Dangerous if Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartley, Yankeetown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Files yield to it at once. Beware of counterfeits. L. P. Orth.

The big sleeve with an unnatural bump on the shoulder came next, but did not last long. The bump then moved from the shoulder to the cuff. Just now it is the fad to wear a shirtwaist that looks as if a peck of apples had been dumped into it in front."

In putting out any crop it will be well to figure on an adverse season and a possibility of there being a poor yield. One should never be called on to figure a reduced yield because of neglect in either putting in or caring for a crop. Should one have any doubts about the business he had better not put in the crop, than to let up on the care because of expected poor results. Sow good works and reap gladness.—Homestead.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Objects to Bridge Tax—The C. & Q. Railroad is Granted an Injunction Restraining Collection of Taxes by Cass County.

A Plattsmouth dispatch says: Judge Paul Jensen has issued a temporary injunction against the Cass County authorities, restraining the same from collecting taxes on the west half of the Chicago, Burlington & Quincy Railroad bridge, which crosses the Missouri River at this place.

The railroad company brought suit in the district court here against J. H. Barton, county treasurer, and the county of Cass, in which it seeks to evade the payment of taxes on the west half of the bridge which spans the Missouri River at this point.

The injunction asked was to restrain the county treasurer from collecting by distraint, return or in any other manner, and that the assessor be forever restrained from listing the bridge for taxation. Also that the taxes already charged against the bridge be annulled.

ARE MORE THAN 200 VICTIMS.

farmers Near Randolph, Ruined Out of Over \$2,000.

A special from Randolph says: Farmers in the vicinity of Randolph to the number of over 200 report the sudden destruction of their crops by a heavy frost on Saturday.

McKay conducted a branch wholesale grocery business for Lovorn & Brevine of Chicago, and has been located here since last September. About a month ago he organized a farmers' trading association, the members of which were to receive 15 cents per dozen for eggs and 20 cents a pound for butter in cash all summer, at a time when a legitimate market pays only 10 to 8 cents for eggs and 10 to 12 cents for butter.

From this source McKay got about \$25,000. All produce brought him was taken at agreed prices, but that in due time he was unable in cash or goods, and the produce sold to the Hanford Company at Sioux City for cash.

Farmers who had unbounded faith in McKay, and were jubilant to receive such high prices for produce, now mourning in sackcloth and ashes. No since last September. SENATE WANTS FACTS

WOULD TURN SEARCHLIGHT ON PHILIPPINE WAR.

Democrats Declare Majority Party in Seeking to Cover Up the Truth—Smith's Infamous General Order as to Samar Denounced by Sibley.

The Democrats in the Senate Wednesday accused the Republicans of a desire to suppress the facts as to the situation in the Philippines.

The debate was heated and continued for two hours. It came after a resolution offered by Senator Patterson of Colorado directing the Secretary of War to order by cable Maj. Gardner, now in the Philippines, to come immediately to Washington to appear as a witness before the Philippine committee.

Senator Lodge, in denial, declared that such an attempt would be inconceivably stupid. All parties, he insisted, were anxious for the truth to be known.

AN ARMY OF HOME-SEEKERS.

The Northwest Invaded This Spring by Immigrants.

Statistics compiled by the railroads show that for sixty days ending April 12 no less than 139,000 homeseekers entered the Northwest.

From the Eastern and Southern States, of these 139,000 have located in North Dakota, 47,000 in Washington, 12,000 in Oregon, 10,000 in Idaho, 12,000 in Montana, 4,000 in Wyoming.

The immigration this spring exceeds that of any previous year, and may be accounted for on several grounds.

Generally good crops have had much to do with it. The weather has been such as to be developed makes opportunities to be found nowhere else in the country.

The moderate price of land enables the Eastern farmer to sell out and re-engage in business where the yields are greater, the labor is less and the markets are better.

There is a general feeling of unrest in the Eastern States, and many have been created in the Western States in the past year, developing the mercantile interests and the local markets for produce.

While there is not room for two or three million people in the Northwest, it is not settled up, it is not unprofitable to settle in it.

Republican State Convention.

The republican state convention will be held at Lincoln on Wednesday, June 18, 1902, at 2 o'clock in the afternoon, for the purpose of placing in nomination candidates for governor, lieutenant-governor, secretary of state, auditor of public accounts, treasurer, superintendent of public instruction, attorney general, and one commissioner of public lands and buildings. Wayne county is entitled to eleven votes.

The senatorial and representative conventions are to be held this year also, but no candidates have been mentioned up to date in this district.

Hon. John R. Hayes has been nominated for Postmaster at Norfolk. The Herald joins Mr. Hayes' numerous friends in extending congratulations.

The congressional race in the Third district is developing a warm pace and by the time the convention is held will eclipse anything ever before witnessed in the Big Third.

The cyclone is beginning to do business throughout the country, two occurring in one day over in Iowa last week, causing a loss of \$80,000 and injury of a number of people.

The Pops will have a dismal time endeavoring to make the farmer think they have nine only cent corn. Too bad, but these men can no longer hoodoo the fillers of the soil by "junk shop trash."

Governor Savage has withdrawn from the gubernatorial race, or in other words, the Republican Press of the State decided the matter for him. Let us hope that future governors and treasurers will abide by the wishes of the people.

Since Governor Savage withdrew from the gubernatorial race, more candidates have entered the field and the race promises to be a decidedly interesting one. The fact remains, however, that only men of known honesty and ability must be chosen for state officers. The republican party in Nebraska does not propose to be "hoodooed" any longer.

Senator W. W. Young of Stanton is out for the congressional nomination in his district. Having known Will Young from the time he commenced the practice of law back in Ringgold county, Iowa, we are disposed to think the republicans could not find an abler, brainer, or better man on whom to bestow that high honor.—Ainsworth Star-Journal.

Reveals A Great Secret.
It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption. Here is the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-worn throat and lungs. Hard coughs and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all throat and lung diseases. Guaranteed bottles, 50c and \$1.00. Trial bottles free at L. Pierce's.

AS TO REPUBLICAN PROSPERITY.

Five years ago the republican party resumed control of the administration of national affairs after four years of democratic rule, during which the country had experienced one of the severest industrial and commercial depressions in its history. When the republican party was restored to power hundreds of mills and factories were idle and hundreds of thousands of people were without employment. Both our foreign and domestic commerce had made little if any progress in the preceding four years. There had been financial distrust and an indisposition on the part of capitalists to invest in new enterprises. The great transportation interest was unprofitable as a whole. The agricultural producers were not making money. The wages of labor were lower than they had been for a number of years. The consumption of the products of the farm and factory had materially declined.

The republican party promised to remedy this unhappy condition. It made provision for doing so as soon as possible. Indeed, immediately after the election of 1890 the business situation began to improve and there was a steadily rising tide of prosperity. The industries of the country became active and continued so. The demand for skilled labor grew until it exceeded the supply and wages increased. Our foreign and domestic commerce grew with unprecedented rapidity. Transportation and agricultural production became profitable. The consuming power of the people was greatly increased.

The country is still prosperous. All industries are in active operation, the great iron and steel industry, which perhaps best reflects the general prosperity, having business which assures at least another year of undiminished activity. The great transportation interest is making good earnings, which promise for the current year, if crops are favorable, to equal if not exceed the high-water mark of last year. There is little idle labor in the country and in some portions the demand is in excess of the supply. The March bulletin of the New York department of labor states that during the fourth quarter of 1901 only 4.6 per cent. of the members of labor organizations in the state were idle as compared with 8.5 per cent. for the same organizations in the corresponding period of the previous year, when the idleness was less than it had been in any of the preceding years. Undoubtedly the percentage has since been reduced and the labor situation in New York may fairly be accepted as an index for the entire country.

One of the most striking results of the prosperity under republican policy during the last five years is the statistics of savings banks. Equally valuable evidence of the benefit of this policy to the agricultural producers is the great amount of mortgage indebtedness paid off, aggregating hundreds of millions of dollars. In short, there is not an industrial or commercial interest that has not shared in the remarkable prosperity which has prevailed since the republican party returned to power five years ago and labor in this country is as a whole better off today than at any previous time in our history. Demagogues may sneer as they will at "republican prosperity," but it is a most substantial fact, attested not only by indisputable statistics, but by the universal personal experience of the American people. The financial, industrial and commercial progress of the United States during the last five years is without a parallel in the history of any other country.—Bee.

Traveling Is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hanson, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure."

During the first ten weeks of this year the Chicago market received nearly fifty thousand more cattle than during the same period last year, but their aggregate weight was about a half million pounds short of the aggregate of last year's cattle. The supply of beef was much shorter and it shows that the cattle are being sent to market in a higher condition. This is probably because the price of corn is high. A similar condition exists in the hog department.—Homestead.

Good hogs sell here this week for \$3.95 per hundred. It seems that Carroll is somewhat dry with a wet board. Griffith Williams is wrestling with the mumps, so 'tis reported. Ninety acres of corn has already been planted on the Ingram ranch. The Carroll band is improving splendidly in the quality of music rendered. J. A. Jones has sold his residence property here to Evan Evans for a consideration of \$1,400. A great many of the farmers in the country surrounding Carroll, will begin corn planting next week. The fine rain of Monday made the meadows and everything look green and beautiful, in this neighborhood.

The editor of the Winside Tribune was looking over our town, Saturday.

J. G. Foster and Geo. Weatherholt attended conference at Norfolk, Tuesday.

We understand Miss Anna Nelson has accepted a position in a store at Pierce.

Robt. Elliott and sister Olive were in town from Winside, between trains, Saturday.

A few more people in town like some of the members of the present town board would be a good thing, we don't think.

The action taken by the town board on the saloon question showed very poor judgment, in our estimation, for business men.

Geo. Schröder has bought the four lots just north of the bank and would put some good buildings on them if he had the right kind of encouragement, but such encouragement as one gets from our town board wouldn't put up many buildings.

GOOD LIVING

Quite often results in bad health, because what is termed good living is usually the gratification of the palate without reference to the nutrition of the body. When the good liver is a business man and rises from a full meal to plunge at once into work requiring mental effort the result is almost sure to be disastrous, because digestion draws upon the same nervous forces which are employed in thought. In time the stomach becomes diseased, the process of digestion and nutrition are imperfectly performed and there is a physical breakdown. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cleanses the system, removes matter which originates in the system as a consequence of imperfect digestion. It gives sound health to the whole body.

It is to be said to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to the people of this country. It is a true and reliable remedy for all diseases of the stomach and other organs of digestion and nutrition. It cleanses the system, removes matter which originates in the system as a consequence of imperfect digestion. It gives sound health to the whole body.

Tired Out

"I was very poorly and could hardly get about the house. I was tired out all the time. Then I tried Ayer's Sarsaparilla, and it only took two bottles to make me feel perfectly well."—Mrs. N. S. Swinney, Princeton, Mo.

Tired when you go to bed, tired when you get up, tired all the time. Why? Your blood is impure, that's the reason. You are living on the border line of nerve exhaustion. Take Ayer's Sarsaparilla and be quickly cured.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows it about this grand old family medicine. Follow his advice and you will be satisfied.

A PLANTER

Is a machine that must be most carefully built and thoroughly tested. Farmers can not afford to use a machine that fails to do perfect work all the time. His time is not only valuable then, but there is the liability of loss of a crop. It must be Durable, Light, Draft, Easy to Handle and have a Drop that is certain and accurate, so that the operator may have no doubt about every hill going right to the spot. No planter will so nearly fill these requirements as the AVERY.

THE Imported Percheron Stallion

Villiers 13169 {8081} Colmar 24734 {43789}

Foaled March 28, 1889, imported in 1890, sire Briard 5317 (1630), dam Robin 5697. Villiers is a jet black, weighs over a ton and for many years stood at the head of the stud of Dunham, Fletcher & Coleman, the famous Illinois Percheron importers and breeders. As an individual he is without doubt one of the grandest horses that was ever in the United States, as a producer of the best there is in horse flesh he is easily at the top. He will make the season of 1902 at the barn of his owners in Wayne.

Is a deep iron gray, foaled April 5, 1898, imported by Dunham, Fletcher & Colman in 1900, sire Navarin (42555) dam Birche 23-002. He is certainly a splendid type of the Percheron family, being only three years old yet weighing a ton, and is an animal with splendid action and abundance of life and good disposition. We believe that in Colmar we are offering to the breeders of this section of the state of Nebraska a horse they will appreciate and we have faith to believe that he will prove himself a noble sire.

LOST TWO DOLLARS.

Worked hard all week to earn money enough to buy a suit and went to the same place his father always traded and lost Two Dollars by buying his suit there.

Such was the experience of a young man that come to this store last week to see what we would ask him for a suit like he bought. "Some people never lock the barn door until the horse is stolen." Better look here before you buy clothing. It don't pay to buy clothing until you have looked here. You can easily save Two Dollars on a suit but get better clothing and in style.

Why not look here before you buy clothing? It costs you nothing and even if you don't buy here you will feel better satisfied if you have seen our clothing. This is a clothing store and every one connected with this place is an expert clothing salesman. You will always find anything here if it is good. We can't afford to sell inferior clothing. If you buy a suit here, you get it in style, and for less money than elsewhere. We give a written guarantee that the suit will prove satisfactory or give you another suit. Our prices are all in plain figures and sold at one price to all. We have and sell more clothing than any other store in Wayne county. What better inducement can be offered than we make for your trade. Try us and you will save money and be satisfied with your purchase.

REPUBLICAN CO. CONVENTION.

By order of the Republican County Central Committee a delegate convention of the Republican party is called to meet in the city of Wayne, Wayne County, Nebraska, on Saturday, June 7, 1902, at 2 o'clock P. M., for the purpose of selecting delegates to represent the party in accordance with the provisions of the respective calls for conventions to which the Republicans of the county are entitled to representation, namely, to-wit: the State Congressional, Senatorial, Representative, and for the further purpose of placing in nomination a candidate for the office of county attorney. The various precincts of the county are entitled to representation as follows, one delegate for each twenty votes cast at the last general election, or major fraction thereof, for Samuel H. Soucek for the office of judge of the Supreme Court, and one delegate at large for each precinct. The various precincts of the county are entitled to following number of delegates:

Ardena	3	Plan Creek	4
Chapin	3	Strahan	4
Deer Creek	3	Sheehan	4
Garfield	3	Wilbur	4
Hoskins	3	Windside	3
Hancock	3	Wayne First Ward	4
Hester	3	Wayne Second Ward	4
Ladelle	3	Wayne Third Ward	4
Lebanon	3	Total Delegates	166

It is recommended that no proxies be allowed, but the delegates present from each precinct cast the full vote of the precinct. It is recommended that in precincts composing the First Commissioner's District at their precinct caucus delegates be selected to a convention for the purpose of placing in nomination a candidate for county Commissioner, such delegates to equal in number the delegates selected to represent such precinct in the county convention.

It is further recommended that all precinct caucuses be held on Friday evening, June 6, 1902.

MARRIED.

SLAUGHTER-HANSEN.—At the home of the bride's parents, Mr. and Mrs. Henry Hansen in this city, at 12 o'clock Wednesday, May 7, 1902, Miss Amanda Hansen and W. H. Slaughter were united in marriage, Rev. Johnson of Coleridge officiating. The guests present were relatives and immediate friends.

The bride is one of Wayne's highly respected young women with a large circle of admiring friends. The groom is the son of Sol Slaughter, deceased who resided in Logan precinct, south of Wakefield, and is a young man of excellent reputation. The bride and groom left last evening for Butte, Neb., where they will reside on a farm.

School Board Organizes.

Last Monday evening the school board met and organized for the ensuing year. D. C. Main was elected president; Dr. E. S. Blair vice president; E. Kunter, secretary. The following teachers were re-elected: Miss Lillian Leath, principle high school; Mrs. M. A. Phillips, assistant principal; Miss Barrett and Miss Etta Morgan. Ward school, Miss Edith Stookin, principal; Miss Jennie Mettlen, Miss Anna Weaver and Miss Hyde. Misses Gladie Brookings, Britton and Skillers were not applicants for re-election and the board meets again next Monday evening to try and fill the vacancies.

City Council Proceedings.

Wayne, Neb., May 6, 1902.
Pursuant to call Board met in special meeting to consider and act upon petitions for saloon liquor license. Present Mayor Ley, Councilmen Piepenstock, Heckert, Craven, Chase, Beebe and Sberbahn and Clerk French.

Bonds of H. S. Kingland as city treasurer and Fred French as city clerk were read and approved.

The mayor appointed a committee—Piepenstock, Chase and Craven to examine petitions and bonds on file and this committee reported everything regular and their report was accepted.

On motion bond of Herman Milder was approved and clerk ordered to issue license—six ayes.

During call of the roll on the Milder petition Frank Kruger laid on the table a folded paper and demanded to know whether or not the Board intended to grant him a license.

On motion bond of Oscar D. Franks was approved and clerk ordered to issue license, vote of six ayes.

By request of one of the councilmen paper laid down by Frank Kruger was read, being as follows:

Wayne, Neb., May 6, 1902.
Comes now Frank Kruger and states that he is a resident freholder of the city of Wayne, and he does hereby object, protest and remonstrate against the issuance of a license to sell, vituous and spirituous liquors to Herman Milder for the year ensuing, and asks that a day be set for the hearing of this remonstrance and objection.

FRANK KRUGER.
Also for the same object one reading Oscar D. Franks. It was considered by the Board that the above papers were not "filed" and did not present a "legal" objection to the granting of license, and call for no action by the Board.

On motion the Board took up the routine work, and on motion to grant license to Frank Kruger the same was denied by a vote of five nays and one aye. Kruger stated that he would take matters into court and procured a transcript of these proceedings for that purpose.

Mayor Ley made appointments as follows:

City Attorney, Guy R. Wilbur.
City Physician, H. G. Leisenring.
City Marshal, G. L. Miner.

Water Commissioner and Electrician, T. H. Fritts.

Committees for the ensuing year as follows.

Finance—Piepenstock, Chase, Heckert.
Streets and Alleys—Craven, Beebe, Chase.

Electric Lights—Sberbahn, Piepenstock, Beebe.

Claims and Supplies—Chase, Heckert, Piepenstock.

Water—Beebe, Chase, Piepenstock.
On motion the Board adjourned.

Spring ailments.

There is aaching and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs cooling up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the system a right exit, and by its tonic effect, fully restore the wasted tissues and give strength instead of weakness. 50c at Raymond's.

Buy a five per cent. gold bond by paying an annual premium same as life insurance. Your beneficiary gets a 5 per cent gold bond running 10, 15, 20, or 25 years. The annual rate is the same as ordinary life premiums. On an endowment you get the bond yourself at the end of endowment period. Interest payable annually.

NOTICE TO THE PUBLIC.

QUARANTINE REGULATIONS.

The ordinances of the City of Wayne provide that it is the duty of physicians or any person or persons in whose house or place of residence any person shall be taken sick with any infectious or contagious disease to immediately notify the Board of Health in writing, stating the name of the person infected and the place or home where they may be found, and any person violating the provisions of this ordinance, and fail to give the notice, shall be fined in any sum not exceeding fifty dollars (\$50).

Any person who shall wilfully pass to and from any place where an infectious or contagious disease exists, but such disseminating subject parties to exposure shall be liable to a fine not exceeding one hundred dollars (\$100).

It is the duty of the Board of Health to adopt such measures as will prevent the spreading of such diseases and in view of this duty they have established the following regulations for the government of physicians and all interested parties:

All persons under quarantine shall remain within the limits of their own residence lot. No person shall be permitted to leave the house where sick are confined with contagious disease, after exposure to same, for the purpose of escaping quarantine.

The marshal will call daily at quarantined places, where parties have no telephone, and he will attend to all wants of such persons.

The quarantine notice card, notifying the Board of Health, shall be filled out and returned to the Board of Health, and as much longer as the Board shall deem for the best interests of the public.

No attending physician shall remove or cause to be removed a quarantine card mentioned in the last paragraph without an order from the Board of Health.

An attending physician may disinfect a house or place where a contagious or infectious disease exists, but such disinfecting must be done by some method approved by the Board of Health, and must be done in a thorough manner, extending to each room in the house and to clothing, bedding, etc. Before such attending physician shall disinfect, he shall report to the Board of Health that the premises are ready for disinfecting, and he shall not proceed with such work without the order of such Board.

By order of Board of Health.
The above regulations will be strictly enforced.
HARRY LAY, Mayor.

Muslin Underwear Sale.
We wish to call the attention of the Ladies to the GREATEST and BEST Underwear Sale ever held in Wayne. We have procured a complete output of Muslin Underwear from a New York factory, and now offer it at Special Sale for the next two weeks. Every garment is properly made to fit and are made under superior workmanship, all being cut from Good Muslin, or Long Cloth. The prices range from 10c to \$1.13, which is the highest, and all undergarments needed for women's misses and children wear are included in this line. They are a marvel for the money. You cannot afford to purchase material and make a corset cover for 10c, or a gown for 29c. Come and see them. The Garments speak for themselves.

A chance like this is seldom found, so it would be well to come while the line is unbroken. Ask for an illustrated circular, showing cuts and prices of each style of Garment. Remember this is a SPECIAL SALE and cannot last long, so give it your attention at once.

CHAPTER VI. It was full summer, a year later. The days had been long and sultry, and the earth smoked parched from long drought. The corn and rye tips for the harvest, and the hedges were scented with poppies. Everywhere an intense heat and cloudless radiance brooded in settled calm, making the toilers in the fields long for cool breezes, or welcome rains.

would have been removed there by the time she landed in England. So one hot August night, as he paced to and fro along the terrace, he was last surprised to hear the sound of wheels and to see a carriage driving rapidly along the avenue. Now that the moment he had dreaded so long was here close at hand, a stony calmness seemed to settle on his heart.

"This is the first," said the eldest of the group, a tall, well-built, large-headed man with a high forehead and a keen, hopeful expression, "of the Crumpletons before mentioned, and who was generally called the Major by his companions. 'Guess old Creeps will be looking out for us considerable before he finds us this time.'

"You leave those alone," cried Cyril, emphatically. "They're Jack's. He bought them with his own money. You stick to your state old jam tarts. You only got them because they were a present and I don't want to see you—"

"What is it?" asked Cyril curiously; the humble tone of the suppliant was not novel, but the idea of begging a kindness was.

"Well, when that soldier chap comes to fetch you for the holidays this time, do you best to let him bring the lot. It is so handy, stuck here all the year round."

"Don't think Cap'n Grant likes you," said Jack, who did not relish the proposal. "Says you're not a good companion for Cyril or me."

CHAPTER VII. Vaux Abbey is a noble old place of great architectural beauty, in one of the most fertile and fertile districts of North Devon, and near the Dunbar. Vaux has assembled a large party of friends to spend Christmas.

"I wish he hadn't come," said little Jack, linking his hand in his brother's. "He's very disagreeable. I like best to be with you alone, Cyril."

"How shall I tell her? Great heaven! how shall I tell her? That had been the burden of Ivor Grant's heart through all the desolate, sorrowful days that intervened between the children's deaths and their mother's arrival.

which has never been fully explained to her in those cold, curt letters that have bidden her remain in England until further notice. And month after month has rolled by since that terrible illness which laid her prostrate at the very borders of death, and now it is sixteen months since she sped back in answer to that insistent message of Ivor Grant's—only to stretch empty and for her husband's uses, and gaze with black despair on the desolation of her life.

"The Nebraska state penitentiary has been equipped with a water plant of a capacity sufficient for any emergency that may arise. The work was done up to the contract and the total cost of the wells and machinery, with other necessary arrangements, was \$39,000. The four new wells, built in the plant have an average capacity of 400 barrels per hour, which is greatly in excess of the old system. In a recent test the old wells were pumped completely dry in twelve minutes. Members of the state board of public lands and buildings assisted in the work of the plant.

The first quarterly report of Postmaster E. R. Sizor, shows a gratifying increase in all departments of the mail money order business in Lincoln. The total postal receipts for the first three months of 1902, as compared with the previous year, show an increase of 14 per cent, while the second class mail receipts show a decrease of 10 per cent.

The Supreme Court delivered opinions in forty cases. Among the decisions in Omaha and important state cases were: Omaha National Bank against Saunders, affirmed; Thurman against Omaha, affirmed; State ex rel. Cobb against Law, affirmed; former judgment vacated and writ denied; State ex rel. Blessing against Davis, drummer overruled; Orr against Omaha, modified and affirmed; Omaha and Grand Union Company against Cumber, affirmed; Omaha and Grand Union Trust Company against Lynch, affirmed; Omaha Loan and Trust Company against Wolenz, affirmed.

Secretary Rorpe of the state banking board has issued charters to these two new institutions: The Center State Bank, capital stock, \$50,000; The Peoples Bank, National City, capital stock, \$50,000; The Beaver Valley Telephone Company, Danbury, Red Willow County, has incorporated under the laws of the state. It is capitalized for \$5,000. The Aurora Electric Light, Heat and Power Company, Aurora, has incorporated. Its stock amounts to \$15,000.

Attorneys are expecting the supreme court to announce that it will not recognize the unrecorded opinions of commissioners as precedents of law. In these opinions the court concurs only as to findings or conclusions, but not as to the law expressed therein. The question has been agitated by lawyers recently and it has been suggested that the court may bring force to the declaration that has been expected for several months.

Articles of incorporation of these institutions have been recorded in the secretary of state's office. The Omaha Company, Omaha, capital stock, \$100,000; The Pym Land Improvement Company, Omaha, capital stock, \$100,000; Kinship Glyn Company, Omaha, capital stock, \$125,000; The Burt Trading Company, Alliance, capital stock, \$5,000.

Gov. Savage has been asked to commute the sentence of E. L. Cook of Cass County, who has been sentenced to one year in the penitentiary for forging a check for \$200.00, which was bought at Lincoln by the sheriff of Cass County and appeared before the governor.

Chief Game Warden Simpkins has given out a statement showing that from June 1, 1901, to Dec. 31, 1901, there were forty-five arrests and thirty-one convictions for violations of the game law. The fees amounted to \$4,581.51.

Articles of incorporation of the Plattsmouth Power and Canal Company have been filed with the secretary of state. The concern has a capital stock of \$25,000 with the reserved right of increasing it to \$40,000.

THE MINISTER WAS HUNGRY.

Representative Adlamson, of Georgia, tells of a Methodist preacher in his state who lived on a very small salary, and at times found it difficult to get by. The minister had made repeated calls on his steward for funds, but each time had been put off with some excuse. His wife at length became urgent and he went to his steward and told him that he must have his money, as his family were suffering for the necessities of life.

PE-RU-NA CURES CATARRH OF KIDNEYS EVERY TIME

Major T. H. Mars
PERU-NA CURES CATARRH OF THE KIDNEYS

DANGEROUS KIDNEY DISEASES CURED
Pe-ru-na Creating a National Sensation in the Cure of Chronic Affections of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry Regiment, writes from 3425 Hampton street, Chicago, Ill., the following letter:

"For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me until a comrade who had been helped by Pe-ru-na advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it for four months and am now well and strong and feel better than I have done for the past twenty years. I thank you for the past twenty years, thanks to Pe-ru-na."
— T. H. Mars.

Mr. John Vance of Hartford City, Ind., says: "My kidney trouble is much better. I have discovered so much that I can now know what medicine I am using. I recommend Pe-ru-na to everybody and some have commented on it. The doctor who told me that if Dr. Hartman's kidney cures me it must be good." — John Vance.

Mr. J. Brake, of Petrolia, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's disease, which brought me so low the doctor said nothing more could be done for me. I began to take Pe-ru-na and Manalin, and in three months I was a well man, and have continued so ever since."
— J. Brake.

At the appearance of the first symptoms of kidney trouble, Pe-ru-na should be taken. This remedy strikes at the very root of the disease. It at once relieves the catarrh of the kidneys, prevents the escape of serum from the blood, Pe-ru-na stimulates the kidneys to excrete from the blood the accumulations which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and dilates the system, both of which are apt to fail rapidly in this disease.

Pe-ru-na cures catarrh of the kidneys simply because it cures catarrh wherever located.

If it does not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanatorium, Columbus, Ohio.

An Unknown United States Senator.
Some years ago I told some man to the Senate whose name was McConnell. He enjoyed a brief term of about five or six weeks, and then he disappeared. The other day, Mr. McConnell visited the Senate chamber again. Very few of the Senators knew him. His presence, however, recalled the fact that when he was in the Senate he lifted up his voice and made a speech. He was then almost another stranger. Old Senator Edmunds looked at him in astonishment.

"Who is this man talking?" asked Edmunds of a page.

"Senator McConnell, of Idaho," responded the boy.

"Well," said Edmunds, "when it comes to the point that in the United States Senate a man can make a speech whom I never saw before, I think it is time for me to leave."

And Mr. Edmunds, in disgust, retired to the cloak-room.

She Would Not be Without It Now.

Neither would thousands of others. We refer to Vogler's Curative Compound. It does so much good and seems to reach every form of stomach trouble, that people have found that it is the one true specific. And what are stomach troubles? The easiest answer is that three-quarters of all the diseases and ailments which afflict us proceed from one form or another of stomach trouble.

Indigestion is one of the worst and most prevalent forms, but Vogler's Curative Compound cures indigestion. Here is one instance:

Mr. W. Howell, of St. Prior, Street, Winchester, Col., writes: "I wish to state that my wife has been taking Vogler's Curative Compound for a long time, and it is the only thing that has done her any real good for indigestion, in fact nothing would induce her to be without a bottle now."

When we stop to seriously consider the fact that this great remedy is made from the fluids of one of the most eminent living London physicians, it is no wonder that people who have happily experienced the benefit to be derived from its use will not now be without it at any cost.

CONDITION OF CROPS.

THE GOVERNMENT WEATHER BUREAU'S WEEKLY REPORT.

Rain Is Yet Badly Needed in Some Sections—Winter Wheat Shows Improvement in Illinois and Missouri—Southern Corn in Good Condition.

The weekly crop report issued by the weather bureau says much needed abundant rain fell over a large part of the Missouri, upper Mississippi and lower Ohio valleys, but drought conditions have prevailed in the upper Ohio valley, middle Atlantic States and over the southeastern Rocky Mountain slope. Rain is now very generally needed over the greater portion of the Southern States—more particularly in the eastern and western districts, good showers having fallen over a portion of the central part of the Southern States. Corn has been planted in Illinois, some in southern parts of Ohio and Iowa, and planting is well advanced in Missouri, Kansas, Kentucky and Virginia. In the Southern States corn has made good growth and is in various stages of cultivation, some being ready to be laid by in Texas and Louisiana.

Winter wheat has improved in Illinois and portions of Missouri and is slightly improved in Ohio and the middle Atlantic States. The crop is reported to have suffered no injury as a result of marked temperature extremes in this and the preceding week in Kansas and Nebraska, where some sections are injured by moisture. Cereals, corn, and grain, are planted in the central and upper Ohio valleys, no improvement being reported from Indiana, where a considerable acreage in the central part of the State is being plowed up. On the Pacific coast winter wheat has made favorable progress, a heavy crop being promised in California north of the divide.

Over the southern portion of the spring wheat region the seeding of spring wheat is nearly completed and the early snow is coming up, but is making slow growth. Oats have made favorable growth in the Southern States and are generally improved in Missouri and Illinois. Potatoes are reported from Nebraska and Michigan as being unsatisfactory in Michigan and Pennsylvania. Seeding continues in the northern section.

The cotton States have experienced a very favorable week and cotton planting has made rapid progress in all sections, being practically finished in Texas. Much of the early planted cotton in Louisiana has been plowed up, and the cotton is in good stands and cultivation is well advanced.

The fruit outlook continues promising, except for peaches in portions of the central valleys.

Grass continues backward, but considerable improvement is reported from portions of the central valleys.

A Superstitious Woman.
"I don't say that women are more superstitious than men," said a well-known bachelor yesterday, "but a lady I know did a thing the other day, on account of a foolish superstition that no man I am acquainted with would have done it. It happened the day it rained so hard. The lady lives near Lincoln Park, and she had some business at the Corner Market. She had gone only a few steps from her house when she discovered that she had forgotten her pocketbook, and did not have as much as a penny in her pocket. Did she go back? Not much. Her superstition was that it was the height of bad luck to turn back after once leaving the house until your errand was completed. So she kept religiously on her way, and, not having car fare, walked over two miles in the cold rain, when she might have spared herself all the self-imposed hardships by simply waiting back a few feet into the house. She got wetting wet and lost her temper completely, but she successfully (to her own mind at least) avoided the possibility of placing herself under the spell of bad luck."—Washington Star.

Go! Play the Capital Offense.
Golf players who practice north of the Tweed may not know that they are liable to sentence of death for their indolence. Technically, that is literally the fact. In ancient times, when Scotland always hid work for her soldiers to do, all the young men were compelled to perfect themselves in archery. They preferred to play golf, and so serious a rival did the game become that it was for a time suppressed and made a capital offence. That curious law has never yet been repealed and may still be found in the statute book.

UNDESIRABLE IMMIGRANTS.
A Total of 107,823 Illegals Reached Our Shores Last Year.

The need of shutting out aliens a little more closely on the undesirable immigrant is emphasized by the recent report of Immigration Commissioner (Fildice) of New York. He says that the figures which he submits show that the number for the last fiscal year was 20 per cent more than during the preceding twelve months, the increase coming largely from the very countries from which it is least desired. About one-third of the total immigration was from Italy, and it is largely from Italy that the immigrants from Croatia, Armenia and neighboring regions. Slave immigration last year reached a total of 20,981; South African, 111,298; Dutchman, 5,622; Magyar, 12,834; Polish, 37,630—all representing increases of from 10 to 50 per cent over the year preceding. As might be expected, the number of illegals was proportionately increased in proportion that over before. The number of illegals over 14 years old was 107,823, of 27.60 per cent. In 1899-1900 the proportion was 23.81 per cent, and the number of illegals, 73,000. The number of illegals under 14 years of age, however, the South Italian make the percentage showing, their figure being 88.07 per cent, whereas the British and German averaged over \$11 each, of more than three times as much. Only 2,394 persons were deported during the year.

WASHINGTON GOSSIP

Comparatively few Senators have established homes of a permanent nature in Washington. Not one-half of them maintain a housekeeping establishment. If the eighty-eight Senators now holding seats in Congress thirty-five live in hotels and ten live in apartment houses as abodes for Senators is enhanced for several reasons peculiar to the lives of public men. A house carries with it social responsibilities which are not always easy to avoid, however agreeable it might be to the Senator to rid himself of them. But a life in a hotel does not mean that the Senator is taking part in small part in social affairs. Some of those whose entertainments are the most lavish patronize hotels, especially during the last few years all the large houses have made extensive improvements, in which the Senator's entertainment on the part of guests has been a prominent factor.

The Postoffice Department has under consideration the question of placing on the issue of the postage stamps of the new issue the head of some woman who is connected with the history of the country. No particular person has been decided upon, although there is no doubt that Mrs. St. Joseph, of Washington, will be the woman so honored. This will be the first time upon any of the government securities issued by that department.

Nothing more beautifully illustrates the small taste of foreigners than the mails. While we write for transmission abroad over 73,000,000 letters a year we receive only 59,000,000. While of unpaid and short-paid letters we send 1,369,752, the foreigners affect us with 2,165,552, on which we are obliged to pay postage. While we send abroad 49,157 postal cards, we paid nearly ten times as much for them. We write more than twice as many as they do, leaving them nearly three-quarters of a million in the total of 7,900,000. In short postage they impose on us annually to the sum of about \$300,000. For sending and receiving this mail our government pays \$2,250,000 a year.

The postal receipts for March, as compared with March of last year, for the fifty largest postoffices in the country, show a net increase of 10 per cent. The total receipts of the fifty offices were \$5,267,000. The largest increase was 37 per cent, at Denver, with Dayton, Ohio, second, with 30 per cent. Five offices reported decreases in receipts, viz: Indianapolis, 25 per cent; Louisville, 18 per cent; St. Joseph, Mo., 12 per cent; N. Y., 10 per cent; Lowell, Mass., 10 per cent. The figures for the two largest offices showed receipts of \$1,103,216, an increase of 11 per cent for New York, and receipts of \$880,750, an increase of 5 per cent for Chicago.

The government blue book, just from the press, gives the names of all employees the place of activity, from where appointed, place of employment, and rate of compensation. The book shows there are more than 2,700 Smiths on the payrolls of the government, not counting, perhaps, half as many more who are drawing pensions. Of these Smiths something over 400 go through life as paupers. The average salary is a close second, with 1,500, Mr. Brown and Johnson are neck and neck for third place, not missing the 1,000 mark far.

Senator Hanna of Ohio is one of the most remarkable men in Congress. He is sometimes criticized in his manner, and it is not with good reason that he is a hard man to enter into conversation with. While he is one of the busiest men in the world, he always finds time to listen to persons who beg his ear. Senator Hanna has one peculiarity that stands pre-eminent. He never eats alone. If he is not with his family, he always enters into conversation with the waiter of some one at another table. He is a lover of good things.

It is not generally known that the Agricultural Department has learned to forecast the plagues of forthcoming seasons. From certain signs discovered by its experts in Western States the chief entomologist has concluded that the coming summer will be marked by an unusual injury from grasshoppers. The department is thus enabled to warn the agriculturists in the infected region and prevent a large portion of the injury the insects would otherwise cause.

Senator Pettus solemnly arose the other day as if to address the Senate. His call was rendered in vain by the absence of his colleagues. The Senate became silent, waiting for the words of wisdom which would fall from his lips. With every eye upon him Mr. Pettus reached around into the tail pocket of his long frock coat and drew forth a plug of tobacco. Then he took a chew and sat down without saying a word. Everybody smiled.

In accordance with an order issued by the War Department all the old gold lace epaulets, straps and trappings on hand at the various quartermasters' depots throughout the country are to be sent to the Philadelphia mint, to have the gold and silver extracted. The government will be well repaid, as there is an enormous quantity on hand, and more money lies in the new course than selling to private parties as formerly.

Whitelaw Reid and the members of his special embassy to the coronation of King Edward VII. are decided to pay their expenses out of their own pockets. They have so informed the authorities here. It cost Mr. Reid \$20,000 out of his private purse to keep up the dignity of an American representative at the Queen's diamond jubilee and the forthcoming event will probably be fully as costly.

Congress will vote \$50,000 to pay the surgeons, doctors and nurses and to reimburse the numerous persons who incurred expenses at Buffalo during the illness of President McKinley. Of this sum \$25,000 will go to the surgeons and doctors, the amount allowed Dr. Mann being \$10,000. This is considered a moderate sum by the officials.

Senator Deboe introduced a bill creating a commission to inquire into the condition of the colored people of the United States. The bill provides for a commission of five persons, to be nominated by the President, each to receive a salary of \$3,000.

MAY DAY STRIKES.

Twenty-five Thousand Labor Men in All Branches Walk Out.
More than 25,000 workmen in various trades and in different sections of the country laid down their tools on May 1 and walked out pending settlement of their grievances. In nearly every instance the strikes are the result of differences on the wage question, while some are in effect the bosses' response to the labor unions. The greatest strike in the West is in Illinois, where 2,000 miners quit work.

Many miners in the Chicago and Alton and Springfield districts as a result of the failure of the unions and operators to reach an agreement on several questions left to the local unions for settlement by the State conference at Peoria.

At Pittsburgh May day was ushered in with strikes in many of the building trades and metal workers, more wages and adjustment of trade conditions. It is estimated that between 12,000 and 15,000 men are out, the trades involved being structural iron workers, carpenters, bricklayers, sheet-metal workers, slate and tile roofers, inside electric wire workers, portable and hoisting engineers and fitters and metal fitters. The plumbers' strike was averted by the master plumbers signing the advanced scale. The strikers will tie up work on all the large buildings in course of erection in the Pennsylvania city.

It is estimated that more than 2,000 skilled laborers are on strike at Buffalo. Most of them are carpenters, a few structural iron workers and the rest plumbers. Machinists and headliners to the number of 1,200 in a dozen large sawmills and molding mills in Hudson County, New Jersey, went on strike. The men demanded a uniform rate of \$2.50 for an eight-hour day, which was refused. At Youngstown, Ohio, 2,500 men employed in the building trades went on strike for an eight-hour day and increase of wages, all efforts to settle their differences with the contractors proving unavailing.

A dispatch from Russia, filed on the German frontier, announces that the influx of Russian workers and the consequent encounters between the workmen and the troops and many persons have been killed or wounded. A Lithuanian regiment, commanded by Col. Morosoff, refused to act against the workmen.

MOODY NOW HEADS THE NAVY.
New Secretary Takes Oath of Office and Assumes His Duties.

Probably Thursday morning Congressman William Moody of Massachusetts took the oath of office as Secretary of the Navy. The oath was administered by E. P. Hanna, solicitor of the Navy Department. These present were: John D. Long, now ex-Secretary of the Navy, Representative Roberts, McChil, Lawrence and Green of Massachusetts, and Assistant Secretary of W. H. Moody. The Navy Darling, former Assistant Secretary Hackett, Cyrus Wolfe, private secretary and Wood W. Fishback, who is Mr. Moody's confidential clerk.

The former Secretary, Mr. Long, was the first to congratulate Secretary Moody. The ceremony was followed by a reception to all of the chiefs and assistants in the Navy Department, who came to meet the new Secretary. Few new things in the method of conducting affairs are looked for under Mr. Moody's administration.

Probably the most notable legislation enacted during Mr. Long's administration was the so-called "naval pension act" passed by Congress in March 1898. For many years prior to the passage of that act the navy made strenuous endeavors to have Congress place its commissioned officers on the same footing as regards rank and pay as that enjoyed by officers of the army.

SUGGESTS NEW GRAZING LAW.
Iowa Representative Introduces Bill Aimed at Cattle Trusts.

In the national House Wednesday a bill for changing the scope of homestead dusters and holders of small farms is introduced by Representative Lacey of Iowa. In Mr. Lacey's opinion the grazing bills now pending are altogether too much in the interest of the cattle trust.

The purposes of his measure are to give homesteaders and holders of small farms an opportunity to graze their stock the grass in the vicinity of their holdings, so as to prevent deterioration and the monopolization of ranges by owners of large herds of live stock.

CATHOLICS SHOWN IN THE LEAD.
Have Greatest Increase in Church Membership for Last Year.

Speaking of the progress of the Catholic Church in the United States, Father Sheedy of New York said: "Taking the census for the past year, compiled by Dr. H. Carroll, the assistant secretary, it is found that of the 9,000 new members that were added to the Catholic denomination, 365,083 were added to the Catholic Church. This increase in population was 2.18 per cent, while the Catholic increase for the year was 2.05 per cent. Of the 20,000,000 church members of the United States Dr. Carroll sets down 9,000,000, or nearly one-half, as Catholics."

Latest Subdivision of States.
The subdivision of the States of the West into counties is being carried out in the middle West and in Minnesota in the Northwest. For census purposes the States are divided primarily into Atlantic, central and western, the Atlantic being separated into north and south by the District of Columbia. The central States cover the irregular triangle formed by Ohio, Kansas and North Dakota, while the south central includes those States from Kentucky to Texas. The western division includes all the States west of Colorado's eastern boundary.

Sparkle from the Wire.
Prof. Nicholas Murray Butler has been installed as president of Columbia University in New York City.

Orders have been issued by the St. Joseph, Mo., police board to close the taverns of that city and to enforce the laws.

The Charles D. Middleton Printing Company, publishers of the Jefferson City, Mo., Daily Press, sold the plant to the Guthrie Daily Capital of Guthrie, O. The publication of the Press will be discontinued.

Attracted in Architecture.
The Brooklyn bridge towers are 277 feet high. The fampus spire of St. Trinity New York City, is 254 feet high. The present height of the pyramid of Cheops is 451 feet, although it was originally 481 feet. The Washington monument is 555 feet. The leaning tower of Pisa was begun in 1174 and inclines 13 feet and 3 inches. About half of the sinking took place during the construction and the efforts made to correct it resulted in the convexity of ten inches on its southern side.

The German Society for the Saving of Shipwrecked Persons has 116 stations on the North and east coasts.

The streams of Nebraska abound with wild ducks and geese, and the State is overrun with hunters.

London is to have its first "sky-scraper" in a building, which might be called a tower-cutter, as it will be fifty seven stories high.

Mr. Winthrop's Secretary says that the Chicago meeting, between the State, Federal and Municipal governments, will be held in the city of Chicago.

LINCOLN CHAMPION, KING OF STALLIONS!

Will Stand at Home, Every Day in the Week, on 7th St., One-half Mile East of Main St.

At \$15.00 to insure mares in foal. The get of "Linc" have brought the highest prices of any horses sold in our county, and topped the Chicago market—some teams selling for \$400. in cash and one individual horse bringing \$450. "Linc" is the sire of Del. Strickland's stallion—the dam being a two-year-old filly of C. Narn's.

Gentlemen! breed for good horses, money-earning horses that will do you credit. There is money in raising good draft horses than any other kind. Don't try to raise an all-purpose horse—there are none. It would be mighty handy if a lady could pull out her poodle into the form of a greyhound so it could catch a jack rabbit and shut him up short before meal time, but we can't get honest made horses as man made the telescope (in portable form,) nothing taking its diet from earth, manger or spoon, grows in telescope fashion. The man of "all trades" was handy two years ago, he was a cobbler shoemaker, a cobbler carpenter and a cobbler tin-smith, but now it takes good work to please a man of taste and culture and we must have specialists in men and horses. You can trot your misfit drafts to town after their day's work is done forcing them to do "all-purpose" work but they won't last long and soon will adopt a tired trot. "Linc" is an imported and a noble cultured animal, and when people criticise him they make themselves a "laughing stock."

Local and Miscellaneous.

Court convenes next Monday, May 12.

Tom Berry arrived in the city Thursday afternoon from the west.

Dr. Caldwell's Syrup Pepsin cures Constipation. Sold by E. J. Raymond. Granville Terwilliger is clerking in the clothing store of Chas. Robbins in Carroll.

Dr. Bumpus, formerly of this city, is traveling in this state as a traveling osteopath.

Four more weeks and the public schools close for the three months summer vacation.

You never heard of any one using Foley's Honey and Tar and not being satisfied. E. J. Raymond.

Del Strickland arrived home from Chicago Thursday night, being quite successful in the sale of his horses.

To cure a cold in one day take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

It takes mighty little to start some people; particularly to talking.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes, "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." E. J. Raymond.

If you work for a woman, you have to earn every cent coming to you.

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. E. J. Raymond.

Every elderly man can recall when he was first seriously referred to as "old man."

What Is Foley's Kidney Cure.

Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically compounded to get their utmost value. E. J. Raymond.

If Bluebeard really didn't want his wife to see into the closet, he should have left the door wide open.

Stand Like a Stone Wall.

Between your children and the tortures of itching and burning eczema, scaldhead or other skin diseases. How? Why, by using Bucklen's Arnica Salve, earth's greatest healer. Quickest cure for Uicors, Fever Sores, Salt Rheum, Cuts, Burns or Bruises. Infalible for Piles. 25c at L. P. Orth's.

How many friends have you you could rely upon to keep down all talk about you after you have left the room?

What Thin Folks Need.

Is a greater power of digestion and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve appetite, make healthy flesh. Only 25c at L. P. Orth's.

When a woman is cross and surly, in spite of the fact that she has a sweet little baby, there is usually only one explanation.

Holds Up A Congressman.

"At the end of the campaign," writes Camp Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-round medicine ever sold over a druggist's counter." Overworked, run down men and weak, stolid women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by L. P. Orth.

Every man has noticed that after his wife has returned from a visit to her folks, it has to be decided all over again who's who.

A Cashier Testifies.

Pepsin Syrup Co., Monticello, Ill. Gentlemen:—After twenty years of aches and pains caused by constipation brought on by sedentary habits, I have found more relief in two bottles of Dr. Caldwell's Syrup Pepsin than all of the hundreds of other remedies I have tried, and I take pleasure in giving you this testimony, believing you have the finest preparation made for stomach troubles. Very truly yours, D. F. LAYTON, Cashier, Western R. R., East St. Louis, Sold by E. J. Raymond.

From now until a man has had time to find and lose everything again, he will blame the disappearance of things on house cleaning.

Like a Downing Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a crowing man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well. Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any food and cures any form of stomach trouble." L. P. Orth.

Wants Others To Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinz, Quincy, Ill. They never gripe or distress. Sure, safe pills. L. P. Orth.

"The mayors of several Nebraska cities have been requested to co-operate with an eastern innocent who labors under the delusion that Nebraska has not a sufficient supply of eligible femininity, and is preparing to introduce a job lot of shelf-worn eastern females with matrimonial aspirations," says The Conservative. "This insinuation against the loveliness, loveliness and lovability of the rosy cheeked daughters of the prairie is received with contempt, for the Nebraska girl does not fear competition, nor ask for a protective tariff or subsidy to enable her to control the home market. Nebraska has girls to marry, and they marry whenever the spirit moves them. Those who remain single do so because they prefer single blessedness to double querulousness; never because the gal-lants prefer the foreign article. The well-established economic rule which forbids the importation of an article which can be produced at home, applies to Nebraska and the threatened influx of eastern matrimonial offerings into her well-stocked markets; but let them come, for the poor things may make acceptable servants in the mansions where Nebraska girls will eventually reign."

Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." L. P. Orth.

Knightsville, Ind., April 22d, 1898. Pepsin Syrup Co., Monticello, Ill. Gentlemen:—I have been selling Dr. Caldwell's Syrup Pepsin ever since it was first introduced to the trade. It is the best seller I ever had on my shelves and gives the best satisfaction to my customers of anything I ever offered them. Where I sell it once they invariably return for more. As a laxative or as a physic it is par excellence, the most pleasant and satisfactory preparation I have ever sold. Yours, etc., G. H. OLM.

The Magnificently Bred Stallion,

TAMMANY TIM 34283.

Full brother to Hinky Dink, 2:25 1/2, first start, fourth heat, in winning race. By Union Medium 4:18 1/2, 2:18 3/4, Dam Alice G. 2:29 1/2, Dam of Hinky Dink, 2:25 1/4, Tammany Tim was foaled in June 1897.

He is a handsome bay horse, 16 1/2 hands high, weighs 1225 lbs. The only stallion standing in this part of the state whose first three Dams are producers of 2:30 trotters, or better.

In conformation he is a grand horse, clear cut head intelligent countenance, strong shoulders, powerful back, hips and stifles, all gracefully combined to produce strength and speed.

His blood lines are of the best, the most popular and prolific speed producing combination in trotting blood lines, the kind that get the money on the race course and the prizes in the show ring.

That he will beget speed and grand road qualities there is no doubt, as he not only inherits, but possesses these qualities in a marked degree.

Even common mares bred to a horse of this class, cannot fail to produce foals that will find a ready market as carriage horses or roadsters, as well as general, all purpose horses.

Terms: \$15 to insure in foal. Wednesday and Thursday of each week at Owen's old feed yard.

Dr. Caldwell's Syrup Pepsin Tablets. The remedy that cures in one day.

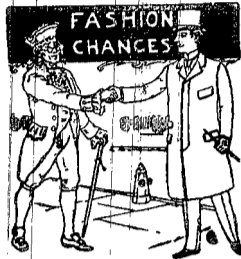

CANCEROUS ULCERS

Are in many respects like other ulcers or sores, and this resemblance often proves fatal. Valuable time is lost in fruitless efforts to heal the sore with washes and salves, because the germs of Cancer that are multiplying in the blood and the new Cancer cells which are constantly developing keep up the irritation and discharge, and at last sharp shooting pains announce the approach of the eating and sloughing stage, and a hideous, destructive work.

No ulcer or sore can exist without some predisposing internal cause that has poisoned the blood, and the open discharging ulcer, or the festering sore on the lip, cheek or other part of the body will continue to spread and eat deeper into the flesh unless the blood is purified and the Cancer germs or morbid matter eliminated from the circulation.

S. S. S. cleanses the blood of all decaying effete matter. It has great antiodotal and purifying properties that soon destroy the germs and poisons and restore the blood to its natural condition. And when pure blood is carried to the ulcer or sore the healing process begins, the discharge ceases and the place heals over and new skin forms. S. S. S. is a strictly vegetable blood purifier containing no mercury or minerals of any description.

If you have an ulcer or chronic sore of any kind, write us about it, medical advice will cost you nothing. Books on Cancer and other diseases of the blood will be sent free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

Now would be a good time to prepare the roadside in front of the dwelling and fences so it will be smooth for moving the grass or weeds this summer when they need it. A little digging and "harrowing" will fix the roadside about right.
