Wayne Loses to Sioux City.

Exciting Bowling Match Rolled Off Last Evening.

Sioux City Journal, Feb. 2. The Sioux City bowling team was victorious again last night in its match with the team from Wayne, Nebr. Sioux City won three out of five games and beat its opponent in total pins by a margin of 100.

The match was by no means a one-sided contest, however, and until the last man from Sioux City had rolled the last ball down the alley in the fifth game the victory remained unsettled. Both teams bowled with good general averages. Sioux City made the best team record of the evening with a score of 807, and Titworth, of Wayne, carried off the honors of the high individual score with 192 pins in the second game.

A large crowd watched the bowling, the seating and standing capacity of the alley being taxed to the limit. Sioux City took the first game with a score of 746, as against 642 by the visitors. The second game turned the tables, and Wayne won, 730 to 736. Indications were for a close match throughout. Sioux City won again in the third, and Wayne in the fourth, leaving the fifth game to decide the contest. Until the seventh frame of the last game Wayne led by a small margin, and the Sioux City scores, ranging from 91 to 119, made poor promise for a successful finish. Hamlett made a spare in the eighth, and followed it with two strikes. Flanagan made a spare in the eighth and followed it with three strikes in the tenth, and made a spare in the tenth and followed it with one strike. Bruggerman, who had made two strikes in the tenth frame in each of the preceding games, got a split and failed to aid much in the finish, but Sweigert, who was loitering along the 100 mark, made a strike and followed it with a spare. These fine scores and a poor finish by the Wayne team canceled the lead of the visitors, and won the game for the Sioux City team by 29 pins. The Wayne team took its defeat gracefully and promised to win next time.

The score of last night's contest are as follows:

Sioux City.....	Total.....
Hamlett.....186 170 150 146 166	827
Flanagan.....169 171 180 143 181	844

**ARBOR DAY PROCLAMATION.**  
 Governor Dietrich Sets Apart Monday, April 23, to Observe by Tree Planting.

Lincoln, Feb. 4.—(Special.)—Governor Dietrich today issued the following proclamation designating Monday, April 23, as Arbor day.

The observances of Arbor day has in the past contributed in no small degree to the growth and improvement of Nebraska's forestry and foliage. It has transformed vast expanses of prairie into picturesque woodland, increasing the landscape beauty of the state and making it more desirable for those seeking opportunities for in-

## Fiscal and Personal.

Have Welch repair it.  
 Sauer Kraut at Brookings.  
 Iowa Sweet Cider at Brookings.  
 T. B. Heckert, Dentist, over Miller's.  
 Reliable watch repairing at Welch's.  
 F. A. Berry went to Sioux City Monday.  
 Take your watches and clocks to Welch.  
 Will Kay was here from Wakefield Monday.  
 Virginia Sweet Potatoes at W. E. Brookings.  
 Heinz Mince Meat at J. H. Goll's meat market.  
 Electrician Largen went to Hartington Tuesday.  
 John T. Bressler went to Winside on business Tuesday.  
 For the best tank heaters and feed cookers go to Otto Voget's.  
 Dr. J. C. Clark, Eye Specialist will be at the Love Hotel, March 11.  
 County Treasurer Volpp went to Hoskins on business Tuesday.  
 E. Scott of Columbus, is visiting this week with his uncle, F. W. Burdick.

Are you dissatisfied with your watch? Take it to Welch to be put in order.  
 About twenty Odd Fellows go to Randolph tonight to institute a lodge at that place.  
 Mrs. E. P. Ellis of Omaha, has been visiting the past week with parents and friends here.  
 S. E. Auker went to Omaha Monday afternoon with six car loads of cattle and C. J. Lund with one.  
 W. H. Gildersleeve, one of Wayne county's best stock feeders, was in Sioux City on business Monday.  
 Miss Mintie Gorton delightfully entertained a party of young friends at her home southeast of the city Friday evening.

On Monday Jim Stephens shipped 2 car loads of cattle from Carroll, Hank Wolf 2, Campbell Bros. 1 Walter Harburt 1 and A. J. Honey 1.  
 Before purchasing heating or cooking stoves, see Otto Voget. He can save you money for his line of stoves are the best ever brought to Wayne.  
 The post office receipts for the month of January were about 10 per cent larger than the corresponding month a year ago. Wayne is going forward.

George Harrigfeldt of Iuka is here this week to assist some of the Hoskinsites to move to that state. He was in Wayne on business Monday and Tuesday.  
 It takes a rich man to draw a check, a horse to draw a cart, a pretty girl to draw attention, a free lunch to draw a crowd, and a little of Epler & Co's tea to draw the best cup of tea you ever had. Try it.  
 A change will soon be made at the electric light and water works. Electrician Largen has decided to go elsewhere and his position will probably be filled by Thos. Fritz, a confident electrician, who lives at Lyons.

F. O. Davis of Monona, Iowa, has purchased the shoe stock of Isaac Smith and has taken possession. The firm's name will be F. O. Davis & Co. Mr. Davis comes to our city highly recommended and we predict for him success.  
 If the ground hog did not see his shadow last Saturday it was no fault of Old Sol. He cast his brilliant rays abroad as usual. However, if there should be a few weeks of bad weather the winter has been short indeed, as the expression goes.

On Tuesday Judge Hunter issued license to wed to Wm. Kruse of Hoskins and Dora Sutorf of Pierce, Frank Exlerbe of Wayne county, and Miss Emma Schach of Cumming county. On Wednesday he issued license to Peter Reeg and Caroline Damme, both of Wayne county.  
 Wisner Chronicle: John Stemmerman has sold his fine farm of 330 acres in Blaine township to Claus Sievers of Wayne county for \$45 bar acre. Mr. Sievers recently sold his farm near Wayne for \$75 per acre. The Chronicle has not learned the intentions of Mr. Stemmerman.

Republican: Our former townsman John G. Nelhart, now of Bancroft, seems to be getting to the front as a poet. His work "Divine Eloquentment" that is for sale at all book stores, is meeting with most well deserved praise from the critics and is going into the very best libraries of the country. He is also writing for the Youth's Companion and other high class papers with which he finds ready purchasers and at good prices.  
 P. J. Fleming informed a HERALD reporter yesterday that as the Chicago flyer was running into Council Bluffs Tuesday evening at 4:10, on which he was a passenger, the train struck a team and wagon in which were three men, all of whom were killed. One was picked up 30 feet from the track with the top of his head off. The other two breathed a few minutes after the train stopped, which the engineers succeeded in stopping in a distance the length of the train.

## Fine New York apples at Brookings store.

No one can repair a watch like Welch.  
 M. Hamm of Ponca, was a city visitor Thursday.  
 Nellie Lauman is visiting Carroll friends this week.  
 Go to Brookings for nuts by the quart, peck or bushel.  
 Mince meats. The best on the market at Brookings store.  
 M. N. Conover is lying very ill at his home, just east of the city.  
 Miss Annie Scheurich of Hoskins, was a Wayne visitor yesterday.  
 Born, to Mr. and Mrs. C. W. Worth, on Saturday, Feb. 2, a big baby boy.  
 WANTED: A girl to do general housework. Good wages. Inquire at The Herald office.  
 A dance will be given at the opera house Friday night, February 22 to which everybody is invited.  
 Wm Dammeyer has moved his cigar factory into the Davies building, just north of McVicker's bakery.

The Herald lost one subscriber at Carroll last week and gained two as a result of an item from our correspondent there.  
 Morris Wadsworth returned to Red Oak, Iowa, Saturday after spending several days here looking after his interests in the county.  
 While handling ice Saturday Mike O'Connell had the misfortune to let a cake of ice fall on one of his feet and as a result now uses crutches.  
 The weather of the past week doesn't seem to make but little difference with the farmers. They move right along in the even tenor of their way.

**Stops the Cough and works off the Cold.**  
 Laxative Bromo Quinine Tablets cure a cold in one day. No cure no pay 25c.  
 Our 50c tea is of specially good value that is why we are selling so much. We enjoy selling goods of special merit for they are the cheapest. Epler & Co.  
 To Cure a Cold in One Day  
 Take Laxative Bromo Quinine Tablets All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

The ice men are busy getting up a fine quality of ice which the cold weather two or three days last week formed on the lake east of the city. It is much better than that put up last winter.  
 A concert will be given Thursday evening, February 7th, directed by Prof. Otto Voget, under the auspices of the young men's class of the Methodist church, for the benefit of the subscription to the new building.

The Herald this week has considerable job work for Edward Hards, the patentee of the Hards Star Grinding Mills, a number of which have just recently been put out at the Wayne Roller Mills and which Weber Bros. are very much pleased with.  
 A newspaper that takes sides in the educational and other affairs of the town or city in which it is published is a d-d it does and a d-d it doesn't. The Herald has tried to avoid such proceedings, but it is probable we will adopt another course during the ensuing year.

Osmond Republican: Senator Young of this district is out in a letter to one of his constituents who calls him down on the senatorial question. The senator strikes right from the shoulder and gives as a reason for supporting Roosevelt that he is brainy and free from railroad domination. To our mind the senator is doing his best to represent his large constituency in a satisfactory manner.

Subject of the morning services of the Presbyterian church next Sabbath: "Some characteristics of a good church member." In the evening of third lecture on "Scenes in the life of Jacob" will be given. The paintings will show some of Jacob's experiences while in exile. The pastor is especially anxious to have all members of the church and congregation attend the morning's services as he has a special communication he wishes to make to them, and is anxious to have all present, who are identified with the church in any way.  
 Randolph Reporter: E. E. Norris will close his tailor shop in the Whigham building and enter the services of W. Boughn, the clothier. Mr. Norris will have his tailor bench in his new quarters and attend to any alteration of clothing that may be necessary, and also do custom work on pants and vests, and take measures for new work. A tailor of Mr. Norris' ability in a clothing store is an innovation that will prove a winner. At Fred Weber's sale Wednesday, Mr. Harter living southeast of town, received injuries that will probably remain with him for life. He was assisting in loading a number of bronchos when the bunch of frightened animals turned towards him at full speed, knocking him down and tramping upon him. Mr. Harter was bruised considerably and the neck of the femur bone of the right hip was fractured. Mr. Harter is a man of over 55 years of age and will undoubtedly be crippled for life.

## Gas Boberg was down from Wadsworths ranch Saturday greeting numerous friends.

Sweet, Sour and Dill Pickles are appetizing this time of the year. Epler & Co. have them.  
 There will be a meeting of the fire department tonight. All members requested to be present.  
 Mr. and Mrs. A. L. Tucker entertained the ladies of the Monday club and their husbands Tuesday.  
 Mrs. L. E. Hunter returned from Wakefield Sunday evening accompanied by her sister, Mrs. G. G. Inman, of Cherryvale, Kansas.  
 A number of weddings among the young people of Wayne are on the program of events to occur in Wayne during the year 1901.  
 The Catholic fair held at Randolph the three first days of last week netted the church over \$1500. Another slight indication of prosperity.

Matt Coyle and Homer Skeen went to Wausa with the Hartington band Tuesday and will play with that aggregation on its concert tour this week in which the band travels in its own special car.  
 THERE IS A TIME in every one's life which if taken at the promptings of the appetite leads one to buy Heinz preserves. They are better than you can put up yourself. Assortment at Epler & Co's.

A heavy snow fell in southern Iowa, southern Nebraska and Kansas Monday while blizzards raged in the northern middle states and farther east. Northeast Nebraska enjoyed bright sunny weather although the thermometer registered a little colder than at any other time during the present winter.  
 Sixteen South Sioux City women "Nationalized" John Peyson's place in that town last Friday. Furniture was thrown into the street and smashed. While the raiding was being done a number of men engaged in singing "Nearer My God to Thee." The women were under the protection of the Marshall and a member of the council and believed they were raiding a "hole in the wall." No liquor was found. Nebraska will soon establish the reputation of "bleeding Kansas" if matters thus continue.

It is said that one of Wayne's butchers killed a cow not long since and in dressing the animal a clock was found in its stomach also a stone and some pieces of board. The clock was kept in a rag time, that is, it had caused the stomach to become ragged and it had almost but through the lining in which event the cow would have died, and the cause of its death would have remained unknown. As it was the animal was healthy and never missed a meal even if it dined on rocks, boards, etc.

The German club masquerade given at the opera house last Thursday night was a very pleasant affair and a success in every particular although the number of maskers were not as numerous as usual at the clubs annual ball. The costumes were in most instances very neat and the dancers had a very pleasant time, while the gallery was crowded with spectators to witness the event. The prizes were awarded as follows: Miss Bishop last lady's prize and Miss Lena Myer 2nd. Mrs. Chas. Neis 1st, Aus in 2nd.

Republican: "Deacon" Frank Whittemore, the foreman of the Republican, has taken a lay-off of a month and gone to Iowa. The young man is of the opinion that a rest will be a benefit to him physically, and we believe he is right, and we hope he may return at the end of his vacation well and healthy. One day last week W. L. G. Derstie sold 258 head of fat cattle to an Omaha buyer for \$4.85 per hundred weight delivered at Wisner. The cattle had been on feed just a little over four months. A bunch of cattle of that size and at the price named represents quite a good many dollars, and also several thousand bushel of corn in getting them ready for the market.

Wisner Chronicle: George Buskirk and E. W. Wilson returned Tuesday evening from their trip to Crestone, Colo. This is a new town about three hundred miles south west of Denver, which contains at present about three hundred buildings. A year ago it consisted of a dozen or less houses. The railroad is now within thirteen miles of the town and will be completed to Crestone at once, this work being pushed as rapidly as possible. It is the center of a mining and stock grazing region which promises to develop into a rich country. Mr. Wilson invested in three lots in the town and Buskirk bought one. J. A. Kinzel, who has been watching the development of that section for several years, and piloted Messrs Buskirk and Wilson out there, will remain there and have charge of a banking business which will be opened within a few days. Mr. Kinzel has interested G. A. Luikhart, the well known Norfolk banker and capitalist, in the location, and has bought a building to be occupied by the new bank. If the enterprise realizes their expectations, Mr. Kinzel will sever his connections with the Citizens State Bank at this place and make his home at Crestone.

**F. O. Davis & Co.,**  
 Corner Shoe Store.

Miss Mary Coyle has been visiting in Ponca this week.  
 Banker Crosby of Winside, was in Wayne Tuesday afternoon.

Miss Bertha E. Hunter of Wakefield, visited friends in Wayne a few days last week.

E. A. Lundburg, D. C. Montgomery and E. D. Mitchell are in Lincoln taking in the legislature, etc.

Bob Carr received notice Friday from Randolph that he had drawn a \$10 table at the Catholic fair held at that place last week.

Leslie Baker, formerly of Hoskins, has accepted a position in the barber shop of Homer Wheaton. He is said to be a first class barber.

Henry Bush has purchased M. T. Healeys residence in the north part of the city and expects to become a citizen of Wayne in the near future.

While going into the post office Tuesday night W. O. Gamble lost his watch chain, so he informs us, and thinks that one of three persons passing him caught it and jerked it. Evidently they intended to get his watch, but failed to get it or the hold pin on the end of the chain.  
 W. L. Jones put a notice in the HERALD last month announcing a horse for sale and as a result he says no less than 20 or 25 persons made inquiries concerning it. If you advertise what the people want and make it an object you will find that there is no better advertising medium in north-east Nebraska than the HERALD.

Mrs. L. E. Hunter received the sad intelligence of the sudden death of a sister, Mrs. K. B. Johansen, in Sioux City on Thursday. The remains were brought to Wakefield for burial and the funeral services were held at the M. E. church in that city, Sunday, Feb. 3 at 11 a. m. Rev. G. H. Brooks, assisted by Rev. White delivered the messages of comfort to the host of sorrowing friends.

H. J. Theobald, of this city, has been selected by the DeLlan club of the University of Nebraska to represent it in the three inter-collegiate debates between Kansas-Nebraska, Missouri-Nebraska and Colorado-Nebraska. The Sunday Illustrated has said: E. J. Theobald comes from Wayne, Nebr. He graduated from the university with the class of 1900. He is now a junior in the law department. Mr. Theobald has been an active member in the DeLlan Boys' Debating club of the university. He has represented the club in inter-collegiate contests. He is a careful and logical thinker.

**DIED.**  
 Lucile the little four year old daughter of Mr. and Mrs. Herman Henney died this morning after a few days illness with brain fever. The remains of the little one will be taken to Le Mars for interment. The entire community will sympathize with the stricken parents in the loss of their little daughter.

W. H. McNEAL, Editor.

PUBLISHED EVERY THURSDAY.

Editor Roosevelt is gaining strength in the senatorial struggle and the other candidates are awakening to the fact that the "little giant" from Omaha is a warrior in the present struggle that must be taken into consideration.

Last Friday a druggist of Hiawatha, Kansas, emptied a barrel of whiskey into the sewer and announced that on Saturday, the next day, he would publicly destroy the remainder of his supply of liquors including several barrels of wine and whiskey. The ministers and public were invited to attend.

The unbroken series of McKimley's triumphs for the last five years should teach the average American politician, as well as the statesman, a wholesome lesson in statecraft, and that is that in the long run patriotism pays, level-headedness is a winner, and honesty is appreciated by the great majority in America, while no man loses by being the servant of the people instead of setting himself up as a political boss.

The naval pageant which occurred on February 1st in honor of Queen Victoria, in which the ship that carried the remains was escorted by a war fleet from Cows to Plymouth was one of the most majestic and awe-inspiring ever known to the civilized world. More than a half million people watched the magnificent pageant from the shores and listened to the boom of the minute guns from the battle ships and cruisers. No less grand was the magnificent military parade Tuesday as a tribute to the noble Queen who deserved to be buried as a soldier's daughter. It was a fitting tribute to the noblest of women.

The necessity of speedy action by the legislature in the senatorial matter is not real, though urged in some quarters. It often requires much more time to do the right thing than to do the wrong. Had it been possible for the wrong thing to be done by permission of the members it would have been done speedily. Delay now is a reasonable guarantee of an outcome satisfactory to the great body of republicans throughout the state. It is not likely that the legislature will leave anything undone in the way of necessary legislation that should be enacted. There is as much likelihood of too much legislation as too little under any circumstances.

The advances in the price of cotton which are taking place these times are not for the benefit solely of the speculators who are on the right side on the exchanges. The planters are helped by it, and in this way the entire cotton-growing community is aided. For the past year or two the cotton planters have had good fortune. So, of course, have all other interests, not only of the South, but also of the North and West. The south has given very few electoral votes to the Republican party, but Republican prosperity comes to that section just the same. Like the rain from Heaven, Republican good times comes to the just and the unjust without any semblance of favoritism.

Some of the great (?) men who have snaked at the political pig counter in the past, but failed to get in a few years ago, seem to get much satisfaction out of defeating Senator Thurston because he accepted the position of attorney for the Standard Oil Company, a position any of those charging him with a holding, would jump at in a minute, were they able to do so. Several of these same fellows, however, are at present doing all in their power to aid candidates who are the instrument of the railroad corporation of Nebraska, that are a hundred fold worse for the people of the state than the standard oil trust ever was. A little "pie" is all that is needed to quiet the nerves or most "loyal republican politicians" of this brand.

The second issue of the Commoner touches in several places upon the injustice of government without the consent of the governed but says not a word about the deplorable condition in the south where so many black men have been disfranchised because they do not like to vote the democratic ticket. The application is made to the people of Porto Rico and those natives of the Philippines who are slow to take advantage of the inducements held out to take the oath of allegiance to Uncle Sam and get under the protection of the star spangled banner. This isn't fair. In the newly acquired territory of the United States it is the purpose of the party in power to do what is best for resident populations, extending to them all the "liberty, pursuit of happiness" they can intelligently appropriate. Ultimate results cannot be judged by present conditions. The government has no intention of depriving its new found subjects of any rights that will add to their welfare or happiness. In the meantime let us all be calm and await developments trusting that the wisdom and patriotism of our law-makers will ever be an inspiration to them to do the right thing.

Prosperity of the United States Under Protection.

Mr. H. H. Hargrove, president of the Southern Industrial Convention in the "Age of Steel" makes some interesting comments on the present prosperity of the United States under protection and sound money. He finds that of worlds area the United States represents 7 per cent. and of the world's population she represents only 5 per cent. The United States produces 80 per cent. of the world's cotton, 50 per cent. of its cotton seed, 80 per cent. of its corn and 30 per cent. of its grain. 25 per cent. of its wheat, 30 per cent. of its meat, 30 per cent. of its iron, 40 per cent. of its steel, 40 per cent. of its mineral products, 33 per cent. of its coal, 20 per cent. of its salt, and 10 per cent. of its wool.

This country has 80 per cent. of the railway capital and furnishes the cheapest railway tonnage of the world, carrying a ton of freight one thousand miles for 82 cents, against Great Britain's charge of \$3.48. France charges \$1.44 and Germany \$1.28, for like service, the latter having next to the United States, the cheapest railway service in the world. The United States has 12,000 miles more railroad trackage than all Europe combined. Our proportion of the world's railway mileage is 41 per cent., thus allowing for every 400 of her population one mile of railroad track, while the rest of the world has only a mile of track for every 5,600 people. We produce more gold than any other part of the world except Africa, more silver than any other part of the world except Mexico, and coin annually nearly 20 per cent. of the world's metallic money.

We manufacture annually a greater product than England, France and Germany collectively. Our export of manufactured articles amounted in 1898 to \$25,000,000 monthly, in 1899 to \$4,000,000 monthly and in 1900 to nearly \$40,000,000 monthly. In thirty years our manufactured output has increased from \$3,700,000,000 to \$13,000,000,000. Besides all these overwhelming advantages possessed by our nation we have a modern system of transportation, new and modern machinery and 83 1/2 per cent. of the world's wealth.

As a nation we are 111 years old, and yet no single power can compare with us in any element except that England has a greater per capita wealth. Argentina and Russia exceed by a small amount our wool supply, and Africa exceeds our gold output by a margin hardly appreciable. This, indeed, fixes our status to be the superior and favored nation of all the world. Government, oil, mine, forest, fisheries, food and timber resources picked from the other 93 per cent. of the world's surface could not equal us in natural attractions.

In concluding this admirable progress of important facts Mr. Hargrove might have added one more important fact—namely, that all this wonderful progress, in which the United States has outstripped the rest of the world has been accomplished under and by reason of the operation of the policy of promoting diversified industries. It was not until Protection was installed as the fixed policy of our Government that these tremendous strides of progress began, and only under Protection will they continue.

The Wayne Herald says it's in favor of both Meiklejohn and Rosewater as senators. Well, it wouldn't be just the proper thing for the North Platte to take both senatorships, Bro. McNeal.

We do not know of any good reason why there should be a "North and South Platte Country," so to speak. It should be the state of Nebraska as redeemed. Neither do we know of anyone who particularly cares for a division of the kind. Thurston and Allen both resided north of the Platte river, and why were they elected? Simply because they were the most available men for their respective parties at the time of their election. It is no fault of the state if the most available men have their residence north of the Platte, even if they are in the town of Pierce, for that matter. The senators from New York State are both from New York City. The Herald, as a newspaper, is firm in its belief at the present time that, although both have their political enemies, the election of Meiklejohn and Rosewater would be for the very best interests of the Republican party in Nebraska, and Omaha and Fullerton are near the center of the state, north and south. Therefore what is the difference. Personally the editor is of the opinion that our senators and representatives, who are on the ground where they can obtain the best information, should be allowed to use their own judgment as to what is the best thing to do and who are the most available men to elect. There are many people hereabouts who are of the same opinion, and such men as A. A. Welch have so expressed themselves.

Is Grip of Heavenly Origin?

A new theory of the cause of the grip is propounded by a correspondent of the Dr. L. H. Davis, who writes from New York or Manhattan what he calls some "common-sense observations." The doctor points out that, as shown by the records, grip makes its appearance annually after November 15, "and its recrudescence occurs in the spring coincident with the passage of the earth through the paths of entrance and exit of the disintegrated Biela comet." In this passage the earth picks up the trailing bodies of luminous gas that are still there, and the result is that our atmosphere is filled by an abnormal amount of non-assimilable gas. A dilution of 10 per cent. of the atmosphere, Dr. Davis says, would cause the heart to work harder, or the blood must deteriorate or coagulate. This causes congestion and pains in the system. The grip, he maintains, is like mountain fever, the air is too thin in oxygen, and it is worse in humid weather because the air is diluted with watery vapor.

If this is the case there seems to be nothing left for us poor mortals to do but grin and bear it, for surely we cannot fight against heavenly forces. It may also be true that unclean cities, personal uncleanness or insufficiently nourished bodies aid the disease and things like that we can help.—Brooklyn Standard Union.

The Tribune does not approve of the manner and unfair means which have been pursued by some of those who are opposed to Mr. Rosewater's candidacy for the United States senator. It is neither honorable or just, nor is it clean politics. Mr. Rosewater has just as good a right to aspire to become a senator as has any true American citizen, and he should be treated with the same amount of courtesy and fairness that is shown other candidates, so long as he does not abuse the party or his opponents. We admire him for the open manner in which he has conducted his campaign, and while we have not been a Rosewater supporter, yet we are desirous of seeing fair play, and will insist on republicans giving it to Mr. Rosewater, even though he be defeated. The opposition to Mr. Rosewater does not come from the rank and file of the republicans but from the politicians, the men who aspire to rule the party is indebted for the defeat and scourging it has received from the people in the past. Rosewater, whatever his faults, is a good republican, of-republicanism counts for anything is entitled to have his claims seriously considered.—Hastings Tribune.

The Union Pacific Railway has purchased the Southern Pacific and now has a direct line to San Francisco from Omaha.

Almost the whole business population of Omaha is desirous of the election of Editor Rosewater.

Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAINT. Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of course the blood. If you have any of these sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system. J. M. Seal, 415 Public Square, Nashville, Tenn. says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the neck became swollen and burst. Some of the best doctors were called and attended her without any benefit. We decided to try S. S. S. and a few bottles cured her entirely."

BOOMVILLE HOMELETS.

Boomville ought to have a fire department. At the present time the only conveniences for fighting the lurid destroyer are a stepladder and an old bucket without a handle. Let us not wake up when it is too late. We received a call a day or two since from Mr. Sam Norton, who lost a dollar on Main street a few weeks ago and has not recovered it up to date. He may never recover it, but he has the consolation of knowing that the dishonest finder will not go to heaven along with the rest of us.

It now transpires that Mr. John Griebow's year-old baby did not swallow a pair of scissors, as stated in our last issue. What it got away with was half a dozen ticks and a brass thimble, but the doctor anticipates no malign results. Boomville cherubs have healthy appetites.

THE POSITION WAS UNDIGNIFIED.

first into an empty barrel in front of Strong's grocery. The thruster was Abner Green, who had been drinking and was in a jocular mood. We trust it may not happen again. The position was undignified.

We are sorry to say that we missed the item last week about a cow breaking through the Looking Glass river bridge and breaking her leg, but we are in time to announce that it was her left hind leg and that she is owned by Farmer Savage. He thinks he can amputate the leg and save her life.

Among those who remembered the struggling but undaunted editor last week was Mrs. Jason Williams. She brought us in a pound of butter and a basket of potatoes, and could she have seen the tears in our wife's eyes we would have felt amply rewarded. We love to be an editor, and we love our subscribers.

Crnel Christophe. There seems to have been nothing to appeal to in the "Emperor" Christophe's nature. Bravery, humility, all alike failed to touch him. He had no bowels of mercy. He was one day on the battlements of Haiti with a youth, who, perhaps presuming on past favors, in some manner displeased him. The drop from these sheer walls is 2,600 feet to the plain below. "You are, of course, about to die," said Christophe, "but I will be kind to you. You shall have a choice of deaths. Either you throw yourself over here or the soldiers shall shoot you."

A Possible Reason. Freddie's father had just been struggling with an old fashioned bureau, and retiring disheartened from an unsuccessful effort to open one of its compartments he moved to the window, and looking out upon the lowering sky exclaimed: "It's mighty strange that the weather bureau can't give us a change of weather." "Maybe," shyly interposed Freddie, "they can't open the bureau drawers." —Weekly Bouquet.

The Victim's Story.

An incident at the Porte St. Martin theater in Paris has brought part of the character of the "murder" was a "murder" consisting of the killing of a young woman securely bound into a cage of lions heralded as being the fiercest and most bloodthirsty of man-eaters. The woman who had the part of the victim was taken ill, and a substitute was found in the wife of one of the trainers, herself a trainer of some experience, but without any acquaintance with these particular six lions. As she was somewhat nervous she carried a small child ready for use should occasion arise.

Amid the breathless silence of the spectators the ringmaster explained the ferocious nature of the lions and the terrible risk of the woman, and she was thrust in at the cage door. In the excitement of the occasion the door was not securely shut after her. No sooner was she fairly inside than the six monarchs of the jungle, seeing that a strange person had been forced upon them, raised a chorus of slithering terror, bellowed for the cage door, claved it open had with dragging tails and cringing flanks fled out through a rear entrance and found refuge in a cellar, whence they were dislodged only after great difficulty.

It was a week before the "ferocious man-eaters" were sufficiently recovered from their terrors to reappear in public.—McClure's Magazine.

A Splendid Blow. Sir Walter Besant is said to have once settled a disputed cab fare in a novel manner. He drove from Piccadilly to some place in the suburbs outside the radius. On getting down he tendered to the driver three shillings and sixpence, which was a little over the proper fare. The man, however, wanted five shillings. Besant refused, and like to fight you for it," said the driver.

"The very thing," said Besant, who had never in his life put on boxing gloves and was almost as ignorant as Pickwick over of the fighting attitude. "The very thing! Capital! I'll have the fight in the back garden. My brother will look on, hold the stakes and see fair!" The cabman got down slowly, as if he did not quite care about it after all. He followed into the garden, where there was a lovely bit of green turf. Besant placed the five shillings in his friend's hands, took off his coat and waistcoat and rolled up his sleeves—all with an air of cheerful alacrity. "Now, my friend," said he, "I am ready as soon as you are." His anxiety was great, but it decreased as he watched the cabman's face express amazement at the emotions of bounce, surprise, doubt, hesitation and affect eventually.

Broken at the Wheel. In the diary of that remarkable man, General Patrick Gordon, who first sailed in 1654 a poor, uneducated wanderer and when he died in 1683 had his eyes closed by the affectionate hands of his sorrowing master, the earl Peter the Great, the following entry is to be found, under date of Hamburg, March 22, 1683: "This day, a man and a woman, a burger of the towne being the woman's master, for murdering, were carted from the prison to the house where the murder was committed; and there before this house, with hotte pincers, the flesh was torren out of their armes, and from thence were carted to the place of justice without the towne, and there broken and layed on wheels."

Establishmen In America. Among Englishmen who come to America a British author, Mr. Vachell, enumerates "the parson's son, the fortune hunter, the moral idiot, the remittance man and the sportsman." It is a clever and comprehensive catalogue, but it omits one of the types most interesting to Americans—the most responsible "youngster son" sent to the States to seek a fortune he has never been able to find at home or to avoid a maturing crop of wild oats.—New York Herald.

Cards. Harry—Uncle George, at the end of this marriage notice of Cousin Tom's it says, "No cards." What does that mean? Uncle George—It doesn't mean anything. Harry. That it to say, it is only a blind. It is a promise that Tom will give up cards, but, bless you, he won't be a month married before he'll be back to the poker table again.—Exchange.

# GET UP!

That's the morning call of Chastiteler. It's a welcome cry to a well man. But to a man whose health seems to have been only an unrelenting struggle with burning eyes, throbbing head, and a ball in the mouth, it means only a new day's misery.

In such a physical condition health is most surely and swiftly restored by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and organs of digestion and nutrition, and it cures through the stomach diseases of liver, lungs, kidneys, etc., which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition. It increases the activity of the blood-making glands, and every organ is benefited by the resulting increase of rich, pure blood.

Golden Medical Discovery contains no alcohol and is entirely free from opium, cocaine and other narcotics.

Dr. J. C. Golden Medical Discovery and Dr. Sager's Golden Remedy have been of great benefit to my wife (Mrs. A. O. O'Brien, of Viola, Fulton Co., Ark.). Before I used the above mentioned remedies my wife was not only unable to digest food, but she was so weak that I had to carry her. Any one in need of medical treatment for most ailments could do no better than to take treatment of Dr. J. C. Golden Medical Discovery. My wife's health is now perfect. I know my medicines are all from this class.

### Like bad dollars, all counterfeiters of DeWitt's Witch Hazel Salve are worth the same.

The original quick cures piles, hemorrhoids and all skin diseases. L. P. Orth.

The first appearance of the salve, John C. Fremont, never received any honor or gratitude from the negro race; a daring soldier and a Major-General, he lived in poverty for twenty-five years without a pension; the man who had given a vast realm richer than Golconda to his country, he died, not owning a single foot of ground to leave his children—February Ladies' Home Journal.

Recent experiments show that all classes of foods can be completely digested by a preparation called Kodol Dyspepsia Cure which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and always gives instant relief. Orth.

Sam says he has a sick cow. She was mowing around the wood shed and swallowed an umbrella. A little later she swallowed a package of yeast which caused the umbrella to raise, and she has been raising particular flies every since. He has been wondering how to get a cure and had some notion of writing his agricultural paper to find out what to do when an umbrella had passed by and the umbrella being found in his kitchen. He says he can't find Sam says there is not a word of truth in this but just told it to head off a clever liar whose words all had to be taken with a grain of salt.—Homo-stand.

It is a woman's privilege to be courted," writes Margaret E. Sanister in the February Ladies' Home Journal. "Therefore the man sends the valentine, not the girl. Thoughtless and silly girls sometimes overlook this fact that they are to be sought and never to do the seeking, an old employer sees with pain that they employ the arts to attract the other sex; that save the mark, they behave, here and there, as if everything they could do should be done to gain the approving notice of the opposite sex. This creates a false position and is always cheapening to the girl, not only in the eye of others, but also in time when the awakening comes, it is degrading to her self respect."

I want to join this new crusade. And, armed with rocks and broken brick, set out to make the liquor trade. And all attached thereto look sick. I'd like to start tomorrow morn. With Carry Nation in the van, and paralyze John Barleycorn. As it now paralyzes me.

Our prayers have seemed to do no good. To stay the liquor traffic, theft—Give me a bill of hard wood, And I will smash it right and left. And when my muscles are in shape To hoist the heavy derrick straight, No guilty gin mill shall escape. In this or any other state. And when that form of vice takes wings, So that no man can booze and burn, We'll keep on gaily smashing things Until the glad millennium. —Bixby.

The report of E. Hunter, County Judge, showing \$123.00 in fines collected for the year 1900, was examined and on motion approved.

J. E. Abbott, owner of the west half of the southwest quarter of section 5 township 26, range 4, east, having filed his written consent for the taking of two rods more of the west side said land from the north end thereof to the center of Dog Iowa creek, for public road, and his offer to waive any claim for damages to said land by reason thereof for \$30.00. On motion, it appearing to the Board that it is necessary to procure said land to save expense in preventing the creek from cutting across said road, the proposition of said Abbott is accepted and said land declared a part of said public road and the claim of said Abbott for \$30.00 for the land so taken is allowed.

The bids for the furnishing of bridge lumber at points outside the city of Wayne for the year 1901, were opened at this time, and the bid of Edwards & Bradford Lumber company, to furnish material at the towns of Winslow, Hoskins, Wisler, Carroll and Wakefield, having been found to be the lowest and best bid, on motion the bid was let to said Edwards & Bradford Lumber Co.

The bid of Blenkinsop Bros., to furnish bridge material at Randolph being the lowest bid was on motion accepted.

The following Road Overseers were on motion appointed and bonds approved:

The following assessors were appointed and bonds on motion were approved:

Levi Dilitz Logan  
 Geo Harris Plum Creek  
 H E Hanson Wilbur

The bond of W. P. Agler as Superintendent of poor farm was on motion approved.

The bond of A. L. Muhlbead, county physician, was examined and on motion approved.

The bond of W. H. McNeal for the faithful performance of his contract in furnishing stationary and supplies for the year 1900 was on motion approved.

Comes now A. A. Welch and states that for the year 1907 and 1908 he was allowed as county attorney, a salary of \$800 per year; that such amount was allowed upon estimating the population of the county upon the vote of the county at the election of 1894, that the census of 1900 shows that the population of the county was 6,822, that by reason of such error in estimating the population of the county he was overpaid for said years the sum of \$300. Said Welch further represents that during said years he paid his own expenses for office rent, fuel, etc., the county having no room for such office. He therefore asks that this Board allow a reasonable part of his said office rent and expenses to be retained from such overpayment of salary. On motion it is considered that one half of the office rent and fuel expense paid by him, to wit \$250.00 per year is a reasonable part thereof for county to pay, and the same is allowed at such sum, thereupon A. ### Local and Miscellaneous.

Saturday was a pleasant day and many people were in the city trading.

J. B. Myers went to DeSota, Indiana, Monday afternoon to visit relatives and friends.

Pierce Leader: C. A. Watson visited relatives and did business in Wayne Tuesday and Wednesday.

Miss Mae Cunningham, one of the teachers in the Emerson schools spent Sunday at her home in Wayne.

John Marshall day, February 4, was generally observed in all of the principal cities throughout the United States.

One more month of winter. Should it be like the past two months it can hardly be said that we have had any winter.

"To have a perfect stomach a man or a woman must dine well, and breakfast and sup simply. Mrs. S. T. Rorer in the February Ladies' Home Journal.

Millions of people are familiar with DeWitt's Little Early Risers and those who use them find them to be famous little liver pills. Never gripe, L. P. Orth.

Wakefield Republican: Tom Holtz, foreman of the Wayne Herald, was in town Saturday, trying to interest the Wakefield whist players in entering a tournament.

Everybody smokes the Wayne Leader manufactured at home by Wm Dammeier. Why? Because it is the most nicker clear in the city and most others who have tried them say so.

H. H. Mestand: Success is a large word and not every person has found the meaning of it. With some it means the accumulation of a fortune while others feel that they have succeeded in life after having spent a life of three score and ten keeping out of jail. And that is about all they have kept during that time. There are various degrees of success all the way between these two extremes.

A powerful engine cannot be run with a weak boiler, and we can't keep the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and simply can't help but do you good. Orth.

Laurel Advocate: D. C. Main, cashier of the Citizens' Bank of Wayne, was transacting business in Wayne Wednesday. Mrs. James Britton and Lottie White of Wayne, were guests of Mr. and Mrs. M. H. Dodge over Friday night. M. H. Dodge went to Wayne last Friday to visit his mother, who has been quite ill of late, returning Saturday night. He says his mother, who is quite an old lady, is considerably improved at present writing.

Homesead: After having many years of experience with all methods of transacting the business of buying and selling on the farm, I have finally arrived at the conclusion that there is just one way of making purchases of supplies. Farmers cannot afford to buy supplies on credit. The man who will buy at right values must have the money in his pocket to pay for them. No merchant is going to do a credit business without charging something extra for the risk and bother and pays well for it. It is far better to borrow money at a low rate of interest and then pay lowest cash prices for such things as are needed. When a man knows what he wants and can pay for it, he is in a position to make each term as will suit him. Pay as you go and go slow in everything.

### Big Poultry Paper Free.

Just for a short time to introduce the Semi-weekly State Journal that paper will send the Western Poultry News a year free to anyone sending \$1 for a year's subscription to The Semi-weekly State Journal, which is published every Tuesday and Friday, gives all the news of the world, day after day of farm papers and weeklies. It is a newspaper from start to finish and is the paper for the farm. A great many readers call it the "farmers' daily." One dollar gets the Journal twice-a-week a whole year and The Western Poultry News a whole year. This is a big bunch of reading for a dollar. Send your order to the State Journal, Lincoln, Neb.

Reports show a greatly increased death rate from throat and lung troubles, due to prevalence of pneumonia and grippe. We advise the use of One Minute Cough Cure in all of these difficulties. It is the only harmless remedy that gives immediate results. Children like it. L. P. Orth.

## We Stand by Every bit of work We do.

If unsatisfactory, we are here at any time to make it satisfactory. An unsatisfied patron would worry us more than the unsatisfied patron would be worried. We have a standard to which we adhere unflinchingly—that standard is to do the very best work at moderate prices—to keep everyone who comes to us, and above all, to perfectly satisfy everyone.

### Local and Miscellaneous.

Saturday was a pleasant day and many people were in the city trading.

J. B. Myers went to DeSota, Indiana, Monday afternoon to visit relatives and friends.

Pierce Leader: C. A. Watson visited relatives and did business in Wayne Tuesday and Wednesday.

Miss Mae Cunningham, one of the teachers in the Emerson schools spent Sunday at her home in Wayne.

John Marshall day, February 4, was generally observed in all of the principal cities throughout the United States.

One more month of winter. Should it be like the past two months it can hardly be said that we have had any winter.

"To have a perfect stomach a man or a woman must dine well, and breakfast and sup simply. Mrs. S. T. Rorer in the February Ladies' Home Journal.

Millions of people are familiar with DeWitt's Little Early Risers and those who use them find them to be famous little liver pills. Never gripe, L. P. Orth.

Wakefield Republican: Tom Holtz, foreman of the Wayne Herald, was in town Saturday, trying to interest the Wakefield whist players in entering a tournament.

Everybody smokes the Wayne Leader manufactured at home by Wm Dammeier. Why? Because it is the most nicker clear in the city and most others who have tried them say so.

H. H. Mestand: Success is a large word and not every person has found the meaning of it. With some it means the accumulation of a fortune while others feel that they have succeeded in life after having spent a life of three score and ten keeping out of jail. And that is about all they have kept during that time. There are various degrees of success all the way between these two extremes.

A powerful engine cannot be run with a weak boiler, and we can't keep the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and simply can't help but do you good. Orth.

Laurel Advocate: D. C. Main, cashier of the Citizens' Bank of Wayne, was transacting business in Wayne Wednesday. Mrs. James Britton and Lottie White of Wayne, were guests of Mr. and Mrs. M. H. Dodge over Friday night. M. H. Dodge went to Wayne last Friday to visit his mother, who has been quite ill of late, returning Saturday night. He says his mother, who is quite an old lady, is considerably improved at present writing.

Homesead: After having many years of experience with all methods of transacting the business of buying and selling on the farm, I have finally arrived at the conclusion that there is just one way of making purchases of supplies. Farmers cannot afford to buy supplies on credit. The man who will buy at right values must have the money in his pocket to pay for them. No merchant is going to do a credit business without charging something extra for the risk and bother and pays well for it. It is far better to borrow money at a low rate of interest and then pay lowest cash prices for such things as are needed. When a man knows what he wants and can pay for it, he is in a position to make each term as will suit him. Pay as you go and go slow in everything.

## 10 WEEKS TRIAL SUBSCRIPTION 10c

# The Twentieth Century Farmer

It contains a number of special articles each week by the most competent specialist in every branch of agriculture—departments devoted to live stock, crops, the dairy, poultry yard, orchard and garden, farm machinery, veterinary topics, irrigation, and the markets.

The farmer's wife, too, has her share of space, with recipes and suggestions on cookery, dressmaking, fancy work, care of flowers and matters particularly pleasing to her, while the children have a department edited for them exclusively. Four or five pages are devoted to a complete review of the news of the week, covering both happenings at home and abroad, and news in particular interesting to the great farming west. There, too, are the stories, those poetry and humor, and all the good things that one likes to read after the lamps are lighted and the day's work is done.

A Letter from W. F. Norris.

Manila, Dec. 22 1900. W. H. McNeal, Wayne, Neb. Dear Mr. McNeal, The Bureau of Forestry is a most important department of the government of these islands.

The Philippines Archipelago shall not be recklessly destroyed as so large a portion of the forests have been in the United States. Capt. Ahern's idea is to fell the trees as to improve rather than decrease and destroy the forests.

The inclosures are that the election will have a beneficial effect in the suppression of the insurrection. A recent proclamation was issued by the Military Governor, somewhat of the nature of outlawing against such as not belonging to the regular forces.

The Philos will celebrate Washington's birthday with an appropriate entertainment, to which the public is cordially invited.

The graduating class this year is quite large. They had charge of the program Friday evening which was a most enjoyable affair.

WINSIDE. J. P. Jensen was a Norfolk visitor on Tuesday. M. T. Hasley was here from Wayne Thursday.

There is a great variety of valuable gum, rubber and gutta percha trees, and seventeen valuable as dye wood, among the prominent and valuable trees is the Ylang-ylang, from which the well known perfume is made.

Read This Statement. From the Wayne Republican of Feb. 6th. Mr. E. Cunningham, EDITOR REPUBLICAN: To answer many inquiries, and to put an end to various silly and false reports about a case of sickness of one of our students I make the following complete statement of the matter: On Thursday, Jan. 23rd, a young man was taken sick with what appeared to me to be the grippe I called Dr. Leisenring the following day and he found the patient had a slight attack of fever which disappeared in a couple of days. On the 30th, after the patient had recovered and was ready to go on with his studies, some eruptions appeared on his face, neck and arms.

At the Catholic fair held in Randolph last week Miss Maggie Carroll, daughter of Ed Carroll, our county commissioner, won the first prize receiving some 1292 votes. D. M. Davis of the Welsh settlement, was Miss Carroll's representative at Randolph and when the "old man" goes in to win, he generally gets there. Miss Carroll was one of nine in the race and Wayne county feels pretty good over the victory.

Through the efforts of Dr. Hammond the State University experimental station or department of Animal Industry has been interested in sending lecturers here to conduct a Farmer's Institute at this point on Saturday, February 23. The Success or Failure of a mercantile business is in the question of profit. If goods are constantly sold at a loss, failure is bound to come. Prices are marked away up the people will not come more than once and trade is light. Too high or too low prices mean failure. Just where the turning point is, is often too high and too low prices is difficult to determine. In marking our stock we have gone low instead of high when we were in doubt where the turning point was. We give the Public the benefit of the doubt and sell the stock cheaper. You can prove this by examining our stock. Furchner, Duerig & Co. Highest Market Price for Produce.
