Fred Berry of Sioux City, was visiting his brother here last week.

Jas. Miller and Jas. Corover were Sioux City visitors last Thursday.

M. S. Merrill went up to Carroll Friday, returning Saturday afternoon.

Mrs. Taylor Sten and little daughter were Norfolk visitors last Saturday.

Attorney H. E. Siman was attending the session of the district court here Tuesday.

Mrs. M. A. Spears returned from her Emerson visit Friday night much improved in health.

Miss Leona Merrill of Carroll, was an over Sunday guest of Miss Ethel Brown in this city.

If Banner Salve doesn't cure your ples, your money will be returned. It is the most healing medicine. Raymond.

Morris Wadsworth returned to Red Oak, Ia., Saturday afternoon, after spending a few days here looking after property interests.

A large crowd attended the M. W. A. dance at the Altona hall Thursday night, the proceeds being very satisfactory to the management.

Mr. and Mrs. W. L. Jones delightfully entertained a number of friends Monday evening. Light refreshments were served during the evening.

Chapped hands, cracked lips and roughness of the skin quickly cured by Banner Salve, the most healing ointment in the world. Raymond.

W. E. Brown of Storm Lake, Iowa, arrived in Wayne Friday evening and was the guest of Baker Swan and wife until Sunday. Mr. Brown is president of the Wayne National Bank.

Senator Billy Mason has aligned himself against rural free delivery. His argument is that, deprived of the necessity of going to the post office, the honest farmer will lose the social and educational advantages offered by the crossroads store forum, and will take less chewing tobacco.

N. Jackson, Danville, Ill., writes: My daughter had an attack of la grippe and a terrible cold settled on her lungs. We tried a great many remedies without giving relief. She tried Foley's Honey and Tar which cured her. She has never been troubled with a cough since. Raymond.

The year 1902 will furnish five eclipses, three of the sun and two of the moon, but only one will be of any interest to the people of the western hemisphere. This is a total eclipse of the moon at the time of the "Hunter's Moon" in October. It will fall on the night of the 16th and will commence about 11 o'clock. At that time of the year we usually have pleasant weather and if it should be the good fortune of people to have no intervening clouds that evening, the sight will be a rare one.

Mrs. C. M. Sandahl was down from Carroll Friday.

Oscar Miller, formerly of Winside, was in Wayne Tuesday.

Dr. Caldwell's Syrup Pepsin sweetens the breath. Raymond.

Sam'l Williamson was here from Carroll Saturday on business.

Rena Olmsted and Pearl Reynolds came up from Emerson Friday evening.

Frank Welbis and Ed Stephens were down from Winside on business Monday.

Chas. Thompson and Phil Sullivan came in from the west Saturday afternoon.

Dennis Finerty of Dakota City, has been in Wayne on business the past week.

Geo. Gaebler was down from Winside Friday night, attending the Sons of Herman dance.

Carl Von Seggern came up from Winside Saturday afternoon for a visit with Wayne friends.

Saturday was almost as fine as the most beautiful summer day and the streets of Wayne were thronged with people.

Homer Skeen of Dakota City, who has been ill for several days, is at home here this week with his parents, and is again able to be about.

R. M. Farr came down from Carroll Saturday afternoon to spend Sunday with his family. He has been doing some carpenter work in that town.

Court reporter Powers came down from Norfolk Monday morning but on finding that court did not set until Tuesday, returned on the 9:40 train.

Granville Terwilliger returned home Friday night from a stammering school in Wisconsin, where, after a two month's term he has been cured of the habit.

La grippe continues often continue for months and sometimes lead to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar affords positive protection and security from these coughs. Raymond.

J. C. Ecker, formerly publisher of the Tribune at Dixon, has purchased the Winside Tribune plant of Benj. McKean, and will take possession on February 1. The people of Winside are assured of a good, newsy paper, as Mr. and Mrs. Ecker are both hustlers.

W. L. Yancey, Paducah, Ky., writes: I had a severe case of kidney disease and three of the best physicians in southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave immediate relief and three bottles cured me permanently. I gladly recommend this wonderful remedy. Take no substitute. Raymond.

Owing to the fact that the post office department has several times changed the rules in regard to Rural Free Delivery boxes, much misunderstanding has resulted. At first the patrons were allowed to make their own boxes. This did not work satisfactory and an order was issued requiring all the boxes in a route to be alike. Fourteen styles made by different manufacturers were approved by a committee appointed by the 1st assistant postmaster general. It was required that one of these fourteen styles be adopted for each route, all boxes on a route to be alike. This rule has since been modified allowing any approved box to be used, provided all the locks on a route are the same. The department however desires that the boxes be uniform on each route if possible. Beware of buying an unapproved box. All routes are inspected and the service will be withdrawn from unapproved boxes.

GERMAN MASQUERADE.

The annual masquerade ball given by the Sons of Herman at the opera house last Friday night was a grand success in every particular. More than a hundred merry maskers tripped the light fantastic to splendid strains of music by Prof. Voget's orchestra, while the gallery was packed with spectators. At eleven o'clock the dancers unmasked and prizes for the best masked ladies and gentlemen were awarded. The total receipts amounted to about \$112.

An oyster supper was served at the Love hotel.

THE GUN CLUB.

A Gun Club has been organized with Wm. Anderson president, Ike Walder secretary and treasurer, and Geo. L. Miner captain and referee. They have imported about 1000 blue rocks which all sportsmen will be permitted to knock out at the rate of twenty cents per dozen or two dozen for 35 cents. They do not warrant that you will break every one you shoot at but guarantee a good time. For particulars as to their integrity and willingness to do the fair thing call on or address Oscar Franks. By getting a trap springer you are permitted to shoot at any time.

Picnic Leader: Wayne has some crack performers on the bowling alley, Frank Kruger having made a score of 263 in a contest last week. Another bowler, Rickabangh by name, scoring 243, and several others, getting scores of 218 to 236. Frank Kruger offers to bowl any player in this part of the country. Kruger played five straight games recently which averaged 226.

You should know that Foley's Honey and Tar is absolutely the best for all diseases of the throat and lungs. Dealers are authorized to guarantee it to give satisfaction. Sold by E. J. Raymond.

On Thursday evening Mesdames Neely, Raymond and Walter Weber delightfully entertained a large number of lady friends at the home of the former. The evening was a most delightfully spent one for the guests.

Mayor J. P. Donhan and Councilman J. Greenen of Seward, were here last week looking over Wayne's electric light plant. Seward expects to put in a plant as they are not satisfied with the private institution now in operation there.

August Schmill and Carl Wills were playing together Saturday at the home of the latter. Young Schmill was loading a revolver which was accidentally discharged and striking the barn glazier and struck the Wills boy in the abdomen causing an abrasion of the skin about three or four inches in length.

Wakefield was visited by quite an expensive fire last Sunday morning. The fire originated in a harness store and destroyed the post office building and all other buildings to the Commercial hotel which was saved by vigorous work. Postmaster Hunter succeeded in saving everything in his office except the furniture and the mail in the boxes, but it makes a lot of hard work for him for several weeks until he can get new furniture and a building.

While there is a popular impression that corn smut is dangerous to cattle, a number of the experiment stations, notably those of Michigan and Wisconsin have fed smut to cows in large quantities without serious consequences. It was fed for a long time, the quantity being increased daily until one peck of pure smut was fed, with grain, to each animal. One of the cows in the trial continued to eat more until she was eating a half bushel of pure smut daily. While eating this amount she suddenly died. A post mortem, however, failed to show that she died from the effects of eating smut. With this evidence before us it does not look as though a cow could eat enough smut in corn fodder to cause death.

St. Louis Falls, S. D., Jan. 17.—(Special to the Sioux City Tribune)—Dr. Sidney J. Goodmanson, referred to in dispatches from Tacoma, Wash., as having been lynched near that place for the murder of his second wife, is greatly alive, and is a resident of Webster, in this state, where for some time he has been practicing his trade as a dentist. Dr. Goodmanson, was for a time located at Salem, this state, and while making that place his headquarters and traveling from town to town doing dental work, he met the lady who is now his wife. He is a member of the Sioux Falls Elks lodge and is well known in this city and throughout the state. He figures conspicuously at the social sessions of the local Elks lodge, as he is a fine entertainer with stories and recitations. Parties in this city who are intimately acquainted with Dr. Goodmanson say that he was at Webster only a few days ago.

Rev. Marguerite St. Omer Briggs, 35
Mount Calm Street, Detroit, Michigan,
Lecturer for the W. C. T. U., recommends
Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—My professional work has for the past twenty years brought me into hundreds of homes of sickness, and I have had plenty of opportunity to witness the sufferings of wives and mothers who from want, ignorance or carelessness, are slowly but surely being dragged to death, principally with female weakness and irregularities of the sex. I believe you will be pleased to know that **Lydia E. Pinkham's Vegetable Compound** has cured more women than any other agency that has come under my notice. Hundreds of women owe their life and health to you to-day, and, therefore, I can conscientiously advise sick women to try it."—MARGUERITE ST. OMER BRIGGS.

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.
When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried and true remedy. **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles.
No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Her Brilliant Inspiration.
That the proverbial absent-minded professor is sometimes shyly abetted by his wife is illustrated by a story told of Prof. Binion. One evening, about the usual hour for retiring, he took it into his head to run over to the club, just as he and midium were returning from an evening call.
"Bill," said the lady, "I must have the front door locked before I retire."
This emergency staggered the professor, and as he looked bewildered at his wife, the lock seized with an inspiration, continued:
"I'll get up and lock the door and throw you the key from the window."
This program was carried out, and when he reached the club the professor related the incident to a friend as evidence of his wife's unusual sanity.
The friend greeted the story with a roar of laughter.
"And why, my dear professor," he said, "did you not simply admit your wife, lock the door from the outside and come away?"
"True," chuckled the learned man of science, "I never thought of that."
The climax of the incident was reached an hour later when, returning home, the professor discovered that the lady, in her excitement, had thrown out the wrong key.

Fascinating at Forty.
It is when she has passed the fourth decade that a woman is now said to be most dangerous to the susceptible of the other sex. Her face may lay lines that "sweet and soft" regards with dismay, her figure may be full of "diamonds," her "dear" gracefulness may even be that art has to step in where nature fails in the matter of hair and complexion, but it is manner which tells. In carriage, in interests, in thought, the woman of 40 is the person to be feared. She has her mother's head half her years, but her mind is better balanced, her judgments are keener.—Lady's Pictorial.

WHAT SETTLERS IN SASKATCHEWAN VALLEY HAVE TO SAY.
Formerly from the United States.
Frank Peckley, Esq., Superintendent of Immigration.
Sir—We, the undersigned, settlers in Saskatchewan, township 43, range 6, beg to submit the following letter. We came from Springfield, Massachusetts, South Dakota, in the spring of 1899, and settled where we now reside. We had considerable crop last year we put in on new breaking, and it was very good, and this year, 1900, our crop was excellent. Our wheat will yield about twenty bushels to the acre, the oats and barley are also very good, and our potatoes and root crop all that could be desired. We consider this a fine country, and are glad we came, as our prospects could not be better. A team man will get a start in this country much quicker than in Dakota.
We are yours respectfully,
John H. Schultz, H. A. Goshen, S. Goss, B. H. Dirks, C. D. Ury, J. Ury, A. Battell, all from South Dakota, U. S. A.

LATE WINTER STYLES

SEASONABLE FINERY FOR EVENING WEAR.

Thin silk fabrics for Spring and Summer are crowding the show window. Tulle, Satin, and especially Stylish New Wash Silks.

New York correspondence.
FASHIONER fabrics of fancy texture and a new crop of summer silks are a rather bewildering array in the shops. Silk monstrosities, batistes, nains, Persian lawns, organdies, satins, and Swisses are on the counters and the temptation to buy would be irresistible were it not so difficult to make choices. The goods are expensive, and this time to get choice patterns, so are purchasing freely. In all these weaves, patterns are attractive and very tasteful. Neither designs nor shades are so pronounced as last season.
If the display of tan shades in all the new fabrics has any significance, they are to be especially stylish. A large variety of tans and biscuit shades are found among foulards, and they are but little less noticeable among batistes and Swisses. A novelty in linen batiste is embroidered with machine in silk of different colors. Pretty batistes are to be had with Persian patterns in silk, plain satin stripes in different colors and polka dots. These are in linen color, but there are other batistes in dainty tints of blue, pink and heliotrope. Swiss muslins in blue embroidered in white are charming. Figured and striped nains are new, and embroidered ones are highly wrought, as is suggested by the laces of the initial picture, which was selected in white and blue embroidery appearing on yoke and sleeves.

WIFE'S EVENING FINERY.

other material much worn just now. A soft, satiny taffeta is also thus used and makes up charmingly. It usually is trimmed with heavy lace or applique work of some kind.

Fashion Notes.
Lattice work is used frequently on the new blouses.
Scarlet and white make a popular combination for children's frocks.
Persian ornaments applied upon chiffon make attractive stocks and bows.
Mourning millinery appears to be unusually elaborate and dressy this season.
Black and white stripes/velvet is used with good effect on gowns of pale blue and white.
Black and white continues to be a favorite combination for afternoon and evening gowns.
Shoulder straps made of ribbons, feathers, flowers or embroidery are a special feature on evening gowns.
The large picturesque hat, raised off the head at the front and side by loops of ribbon, is a popular model.
The gliding metallic shades that appear in some of the new hats, neck pieces and bows of rare plumage, show a rich blending of both the deep blue and dark green tints now so fashionable.
Embroideries of every kind are being used to brighten last year's darker toiles. And those who appreciate beautiful things should try and utilize all they have in their possession, for now is the hour.

A well-dressed woman buttons on her gloves with the use of her teeth. It is said that the French woman puts on her gloves in the lobby and the English woman in the street.
Belts are worn in every imaginable form—that is, as to the sorts and kinds

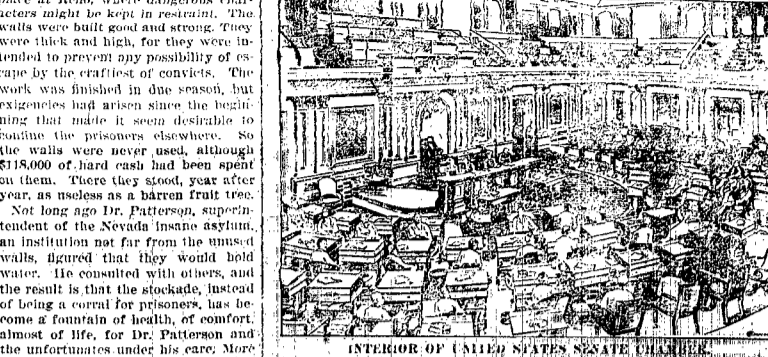

JACKET SKITS THAT WILL HOLD OVER INTO SPRING.

evening gowns, and flowers still trim the necks. This delicate little blossom is beautifully copied in white velvet and is arranged in natural looking clusters. Banksia roses made of white chiffon are another dainty decoration for evening gowns. They form, with hicc, little medallions all around the skirt of a white satin gown. Applications of all kinds are used extensively, and spangled net and fillet are often seen. The fitch effect is used a great deal for bodices.
Evening wraps, like evening gowns, now furnish few disclosures of poverty.

UNITED STATES SENATOR THURSTON,

The Brilliant Statesman from Nebraska Makes an Important Public Utterance

Interior of United States Senate Chamber.

Washington, D. C., April 6, 1901.
"I have used Perina at various times during the past year or two with most satisfactory results."
"It entirely relieved me from an irritating cough, and I am a firm believer in its efficacy for any such trouble."
Senator John M. Thurston, of Nebraska, is seen in the center of the chamber, addressing the Senate.

The Power of Kindness.
A crowd stood on the pavement, watching a driver who was trying to make a horse draw a wagon full of straw.
The horse—a fine beast, with plenty of mettle and well groomed—would not pull, although some men tried to start him by moving the wheels, while others pushed behind.
The driver pulled the horse's head, first to one side and then to the other, but exert himself he would not.
The whip was used and plenty of advice given. Still the horse remained stupid.
A little lad standing by called out: "Show him some kindness, master!"
Some of the crowd laughed, but the driver put up his whip and began to pat his horse; and after a little time the animal became anxious and restless, and before many minutes had gone his stubbornness was conquered, and he started off with the wagon and straw, while the boy walked away, remarking: "All he wanted was some kindness."

Miles of Potatoes.
Everybody who knows the John A. Salzer Seed Co., La Crosse, Wis., are the largest seed potato growers in the world, so when their president, Henry A. Salzer, recently purchased 21,000 acres more of ideal potato land, all wondered what for. Well, it is for potatoes—miles and miles of potatoes.

Druggists as Mind Readers.
They say I'm broke and I want some money. A few days ago I had two within a half hour the other day, and he is waiting for the last of the series. A little fellow entered his store, walked boldly up to the counter and asked:
"Please, mister, give me some right away three hours."
The druggist and several customers gazed at each other, questioned the boy, but always got the same question. Eventually it occurred to one of the number that the lad wanted some of Highway's Liberty Bells.
The lad had been scratching his head over the commodity, and was just combing his hair into presentable shape when another young fellow approached him and asked:
"Please give me a piece of wood that looks like a pistol."
Again the pharmacist gazed at the boy, assistance to unravel the mystery. A few minutes later the lad departed eagerly seeking a piece of slippery elm.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is Syrup of Figs—and for the same reason it is the only laxative which it should be used by fathers and mothers.
Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.
Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—**CALIFORNIA FIG SYRUP CO.** is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

EMERGENCY POUNDS!

Eight pounds of love and laughter, of smiles and sunshine—or? Many a mother can fill up the blank out of her experience of pining, waiting, children, whose coming brought no gladness to the home. Women who have used Dr. Pierce's Favorite Prescription as a pre-natal preparation know that it makes all the difference between a happy, healthy motherhood, and a motherhood of mourning and misery. And they know also, that happy, healthy mothers have happy, healthy children. "Favorite Prescription" strengthens the whole body for the strain of motherhood. It practically does away with the mother's ailments. It enables her to nurse and nourish a healthy child.

Dr. Pierce's Pleasant Pellets are the best laxative for women.

Job in his day was accounted a fairly just man a good citizen. He was pre-eminently respectable, and his worth unquestioned among the people with whom he transacted business. His relations to the established church were cordial and he gave more than any man in the valley toward the maintenance of the same. On account of his standing his wealth gave him in the community, it was easy for him to assume a religious dictatorship, so that in matters of public religious service Job came to be recognized as very nearly the whole thing, and such glorious men as Bildad and Shuite, and Eliphaz and Temanite, were frequently obliged to go away back and sit down because they dared oppose doing things as Job wanted them done. But there is a divinity that shapes as he will men's ends, rough how them as a rich man. Like other rich men of his time and of the years to follow, Mr. Job was not contented with enough. The desire to accumulate strengthened with the lapse of time until like some of the good people of our own generation the old man wanted to own everything that came in his way.—Bixby.

Who Shall Fix the Route

With the house committed to the Nicaragua route for the proposed isthmian canal, and the canal commission recommending the acceptance of the Panama company's proposition to sell its property and rights, it will remain for the senate, which has not yet taken action, to acquiesce in the one plan or the other to map out an entirely different course of procedure. The two houses of Congress, if they could be brought to act together, unquestionably have it within their power to make such conditions to the appropriation of the necessary money to fix the route of the canal without leaving any discretionary authority to the officers charged with its construction. Whether this is the wise thing for congress to do, assuming that agreement could be reached, would still be open to question.

Discussing the contention over the route, the Philadelphia Press, which, as is well known, is edited by Charles Emory Smith, who has just retired from the cabinet, makes an earnest plea for the delegation to the president of full power on this point. "Neither congress nor the public," it insists, "constitutes the best tribunal to reach a decision. The issue calls for expert advice and a tribunal of experts. Even on the mere issue of control a decision is not to be reached off-hand. No one can today say without contradiction whether a clear title to full control is given by the present offer of the existing Panama Canal company, though there is no question that such a title could be given by the company and the Columbian republic, acting together. Under these conditions a decision on the main issue is demanded and desirable at once. A decision on the route should await fuller knowledge.

The Press goes on to say that events all point toward the steady gravitation of the choice of the route into the hands of the president. Both the Panama and Nicaragua routes are open, but the determination which, under all circumstances, is the most valuable requires the solution of an intricate technical problem. In its opinion, therefore, the wise plan is to leave it to the president, who would be guided by the advice of the cabinet, canal commission and experts who could assist him in solving a problem "partly legal, partly diplomatic, partly engineering, partly financial and partly commercial."

That the president could and would conscientiously discharge this responsible duty with prudence and judgment is not to be doubted, but that congress will be disposed to abdicate its prerogative is hardly to be expected. With so many conflicting interests concerned it is more likely to refuse to make any appropriation for canal construction until it shall have reached a satisfactory conclusion on the route. And this is such a serious matter that no precipitate action should be looked for.—B. e.

The isthmian canal commission has reported unanimously in favor of accepting the offer of the Panama Canal Company, and the selection of the Panama route by the United States. The offer is \$11,000,000 and in all probability the house of representatives will be obliged to do considerable work over again. Many of the leading statesmen of the country are of the opinion that the urging of the Panama route is but a scheme for delay and that as a result Congress will be deterred from taking immediate action on the matter. As the expense of constructing the canal will be very great, and as it is to be a permanent improvement to navigation, the best route should be selected in all events. Every detail should be considered that congress may have no cause in the future to regret its action.

He reports that civil government in the Islands is a success, and that there is a strong peace party composed of the most influential men among the Filipinos, who are working earnestly to bring about happy relations between their country and the government.

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood, coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema is very hard to tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

The object of these Institutes is to give to the people the information obtained through our agricultural colleges, and experiments made at our experiment station. I think it a misnomer to call them Farmer's Institutes, because that name suggests the idea that they are only for farmers and that only those subjects in which farmers are interested are discussed in them. In fact, however, the field of instruction extends to subjects in which all resident householders and housekeepers are interested, as will be seen by an examination of the program for Wayne county Institutes, to be held in the court house February 6th and 7th of this year.

I apprehend that every person will admit that the art of how to "cook cheap and nutritious food" is important to every one, whether they are farmers, merchants, mechanics or preachers. It will be observed that Mrs. Bertha D. Laws will give us a lecture on this subject and also on the "American Girl in the Home." These lectures will no doubt be highly instructive and entertaining to all the ladies of the county, whether they live in town or in the country. At this Institute we will be able to gain information and be pleasantly entertained, without money and without price.

Under such conditions we should have a large attendance of men and women, old and young, from country and from towns.

A bill is before the judiciary committee of the senate, which has under consideration the revision and a change in the federal circuit courts. In all probability South Dakota will be placed in the seventh circuit, in which event Omaha will no doubt be chosen as the chief seat of the circuit court. Senator Millard is working vigorously in behalf of the measure.

The war department plans to bring home 10,000 soldiers from the Philippines during the coming summer leaving about 30,000 there for the time being, but does not expect to need as many as that next year. Secretary Root expresses himself satisfied with the progress of the government in the archipelago. Two-thirds of the area of the Islands is now under civil government and the people appear to be satisfied with American rule. General Chaffee is about to visit Samar, the seat of the most severe fighting during the winter, to look at the conditions himself and personally supervise the clearing of the Island of armed insurgents. In Cuba, there is very little of the insurrection left since the surrender of 300 men and as many guns a few days ago.

"Was a False Alarm." I have used your Dr. Caldwell's Syrup of Pepsin and can truthfully recommend it. Some four years ago doctors told me that I had bright's disease. I was laid up three months and nothing I used helped me and no food would stay on my stomach. I used one bottle of your Dr. Caldwell's Syrup Pepsin and food would stay on my stomach and I craved something to eat. There was no bright's disease about me. It was a false report. Ever since I have recommended Dr. Caldwell's Syrup Pepsin to friends and strangers. It is just splendid. I have full confidence in it. George E. Bennett, 220 West King St., Des Moines, Raymond.

 Over a hundred Rural Free Delivery boxes have been placed in the hands of the patrons. It is hoped by all concerned that everyone who expects to avail themselves of the service will put up a box by Feb. 1. The Department expects that the R. F. D. will give farmers about the same postal facilities as are enjoyed by towns not having Free Delivery. The R. F. D. does not traverse every road in the county, neither is there a post office in front of every house in town. If the R. F. D. don't quite reach you put up a box anyway. It brings the post office that much nearer.
 Robt. Kneeb, a noted horseman and race driver, died in Sioux City yesterday forenoon. Robt T. Kneeb, as he was known for so many years, was a horseman and driver of international reputation, and his experiences and exploits on the American and European turfs would fill a volume of interesting stories. In the United States his fearless driving placed him in the foremost ranks among drivers of pacers and trotters, and after five months of unequalled success in Europe, he was arrested in Berlin, charged with "ringing" Bethel, 2:15 1/2, a mare he raised in this country. He was thrown into jail. His trial and subsequent liberation attracted the attention of horsemen all over the world. This exploit cost Kneeb his fortune. He was a resident of Wakefield for many years.

COLLEGE.
 Mrs. Pile was in Sioux City Monday attending to some college wants.
 Miss Casey was an over Sunday visitor with her sister at the ladies dormitory.
 Mr. Reeves of Battle Creek, spent Tuesday with his son and daughter and in visiting various classes.
 Mr. Hurley, a member of the first graduating class here, and now a lawyer practicing in Montana, was a college visitor one day last week.
 Something over ninety more students enrolled last term than were enrolled at the corresponding term a year ago. The term, which opened Tuesday of this week, saw five more meretricious the first day than enrolled the whole of last winter's term.
 Next Sunday afternoon a joint session of the Y. M. and Y. W. C. A. will be held in which a program dealing with Sunday observance will be presented. Some special music is being prepared. The general public is invited.

The "Two Johns" remembered the college this week in a most substantial way by presenting a beautiful mounting of two quails in a gold framed case with a landscape in oil painted in the background. The display is not only very beautiful but quite valuable, and is, of course, much appreciated. This with the collection of arrow heads recently mounted so as to represent an Indian's head in profile, adds very much to the attractiveness of the science room.
 Following is the program for a literary contest between the Philomathean and Crescent societies at the College chapel, Friday, Jan. 24, at 7:30 p. m.

FIERCE NAVAL FIGHT

GOVERNMENT AND INSURGENT FORCES CLASH

Gen. Alban Killed Early in the Engagement—Government Boat Lantaro Is Sunk—Crew of Philadelphia Give Succor to Hopless.

Only meager details of the fighting between the vessels of the Colombian government and those of the insurgents in Panama Bay were received in official dispatches from Washington. They consisted of a dispatch from Consul General Gudger in Panama and another from Capt. Mead, the commander of the cruiser Philadelphia, which is lying in Panama Bay. The dispatches were as follows: From Consul General Gudger: "Fight in the bay... Governor killed. Excitement great." From Capt. Mead: "The insurgent steamer Lailla attacked the Lantaro Monday morning at close quarters. The crew deserted her, and she is now on fire and sinking." Up to 1 o'clock no additional advices have come either to this government or to Dr. Silva, Colombia's representative at this capital.

At the Colombian legation great regret was expressed by the officials at the death of Gen. Alban, the governor of Panama. He has proved a very successful officer, and in the recent operations incident to the capture and surrender of Colon by the rebels he had played a conspicuous part. He was about 50 years old and a man of brilliant attainments. Formerly he had been attorney general of Colombia.

The Panama Railway company at New York received a telegram from Gen. Mead, saying three insurgent and two government vessels had been sunk in the naval engagement in Panama harbor.

FOR PANAMA ROUTE.

Canal Commission's Report Is Sent to Congress. The president on Monday transmitted to congress the supplemental report of the isthmian canal commission on the proposition of the Panama Canal Company to sell its property to the United States for \$40,000,000. The commission unanimously reports: "After considering the changed conditions that now exist and all the facts and circumstances upon which its present judgment must be based, the commission is of the opinion that the most practicable and feasible route for the isthmian canal, to be under the control, management and ownership of the United States, is that known as the Panama canal route."

This report is signed by all the members of the commission. It was accompanied by a letter of transmittal from the president to congress.

REPORT FOR PANAMA ROUTE

Hepburn Says It Will Not Change Legislative Status of the Bill. Representative Hepburn of Iowa, author of the Nicaragua canal bill, which passed this house, says the report of the isthmian canal commission in favor of the Panama route does not change the legislative status of the canal bill.

"Undoubtedly the report will influence individual opinion," said Mr. Hepburn, "but it will not lead to any abandonment of efforts in behalf of the Nicaragua route by the friends of that measure."

"The friends of the Panama measure," said the speaker, "will be glad to recall the canal bill, and that it remains for the senate to meet the new conditions presented by the report."

SCHWAB ON STEEL TRADE.

Says Austria, Germany and France Have Nothing to Fear from Us. The New Vienna Free Press publishes an interview with Charles M. Schwab in which the president of the United States Steel corporation declares that neither Austria, Germany, nor France has anything to fear from American steel competition, although, owing to actual conditions, Europe would never be able to produce steel as cheaply as the United States. Mr. Schwab president of the Federal Steel and Iron Company and the rapid expansion of the American iron trade.

FOUR BUILDINGS COLLAPSE

Big Crash in the Heart of Detroit's Wholesale District.

Four buildings, each four stories high, located in the heart of the wholesale district, of Detroit, Mich., collapsed at 8:30 o'clock Sunday night, without any apparent cause, and all that was remaining was a smoking heap of ruins. The buildings were occupied by five concerns, and their stocks are a total loss, which is estimated at \$152,000, exclusive of the loss on the buildings, which amounts to \$50,500. The buildings joined each other at the corner of Jefferson Avenue and Shelby Street. The first and second floors of the building on the corner were occupied by the Madlocks Glove Company, manufacturers of gloves and mittens, and the two upper floors were used by the Imperial Cap Company, manufacturers of hats and caps. The loss on the stock of the glove company was estimated by Norman Maddocks at \$25,000, and he stated that he believed the loss to the Imperial Cap Company to be \$15,000. This latter figure could not be verified.

Adjoining the Madlocks Glove Company's building was the brokerage firm of F. B. Neuhoff & Co., who carried a large stock of commission goods. Mr. Neuhoff said his loss, like that of others, was total, and amounted to \$8,000, still about \$7,000 insurance. In the same building with this firm was located a stock of commission goods, which he carried for Hills Bros. of New York, and which Mr. Neuhoff said was valued at \$7,000. The Michigan Produce Company also occupied a part of this building, and its loss was estimated by Mr. Neuhoff at about \$7,500.

The third and fourth buildings were occupied by Crasso Bros., limited, wholesale grocers. J. P. Crasso, president of the company, said that they carried about \$200,000 worth of stock, which was fully insured. No one seems to know what caused the collapse of the buildings. On Saturday night that district is practically deserted, and the few who were in the vicinity say that the buildings seemed to fall into a heap without apparent cause, making it possible the rubble of distant streets. There are evidences of an explosion about the ruins, but no signs of a wall of such an explosion.

The "Globe" Company's building, still standing to the height of two stories, but the top of this part of the building lies toward bottom side up in the middle of Shelby Street, and a large iron smoothened box in the sidewalk on the opposite side of the street, smashed against the buildings there as if driven by force.

BIG HAUL OF DIAMONDS.

Robbers Secure Between \$10,000 and \$20,000 Worth in Montana. Robbers secured between \$10,000 and \$20,000 worth of unset and set diamonds Sunday by stealing two trunks from the baggage room of the Northern Pacific station at Glendive, Mont., and breaking them open.

The trunks were the property of C. A. Chausen, traveling representative of E. H. Clansen & Co., wholesale manufacturing jeweler, of Minneapolis. The robbers were an unusually bold one, as four men were in the baggage room at the station asleep and the expressmen were in a room adjoining the baggage room. None of them heard the robbers at work. The window of the baggage room was forced open and through it the two trunks were hoisted out. They were taken only a few feet from the station, where they were broken open and the diamonds taken. Local officers have made one arrest on suspicion.

SAVE TWO SCORE.

Life Savers Rescue Crew and Passengers of a Lake Steamer. Pure Marquette steamer No. 23 was driven ashore at Ludington, Mich., Friday night in a seventy-five mile an hour gale. All the passengers were taken off Saturday morning in safety. There is great danger that the boat will go to pieces unless the sea subsides. There were nine passengers and a crew of thirty aboard the steamer when she struck the bar at the mouth of the harbor. All were taken off the wrecked craft by the life saving crew with a breeches buoy apparatus. Huge waves broke over them, and when they arrived on the pier they were drenched with icy water.

Federal Prisoners Escape.

Eleven prisoners, headed by Moriarty, the counterfeiter, escaped from the federal prison at McNeil's Island Sunday by burrowing through a cement floor into the air pipes. McNeil's Island is ten miles from Tacoma, and there is no way of getting to it except by launch.

New Rural Mail Routes.

During last week Capt. H. A. Clark, from Cheyenne, special agent of free delivery routes, established four routes, each comprising a drive of twenty-five miles, out from Harvard in each direction.

SHIP SUBSIDY BILL

Senate Committee Authorizes a Favorable Report.

The senate committee on commerce on Friday authorized a favorable report of Senator Frye's ship subsidy bill. The report will be reported by Senator Frye. The Democratic members of the committee have not yet reported the bill. They also voted solidly for a motion offered by Senator Mallory to strike out the general subsidy provision of the bill. The committee made several amendments to the bill. The most important were: "Allowing mail carrying vessels under the bill to be either iron or steel instead of steel only, as originally provided," and another reducing to 1,000 gross registered tons the vessels receiving a bounty under the bill.

The report prepared by Senator Frye was read to the committee. It says that the purpose of the bill is to establish the maritime supremacy of the United States in trade with Asia and in the Gulf of Mexico and the Caribbean sea, to establish thoroughly trade between the United States and South American republics, and to give the United States an equitable representation on the northern Atlantic. The claim is made that all these results will be accomplished within ten years. The report also asserts that the bill will so extend ship building as to transfer in time from abroad to the United States the center of that industry, as the centers of other industries recently have been transferred, and also that it will give to the United States a measure of maritime independence corresponding to our industrial and agricultural independence.

BRITISH NOT CRUEL.

Kitchener Denies the Charge Made by the Boer Leaders.

A line book, issued in London Friday morning, on the subject of the concentration camps in South Africa, contains further detailed explanation from Mr. Kitchener as to the causes of the excessive death rate in the camps, and refutations of the charges of cruelty. Kitchener emphatically denies Commander Schalkenberg's allegations of the forcible removal and exposure of pregnant women and of the rough and cruel treatment of women and children. He says: "I offered both to leave the families of relatives of fighting burghers in undisturbed possession of their farms if both would agree to spare the farms of the families of surrendered burghers."

Both emphatically refused, saying: 'I'm entitled to force every man to join, and if they do not join to confiscate their property and leave their families on the verge.'"

The line book gives statistics for the month of December last, when there were 17,017 inmates of camps and 2,380 deaths, of which 1,757 were children.

SLAUGHTER AT A DANCE.

Intoxicated Woman Kills Two Men and Fatally Wounds Another. William Slaughter and Ralph Johnson, colored musicians, were shot and instantly killed and Powell Calloway, white, mortally wounded at a colored dance at Morris Creek, West Virginia. Lillian Williams it was, who used the revolver with such deadly result, each of the four bullets she fired taking effect, except one. About midnight the Williams woman entered the hall, evidently under the influence of liquor. Proceeding to the center of the room she ordered the musicians to play some razine music, and play it quick. When her demand was complied with she whipped out a revolver from under her coat and began firing at the musicians. Slaughter and Johnson were almost instantly killed. Calloway was an abductor of the militia and one of the bullets intended for a musician penetrated his back. Physicians pronounce his wound fatal. The murderer escaped lynching only by the timely arrival of others, who succeeded in getting her away and lodged her in jail at Montgomery.

GETS \$100 A PIECE.

Every Man, Woman and Child in Pottawattamie Tribe Is Paid. Friday every man, woman and child in the Pottawattamie tribe of Indians received from Attorney Robert Baines of Chicago a check for \$100. Recently the probate judge at Dowagiac, Mich., informed and directed that the money should not be paid to the Indians, but to the probate judge. The matter was argued before the judge. It being shown that the Indians were badly in need of money, and the court finding in his object, allowing the payment to be made. The Indians are in a friendly mood, and some of the prouder ones are celebrating, but there is no disorder.

HELD ON SUSPICION.

Saloon Man Held for Holdup of a Pool Room. William Rambo, a saloon man arrested at Kansas City, Kan., is being held on suspicion of being one of the two men who last Monday evening held five men in a pool room in that city and got away with \$1,500.

James Driscoll, a clerk in the pool room, who was struck over the head with a revolver by one of the robbers, identified Rambo as one of the two men. A detective left Sunday night for Denver to bring back Al Green, under arrest in that city, suspected of being one of the robbers.

Says He is a Murderer.

James Mathew, formerly a well known business man of Elkhart, Ind., has confessed to the murder of Peter Olsen near Muskegon, Mich., twenty years ago. The murder was the result of a quarrel. Olsen's body was not found until the following spring.

For President of Williams.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Secretary Royce, of the State Bank Board, Issues a Summary of Statements Made by Banks at Close of Business December 10.

Deposits in state and private banks in Nebraska increased over \$3,421,000 in year ending Dec. 10, 1901, the day of the last bank statement. There was a slight decrease in currency in circulation, but that was made, but it was not as great as expected at this season of the year. A summary of the statements at the close of business on Dec. 10 last was issued by Secretary Royce of the state banking board and with it is appended the following statement: "It is gratifying to know that while a greater reduction in deposits might reasonably be expected at this time of the year than we see on Dec. 10, 1901, but \$344,011.23 less than on Sept. 30, 1901, the difference between the high water mark was reached. The report of the condition of the state banks on Dec. 10, 1901, shows an average legal reserve on hand for the protection of depositors of 33.75 per cent, only the amount required by law is only 15 per cent. The slight effect now produced by a year of partial crop failures as compared with former years is in a great measure due to the general improved and stable condition of the financial and business interest of the state, and to the confidence of the people of our state, including themselves as the most profitable natural resources of our soil, and by applying their energies to the pursuits of industry most adapted to the respective localities. The eastern portion of Nebraska is endeavored to be made an agricultural country as can be found in the world, and while much of the western portion of the state was but a few years ago considered a waste of sandy desert and worthless plain, it is now, in many localities, successfully farmed. The soil under irrigation, yields enormous crops. The balance, consisting of many thousands of acres, is covered by an abundance of rich natural grasses, upon which thousands upon thousands of live cattle and from which hundreds of wealthy ranchmen hail, many of whom were a few years ago western cowboys, camped but little and promising little cities have sprung up.

From the condition of the banks and other business institutions of the state it is clearly apparent that the west is making rapid strides toward the representation of a very liberal share of the wealth and business of Nebraska. With our resources properly employed, our business interests and financial institutions conservatively managed, Nebraska must rank as one of the most prosperous and wealthy states in the union. The abstract of the condition of the 138 banks under state supervision, reported at the close of business, Dec. 10, 1901, shows a condition most gratifying in every detail. The fact that deposits at the close of the year of a partial crop failure throughout the state show an increase of \$5,421,574.17 over that of a year ago, and that there is an increase of \$2,421,574.17 in deposits, an increase of surplus and profits of \$274,731.71, an increase of loans and discounts of \$1,341,012.05, an increase of capital paid in of \$217,300, and a substantial decrease of \$93,187.80 in bills payable and rediscounted paper is an assurance that the business of the state is in a general state of surplus and profits of \$274,731.71, an increase of loans and discounts of \$1,341,012.05, an increase of capital paid in of \$217,300, and a substantial decrease of \$93,187.80 in bills payable and rediscounted paper is an assurance that the business of the GREAT FEATS OF 1901.

ODD AND REMARKABLE THINGS OF LAST YEAR.

Whiskey's High Slaughter and High Wreckage Marks—Wonders of Marriage—Divorce, Travel and Production—Record Breakers.

The first year of the twentieth century saw many new records established in various lines of human activities.

The record set by a high slaughterer of hogs at 81 cents, Michl, Chicago's man Green, when twenty-seven couples from Chicago were deftly spilled in four and three-quarters, each couple taking less than five minutes to 25 through the mill.

FIGHT OVER CHRIST'S TOMB.

Members of Greek and Latin Churches Engage in Olfensive Feud.

In the place of all places on earth where peace and good will might be expected to reign undisturbed a fierce battle in which five men were dangerously wounded has recently taken place.

The immediate cause of the trouble was an attempt by the Latins to sweep the "quadrange," or court, around the church itself.

The church of the Sepulcher itself is looked after by a vicar custodian, who, by the way, was one of those injured in the recent battle.

CHURCH OF HOLY SEPULCHER.

Various religious sects who have churches of their own round about are, however, allowed to hold occasional services there, more than the number of the Greek and Latin and the Greek church.

The garrulous generally say that their hands particularly fall after what is known as the "miracle of the sword fire," which consists in the appearance on the altar of mysterious tongues of flame at the end of the services.

The custody of the holy tabernacle was one of the ostensible causes of the trouble, and as to it, authority there had been conflict among students for centuries.

Congress.

The House of Representatives spent Monday in general discussion of the pension bill.

Mr. Barney of Wisconsin, in a speech of 100 minutes, explained that it carried \$13,846,480, and that \$14,245,220 appropriated for the current year.

Payment of pensions had decreased from \$30,000,000 to \$18,000,000, Mr. Barney was asked by Mr. Richardson of Tennessee why this was.

The number of pensioners was said to be larger. Mr. Barney explained that the arrears were decreasing and the number of large pensions, those from \$30 to \$75 a month, was also decreasing.

On Tuesday the Philippines were the subject of an address by Mr. Hoar of Massachusetts, who spoke in his resolution introduced providing for the appointment of a Senate committee to investigate the administration of those islands.

OPENED BY THE KING.

BRITISH PARLIAMENT RESUMES ITS LABORS.

Recall Pomp Attends the Ceremony—Poultice Hails the King—Speech from the Throne Greeted with Cheers—Ruler Defends His Soldiers.

King Edward opened Parliament with a ceremonial in all essential respects similar to that of February last.

The route of the royal procession through the city was a mile in length, and it was estimated that a million trained troops and 1,000 policemen.

King Edward and Queen Alexandra occupied their thrones beneath a canopy, with the Prince and Princess of Wales on either side of them.

The gentleman in the Black Rod Gen. Sir Michael Biddolph, having summoned the speaker and the members of the House of Commons, his majesty read the speech from the throne.

King Edward VII. The king's speech was a long and stirring one, and it was greeted with the loudest applause.

WASHINGTON GOSSIP.

Secretary Gage explained a boom among clerks of the Treasury Department, issuing two orders of vital importance.

It is one of the most interesting things that has happened since the inauguration of Mr. Roosevelt.

The Louisiana delegation, it need not be said, is wholly consistent in itself in supporting the application of the Dingley tariff to the products of the foreign Philippines.

Mr. Hoar's colleague, said he regarded the resolution as a rebuff to the Philippine commission, which he was chairman of.
