## Our Music Business

rests upon a solid foundation. We handle such instruments as WEBER PIANOS. The highest recommendation today without exception has been given this piano. We handle only instruments first in their grade—the best to be had for the money. We meet all reasonable competition—you are mistaken if you think you can do better in the large cities. We are dependent upon the kind of instruments sold for our reputation. We cannot afford to sell a poor one.

No broader distinction can be made between men than that which divides them into two classes. To the first class belong those who always have a good excuse why the thing required cannot be done. The second class is composed of those who manage to do. Foremost in this latter class stands out the figure of General De Wet. Allen Sangree, who has just returned from the Transvaal, draws a vivid picture of the character of this most remarkable general of modern times for the May Cosmopolitan, and the article is illustrated with the most complete collection of photographs and drawings yet published.

(THE)  
**Imported Percheron Stallions**

Villiers 13169 8081 Colmar 24734 43789

Foaled March 28, 1889, imported 4, 1898, imported by Dunham, dam Robine 5097. Villiers is a jet black, weighs over a ton and for many years stood at the head of the stud of Dunham, Fletcher & Coleman, the famous Illinois Percheron importers and breeders. As an individual he is without doubt one of the grandest horses that was ever in the United States, as a producer of the best there is in horse flesh he is easily at the top. He will make the season of 1901 at the barn of his owners in Wayne.

Is a deep iron gray, foaled April 4, 1898, imported by Dunham, Fletcher & Coleman in 1900, sire Navarin (42555) dam Biche 23-002. He is certainly a splendid type of the Percheron family, being only three years old yet weighing a ton, and is an animal with splendid action and abundance of life and good disposition. We believe that in Colmar we are offering to the breeders of this section of the state of Nebraska a horse they will appreciate and we have faith to believe that he will prove himself a noble sire.

### TERMS.

The service fee for either of the above horses will be \$20 to insure mare in foal.

Wonder if there is any populist party now. We haven't heard anything of them around here of late.

Neither defeat or runaway can drive out the man who are in the republican party of Nebraska today. They are there to stay.

President McKinley is now on his 10,000 mile trip through the states and territories and is being greeted with tremendous enthusiasm everywhere.

There are a number of papers that take delight in pounding Edward Rosewater of the Bee. The time thus used would be better spent in leading their assistance toward creating harmony in republican ranks.

The deposits in the state banks of Nebraska are more than \$3,000,000 larger than ever before, not to speak of the immense increase in the deposits of National banks. Doesn't it look a little like prosperity?

General Gomez will visit the United States to express his gratitude for the valuable assistance rendered by the United States in freeing Cuba. At least one man from that country has the good sense to acknowledge that fact.

The way things went in Chicago and St. Louis lends no encouragement for Bryan nor any other frog savior to attempt to run for the presidency. The gold democrats will be next time but the republican party will attend to the electing of a president.

The famous Cuddey kidnaping trial at Omaha last week came to a sudden end when the jury on Sunday morning brought in a verdict of not guilty in favor of Jim Callahan who had been charged with the crime in question. Law and justice are very much at variance at times.

Men who have been in office and under whose management the affairs of the office have been conducted properly and well, should be privileged to retain their positions under the present administration. Justice should obtain for it is the prime factor in dealing fairly with men.

No question but what the republicans have excellent material for the supreme bench, far superior to any that can be offered by the populists. Under the circumstances we suggest that the populists nominate one of the republicans. The judiciary should be non-partisan, you know.—Bee.

Hostilities have ceased between the two republican newspapers of Osceola and the patriots of Polk county are enjoying a season of glad refreshing. We hope it will not be accounted an impertinence to remark right here that no newspaper man can vindicate himself by bombasting a loathsome contemporary.—State Journal.

A. J. (Tony) Langer, who has been one of the prominent newspaper men in North Nebraska for several years, has sold the West Point Republican to Col. J. C. Elliott, a man well known in North Nebraska, and who will no doubt keep the Republican up to the excellent standard it attained under Editor Langer. The letter, 'tis said, will engage in farming.

The way the republican press has "let up" on Aggie Stone Funston ought to be brought to him, in great aggravation the Omaha World-Herald and it is very savage about such inconsequence. But it is a very good American trait. After we caught Jeff Davis and put him in a safe fortress down in Virginia, we stopped talking about that "sour apple tree," you remember. Americans are not noted for kicking a man when he is down, that is of course good, big Americans. The little Americans may be different.—Journal.

Now that the bankers of this district have had a meeting, why not let the newspaper men get together for a change. We would suggest that President Cronin of the Northeastern Nebraska Press Association revive the thing just for one meeting anyway. Let us get together and get acquainted. We don't need a banquet nor any addresses from college professors or editors of big daily papers, but just let the country fellows get together for an evening and talk matters over. Norfolk would be a good place to meet.—his centrally located and no doubt the boys will get us a room to meet in and a fair rate at the hotels. What do you say, fellows?—Pender Times.

The solid south" is impelled by the disfranchising of the negro. With this question out of the way the industrial revolution in process of making may soon drive the South into the camp of the enemy. Senator McLaurin's speech before the National Cotton Manufacturers' Association at Charlotte, N. C., seems an indication of a growing consciousness of the South as to where its true interests lie. Even tradition and prejudice must yield to the irrefragable facts of economic reality. President McKinley's enlightened and conciliating course has done much toward rendering possible and probable the formation of a new and triumphant republican party of the South.—Arrow Head.

There is so much politics in the world that people are apt to forget there is anything else worth mentioning. Of course we want to be well governed and thoroughly protected in our persons and property, but that is only incidental to the actual affairs of life. We only want to be governed and protected in order that we may successfully and safely carry on the actual business of life, and the less noise and disturbance there is made about it the better. A newspaper office is a whirlpool of politics more than half the time. Nearly every man who comes in during a campaign and long before talks politics, until the editor's mind is so full of it that he hardly thinks of anything else. Yet nearly all of his readers are more interested in any one of a dozen other subjects. There are but few who can live on politics and with all others it is only a side issue that ought to be plainly and frankly discussed in the papers a few weeks before, election and even then not to the exclusion of the real important questions of life. Not that good government is a trifling consideration, but men ought make up their minds as to what is good for them and the country and go and vote that way without making it an ever-present subject of discussion and contention.—York Times.

The false notion that a college or university can bestow education upon a duncie or convert the hereditary, moral and mental imbecille into a strenuous and useful man, is very strong among the newly-rich and quite dominant among a large class who send their progeny to the state university because it costs nothing.

The teachings most valued and most useful in this world, are inculcated in the school of experience which is superintended by inexorable laws in nature and in economics. The sooner a young man or young woman can be made to fully understand that, for the violation of either, there is a penalty which nothing can avert, the better the chances of the human being to attain a satisfactory success and consummate termination of endeavors.

The heights of triumph and luxury are in reach of all the youth of America who will look up, and aspire and work industriously and persistently to scale and hold them. Those who teach vagaries in economics, warn the youth against trying to accomplish anything all, and are therefore amenable for encouraging discouragement everywhere. Look up! Go ahead! Work and win.—Conservative.

The second day of the bidding in New York for the new British consols raised the amount subscribed to a hundred millions, or a third of the entire issue. In London the bidding was quite brisk also and several times the amount of bonds have been offered. In London the subscribers have to undertake to sell no bonds to third parties for a certain number of months at less than one per cent. premium. Johnny Bull's credit is thus first class, notwithstanding he wears a patch over his eyes in the Transvaal.

The fifty millions offered in New York and taken at one gulp by J. P. Morgan & Co., means, not a drain of gold to Europe, but a transfer of some of the big balances owing us from British houses to the credit of the British government. We have got enough here and to spare as the treasury holding passes the half a billion mark several weeks ago, but our balance abroad is accumulating so rapidly that there is not much danger of any very large movement of bullion from this country.—State Journal.

Minister Conner bids fair to be the next governor of Iowa. Having signified his acceptance of the nomination by the republican convention provided it is tendered to him, some of the numerous candidates for the nomination have already withdrawn in his favor and a movement of that sort once started is likely to grow apace. Major Conner was a noted soldier of the Union during the civil war and his defense of the compound in which the foreign ministers were so long penned up during the boxer rebellion at Peking showed that he was still at home in a soldier's camp. He has had wide experience in public life and will make an excellent governor of a grand state. His name will do much to stop the factionalism in the party in Iowa aroused by the recent senatorial mills and will be acceptable to all classes.—Journal.

In President McKinley's address at Charlottesville, Virginia, he gave the following advice: "What we want to do now is to be prudent in our prosperity, save while we can and be strong if the storms should come as they do now and then. Whatever comes let us be fortified by the practice of economy while we are all so well employed." Should the President's advice be heeded, there would never be panics and seldom hard times.

On Tuesday Lieut. Governor Savage assumed the duties of Chief Executive of the state of Nebraska. Gov. Dietrich started out to establish and maintain an economical and statesman like administration and it is fortunate that such a man as Gov. Savage succeeds him to continue the state's affairs along these lines.

Shudders at His Past. "I recall now with terror," says Mail Carrier Burnett Mann of Levanus, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift made me feel like a man who had been strangled. I felt tired, worn out, about ready to give up when I began to use Bileo's Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate stomach, liver, kidneys and bowels. Perfect satisfaction guaranteed by E. J. Raymond. Only 60 cents.

Carroll. F. D. Merrill went to Randolph Friday. Miss Way left for Ashlon, this state, today. Barefooted boys are again in evidence. Sam Hurlbert returned from Omaha Saturday. Mr. Davis was a Wayne passenger yesterday. Jack Cherry was in Carroll one day this week. Walter Yaryan has been on the sick list this week. J. R. Manning shipped cattle to Omaha Tuesday. Mr. Forbes of Wayne was in Carroll Monday morning. Mr. and Mrs. J. A. Jones went to Sioux City today. Geo. Killinger was a passenger for Wayne yesterday. H. Bassford made a business trip to Sioux City Wednesday. M. S. Linn has had a picket fence built around his property. Mr. and Mrs. Phillips are visiting in Sioux City a few days this week. Jake Weibau and Ed Zilkke have applied for a saloon license in Carroll. Mr. and Mrs. Chas. Nairn's youngest child has been quite sick the past week. Mr. Stone of Iowa, brother in law of Mrs. D. M. Andrews arrived Tuesday for a short visit. The brick and plaster carriers on the Merrill bank building went out on a strike Monday morning. Oscar McKay was summoned to Randolph Tuesday evening on account of his brother being very sick. Mrs. Dan Dally expects to leave for Blair the first of next week to visit her parents who reside there. Clarke Moseman has been suffering with a severe case of the quincy the past few days but is some better at present. Mrs. Reef, the former cook at the Carroll hotel, was married in Edden Monday to a young man living near Hartington. Elmer Howell left for his home in Norfolk Tuesday. Since his departure the editor's has looked quite sad and lonesome. Frank Davis, a cousin of George and R. D. Merrill, of this place, has purchased the old Wolf & Berry building. We understand that Mr. Davis will make some needed improvements on the property in the near future. What came near being a fatal accident occurred at the home of Mr. and Mrs. Will Hornby Monday evening. Their youngest child has been quite sick the past week and in giving it some medicine, a dose of carbolic acid was administered. Dr. Phillips was hastily summoned and at this writing, (Wednesday) the little one is much improved and will recover.

WINSIDE. Harry Jones and P. H. Kohl were in town for a short time Tuesday. The train service is giving much more satisfaction now than it has heretofore. Wm. House stopped in town for a short time Tuesday, as he was driving from Norfolk to Wayne. We are glad to hear that Jacob Brugger is getting better, and everyone will rejoice to see him around again soon. The question now is "when is Winside going to start its water works plant?" Will we wait like Dainview until the town is nearly burned out? The drug stock of J. G. Troutman was traded last Friday to Messrs Evans and Lane of Winsor for some land near Pilger. We understand the stock is for sale by trade. Mrs. Geo. Hooker and daughter departed Monday afternoon for South Sioux where they expect to make their future home. Mr. Hooker went by team on Wednesday. Laverne Carter returned home Sunday by way of Sioux City, where he met A. H. Carter and saw Mrs. Carter, who is reported to be improving very fast since she has been in Sioux City. Monday morning, A. M. Averill and wife left Winside to take a trip through the south to look up a location that would suit them. Mr. Averill is one of the town's early settlers. All will wish their success. A big shipment of cattle, 15 cars, left here Saturday for Chicago, shipped by the following parties: A. T. Chapin, Dick Chapin, W. H. McClusky, Wm. Prince and Tom Prince. They report a good market. Geo. Barnes and wife started from Winside Monday morning to take a summer's vacation. As Uncle George says, he is going to make all of his relations and friends a good visit, or until they get tired of him before he returns. The people of Winside were terribly shocked Wednesday morning to hear that Theodor Eloh had amputated his left hand just above the wrist with a hotshot. Mr. Eloh has been staying around town for several days but did not bother any one so no attention was paid to him, as he had been in the habit of coming to town and boarding for a week or two and then going out to work again, but it seems his mind had become deranged as he was badly crippled up and all he would say for doing what he did was that it was better to enter the house of God with one hand than go to hell and everlasting brimstone with two hands. The insane commission was called to Winside to determine what was to be done with Mr. Eloh, and they decided he should be sent to Norfolk and taken care of.

Ringland, City Clerk being read, was on motion referred to the Finance committee. Motion made and carried that the City tender, H. S. Ringland, the outgoing City Clerk, a vote of thanks. Moved and carried that a committee be appointed to draft a resolution in regard to the death of Everett Laughlin. Committee reports as follows: Whereas, the City Council at its session held on the first day of May, 1901, has heard of the death of Everett Laughlin, former Clerk of the Council, and hereby expresses its sympathy for the family of the deceased and expresses by these resolutions their very best sorrow. The council testify to the honesty, character and integrity of Everett Laughlin and his efficient services while clerk of the Council. We appreciate the fact that the community has lost a good citizen, and we as a body join with the family and friends in their bereavement. Resolved, that the Council cause these resolutions to be entered at large on the records of the city and that the Council attend the funeral in a body. C. S. Beebe, Com. C. M. Craven, Frank Fuller. Motion made to accept resolutions. Carried. Council adjourned. FRED FRENCH, City Clerk.

Fought for His Life. "My father and sister both died of consumption," writes J. T. Weather, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." In fallible for cough, colds and all throat and lung troubles. Trial bottles free. Guaranteed. 50c and \$1.00 at Raymond's.

Drink Budwizer Beer... The Best on the Market Try a Case. O. D. Franks

Omaha Markets. May 1st, 1901. Receipts of cattle have been liberal but market was held up very well. Beef steers are about steady with a week ago. The quality of the offerings is getting better right along. Cows and butcher stock fell off a little last week, but this week have been about steady with the decline. Stockers and feeders touched the high point of the season this week and trading in that class has been active, with demand good. Continued heavy receipts of hogs have depressed the market to the extent of a shilling since last Wednesday, but the general opinion is that this excessive run will not continue for more than a week longer and that prices should be better within the next ten days. Market today with 11,000 on sale is nearly steady with yesterday. Bulk of sales 62 to 65 cents with the top at 75 cents. The quality of hogs arriving now is very good. Sheep have suffered considerable the past week, the market being from twenty-five to forty cents lower than a week ago.

In Danger. Every one is in danger who neglects the warnings of declining health. The warnings are not as startling as the sudden shriek of a locomotive, but they are just as ominous. When the body begins to lose in flesh, when the cheek is hollow and the skin sallow it is Nature's warning that the body is failing of proper nourishment. It is a condition of "weak" stomach, and "weak" stomach acts soon involves other organs. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and cures through the Munchausen disease usually attendant upon indigestion and malnutrition, and cures through the Munchausen disease usually attendant upon indigestion and malnutrition. There is no alcohol in the "Discovery" and it is absolutely free from opium, cocaine, and all other narcotics. Before I commenced to use your medicine I was in a bad condition (for eight years) and four doctors treated me with disease medicine. I feel like a new man, and I was the world to know it. The Success or Failure of a mercantile business is in the question of profit. If goods are constantly sold below cost, failure is bound to come. If prices are marked away up the people will not come more than once and trade is light. Too high or too low prices mean failure. Just where the turning point is between too high and too low prices, is difficult to determine. In marking our stock of we have gone low instead of high when we were in doubt where the turning point was. We give the Public the benefit of the doubt and sell the stock cheaper. Four school districts up in Cedar County have, under the new school law which permits school districts to unite, united in one district and will erect one centrally located building and provide teams and wagons at the expense of the district, to carry the children to and from school. This system has given excellent success in the eastern states, and the Blair last winter predicted that it would sometime become popular in Nebraska. With stables at the school grounds, many of the boys and girls would be provided with their own conveyances to and from school.

To a great many people the new year begins on the first day of January and the maker of almanacs confuses us by such an arrangement of dates. Farmers all know that the new year begins when the sun shines warm enough to start all vegetation anew. When nature puts off her overcoat and the grass and fruitbuds begin to bud. Then comes the gladsome new year and with it comes plenty of faith for the future. Not until then can he see what the prospects are and what he may have reasons to hope for. Fremont Tribune: Saturday's Daily Tribune proved to be of a size and quality that elicited much commendable comment. It is on occasions of such editions the Tribune has a just pride in the town and itself. Its expansion in size made it the equal in size, at least, of Chicago papers of the same date. This expansion was not to commemorate any particular event except a willingness on the part of the business men to issue proclamations concerning their wares to actual and possible customers. Their advertisements were not the least interesting part of the paper. A newspaper with-

**JAMISON POINTS**

Men, every mortal has his message to the world, what is thine? There is a difference between being washed white and being white washed. Every life is pitched to some key. The Christian life is pitched to the key of the Kingdom of Heaven. The man who always does his duty clean and clear may climb to heaven by a very rugged way but the man who loves God is already there.

**What is that in thy hand?**

was the Lord's message to Moses. God wants every man to show his hand. Let heaven's light into it. To live a good life means a good more than just keeping out of jail. Some folk boast because they have lived outwardly decent. But to be a Christian is to be decent within. If two men were building a brick wall and another man tearing it down there would be joy in getting the destroyer to build instead of tear down. So with God when men begin to build for heaven, there is joy.

**A Letter from Hon. W. F. Norris**

Manila, March 27, 1901.

This morning another popular demonstration occurred. A crowd of well known Filipinos passed the Intendencia building. They were nearly all women and girls with a few scattering men. One carried an American flag near the head of the column or procession, which every now and then she would wave and the following would shout "viva, viva." This demonstration like that of the other day is to induce the Military Governor to liberate the men confined in the prison of Ft. Santiago. On reaching the Government building the crowd gathered in the Plaza in front of the palace, while a deputation of two or three waited on the General or attempted to have an interview with him. As of late I understand, he has assigned them to one of his aids or his secretary.

**A Letter from Hon. W. F. Norris**

The woman's Peace League seems to be a thing of the past, at least it has not been in evidence of late, unless the demonstrations referred to are manifestations of the League.

**A Letter from Hon. W. F. Norris**

The sponsor bill has been a disappointment to business men in this country. Under existing conditions a franchise can be obtained for only a year, which casts a gloom over projected enterprises. It is reported that a party here in the interests of a syndicate, thinking of establishing an electric street car line has given up and returned to the States. Enterprises in general have been nipped in the bud. I think however, the suspension of business enterprises will be only temporary. There is a lumbering company or syndicate organized for operations in the Philippines in which Congressman Hale of Iowa, is interested or perhaps president, which is engaged in actual work. I don't know how it will be affected by the sponsor law. An officer was just in the office tracing out the projected route for a railroad diagonally through the main part of the island of Luzon which would open up what is said to be the richest part of the island, and perhaps of the entire group, to the sea. It is very doubtful whether Manila remains the metropolis of the Archipelago. There is at least one better harbor on the coast of Luzon, at Subig where the U. S. naval yard is located. And as to climate, officers who come from various stations throughout the Inlands, almost invariably, if not always, say the climate is pleasanter than in Manila, and the further south the cooler and more pleasant the climate. I presume the Sala's have as pleasant a climate as any island of the group—though in Luzon and perhaps all the large islands there are upland localities of ideal climate, the future fashionable summer resorts of the United States.

**Pan-American Expo.**

In none of the new industries of the last decade has there been greater progress than in the art of preparing and managing great expositions. It was often said after the World's Fair closed its gates that this country would not see its equal in fifty years. That prediction will be disproved in the present year of 1901: for in all but the space occupied, the Pan-American Exposition at Buffalo will excel the great show of 1893. This means that more can be seen in the same length of time at the Pan-American, with less of the fatigue and weariness that was unavoidable at the World's Fair. The exhibits will be as varied, interesting and instructive as it is possible to make them; and in the matter of entertainment features, the Buffalo show will surpass all former expositions.
