The tents were burned and many negroes were shot, but so far as known none were killed. Hundreds of shots were exchanged, but no whites were hurt.

Branson Davis lives one-half mile east of Santa Fe, a small village near here. While his 10-year-old daughter was in the barnyard Sunday the negro accosted her. She ran, but he seized her, and her screams brought her mother to the rescue. The negro fled. Officers were notified and were soon in pursuit. POWERS TO PROTEST.

Russia and the "Open Door" in Manchuria.

A London special says: The Associated Press has learned that there is in contemplation a forcible joint protest on the part of Great Britain, the United States and Japan against the Russian demands in the matter of the sovereignty of Manchuria.

The Associated Press is authorized by the foreign office to state that if the Chinese correctly represent Russia's claims, these claims constitute an absolute breach of all understandings given in connection with Manchuria, and utterly abrogate the principles of the "open door" territorial division and international community to which the British government constantly and publicly has committed itself. It is added that in these principles Great Britain has always acted with the United States, and it is presumed that similar feelings exist in Washington. Nothing, however, is definitely known, as with the exception of the British minister to China no British ambassador has yet reported.

It is pointed out that Russia's explanation may throw a different light on her demands, although in official circles there is a frank expression of the belief that Russia has no intention of evacuating Manchuria, and that she hopes, after demanding the maximum, to secure a compromise. The foreign office has heard nothing confirming the reported dispatch of Japanese warships to New Chwang. It received no information Friday regarding initiative steps on the part of Japan, actual or in contemplation, although no doubt was expressed that Japan would join in the protest.

NEBRASKA HERALD

PUBLISHED EVERY THURSDAY.

Perhaps it's the result of spots in the sun.

Just think what President Roosevelt missed, in Nebraska.

Nebraska still continues to make new records. Stand up for Nebraska!

That an election is pending in Omaha there is not the least shadow of a doubt, and from a distance the appearances point to the reelection of Frank E. Moores.

Congressman McCarthy didn't forget his visit to Altona last fall and as a result the Altona post office will continue to do business at the old stand. The HERALD desires to congratulate Brother Panning.

The government is making a test of the new method of collecting letters by means of street railway cars, while they are in motion. Now if some plan can be devised whereby letters can be composed and written without the aid of a "typewriter," the minds of many people will be relieved of much worry.

You can bet your last dollar that Grover Cleveland is a candidate for president. He does not devote his time to berating Bryan on the Bryan plan, but he will take care of Wm. Jennings, just the same. In the meantime, a large majority of the people will keep in mind America's strenuous president, Theodore Roosevelt.

The York Times says: "The man who was a republican and turned populist and then turned democrat, has no edge over the one who turned populist and then turned back to the republican party. One has made just as many changes as the other. Of course people will have their own opinion as to which shows the most honesty and good sense."

David B. Henderson, former speaker of the national house of representatives, says: "President Roosevelt will be nominated, in my opinion, by the next republican convention, and he will be elected by the American people in the same spirit of enthusiasm displayed when he made his famous charge up San Juan hill. That he will be renominated goes without saying, and he will have no opposition. No other name will go before convention. His election will, I believe, be followed by the largest majority ever given to any candidate."

Mr. Henderson is at present visiting a son who resides at Laque Beach, and will probably remain in southern California until June 25, when he will leave for New York.

Reciprocity in competing products is an unholy scheme which no loyal Protectionist will advocate. It is the most dangerous of all tariff tinkering, not only to the prosperity of the country and the maintenance of the Protective system, but to the continued supremacy of the Republican party. Its adoption will not merely scare wobbly voters. It is liable to drive into opposition some of the most stalwart of Protectionists. A good Protectionist may stay with his party if it scales down Protection with and even hand all around, even if he disapproves the policy. But a Protectionist who finds himself betrayed in the house of his supposed friends, who finds his interests deliberately sacrificed in order to bolster up those with more influence at Washington, will be changed into a relentless foe of the party which is guilty of such infamy. From no class will democrats, under their proposed programme, draw so abundantly as from former Republicans who have been sold out by their party. From no class will there come such fierce denunciation of Republican leadership. From no class will opposition be so effective.—San Francisco "Chronicle"

It is to be hoped that Governor Cummins of Iowa is entirely satisfied. He is one of the chief exponents among Republicans of tariff revision. There are a few persons out his way who believe in tearing things up and who are followers of what has come to be known as the "Iowa idea." They have been received with open arms by Bro. Bryan.

"Let us encourage Governor Cummins," said Mr. Bryan at a Jeffersonian banquet in Des Moines on Thursday night. (Fanny Bryan looking to Jefferson for comfort!) "Let us encourage him for every word that he speaks in favor of tariff reform or anti-trust legislation will have an educational influence."

While Bryan was speaking in Iowa Senator Lodge and Secretary Root were making addresses in Boston and taking the ground that Protection had made the country great, and that to abandon it or to permit it to be ripped up by "tariff revisionists" would result in a general upheaval of business. Governor Cummins found no endorsement for his course among these Republican thinkers, but from Mr. Bryan he received praise. From which it would appear that the "Iowa idea" is exceedingly comforting to the Democrats.

Praise from Bryan! Certainly Governor Cummins ought to be ready to retire on his laurels now.—Philadelphia "Inquirer."

President Roosevelt's visit to Nebraska brought forth a royal welcome from the people of the great commonwealth in every town through which he passed while the hearts of the people all over the state were with the chief executive of the nation. Nebraska is a Roosevelt state.

Congressman J. J. McCarthy has selected E. D. Foles, present county judge of Dixon County, as his private secretary. The Judge merits the position, and is in every way qualified to fill the duties imposed upon him. The selection is a most commendable one.

Mr. Bryan made a speech at Kansas City yesterday in which he warned Democrats against making their party too much like the Republican party. This idea that the Democratic organization is in danger of becoming a Republican annex would be more plausible if the Democratic party, as a party, had not shown such a powerful tendency to get on the wrong side of public questions and to represent obstruction instead of progress. The Republican door swings open to individual Democrats who enjoy prosperity and national advancement; but if the Democratic party wants to come in as a whole—well, that needs careful thought.

The excellent showing made by the banks of Nebraska, as given in The Star Tuesday, is one of which all Nebraska is proud. The banks, although they are abused by a class of politicians when the game of politics is being played, are the pulse of business and show just what measure of prosperity the people are enjoying. Nebraska has money on deposit and it has money to lend. The farmers are even buying mortgages. Let the east, which pined this section of the country a few years ago, take note of this. Let the eastern newspapers give the same publicity to the fact that we lend money to Massachusetts and buy New England bonds, that they give to the time of depression, when every thing looked dark for the state and the sun refused to shine upon Nebraska's business affairs.—Lincoln Star.

### THE ARABS OF YEMEN.

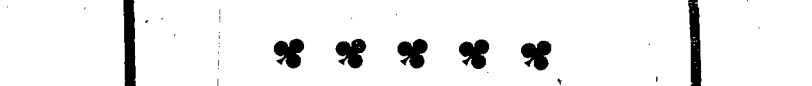

A Story Which Throws a Strong Light on Their Character. The Times of India tells the following story to show the character of the Arabs of Yemen. A man of Zaranik who several times cut the telegraph lines and who was punished more than once was caught on one occasion by an Arab sheik in charge of the lines. The sheik intended to send him to Mecca for imprisonment, but the wife of the accused came in and stood as a guarantee for his future good behavior. The sheik accepted the bail and released him, but shortly afterward he again resorted to his old practice of cutting the wires and bolted away to another village at a distance of a day's march, where he had another wife. The sheik then sent for his first wife, who stood surety for him, and told her he would disgrace her among the Arabs if she failed to bring in her husband.

The woman asked the sheik not to "spread the black sheet" (a custom of the country when any one commits a breach of trust) until the following day. She started that night, taking a sharp dagger concealed under her clothes, to the village where her husband was staying. She found him asleep in his abode and stabbed him cut his throat and carried his head back to her home. The next morning she went to the sheik and presented the head of her husband, saying: "Here is your criminal, and I am freed from the bail. Please do not affix the black sheet."—London Telegraph.

### Robbed The Grave.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at L. P. Orth's drug store.

SLEET AND SNOW PLAYS HAVOC WITH FRUIT AND VEGETABLES.

Trees Badly Damaged and Electric Light and Telephone Wires Down Everywhere.

The worst sleet and rain storm that ever visited this country at this time of the year, occurred Tuesday night. Rain, accompanied by sleet fell nearly all night and in the morning the sidewalks were strewn with limbs of trees, while fruit was damaged beyond recovery. Garden truck of all kinds was almost destroyed and telephone and electric light wires were down in different parts of the city. In addition to the vast damage resulting from the storm, farming is greatly delayed and farmers will have their hands full to accomplish the work before them in getting in the corn.

At the time of going to press it appears that the damage to fruit and garden truck will be light.

### REV. A. J. GRAY.

Rev. Albert Lee Gray, late pastor of the M. E. Church at Bloomfield Nebr., died at Sulphur Springs Arkansas, April 23rd 1903, was buried at Craig, Nebr. on Monday April 27.

The Rev. Mr. Gray, was born in Virginia, August 21st. 1869, came west when quiet young, entered the ministry in 1893. Served Herman, Craig, South West Omaha, Deatur, Lyons, and Bloomfield churches. He was a good preacher, endowed with excellent social qualities and great earnestness, many were added to the church under his ministrations. His last sermon was preached on Easter Sunday. His health was so poor that his friends tried to dissuade him, but he said he desired to preach to his people that once more, that he might tell them of his own "hope of the resurrection." The Masonic Fraternity of which he was a member, raised a purse of \$150, with which to send him and his wife to Sulphur Springs Arkansas, in hope that he might be benefitted by the change, but alas, the effort was in vain, he leaves a wife and five small children.

Funeral services were held at Craig, Nebr., where he had served as pastor several years ago. The services were presided over by Rev. W. L. Elliott, the pastor. The sermon was preached by Dr. F. M. Sisson, his Presiding Elder, there were fourteen preachers present, several took some part in the services. Six of them acted as pallbearers from the house to the church, after which six members of the A. F. and A. M. lodge acted from the church to the cemetery. The Masonic burial service was rendered at the grave, after which the committal of the church was read. One brother of the deceased and the relatives of his wife were present. The bereaved have the sympathy of many friends.

# BY DAD CRAZY!!

Owing to the rush of business last week we failed to write our usual advertisement for the papers and asked Bro. Goldie to help us out once—by writing it for us—and Goldie, thinking from the amount of goods sold since our Opening, that we were all sold out, mentioned same in his write-up. Many Thanks, Mr. Goldie. That was one of the best ads we ever had, you are not as crazy as we thought you were, for never before have we sold as many goods in the same length of time, and you ought to have seen the rush to get a hat before all were gone. Wright another one "Goldie" if it will always work that way.

## NEVERTHELESS, LADIES Our Stock Is Fuller Than Ever.

Owing to the arrival of goods on every train, and our Trimmer is rapidly transposing them into most beautiful designs.

Come in at any time we are always ready to take your order. Again thanking Mr. Goldie for his timely assistance last week during a rush, we are,

Yours for business,

Many persons (perhaps you) have a mistaken idea in regard to spectacle lenses. They think their only help is to increase the visual power. This is true when you buy merchandise, but when you come to me it is a far different proposition. I correct the refractive trouble, which stops the tears and saves the nerve forces and they are allowed to go into their proper channels. Refractive troubles of the eye is the primary cause of a large per cent of headaches, nervousness, red, inflamed eyes, itching, burning lids, spots floating before vision, abnormal growths called Pterygiums, loss of memory, inability to see distant objects distinctly, pains running from base of brain down spinal column, convulsions which precede menstrual period, adheasions of lids to the eyeballs, stomach trouble called Dyspepsia.

**1,872 Patients Last Year,** hundreds of which have been relieved of these troubles and whose testimonials I have similar to letters below:

Alexandria, S. D., March, 20, 1903.  
Dr. J. C. Clark,

Sioux City, Iowa.

Dear Sir: Last June when we sent our daughter to Sioux City to consult you, we were discouraged in regard to her health, she had never matured as a girl of her age should and was weak and nervous, suffering continually from headache, stomach trouble and in fact was an invalid the whole time. She was unable to attend school and was very despondent. From the very first day she began to wear the glasses you made for her she began to get better, and is now in perfect health, attending school and doing nicely. She has not taken a drop of medicine since treating with you and has followed your instructions. You can use this letter if you wish.

Yours truly,  
MRS. J. C. MCCORMICK.

A letter from the young lady says: "I am perfectly well now, I am going to school and getting along fine. I stand the highest in my class, and I owe it all to you and the glasses and I can never thank you enough for what you have done for me."

MISS JOSIE MCCORMICK.

Are you one of those who have been doped for months, perhaps years, for such trouble? Do not be too certain that it does not come from your eyes. Come to me, an eye specialist of twenty years practice, and let me make an examination, which will cost you nothing and perhaps save you health and happiness.

I use no drugs, my methods are original, and no other person understands them. If I cannot help you I frankly tell you so.

This young lady was 17 years old and looked like an unhealthy child of 12 in size, and in her face she looked to be very aged. The exhaustion of nerve force caused by eye strain took all her vitality, and left nothing for maturing of body or mind.

Mr. W. F. Preaser, manager and book-keeper for lumber company, Bancroft, Neb., says: "During the past fourteen years I have been suffering from depressive, burdensome headache. At times my mind would refuse to act and I have left my office and gone home nearly deranged. All without benefit. From the first wearing the glasses you provided me with, I began to feel better; my mind is perfectly clear now, and my headaches are all gone, and I feel like a new person."

Mrs. August Shipman, 511 West 8th St., says: "I am pleased to tell of the great benefit received from my treatment with Dr. J. G. Clark. I was in such a nervous condition that I became fearful of losing my mind. I had such pains in my head running clear down through my spine and I could not do my work and look after my family. I had taken medicine and tried everything that was recommended and was growing worse continually until I went to Dr. Clark, and he said my whole trouble came from my eyes and that glasses perfectly fitted would remove the cause. I engaged Dr. Clark to take my case and, as soon as I put the glasses on I began to get better. I stopped taking medicine at once and I am happy to state that now I am in good health and have none of my former troubles."
