses but there are only occasional little patches of valley with wooded mountains on each side. These settlers have small bunches of cattle or horses usually of 25 or 30. On Green River one ranchman told me that the U. P. he had camped had had 1300 horses in one bunch. There is some range country about Kindel on the Green River which is not used at least there are no ranches above Kindel we were told and that it was a fine grazing country. Up in the hills they have wild oats and what they call blue grass, but it is not like our blue grass.

W. W. YOUNG FOR SENATOR.

W. W. Young of Stanton, one of the best and most popular men in Northern Nebraska, was placed in nomination for State Senator by the republican senatorial convention of the Eleventh district held at Norfolk yesterday afternoon. Mr. Young is an able speaker, a formidable debater, an honorable, upright citizen and a man who will fill the position with high honor and credit to his constituency and to the grand commonwealth of Nebraska. It was with considerable reluctance that Mr. Young accepted the nomination, and then only at the earnest solicitation of a host of friends and the unanimous nomination tendered him by the convention. If the republicans of this district do their duty W. W. Young will be elected by a handsome majority.

THE EVIL SPIRIT

Often seems to possess those who drink evil spirits. That is only natural. Now if you wish to be possessed by a good spirit—and most people do—drink only good spirits. No brand of Rye could be purer, better or more wholesome than our Old Hopestead Bourbon and Planet Whiskies. Try a bottle. It contains more spiritual consolation than one would expect inanimate glass to be capable of. In the opinion of choice spirits they are the choicest spirits distilled.
