"The law upon which we base our flight is as sure as the law of gravitation. If we have a gold standard, prices are as sure to fall as the stone which is thrown into the air."—Newton Iowa Speech. (But they went the other way, Billy.)

"If we are defeated in this campaign, there is nothing before the people but four years more of harder times."—Baltimore Speech. (Wrong again, they are the best times we've ever seen.)

"The gold standard means dearer money means dearer property; cheaper property means harder times; harder times means more people out of work; more people out of work means more people destitute; more people destitute means more people desperate; more people desperate means more crime."—Page 550, First Battle. (Missed it again.)

"Mark my word, if the gold standard goes on and the people continue to complain, the gold standard advocates instead of trying to improve the condition of the people, will be recommending that you close your schools so that the people will not realize how much you are suffering."—Page 223, First Battle. (More children are in school than ever before, and in newer and finer school houses than have ever been seen.)

"If McKinley and the republican party are successful and put in power for the next two years, wages will be down 50% (They are down 50%.) Hard times will come upon us and over the land. (Hard times vanished.) The price of wheat will go down and the price of gold will go up. (Wheat went up and stayed up.) Mortgages on our farms will be foreclosed by the money lenders. (More have been paid off and fewer given than ever before.) We will export no goods and we will import from foreign lands all the goods we use. (We exported more in the last five years than in all the rest of our national history.) Thus will ruin, want and misery be with us. (No ruin except to democratic hopes and prophecy. The best times ever seen are ours and you've been proven wrong in every instance.)

MORE ABOUT M' CARTHY.

What the Press in the District has to Say of Him. o o o o o

Hon. J. J. McCarthy, of Ponca, Nebr., circulated among our people this afternoon. Mr. McCarthy is a pleasant gentleman to meet. He is a splendid type of the energetic self-made western man. Ragged honesty and great resolution is written in every line of his intelligent face. He seems to us to be perfectly confident that he will win in the race for Congress. We hope he will.—Plainview Republican.

Dixon County has been honored in the selection of the candidate for Congress. Hon. J. J. McCarthy came to Dixon County nearly twenty years ago, a young lawyer without practice and without means. He has climbed by hard work by incorruptible loyalty to clients, and by unflinching honesty. He has served the people faithfully in every position he has been called to fill. Dixon County takes pride in the prominence he has achieved by his merit. It will be honored by his election to the high office for which he is a candidate. It will do her part to help elect him.—Wakefield Republican.

Judging from the vote of last year the third congressional district is strongly republican and from present indications J. J. McCarthy will have a dead easy walk-away. In 1900 Bryan received 33,300 votes and McKinley 24,000, giving McKinley 1,231 majority. Strange as it may seem with that gain Robinson defeated John R. Hays for congress by 175. Hays received nearly 91 per cent of the McKinley vote while Robinson got 96 per cent of the Bryan vote. Hays and Robinson each carried twelve and Bryan six. Last year Sedgwick, republican candidate for judge of the supreme court carried the district by 64 over Hollenbeck, the fusion nominee, though the majority for

the republican agents of the state university exceeded 1,300, the vote polled being over 10,000 less than the year previous. So with any kind of political management the world is ours.—North Nebraska Eagle.

During the two sessions in which Mr. J. J. McCarthy served as a member of the State Legislature, the writer was an employee of the State Senate, acting as proof reader. A position of this kind gives one an excellent opportunity to calculate the ability of the man at the helm. In such a position, one is privileged to see legislation in the rough, and to feel the unworldly heart beat of political motives, which is denied to the generally fit citizen.

It is a pleasure to the writer to reaffirm from his personal knowledge what has been truthfully recorded by the leading press of the state, that McCarthy was at once one of the most able and conscientious men that have ever served the state.

Soon after his election to the State Legislature, he had gained recognition as the leader of that body, and was so considered until the end of his term. He not only swayed his own party in a masterly manner, but commanded as well the serious consideration of the fusion party.

Mr. McCarthy's valuable experience in legislative matters, qualified him for that higher service to his state, to which he will undoubtedly be held by the result of next election.—Barnard Blade.

There are many reasons why J. J. McCarthy should be elected to congress. Perhaps no other man in the district has more of the sterling qualities necessary in a legislator. Few indeed have the force, energy and working capacity. As a strong, skillful, resourceful and eloquent debater, whose firmness and tenacity won the admiration of even his political opponents, this plain parliamentarian from the rural districts surpassed them all.

As a successful politician he ignored the party leaders and pinned his star to the common sense and never failing judgement of the rank and file. To these elements come victory at the polls. McCarthy is a man who has principle, and who enters the political arena and fights for them. Upon his banner defeat has never perched. The calm air of victory found only in born leaders is characteristic of him. A more able, honest and earnest friend of the common people is hard to find. Voter, think of this when you go to the polls.—Plainview Republican.

No man on either the state or congressional tickets stands better a home than does J. J. McCarthy, republican candidate for congress. Mr. McCarthy served for three terms as county attorney of Dixon county and then declined to accept the nomination again. His friends urged him to be a candidate for the legislature but he would not consent. The gentleman named for the legislature died a week before election and the central committee put the name of J. J. McCarthy on the ticket to fill the vacancy and as a duty to his party he accepted. Without making a canvass he was elected by a decisive vote. He proved to be a most influential and valuable member of the legislature and was re-elected making a state reputation. He will get almost a unanimous vote in Dixon county this fall, Dakota and Thurston counties will not be far behind and all the counties in the district are falling in line for him, assuring his election.—Emerson Enterprise.

THE TARIFF DID IT.

At the end of every season you watch for the advertisements of the merchants announcing stock-clearing discount and cost sales. Don't you find they have been able to sell out their reasonable goods at regular prices, they wouldn't make these sales. Would they? They all wanted to cater to your tastes, and offer you as large a variety as possible and when, at the end of the season they found themselves with a surplus on hand they decided to let it go without profit rather than carry it over. When such an opportunity offers many people will throw away the old garments and buy new. So it is with the American manufacturer. After his season's work, after all at home who want his harvesters, and threshers, and sewing machines have been supplied, he often finds himself with a surplus on hand for which there is no home market. Unlike the dry goods man he can not stimulate the consumption by making a discount sale, for he who has already bought a machine will not buy another until the machine wears out, no matter what price inducement may be offered. So a condition confronts the manufacturer. He hasn't enough capital to go ahead piling up advance stock indefinitely, and he must do one of two things—either shut down his plant for a time and throw his workmen out of work or he must put his surplus into the foreign market at a price that leaves him no profit, probably a loss, and that will sell his goods against the competition offered by foreign makers of the same goods. Rather than shut down his plant he makes a clearing sale, and the foreign market gets his goods, and his plant is kept running and his workmen are kept busy. And some fine eyed American free trader drawing around in foreign markets die a victim Sluggo Sewing Machine, or a Milwaukee harve ter, offered there for less than the home price. He immediately folds up his collapsible tin cup, packs his rocke disk and starts for the states, shouting that "the tariff did it," and tetchelid ocolp chase him from shore to shore, and wave their arms from the top of every cutting billow that rises and falls on Mother Atlantic, and he fees inland, shouting that "the tariff did it" and others take up the cry that "the tariff did it," and not a blessed noodle among them can tell how it hurt them even if the tariff did it; and not a blessed noodle among them never stops to think that American made goods would never, tariff or no tariff, be in demand in foreign markets at any price, if there was a market for them at home at the same price.—York Regu-lar.

AN OLD SORE

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual.

If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly discouraging to find after months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system, or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore or ulcer and keep it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other harmful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

S. S. S. is the only blood purifier that is guaranteed entirely vegetable. It builds up the blood and tones up the general system as no other medicine does. If you have a sore of any kind, write us and get the advice of experienced and skilled physicians for which no charge is made. Book on Blood and Skin Diseases free.

Lincoln, Oct. 27. (Special Correspondence)

The last week of the campaign finds the republicans of the state well organized, and confident of victory. The one thing necessary now is recognized to be that all republicans turn out on election day and do their duty. This state committee is gratified at the interest manifested, and has sent out cheering news to the local committee men.

In the meantime, it is learned that the fusion party is lacking in organization, as it is also lacking in legitimate issues. Their campaign has been of the hap-hazard sort, urged on only by the thirst for office on part of individuals, and enlivened by the agents of the brewery trust. The only semblance of detail organization is that of the saloon interests, which seem to have enveloped or displaced the state organizations of the fusion parties. This is significant of what may be expected if the fusion ticket is elected.

It is now certain that there is method in the attack of the brewery interests on Mickey. It is not so much that they are opposed to Mickey as it is that they are seizing the excuse to wage a fight which may give their friends control of the state departments, and possibly of the legislature. The state is to be met with a demand this winter for sweeping changes in the Slocum law. In case the saloon interests are successful in gaining control, it is learned that they will even demand the repeal of the liquor law which has been on the statute books so many years. This is a condition which will open the eyes of the voters of the state. It is not only an attack on a good citizen, but it is a covert attack on existing laws.

The exposure of W. H. Thompson and his railroad passes has created somewhat of a sensation here, and has filled the populists with consternation. Some of them actually believed that their candidate was an anti corporation man. They had heard with much pleasure the news that he was not a railroad lawyer,—that he did no legal business for the companies. Now it develops that he has been in the political employ of all the principal companies for years, and that his pockets are full of passes, and the proof of his false-pretenses of anti-monopolism has given his candidacy a decided setback. The exposure is a good joke on the pretender, and has disgusted many of his followers.

Last year there were in the state about 60,000 voters who did not go to the polls. It is believed that the turnout this year will be larger, although the season is backward, and many farmers are in their cornfields, or are engaged in threshing out their small grain. The feeling is abroad that a vote this year for the republican ticket means a vote to sustain Roosevelt and his splendid policies, and for that reason the farmers will be more ready than ever to sacrifice the hour or so necessary to cast their votes. With Roosevelt and Prosperity the issue there is little doubt that all good citizens will do their duty on election day.

Newcastle is to have three new rural routes going out from that place and covering a large territory. They will begin on November 1. The farmers about Newcastle feel very much pleased at receiving the benefits of rural free delivery in such a liberal manner. It is especially appreciated from the fact that it has been secured through the personal efforts of J. J. McCarthy, Candidate for Congress from this district. The Journal is informed that the matter was first taken up with Congressman Robinson who flatly refused to recommend the new routes, saying Newcastle was already well supplied with free delivery. McCarthy then took up the matter and pushed it with his characteristic vigor with the result that three new routes will be established there on November 1. This is an illustration in a small way of the advantages this district may secure by having a congressman who is a pusher. Our information in the above matter came from a democrat.—Ponca Journal.

The issue of the state cannot be concealed by the democratic orators, no matter how much verbal fog they may spin over theories and generalities. The main question in Nebraska this fall is the support of the policies of President Roosevelt. (The republican candidates for congress represent support of the administration. The Democratic candidates stand for the defeat and demoralization of every plan and purpose of the president. The voters have no alternative. They vote either for or against Theodore Roosevelt this fall, almost as surely as if he were running for a second term.—Lincoln State Journal.

The democrats are having a lot of assistance in an endeavor to, soot, as the voters lobby a ballot that they are suffering terribly under a republican administration, but the wise voter will keep his head, examine conditions for himself from his own personal standpoint—and vote the republican ticket. If he is abused and suffering he does not need to be told so by the confusionists. If he is living, enjoying life and gathering in a reasonable share of prosperity, all the argument in the world should not operate to convince him that his condition can be bettered by voting the Democratic ticket.

Vote for John S. Robinson if you want an honest man to represent you in Congress.—Verdigris Citizen.

Well, wouldn't that jar you? Is it possible that he's the only "honest man" in the country? He's a pretty slick John, but most people are becoming familiar with "sleazy Johns."

Bryan is now sorry that he wrote his book, "The First Battle." In touring Nebraska it confronted him at every turn, so he left for Colorado, but it will confront him there. His every prophecy was a dismal failure.

THE PRESIDENT'S GREAT WORK.

The practical settlement of the coal strike relieves the whole country of the great tension that was daily increased by the near approach of winter.

This action will result in peace in the coal regions. It will set the miners to work immediately. It will enable many factories that had closed for want of fuel to resume operations. It will avert the threatened coal famine. It will minimize an impending wide-spread suffering that can not now be entirely ameliorated before the rigors of winter are upon us. It will, in short, end what was closely approaching a great national calamity. The people of the country will without respect to party, give the principal credit for the happy termination of a most unfortunate struggle to President Roosevelt.

He it was who got the two warring forces together. Through him they were induced to state their terms of settlement. It first appeared that their differences were irreconcilable, but despairing not in the good work he continued until a basis of adjustment was reached, and in a few days the miners were down in the earth again digging the great necessity, coal.

The whole world rings with praise for this last and greatest achievement of the president. He had no legally constituted authority to act in the matter. But President Roosevelt is a man who doesn't wait for opportunities to open. Where there is no way he makes one. He did the same thing when he started for Cuba with his regiment. Other colonels, being bound by the proverbial red tape of government matters, failed to reach the scene of action. Colonel Roosevelt cut the bonds and led his regiment into the only fight on Cuban soil. He does the unexpected. He does it at the right time and in the right way. He hazarded the chances of failure in the strike settlement. But he won as he has established a new precedent in arbitration that is likely to be of the profoundest and most far-reaching consequences. Its influence will be world-wide.—Fremont Tribune.

If there were just a grain of sense once in a long time mixed up with the ridiculous fakes and nonsense that does duty on the editorial page of the World-Herald, one might think that sheet was edited by the irrepressible "Dooley" in his moments of mental aberration, but the entire lack of either truth or logic exonerates "Dooley" without question. The WH is just now engaged in proving the madness of J. J. McCarthy, of the Third Nebraska district, for congress, because Mr. McCarthy was neither "fer" nor "axin" the Boers in the late unpleasantness across the sea. As a cheap, transparent, blatant demagogue the World Herald has held the prize banner for many years.—Nebraska City Weekly (Dem.)

Dr. J. B. Alden, of Pierce, has been nominated for state senator on the republican ticket and his election is assured. The fusionists nominated a man to run against him, but the gentleman respectfully declined and the central committee were obliged to name a man, and they selected one who was never known to decline anything. Dr. Alden is one of the early settlers in Pierce county and is known far and wide as a gentleman of great skill in his profession and one of the best men in the county.—State Journal.

There is no more capable man for the State Senate than Dr. J. M. Alden, of Pierce, a competent man, a man recognizing the needs of his constituency and the will of the people, practical in his views and able to defend what he believes to be right. Vote for J. M. Alden for State Senator.

Wm. K. Fowler has made the best state superintendent of public instruction that Nebraska ever had. None have advanced the interests of educational matters as he and it would be the worst piece of folly if the people failed to re-elect him. Vote for W. K. Fowler.

Republicans, one more pull, a stone pull, and we'll land J. J. McCarthy in Congress. Then will the big Third shine, where heretofore, for a number of years, it has been voting against that which has made it most prosperous.

An exchange recently called Thompson the "Little Giant." Another immediately announced that if such cognomens were permissible he would introduce J. H. Mickey as Jack the Giant Killer.

His Life In Peril.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "billowness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at L. P. Beautiful Complexions.

Are spoiled by using any kind of preparation that files the pores of the skin. The best way to secure a clear complexion, free from sallowness, pimples, blotches, etc., is to keep the liver in good order. An occasional dose of Herbine will cleanse the bowels, regulate the liver, and so establish a clear, healthy complexion. 50c at E. J. Raywood.

SECRETARY SHAW SPEAKS.

The public meeting held at the opera house last Saturday evening was what the HERALD calls a complete success, in every particular. The 6:40 train arrived bearing Secretary of the Treasury, L. M. Shaw, and Traveling Secretary, Mr. W. H. Dissen, where they were met by the Carroll Cornet Band, the orchestra, and the several hundred people. Mr. Shaw was escorted to a carriage and driven to the Boyd at once owing to the unavoidable absence of Chairman Dr. J. J. Williams whose guest he was to have been for the evening.

About five o'clock a severe gail blow from the northwest with lowering temperature, causing many people from the country to leave for their homes while many delegations that had intended coming from other points gave up the trip. However more than 1000 people assembled at the opera house to hear the address of the eminent speaker while large numbers were unable to get into the opera house to hear him.

The secretary is undoubtedly one of the leading orators of the nation and his remarks were listened to with the closest attention throughout, though frequently interrupted with applause as he shattered the cause of democracy and displayed glory for the grand old republican party. There was little left of democracy when he completed his address, except "resolutions," and never in the history of our city have the people been so well entertained or heard a more able address. Republicans were greatly benefited by his visit to Wayne.

A dance will be held at the opera house Friday night.

Davy Crockett, was one of the great characters of his day while he was a member of Congress from Tennessee. The citizens of Philadelphia presented him with a fine rifle as a token of the appreciation in which he was held. A faithful presentation of the life of this man will be given at the opera house tonight.

FOR RALE.

I have two farm wagons that I don't use and will sell them cheap.

E. J. NANGLE.

TO FARMERS.

This is the time of year when you are disappointed again in the growth of your cattle for the summer, either because your own pasture was too spoiled or because you sent them to a herd where they were abused and neglected, or because you put them in someone else's pasture, and you find you are losing \$5.00 a head in the growth of your larger cattle. Then why not buy a pasture and save this beside getting an investment that will probably double in value in the next few years.

I have three different pastures of a section each in central and western Pierce County at \$10.00 per acre and two of them with good houses, small improvements; the other with a new, four wire fence, windmill, supply tank, etc., with splendid pasturage. Can buy on your own time at 6 per cent. interest.

A. J. DURLAND.

North Norfolk, Neb.

P. S. You will remember that good pastures like these at \$10.00 per acre are very few east of Holt County, and growing less every month.

I also have rough land at \$10.00 an acre in Knox County that is all good clay soil.

Also 1360 acres five miles from Pierce, one half in cultivation and hay land, two sets of buildings and three windmills, at \$20.00 per acre.

If you want to buy a good farm in Madison, Pierce or Knox Counties let me know, as no one has such a list of farms in this locality as I have.

"BE SURE YOU ARE RIGHT AND THEN GO AHEAD."

Some things in life that we do it don't make much difference if we are right or wrong, but in most things that we do Davy Crockett's advice is good. Be sure that you are right when you buy a fur coat, for if you make a mistake you will feel disappointed every time you put it on. If you buy here you will have the satisfaction of knowing that you are right, for we do not sell any fur coat that we have not tested. We have sold nearly every kind of fur coat made and have found only six kinds that have given entire satisfaction. We refuse to buy any colored coat, or coats not made right or coats made out of small pieces. We know many merchants buy colored coats because they look well when new and afford a better profit than natural colors, but we know they do not give satisfaction to the wearer and therefore we will not sell colored coats. Some Fur Coats look well when new, but shed and will continue to shed as long as you wear them. We do not sell any Fur Coat that sheds. We do not sell any fur coat that rips. You can be sure you are right and then go ahead and buy any fur coat in this house and you will get satisfaction. And that isn't all. You will save from One to Five dollars if you buy here. It will not cost you anything to see these coats before you buy. Why not see them? Our stock is the largest and our prices are the lowest and strictly one price. Don't make a mistake, but see us before you buy.

Get Rid of Ground Hogs. Christian Weiss has rid his farm of a pest of ground hogs. Some of you folks may want to know how to get shot of the pesky things, he told his neighbors. "So I'll just tell you how it's done. If there's one thing a groun' hog hates worse'n another it's a tortle. And next on his list is coal lice. Well, you just catch a tortle, soak some cotton wool in it, tie the cotton to the groun' hog's hole. Then you want to have a bag ready quick, for out'll come all the hog meat that he's ever heard tell of. You lose your tortle, but look at the groun' hogs you get."—Bagnetown, Pa. Dispatch. All Pre-Empted. A gentleman had been absent for some time, and during his absence had raised a pretty luxuriant crop of whiskers, mustache, etc. On returning home he visited a relative, whose little girl he was very fond of. The little girl made no demonstration toward saluting him with a kiss, as was usual. "Why, child," said the mother, "don't you give Uncle Will a kiss?" "Why, ma," returned the little girl with the utmost simplicity, "I don't see any place."—Washington Times.

Tripped It. The skipper was a man who had a good opinion of himself and his notions. He had pulled through shipwreck, mauls, and other perils of the deep, but he came a cropper once. For one of his voyages he had shipped a boatwain's mate who bore something of a reputation. One day the skipper ordered him aloft to examine a sail on the royal yard. "Taint safe, cap'n," protested the boatwain's mate. "The foot-rope has got to be fixed first."

"Do as I tell you!" thundered the captain. "The foot-rope is all right. I know they are." The man went up. Five minutes later he came tumbling down through the rigging from the top of the mast, a distance of over one hundred feet. With a bang he landed on the belly of the mainmast and bounded into one of the canvas-covered boats. The sailors, thinking him dead, crowded about him in a circle. To their amazement he sat up. His eyes wandered vacantly about until they rested on the leathery face of the skipper, when they lighted up with intelligence. "Cap'n," he said slowly, "you was mistaken about them foot-rope."

A Hopeless Case. There was a brilliant reception at the house of Mrs. Amory. Among the guests was a certain Mr. MacKenzie, a man of grave and somewhat austere demeanor, whom several of the young ladies present had tried to engage in conversation, but without much success. One of them spoke to the hostess about him. "He seems to be rather uneasy and out of place at a party like this," she said. "Yes," replied Mrs. Amory, with a bright smile, "he can't talk anything but sense."

Helped Everybody. Gainesville, Texas, Oct. 27.—Mrs. L. E. Burton, formerly of Eureka, Kan., has been at 507 Gladstone street, this city, for some time. While here Mrs. Burton has been the means of doing much good by introducing to her sick friends a remedy which is very popular in Kansas, but which has not been very much heard of in this neighborhood. It is called Dodd's Kidney Pills and in every case where it has been used it has produced wonderful results.

Mrs. Burton has good reason to speak well of Dodd's Kidney Pills for they have done much for her and her family. She says: "I must tell everybody what Dodd's Kidney Pills have done for me and for as many of my friends as have used them. I had a very bad case of Kidney Trouble, for which I had been doctoring for a long time. I had tried every remedy, but nothing seemed to do me any good. My mother and my brother were ill and they took them and were soon well again. Dodd's Kidney Pills have done much for us."

A Demand for Wives. The crying need of South Africa is more white women. Before the war the shortage was sixty-nine thousand, and now the disproportion must be much greater. It means that about one man in every four of the British in South Africa could never hope to find a white wife, whether Dutch or English. In the country before the war, but that has since been over, there will be a real need of wives for the men who are now in the army of occupation. It is not unlikely that the country, though there is no probability of a natural and automatic increase in the number of women.

GOVERNOR OF OREGON

Uses Pe-ru-na in His Family For Colds and Grip.

CAPITOL BUILDING, SALEM, OREGON.
A Letter From the Executive Office of Oregon.
(Usually in the house. In a recent letter to Dr. Hartman he says:)
STATE OF OREGON,
EXECUTIVE DEPARTMENT,
Salem, May 9, 1913.
The Pe-ru-na Medicine Co., Columbus, Ohio.
Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have had had occasion to use it for other ailments.
Yours very truly,
W. M. Lord.
It will be noticed that the Governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is, most other ailments begin with a cold. Using Pe-ru-na to promptly cure colds, he prevents his family against other ailments. This is exactly what every other family in the United States should do. Keep Pe-ru-na in the house, and you will be able to cure colds, grippe, and other climatic affections of winter, and there will be no other ailments in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Winter Colds." Address Dr. Hartman, Columbus, Ohio.

LOCAL AND GENERAL NEWS.

The HERALD's columns are devoted to the campaign this week, but as soon as the election is over our best efforts will be put forth to publish the news in full and stand up for Wayne and Wayne county.

E. R. Gurney has had many flattering requests for a speech in different parts of the district, but it is utterly impossible for him to comply. He is working 18 hours a day now and expects to visit after election. Dr. J. B. Alden of Pierce, republican nominee for state senator from this district, was shaking hands and making acquaintance with the voters of Winfield yesterday. Dr. Alden is highly spoken of in his own county and no doubt is a worthy man. —Winfield Tribune.

Look Out For Fever!

Biliousness and liver disorders at this season may be prevented by cleansing the system with DeWitt's Little Early Risers. These famous little pills do not grip, but copiously, and by reason of the tonic properties, give tone and strength to the glands. —L. P. Orth.

In nearly every neighborhood there is a man who is distinguished for growing certain kind of crops and he seldom meets with failure. One man will always have corn to sell and another will grow good and profitable crops of wheat every year. Dry and wet seasons come and go, but he always has something to sell. In every locality may also be found a man who has his own meat. Cholera has no terrors for him. These men may be known by their name which is "Mr. Know How." They are not conjurers as some suppose, but agriculturists. —Homestead.

Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquidifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, gripes, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." —L. P. Orth.

Competition makes trade. It means hustling, advertising and reaching out for trade. There are many things sold that are not altogether needed, which are sold by good, live agents and by advertising. Machinery of all kinds that has been used only a short time will give way to some newer and more up-to-date machine because an agent has to hustle to make a trade. Meat is something that is necessary and has to be on hand all the time where men work. Combines and trusts do not work and hustle. They bring forth trade by stilling the fellows who do not hustle. Competition and hustle are the factors that are to give trusts trouble. —Homestead.

Do You Want To Yawn?

Feel cold shiverings, aching in the bones, lack of energy, headache, and great depression? These symptoms may be followed by violent headache, high fever, extreme nervousness, a condition known as malaria. Herbine cures it. Take it before the disease gets a fair hold, though it will work a cure in any stage. J. A. Hopkins, Manchester, Kan., writes: "I have used your great medicine, Herbine, for several years. There is nothing better for malaria, chills and fever, headache, biliousness, and for a blood-purifying tonic, there is nothing as good." 50c at E. J. Raymond.

Jacob Dorenberger and two daughters from Wayne were in Carroll last time Saturday, stopping on their way to Belden. Evan Jenkins and wife and Oscar Edwards were among those attending the funeral of Mrs. Wm. R. Jones at Wayne Wednesday. E. S. Ringland is up from Wayne today looking after farm interests near Sholes. Dr. Love was in Carroll over Tuesday attending to the examination of several applicants for life insurance. The doctor will leave Nebraska soon, to seek a new home at Pierre, S. D., near where he has taken up government land as a homestead. Fred Pile came up from Wayne Friday evening to join Prof. Littell in a hunt on Saturday and to spend Sunday at the home of the latter's sister near the old Duff ranch. Mrs. Wm. R. Jones, died Tuesday at her home two miles south of Wayne and the burial took place from the Presbyterian church at Wayne at three o'clock Wednesday afternoon. The deceased was well known by many in this vicinity. Among them attending the funeral from here were Mr. and Mrs. Griffith Williams, Mr. and Mrs. M. D. Davis, Mr. and Mrs. Wm. Jenkins, Mrs. Ellis and daughters, Thos. and Frank James. —Carroll Index.

The fusionists continue to insist that Mr. Macey represents the railroad interests of Nebraska. They are again yelling "stop thief!" in an endeavor to aid themselves to escape the scrutiny and consideration from the voters that they deserve. Their record against the railroads and corporations is deplorable. If they have gotten out one of their own speakers, Edgar Howard, editor of the Columbus Telegram, and at one time fusion candidate for Congress in the Second district, restful of fusion supporters, in his issue of last April, the 18th, in a certain course with Editor Alden about the record. He asks, "How did we fulfill the promise?" made to the people of the state that "two would place the state board of transportation in the hands of men who would give a ready ear to the complaint of shippers?" The Telegram answers that the promise was kept by "permitting the Union Pacific railroad to name one senator, the Burlington another and the Elkhorn another." Then they proposed to carry out the pledge of the party, "fawning at the feet of the railroad managers, and, taking into consideration the increased value of railroad property, making an assessment actually lower than Tom Benton and his gang ever had the nerve to make. We promised that our fusion state auditor would make the foreign insurance companies toe the mark. How did we keep the pledge? Let the letters of Palm and Cornell answer. We promised that our legislative corporations all along the line. How did we keep that pledge? Let the disgraceful record of the fusion legislature, their trucking to corporations, their utter failure to resist the banishments of the railroad, telephone and stockyards political agent stand for reply." This is the testimony of Mr. Howard, and now the fusionists wish the people to forget all this and entrust them with the job of dealing with these classes of property. How have they reformed that their prayer should be heard. —Norfolk News.

Forty Years Torture.

To be relieved from a torturing disease after 40 years' torture might well cause the gratitude of anyone. That is what DeWitt's Witch Hazel Salve did for C. Haney, Geneva, O. He says: "DeWitt's Witch Hazel Salve cured me of piles after I had suffered 40 years." Cures cuts, burrs, wounds, skin diseases. Beware of counterfeits. L. P. Orth.

What Has Robinson Done.

There are a few newspaper men and others who have attacked J. J. McCarthy severely and unjustifiably and who endeavor to make it appear that Robinson is the superior of McCarthy. In what way is he superior? What has Robinson done in congress? We have never heard nor has anyone else, unless it was an attempt to obstruct the republican in their endeavors to pass laws for the benefit of the nation. That he did frequently. There is one thing Congressman Robinson did and it should be condemned by every loyal American in the Third congressional district. He voted against a bill introduced to make an appropriation to purchase planks to provide a shelter for Uncle Sam's soldiers in the Philippines who were suffering from rigors of weather, losing their health and dying. That's one thing Robinson did, and there are men in this county who have sworn that for this act alone they will vote against Robinson, although of his political faith. Such an act does not demonstrate a man as being a true American patriot.

America's Famous Beauties.

After a hard days work it will not come amiss to call at the Capital and get a glass of good beer, you will then relish a good meal.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with female weakness for eight years, and suffered more than I can tell," writes Mrs. Gustave O. G. Derridge, Co. Mont. "My disposition was affected to such an extent that I say a pleasant word to anyone was almost impossible. I had two operations performed by one of the most skillful surgeons of the West, but did not get relief. I then secured my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and within three weeks I was as healthy and well as a woman can be. I cannot thank Doctor Pierce enough for his kind letters to me."

Womans' diseases, as a rule, spoil the disposition. How, because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription. After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Macey to perfect health. This great remedy for women's ailments, regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. The Common Sense Medical Adviser, 100 pages, covers in plain, concise, and easy-to-read language, all the ailments of women, and is sent free on receipt of 21 one-cent stamps, by express of mailing only. The Worst Form.

Multitudes are singing the praises of Kodol, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red blood that makes you feel good all over. Mrs. Crandall, of Troy, I. T., writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat." L. P. Orth.
