Last Sunday as J. H. Katz was walking along slowly toward the depot Sam Davies moved up from the rear with the paper cart and suddenly bumping up against Mr. Katz, the latter sat down and took a ride for a ways. John enjoyed the ride because he had on Staley.

Some excitement was created Sunday afternoon, when, owing to the sewer across Main Street at the corner by the Wayne National Bank being stopped up, the water coming from the upper part of town began to flood Main street. Water stood about eight inches deep in the street in front of Wilson Bros. store, was running under the sidewalk into the basement of Orth's drug store and was about to enter the basement of P. L. Miller's grocery store. Some lively work was done and the sewer opened by breaking the tile. This set the water free and in a short time the pond was drained away.

AN \$1800 PIPE ORGAN.

About one of the most appropriate gifts that a noble woman is able to make was that made by Mrs. J. H. Pingrey, a week ago, to the Methodist church of this city. It was a gift of a beautiful \$1800 pipe organ of the best manufacture, which Mr. J. D. King, Mrs. Pingrey's agent, went to Chicago to purchase. It is a matter in which local pride will be self evident. The matter was supposed to have been a secret, therefore the HERALD failed to comment upon it last week. It will be placed in position and at the request of Mrs. Pingrey, the first piece played upon it will be "The Coronation," at which time the venerable donor will be present.

A car load of coal ordered two months made its appearance last week. However we have never suffered a coal famine. The college heating plants are all first class, so no inconvenience has been felt, nor have any classes had to be dismissed on account of cold weather.

Mayor Lay requests the HERALD to give notice that on and after the 1st day of March next, electric lights will be discontinued for morning service.

The HERALD had an item for last week's issue in regard to the two furnaces that Berry & Peterson put in the opera house the week before, but it got mislaid. Manager Britton is to be congratulated in this move, for during the very coldest nights last week it was possible to keep the building nice and comfortable, so that the patrons need no longer fear the cold. As soon as he gets the interior of the building completed and the new scenery, Wayne will have one of the crack opera houses in the state containing all the modern improvements. The door leading to the stage through one of the dressing rooms is a change for the better. By another season Mr. Britton will be able to book some of the very best attractions on the boards, as it is necessary to do so several months ahead in order to get them.

LINCOLN CORRESPONDENCE.

The revenue bill is still the prevailing topic of conversation at the capital. The bill is to be presented to the House this week, and no doubt will be discussed to the exclusion of other bills. The new bill was agreed upon in detail by the joint committee a week ago, and a sub committee has been at work carefully revising it and correcting the clerical errors in the typewritten copies. The expectation is that it will come before the house in splendid shape, and that very few important amendments will be offered or adopted. There are few who are skeptical about the passage of a general bill, but they seem to be in a decided minority. In the senate there seems to be an overwhelming sentiment in favor of the proposed bill.

Among the standing committee during the past week the principal interest has centered around the proposed elevator bill and the investigation of telephone rates. After several hearings, the Ramsey elevator bill, House roll 70, has been recommended for passage, with some slight amendments. In the meantime the committee to investigate telephone rates has had several very warm meetings, and at this date has come to no definite conclusion. The evidence as to the expense of conducting a telephone business has been most startling in its variance, and it is probable that further evidence will be heard during the week. In the strife as to whether the independent lines shall be allowed to establish toll stations in the large cities, the special telephone committee seems to have lined up with the old line company.

The joint resolution calling for a constitutional convention has passed the senate by a unanimous vote, and is now in hands of the House committee. It is said that it will receive considerable opposition in the House, and may not pass. The statement recently made that the governor is opposed to the idea of a convention may have some effect in retarding the resolution. There are many who advocate the adoption of amendments, instead of calling a convention, on account of the expense which would be incurred by the convention. Others, however, point to the fact that in the last dozen years the state has spent \$10,000 attempting to adopt amendments, and failing in each case.

Interesting bills recently introduced in the Senate: 179, providing a penalty of no more than three years in the penitentiary or a fine not exceeding \$1,000 for the crime of desertion of minor children by parents; 181, changing the registration law to permit voters to register at the office of the city clerk on any day during the month preceding the election; 183, amending the pharmacy law in regard to registered pharmacists; 184, permitting the hooking or seining of fish in the Missouri river at any season of the year; 188, providing that road tax in counties not under township organization be paid half in labor and half in cash.

Interesting House bills: 280 and 281, to prevent fraud or counterfeiting in the handling of railroad tickets; 285, providing for a lien on grain for the threshing or shelling bill; 289, to regulate the use and prevent injury to bridges and public highways; 290, to compel the outing and trimming of hedges along public roads; 304, to provide for the full width of public roads; 313, making the birthdays of McKinley and Lincoln and "flag day" public holidays.

Up to date the Senate has passed 37 bills and killed 17; The House has passed 32 and killed 30. The Senate has 98 bills on general file ready for consideration and the House has 40. The number of bills that pass both houses is usually about 110.
