 The college and city ball clubs played a match game Saturday afternoon at the college grounds, the score resulting in favor of the college boys by a score of 11 to 2. Quite a crowd witnessed the game.

There seems to be many disputes as to who has the finest garden in town. If they will just call on the editors to settle the question and turn them loose in the gardens the matter will be easily settled.  
 If people only knew what we know about Kodol Dyspepsia cure, it would be used in every household. Cures dyspepsia and indigestion, belching. It digests what you eat, and can't help but do you good. Orth.

Every newspaper man chooses his own way of running his business. That's the way the HERALD does it and it is not bothering us how others run theirs. It seldom pays, however, to attempt to bulldoze the public.  
 With this week the farmers will have finished corn planting and are correspondingly happy. The small grain crop is growing finely likewise the grass on hay lands, while in some places corn is already out of the ground. At the present time the crop prospects are exceedingly flattering.

On Saturday E. R. Surber, agent for the Northwestern Mutual Life Insurance company received drafts for payment of claim of Mrs. Everett Laughlin amounting to \$1988.00. A cordial invitation is extended to all to attend these services.

MARK STRINGER, Commander of Post.  
 The HERALD is one paper that believes the rights of individuals should be protected. A newspaper has no more right to attack this or that man because he sold n. p. m. might have a grievance against him, than a marshall would have in arresting a man without just cause. To threaten men and send best men through the columns of the press is but a vile attempt at levying blackmail. Men can obtain business without resorting to such a method.  
 Southwest Iowa, Malvern, Iowa: Plenty of people are ready to tell how much money they make on business deals of various sorts until one might infer that they never lost on any of their ventures. Yet those who do any business worth while, are very apt to learn that losses, like death and taxes, are sure to come sooner or later. But then as a common saying has it "nothing risked nothing gained." Mr. J. M. Strahan who has long been known as one of the most successful business men in the county in speaking about shipping stock, was overheard to remark the other day, "Well I once lost over \$2900 on one shipment of hogs to Chicago. I was doing business out by Charleston quite a number of years ago and bought up a lot of hogs for the Chicago market or rather my partner bought them for 10 cents per pound. He got the bulk of them from one man and I told him they would lose us money at that price, and sure enough they did, for that shipment lost us nearly \$3000." "But," added Mr. Strahan with a twinkle in his eye, "I soon made part of it back for I bought the same man's fat cattle a few months later and cleared \$1200 on the transaction."

J. R. Donley went to Randolph on business Tuesday.  
 Dr. J. C. Clark, Eye Specialist will be at the Love Hotel, June 17.  
 The First National bank is putting in a new steel ceiling this week.  
 Charley Johnson returned from Council Bluffs Tuesday morning.  
 R. H. James and wife go to Ida Grove today where they will visit for a few days with his mother.

If extravagance among the "poor" is a sin, and among the "rich" a virtue, the standards of right and wrong in this country are indeed funny.  
 While driving along in front of the residence of J. H. Kato on Monday evening a horse of Jas. Wright fell suddenly to the ground, dead.  
 Prof. Book, for four years, assistant state superintendent, was in the city Monday. He is an applicant for the principalship of the Wayne public school.

Mrs. Chas. Fisher was visiting with her sister, Mrs. Stephens at Winside, Saturday, and while out riding with some friends, Mrs. Fern was thrown from the rig by the horse starting up suddenly. She struck the ground on her head and shoulders and was unconscious for some time. We understand she has about recovered from her injuries.  
 D. H. Sullivan has undoubtedly struck it and in time will probably be classed among those—bond holders you have heard of. Den is a partner in the American Multiplex Talking Machine Company of Washington, D. C. which now have the best machine of the kind manufactured. By dropping a nickel in a slot and pressing a button you can have one of eleven pieces on the key board, and you can tell what it is, too. The machine will certainly be a money maker.

One of the meanest and most contemptible acts ever perpetrated by anybody was done by some miscreant at the cemetery recently. Two corners facing the west of the large Mellor monument were chipped off all along from the top to the bottom with some instrument or other. This act to despoil so sacred a thing as a monument in a cemetery will meet with bitter condemnation by every citizen, and should the identity of the culprit or culprits become known he or they will doubtless get their just deserts.

Short-Horn Cattle Sale.  
 At the new sale pavilion, South Omaha, Neb., stock yards, Wednesday, May 23, 1901 at one o'clock, consisting of about sixty head; 40 cows and heifers, with some calves at foot, and 20 good young bulls, among which are two extra good two year olds. Both are reds, one is a Scotch and the other a Bates; they are suitable to head good herds. All have hard book pedigrees. Our illustrated catalogue tells all about the sale. If you are interested send for one to either of us.  
 F. P. HEALY, Bedford, Ia.  
 W. R. WILSON, Arispe, Ia.

Special Music.  
 Four to five p. m. Saturday, May 25, and Wednesday, May 23, Prof. Otto Voget will play upon the different pianos and will also give a violin solo with Miss Voget as accompanist. No failures to speak of occurred as a result of the Wall street panic.

Whenever any one or two men attempt to get bigger than their party trouble for the party is always assured.

It is now current rumor that Wm. V. Allen will either be the fusion nominee for supreme judge this fall or for governor next year.

The Hawaiian legislature petitioned for the removal of Governor Dole, but President McKinley sustained Dole who will remain governor.

The total admissions for the opening day of the Buffalo exposition was 101,637, which did not include several thousand who entered with the parade.

The two great sovereigns of Europe, King Edward VII and Kaiser Wilhelm are very sick men and death is only a question of time. Both are falling daily.

Of course Cuba will accept the Platt amendment and then in a few months possibly a year or two, they will wonder why they didn't accept it in the first place.

The Pan-American exposition is on in full blast at Buffalo and the supposition is that for the next few months the old song will be sung, "Pat me off at Buffalo."

The Texas oil boom was about on a par with Bryan's presidential boom. It was all right while it lasted but it let many down with a dull thud when it collapsed.

On Monday 50,000 machinists throughout the United States struck for a nine hour day, ten hours pay. 904 firms employing 30,000 men, signed the agreement for a nine hour day Monday and Tuesday.

If Point, of the Stanton Register, could only see one of Senator Young's speeches when he—the senator—reads one of Point's effusions, the latter would realize what a small speck he is on the map, so far as the former is concerned.

Senator Dolliver of Iowa said in his speech at Chadron last fall, that under a republican administration no strikes was ever made to keep wages from being cut, but all were for an advance or for shorter hours. Strikes during the year A. D. 1901 are new proofs of the correctness of his statement.—Chadron Journal.

The fusionists are making a stronger endeavor to keep Thompson and anti-Thompson and Rosewater and anti-Rosewater fights which characterized the recent session of the legislature, before the people for use in future state campaigns. Their efforts should not for a moment have the consideration of republicans. The time may never come when there will be a necessity for opening up these fights for any reason whatever, and until it does come it will be worse than useless to agitate the question. The opposition parties will be immensely pleased if they can cause such a split that the election of a republican, regardless of whose cause he espoused, will be impossible.—Norfolk News.

At the beginning of May, on a basis of 77,535,000 inhabitants in the United States the per capita circulation was \$28.31. This, of course, is a far higher figure than has ever been reached in the past. There has been a pretty constant increase in the proportionate circulation for several years. It is nearly 33 per cent greater now than it was when Mr. Bryan was starting his reign of terror in the canvass of 1896 and it is undoubtedly just as great as it would be if Bryan had been elected in that year or 1900. The gold element of the circulation is the largest ingredient, and that would practically all have disappeared a few months after the inauguration if he had been elected. Still, there is a possibility that Mr. Bryan may be a candidate in 1904. He has many warm friends yet, and they are not discouraged at the defeats of 1896 and 1900. The fight for supremacy in his party between Bryan and his enemies is still to come of.—Globe Democrat.

Prosperous in Spite of Himself. Mr. A. L. Watson of St. Louis, is quoted in the New York Times as saying in respect to conditions in his section.

We have much to be satisfied with, little to complain of, in respect to business conditions. On all sides there is a slight revival of prosperity. Merchants are busy, labor is fully and profitably employed, building operations are on an extensive scale, money is plentiful, the prospects for the crops in our neighborhood are very promising, and the railroads are going on to greater prosperity.

The rain fall on the just and on the unjust," said the Scriptures; and, although the State of Missouri did not sufficiently appreciate prosperity to elect her electoral vote in the last campaign for the party and the policy to which all her prosperity is due, she is sharing with the rest of the country in the good times which Dingley law Protection has brought to the American people. There is time yet for a change of heart, and perhaps four more years of such prosperity as Missouri is having will bring the state into line in support of the policies which look out for and give Protection to American interests.—Economist.

The World's Model Charter.

The President was characteristically pointed and happy in his speech at San Jose, "Well, he said, 'under a constitution that was made by 4,000,000 of people, and yet it has proved adequate for 75,000,000 of people.' 'That instrument, he added, 'seems almost to be inspired to carry forward the holy mission of liberty. It seems not to have been made alone for those who framed it and their successors, but for all ages and all mankind. The instrument stands today almost as it left the hands of its framers. Few amendments have been added, and those have only been to enlarge the priceless blessings of liberty and free government to the people, and no amendment can ever be made to the constitution of this country that will curtail the supreme and sovereign power of the people.' All this is true, and the fact that it is true is an impressive tribute to the ability and foresight of the Philadelphia convention of 1787.

First among all the peoples of the world, the Americans framed a complete written charter for the government of a great nation. All the governments of the world of to-day except the absolutisms and the government of the United Kingdom have written constitutions and all, in a smaller or larger degree, have been modeled on that of the United States. The first French Republic got a constitution three years after the American charter went into operation in 1789. Switzerland obtained one a few years afterward. France lost that constitution and has gained several since, but all have been based, in some degree, on that of the United States. Switzerland has altered her constitution several times since she got her first one in 1798, but all of them bore traces of their model. Germany, Austria-Hungary, Spain, Portugal, Belgium and every other independent country in Europe, except the absolutisms, Russia and Turkey, have written constitutions, save Great Britain, and of course, the patents, grants, charters and acts of parliament which constitute her fundamental law make her almost as republican as the United States, and fully as republican, except in name, as France and some of the other governments bearing the republican designation. The score of independent nations between the Rio Grande and Cape Horn all have the republican form of government, and all have had the United States' constitution as a model.

Not only is the United States constitution the oldest written national charter in the world, but the United States Government is really an older polity than that of Great Britain. The British Government has been completely transformed within the memory of many men still living. Previous to the enactment of the reform bill of 1832 400,000 persons constituted the entire electorate of the United Kingdom. Only one person in fifty of the population of the kingdom had the privilege at that time of voting for members of the House of Commons. By successive doblings of the electorate by the acts of 1832, 1867 and 1884 the proportion of voters, which was one in fifty a little over two-thirds of a century ago, or about the time of the beginning of Jackson's second term as President of the United States, has been expanded to one in six since 1884. The constitution of the British Government is fundamentally different today from what it was at the time Edward VII's grand-uncle, William IV, went to the throne, while the constitution of the United States has remained unchanged except in minor particulars as dictated by the results of the civil war, during all this time. The American constitution, framed more than a century ago, has not only, with a few modifications, met the demands of a material and social development unprecedented in the annals of any nation, and stood the strain of foreign and civil wars, but has furnished a model for the charters of all the rest of the world's peoples.—Globe Democrat.

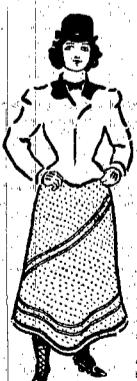

The treasurer of South Dakota has \$650,000 on hand. What a terrible condition of affairs—for fusionists!

"Common Sense"

Is the motto of the modern woman. The thick soled shoe and the rainy day are witnesses to the wise application of the motto in matters of dress. But there is no common sense in neglecting womanly diseases or in allowing them to take hold when it is a matter of common knowledge that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries cutaneous blemishes, drains, heals inflammation and ulceration and cures female weakness.

It is not common sense to seek medical advice of those who are not physicians when a Dr. Pierce's Favorite Prescription makes weak women strong and sick women well.

For 21 one-cent stamps to pay expense of mailing order you can get a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. The book contains 1008 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

Market Reports.

May 22, 1901. Receipts of cattle have been light and market shows some strength over last week. The receipts today, about 2500 and market is strong to 10 cents higher. Quality of beef steers is very good. Good to choice beefs sold from \$5.15 to 5.50; fair to good \$4.35 to \$5.10 and common and warmed up steers sold to killers and feeders from \$4.40 to \$4.80. Cows and butcher steers limited, supply and offerings are cleaned up quickly at strong prices. Stockers and feeders in light supply and trading at strong prices.

Hog receipts have been very heavy this week with 15,000 on sale yesterday and 12,000 today, but took off about 5 cents each day. Bulk of sales today \$8.60 to \$8.95, with range from \$6.55 to \$6.70. Market was held up very well under these heavy receipts owing to a good demand from packers and we think market will be at least steady the balance of the week.

Sheep receipts light and market active at prices 10 to 15 cents higher than the week previous.

WINSIDE.

Mr. Gurney had a telephone put in the bank this week.

Dave Koch is boarding in Wayne this week by the request of Judge Boyd.

Coru planting is progressing very fast and a great many are through planting.

We understand the Wayne and Winside ball clubs will cross bats at Winside Sunday.

Winside is going to have a bowling alley it is being fitted up by A. W. Doran and will soon be ready to get all down but nines.

We understand Winside is to have a third hog buyer, although we do not know whether the report is confirmed at this time or not.

Mr. Chas. Craven will be ready to open the photograph gallery about the first of June, and he will have it in fine style when completed.

J. R. Cook has sold out his interest in the Winside Roller Mills and bought the Stanton Mill, to which place he expects to soon move.

Sunday was confirmation at the Lutheran church when eleven new members were confirmed. Chas. Craven was here and took a picture of that group.

Winside's pick-up nine drove over to Hoskins Sunday to play ball. They report a very pleasant game though Hoskins won the game in the tenth inning by a score of 17 to 10.

W. M. Gue will commence work on the Hoskins State bank Thursday. He did expect to commence before this but masons are not to be easily had now for they have more work than they can do.

Saturday morning A. M. Averill returned to Winside and bought out the hog buying business of H. M. Gray. Mr. Gray does not know as yet what business he will go into, but returned to Bloomfield Tuesday.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weather-wax of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." In fallible for cough, colds and all throat and lung troubles. Trial bottles free. Guaranteed. 50c. and \$1.00 at Raymond's.

Republican: M. T. Healey got back on Thursday for a tour of inspection in Charles Mix county, S. D. While up there he saw most of the former residents of this county and found them all doing well and pretty generally pleased with their new homes. He says Alex Laurie has been suffering considerable from rheumatism, but the rest of the colony are enjoying good health and three square meal a day. A letter from Lloyd Cunningham at Denton, Mont., says he is now preaching at that place and at two mining camps. He is about 60 or 70 miles from a railroad and made the trip by stage. Mrs. Richardson, ex-desires us to announce that on Sunday, June 14, there will be an all day picnic at the Stallsmill school house southwest of the city of Wayne. She wishes everybody to come and bring along their baskets filled with lunch so that they can remain all day. The exercises of the day will be entertaining and will be of such nature as to please you and instruct as well. Let there be a grand turnout.

The Success or Failure of a mercantile business is in the question of profit. If goods are constantly sold below cost, failure is bound to come. Just where the turning point is between too high and too low prices, is difficult to determine. We give the Public the benefit of the doubt and sell the stock cheaper. Furchner, Duerig & Co.
