An Olean, N. Y., special says: A score or more people were killed and a large number injured by an explosion of oil here Sunday night. A freight train on the Erie Railroad, made up principally of tank cars filled with oil, broke in two near this city at 9 o'clock. The two sections of the train came together with a crash, and one of the oil tanks was demolished. Fire broke out almost instantly, and the sky was lighted up like this city for the scene of a fire. While they were up along the track a terrific explosion occurred. The flames communicated quickly with the other tank cars and spread in every direction. Sheets of flame shot up in all directions. Scores of persons were caught within the zone of the fire and hurled in flames. Men and boys had screaming toward the tracks with their clothing in mass of flames. Others fell while they stood overcome by the awful heat.

Other how many were killed is not known, as many of the bodies were incinerated.

Work was sent out to the Olean police headquarters by telephone. Every doctor and ambulance in the city was summoned.

Grocery wagons and carriages of all kinds were pressed into service and everything possible was done to send the injured without delay to the hospital. A searchlight first of the injured arrived at the hospital. They were very badly burned. Their bodies were bright red. Great patches of flesh were burned off and hung in strands from their bodies. It will be difficult to ascertain the names of a great many of the dead, as their bodies were burned to ashes in the furnace heat. A canvass is being made of the city as rapidly as possible to find out the names of the missing. There is great excitement in the city and the streets are thronged with people.

This is my hope and strength. I now believe that for Christ's sake God has forgiven me. To my savior, however, I also owe, before I die, to make this confession before me, and that is the reason I write now, and to make use of the opportunity to be forgiven and of all those whom by my fearful deed I have harmed or offended. May they forgive me as God has forgiven me, and may they hope for forgiveness through Christ's blood."

CONGRESS

Gov. Mickey will not issue an order to any the execution of Gov. Niegenfind. He says, "I have seen some new and untried development transpires. The governor says he has been strongly impugned by the sentence of the condemned man to commit and as strongly urged by others to enforce the death penalty. The governor says he called at the penitentiary twice to converse with Niegenfind at the latter's request and is satisfied that his murder of his wife was entirely without justification. The governor says he has been asked for his opinion on the matter. To me as a principle and asserts his conviction that it is a part of the divine law. He is opposed, under general circumstances, to the practice of an executive setting aside the sentence of a court of justice.

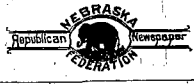

Members of the legislature have arisen in their madhouse and might to declare that they will no longer tolerate the harshness of having to "wade through" a bill in

Mrs. August Shipman, 811 West Eighth Street, says: "I am pleased to tell of the great benefit I received from my treatment with Dr. J. C. Clark. I was in such a nervous condition that I became fearful of losing my mind. I had such pins in my head running clear down through my spine, and I could not do my work and look after my family. It was getting worse daily. My eyes could bear no light and my headache was so severe that I was obliged to seek a dark room. This was my condition the last two days before my glasses arrived. I received them at noon and put them on immediately, and that glasses perfectly fitted would remove the cause. I engaged Dr. Clark to take my case and as soon as I put the glasses on I began to get better. I stopped taking medicine at once and I am happy to state that now I am in good health and have none of my former troubles." Orange City, Ia., Oct. 25, 1902. Dr. J. C. Clark, Sioux City, Iowa. Roosevelt Believes in Large Families; And So Do We.

It is refreshing to know that the head of this nation believes in large families. We hear it frequently remarked that the rich do not have children and that society people don't want them. The only Queens in this country are the women that have raised families. Every good man feels, when he meets a mother, he is in the presence of God's chosen creature and willingly respects her by taking off his hat.

God will bless Roosevelt for standing up for the family. Speaking of large families reminds us that there usually is quite a number of boys in a large family and some parents may have had trouble to find clothing that give satisfaction. We have had over 25 years experience in clothing boys and we can save you money and much trouble if you will call on us before you buy your boy's suits. Our spring suits are now in and our boy's clothing is made to resist hard wear and is the latest style. Now don't make the mistake so many do and buy anything for a boy. It costs no more to buy stylish clothing here than others ask for out of date clothing. Boys like nice clothing and if you buy here you will get nice suits and made better—will wear longer—and cost less than others ask for inferior kinds. Remember we have shoes that boys can't wear out. Now don't read this and say it's only an advertisement, but call and see if it is all true. It costs nothing to see our boys clothing and it will please us to show it even if you then decide to buy elsewhere. You are invited to call and see our spring line of boy's clothing before you buy.

A GREAT SALE.

W. M. LESSMANN SELLS THIRTY HEAD OF SHORT HORN CATTLE FOR \$3425.

Record Breaker- Age Considered.

Hundreds of people attend the Sale From the Surrounding Country, Neighboring Towns and other Parts of the State.

A record breaker in Nebraska, was the sale of Short Horn Cattle—age considered—held at Strahan & Warnock's barn in the city last Saturday afternoon, at which time Carey M. Jones of Dubuque, Iowa, sold for Wm. Lessman, one of the prosperous farmers living a few miles northeast of Wayne, thirty head of Short Horn Cattle for \$3,425. The sale was a most remarkable one and clearly demonstrates that it pays to raise thoroughbred cattle, when it is known that five of the animals were under one year of age and twelve under two years of age. The day was a beautiful one over head and for a long time so many people have not been seen on the streets of Wayne, in one day. The ten bulls and twenty heifers, were sold in less than two hours and the people seemed reluctant to leave the sale, those who had sold, provided for the occasion. That the sale was such a success was due to the untiring efforts of Mr. Lessman and his most generous and wise use of printers ink in its various ways. People from Randolph, Bloomfield, Norfolk, Wisner, Pender, Wisner, Wakefield, Hartington and many other places attended the sale, also a few persons from Iowa. E. Cunningham and Frank Crane were assistant auctioneers and H. S. Ringland, clerk. The following are the names of the cattle, purchasers and price paid: Princess, B. P. Peterson, Carroll, \$120.00; Princess 2nd, A. B. Clark, Wayne, \$90.00; Golden Maid, J. R. Melchert, Bloomfield, \$75.00; Rose Elmwood, Loyd W. Prouty, Randolph, \$105.00; Maud Jewell, B. P. RHEUMATISM

CURED AT LAST

Good News For all who Suffer with Rheumatism, Free.

To all who suffer with Rheumatism, I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on Rheumatism ever published.

No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformant, gelatic, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "sure cures" you have tried—I want you to write to me and let me tell you how my mother was cured.

I am neither a Doctor nor a Professor—simply a plain man of business—but I have a Cure for Rheumatism, and I want to tell everyone who suffers with Rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however apparently beyond the reach of cure, will write to me this week and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are weary and discouraged with "doctors" and to those who have been cast aside as "incurable." All you have thought about Rheumatism may be wrong. Let me tell you our experience. Surely, if you have Rheumatism, or have a suffering friend, it will pay you to investigate my offer, and prove yourself these claims I make.

Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with Rheumatism no matter where located send me their address and I will mail them a copy. My address is Victor Ratzmoltz, Bloomfield, Indiana.

"I Feel Like a Young Man Again."

Mr. J. W. Fuller.

A GREAT many remedies for catarrh have been devised from time to time, such as sprays, snuffs, creams and other local applications, but as a rule, the medical profession has little or no enthusiasm in the treatment of catarrh. It is generally pronounced by them to be incurable. It therefore created a great sensation in medical circles when Dr. Hartman announced that he had devised a compound which would cure catarrh permanently.

THE DAY OF THE PARTY

THE room was quite dark. There is never much light at 7 o'clock on a December morning, and the thick curtains shut out any faint streaks of dawn that might have been outside. But neither light nor darkness mattered to one of the occupants of the room. He sat up in bed; for one moment he rubbed his fingers in his sleepy eyes to make sure he was quite awake, and then he proceeded to arouse the other person in the room, who was still peacefully sleeping.

Perhaps if Violet Mitchell had realized how absolute was the poverty in which her marriage would plunge her she might have paused. But she never believed that her mother would really carry out the threat of considering her daughter dead on the day she changed faith in her husband's talents winking him a name and fortune.

When the old lady read this, she said, "Thank God!" and she kissed Philip again and again, and told him that she was his very own granny. She gave no explanation, nor did Philip demand them, for never had he imagined that a granny could be so beautiful.

What a morning of delight Philip had on that day of the party. He helped Martha to set the table for tea in the little dining room, for on this marvelous day mother and Phileas must dine in the kitchen. And in the drawing room was the Christmas tree, wonderful even now before the candles were lighted. He helped mother to stick the little labels on each present.

BUDS AND FLOWERS OF HOME LIFE.

Faine's Celery Compound Makes and Keeps the Children Well and Strong.

Mothers Make It the Home Medicine For the Little Ones.

The children, God bless them, are the buds and flowers of our homes. Without their bright, happy, and healthy faces, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In their time at school, the children have their times of ill health and suffering. They often have the pallid and bloodless cheeks, heavy eyes, nervous movements, and twitchings of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia, and indigestion. All such symptoms and ailments taken to the seeds of disease will have a fast and firm hold, unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy, and vigorous by giving them Faine's Celery Compound. In many cases, Faine's Celery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong, and rugged as they should be, try the health giving virtues of Faine's Celery Compound. It makes and keeps the children well.

It doesn't irritate the bowels, it doesn't weaken your system, it doesn't make you feel sick, it doesn't make you feel weak to digest what you eat. That's all indigestion is. NIEGENFIND CONFESSION.

A special to the dailies on March 5, from Lincoln gives the following account:

Gottlieb Niengenfind, it is excused under his present sentence, will be hanged from the same scaffold which has done so much service in Douglas county. Sheriff Power of Omaha, was in Lincoln today and made arrangements for the transfer of the property to the penitentiary. The scaffold is now stored in the Douglas county court-house and will not be delivered until the last minute before the time of execution, March 13.

It is possible and also probable that Niengenfind will be granted a stay of execution. While Governor Mikey will not admit that he intends to interfere, he will not say he does not intend to interfere. In view of the fact that a bill is now pending in the senate to abolish capital punishment and the fate of this bill cannot be decided by the time of the execution, it is thought that this fact may have some influence in getting for Niengenfind a respite.

Today Niengenfind made a statement to his spiritual adviser, Rev. George Allenbach, confessing his guilt. The statement is as follows:

"As I have been in prison several months, with no prospect but death before me, I have had both opportunity and cause quietly and amply to reflect on that deed which I committed on the 11th of September, and I now realize more fully than at that time I committed a fearful crime against both divine and human law.

For this I am heartily sorry, but I also believe that Jesus is my savior and that by His blood and death He has atoned for this, my fearful deed, as well as for my many sins. This is now my hope and strength, for I believe that for Christ's sake God has forgiven me.

To my Savior, however, I also owe, before I die, to make this confession before men, and that is the reason I write this now, and to make use of this opportunity to beg forgiveness of all those whom, by my fearful deed, I may have harmed or offended. May they forgive me as God has forgiven me and as they hope for forgiveness."

GOTTLIEB NIEGENFIND.

LATER:—Governor Mikey has endorsed death penalty and Niengenfind will die unless new evidence is found.

Postmaster Van Cott's telephone bell jangled the other day, and a man's voice at the other end of the wire complained to the Postmaster that a letter mailed the day before hadn't been delivered. It was sent from the lower Broadway and was addressed to a woman on the upper west side, the complainant said. He mentioned the place and the exact time of mailing but he wouldn't give his own or the address see's name or residence. He was a business man he said, and it wouldn't do. Besides, the lady wouldn't like it.

"Well, I'd like to help you," said Mr. Van Cott, "but I don't see how we can do anything unless we know the names."

"All right," replied the voice cheerfully, "Sorry to have troubled you." And Mr. Van Cott hung up the receiver with a remark to the effect that there seemed to be a few lunatics still doing business at the old stand.

Late the same afternoon the postmaster responded to another telephone call. The voice this time was a woman's. A letter had been lost and wouldn't the postmaster please find it for her? Then the voice mentioned the same time and place of mailing that the earlier complainant had.

"Certainly, madam," replied the postmaster in his sweetest tones. "If you will tell me your name I'll do my best to see that the letter is found, and sent to you."

The postmaster received a reply that almost caused him to drop the receiver.

"What's that? What's that?" he demanded.

"I said," repeated the voice with deliberation, "Go to hell!"—New York Sun.

Unlike many cough syrups, it contains no opium, but will soothe and heal any disease of the throat or lungs quicker than any other remedy. 85c. 50c and \$1.00 at Raymond's Drug Store.

Farmers in this district who have used the hand cream separator in their dairy have found it a money proposition for them to the Hanford-Hazelwood Cream Co. of Sioux City, and that they get more for their cream than they can make out of their butter, and those who are still churning their own cream say the quality of their butter is much improved. The United States Hand Cream Separator, the best machine on the market for clean skimming and durability, has done more to revolutionize the dairy business than any other piece of farm machinery introduced during the last few years. It saves time and labor and is a money maker for those who use it.

A Remarkable Case.
One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 122 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened me, cleared my lungs and restored me to my normal weight, health, and strength." L. P. Orth.

LINCOLN CORRESPONDENCE.

In case the session holds six days in the week from now on, the sixtieth day will come on the 30th of March. It has been usual, however, that the sessions hold more than sixty days, and the opinion is quite general that the end will not come before the 4th or 5th of April.

The agitation over the Omaha plan to tax terminals practically subsided last week when the House by a decisive vote indefinitely postponed H. R. 3301. There is some talk that a similar measure in the Senate will be revived, but the evident hopelessness of the movement will detract from its interest.

The appropriation bills have at last come into the House, and will be the subject of discussion in committee of the whole immediately after the disposal of the revenue bill. As usual the amounts asked for in the appropriation bill are very large, and will be trimmed down somewhat by the House. The disposition toward liberality will be more pronounced if adequate provision is made for raising the money to pay the bills.

A number of new bills have been introduced calling for amendments to the constitution, and it is possible that some of them may pass, and give the people another chance to vote upon them. Heretofore the troubles in elections has been that more than one-half of the voters neglected to vote on the amendments, and they have always failed to carry. A move will no doubt be made to have the propositions placed at the head of the ballots instead of at the bottom, as an experiment to see if the voters will not take more interest.

The revenue bill has been reported to the House by the standing committee with a number of amendments, the most important of which is the change in the time of the assessment from the 1st of February back to the present date. There is some disposition, however, to compromise on March 1st. The bill has been printed and placed in general circulation, and an agreement has been reached to hold night sessions in the House until it is disposed of. In the meantime the same bill has been introduced in the senate and will be held in abeyance pending action in the House.

On Friday a decided flurry was caused by the report handed to the Senate by the committee on accounts and expenditures, severely criticizing the secretary of state because of the purchase of legislative supplies without authority, and the including of carpets, furniture, and a number of other items not ordered or used by the legislature. The bills in the hands of the committee show many overcharges and other discrepancies, and reflect much discredit on one of the employees, and declined to audit and pay the bills, and a full investigation is to be made. In taking hold of the matter in a fearless manner the legislature is showing a strong contrast to the fusionists when they were in power and when they condoned rather than criticized the illegal or dishonest acts of their officials. It is quite probable that this session will pass a law which will prevent extravagant speculation in public funds in this manner in the future.

TOPS THE MARKET.

A market topping bunch of heavy steers owned by Henry Kloppling, a prominent feeder of Wayne, was sold here for \$5.15, the best price of the day. These steers were bought last August \$2.85 per cwt. and weighed 542 pounds. They were put on a new corn feed September 22nd last, and weighed today a fraction over 1,445 pounds. Mr. Kloppling says cattle feeding has been heavy in his locality this winter, but the bulk of the stuff has been shipped out. There will be but little summer feeding done, most of the cattle now in feed lots throughout the country will be marketed in about sixty days. "We have had a hard winter" says Mr. Kloppling "with plenty of rough weather, which has been a little hard on stock. Winter wheat which was put in for the first time a year ago last fall does very well. Barley raising is fast becoming a leading industry in Wayne county, farmers finding that the grain grows very well and is very profitable article to raise. He is of the opinion that a large acreage of this grain will be sown this spring.—South Omaha Daily Driver Journal. A picture of this fine bunch of cattle was taken directly after the sale.
