### Constipated Bowels.

To have good health the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita, Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c at E. J. Raymond's.

### A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant of Merry Oak, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat absolutely anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid. L. P. Orth.

# WHAT IS FUN?

It is no fun to go fishing and catch no fish. To have fun anything we undertake must prove successful. It is no fun to plant corn and not have it come up. There is fun in anything we do if we are successful in doing it. It is no fun to earn dollars and fail to invest them for what they are worth. It is no fun to go to Wayne and come home with seventy-five cents worth of goods that cost one dollar. It is no fun to buy a suit for ten dollars and then find out that a better one could be bought here for eight. You can't have fun wearing a suit that is out of style when you know you can buy one here for less money right in style. There is no fun in trading where goods are not marked in plain figures, when you can trade here and know you are getting bottom prices. To buy a suit and have it rip and all the buttons come off is no fun. Why not trade here and get warranted clothing and for less money than others ask for inferior make. It is fun to trade here, for you can find what you want, and you don't have any doubt about the price being right, for its one price to all. Fun that is to expensive is no fun at all. If you trade here you enjoy the satisfaction of getting more than you expect for your money. If you have not tried this store do so now, for we are at present deterred to please you than ever before.

Children day exercises will be held at the Baptist church next Sunday evening.

Miss Jennie Mettlen, a teacher in the Wayne schools went to Hot Springs, S. D., last Thursday evening for a month's visit.

Miss Grace Plumleigh left for Wayne where she will attend the summer school. Geo. A. Smith and wife of Wayne were Hartington visitors last week. Mr. Albee is also in town today. Rev. Clay went down to Wayne Monday to assist in a series of meetings being held in that city this week. He will return Saturday.—Cedar County News.

An item that we failed to make mention of in our last issue was that of a little dance that was held at the opera house on Wednesday evening of last week. There is nothing remarkable about that but this one proved to be quite interesting afterwards—it caused some talk. A few couples of young people went to the opera house and lighted the gas lamps and enjoyed a quite dance for a short time, reports to the contrary, notwithstanding.

The long expected McKinley postal cards are promised about July 1. This delay is due to the fact that the first designs were rejected after several months had been spent in preparing plates, thus requiring the whole work to be done over again. In the upper right hand corner of the adopted design is a profile portrait of the late President McKinley looking to the left with the words "Postage One Cent" and "1843—McKinley—1901". In the left hand corner is the coat of arms of the United States. It was first intended to use the favorite portrait of Mrs. McKinley but it was found impossible to adopt this picture to the rough printing of a postal card. This was the reason for the rejection of the first design.

At the county republican convention held at Wayne last Saturday afternoon, the "ants" were not in it, only two precincts in the county sending full delegates for the Cunningham crowd. Dear Cook and friends. Bressler had the conversation with his lawyer, who was very afraid that he had lost his package of meat in the mix up, while Fritz would not let them tear his stockings in getting to his wounded leg. The team formerly belonged to Wm. Neise, and after its running away sold it to Walker, and he for the same reason sold it to Volpp Bros. We are informed that the team should not have been trusted to so small a boy, to say nothing of a man.

After the train came in from Emerson Tuesday evening there was a crowd of very cheap people at the depot. The crowd could probably be put chased for fifteen cents, or, after a little "sweating" you might have come to a complete stoppage of the big dime. They had a right to the depot in the afternoon to "ride" Jns. Miller and bride out of town. On being disappointed they all bought tickets for Wakefield, in the meantime decorating a seat in the car in which to receive the newly married couple. At Wakefield they failed to find them, so had conductor Ryan extend their tickets on to Emerson. At Emerson they spent an hour of weary "joshing", being again left in their "scheme", and returned home in the evening. Jns. Miller and bride arrived at Pender from here and in this way missed the rice. Last evening P. L. Miller received a card from Jim which read: "Pa, we arrived in Omaha last night and missed the rice at Emerson."

The republican state convention, held at Lincoln this week, was one of the largest attended and most enthusiastic ever held in the state. The committee that nominated Governor Goebel was one of the most exciting witnessed for years. Neither of the strong candidates being able to win the fight. The candidates chosen are all good men and will be given a rousing major victory at the election this fall. As usual, the Third district got something from the fact that they had six candidates for different offices and owing to the pulling and hauling of delegates. A combination of circumstances growing out of the gubernatorial fight caused our fellow citizen John T. Bressler, the one of the most prominent men in the night before the convention, seemed to be his. However, after the nomination for governor his friends gave up the fight and the most of his votes went to Morfesson, although he secured nearly 100 even then. There were several other candidates in the North Nebraska that are entitled to recognition, but in the future there may be a difference and counties that give republican majorities taken into consideration.

Walter Weber had placed in his house yesterday as fine a piano in the upright as is known to the musical world. The instrument is from the Weber Piano Factory of New York. The case is a beautiful mahogany, and the tone is remarkable for purity, power and sweetness. It was purchased through F. H. Jones, of Wayne, local representative of the company.

In effect July 1 the indemnity paid for the value of registered mail which has been prepaid at first class rates, will be increased from \$10 to \$25. This means that the department will pay the value, up to \$25, of any first class registered matter that may be lost or destroyed in the mails. During 1901 there was but one loss for every 401, 985 pieces mailed. Losses of registered matter are always investigated by the department whether complaint is made by the sender or addressee or not.

In choosing Harry E. Siman of Winside, for county attorney by a unanimous vote, the republicans of Wayne county showed excellent judgment. Mr. Siman will prove a help to the ticket. He is one of the best attorneys in the county, is always cool and level headed and, if elected, will make a model official.—Winside Tribune.

After the train came in from Emerson Tuesday evening there was a crowd of very cheap people at the depot. The crowd could probably be put chased for fifteen cents, or, after a little "sweating" you might have come to a complete stoppage of the big dime. They had a right to the depot in the afternoon to "ride" Jns. Miller and bride out of town. On being disappointed they all bought tickets for Wakefield, in the meantime decorating a seat in the car in which to receive the newly married couple. At Wakefield they failed to find them, so had conductor Ryan extend their tickets on to Emerson. At Emerson they spent an hour of weary "joshing", being again left in their "scheme", and returned home in the evening. Jns. Miller and bride arrived at Pender from here and in this way missed the rice. Last evening P. L. Miller received a card from Jim which read: "Pa, we arrived in Omaha last night and missed the rice at Emerson."

DOWIE'S ZION CITY.

QUEER TOWN AND THE MAN WHO CREATED IT.

Growth of Religion Founded by "Dr." Dowie Who Claims to Be the Reincarnation of Elijah—Denounced by Polign and Press.

The Catholic Church in Zion, whose founder, John Alexander Dowie, claims to be the reincarnation of Elijah and the forerunner of the "second coming" of Christ, is a religious cove which embraces now 100,000 adherents and these may be found from Maine to California and from London to Hongkong.

Dowie is now preparing for his followers a city on the shore of Lake Michigan, forty-two miles north of Chicago, and equidistant from Milwaukee. Six months ago Zion City, as the new community is named, was a scattered settlement of a

hundred souls. Today its residents number 7,000. Then a modest country home rose from the rolling prairie here and there. Today a thousand houses are taking form before his eyes and hand. Gated about them is the "divine mansion" that will be Dowie's home.

In the center of the new religious metropolis will rise one day a magnificent temple. Every avenue in Zion City, every sweeping boulevard, will lead to the temple. From this structure, prophets of Zion City will expound the doctrine of "Zion City" to the people. Dowie has his followers outgrow it. Ultimately he hopes to build a world's capital for his church near Jerusalem. There, in his dream of religious conquest to be fulfilled, he or his successor will rule all the earth.

The church is not the only agency Dowie will use in the advancement of his power. Religion and education will go hand in hand in the building of the kingdom. He has also laid the foundation of a political organization—the theocratic party—with which he plans to overthrow existing parties.

The secret of Dowie's power and influence has not been told. He is a personal magnet of religious fervor, or infinite amenity, or what you will, the fact remains that he is luring recruits in his cause by thousands. He has been assailed in print as a grasping lover of gold because he exacted the biblical tithe from the fruits of his followers' toil. He has been denounced from the pulpit as a despicable fraud because he claims to be the chosen prophet of God. He has been held up to scorn by the medical profession because he puts his ban on the use of drugs and declares that the secular art of healing is senseless and vain.

For a prominent proof of the miraculous character of the faith is found in the material Zion City, now being built. Enclosed in the town are 6,500 acres of the best land in the State. To this Mecca of Dowie's pilgrims are flocking. From Arkansas and all the West they are coming, overland and by train. New England is sending recruits every day. Dixie is pouring recruits into the fold.

The inauguration of the rural began early last fall. It continued unbroken throughout the winter. Out in the woods on Lake Michigan's shore in white canoes, with the mercury below zero and with cruelly cold winds blowing in from the north, scores of families, with their children and babies, were waiting for the coming of spring. And today 1,000 buildings are under construction.

Dowie is the virtual owner of the city. Absolute title to lots and land is not given. Leases are excellent for eleven hundred years. To every one is attached a group of provisions. The lessee agrees to receive a tract of land on a yearly basis for the sale of drugs, tobacco or alcohol in any form, houses of ill fame, theaters, gambling houses, hog raising or selling.

Upon the violation of the covenants of the lease the land is forfeited and reverts to Dowie or his successors. Moreover, there are to be no dance halls and no secular lodge rooms in Zion City. These are considered agencies of the devil for the degradation of the people. Swine are forbidden because, in the belief of Zionites, they tan upon their sides during the hours of the sun and cause of cancer, tuberculosis, rheumatism, scrofula, cholera and other diseases.

The municipal government is under Dowie's direction. It is constituted like that of other Illinois towns, but it registers during the State of the American system is constructed with Dowie as the court of last resort.

NEELY IS RELEASED.

Cuban Prison Bars Open for the Postal Fraud Swindler.

C. F. W. Neely, who March 24 was sentenced at Havana to ten years' imprisonment and to pay a fine of \$70,701 for complicity in the Cuban postal fraud, has been released under the bill signed by President Palma, granting amnesty to all Americans convicted of crimes in Cuba during the State of the American occupation and those awaiting trial.

The trials before the audiencia court of Havana of the cases arising from the embezzlement of Cuban postal funds resulted, March 24, in the sentencing of C. F. W. Neely to ten years' imprisonment and to pay a fine of \$35,516, and of Charles H. Rathbone to ten years' imprisonment and to pay a fine of \$35,524.

Neely was pardoned and liberated April 22 by former Gov. Gen. Leonidas Wood, because he was a witness for the State in the trials of the American occupation and those awaiting trial.

But his release is not the end of his trials. President Roosevelt ordered that his case be retried.

COMMERCIAL FINANCIAL

NEW YORK

"Peace in South Africa has greatly improved the outlook. Foreign industrial markets will quickly benefit by the development of that country while a return to active gold mining will have a beneficial influence on monetary circles."

Contrary to expectations, the leading producers maintained their conservative attitude in making no advance in the price of steel rails for delivery in 1908, notwithstanding the very material rise that has occurred in pig iron. Much new business has been placed during the past week, although consumers have found difficulty in booking orders for delivery in 1908.

R. G. Dun & Co.'s Weekly Review of Trade this sums up the industrial situation. Continuing the Review says: Contrary to expectations, the leading producers maintained their conservative attitude in making no advance in the price of steel rails for delivery in 1908, notwithstanding the very material rise that has occurred in pig iron.

The cotton market was active and firm, with quotations fully maintained. Bituminous coal is substantially stimulated by the anthracite coal shortage, and the output of coke and the Connelsville region is establishing a new record each week.

Sales of footwear have materially increased with the advancing season, jobbers reporting especially favorable conditions. A temporary season of activity centered in leather, hosiery and clothing.

Most of the leading commodities show reasonable activity. The Northwest (four) output is light, and the flour trade rather depressed, this being believed to be only a temporary condition.

The Chicago market was active, with a general decline in prices. The Western element, and local leadership, has dropped out of sight, as indeed, has the post of the leaders.

# Parents' Responsibility

It is the right of every child to be well born, and to the parents it must look for health and happiness.

How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and skin diseases.

### IN THE STUD SEASON F 1902.

The Magnificently Bred Stallion,

## TAMMANY TIM 34283.

Full brother to Hinky Dink, 2:25 1/2, first start, fourth time, in winning race. By Union Medium 4182, 2:18 3/4, Dam Alice G. 2:29 1/2, Dam of Hinky Dink, 2:25 1/2. Tammany Tim was foaled in June 1897.

He is a handsome bay horse, 16 1/2 hands high, weighs 1225 lbs. The only stallion standing in this part of the state whose first three Dams are producers of 2:30 trotters, or better.

In conformation he is a grand horse, clear cut head intelligent countenance, strong shoulders, powerful back, hips and stifles, all gracefully combined to produce strength and speed.

His blood lines are of the best, the most popular and prolific speed producing combination in trotting blood lines, the kind that get the money on the race course and the prizes in the show ring.

That he will beget speed and grand road qualities there is no doubt, as he not only inherits, but possesses these qualities in a marked degree.

Even common mares bred to a horse of this class, cannot fail to produce foals that will find a ready market as carriage horses or roadsters, as well as general, all purpose horses.

Terms: \$15 to insure in foal. Wednesday and Thursday of each week at Owen's old feed yard.

Stoutsville, Mo., May 6, 1900. Gellerman - I have been troubled with Indigestion and Constipation for the last two years, and have tried every remedy known, but had never received any relief until I was handed a trial bottle of Dr. Caldwell's Syrup Pepsin through our druggist, J. W. Watson, which gave me immediate relief, and I can truthfully say, has given me more relief than anything I have ever tried. -R. B. Hurd. Sold by E. J. Raymond.

### What a good thing it would be if everybody would make it a rule to not only abstain, themselves, from retailing gossip - especially of the dirty sort - but to refuse to listen to it when poured into their ears by others. No person living has any sort of a right to poison your mind with a filthy story or trifler away another's time by compelling him to listen to a lot of surmises or conjectures regarding the movements of his neighbors. We should all be more courageous than we are about rebuking such attempts. It will a person that you do not care to listen to such trash may cost you that person's friendship; but only in rare instances will friends worth having be lost by a right stand in such matters; on the contrary, they will respect you the more. The Advocate earnestly desires that all the good news that is to be told about the people of Laurel and vicinity, and especially all the news that is fit to print, be sent to our moment's time for dirty, vile scandal, or trashy back door gossip. -Laurel Advocate. Spring Fever. Spring fever is another name for biliousness. It is more serious than most people think. A torpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Bile removes all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Bile for torpid liver every spring for years," writes R. A. Dwyer, Mount Pleasant, W. Va. "They do more good than anything I have ever tried." L. P. Orth.

**Mrs. Maggie Hooper Sends A Message.**

Jeffersonville, Ind., May 15, 1900. Pepsin Syrup Co., Monticello, Ill.

Dear Friends - I was bothered with Stomach Troubles and Dyspepsia for years. Nothing helped me until now. I feel like a new woman. You may published this, that all others may learn of the great benefit of your cure. Sincerely yours, Mrs. Maggie Hooper. Sold by E. J. Raymond.

A week ago Monday, Henry Leaders, a popular Wayne barber, visited Concord, and in an interview published in last week's Wayne Democrat, he scored the town. Mr. Leaders said that Concord was a pretty bad place, with a poker game in progress. Why he said he had never played here and our well developed imagination. Concord is a gem in morality and a person is hardly ever seen on the streets drunk! In the last ten years it has been reported that a few games of penny-ante poker with twenty-cent limit have been played here and our people binshed, were ashamed and took extra precautions that the offense was not repeated very soon again. The only natural conclusion to arrive at is that Mr. Leaders' "belly" is full of gas. Now a few words in regard to Wayne's poker town. The game is played down there with a "five-cent ante" with a "pocketbook-go-empty" limit and no outsider dare hold a good hand for the home gang would then hold a run. -Concord.

The Herald is of the opinion that gambling for money in Wayne is a thing that does not exist.

### Saved From An Awful Fate.

"Everybody said I had caught pneumonia," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, I could hardly get out of bed, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate Throat and Lung Diseases in the latest out of the world, Coughs, Colds and Bronchial Affections, Guaranteed bottles 50¢ and \$1.00. Trial bottles free at L. P. Orth's.

The diver dies without air to breathe. The consumptive dies without lungs to breathe the air, or of lungs rendered incapable of breathing by disease. The blood as it flows in and out of the lungs indicates the consumptive's progress. As the lungs grow weaker less oxygen is inhaled and the blood changes from scarlet to purple. Oxygen is the life of the blood as the blood is the life of the body.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood, arrest the progress of disease, and heal the inflamed tissues. Lung diseases have been cured and are being cured by "Golden Medical Discovery," in cases where deep-seated cough, frequent hemorrhage, emaciation, weakness, and night sweats have all pointed to a fatal termination by consumption.

"Some years ago, I was almost a helpless victim of that dread disease - consumption," writes Mrs. M. J. Siska, of Sika, Neb. "I had taken the contents of the second bottle (I might improve after taking 18 bottles as I honestly believe, delivered from the grave and entirely cured. I am now a strong and hearty man." - Golden Medical Discovery.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

### Democratic County Convention.

Pursuant to action taken at a meeting of the Democratic County Central Committee held in Wayne, June 7, 1902, the electors of the Democratic party of Wayne county, Nebraska, are hereby notified that on Saturday, June 21st, 1902, at 2:30 p. m., a County Convention of said party will be held at Wayne, Neb., for the purpose of selecting delegates to attend the various conventions, for nominating a candidate for the office of county attorney and for the transaction of any other business that may properly come before it. The basis of representation is fixed at one delegate for each voting precinct and one delegate for each twenty votes or major fraction thereof cast for Conrad Hollenbeck for Supreme Judge at the general election of 1901. The representation of the various precincts is as follows:

Chapin	4	Plum Creek	3
Brenna	4	Sherman	4
Deer Creek	4	Strahan	4
Garfield	3	Wilbur	3
Hancock	3	Winslow	4
Hoskins	4	Wayne, 1st ward	3
Hunter	3	2nd ward	3
Leslie	3	3rd ward	3
Logan	3	Total	50

It is requested that the precinct primaries be called to meet not later than on Friday, June 20, 1902, for the purpose of electing delegates to the County Convention.

It is further requested that the delegates elected to represent the First Commissioners District assemble immediately after the adjournment of the County Convention for the purpose of nominating a candidate for office of County Commissioner for the First Commissioners' district.

### Violent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G. O. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its powerful healing power, blood diseases, skin eruptions, itches and sores vanish. Bitters 50¢, Salve 25¢ at L. P. Orth's.

It may not be an elegant remedy, but whenever a chigger bites, all lotions, liniments and salves are not as good as a spit!

Leads Them All.

"One Minute Cough Cure beats all other medicines I ever tried for colds, coughs, croup and throat and lung troubles," says D. Root, Curran of Logansport, Pa. "My little boy, Cootie, is the only absolutely safe cough remedy which acts immediately. Mothers everywhere testify to the good it has done their little ones. Croup is so sudden in its attacks that the doctor often arrives too late. It yields at once to the Minute Cough Cure. Pure cure for grip, bronchitis, coughs. L. P. Orth.
