## The 2 John's Go a Fishing!

One John went fishing and the other stayed at he ook after things. Well this fishing business is like all other drains men have to do with in their life—there is a right way and a wrong way to fish. In the first place you waste all and a wrong way to fish. In the first place you waste all your time if you fish where there are no fish. To catch fish you must go where there are fish to catch, and where there are plenty of them. Then you want to know how to catch them or have some one along that can show you how. This reminds us that its the same in buying clothing. If you want good clothing you must go where they have it, and plenty of it for ret a it. If you don't know good clothing, you must trade with merchant that does. Well, we went where there plenty fish and we know how to catch them of cours caught fish. It is the same if we buy clothing we go to we caught fish. It is the same it we buy clothing we go to the best factorys where they make only good clothing, and we use the best bait. (CASH) which always cauches the bar-tins. In some streams you catch only bull heads, and in some stores, you get only shoddy clothing. Where we fished we caught Black Bass and if you trade with us you will catch all wool clothing in the latest style. Some men use and try to force the fish into them, and some mer stry to talk you into buying something you do not When we fish we use only good bait, and if you trade with us you will not be asked to buy anything, but we will se as bait the best bargains in clothing this country affords use as bait the best bargains in clothing this could y another and it you bite you will catch good clothing at less price than you can buy it elsewhere. Fish for your clothing at the 2 louns for you will always have good luck and your string will copsist of big bargains and the right kind of Clothing. You consist of oig outgains and the light kind of clothing, will not need much bait (cash) if you trade here. Try this place the next time you go fishing for bargains in Clothing, and you will always fish here. June is the best month to fish, and if you give this store a trial during June you will find it easy to catch anything you want, for everything is here that sire for summer wear. Cast your hook in this store and you will not be dissappointed. FOR IF ITS RIGHT YOU WILL FIND IT AT THE 2 JOHNS.
