PRESIDENT DECIDES FOR MILLER
Government Cannot Accept Dictation from Any Organization.
President Roosevelt refused to dismiss Foreman W. A. Miller from the government printing office because of the objections of labor unions. His decision, which he said was final, was formally announced Tuesday night at the White House at a conference with officials of the American Federation of Labor. At the close of the conference a statement was given out to the press quoting the President as saying he had already been consulted on the subject of Miller's retention. He said that he had little to add to what he already said in dealing with it. He said that he had consulted with the labor unions and that he had decided purely on the basis of the merits of the case.

Good Year for Farmers.
Proven by the Way They Are Buying Machinery.
That the farmers generally are in a healthy condition is evidenced by the fact that they are buying more machinery than in any year since 1912, according to a representative of one of the leading agricultural implement concerns. Taking it all around, the year has been a successful one for the farmer, and it is expected that the crop will be a good one.

THE POPULAR PULPIT

INTERPRETATION OF LIFE.

By Rev. P. T. Atton.

Jesus said unto them, My meat is to do the will of him that sent me, and to finish his work. St. John, vi, 39.

Life is a great desire. From the very day that the infant is brought into the world, it is a desire for knowledge, for something, for something beyond the present moment.

There is a certain amount of knowledge which is necessary for the proper interpretation of life. This knowledge is not to be gained by mere reading or by mere listening to the words of others. It is to be gained by the direct experience of life itself.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

Let us understand then, that we are to do the will of him that sent me, and to finish his work. This is the purpose of our life, and this is the purpose of our work.

WEATHER HELPS CORN.

Frost has been General, but the Damage Done to Corn is Slight. The weather bureau's weekly summary of crop conditions is as follows: The temperature conditions for the week ending Sept. 28 were generally favorable, although cool nights were detrimental to the growth of the corn in the southern and central parts of the country.

The necessary consequence would be a corresponding reduction of the representation of these States in Congress. But that will have to be made in any case. So far as the race problem is a legal and political problem its solution is to be found only in the application of the laws impartially to both races.

Spheres for Men and Women. Men and women have respectively different spheres of activity. The sphere of activity of men is in the world of action, and the sphere of activity of women is in the world of affection.

Herbert Passes Away. Sir Michael Herbert, the British ambassador to the United States, died Wednesday at Paris, Switzerland, of quick consumption. It was known the ambassador had rapid consumption.

Rule of the World. The rule of the world was undoubtedly evolved in the Garden of Eden. Well, if the truth were known, it probably would be gotten that Adam and Eve compromised their first quarrel on the basis of giving Adam the figs and Eve the fig leaves, and the rule of the world ever then has been to clothe the woman and feed the man.

GREAT CHICAGO PAGEANT. Industrial Parade Was King's Biggest Thing of the City. Curiosity seeking and excitement by Chicago was concentrated within the plevated loop Tuesday night to see one of the biggest night parades which ever marched the city streets.

Canada Reaches Out for Settlers. Canada, not satisfied with the great influx of settlers from the United States, Great Britain and some of the smaller countries of Europe, is going to make an effort to attract settlers from Belgium and France.

Successing to One Way. Jessie doesn't intend to play her usual game of golf when she gets out on the links with Smithkins. "No," answered the jealous one; "but she plays a mighty strong game of love."

CONSUMES MANY HIDES.

67,765 Animals Required to Supply the Big Mink Shoe Factory at Milwaukee. What because of the thousands of hides gathered together annually in this country, and how are they consumed? This question may come to the minds of many shoe makers, but few have any conception of the daily requirements of a single great modern institution like the Mayer, Bone & Shoe Company of Milwaukee.

To supply the demand for the tanning during the last year, there were made into shoes the hides of 67,765 animals. This is a large number, and it is a good thing that the hides are so well used.

Water on Railway Tracks. The drinking water furnished by the railways—who knows anything about it? What are the regulations of the different companies as to its quality and the cleaning of the tanks and cars which carry the water?

STARTING THE DAY RIGHT.

First Half Hour of the Day the Hardest Part of the Twenty-Four. The first half hour of the day is the hardest part of the whole twenty-four hours, particularly so for the business man. Many awake depressed and insufficiently rested. It seems almost impossible to rise and go about the duties of the day.
