A very large farm can be either a farm or a ranch. It is more liable to be the latter. A great deal of help is required on a large farm and if provision is not made for boarding and lodging the hands, they become a part of the home, and a home may not be what it should be under such circumstances. A ranch may be a home and it may be a mere stopping place where wealth is piled up and but few home pleasures are found. Make it a home even if half the acres have to be sacrificed—Homestead.

Sheriff Cherry of Wayne assisted by Constable Hood of the same place brought in a lunatic yesterday who wandered into that city, who could only give his name as "Ernest." ... An appeal will be taken to the supreme court, and if the decision is not reversed, Niobrara will remain the county seat for some time to come.—Norfolk Times Tribune.

A VERY STRONG COMPANY.

Northwestern Life and Savings of Des Moines, Opening a Large Office Here.

The Company Operates on a Plan Which Has Enabled It, in Four Years to Earn the Record of Doing the Greatest Business in Iowa—Its Methods.

The Northwestern Life and Savings Company, of Des Moines, has opened a large agency in this city, which is destined to become one of the best branch offices of the company.

Mr. W. H. Kennedy, superintendent of agents, has been here for a fortnight and during that time, he and his assistants have written a remarkable business among the best people of the town, including many of the business and professional men.

The Northwestern Life and Savings Company has made a truly phenomenal record. Last year it wrote almost a thousand more policies in Iowa than any other life insurance company of any kind or description.

Among the largest premiums it received last year was one from Henry A. Salzer, of LaCrosse, Wis., the largest wholesale seed man in the United States, amounting to \$10,000 cash.

This is claimed to have been one of the largest single premiums ever written in Wisconsin. Another one was a \$5,712 cash premium, which was paid by Joseph V. Hutchinson, Glenwood, Iowa's leading banker.

Since it was organized, May 6, 1896 the company has received in premiums over \$700,000.

It is organized under the Iowa insurance laws; an old line insurance company with all the safeguards and securities thrown around it that this law affords. This law is conceded by insurance experts to be the strongest insurance law in the United States governing insurance companies, requiring as it does a deposit with the state auditor of Iowa approved securities to protect every dollar guaranteed.

The company issues all of the twenty payment life policies, ten payment life policies, ordinary life, and all other old line policies. They make a specialty of the ten year endowment policy. This policy they issue on inverted lines over other companies, making the insurance the minor feature, and the investment the greater. The insurance feature being the smaller, no medical examination is required, thus avoiding a large expense.

The owner of the matured policy gets all the accumulations, including the

pro rata share of lapses. In most insurance companies the lapses go to the stockholders; in this company they are guaranteed to the persistent policyholders.

All the investments of the company are in first mortgages on Iowa farm lands, which are deposited with the state auditor of Iowa to make good the guarantee of the policy.

The directors of the company is composed of some of the best known and most successful business men of the central western states, among them are: Arthur Reynolds, president of the Des Moines First National Bank; D. P. Witter, president of the Iowa Loan and Trust Company; D. W. Marquardt, president of the Marquardt savings bank; John Herriott, treasurer, and others equally well known.

On account of the magnificent record of this company it has created jealousy among other companies, which are not at all natural.

This record is one of the wonders of the life insurance business. For the amount of business it has written, for the splendid showing it has made when submitted to the examination and test of state examiners and trained actuaries.

The company now operates in Iowa, Illinois, Pennsylvania, Wisconsin and South Dakota, are preparing to open shortly in Nebraska, Michigan, Ohio, Indiana and Missouri.

After careful examination of the plan and contracts of the Northwestern Life and Savings company, The Tribune takes pleasure in commending it to the consideration of the people of Sioux City who desire a good investment with absolute security.—Sioux City Tribune.

F. R. Shepar, of Wayne, Nebr., now has management of the Northwestern Life and Savings company for Northeast Nebraska, and is doing a good business in the city. To anyone seeking investment with reasonable insurance he offers the opportunity of an investigation of the company. It is impossible to lose, being backed by the State of Iowa, and the rate of accumulation on investments since the organization of the company is marvellous.

A LETTER FROM W. F. NORRIS.

Manila, Sept 8th, 1900.

W. H. McNEAL, Wayne, Neb: I suppose at the present writing our people at home are a good deal interested in the Chinese question...

As you know that there are lots of Chinese in Manila, apparently they are indifferent to what goes on in the home but he cannot tell what is in a Chinaman's mind...

We had an interesting case before the board of claims last week in which the Chinese Council General submitted a request for indemnity...

The brother, Cua Te, is a stout Chinaman, unusually large for one of his race. I had supposed he wanted all he could get out of the government...

Opposition in almost every form has been hurled against them. Money and influence have been lavishly expended to destroy them...

If you wish to cast your ballot for a first-class man who will ably represent Nebraska in the state senate...

The republican nominee for state senator from this district, W. W. Young, is one of the ablest men in the state...

The greatest German newspaper in America today, the Staat Zeitung of New York, has denounced Bryanism as the most dangerous menace to the United States...

Bryan has about run out of argument issues and will soon begin over again where he commenced down home at Lincoln...

The progressive nations of the world are the great food consuming nations. Good food well digested gives strength...

A startling incident is narrated by J. Chiver of Philadelphia, as follows: 'I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in my back...

Mr. Bryan's Warning. 'If there is any one who believes the Gold Standard is a good thing or that it must be maintained, I warn him not to cast his vote for me...

A. A. WELCH, Republican nominee for County Attorney of Wayne County.

The printing gotten out by the college during October contains besides letter heads, enrollment cards and other small items, 1000-8 page circulars, 20000 supplements for county papers, and 5000-32 page catalogues.

Amid the crash of corporations, business enterprises, schemes and associations by a hundred names, it is with pride that the record of the past can be pointed to, and nowhere along the line is the record of a failure of a single legitimate fraternal order. Whenever a fraternity has been founded upon honest, fraternal foundations, that institution is still in existence. All of the great benefit orders which have been instituted for good of mankind and for truly sacred and unselfish purposes, are still here, and will be here as long as the necessity exists for mutual relief and protection.

About the most independent man on earth these days is the laboring man. Business, not Bryanism, is what the people want and to retain this state of affairs it is necessary to vote for Wm. McKinley.

Hon. G. D. Melkijohn is again in Nebraska, loyally pounding away for the republican party. George will make the fusionists go home, as he always has in the past.

With the banks of Wayne having over a half million dollars on deposit, there certainly is no indication of anything else than prosperity. How about those fellows who are bound to remain blind? August Wittler, the republican nominee for county commissioner, is an efficient man for the position, conservative in every particular and fair-minded, and with a deep interest in the welfare of his county. He will make a model commissioner. A. A. Welch, candidate for county attorney, needs no commendation from us. He is one of the most able men in Northeast Nebraska, and it is well known that the county's business will never go amiss under his supervision and there ought to be no question of his election.

WISCONSIN DEMOCRATS ABANDONING BRYAN

Charles H. Schweizer, LaCrosse, Wis. Former chairman of the Democratic City Committee and city attorney. "I have never been a Republican, and I have never been and am not now in accord with Mr. Bryan and his platform. Being convinced that Mr. Bryan's election would result in disaster to the country at large, presently or ultimately I must refuse to aid or lend comfort in any way to doctrines which are so pregnant with evil. Nor can I find in the issue of imperialism any real excuse for supporting Mr. Bryan and impliedly endorsing his financial and Populistic heresies, an issue raised to divert the attention of the voter, and especially Gold Democrats from these fallacies the dangers of which were so thoroughly exposed in the last election."

IOWA DEMOCRATS WHO ARE OPPOSED TO FREE SILVER

E. G. Graham, mayor of Stuart, Iowa, and one of the leading Democrats of western Iowa, who supported Bryan in 1896, has announced that he will support McKinley and the Republican ticket in the election of McKinley.

W. W. Witmer, Des Moines, Iowa. Against free silver. L. M. Martin, Des Moines, Iowa. Against free silver. R. E. Tillinghast, Davenport, Iowa. Against free silver.

DEMOCRATIC RECORD ON THE TRUST QUESTION.

Every Line of Legislation Now on Our Statute Books Was Placed There by the Republicans, and the Democrats Voted Against a Constitutional Amendment to Regulate Them Only Four Months Ago.

How the Democratic National Chairman Tried to Help the Sugar Trust—Facts from the Congressional Record.

Every line of legislation now on the statute books of the United States directed against trusts and unlawful trade combinations was placed there by the Republicans.

That there is not more stringent law against them is the fault of the Democrats.

The last occasion on which the parties, as represented in Congress, went on record on the trust question was on June 1, 1900.

On that day a final vote was taken on a constitutional amendment to grant Congress power to "define, regulate, prohibit and dissolve trusts, monopolies and combinations, whether existing in the form of corporations or otherwise."

The measure was passed by a vote of 197 yeas and 107 nays, a constitutional amendment to the State Legislatures for ratification.

The question was so submitted by a vote of 154 yeas to 132 nays.

OF THE YEAS 149 WERE REPUBLICANS AND ONLY 5 WERE DEMOCRATS.

The five were C. M. D. of Montana, N. J. of Massachusetts, S. D. of New York and S. J. of Pennsylvania.

OF THE 107 NAYS, ONLY TWO WERE REPUBLICANS, L. J. of California, and R. J. of New York.

The Democrats voted NAY. They declined to give Congress the power to regulate trusts.

The Democrats indulged in spasms of virtue for two days, denouncing the trusts, and then voted to continue them.

In one of Mr. Bryan's recent speeches he gave the Republican remedy as the first one to be adopted, in case he was elected, and all other means failed.

In other words, Mr. Bryan admitted the value of the Republican idea, but wants to try other measures first. He has not said what those measures are to be.

Some trusts operate all over the country; others, like the New York Lee Trust, operate in a single city. The Republican power to reach each and all and bring them under the Federal law, WAS DENIED BY A MARGIN OF 35 VOTES.

ALL DEMOCRATIC.

Denouncing is one thing. Doing is another. Mr. Bryan's trust denunciations, in view of his party's record, promise no better than the prophecies he made four years ago and as a prophet Mr. Bryan has not succeeded.

Senator Jones and the Sugar Trust.

The Democrats made another brilliant pretense record during the same session of Congress. Representative Richardson D. Henshaw, Democrat, tried to assist the Sugar Trust by offering a joint resolution to admit Cuban and Porto Rican sugar free of duty.

The resolution that duty would have amounted to about \$25,000,000 a year and the Sugar Trust would have benefited to the extent of at least \$15,000,000 a year.

The controller of the Sugar Trust is Mr. Henry G. Havemeyer, Democrat.

Richardson D. Henshaw's proposed gift to his friend Mr. Havemeyer was smoothed by the Ways and Means Committee of the House.

It was also proposed by Senator Jones, Democratic national chairman and Mr. Bryan's manager, to return the duties paid on Porto Rican sugar and molasses to the Porto Ricans, but to the nations who paid these duties.

This amounted at the time to \$1,487,896.

Had the scheme succeeded, the American Sugar Refining Company and J. S. Leitch & Co., a part of the same concern, would have benefited by a direct gift of \$1,230,774.

This is the first instance on record where a direct gift was intended to be made to a trust and the Democratic manager, Senator James K. Jones, wished to make it. This was also presented by the Republicans.

The money was not to be returned to the Porto Ricans, as the duties paid now are, but to the Sugar Trust.

All the facts are printed in the Congressional Record and are a part of American history.

"DEAR BOY" LETTERS, No. 9.

My Dear Boy:

You say that you are tired of working for old man Skinner, and are thinking of going West this fall, where wages are higher. You ask what I think about it.

Well, I have no objection to your going West, but I don't want you to go till after the election. This is the first time in your life that you ever had an opportunity to exercise your right as an American citizen in voting for a President of the United States. I don't want you to lose four votes for the following reasons:

1. The only possible chance of the election of Bryan comes from the over-confidence of Republicans. It makes me sad to hear a man say, "Oh, McKinley is going to be elected, anyhow. There is no danger. I have arrangements made to be in California in November, but you won't need my vote."
2. No American voter has any right to stay away from the polls or to lose his vote if it can possibly be avoided.
3. My son, you are one of the sovereigns of the United States, and you have no more right to neglect the duties pertaining to your high rank than the Emperor of Germany has to neglect the government of that mighty empire. To vote is a matter of inalienable privilege, and also a matter of earnest, conscientious duty.

Two years ago you enlisted to fight for your country as a soldier, but the surgeon turned you down and would not let you go. I sympathized with you in the bitterness of your disappointment. But I knew that you had a duty to perform, and I thought that the surgeon was a little over-particular. You would have made a good soldier. But I could not cause it to pay Spain a big price for the Caroline Islands, which the United States left to that country by the treaty of Paris.

Reasons Why the Pacific Coast Will Cast Its Electoral Votes for McKinley and Roosevelt.

(An interview with August Blum.)

Mr. August Blum, cashier of the First National Bank of Chicago, intends to vote for the reelection of President McKinley.

Mr. Blum is one of the best representatives in Chicago of the type of Germans who have emigrated in this country, the result of the industrial revolution. He is a member of the Chicago National Bank and after the recent absorption of that institution by the First National, he was made cashier of the latter.

Blum is generally recognized throughout the West as a leading banking authority, one whose judgment in connection with the various complex questions that come before every banker is almost infallibly correct.

In politics he is a Democrat, and was always a prominent supporter of Cleveland.

The following are questions put to Mr. Blum, and the replies he gave:

Q. Would the election of Bryan benefit the business interests of Chicago, and the United States, and the German-American citizens particularly?

A. The election of Mr. Bryan would, in my opinion, be a great misfortune to this country, and therefore to Chicago, and harmful to German-Americans and to every other kind of Americans. American citizens of German birth are not a class by themselves.

Q. What, in your opinion, is the paramount issue of this campaign?

A. The paramount issue is that which is in the people's mind, not in the party platform nor in the speeches of leaders necessarily. There is one thing in which we are all vitally concerned, and that is the irrevocability of the contract standing to every other kind of Americans. American citizens of German birth are not a class by themselves.

American citizens of German birth are not a class by themselves.

Q. What do you think of Bryan's statement about the new German loan?

A. It is very difficult to follow the tortuous road of Mr. Bryan's utterances. Four years ago I tried persistently to understand his utterances about the standard of value, but I gave up at last in despair. If construction can be made to support the contrary it may give him pleasure, but it will not convince any one.

Q. Do you think that this country has prospered during the last four years as a result of Republican policy?

A. Yes, the country has prospered during the last four years. The best, in my opinion, that can be legitimately said of the policy of any party is that it does not stand in the way of normal business development, with respect when present.

HOW SHALL I VOTE THIS FALL?

Am I a Republican, Democrat or Populist?

Let me reason with myself and you.

Suppose for a moment I am a farmer and I own or rent about five years ago I fenced 100 acres on my west. Times were hard, crops were poor, my wheat brought only 40 cents a bushel at the farm and my corn only 15 cents. It was cheap to have corn in the stove than to buy wood or coal. I saved enough wheat for seed and sold the rest, but didn't get enough to pay the storekeeper what I owed him and could get no more credit. I owed a big payment on my farm machinery. Thank heaven, the agent of the Harvester Company extended the time on my note for another year. That saved my home and the lives of myself and family.

That was under Cleveland's Democratic Administration.

Four years ago Mr. McKinley was nominated for President. It was a happy omen for the tillers of the soil all over the country. In 1898 my crops were good. My wheat and corn, cattle and hogs brought good prices.

I paid off the storekeeper, settled with the Harvester Company, took up the mortgage on the house and commenced to live.

Another year and three more years have gone by, and I am still prosperous. So prosperous, in fact, that I have almost forgotten the hard times before William McKinley came to be President of the greatest Republic in the world. But I have not forgotten that I have a piano in my house, that my boys have been fitted for college, that my wife and daughters are well dressed, and that the old man himself is taking life mighty easy.

Prosperity has increased the size of my waistband, and I guess I am just good enough Republican to vote once more for Major McKinley.

WHAT BENEFIT FROM BRYAN?

Everything to Lose by Return to Democratic Rule.

Under the Wilson tariff farm products and live stock sold lower than ever before. The factories were closed, the shops were empty, and the country was filled with unemployed men, women and children.

The improvement, though slowly, was slow until the Dingley tariff law was passed. Then the changes you will remember, was wonderful.

The prices of labor rapidly increased and soon the demand for labor exceeded the supply. Everybody could find a job. The working man could buy what he wanted to sell and the farmer's products increased steadily in value.

The tramps disappeared. The condition of the people generally improved. Mortgages have been paid off, or greatly reduced. Many who had before just hoped getting out of debt, or saving their homes.

Farms have been improved. New homes have gone up on every side. Now, the question is, do we want these things to go on, or do we want to go back to the way things were from 1896 to 1897?

Do we want the farm products to sell at 1896, or at 1900 prices? Do we want the working man to labor at 1900 prices and to support their families in comfort, as they are now doing, or do we want to send them tramping over the land, organizing Co-operative Societies, while their families are starving?

Do we want to let well enough alone, or shall we try a change, put the man in charge of the country who passed the Wilson bill and try the chances of getting back to the conditions of 1897?

What improvement can we expect from the election of Bryan?

Does he, or do his supporters, pretend to say that farm products will bring more, if it is elected? Do they mean that his speakers, say that under his administration the prices of labor will be increased?

Do they promise anything better in the condition of farmers, or laboring men, or anybody but investors, or owners of silver mines, if Bryan is elected?

GEO. H. CRUMB

Would not the farmers rather sell the products of their farms at fair prices to buyers than to give it to them as tramps?

Are you going to vote yourself out of a job? Do you want to vote working men out of their jobs?

Do you propose to go into the tramping business, or to help to start tramps on the road again?

Choose you, now, what should be done and vote according to your honest judgment for the best interests of all the people of this country.

COLLEGE GIRLS' RUSH.

Well-wisher Students Bind Sophs in the Woods and Paint Their Faces.

Twenty-five girl sophomores of Wellesley College, were bound hand and foot had their faces painted a bright green and were left in the woods one night recently by their schoolmates of the junior class. Class feeling was stirred when the juniors discovered that the sophomores had planned to witness their secret ceremony of "burning tarantulas." This usually takes place on the evening of "tree day," but in order to outwit the sophomores it was set one night ahead. By four different routes the juniors after dark proceeded to a lonely spot in the woods. Their first trouble arose when the first party hurried the appointed place they met a freshman. They were in a quarry for a moment, but finally forced the intruder to accompany them.

The captive was tied to a tree nearby and a guard stationed about her, while the others began preparations for the ceremony. Sentries were posted to give warning of intruders. Each girl donned a white sheet and a long black and white mask; wood was gathered for a bonfire and each junior lighted two candles and held them. Shriek and cries of "She's escaped!" startled the silent gathering just as the bonfire had been started. Everyone made a rush to the spot.

Longest Canal in the World.

Probably the largest canal in the world—a distinction of some note in these days of wonderful engineering feats—is the Chesab irrigation canal in the northwest provinces of India. Its breadth is 200 feet with a main channel some 450 miles long, while the principal branches have an aggregate length of 2,000 miles, and the village branches will extend, when completed, some 4,000 miles additional. But apart from irrigation the longest canal in the world is the Great Canal of China, the longest of which is the Grand Canal, connecting with the River Gaugze, is 900 miles long, and in all India there are 14,000 miles of canals. Irrigating 8,000,000 acres.—Kansas City Journal.

A Bloodmaking Record.

The latest American record runs in the direction of the smallest amount of time taken to make a pair of boots. This has actually been done in 29½ minutes from the time the leather was laid upon the cutting board. The boots were made of box calf and passed through the hands of 116 workmen. They took 1½ minutes to cut out and 8 minutes to stitch, and then they were passed on to the lasters, who carried out their work in 2½ minutes. In 3½ minutes the boots were bottomed, being the seven or by machine. The edgewise and straight touches in the soles of the boots were given them in ½ minutes. In 2¼ minutes more the boots were tread, the linings put in, and they were dressed and packed.

Innocence Abroad.

"My dear, you have been very naughty; you must ask God to make you a good child," said a fond mother, on bidding her little girl good-night.

The next morning the child announced: "Mamma, I asked God last night to make me a good child, and He answered me."

"How did He answer you?"

"Well, he said, 'Great Scott! I know many little girls worse than you are!'"

The search for an argument, however, he undertook to make a remark that would pass unchallenged and without conditions or amendment.

"Prosperity," he said easily, "is a great blessing, is it not?"

"It is, if you can keep it secret," answered the reasonably prosperous man.

"But why should it be necessary to keep it secret?"

"Because if you are known as a prosperous man your debts think you are in a pressing need of the money they owe to you will come at the opportunity that you should discount all obligations, charitable institutions go on the theory that you have money to give away, and you are likely to have difficulty in remaining prosperous very long."

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing this Fatal Woman's Disease.

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was especially careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so-called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women.

The following letters will show how marvelously successful it is:

Dear Mrs. Pinkham:—I am feeling very fast. Since January I have lost thirty-five or forty pounds. I have a yellow, muddy complexion, my eyes are heavy, bearing down pains. Menstrual periods have not appeared for three months; sometimes I am troubled with white discharge, and I also have kidney and bladder troubles. I have been this way for a long time, and feel so miserable I thought I would write to you, and see if you could do me any good.—Miss EDNA FREDERICK, Troy, Ohio.

Dear Mrs. Pinkham:—I have used Lydia E. Pinkham's Vegetable Compound according to directions, and can say I have not felt so well for years as I do at present. Before taking your medicine a more miserable man I never was. I could not eat or sleep, had had no care to talk with any one. I did not enjoy life at all. Now I feel so well I cannot be grateful enough for what you have done for me. You are surely a woman's friend. Thanking you a thousand times, I remain,
