Because we overeat of them. Indigestion follows. But there's a way to escape such consequences. A dose of a good digestant like Kodol will relieve you at once. Your stomach is simply too weak to digest what you eat. That's all indigestion is. Kodol digests the food without the stomach's aid. Thus the stomach rests while the body is strengthened by wholesome food. Dieting is unnecessary. Kodol digests any kind of good food. Strengthens and invigorates.

Shamrock! Can it be that it's a loodoo?

Columbus may be Bryan's mascot but 10 to 1 will undo it.

The state populist conventions are few and far between, but that is nothing strange.

At Denver, Wm. V. Allen, was pretty near the whole thing, but not so at Grand Island.

The currency question is not bothering the people much these days, except perhaps, to get possession of the stuff.

At the finish the corn crop is pulling ahead in fine shape. The August showers have been equivalent to a system of irrigation.

John H. Clark of Ohio, will try conclusions with Senator Hanna for the senatorship, but the people of the Buckeye state will choose to let well enough alone.

People have sympathy and admiration for Sir Thomas Lipton, but not to the extent that they would turn the races over to him. In this, is a lesson for republican voters of Wayne county.

Bryanocracy won in Nebraska and Ohio at the recent populist and democratic conventions and there is war on in the camp. It will be so easy for republicans next year.

Every republican nominee on the county ticket, is a person, whom any individual can heartily support. All of them are competent and thoroughly reliable. This being true, what is the duty of every republican.

Who cares, let the fight begin. It is a republican year and no republican should prove treacherous to his party. Stay by your principles and your candidates and there will be but one result; all of the nominees will be elected.

Tom Johnson will have three sets of enemies in the coming canvass—the John R. McLean men, the Zimmermannites and the Republican party. If Tom gets within 60,000 to 70,000 of winning he will be more surprised than either Herriot, Hanna or any other person in Ohio.

Galib Powers, Ex-Secretary of state of Kentucky, has been sentenced to 10 years, having been found guilty as charged, with conspiracy to murder Governor William Goebel in 1900. The case was tried at Georgetown and the verdict was rendered by the jury, Saturday.

As an example of how prejudice warps the judgment it may be cited that the democrats in convention assembled at Columbus really seemed to believe what they said when they declared the Republican party is galling the backs of the plain people and sending the country to the devil.—Fremont Tribune

W. O. Maglessen, Vice U. S. Consul at Beirut, Syria, was assassinated while riding in a carriage Wednesday, Aug. 20. The American minister was called the following day instructing him to demand the immediate arrest and punishment of the person, guilty of the crime. Later news show that the reported assassination was a mistake.

According to Corp. Tanner, all that the Democratic party will nominate a ticket for in 1901 is to keep up its organization. It looks that way. No Democrat of any sense believes that his party will win next year, but many Democrats look for their party to win some time. It is necessary for the party to keep its machinery in action all the time, however dark may be the immediate outlook. It would seem, however, that Democrats who expect to have a future should take care to keep their names out of the convention of 1901.

The big railroad earnings are among the things that steady the stock market. Notwithstanding the recent flurry on Wall street, which has sent all shares, good and bad, down, the railroads of the country keep on increasing their income over a year ago and all former years. As the crop outlook, on the whole, is reasonably good, the earnings of the roads are sure to keep at a high figure for the next eight or ten months at least. An advance in stocks at an early day would seem to be inevitable. But whether the stock advance comes soon or late, the business situation is likely to remain safe. A heavy fall and winter trade is tolerably certain.

Chas. Beebe, the republican nominee for county clerk, is a man with a family. He is building a home in the city and expects to remain here, having property interests. He is a gentleman qualified in every way to fill the office with pronounced credit to the people of the county, irrespective of party. He merits every republican vote in Wayne county and no sympathy dodge should be taken into consideration to deprive him of that which is due any honorable and just man. He is as clean and as upright as any man that ever sought the suffrage of the voters. When approached by the oligarchs of a lost cause republicans should remember this.

When good republicans are nominated for office all other good republicans ought to stand by them. There is certainly no excuse for refusing to support your party nominees except for gross and manifest incompetence, and in such cases one should be very careful to not be influenced by personal bias. Even his own opinion should not control against the endorsement of the party unless he has some means of knowing that the general public is not in possession of. There are always things said that are without foundation and large bugaboos often stand on very small foundations. It always excites disgust to hear a man criticize the nominees of his party and giving reasons why he should not support them. This is taken from the New York Times on general principles and not because there is anything of the kind in Wayne county at the present time, nor in the state. So far as we have heard there is general approval of the entire ticket and confidence that it will be elected.

Judge Barnes was called to the rostrum, after he has made the unanimous choice of the republican state convention for supreme judge, and in his speech accepting the office in part he said: "I am neither under any obligations to, nor am I interested in any corporation, either public or private. I am not connected with any public or private enterprise which could tend in any manner to influence my views, bias my judgement, or affect my decisions; and I promise you that, with all of my mind, heart and strength, I will endeavor to so discharge my duties as to bring no reproach on you as a party, or myself as an individual. I believe that a public officer who best serves all the people serves his party best, and I know you will all join with me in this sentiment."

The state board of education, in session at Lincoln on Tuesday, selected Kearney as the location for the new state Normal school for which the legislature appropriated \$50,000 last winter. There were fifteen cities after the school, all of them receiving votes, but on the 11 ballot Kearney received 4 votes, Broken Bow 2, and Ord 1.

Judge Sullivan bespoke at the Columbus convention fair treatment of his competitor for supreme judge, giving assurance that he had found Judge Barnes to be an able and honorable lawyer. But no one supposes that this will deter the overzealous faction organs from indulging their customary campaign of mudslinging and blackwashing.—Omaha Bee.

The fine weather and forty cent corn makes the farmer's corn field look like forty cents—per bushel, perhaps. Only one son of a gun can knock the business and that's old Jack Frost. During the interval however, the board of trade traffickers are playing with fortune.

At the present rate it will not be long till we shall have enough islands to get along with pretty comfortably. But as long as the supply keeps up we may as well keep taking them in. No well regulated nation should be without islands, even if it has to be one.

Sioux City has gotten down to business again and according to reports is giving a first class entertainment at the Inter-State Fair. This is no doubt due to the fact that the Wayne Corn Palace band is being re-organized.

Prof. Otto Voget was in town over Sunday having just returned from Germany. He left for Wayne Tuesday accompanied by his aunt, Mrs. Wm. Soenneken, who has been visiting here for the past month.

Although the death of Allice Macanley Christensen had been hourly expected, yet the news of her death to the neighbors and friends on Tuesday of this week, was quite a shock. Mrs. Christensen was a victim of the dread disease, consumption, and for a year or more past has lived in Denver, Colo., hoping to regain her health, but not seeming to recover, her sister, Mrs. A. A. Bell, went to Denver in February and brought her to Mrs. Bell's home near Hoskins where she seemed for a while to rally, but with the coming of the warm summer days she seemed to rapidly fall. Her husband who was in New Mexico had been sent for and the hourly expectation of seeing him kept up her strength until his arrival only ten minutes before her sweet spirit passed into the spirit world. The funeral was at the home of Mrs. A. A. Bell Wednesday and the interment will be at her old home in Le-mont, Ill. Mrs. Christensen was possessed with a happy christian disposition and was prepared for death, making the remark only a few days before that she only dreaded the "one step" into eternity.

It hardly seems the proper thing to call into question the statement of so distinguished a person as the Governor of an important London bank, but we are forced to observe that Mr. Schuster's assertion is in the highest degree improbable. It is inconceivable that the late Mr. McKinley should have used the expression, "My tariff bill has done its work," at the time mentioned, for in 1901 the McKinley bill was a memory of the past, and the good it had accomplished more than a decade earlier had been in a measure counteracted by the retroactive Gorman-Wilson bill. When Mr. Schuster had the honor of talking to the late President McKinley the Dingley act was in force, and he would not have committed the unpardonable act of assuming that its accomplishments reflected credit upon himself. As a matter of fact Mr. McKinley always expressed himself with great modesty in discussing his own work, and was never guilty of bragging.

But the main thing in Mr. Schuster's statement is the opinion he attributes to the late President that our tariff was the best. That we shall also take the liberty of discrediting, because it is at variance with Mr. McKinley's repeatedly expressed view that so long as the tariff performed the work it was put out for—that is, of promoting domestic production, and conferred a national benefit. No Protectionist was more firmly convinced than Mr. McKinley that the chief function of the policy was to preserve the

home market for the domestic producer. He was strongly opposed to any relaxation of the tariff laws which would permit foreigners to successfully compete in American markets. In short, he planted himself squarely on the proposition that the world would be better off if external trade was limited to an exchange of non-competing products. He believed that there would be room for a great development of foreign commerce along these lines, yet he took no stock in the Free Trade idea that a people can be benefited by giving a chance to foreigners to undersell them in their home market.—San Francisco "Chronicle."

He was taken to Dr. Williams office where the fractured bones were reduced and though seriously injured, had so far recovered by Wednesday morning as to make his ultimate recovery certain.

An exchange says we are all poor writers. Not long ago a prominent merchant in a neighboring town received a letter from a large distilling firm asking for a list of names of citizens who might be interested in the literature issued by the firm setting forth the merits of a new brand of whisky and promising him a commission on sales. The merchant being somewhat of a jester himself, sat down and made out a list of the prominent prohibitionists of the place and forwarded it. He forgot all about the matter until about a month later, when it was called to his attention by a letter from the distillers enclosing a draft of \$16.50 with thanks for list which had been found peculiarly remunerative.

Children often cry, not from pain, but from hunger, although fed abundantly. The satire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at Raymond's Drug Store.

Young man did you ever put your arms around your dear old mother who has loved and cared for you and tell you love her and are grateful for the tears she has shed and the prayers she has offered for you? She may think that you love her without you assuring her that you do, but it costs you but little effort to tell her and your words may bring more joy and sunshine to her heart than you ever dreamed of. Some young men will pay two dollars for a livery rig to ride three hours with a seventy-five cent girl and tell her all the nice things they can think of that are true, and more than are not true, and don't spend five cents or five minutes a year to show their old mother that they care anything for her.

BUL IS NOT DEAD.

REPORTED MURDER OF AMERICAN OFFICIAL UNTRUE.

When was fired upon, but not killed. The assassin is being sought.

Turkey's Guarantees for Safety of United States Citizens.

The United States Vice Consul William G. Brown was not assassinated at Beirut, as first reported. An attempt was made, but the bullets fired by his unknown assailant did not touch him.

The official dispatches from Beirut which reported that the assassin had been captured, were not the work of the Turkish government, but a fabrication of the British press.

Minister Leishman... The United States Minister Leishman is expected to proceed with one or more of his vessels to Beirut in reporting the incident to the minister.

THE STRIKE AT BEIRUT CONTINUES.

The British consuls located at Beirut have reported to their government that the situation at that place had become exceedingly unsafe, that the situation of affairs had existed for some time, and that something ought to be done to relieve the tension.

The opinion was expressed that the attempted assassination of Magelsen probably would bring matters to a focus, the attention of the Turkish government being drawn to the matter in this forcible way, and some effort thus being made to avoid further trouble.

The latest development in the Turkish situation was discussed in official circles, where the view is held that the denial of the report of the killing of Mr. Magelsen would be a mistake of the gravest order, but will not prevent our naval vessels continuing to the East.

Minister Leishman in one of his dispatches to the department suggested that conditions were such that it might be well to have some American naval detachments sent to the government from the minister's interests of the threatened destruction of their property at Harport.

The action of Acting Secretary Darling in ordering the Brooklyn and San Francisco to proceed to Beirut without waiting for the Machina meets with the hearty approval of the State Department.

There are at the Euphrates colleges at Harport, fourteen American teachers, besides a number of American students.

Minister Leishman, in his cablegram to the State Department, confirms the press dispatches regarding the news of the dynamiting of a train fifty miles outside of Constantinople, stating that many of the passengers were killed.

FIRST WHITE MALE BORN IN CHICAGO.

Alexander Beaubien of Chicago, believed to be the oldest policeman in the world, has been retired from active duty, ending a service extending over a period of fifty years.

The worst rain of the season fell at West Burlington, Iowa, on Wednesday morning. The whole country is flooded and streams are out of their banks.

Heavy rain in the west, particularly in the region of the Great Northern, has caused a great deal of damage to streets, street car lines and wires.

The investigation of affairs in Indian Territory ordered by Secretary Hitchcock naturally excites public curiosity regarding the nature of the charges against government officials which were filed some time ago.

WARM WEATHER HELPS CROPS.

Corn Crops Fast Everywhere, but Rain is Now Needed in Places.

The weather bureau's weekly summary of crop conditions is as follows:

Portions of the south Atlantic States experienced heavy rains, while the Ohio valley, the greater part of Texas and the Rocky Mountain and Pacific coast districts are suffering from drought.

On the whole the corn crop has made favorable progress, especially over the central and western portions of the corn belt, the most decided advance being reported from Nebraska and Kansas.

Considerable spring wheat remains to be cut in North Dakota, but harvesting is practically finished elsewhere in the spring wheat region, and thrashing is in progress.

PAPERS BY THE PEOPLE

RECKONING TIME IN MILLIONS OF YEARS.

The geologists and physicists do not deal with time in the everyday sense. Their current coin is not centuries but epochs, and they draw on the bank of time not for thousands but for millions of years.

The geological time sheet has to be compiled differently. Indeed, from the chronologies of man. If we reckon historical events we estimate the lapse of time which has occurred since their happenings in years.

When we pass backwards in time to the fossils which form the record of the rocks, there have to be the problems of relative chronology. The geologist can only determine the age of a rock or other object of his study by comparing it with some other formation.

All through these considerations, it will be noted, there is no mention of years. Unless we could be sure of the periods required for rock formation, it would be impossible to say in years or historically how many ages have elapsed since the coal was formed.

The resignation of Secretary of War Elihu Root will go into effect about Jan. 1, and Judge William H. Taft, the present Governor of the Philippines, will succeed him as Secretary of War.

Gov. William Howard Taft, who will succeed Elihu Root as Secretary of War, presented his resignation formally to the President and it was accepted by the President with the understanding that Mr. Root would continue as Secretary of War at least until Jan. 1.

According to a Sofia telegram the Turkish repressive measures in Macedonia have reached the utmost limits. It is evident that it is the intention to accomplish by degrees the total extermination of the Bulgarian population.

Within the last few days, says a correspondent, twelve more Christian villages have been handed over to fire and sword and the women, children and the aged have been massacred indiscriminately.

THE COMMON SENSE OF RULES FOR DRESS.

One of the most striking examples of the meaning of clothes is shown in the institution of evening dress, which some hasty people despise as a mere ridiculous and hollow formalism.

THE STREET CAR SLAUGHTER.

Over 1,200 Chicagoans Hurt in Seven Months and 54 Killed.

In Chicago the slaughter of innocents by trolley and cable cars continues, the police department records showing an alarming increase in accidents this year.

The increase is attributed by Chief of Police O'Neil to the recklessness of motorists, the lack of cars and consequent overcrowding.

Of the 47 deaths from street car accidents of all kinds for the first months of this year 41 were males and 6 females.

NEW THEORY IN SCIENCE.

Dr. Wallace, Noted Naturalist, Advances a Stunning Idea.

Dr. Alfred Russell Wallace, the noted English scientist, who recently celebrated his 80th birthday, put forth a new idea on that occasion which surprised the scientific world almost as greatly as the tremendous theory of natural selection—the Darwinian theory—which Dr. Wallace and Charles Darwin discovered independently of each other half a century ago.

The famous old scientist's new theory is that the earth is exactly at the center of the universe, and that the whole scheme of creation was evidently planned for the purpose of producing man.

Dr. Wallace, who is now, at the age of 80, setting forth on one of the greatest scientific battles of his life, has always been a tremendous worker.

THEY COME FOR HUNDREDS OF MILES TO SEE HER.
 Nothing So Wonderful in the Days of Specialism.
DR. CALDWELL.
 The success of Dr. Caldwell is attributed to her special study of specialism. Dr. Caldwell, student, phisiatrist and physician of wide reputation, having given up the time and practice to a line of special diseases, which enables her from long experience in handling these diseases, to not extend her forward as a master specialist. Her faculty for mastering disease, her ability to diagnose, and her plan of treatment is not equalled by few physicians. Dr. Caldwell, although a young woman in life, a plain woman, and one who is used to the ups and downs of life, puts herself on a level with her patients and does not profess or pretend to practice the old plan of medicine, which is to look wise and say nothing. She knows disease; she knows how to explain the symptoms of disease, and she knows just what to do. Dr. Caldwell's friends that she can diagnose a disease of any patient without asking them a single question, that being the case, she is not a doctor for the wrong ailments; she will not take incurable disease and lead the patient to believe that she can cure them when there is really no hope for them. Her business is large and she has plenty of work, even at times, that she can do, without taking incurable disease and deceiving her patients. Dr. Caldwell is a graduate from one of the best schools in America. She has practiced her profession in some of the principal hospitals in this country. Her specialism comprises that class of diseases which the ordinary home doctor fails to cure, such as female troubles and nervous weakness, children and the many special diseases of hidden nature. Her practice is mostly among the plain, hard-working people, who are unable to come to her in the city office for treatment; it is the fortunate one that has the opportunity with these who are not able to pay. She is charitable, and it is said has never published, which has led to the interest of some who wish to know more of Dr. Caldwell's great work.
 Mrs. Lena Stowley, David City, Neb., cured of female trouble and nervous weakness.

 The best time in the world to overhaul a binder is just after the harvest has been finished. It is then when the owner is acquainted with all the defects and needed repairs can better be made than to wait until just before harvest next year. I usually make the repairs, then or make a memorandum of what is needed and place it in tool box for reference later.—Homestead.

The grand officers of the Sons of Herman held a farewell meeting in Norfolk last Saturday evening in honor of Daniel J. Koenigstein, former grand trustee, who left for Los Angeles the Monday following. President Volpp of this city presided and other prominent members of the order were present from over the state. Mr. Koenigstein has been grand trustee since the organization of the order six years ago during which time thirty-seven lodges of the order have been organized. August Brummund of Norfolk, was elected to fill the vacancy. A banquet followed the executive session and the event was most pleasant for the visitors.
 August Burg, the Swedish stonemason, who so suddenly and mysteriously disappeared from Norfolk Saturday night and for whom both the police force and a posse of his friends kept up a constant search during many hours, has been located. He was seen Tuesday morning by a Norfolk man, at Winslow, Neb., standing on the platform of the railroad station and gazing off in an abstracted manner into the distance. He bought a ticket for Sioux City and has probably gone into Iowa. It is thought that he is insane and that he merely wandered out into the country aimlessly and without a definite end in view. H. Kauffmann, a Norfolk man who works near Winslow and who was a fellow laborer of Burg's for several weeks this summer, recognized the man, but knew of no search that was being made for him and therefore did not speak to him. Burg had several hundred dollars in his pockets when last seen here and the foul play theory was the only way of accounting for his disappearance. Burg would have received \$50 more in wages on Wednesday. He has a wife in Sweden and is 49 years old.

OBITUARY.
 Mrs. Thos. Marrell, born May 1, 1852, died Aug. 23, 1908, aged 51 years. Mrs. Marrell's native state was Ohio, when a child of 6, her people emigrated to Harrison county, Iowa. At the age of 10, November 10, 1868, she was married to Thos. Marrell. For a number of years she had not been in robust health. The last two years her mind became sorely afflicted and it was found necessary to place her in the State Hospital for treatment. There she passed away as the day was waning. Besides a host of friends, she leaves behind a sorrowing husband and five children. She had been an earnest member of the Baptist church for many years.

Out of sixteen applicants for the place the winner K. of P. band was chosen for the regiment band for the First Regiment Nebraska National Guard. The organization was mustered in last week, Monday, and attended the week's encampment at York. The band is all O. K. and its instructor, Prof. Hugh, Hampton, merits the good luck he has brought the band.
 The following appeared in Saturday's Sioux City Journal: J. W. Mason of Laurel, Neb., who has made cattle feeding a careful study all his life, brought in the load which sold at the top figure. He has lately taken his son, Leland Mason, into partnership. The Masons have original ideas about feeding and finishing stock, and their cattle show proper handling. A meeting was held here last week, at which time President Stevenson conferred with T. J. Steele, offering him \$1,000 and 8 per cent interest for a ninety-day extension of time. The offer was refused, Mr. Steele saying he would demand the payment of his note when it became due.

You never heard of a wild animal that had rheumatism until it reached captivity and was kept off the earth. You never heard of a horse that had rheumatism until it was shod with iron and kept off the earth. You never heard of a dog that had rheumatism until it became a household pet and pampered—kept off the earth. The heathen of Africa and the Pacific island never had rheumatism, so far as we know, until they got to wearing sandals or shoes. I once knew a fool man who, whenever he got sick, would dig a trench in his garden, lie down in it and have his wife cover him with fresh earth as far up as his ohits. He would remain there for an hour or two then get up in fine spirits. Mother earth! The contact! It looked like the resurrection—and it was.
 Mollie I. Grant is the plaintiff in a suit for \$10,000 damage just filed in district court, seeking judgment against Virginia A. Chittenden for alienation of the affections of the plaintiff's husband, James A. Grant. The petition recites that the Grants were married at Kansas City in 1896. Everything went well until March 20, of this year, when it is alleged, that Miss Chittenden succeeded in inducing the faithless husband to devote the whole of his time and society to her, and that he deserted his wife. Specific charges are made as to the relations subsequently maintained between the two, and it is alleged that Grant's course has brought great suffering and humiliation upon his wife, and deep disgrace to his children.—Omaha World-Herald.

Devoured by Worms.
 Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inattention, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at Raymond's Drug Store.
 If you want to forget your trouble buy a Mallibae Range, it will bring happiness to any home. Neely & Craven.
 Croup.
 Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently B. J. lard's Snow Liniment externally to the throat. 50c at Raymond's Drug Store.
 When you have a fried chicken at your house, is there any left over?
 Raised From The Dead.
 C. W. Landis, "Porter" for the Oriental Hotel, Chanute, Kan., says: "I know what it is to suffer with neuralgia, dead I did, and I got a bottle of Ballard's Snow Liniment and I was 'raised from the dead.' I tried to get some more, but before I had 'disposed' of my bottle, I was cured entirely. I am tellin' de truth too." 25c, 50c and \$1.00 at Raymond's Drug Store.
 Hurd your troubles; don't let them run wild.
 21 Years a Dyspeptic.
 R. H. Foster, 318 S. 2nd St., Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me, I am now tapering off on the second. I have recommended it to my friends; it is curing them, too." 50c at Raymond's Drug Store.
 The weeds in the fence rows will go to seed to remind one that another year they should be taken out. I have seen a some fence rows as mighty on account of plowing the ground up against the fence each year as if it were infested with the tallest weeds. A very good way to remedy this is to get a road grader for an hour or two and do a good job of leveling down.—Homestead.
