Dangerous if Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartley, Yanketown, Ind. "After using many remedies, I tried DeWitt's Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Files yield to it at once. Beware of counterfeits. L. P. Orth.

The Dixon and Nebraska Normal College clubs played a game of ball at Dixon on Saturday afternoon in which the college team was victorious, score 5 to 1. When Martha Bulloch, the fair daughter of a wealthy Georgia planter, married Theodore Roosevelt half a century ago she little dreamed that her name would be handed down as the mother of a president. The pretty romance of her meeting with the New York man, their courtship and marriage, and the long honeymoon journey in a stagecoach, forms a new and interesting chapter in connection with the life of the present Theodore Roosevelt. In the June number of The Ladies' Home Journal this romance and many unknown facts concerning the President's mother are told by a cousin of Martha Bulloch.

Young Men's STYLES

One of the most successful and popular clothing styles for young men ever designed was Hart, Schaffner & Marx' original "Varsity" sack. This season's Young Men's Style is quite different in cut, but not in its great popular favor, among men who seek the latest and best style; nor in the excellent quality. The "flare" in the skirts is gone and the front of the coat is changed decidedly, but it's the style all right. If you want to have the right thing you must find the H. S. & M. label; other makers may try to imitate the style, the label is your clothes-insurance policy. We add to the maker's own guarantee of your satisfaction.

The Gregory County State Bank has petitioned for a private office in the front of its building. If incorporated from the main office by bronze wire netting and fitted up with a handsome office desk. The interior of this bank is very attractive.—Fairfax News in Gregory County Times.

A friend of mine writes me that he is at a loss to know what the Teeswater breed of cattle are. In their early history Short-horn cattle were known as Teeswater, so named after the locality of their origin on the banks of the river Tees in England. The name has long been obsolete. Durham cattle was a name used later, but now this breed are almost universally called Short-horn on both sides of the water.—Homestead.

A series which should have been named "The Embezzlements of our Modern Aladdins," if considered wholly from the point of romance, is begun in the May Cosmopolitan. But these sketches possess as well a business interest equally for clerk and capitalist, for manufacturer, farmer and merchant. The man who would understand the drift of our news in finance and business must read these lives, so full of incident, of chance, of hard labor and marvelous success. As it is, the series, receives only the common-place name of "Captains of Industry." Each character is created by a noted writer familiar with his subject.

Beauty Triumphs,
It's a Priceless Treasure.

No woman objects to being beautiful. Beauty is woman's crown, joy, pride and strength. The world is always petting and adoring beautiful women. A pretty woman's smile is a passport to the hearts of men. Her eyes are windows into her soul, and her lips are the portals of her life. Her hair is the crown of her glory, and her skin is the canvas of her beauty. The woman who is beautiful is the woman who is successful. Beauty is the key to the door of success. It is the key to the hearts of men. It is the key to the door of happiness. It is the key to the door of life. Beauty is the key to the door of success. It is the key to the hearts of men. REPUBLICAN STATE CONVENTION.

The republican state convention will be held at Lincoln on Wednesday, June 18, 1902, at 2 o'clock in the afternoon, for the purpose of placing in nomination candidates for governor, lieutenant governor, secretary of state, auditor of public accounts, treasurer, superintendent of public instruction, attorney general, and one commissioner of public lands and buildings. Wayne county is entitled to eleven votes.

The candidates are thronging around among the people looking for congressional plums.

Attorney General Konx has found that a meat trust, or combine, does exist and he proposes to carve a few choice cuts from the frame of the octopus.

It looks as though Judge W. M. Robertson of Norfolk would have a large per cent of North Nebraska with him in the race for the republican gubernatorial nomination.

Bryan thinks he is out of local politics for the present. Well there are numerous other reformers of the same opinion, but republicans were in hopes the Col. would stay in.

If any one of the seven republican candidates prominently mentioned for congress are nominated, there will be no fusionist representing this district the next two years, and then some.

Even the Persians have sent over a representative to study American methods, especially in the use of agricultural and other machinery. Uncle Sam leads the grand march and is cheerfully ready to show the rest of the world.

The congressional committee of the Third district met at Norfolk on Tuesday evening, and set June 10th as the time and Fremont the place for holding the congressional convention. Wayne County is entitled to 12 votes in the convention.

W. W. Young of Stanton county, state senator and lawyer will be a candidate before the Third district republican congressional convention. Mr. Young has many friends throughout the district who are urging him to be a candidate. That Mr. Young is good timber there is no question.—Wausa Herald.

Hon. Wm. M. Robinson of Norfolk, has practically the solid support of all North Nebraska for the republican nomination for governor. Now whether man can be named. The Times believes he will be the nominee and if so that is most assuredly equivalent to his election by at least 20,000 majority in this year of genuine Nebraska patriotism and rapidly growing republicanism.—Columbus Times.

We do not live in the Third congressional district, but it would be a pleasure to go down there this fall and help elect W. W. Young of Stanton, to congress. We have known Mr. Young ever since he located in Stanton, at which time we were whitening desks in the second primary department. For years we have believed that Mr. Young ought to be in congress and one day would be sent there by the Third district. And mark the prediction, when he gets there he will be heard from, not only back home in Nebraska, but the country over, as one of the members of real worth that has convictions on all subjects and is ready to support them.—Lynch Journal.

Democrat papers printing a lot of rot about an alleged Democratic triumph on the sugar tariff amendment," says the Chicago Democrat.

"As a matter of fact, the Democrats in the House have been voting all sorts of ways on Cuban tariff legislation. At first they voted with the concession members. The object of the latter is to stop all tariff tuckers at the present session. The purpose of the Democrats, of course, is to make trouble for both Republican wings, their motto being "A plague on both your houses." The Republican difference in the House concerns no point except that of tariff concessions to Cuba, some favoring, others opposing it. The differential has been drawn in to defeat the bill in the Senate. But for the bill undertaken to make a special tariff exception in favor of Cuba there would be no disagreement among the Republicans in Congress. Yet if the Dingley tariff is to be disturbed in relation to Cuba other changes will be proposed, and the differential amendment is a proof of the assertion. The Democratic self-glorification is silly."

Among republicans of the Third district, W. W. Young is a decided favorite for the nomination for congress. No one who knows him can question his ability nor offer any valid reason for not giving him loyal support. Other aspirants for the position will have the support of personal friendship and perhaps professional political pluggers, but if competency and a clean reputation are considered to form the standard of official fitness, Mr. Young had ought to win the nomination in a center.—Tilden Citizen.

Omaha Market Report.

April 30, 1902.

Receipts of cattle have continued moderate for past week and prices have ruled about steady on best grades of beef cattle until last two days, when receipts have been quite liberal and prices are off 10 to 15 cents and 15c to 20c on short-fed and poorer kinds. Fat cows and mixed stock show about the same decline. There has been little "doing" in stockers and feeders and the poorer kind has brought low prices. There is a good demand for the better grades of fleshy feeders. Thin cows and heifers are selling very low.

We quote 1300 to 1500 pound heaves at \$6.40 to \$6.75; 1050 to 1250 pound at \$6 to \$6.40; 900 to 1050 pound \$5.50 to \$5.95. Fat western hay feeds \$5.00 to \$6.10; choice fat heifers up to \$5.00; cows \$4.50 to \$5.50; poorer kinds down to \$1.75; calves \$3.50 to \$4; feeders \$4.50 to \$5.25; stockers \$2.50 to \$4.50.

Hog receipts have been moderate until yesterday and today, when we had 15,000 each day and buyers took off 10 to 20c. Chicago is showing about the same decline there. Prices range from \$6.85 to \$7.15 here.

Sheep receipts fair, with prices higher on fat lambs and lower on wethers. We quote choice lambs \$6.50 to \$7; yearlings \$4.70 to \$5.15; ewes \$4.50 to \$5.50.

Yours very truly,
 Nye & Buchanan Co.

F. M. Skeen went to Hoskins Monday forenoon.

Traveling Is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trauumers, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hansan, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure."

CARROLL.

Dr. M. Davis made a trip to Red Oak. J. A. Jones has returned from Louisiana. Ellnor Evans is improving at this writing. Vaughn Davis made his nursery delivery, last Tuesday.

Mr. and Mrs. H. Pentica of Randolph, were in town on business, Tuesday.

Mr. Bellows, of Rippy, Iowa, has arrived with his family and intends to live in Carroll.

The storm last Friday unroofed several small buildings, and gave work to wall drillers by destroying many windmills.

Troutwein Bros., took possession of the meat market Wednesday, and will supply Carroll with fresh and cured meats.

Friday's storm, or possibly something else, had no good effect on a couple of Wayne men which caused them to sleep in another man's bed with their boots on, and with other disorderly conduct, resulting in their arrest and a fine of \$5 and costs.

The geological cabinet has received another addition this week in the way of a fine specimen of a concretion about the size and shape of a seven inch cannon ball. The specimen comes from Ohio.

Mrs. Eaton, one of the matrons of the Indian Agency, at Valentine, came to the college Tuesday. Her presence here was required by reason of the sickness of her son, John. The latter has been suffering from an attack of St. Vitus dance, but at present seems to be rapidly improving.

It is reported that Hoskins will have another livery barn soon, and our drug store will be ready for business next week. Who says Hoskins is not booming?

Pay people for what they have done, and not for what you expect them to do.

TEARFUL OR CHEERFUL?

Whether a woman is tearful or cheerful depends not on what she has materially, but what she is physically. Many an indulgent husband is driven almost to despair by the tearful outbreak of a wife who has everything she wants. She wants to know what's the matter. But the wife can't tell. She only knows that she is depressed and despondent. Such a condition is usually related to some form of womanly disease. The mental depression has its corresponding womanly weakness. Doctor Pierce's Favorite Prescription changes tearful women to cheerful women by curing the diseases which cause physical weakness and depression of the mind. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness.

Mrs. Alice Adams, of Laboratory, Washington, D. C., says: "With many thanks I write to let you know how I feel. I can say by God, help and your help I am well. I have taken six bottles of Dr. Pierce's Favorite Prescription and I feel like a new woman. I can do all my work. I can't praise your medicine too much. It has equipped your medicine as long as I live. If anyone doubts this give them my address."

"Favorite Prescription" makes weak women strong and sick women well. Accept no substitute for the medicine which works wonders for weak women.

Keep the bowels healthy by the timely use of Doctor Pierce's Pleasant Pellets.

A PLANTER

Is a machine that must be most carefully built and thoroughly tested, as farmers can not afford to use a machine that fails to do perfect work all the time. His time is not only valuable, but there is the liability of loss of a crop. It must be a durable light draft, easy to handle and have a drop that is certain and accurate, so that the operator may have no doubt about every hill going right to the spot. No planter will so nearly fill these requirements as the AVERY.

THE Imported Percheron Stallion

Villiers 13169 8081 Colmar 24734 43789

Foaled March 28, 1889, imported in 1890, sire Briard 5317 (1630) dam Robin 5697. Villiers is a jet black, weighs over a ton and for many years stood at the head of the stud of Dunham, Fletcher & Coleman, the famous Illinois Percheron importers and breeders. As an individual he is without doubt one of the grandest horses that was ever in the United States, as a producer of the best there is in horse flesh he is easily at the top. He will make the season of 1902 at the barn of his owners in Wayne.

Is a deep iron gray, foaled April 5, 1898, imported by Dunham, Fletcher & Colman in 1900, sire Navarin (42555) dam Birche 23-002. He is certainly a splendid type of the Percheron family, being only three years old yet weighing a ton, and is an animal with splendid action and abundance of life and good disposition. We believe that in Colmar we are offering to the breeders of this section of the state of Nebraska a horse they will appreciate and we have faith to believe that he will prove himself a noble sire.

TERMS:
 The service fee for either of the above horses will be \$20.00 if insure mare in foal.

In Java

Natives do not glaze coffee with a cheap and impure coating. They have too high a regard for health as well as for the naturally delicious flavor of their popular berry. The very American roasters who glaze their package coffees do not dare to touch or glaze their high priced Mochas and Javas. Why?

Lion Coffee is never glazed or adulterated. It is JUST PURE Coffee.

The sealed package features uniform quality and freshness.

A man east of Wayne was blown off a hay wagon Tuesday and had his arm broken. The price of hogs nowadays is liable to raise a man up so high that it is dangerous to monkey with the upper currents of a Nebraska gopher. — Rev. Father Webber of Wayne, came up Saturday and held services Sunday. There being no church of the Catholic denomination here the services were held in the capacious residence of E. W. Cullen. It is to be hoped that the Catholics of this vicinity will soon be able to erect a large church on the lot they own and have services regularly. — Winside Tribune.

You Can Lead a Horse

to water but you can't make him drink.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep—not working—gone on a strike. It doesn't try to use its food.

Scott's Emulsion wakes it up—puts it to work again—making new flesh. That's the way to get fat.

ARE YOU A SKIMMER?

Don't know what I mean? It is this—When reading a novel do you read the opening chapter, then skip a dozen pages or more, then fifty or so, then turn to the closing chapters to see how it all ends? When looking at a newspaper do you just read the illustrations and local columns? If perchance you do notice an advertisement do you look only at the lines printed in large type? If you do all these you are a skimmer, and my advice to you is, mend your ways. Begin right here by carefully reading the following. You will find it pays to stop skimming, especially my ads.—For the investment of 85¢ in cash or produce you can save two big round dollars on the following assortment of new staple groceries:

THE CROP BULLETIN.

Dry Weather Unfavorable for Growth of All Vegetation.

Lincoln, Neb. The first detail bulletin of the Nebraska section of the United States climatic and crop service for the season of 1902 was issued Tuesday by Director George Loveland. It contains reports from nearly all of the grass and grain sections, and a general summary of crop conditions.

The bulletin covers the period of the last week, which is said to have been a good one for advancing farm work, although a lot of the reports indicate that the ground is getting too dry for plowing. The dry weather has been unfavorable for all vegetation. Grass has grown slowly and pastures are poor and backward. Winter wheat has deteriorated in condition owing to some of the southern winds, where the moisture was sufficient for crop growth. Oats and spring wheat are coming up slowly. Plowing for corn is well advanced and some corn has been planted in the southern counties.

The rainfall during the week consisted of scattering showers, the measurement averaging about 10 of an inch, excepting in some of the southwestern counties, where there was half an inch of rain. Last night's showers raised the average somewhat, the fall being reported to the weather station as follows: Ashland, 0.4; Hickman, 1.0; Imperial, 0.8; Lincoln, 1.0; North Platte, 2.0; Omaha, 2.0; York, 2.0; Valentine, 2.0; Wynome, 2.0; Willer, 2.1. A light snow fell at Seneca.

Lincoln, Neb. There was a drop in temperature Tuesday from the high point of Monday of from 40 to 55 degrees throughout the state. Following a slight rise of 15 in the morning, the temperature on Tuesday night fell to the low point of the season, and Tuesday night a snowstorm prevailed in central Nebraska, with indications of a blizzard. Railroad reports from the extreme northwestern part of Nebraska and Black Hills tell for a heavy fall of snow—fifteen inches at Custer and about two feet at Spearhead. Snow was slightly delayed, more, however, from the furious wind than the snow.

Lincoln, Neb. A violent wind and rain storm visited Lincoln early Tuesday morning, bringing some relief from the extended drought and materially lowering the high temperature. TO PROBE BEEF TRUST.

General Improvement Observed in Most States. The regular weekly crop report of the weather bureau was compiled before the sweeping changes of weather throughout the West and central West were reported.

The week ending on April 21 was warmer than the average in the Pacific coast and Rocky Mountain regions, in the Missouri valley, and the northern districts to the eastward.

The latter part of the week was marked by a return to high temperatures in Kansas and Nebraska, intensifying the drought conditions in those States.

The progress of corn planting has been rather slow, except in Missouri and the southern States, this year being about half in the central and the west gulf districts.

Wilder wheat has continued to make slow growth, and on the whole is in less promising condition in the principal winter wheat States of the central valley than at the close of the previous week.
