Last Thursday afternoon at 2:00 o'clock at the German Lutheran church northwest of the city Mr. Henry Meyer and Miss Lydia D. Kirchner were united in marriage. These young people are children of two of the most substantial and prosperous German farmers of Wayne county. The HERALD extends congratulations and wishes the happy couple nothing except the best of happiness and prosperity.

Last Saturday S. E. Anker shipped in a lot of cattle for the sale advertised and one of the steers was crippled in unloading. While driving the cattle through the street the animal in question became angry and ran in on the Baptist church lot. Otis King took his hat and endeavored to drive the steer to the street, but the enraged animal made for him and Otis' coat tail stood straight out as he made tracks. A. R. Davis made a dodge for a tree and O. Hayes jumped a fence as did others. Near Ley's residence corner candidate for Treasurer, J. M. Cherry, came along and the maddened steer charged for him. Jack made a number of dodges behind a tree, but to no avail and finally climbed the tree with the agility of a squirrel. How ever that's nothing to what Joe Jones the republican candidate for Treasurer will do to him this fall.

REV. O. T. CONGER DEAD.
The Indianapolis (Ind.) News of Sept. 14 has the following to say of the death of O. T. Conger, father of June Conger of this county. The article was accompanied by a portrait of the deceased man.

The Rev. O. T. Conger years old, of 1523 Hillside a this morning of neuralgia of the heart, after a brief illness. He was one of the oldest and best known preachers of the State. He was born in Dearborn county, Indiana, and went with his parents to Illinois when nine years of age. He was for a time fellow-student at Burlington University with John E. Clough, who later became known over the world through his missionary work, and the Rev. W. E. Baglestone, who afterward became noted as an author.

At about twenty-one years of age Dr. Conger began pulp work. He was a life-long Baptist and became identified with evangelistic and missionary work of the church. After early labors in Illinois and Indiana, he went to Lincoln, Neb., and held pastorates there, and also at Des Moines and Omaha. Returning to Indiana, he became pastor of Tabernacle church at New Albany. He was chaplain of the House of the Notary's Legislature during its term, and was twice president of the Nebraska Baptist State convention. For two years he was secretary and director of Baptist educational work in Iowa and spent two years as traveling secretary for State missions in Indiana. In these official capacities he visited and preached in more than 1,400 Baptist churches of Iowa and Indiana.

He was the author of two religious books, and was a frequent contributor to religious journals over the pen name "Barnabas." He was very successful in evangelistic work and did much to swell the membership of the Baptist denomination. He received the title A. M. from the University of Des Moines, and later that of D. D. from the same school. Being compelled, by the condition of his health, to give up the more active duties of church work, he had spent the last two years of his life quietly, with his family in this city. He leaves a widow and three sons and two daughters. They are Julian, of Wayne, Neb.; Judson and Dr. Charles W. Conger, of Indianapolis; Mrs. Padgett, of Colorado, and Mrs. Albert Pesse, of Indianapolis. The funeral will be held Tuesday afternoon, and will be private. The Rev. Dr. Villiers, officiating.

Rev. C. N. Dawson was a west bound passenger Tuesday morning.

The Miss White residence with barn for rent from Sept. 20th next. See E. F. Feather.

Call and see the King Bee Air Blast stoves at Bruce Roosa's. None better on the market.

Mrs. Dan Harrington went to Carroll Tuesday morning to visit with her sister-in-law, Mrs. Chas. Robbins.

D. H. Sullivan, formerly in the grocery business here, arrived Monday evening from Colorado Springs, for a few days visit.

Bruce Roosa will not be undersold when it comes to selling the best ranges on the market. His line of stoves cannot be excelled.

FAREWELL.

For nearly twenty years the writer has been connected with the HERALD, during which time it has always labored faithfully for Wayne and Wayne county, and it has been our pleasure to see Wayne grow from a puny little town to one of the prettiest and best little cities in the state of Nebraska, or any other state, with beautiful homes, a Normal college, electric light and water works plants, telephone system and fine churches. I have tried to publish a clean, conservative paper in the interests of all, and our efforts, owing to the generous patronage of the people, for which I shall ever feel grateful, have been more or less successful. It is with a keen feeling of regret that I sever my relation with the HERALD for I have enjoyed the ups and downs and the political fights, which were not always successful, but in a measure very satisfactory. I wish to extend my heartfelt thanks to all of the business men and to all others, who have been so liberal and wish them prosperity and happiness. I do wish to extend my best wishes to my contemporaries and if I ever had an unpleasant feeling toward them, with this I cast it from me. W. Huse & Son, who published the North Nebraska Journal at Ponca, for many years, and who were among the most successful newspaper men in the state, who have been in Oregon the past four years, will be my successors, and it is my opinion that they will give the people a much better paper than the writer has been able to. We bespeak for their success. The work had become so arduous in endeavoring to conduct two places of business that I felt a rest from newspaper work would be beneficial, therefore I have sold the HERALD to them. I trust the citizens will patronize these excellent men and first class citizens. It seems impossible to express my gratitude to the people and with these few words I bid readers one and all farewell. My successors take possession October 1.

Very Respectfully, W. H. McNEAL.

The paramount issue is, how large will the republican majority be this fall?

Every republican candidate should be elected and the HERALD believes they will be.

Prices Alert won the world's pacing record at New York yesterday by pacing a mile in 1.57.

The frost may have done a little damage, nevertheless the republican majority in the state will not be far from 18,000 to 20,000.

Judge Hunter, the old war horse, is making his usual quiet and dignified campaign this fall and his election will result with another handsome majority in three figures.

Don't fail to stand by Joe Jones, the genial, competent nominee for county treasurer. Make a resolution to stick by your party this time and see what the result will be.

Sheriff Mears, one of the best officials the county has ever had, is growing more and more popular. Grant is a genial, whole souled "ouse" and his majority this fall for re election will be anywhere from five to six hundred.

If you desire to elect one of the best endowed men for county clerk ever nominated upon the republican ticket, vote for Chas. S. Beebe. Business men should look at the matter from a business standpoint.

The HERALD begs the republicans of Wayne county, to be loyal to the party candidates this fall. Don't listen to tales of woe and vote against any one of the nominees, but go forth determined to win a glorious victory. The writer makes this last request as with this issue of the HERALD we sever our connection with the paper.

The concert is crying peace, peace, in the Balkans, but both Bulgarian and Macedonian says there is no peace. These reports of 60,000 or 80,000 Christians slain by the Turks in the past few weeks may be exaggerated, and probably are, but even if the number be only 10,000, or 15,000, it means a condition of things very unlike peace. If Christians were alive these days and in the form in which the Bulgarian atrocities in 1876 found him, there would be a trumpet call for a "tank" to Turkey which would arouse Christendom. The Grand Old Man's death left some thing of a void in the world.

No matter who the republicans nominate the World-Herald labels them "railroad tool" at once. It has a branding iron always in the fire and it slaps it "slashing hot" onto every republican nominee. There is nothing in the world so offensive to that paper as a railroad tool. The sight of one always makes it throw a series of most distressing fits and it makes them to order by the simple process of clapping its branding iron onto the men. The W.-H. is very monotonous and exceedingly tiresome. It has never taken the time to explain just what it meant by a "railroad tool," but the only inference is that a republican is one as soon as he is nominated for office, wherever he may have been before, while a popocrat can never become one, no matter what he may do. The people of Nebraska are beginning to look upon the World-Herald's brand as a pretty good evidence of honesty and efficiency. Every officer in the state house wears the brand and they were all elected and re-elected and the people are mighty glad they did it. There is not a flaw in the record of any one of them and the only complaint of them that has ever been entered was by the grafters who were ugly because they could not work their graft—York Times.

The corn market has not shown any very alarming perturbation since the recent frosts. The men who make this market—that is to say, all of us—are mighty keen to know precisely what has happened. The corn market is the best place to read the general condition of the corn crop—Star.

When Wayne county gets a man for county superintendent that could easily fill any position in the state, she generally re-elects him. Chas. Bright is just the man. Just watch the size of his majority this fall.

August Wittler is one of Wayne county's substantial German citizens, thoroughly qualified to conduct the office of county assessor. He should receive the hearty support of the party.

PROTECTION AND WAGES.

The connection between Protection and high wages has been a subject of much discussion, the consensus of opinion being that it has been and is the main cause and chief support of American high wages. If Protection cannot be defended on that ground, says the Indianapolis "Journal," it loses its chief support. That it benefits American manufacturers is undoubtedly true, but it could not be defended on this ground alone if it did not benefit the entire body of American workmen by enabling manufacturers to pay a rate of wages far above that of any other country. Gen. Benjamin Harrison, one of the ablest advocates of Protection the country has ever had, based his strongest argument on the ground that it insured high wages to American workmen. In one of his speeches he said: "Strike down this Protection system, bring out workmen in equal competition in the products of their toil with those who labor abroad, and nothing is clearer than that these mills and factories must reduce wages here to the level with wages abroad, or they must shut down." In speaking for Protection he never failed to make this idea prominent. There is no doubt but Protection does insure high wages to American workmen and is mainly defensible on the ground that it enables American manufacturers to pay such wages and still compete with foreign competitors who pay half or less than half as much—Pittsburg "Gazette."

AMERICA'S GOLDEN DAYS.

Estimates based on the government's crop report place the country's products of farm and plantation this year at about \$5,000,000,000. Very nearly half of this big amount will be contributed by four staples. Corn will account for \$1,144,000,000, wheat \$355,872,000, oats \$237,001,000 and cotton \$328,750,000. Hay will furnish an addition to this total of \$561,000,000, potatoes \$132,000,000, rye \$18,000,000, buckwheat \$10,000,000, barley \$57,000,000 and the minor agricultural products many millions more. Making all reasonable allowances for possible damage to the corn and some of the other late crops, the amount of money which will come in to the hands of the farmers and planters of the country in 1903 is in the neighborhood of \$5,000,000,000.

Notwithstanding the pessimistic reports earlier in the season, the agricultural yield of 1903 will be very nearly the highest yet touched in money value. As a large part of the country's prosperity must always be based on the yield of its farms and plantations, this exhibit is decidedly encouraging. The tillers of the soil are sure of a large reward for their labors in 1903, and when this takes place the condition of the country in general is usually favorable. The story which is told by the record of the farms and plantations, too, stands a chance to be supplemented by that which will be related by the country's mines and factories. The gold and silver production, except as it may be affected by the strikes in the Cripple Creek district, is sure to be near the higher mark ever reached. Production of coal, iron and the other minerals is also active.

All this means a continuance of the prosperity which the country has been enjoying for several years. Wall Street's disturbances have not been able to affect the general business conditions of the country. Moreover, the situation on Wall street has greatly improved in the past two weeks. Prices in most cases are more firmly maintained than they were in preceding months. The effect of the favor-

able crop reports will be good on Wall street, for they will mean larger earnings for the railroads and higher prices for stocks. In the party held this condition will be salutary. It will mean increased Republican majorities in all the state normally Republican which have elections in 1903 and will aid the party in 1904 also—Gloucester Democrat.

OBITUARY.

Guy A. Lush, was born at Randolph, Iowa, August 9th, 1879, died at Camp Vicars, Malabang, Mindanao, Philippine Islands, February 4th, 1903, aged 23 years, 5 months and 25 days.

He was converted and joined the M. E. church when he was about 10 years old. When he entered the army he chose for his companion, or was chosen as a companion, by a young man of sterling christian character, who proved to be a worthy and helpful friend to the last.

Guy enlisted in Troop E, 15th U. S. Cavalry, February 19th, 1901, and was in regular army service just 15 days less than two years.

He leaves to mourn their loss, father, mother, two brothers and three sisters, but, "They sorrow not as others who have no hope."

Guy has laid his armor down, and gone to wear a victor's crown.

What more is needed than pure Life Insurance in a good Company at a moderate cost? This is exactly what The Bankers Life furnishes. Guarantee and Reserve Funds to protect our contracts are now more than \$5,000,000.00.

The average cost for death losses and expenses, per \$1,000, past twenty-four years at age 40 has not reached \$10.00 per annum.

Securities are deposited with the State Department. The law requires this.

Our Reserve Fund now exceeds \$2,350,000.00. This is pledged for payment of losses in excess of ten deaths to the thousand per annum.

Calls become due quarterly each year, payable at your local bank, making it convenient and easy to carry.

Preferred risks only are written for small amounts. Our limit is six thousand dollars (\$6,000.)

There are many good features in The Bankers Life that can be explained by our agents.

Our plan is right, the management is good, and there is nothing better known today in Life Insurance than The Bankers Life, of Des Moines, Iowa.

Investigate this for yourself. Send your age to our agent for particulars and illustration of cost.

TO THE TAXPAYERS OF WAYNE COUNTY, NEBRASKA.

Wayne, Nebraska, Sept. 10th, 1903.

The new Revenue Law which went into effect makes it compulsory with the County Treasurer to collect all personal taxes, before the 1st day of February following the year for which they were levied.

You will therefore please read the following, which is Section No 154 of said New Revenue Law enacted by the last legislature:

Section 154. The County Treasurer is hereby required, during the month of December of each year after the personal taxes for the year have become delinquent; to notify by mail all persons of the amount of their delinquent personal tax, and that unless the same is paid by February first next following, distress warrant will be issued therefor. The treasurer shall, on and after the first day of February next after the personal taxes for the last preceding year have become delinquent, collect the same, together with interest and costs of collection, by distress and sale of personal property belonging to the person against whom levied in the manner provided by law for levy and sale of personal property and execution distress warrants shall be issued against all persons having delinquent personal tax for the year 1903, and for each year thereafter, and each such warrant shall include all delinquent personal taxes of the person against whom issued, unless such person shall, on or before February first file with the Treasurer an affidavit that he is unable, by reason of poverty, to pay any such tax, in which case distress warrants shall not issue until ordered by the County Board.

I would therefore ask all people who were assessed by their respective assessors, for any personal property last spring, to call at the office in the month of November and pay the said personal tax, or if not convenient for you to call, write for statement, which will be sent you on application.

Hoping that you may assist me in the enforcement of this law without resorting to execution, I beg to remain most respectfully yours,

FRED VOLFF, County Treasurer.

STALEY UNDERWEAR.

STALEY Jersey Overshirts

STALEY UNDERWEAR.

This is our fourth season in Wayne, with the Staley Underwear and our twenty-fourth year in selling this celebrated underwear. You might suppose that we have advertised this underwear sufficient that every one would know about it, but as there are yet some men in Wayne County that are not wearing Staley Underwear we wish to remind them that it will be to their interest to look at this underwear before buying this fall.

To those that have bought Staley Underwear we need only say that Staley Underwear has each year some improvement and that we always have a full line in stock. We have Staley Underwear in every grade and can satisfy your taste. Considering the length of time it wears it is the cheapest underwear made. But some will say: "I can't wear wool." We will say right here that we have never found a man who can't wear Staley all-wool underwear. Staley underwear is not like any other, the wool is treated differently and Staley uses a different kind of wool than other manufacturers. Wool doesn't hurt any one. It is the foreign matter that hurts people, and all foreign matter is taken out of the wool used in Staley Underwear. Some say: "All my wool underwear shrinks so I can't wear it." We give printed instructions with Staley Underwear, and if you obey instructions in washing Staley underwear it will not shrink. It will cost you nothing to see Staley underwear. We can fit anyone, no matter how large. We will be glad to explain your entire satisfaction why Staley underwear should be worn by all, and can satisfy you that you can wear it comfortably. Ask anyone wearing Staley all-wool underwear and they will recommend it. Ask any doctor if you ought to wear Staley underwear and he will recommend it. Ask us to show you Staley All-Wool Underwear and you will be pleased to buy it. Staley Underwear Cures Rheumatism.

COLLEGE NOTES.

Miss Blunck visited over Sunday with her home folks at Bronson, Ia.

Mrs. Pile starts Saturday for a two weeks' trip to her old home, Hixsville, Ohio.

Miss Mary Hayes and brother of Hubbard, Neb., visited with college friends Saturday.

Miss Longnecker, a student of last year now teaching near Winside, spent Sunday with college friends.

Prof. Littell came up from Winside Saturday. He reports a fine body of pupils and a most satisfactory beginning for the school year.

Prof. Will Richardson, now principal of the Carroll schools, spent Saturday at home. He is well pleased with the prospects for a good school year.

An unusually pleasant social was enjoyed by the students last Saturday night. Something unique is promised for next Saturday night in the way of social entertainment.

Dr. Taylor, the Sioux Falls oculist, who has been examining students' eyes at the N. N. C. nearly every term for ten years, put in the day Tuesday in testing eyes and giving ophthalmic advice.

Henry Raubaoh came up to college between trains Friday. He accepted the action of the Pierce county Democratic convention philosophically and is making a hustling candidacy for clerk of the court over there.

Did you hear Evangelist Birch at the Presbyterian church last night? No, well you missed a treat. Are you going to hear him? Well, yes. When —to-night. Cannot afford to miss these opportunities. Prospects are bright for good meetings. Are you going to add your influence to help make them so? All are cordially welcome. Come and bring your friends to-night.

On Monday it was discovered that some culprits had, in some manner, effected an entrance to the Methodist church and there "raised Cain." Seats in the lecture room were turned up, chairs hung on chandeliers, books torn up and numerous other depredations enacted. It is a disgraceful matter and the perpetrators should be found and justly punished, as they no doubt will be.

NEW MEASURE FOR THE SAFETY OF THE PRESIDENT.

Such Will Be Introduced When Congress Meets in Extra Session—Recent Incidents Have Shown Necessity of Making Access to President Difficult.

Washington correspondence:

NE of the first measures to be introduced in the next session of Congress when it meets in extra session will be a bill designed to protect the President of the United States and other Federal officials from the attacks and threats of cranks. The precautions at present taken to guard the Chief Executive make it as difficult for a person without an engagement to see the President as it would be to see a monarch. Indeed, there are some of the Kings of the effete monarchies of the Old World who are not looked upon by anything like the divinity and six-shooters that keep ill-will and unbalanced persons away from the head of the republic. Had it not been for the vigilance of the secret service officers who are on constant guard at the President's home, the attention of the President would have been attracted to the news of the officers who have the duty of guarding the President into a realization of the danger in which every man who reaches the exalted office stands. Whatever his personal or political popularity, the very fact that he is President attracts the attention of the mad and deranged who seek to redress their wrongs or gain notoriety by the killing of persons in high places. The public has the best idea of the great number of dangerous cranks who are turned into a Presidential body-guard of a secret service men as far as possible. These incidents are well known to the secret service. They are not interested unless they have banished some word which shows them to be dangerous persons. Many are banded over to the police merely as disorderly persons, and they find their way into the insane wards of the workhouses.

But recent events have convinced the President that more stringent measures are needed. What is required is a general law which will follow the President wherever he goes. The Wellbrenner incident was really more serious than it was made to appear in the reports given out. The bill now before the President is a bill which will follow the President wherever he goes. KILLING FROSTS WORK HAVOC WITH CROPS.

Cold-wave sweeps over 500,000 square miles of territory. Shaded part of map shows where damage is heaviest.

It is a fact, however, that the secret service officers feared that Beque's disordered mind might seek his revenge at Oyster Bay rather than at Washington. His experience has convinced the President that the cranks who are on constant guard at the President's home, the attention of the President would have been attracted to the news of the officers who have the duty of guarding the President into a realization of the danger in which every man who reaches the exalted office stands.

ON GUARD!

MONUMENT TO LATE PRESIDENT M'KINLEY UNVEILED AT TOLEDO.

The McKinley monument, which was unveiled in Toledo the other day, is a square column of gray granite bearing the inscription, "William McKinley," cut on its face. On the four sides his life history is briefly related. The shaft is surmounted by a heroic bronze statue of the late President wearing 1,800 pounds. The statue itself is 8 feet high. The monument was erected with the contributions of 20,000 residents of Toledo and the surrounding country.

HAVOC OF A STORM.

Two Score Lives Lost in Hurricane on the Atlantic Coast. Two score or more lives lost and \$2,000,000 damage on sea and land—such is the result of the storm which swept the eastern coast Wednesday. Stories of death and loss and of thrilling escapes prove that the hurricane was one of the most destructive which ever visited the Atlantic.

WILL CARRY IT INTO COURT.

Troubles Between Chicago Packers and Union Carry it into Court. The United States Supreme Court may be asked to take a hand in the trouble existing between the big Chicago packing companies and the union of their employees, owing to alleged discrimination against independent retail butchers in certain sections of the country, according to a recent statement made by Mitchell Donnelly, general organizer for the Amalgamated Meat Cutters and Butcher Workmen of America.

HAVOC ON THE FARMS

RAIN, FROST AND SNOW CAUSE DEVASTATION.

Western States Suffer Losses in the Millions—Commercial Interests of the Whole Country Will Be Affected—Corn Crop in Danger.

Snow, frost and rain have played havoc with the crops in the western part of the Mississippi valley. The damage done through the cold wave, which came sweeping down from northwest Canada, is reported to be enormous. Certain two feet deep covers the ground in certain parts of North Dakota, and around Winnipeg the storm developed into a blizzard before night, with a heavy snow or sleet could stand. Horses and other live stock perished at Hartney, near Winnipeg.

MAY SEIZE THE ISTHMUS.

Plan Suggested for Circumventing Culpability of Colombia. The Panama canal situation has reached a much more serious stage than has appeared on the surface, or than the information given out by the State Department would indicate. The real truth is that the relations between the United States and Colombia are badly strained. All this is the result of the duplicity of the Bogota government, who, having attempted to blackmail the French Panama Company into giving them \$20,000,000, are now endeavoring to rob the French corporation of its entire possessions for which the United States is willing to pay \$10,000,000.

STRENOUS LIFE OF THE UNITED STATES.

It may be asked if American domestic habits have not something to do with the frequent breakdowns of American nerves. In perhaps the majority of cases, in cities at least, the day is admirably arranged so as to give the business man no rest whatever until he gets into bed. It has come within our observation that, in our civilization, there are three systems of living out the ordinary working day. There is the French system, which is that of the continent of Europe in general; there is the English system; and there is the American system. The Englishman goes to work late and comes away early, but during working hours he works all the time. His luncheon is light, and eaten hastily—perhaps at his desk. For this he makes up by a leisurely breakfast and a leisurely dinner; while he has the early part of the morning and the latter part of the afternoon to himself.

RESULT OF SIMPLE HABITS

Of Great Men Contributed Greatly to Their Success in Life. Benjamin Franklin, who is famed for his discovery that lightning is electricity, and who introduced the American colonial postal system, and who, furthermore, as will be remembered, served America at the court of France as minister plenipotentiary, was one of the leaders of early modern times in the study of nature and nature's laws, and not the least in the study of science. His first maxim was: "Eat not to dullness; drink not to elevation." He reports the London Catering World. Even in his youth his mind was filled with schemes for self-regulation and guidance, and he set before him the task of acquiring the habit of certain cardinal virtues based upon simple living and habits of thought. His constant effort was to better the condition of mankind, and his methods were intensely practical.

WILL CARRY IT INTO COURT.

It is a fact, however, that the secret service officers feared that Beque's disordered mind might seek his revenge at Oyster Bay rather than at Washington. His experience has convinced the President that the cranks who are on constant guard at the President's home, the attention of the President would have been attracted to the news of the officers who have the duty of guarding the President into a realization of the danger in which every man who reaches the exalted office stands.

OPINIONS OF GREAT PAPERS ON IMPORTANT SUBJECTS

Flood and Fire.

NE part of our country drowns while another burns. Is it not strange that we do so little to prevent calamities which sweep away our properties and our lives? Until the need becomes extreme, it is difficult to procure laws for the general good when they conflict with the desires of many individuals. Much the same steps would reduce floods that would reduce droughts, and consequently fires. Forests are admittedly stores and distributors of dampness, yet we, whose country is so much the prey of fire and flood, have forestry laws far inferior to the forestry laws of many foreign countries. At the rate at which destruction now exceeds replanting, the whole supply of forests, it is calculated, will disappear in another generation. Whether the estimate is exaggerated or not, the fact that we destroy much and replace little is undoubted. There is pressing need for a more vigorous and liberal policy. This is the most permanent and important point to reiterate, in connection with our present misfortunes, although there are other improvements which ought to be well within our ingenuity and our enterprise. It is inevitable that we should have to arrange to receive the surplus waters in time of flood, with the additional advantage of releasing them in time of need. Much more stringent regulations along railway lines might diminish forest fires. The private individual whose abandoned cigar or bonfire starts a conflagration is beyond the reach of practical control. He will exist, and continue to make the world pay heavily for his existence, as long as the criminal and the tramp—two of which, indeed, he often is. We cannot expect individuals, lumber companies or railroads to give up their search for rapid wealth, or even their cherished indolence, out of benevolence. They will destroy forests for money, and sprinkle sparks from laziness, as long as such practices are permitted. The duty of those of us who are interested in the national welfare is to agitate until state and national legislation puts more checks upon the general recklessness. We can never be safe from wanton nature's freaks, but, when we put our minds and wills to it, we can decrease her outbreaks and make her work more smoothly in man's service.—Collier's Weekly.

WEALTH AND THE MAN.

WEALTH is but relative. A million now is as but \$100,000 a hundred years ago. And in this land was a group of hand aristocracy, an oligarchy of slave owners, a class above the mass who, like Dr. Hillis' plumed sons and daughters of to-day, still sought the primrose path. Poor old human nature! It is much the same world over day in, day out. God isn't trying the American people especially. Rather do we believe that the same natural laws work now as hitherto. If you eat too much your head aches. If you drink too much you suffer various diseases and are likely to die as a victim of smoke appears in this air. If you run the automobile against a tree you are likely to split your head. If you travel too fast a life you are likely to collide with eternal things. The early ripe and the early rotten are waste by-products of life. Man goes on digging, delving, doing things. Such a man of wealth as Peter Cooper Hewitt, who, instead of swilling around in a yacht loaded with champagne, puts his time into inventing such marvelous things as the mercury lamp, the electric interrupter and the electric converter, is a signal example that there are men and men, thank God!—Levittown, (Me.) Journal.

Copy the Yankee Moles.

French spiders, about whose methods a good deal has been written of late, are for the most part copies of the Yankee moles. The trick of turning a woman into a man, and just as she goes to make a purchase in assuming the role of an indignant husband, taking her money away from her and getting away before she has a chance to recover, her surprise, was worked for some time in the West. It wasn't successful long here, because American women are harder-hearted than their French sisters, and, unlike the latter, do not assist the crooks by promptly going into hysterics or fainting when robbed.

A Change of Heart.

The operator in a telegraph office has many chances for the observation of varying phases of human nature if he chooses to make the best of them. A young woman stepped to the desk, and asked in a trembling voice for telegraph blanks. She wrote upon one, tore it in halves, wrote a second, which she treated in the same way, and at last a third. This last she handed to the operator, who, at a fervent request that he would "bury it," he "buried" it. This he did, and after she had gone he read the other two for his own amusement.

Not as Crazy as He Seemed.

A Toledo real estate man paid \$500 for an old dock at Maumalik, O., a year ago and his friends said he was crazy. He has been selling the dock and walnut logs of which the dock was constructed and has thus far cleared \$20,000, with prospects of making as much more. The dock was sixty years old and the water, curing it, has made the logs more valuable than they were when newly cut.

Highest Look in the World.

The lock to be placed in the Danube-Oder Canal will be 131 feet high, and the highest in the world. The Austrian minister of commerce has offered prizes of 100,000, 75,000 and 50,000 crowns for the best plans for it. It is a pretty thing, when a mother dies, to speak of the vacant chair, but you can bet if there are any men in the family, it isn't the rocker.

This Example Dying Out.

CASSIUS MARCELLUS CLAY, typical man of the South, died recently at the age of 93. He was a great fighter, a great American in his way, there were many interesting events in his life. The most interesting, undoubtedly, is the fact that although born a slave owner he was converted to the doctrines of the abolitionists by listening to a speech by William Lloyd Garrison. This conversion of the tall fighting Southerner by a speech of the mild friend of humanity is intensely interesting, since it proves how much sincere argument can do even with the most unpromising material. Cassius Marcellus Clay was converted to the idea that no man should be a slave. He was converted so thoroughly that he talked abolitionism through the South at the risk of his life, occasionally interrupting his speech to fight with a bowie knife those who failed to agree with him.

Another incident in the life of General Clay, according to the Louisville Courier-Journal, is preserved in an oil painting at the Metropolitan Art Museum in New York. The painting shows the czar of Russia with his staff and the foreign Ambassadors at St. Petersburg. Cassius Marcellus Clay was the American Minister to Russia at that time. In the picture he and the Russian czar are the only two men who have their hats on. On one occasion that the picture represents one of the other Ambassadors one of the other Ambassadors said to Clay that to this the American Minister replied: "I take off my hat only to those who take off their hats to me."

He expressed here briefly what would stem to be a very good American doctrine. It is a good thing that we have outgrown Cassius Marcellus Clay's bowie knife and his way of using it to end an argument. But it is a misfortune that we have also outgrown his idea briefly expressed: "I take off my hat only to those who take off their hats to me."—Chicago American.

Poor old human nature! It is much the same world over day in, day out. God isn't trying the American people especially. Rather do we believe that the same natural laws work now as hitherto. If you eat too much your head aches. If you drink too much you suffer various diseases and are likely to die as a victim of smoke appears in this air. If you run the automobile against a tree you are likely to split your head. If you travel too fast a life you are likely to collide with eternal things. The early ripe and the early rotten are waste by-products of life. Man goes on digging, delving, doing things. Such a man of wealth as Peter Cooper Hewitt, who, instead of swilling around in a yacht loaded with champagne, puts his time into inventing such marvelous things as the mercury lamp, the electric interrupter and the electric converter, is a signal example that there are men and men, thank God!—Levittown, (Me.) Journal.

Copy the Yankee Moles.

French spiders, about whose methods a good deal has been written of late, are for the most part copies of the Yankee moles. The trick of turning a woman into a man, and just as she goes to make a purchase in assuming the role of an indignant husband, taking her money away from her and getting away before she has a chance to recover, her surprise, was worked for some time in the West. It wasn't successful long here, because American women are harder-hearted than their French sisters, and, unlike the latter, do not assist the crooks by promptly going into hysterics or fainting when robbed.

A Change of Heart.

The operator in a telegraph office has many chances for the observation of varying phases of human nature if he chooses to make the best of them. A young woman stepped to the desk, and asked in a trembling voice for telegraph blanks. She wrote upon one, tore it in halves, wrote a second, which she treated in the same way, and at last a third. This last she handed to the operator, who, at a fervent request that he would "bury it," he "buried" it. This he did, and after she had gone he read the other two for his own amusement.

Not as Crazy as He Seemed.

A Toledo real estate man paid \$500 for an old dock at Maumalik, O., a year ago and his friends said he was crazy. He has been selling the dock and walnut logs of which the dock was constructed and has thus far cleared \$20,000, with prospects of making as much more. The dock was sixty years old and the water, curing it, has made the logs more valuable than they were when newly cut.

Highest Look in the World.

The lock to be placed in the Danube-Oder Canal will be 131 feet high, and the highest in the world. The Austrian minister of commerce has offered prizes of 100,000, 75,000 and 50,000 crowns for the best plans for it. It is a pretty thing, when a mother dies, to speak of the vacant chair, but you can bet if there are any men in the family, it isn't the rocker.

What Is Life?
In the last analysis nobody knows but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjust this. It's gentle, yet thorough. Only 25c at L. P. Orth drug store.

Poorly?
For two years I suffered terribly from dyspepsia, with great depression, and was always feeling poorly. I then tried Ayer's Sarsaparilla, and in one week I was a new man.—John McDonald, Philadelphia, Pa.

Don't forget that it's Ayer's Sarsaparilla that will make you strong and hopeful. Don't waste your time and money by trying any other kind. Use the one tested, tried, and true Ayer's Sarsaparilla. 25c a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He will tell you about this grand old family medicine. Follow his advice and you will be cured. Sold by Wm. C. Lowell, Mass.

THEY COME FOR HUNDREDS OF MILES TO SEE HER.
Nothing So Wonderful in the Days of Specialism.
DR. CALDWELL.
The success of Dr. Caldwell is attributed to her special study of specialism. Dr. Caldwell, eminent physician and specialist of wide reputation, having given her entire time and practice to a line of special diseases, which enable her to cure almost any disease, and her plan of treatment is not excelled by any physician. Dr. Caldwell, although a young woman in life, is a plain woman, and who is used to the ups and downs of life, puts herself on a level with her patients and does not profess or pretend to know of the plan of fashion, which is to look wise and say nothing. She knows disease, she knows how to explain the symptoms of disease, and the spot where located, and most of all she knows from experience, from what she has done in the past, she can certainly do for others in the future. It is said by Dr. Caldwell's friends that she can diagnose a disease of any patient without asking them a single question, that being the case, she is likely to doctor them for the wrong ailment, and will not take an incurable disease and lead the patient to believe that she can cure them when there is really no hope for them. Her business is large and she has plenty to do, even, at times, more than she can do, without taking incurable diseases and deceiving her patients. Dr. Caldwell is a graduate from one of the best schools in America. She has practiced her profession in some of the principal hospitals in this country. Her speciality comprises that class of diseases which the ordinary home doctor fails to cure, such as female diseases, heart diseases, diseases of children and the many special diseases of hidden nature. Her practice is mostly among the plain, hard-working people who are unable to come to her in the city office for treatment; she is reasonable in her charges and very patient with those who are unable to pay. She is charitable, and it is said has never known a case to refuse to treat a patient who is unable to pay, and in need of a number of important cases that we hereby take the liberty to publish, which might be of interest to some who wish to know more of Dr. Caldwell's great work:

Mrs. Sophia Kram, Altona, Neb., cured of a bad kidney disease.
Mrs. Lulu Towley, David City, Neb., cured of female troubles and female weakness.
Mrs. E. A. Studer, Wayne, Neb., cured of female and nervous troubles.
Mrs. C. E. Maulty, Meadow Grove, Neb., cured of heart trouble and bronchial and nervous troubles.
Mrs. G. Linn Heston, Neb., cured of ovarian trouble and bladder trouble.
P. J. Robt. John, Neb., cured of bronchial trouble, enlarged liver and dropsy.
Mrs. Minnie Rudek, Columbus, Neb., cured of skin disease and kidney trouble.
Mrs. D. W. Barr, David City, Neb., cured of skin disease, nervousness and loss of appetite.
Mrs. Chas. Miller, Wayne, Neb., cured of dropsy, kidney and liver troubles and nervousness. She had been troubled for years.
Mrs. C. W. Anderson, Norfolk, Neb., cured of general debility, enlarged liver and pain in chest.
Mrs. John Bauman, Benton, Neb., cured of bladder and constipation.
Mrs. S. F. J. Cook, Tokamah, Neb., cured of tumor, womb trouble, loss of appetite and constipation.

The Allen News says: "Roy Wilson returned Wednesday night from Chicago, where he purchased the bulk of his winter stock of goods. Some of these goods have already arrived and the others will be coming in on every train for the next few weeks. One of Wilson's strong points is that he always has new goods on his shelves."

When a horse is running away it is then that the driver usually becomes asoared as the horse and the runaway is not helped much. The driver needs to keep his head at a time like this, even though he should lose it at other times. What the driver needs to do is to pull vigorously on one line and then on the other with such rapid succession as to confuse the animal so that his fear may be removed. A known runaway horse should be driven with care.—Home-Steak.

Miss Ringer Snadayed with her parents in Wayne. Father Haley of Wayne, was a guest at the E. W. Cullen home last Thursday night and Friday morning said mass. Mr. Parker, the photographer who comes over from Wayne every Monday, found his office pretty chilly this time and proceeded to make a fire. Well, the stove refused to draw and great clouds of smoke belohed forth, but it is said that the atmosphere in that locality was plenty hot enough until Mr. Parker was informed that the top of the chimney was covered with a board, being placed there last spring.—Windside Tribune.

J. E. Manning and Miss Abigail Manning were up from Wayne Saturday. Mr. and Mrs. John Harrington were up from Wayne on a visit at the Chas. Robbins' home Tuesday. Mr. and Mrs. Joe Love arrived from Wayne Monday to take possession of the Carroll House. By Tuesday afternoon everything was cleaned up and in order for business. Mr. Love desires to announce that he is fully prepared and hopes to merit a continuance of all the former patronage of the hotel, and that he is now ready to take and care for all that come. Joe is an experienced hotel man and Carroll is fortunate in getting him.—Carroll Index.

A farmer living near Correctionville is the inventor of a new game called "Improved Ping Pong." It is to be played on a farm in the fall of the year. The player gets up at 4 o'clock in the morning, milks the cows, feeds the hogs and horses, eats breakfast, then hitches a team to a wagon about the size of a box car and starts for the corn field. Here is where the ping pong comes in. You grab a big ear of corn with the left hand and yank the shucks off from it with a contraption of some kind on the right. Then you throw the ear at the big wagon. When it strikes the throw board it goes ping and then it drops to the bottom of the wagon and sounds pong, making a very interesting game at about 2 1/2 cents a bushel.

A Boy's Wild Ride For Life.
With family around expecting him to die, and a son riding for life, 18 months, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pseudomem, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at L. P. Orth, drug store.

We have often wondered that the women never adopted this plan for raising the mortgage on their church, by fling their husbands a penny for every spot on the table cloth while eating.

Croup.
Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liment externally to the throat. 50c at Raymond's Drug Store.
