Last Saturday the news reached Wayne from Hullerton, of a serious accident that had happened to Mrs. Ed Reynolds, formerly of this city. Early that morning she started to cross the street to a neighbor's during the storm, but slipped on the ice and fell, breaking the hip bone by the fall. She was rendered unconscious and lay in the cold some time before she was discovered and taken into the house, where she was restored to consciousness. Local physicians were summoned, also a doctor from Columbus, who pronounced the fracture of a serious nature, making her recovery doubtful. Monday morning Mesdames Chas. Beebe, L. O. Gilderlove, A. E. Gilderlove and Rollie Ley, daughters and Chas. Reynolds, son of Mrs. Reynolds, departed for Fullerton.

### TO THE DAIRYMEN.

The American Cream Separator has successfully met, in impartial competition, every other Separator of note. At the same time we do not claim the American to be the "only separator." We prefer leaving such a claim to our competitors, while we stand prepared to satisfy any prospective purchaser that the American at least equals, and frequently outclasses, such so-called "only separators."

### LINCOLN CORRESPONDENCE.

Another senate bill is No. 202, requiring school officers to file an estimate of expenses for the coming year, and making it illegal to use money for purposes other than named in the estimate. The bill is calculated to stop extravagance and misappropriation of funds.

There are now three bills in for reduction in the number of judicial districts, differing slightly in the make-up of some of the districts. The intention of each is to cut down the expense in this department by lopping off a number of judges and reporters.

The telephone hearings and investigations have been continued during the week, but it is hard to tell what real progress has been made. The bill permitting independent companies to establish toll stations in the large cities has at last reached the general file, and will soon come up for discussion in committee or the whole.

The agitation over the elevator bills has quieted down after the hearings before the committee, and the bill has gone to the general file, with an amendment added by the standing committee that the new elevators must have cost at least \$3,000 before they can compel the building of a side track. Both sides seem to be fairly well satisfied with this compromise.

The inevitable joint resolution asking for a dismissal of the suits against the Bartley bondsmen has been presented, and without doubt will provoke much discussion. The bondsmen agree to pay the costs of suit if they are released from paying the judgements. Such a release would enable those of them who have their property covered up to begin to operate again in their own names.

The past week has been a busy one with the legislature. In spite of the fact that the new revenue bill has not come up for regular discussion. Pending the printing of the bill, which is a long job, one of the typewritten copies was turned over to the regular revenue committee of the house for consideration. The printed bills being ready, lively discussions on the floor of the house are expected this week.

A bill is in the senate for the appointment of a state accountant at a salary of \$2,000 a year, whose duty it will be to oversee the systems of book keeping in the various state departments and institutions and provide for uniformity. Heretofore there has been an entire lack of system in some of the institutions, and without doubt the state has lost much money because of lax methods.

There has been some discussion during the week over the Burgess printing bill, and a number of publishers of country newspapers have been in to protest against it. Their argument is that it is not in the interest of the country printers, but on the contrary would do them harm. The hearings have brought out the fact that there is some spite work between city printers in the movement to pass the bill.

Up to the present time the principal objection to the terms of the new bill comes from stock feeders who want the property ownership date changed from Feb. 1 to March 1, frankly acknowledging that the early date will catch them before they have disposed of a considerable part of their property. There is also some little objection to the county assessor system and one or two members favor the election of the deputy assessors. Some members of the regular revenue committee suggests that the county assessor should be permitted to appoint the deputies without the confirmation of the county commissioners. It is generally believed, however, that the bill if it is passed will be in practically its original form.

### UNIVERSITY NOTES.

At the junior election Monday morning, Miss Anna Van Zandt was chosen class president.

The State Historical Society has received from ex-senator C. F. Manderston, twenty-five exceedingly valuable monographs of his own writing.

At a meeting of the senior class Wednesday it was decided that, instead of invitations, commencement announcements would be issued by the class.

Seventeen members of the University Y. M. C. A. attended the Y. M. C. A. state convention which met at Beatrice from Friday, February 27th to Sunday March 1st.

Dr. John White of the department of Chemistry, left for his old home near Baltimore, Md., Thursday in response to a telegram announcing the serious illness of his father.

Chancellor Andrews addressed a large gathering of men on "George Washington" at the Oliver theater Sunday afternoon. The meeting was under the auspices of the city Y. M. C. A.

Professor H. W. Caldwell of the American History department lectured before the Farmer's Institute at Broken Bow, Wednesday night on "The Influence of the Frontier on American History."

W. A. Layman, general manager of the Wagner Electric Co. of St. Louis, delivered an illustrated lecture on "Transformers; their design, manufacture and use" in Mehanics Arts hall Thursday evening. Mr. Layman dealt chiefly with the technical side of the subject and his lecture was especially valuable to students in electrical engineering.

Y. Nikado, A. C. Matthews, A. Weber, J. Vavra and A. G. Horn, who have been engaged in various sugar factories in the state, have registered for special courses in Chemistry. The factories are closed for the reason and they take advantage of the opportunity to get some work in technical chemical analysis, particularly the analysis of sugar products.

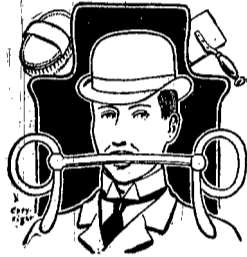

Edward O'Shea of Lincoln, who served in Co. D, 1st Regiment, Nebraska Volunteers in the Spanish-American war, has presented the State Historical Society with some valuable Philippine curios. The collection includes a Spanish flag which was in Fort Malaca when it was taken by the American forces.

At a meeting of the Athletic board Monday night, Eddie Gordon was engaged to coach the baseball team. It had been currently reported that he would coach Colorado University but Eddie has a personal interest in his alma mater and preferred coming here. His ability as a ball player is well known and with his appearance on the league, teams his services will be exceedingly valuable in building up a winning nine.

Miss Rosa Boutan of the department of domestic science has recently returned from a lecture tour which included Kearney, Tekamah, Johnson and Brock. She addressed the farmers institutes on different phases of domestic science. The purpose of her lectures was to arouse the people of the state to a realization of the need of better education along the lines of home science and to give an idea of the work done in the domestic science department of the university.

The class in American history 2 has presented the library with four sets of Fiske's American Revolution, three copies of Fiske's True Revolution and five copies of American Patriotism, a source collection. The class in course 4 of American history has donated ten copies of Burgess' Middle Period. The students in these courses, through their historical readings, came to realize the need of a complete collection of authorities. They take this means of doing their part toward building up the library and adding to its value for those who follow. This spirit of appreciation and generosity has found expression in similar gifts from classes in the past.

The Delaware legislature has elected two United States senators the first representative in the little state has had for four years.  
Senator Morgan has been trying to out-do ex senator Allen in the line of talking, but he lacked time in which to accomplish the feat.

President Roosevelt has called an extraordinary session of the senate to convene today, March 5th. Important business is not settled.  
The democrats have been having banquets all over the country the past few weeks in an effort to bring forth a presidential nominee. Hearst of the Chicago American is the only man yet mentioned.

Ex-Senator W. V. Allen has given up his newspaper work and will devote his attention to law. The Commover was too much for Mr. Allen and ere long the democratic party will be too much for Mr. Bryan.

The jury in the celebrated Lillie murder trial at David City, found Mrs. Lillie guilty of the crime. The case is one that has been watched with much interest by the reading public. The verdict to many was a surprise, while to others it is not.

Prof. Gregg, by making a hard fight, secured the passage of his bill providing that a person to be elected county superintendent must hold a first grade teacher's certificate. The professor is quite a fighter and is establishing an A. No. 1 record as a legislator.

Bryan states positively that he is not, and will not be a candidate for the presidency in 1904, but he is not backward in making it decidedly plain that he will use a club on the democratic candidate if he isn't interviewed as to who shall receive the nomination.

The Republican party of Nebraska, should fare badly if the legislature should fail to amend in some way the revenue laws of the state. And if it passes the one that has just been framed it is likely to go hard with the party, for it is pretty sure to increase taxation. It bids well to be a case of damned if you do and damned if you don't.—Fremont Tribune.

The new Department of Commerce will have the unique distinction of dealing with the largest commercial interests of the world. In domestic exports, in manufacturers, in transportation, and in internal commerce the United States is at the head of the world's list of great nations. Some figures just compiled by the Treasury Bureau of Statistics, which by the new law becomes a part of the Department of Commerce, estimated the internal commerce of the country at twenty billions of dollars, or equal to the entire international commerce of the world.—Nebraska City Tribune.

tion was passed without a dissenting vote, and the Texas house adjourned accordingly at the noon hour. Last Wednesday a resolution was introduced in the Missouri house to adjourn over the following day in honor of Lincoln's birthday. It was voted down. One democratic member in a satirical spirit, moved that the resolution be referred to the committee on federal relations, but the democratic majority contented itself by putting the motion to death without rubbing it in. If a dozen democrats had re-entered the republican vote the resolution would have carried, but, of the more than eighty democrats in the house, none would do it.

The character of Abraham Lincoln has grown up in his countrymen everywhere in the United States except among a certain class of Missouri Democrats, which, unfortunately for the good name of the state, composes the majority of the present legislature. They cannot forgive Lincoln for having been a republican, even though he was of southern birth and descent. Men of every clime and civilized race on earth, except these Missouri democrats, render homage to Lincoln for qualities that lifted him above all narrow lines and considerations. He loved his fellow men, with charity for all and malice toward none. He was a man of mercy, though of supreme action. He was the soul of simple truth. Intellectually, as human wisdom, perception and noble impulses go, he was the giant of his time. He fell at the post of duty. History everywhere, except in one locality, gives him a towering place as a leader and a benefactor of the human race. That exception is found in the records of the present Missouri legislature, coupled with an attempt at sarcasm.

**Keeping Faith With The People.**  
The republican party keeps faith with the people. It fulfills its pledges to the country. Nearly fifteen years ago in its national convention the party declared its opposition to trusts. Two years later a republican congress enacted the first anti-trust law. In its last national platform the republican party condemned all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and declared in favor of such legislation "as will effectively restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce."

The fifty-seventh congress was elected on this platform and it has kept faith with the people in the enactment of legislation supplementing the interstate commerce law and the act of 1890, so that they are made much stronger and their effective enforcement rendered more certain. If not going as far as some republicans desired this legislation yet marks a decided advance. It meets the national views of the administration and the judgment of conservative business interests. It contemplates nothing destructive or revolutionary. It is not an assault upon the business or prosperity of the country. Another anti-trust measure that passed the house unanimously is pending in the senate. It is a comprehensive measure, but owing to the short time remaining of the session it may not be passed by this congress. It can, however, be considered by the next congress, if necessary. It will not be lost, if it should fail of enactment by the present congress.

Of course democrats are predicting that the legislation passed will be ineffective. It was to be expected they would do this, but people who are familiar with the uniform failure of democratic predictions will attach no importance to the latest one. The country has confidence that the administration will spare no effort to enforce this legislation and will await results. We believe that the anti-trust bill will prove effective and we do not doubt that when the bureau of corporations in the new department is in operation the public will be given all proper and necessary information in regard to the organization, conduct and management of the business of corporations, except common carriers, engaged in commerce among the states or with foreign countries. Let no one be disturbed by the professed apprehension of democrats that this legislation will fail of its purpose, remembering the persistent democratic cry that the republican party was controlled by the trusts and therefore would do nothing adverse to them.—Bee.

Bryan has just done some plain talking to Judge Parker, the democracy's latest man of destiny. He warns the judge that the abandonment of the Kansas City platform by him in 1902 will call down the wrath of the Kansas City element of the Democracy, and that is a pretty big ingredient of the party still. Parker's troubles loomed up. Thus far he has not needed to say anything. Petty soon, however, he will be called upon, by both the Cleveland and Bryan sections of the party, to tell how he stands on the issues of the day. It is known that Bryan contends that silver is still an issue. There is a chance that Judge Parker will find the journey to the presidency a very hard road to travel.

So Sweet and Pleasing in Taste.  
Mrs. C. Peterson, 625 L. Ave. St., Topeka, Kan., speaking of Ballard's Cherry Syrup says: "It has never failed to give entire satisfaction, and of all cough remedies it is my favorite, and I must confess to my many friends that it will do and has done, what is claimed for it—to speedily cure a cough of a cold; and it is so sweet and so pleasing in taste." 25¢ and 50¢ bottles at Raymond's Drug Store.

Those who are unhappy because the United States does not buy more foreign countries than it sells to them should feel encouraged by the fact that under Protection prosperity we are rapidly increasing the volume of our purchases from the outside world. In January, 1903, our total imports were \$86,108,899, the largest in the history of our commerce. We are now close to the billion dollar line. The total imports for twelve months ending with January, 1903, were \$775,283,637. Add to that the \$200,000,000 a year which we pay to foreigners for carrying our overseas freights in foreign ships, the 75,000,000 which American tourists spend abroad every year, and the \$75,000,000 which we annually disburse to foreign holders of American investment stocks, bonds and securities, and we have a total of about \$1,350,000,000 in purchases from foreigners. The Dingley tariff is not such a terrible Chinese wall, after all.

## Coughs

"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."  
J. H. Burge, Macon, Cal.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones!  
The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three sizes: 25c., 50c., \$1. All druggists.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows, save it with him. We are willing.

## Times Change.

Fashions change—with a tailor always—with the ready-made clothing man if he sold his last stock. A man can be perfectly sure of entire clothing satisfaction only. There are no men alive in one there is a little defect here—in another it is in an entirely different place. Tailor made clothing is the cheapest in every way man can flourish. Style, satisfaction, fit—and elegance all combined by

We have the only "Snag Proof" rubber boot made. All other so-called snag-proof boots are mere imitations and you will not find the name Snag Proof on any boot except ours. The boot we have will outwear two pair of any other kind made. We have sold the "Snag Proof" rubber boot eighteen years and know what we are talking about. More than one hundred men in Wayne county are now wearing our boot and we will be pleased to tell you who they are if you so desire. Some of our rubber boots have been worn three years and are good yet. It don't pay to buy a poor rubber boot. We have other kinds but the "Snag Proof" at \$4.00, is the cheapest as they will outwear two pair of any other make.

On Monday of this week, the Boyd Hotel again changed hands, the new proprietor is W. L. Thurston of Onawa, Iowa, who is the owner of the building and who comes to Wayne with an excellent reputation as a citizen and business man. He expects to make many improvements about the property for the convenience of patrons and for the betterment of the hotel. Mr. Little, the retiring landlord, during his stay in Wayne, has made friends and proved himself to be an excellent landlord in every particular. He expects to engage in the business elsewhere.  
The Flynn Vital Center System of Health Culture, as introduced by Mrs. Luella Julian Martin, of Toledo, Ohio, has created such interest among our most thoughtful and intelligent citizens. Three classes have been formed and those taking the lesson are manifesting great enthusiasm that will surely result in much good. The System is Scientific, yet simple, and direct in its application and aims to restore strength and health to the entire bodily organism, teaching each one to run their own machine according to nature's laws. Mrs. Martin advocates the daily brush and water bath, protects against the wearing of flannel next to the skin, as it absorbs the poisons issuing from the skin and closes the pores. She insists on pure air, deep muscular breathing, much out of door exercise, the thorough ventilation of the home and gives much other good advice that appeals to the intelligent as truth, and that if obeyed cannot fail to bring health and longevity.

**RHEUMATISM CURED AT LAST.**  
Good News For all Who Suffer with Rheumatism, Free.  
To all who suffer with Rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on Rheumatism ever published.  
No matter what your form of Rheumatism is whether acute, chronic, muscular, inflammatory, deformity, sciatica, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "sure cures" you have tried—I want you to write to me and let me tell you how my mother was cured.  
I am neither a Doctor nor a Professor—simply a plain man of business—but I have a Cure for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however apparently beyond the reach of cure, will write to me this day and night. I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are wearied and discouraged with "doctoring" and to those who have been fast aside as "incurable." All you have thought about Rheumatism may be wrong. Let me tell you our experience. Surely, if you have Rheumatism, or have a suffering friend, it will pay you to investigate my offer, anyway, and prove yourself these claims I make.  
Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with Rheumatism, no matter where located, send me their address, and I will mail them a copy. My address is Victor Katscholz, Bloomfield, Indiana.  
Judge Hunter issued license to wed this morning, to Adam Soul and Maria Roeg.  
A pleasant dancing party was had at the opera house Wednesday evening. Excellent piano and violin music was furnished by Miss Bertha Armstrong and Frank Vincent.  
The lecture given by Mrs. Martin of Toledo, Ohio, Saturday night at Mrs. Bressler's, was very fine. Physical Culture is the need of every sensible, thinking person and Mrs. Martin is thoroughly acquainted with the work, three classes are in progress daily, the benefits are profitable and a good lesson to the average person. Mrs. Martin is very pleasing to the class.

**MRS. CROSSLAND ELECTED.**  
At an election held Wednesday, March 4th, Mrs. Mary Crossland was elected to represent the Methodist church of Wayne, in the Lay Electoral Conference to be held at Fremont, Nebraska, next summer, when Lay Delegates to the General Conference will be elected. Mrs. L. C. Gilchrist was elected alternate.  
The election of two women is probably owing to the fact that the weather was too inclement for the men to get to the polls and vote.

**Bad Boys and How to Fix Them**  
If you have a boy who is bad about wearing out his shoes we can fix him so you will have no further trouble. We now have a shoe for boys that they can't wear out. This shoe is made double and will outwear any boy—will not rip. How does that sound in your ears? If you have a boy who has made you tired buying shoes, see us and you will get rid of that tired feeling. Remember we are the only people who have boys' shoes that will not wear out. We also have "Little Men" shoes size 8 to 13. Made for little boys, that wear and fit. Try a pair and you will buy no other kind.

## NEW GOODS!

**\$5,000 worth of Spring Goods received at Wilson Bros' within the Past 10 Days.**  
Never have we been able, heretofore, to procure such bargains. Our white goods, laces and embroideries, were never nearly so pretty; Colored Waist Goods galore in all range of prices; Walking Skirts at all prices both for ladies and Misses; Shirt waists of all kinds and especially strong on white ones; all kinds of novelties in the notion department; also pretty things in Silk Jackets, Silk Skirts and all kinds of ready-to-wear goods. In our shoe department we have lots of new and up-to-date styles, and would be very much pleased to show you them. In our Dress Goods stock are many new and novel things, in fact we never were as well prepared to take care of the trade as at the present time. Our Matings are all in at present and we can suit you, we are the only firm in the city carrying them in stock. Our Spring Carpets will be here about the first of next week, or about March 10. Mrs. Wilson is in St. Louis now buying the Millinery, and will have the largest and finest line she has ever had, will also have an expert trimmer to take charge of the work. Can serve the trade better than we ever have, this coming season. You are invited, one and all, to inspect our stock, and pass remarks, we know we can suit you. Yours for business.
