Congressman McCarthy has introduced a bill to congress asking for an appropriation of about \$15,000 for a federal building at Wayne. We have no serious thought that the matter will get much farther than the introduction. In the pressure and jam of other matters the national congress will forget that Wayne is on the map.—Randolph Times.

With a man like McCarthy behind the measure, congress will not be allowed to overlook the needs and desires of Wayne.

Ernest Johnson who was followed to Verdigris by Iowa officers, who wanted

him on the charge of assault and murder, was found dead in the garret of a school house where he had hung himself. On the arrival of the officers, Johnson disappeared and no trace of him could be found, and they gave up the chase and returned home. A few weeks later the teachers and pupils of the school detected an odor and an investigation revealed the man's body hanging in the garret.

Rev. Father Haley was up from Wayne Monday. The new church building is complete and the furniture is being placed. Services will be held in the new structure for the first time at ten o'clock New Year's day. All are invited to the services. The dedication of the building will not take place until warm weather, when several priests and the bishop will be present. The date will be announced later.

The building is a creditable one for Carroll and the Catholic people are to be commended for their enterprise.—Carroll Index.

### OBSERVANCE OF CHRISTMAS.

The world's grandest festival has come and gone and left many pleasant memories. Christmas found a suspension of business and work of all kinds. The weather was cold and frowned on any inclination to be out of doors. As a result, public thoroughfares showed little life, people remaining by their firesides or spending the day at the home of friends or relatives. It is the occasion of home-gathering, and those who were away and able to return to mingle in the joys of the great event at home, did so. The day was one of feasting, sociability and quiet diversion generally. The children, made happy without exception, we hope, were kept busy enjoying their gifts and sweetmeats. Indeed, the day seemed to pass pleasantly for all.

Christmas exercises at the different local churches took place as follows:

### PRESBYTERIAN CHURCH.

Old and young filled the Presbyterian church Christmas eve in anticipation of the program that had been prepared. Two beautifully adorned trees, over which swung an arch, made by an intertwining of evergreens, with Christmas bells suspended from the center, were the chief features of decoration. After some songs and recitations by the little folks, a cantata, representing the last day of school before Christmas, was presented, and immediately preceded the distribution of gifts. Jovial Santa Claus appeared in the cavalcade, to the pleasure of all, and especially the children. Besides being the recipients of presents, the young brought to the church gifts of good things for the poor of the town.

### METHODIST.

The custom of giving instead of receiving was carried out by the Sunday school of the M. E. church, and as a consequence a big donation was gathered together for the hospital in Omaha and the Mothers' Jewels' home in York. A large audience attended and listened intently to the program of recitations and singing. Santa Claus appeared at the proper time and made an appropriate speech. The time-honored tree was among the attractive decorations. As a reward for the self-denial of the young in becoming givers rather than recipients, a grand social will be given for them at the church tomorrow night.

### ENGLISH LUTHERAN.

Christmas eve at the Lutheran church attracted the usually large audience, and the decorations and exercises were the best witnessed there in many years. Two trees, a fireplace and a beautiful banner emphasized the fact that Christmas joy was at hand. Appropriate songs, recitations and dialogues preceded the distribution of gifts.

### GERMAN LUTHERAN.

At the German Lutheran church of which Rev. J. H. Karpfstein is pastor, a large crowd gathered Christmas night, notwithstanding the cold weather. An evergreen tree with burning tapers and other decorations, was the center of attraction. After the literary and musical program, gifts were distributed among 110 children, for whom particularly it was a pleasant occasion.

### CATHOLIC.

The children had a joyful time at the Catholic church last Thursday afternoon when they were made the recipients of appropriate gifts. The church was beautifully decorated with cut and natural flowers, evergreens and holly. The forenoon was done by Hugh O'Connell and Geo. Winger and the altar was dressed by Misses Johanna

and Clara Ahern. On Christmas day Father Haley celebrated Mass at 6 o'clock, 8 o'clock and 10 o'clock, after which he preached on the "Divinity of Jesus Christ." Christmas is the only day on which a priest can say three Masses—the first being in honor of Christ's birth in eternity with His Father, the second in honor of Christ's birth in time among men and the third in honor of Christ's birth in the hearts of men. The music at the first and second Masses was rendered by the Misses Ahern and at the last Mass by the choir, Mrs. Moran being the organist. Benediction of the Blessed Sacrament completed the services of the day. The Christmas offering amounted to \$99.75. The people of St. Mary's congregation can and do feel proud of their church.

### BAPTIST

The Baptist church entertained a good-sized audience of old and young Christmas eve. Instead of a tree, the committee prepared a large arch trimmed with holly and illuminated by electric lights. A row of potted flowers furnished an attractive background. Around the arch were piled boxes of candy and other gifts, which were distributed among the children at the conclusion of the program of recitations and singing.

# SISTERS OF CHARITY.

## Use Pe-ru-na for Coughs, Colds, Grip and Catarrh--A Congressman's Letter.

In every country of the civilized world Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also administer to their bodily needs.

(With so many children to take care of and to protect from climate and disease, these wise and prudent Sisters have found Peruna a never failing safeguard.)

Dr. Hartman receives many letters from Catholic Sisters from all over the United States, recommending recently received (from a Catholic institution in Detroit, Mich.) Peruna as follows:

**Dr. S. B. Hartman, Columbus, Ohio:**

"Dear Sir:--The young girl who used the Peruna was suffering from laryngitis and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured."

---Sisters of Charity.

The young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat with good results as the above letter testifies.

**Inquisitive Birds.**  
Of the birds undoubtedly the blue jays have the most inquisitiveness. And they are the most noisy in expressing it, although crows will hold a close second place, if not fully the equal. How the jays screeched and wailed amid a confusion of all the sounds of freedom--near my home recently! More than a dozen started into a small evergreen tree on the lawn.

"People came from several houses in the vicinity, all curious to know what was the matter with the birds? It seemed to be a want to 'know' on both sides. The jays had discovered a cat walking meekly along by the fence at the low shrubbery near and under the spruce-tree. There was no nest in the vicinity, and so far as could be ascertained, the cat had not attacked the jays. But what a panic-monium of jay jargon over one meek-looking, quiet cat! The jays outdid themselves, and called out nearly all the occupants of the many houses on that street--St. Nicholas.

**Hand on the Nose.**  
An American composer was talking to a friend who had just come from a concert given by the students of a conservatory of music.

It was one of those replays, says Harper, which are usually avoided by musicians.

The friend said: "I have just heard one of the pupils, a little girl of eight, play your piece, 'To a Wild Rose!'"

The musician sighed and said: "I suppose she pulled it up by the roots."

# WEALTH IS USELESS.

## MILLIONAIRES OF ARIZONA WHO LIVE IN SQUALOR.

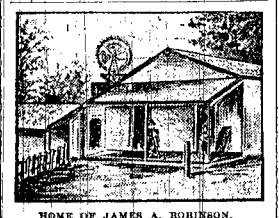

**Copper King Who Sleeps on a Blanket on the Floor of His Cabin--Another Millionaire, Whose Chief Luxury Is Ping Tobacco.**

There are several rich men in Arizona, some of whom far exceed the million mark, who live lives as plain as the half-breed Mexicans among whom their lot is cast. One of these is James A. Robinson, whose home is in the little Mexican hamlet of Oro Blanco, close upon the boundary between the United States and Mexico, and who is worth \$1,800,000, his possessions consisting in copper mines, cattle and lands.

Never Entered a Church. Still another man to whom wealth has not brought corresponding comforts is William Soggs, a Texan and a cattle king in Yavapai County. He is worth half a million. He cannot read or write; indeed, he cannot do any sum in arithmetic that involves more than plain addition or subtraction.

His success is an illustration of what ceaseless drudgery to one purpose may accomplish. There is probably no one who knows cattle raising in Arizona better than Soggs. He has a wonderful memory, an iron constitution, and quick comprehension of business propositions in the line of cattle growing and profitable ranges. Since he became a cowboy on the Texas Panhandle, when less than 15 years old, he has given every day of his life to kattle raising.

HOME OF JAMES A. ROBINSON.

when the possibilities of making money in cattle came to him. Robinson abandoned the mining at Oro Blanco in 1883 for \$2,000, and then went ahead with the development of the property. At 41 he was poor, and at 50 he was easily worth \$300,000. Such are the marvelous transformations in some mine territories in the mining regions of the world.

To see him one would never suspect that the Goddess Fortune had so much as glanced at him. He rides about on a scraggy old bay horse, with a bunch of greasy, tattered blankets for a saddle. A short, black clay pipe is generally between his lips. He sleeps in a blanket on his cabin floor. He never reads, never goes anywhere except to a saloon. He dresses like a ranch laborer, but wears an elaborate Mexican sombrero with a gold and silver threaded band about it. That is the sole personal indication of his rise in the mining world.

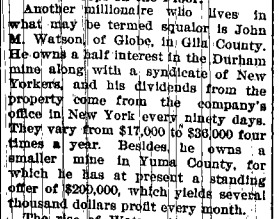

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

**Chief Luxury Is Ping Tobacco.**  
For twenty years Robinson has been having an average net annual income of \$40,000, while he and his family have been living on less than \$300 of it each year. He has a Mexican wife, whom he married thirty years ago. There are four young men and five girls in the family, but only three of them remain at home. All the others have married into Mexican families and gone out to live in shanties and mudhouses among the cattle along the border, just like the sons and daughters of the poorest cowpunchers and sheep herders in the region. The home of this millionaire from New York would be dear at \$250. All the furniture and household effects in it could be replaced for \$300. The floors are of hard-packed adobe, the windows and doors are of the cheapest, crudest pattern, and a drop of paint was never applied inside or out. The old couple dress in the same coarse, rude garb as of old. The old man wears overalls and a "hickory" shirt all the time, except occasionally when a buyer for a Chicago or a Kansas City packing horse journey from Nogales railroad station, thirty miles across the hot, dusty plain, to talk over a \$30,000 or \$40,000 cattle transaction in the kitchen of the old house. Then Mr. Robinson may put on a threadbare and faded coat that he bought twenty years ago in Tucson. There is not a book in the house, but a Cattleman's Guide and a volume of recipes for curing horse and cattle diseases. This millionaire's family never takes a newspaper, buys no furniture, never tastes such things as ice cream, candy, fish or fancy groceries. The old man saw a banana for the first time a year ago, when he was in Nogales. His only luxury is ping tobacco.

**Sleeps on the Floor.**  
Another millionaire who lives in what may be termed squalor is John M. Watson, of Globe, in Gila County. He owns a half interest in the Durham mine, along with a syndicate of New Yorkers, and his dividends from the property come from the company's office in New York every ninety days. They vary from \$17,000 to \$300,000 four times a year. Besides, he owns a smaller mine in Yuma County, Arizona, which he has at present a standing offer of \$200,000, which yields several thousand dollars profit every month.

The rise of Watson to wealth was as unusual as it was sudden. Five years ago he would gladly have sold all his mining interests in Arizona for a few thousand dollars and have forever quit work. He used to go about Phoenix and Tucson importing everyone who had any interest in making to give him an offer for his copper, and let him have a little money with which to take care of his invalid wife and a crippled son. A little later copper began to appreciate and old developed copper mines began to reopen all over the Territory. Presently all the old copper mines were reopening, and with the price of copper at 18 and 18 cents a pound there

WILLIAM SOGGS.

was nothing more profitable in mining. A New York syndicate gave Watson \$40,000 for a half interest in the Durham mine, which he would have sold in 1893 for \$2,000, and then went ahead with the development of the property. At 41 he was poor, and at 50 he was easily worth \$300,000. Such are the marvelous transformations in some mine territories in the mining regions of the world.

**A Picture of Browning.**  
It is said that when Robert Browning was an infant his father would send him to sleep by humming odes of Anacreon, and that he taught the boy the words he wished him to remember by joining them to a grotesque rhyme. Perhaps this last mental exercise had something to do with the poet's exasperating style. Miss Corkran records thus her first childish impressions of Browning: "I had pleased to myself as a general thing. It gave me a shock to see Mr. Browning get with avidity so much bread and butter and big pieces of cake. He never uttered a word that in any way suggested a poetical thought. His coat, trousers and gloves went according to the fashion of the time, his voice loud and cheerful, his thick hair well brushed. Altogether, in my opinion, he looked a prosperous man of business." Elsewhere Miss Corkran records Browning's comment on the charge that he was too fond of "society." He admitted frankly: "I do like to be with refined people who appreciate me. It is a pleasure. Wealthy people have pleasure to read and their houses are pleasant. I am not ashamed to converse with them; I enjoy being with cultured folk. Besides, I find that mixing with them and the friction of ideas are necessary in a writer."

**Proof Positive.**  
Husband (reading)---I'm surprised to learn that a married man writes the fashion notes for the women's page of this paper.

Wife---But, dear, how do you know that such is the case?

Husband---Listen to this item: "There will be no change in the week-books this season." Now, only a married man could have phrased that.

**Mr. Grover's Case.**  
Frederick B. Dec. 28.---Mr. A. S. Grover is now 74 years of age. For the last 30 years he has suffered a great deal of weakness and although he is a temperate man and never used spirits of any kind, his kidneys had troubled him a great deal. He said: "I was told I had Diabetes and my symptoms corresponded exactly to those of a young man who died of Diabetes in this neighborhood. My feet and limbs were bloated quite a little.

"I heard of Dodd's Kidney Pills and at first determined to try them. I took in all ten boxes before I was well and now I can truthfully say that I am all right. The swelling is gone from my feet and legs. I have gained eight pounds in weight and can sleep well at night and every symptom of my trouble is gone.

"It is some time now since I was cured and I have not had the slightest return of any symptom of the old trouble.

**Fifty Thousand Enumerators.**  
In the United States over fifty thousand enumerators working in cooperation with the census are engaged in the direction of these hundred supervisors, are controlled from the Census Office at Washington. These employees fill in the desired information upon the schedules, and the portfolios are then transmitted to the Census Office, where all the work of examination and tabulation is performed. In England and Wales the permanent organization for the registration of births and deaths is utilized for taking the census, and the work is accordingly under the charge of the registrar general.--Century.

**Threatened with Blindness.**  
Little Chance for Justice Brown to Escape This Affliction. Physicians who have given his case consideration declare that Justice Henry B. Brown, of the United States Supreme Court, cannot escape blindness. It is not likely, however, that the country will be deprived of his services.

**Never he nor any of his family ever has seen or drunk or ever heard a concert or been in a church.** Some years ago the Soggs family went to circus in Prescott, and to this day the events of that visit are related as enthusiastically as if the family had peered into the open gates of heaven.

JUSTICE HENRY B. BROWN.

Justice Brown is a native of Massachusetts and is nearing his 69th birthday. He is a graduate of Yale and of its law school and also that of Harvard. In 1869 he was located in Michigan and soon after was admitted to the bar. He was an associate justice of the United States, subsequently became a State Judge, and was appointed by President Grant a Federal judge. In 1891 he went upon the Supreme Court bench.

**Wide Range of the Moose.**  
The range of the moose in North America is of enormous extent, from Nova Scotia in the extreme east, throughout Canada and certain of the Northern United States, to the limits of tree growth in the west and north of Alaska. Throughout this vast expanse of territory but two species are recognized, the common moose, Alces americanus, and the Alaskan moose, Alces gigas, the latter of which is now being hunted to extermination.

**Ancient Proofreading.**  
The editions of books printed two or three hundred years ago are almost entirely free from typographical errors, which may be attributed to the fact that early publishers were generally eminent scholars, and themselves gave much attention to the revision of their proofs. After the printer's other scholars had the request to revise and correct, and as the printer's time was then deemed a matter of small consequence, a perfection was attained which is seldom equaled by modern printers.

At the age of 21 a man is convinced that all other men are fools; at 50 he begins to realize that he is one of the others.

The hard-working clerk is usually stronger for a fall.

**Not Altogether Modern.**  
Breech-loading guns are usually supposed to be a nineteenth century invention. The London Chronicle says that in the shop of a Dublin gunsmith at Cork Hill is on view a breech-loading rifle which was offered to the British war office at the close of the eighteenth century. It was rejected on the ground that it took too much ammunition.

That the breech-loader is older still, and that there is little new under the sun, has been proved at Tobermory Bay, Mull, where Captain Burns of Glasgow, has, with the permission of the Duke of Argyll, been searching for relics of the Spanish armada blown off to have been blown up in 1588 in that far-away water.

With the aid of an old chart the diver went down into twelve fathoms, and came across a bronze breech-loading cannon, four and a half feet long, eight inches in diameter at the breech, and bearing the date of 1583.

The diver also discovered a pistol, heavily rusted with lime, a sword blade and a dagger. The relics are to be exhibited in Glasgow.

# Miss Rose Hennessy, well known as a poetess and elocutionist, of Lexington, Ky., tells how she was cured of uterine inflammation and ovaritis by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:--I have been so blessedly helped through the use of Lydia E. Pinkham's Vegetable Compound that I feel it but just to acknowledge it, hoping that it may help some other woman suffering as I did." For years I enjoyed the best of health and thought that I would stay as do so. I attended parties and receptions thinly clad, and would be suddenly chilled, but I did not think of the results. I caught a bad cold eighteen months ago while menstruating, and this caused inflammation of the womb and congested ovaries. I suffered excruciating pains and kept getting worse. My attention was called to your Vegetable Compound and the wonderful cures it had performed, and I made up my mind to try it for two months and see what it would do for me. Within one month I felt much better, and at the close of the second I was entirely well.

"I have advised a number of my lady friends to use it, and all express themselves as well satisfied with the results as I was."--Miss ROSE HENNESSY, 410 S. Broadway, Lexington, Ky.

The experience and testimony of some of the most noted women of America go to prove beyond a question that Lydia E. Pinkham's Vegetable Compound will correct all such trouble and, at once, by removing the cause, and restoring the organs to a normal and healthy condition.

"DEAR MRS. PINKHAM:--About two years ago I consulted a physician about my health which had become so wretched that I was no longer able to be with my family. I had severe backache, bearing-down pains, pains across the abdomen, was very nervous and irritable, and this trouble grew worse each month. The physician prescribed for me, but I soon discovered that he was unable to help me, and I then decided to try Lydia E. Pinkham's Vegetable Compound, and soon found that it was doing me good. My appetite was returning, the pains disappearing, and the general benefits were well marked.

You cannot realize how pleased I was, and after taking the medicine for only three months, I found that I was completely cured of my trouble, and have been well and hearty ever since, and no more fear the monthly period, as it now passes without pain to me. Yours very truly, Miss PEARL ACKERS, 327 North Summer St., Nashville, Tenn."

When a medicine has been successful in restoring to health more than a million women, you cannot well say without trying it that it does not relieve it will help me. If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass., for special advice. Her advice is free and helpful. Write to-day. Delay may be fatal.

TERRIBLE CASUALTY LIST IN PERE MARQUETTE WRECK.

Thirty-Eight Others Injured, Several of Whom Are Probably Fatally Hurt—Operator Knew Crash Must Come, but Was Powerless.

A Grand Rapids, Mich., special says: The death list resulting from the head-on collision between two Pere Marquette Railroad passenger trains near East Paris Saturday evening stands at twenty-two, with twenty-eight persons injured, several of them probably fatally.

It was the most disastrous wreck in the history of the Pere Marquette system, and instead of being caused, by man's carelessness or mistake, is charged to the wind, which extinguished the red signal light in the outer board at McCord's station, where the westbound train was expected to stop and receive new orders.

Two minutes before the train rushed by McCord's station the light was burning, says the operator there, but in that brief interval the blizzard that was raging extinguished it, and train No. 5 dashed by the station to crash into eastbound train No. 6 near East Paris.

The trains were reduced to a promiscuous pile of broken and twisted timber and metal, with dead and injured piled down and crushed by the fragments of the heavy cars.

Five cars and two large locomotives were jammed into a space ordinarily occupied by three coaches, and the wreckage was strewn across the railroad right of way from fence to fence.

When train No. 5, westbound, whizzed by McCord's station without stopping the frightened operator notified the dispatcher, and then found that his red light had been extinguished. He reported this fact, and then, as the collision was inevitable, there was but one thing to do.

The dispatcher's office called for medical aid, notified the hospital and got the special train in readiness. They then waited for the word they knew must come.

There was no chance for the fast running trains to see each other through the driving blizzard in time to slow down, and in a short time word came from the conductor of No. 5 that they had crashed together and that there was an awful loss of life.

Near by farmers, hearing the crash, also turned out with blankets and did valiant service.

BATTLE WITH CITIZENS.

Bold Robbery of a Bank at Kiowa, Okla.

A gang of five bank robbers looted the bank at Kiowa, Okla., early Sunday morning, and escaped after several hundred shots had been exchanged between the robbers and a posse of fifty citizens of Kiowa.

The robbers dynamited the safe and secured \$2,800 in cash, some of which is believed to have been mutilated by the explosion.

The first explosion was a failure, making a loud report, but doing little damage. The citizens heard the report, and arming themselves with revolvers and shotguns, a volley was fired at the robbers inside, who were visible through the shattered windows. The fire was returned by the guards scattered on the outside.

While the two men on the inside worked, the three outside kept up a steady fire with the posse of citizens. It took three explosions to open the safe.

ONE KILLED AND FOUR HURT

Trivial Dispute Results in Tragedy in Tennessee.

One man was killed and four seriously wounded as the result of a pitched battle near Randolph, Tenn.

The trouble started by a fusillade from a double-barreled shotgun in the hands of a young white merchant named Tom Hollingshead, and the volley returned by John Jackson with a pistol. Hollingshead fell dead with a bullet through the heart. John, Walter and Henry Jackson, and Andrew Pugh, negroes, were seriously wounded. The trouble arose over the settlement of a few dollars.

INCREASE OF TENSION.

Reports that Russia Controls Korean Army.

The London Standard's Tien Tsin correspondent has received a report, dated a few days ago, to the effect that a secret treaty has been signed between Russia and Korea whereby Russia obtains control of the Korean army through Russian instructors.

The correspondent declares this will greatly increase the tension in the far east.

The Daily Mail's Kobe correspondent says it is reported that the note to Baron Komura Rosen, the Russian minister, in response to Russia's reply to the claims of Japan, had a paragraph to the effect that only two weeks would be allowed for an answer. This period expires Jan. 5.

This report finds no confirmation from any quarter.

Special cablegrams from the far east printed in morning newspapers reiterate the reports of alleged war preparations, but the Japanese securities have recovered the lost values, it is evident that little importance is attached to these rumors in financial quarters.

The correspondent of the Daily Mail at Sporey, N. S. W., cables that the Japanese government has placed orders for large quantities of pig-lead with New South Wales concerns, and that the presumption is that this lead will be used for the manufacture of bullets.

NEGROES ATTACK WHITES.

Fierce Race War in a Suburb of Cincinnati.

In a race war Friday at Lockland, a suburb of Cincinnati, O., one negro was shot and seriously wounded.

The trouble was the result of a dozen encounters the white residents have had with the colored inhabitants within the past week. Friday several colored men, led by Wheeler Stone, sought the white men at the Salvation Army headquarters to settle their differences. On their arrival at the meeting they immediately attacked the whites present. The fighting was furious for a few minutes, when George White drew a revolver and shot Wheeler Stone in the arm. The negroes then retreated. More trouble is feared.

POOR GIRL MUST GO BACK.

Arrived on Steamer Cedric to Learn of Lover's Death.

Lillian Lovell, who was to have met at New York and married Ambrose Good of Newcaston, Pa., who lost his life in the railroad accident at Conneleville, Pa., Wednesday night, arrived Friday on the steamer Cedric from Liverpool and was informed at quarantine of her lover's death. Miss Lovell, who had been worrying because the delay of a day in the vessel's arrival would cause a postponement of her wedding, was grief-stricken over the news. As she came over in the steamer, and has neither friends nor relatives to take charge of her, she must, under the law, be returned to England.

TRAGEDY IN YORK STATE.

Farmer Murders His Children and Hangs Himself.

Brooding over his inability to purchase suitable Christmas gifts for his motherless children, Joseph Phillips, a Hollowville, N. Y., farmer, Thursday night murdered the children and then hanged himself in a neighborly barn.

Phillips had complained lately of his poverty and it is believed his mind became unsettled.

With an ax in hand Phillips entered his home Christmas eve and crushed the skulls of two of his ten children, aged 11, and Carrie, aged 10. The oldest boy was killed in bed and the others while they were playing on the floor.

For the Crime Ellsworth DeFrance Served Fifteen Years.

Ellsworth P. De France Wednesday left the Sioux Falls, S. D., penitentiary a free man, after having served a term of fifteen years, less good time allowance, for the theft of a 2-cent postage stamp. The case is one of the most remarkable in the history of western courts. De France was convicted in the United States courts for Nebraska of holding up a mail carrier. Although it was shown at his trial that he secured only a postage stamp he was sentenced to imprisonment in the Sioux Falls penitentiary for life. President McKinley commuted this to fifteen years.

KILLS WOMAN AND HIMSELF

Kansas City Man Fires When She Refuses to Wed Him.

Scotard W. Lee, aged 30, shot and killed his sister-in-law, Florence Lee, aged 22, at her home in Kansas City, Mo., Wednesday and then made a tragic effort to end his own life. Lee was a widower and his sister-in-law had been his house-keeper.

Wednesday she announced her intention of marrying a Kansas City man and made preparations to leave the house. After vainly trying to persuade her to marry him, Lee shot the woman four times, and then fired two bullets into his own breast.

When the neighbors broke into the house the woman was dead. Lee snatched up a razor, and running into the street, followed by a half dozen persons, slashed his throat as he ran. He is fatally wounded.

An Evil in Food the Law Should Reach.

In reference to the use of alum baking powders Prof. Schweitzer, of the State University of Missouri, says: "The deleterious effects of alum and the soluble salts of alumina upon the human system, even when used in small quantities, are too well known to need relating; their use in baking powder is dangerous, and should be restricted."

The effects of the continuous use of alum baking powders are thus summed up in a medical publication: "Alum taken into the stomach retards the digestion of the food.

"It is an irritant which inflames and irritates the stomach and intestinal canal.

"It is an astringent and tends to constipate the bowels, which interferes with digestion.

"It renders the albumen of the food partially insoluble, and therefore takes away from its nutritive value.

"It is absorbed into the blood, which it tends to thicken and coagulate. The free flow of the blood through the organs of the heart is thus retarded.

"Its continued absorption into the system causes some forms of nervous prostration and many of those affections of the nerves from which both women and men suffer.

"Fourteen grams of alum have caused the death of a child. Larger doses have frequently resulted fatally in the case of adults.

"No drug so powerful and deadly, no matter in what proportions it may be employed, can safely be used in any article of food."

ANDREWS IS FREE.

Accompanied by his attorney and several newspaper men, Frank C. Andrews, former vice president of the wrecked City Savings Bank of Detroit, Mich., who was released from Jackson prison on parole issued by Gov. Bliss, after serving a year and four months of his fifteen year sentence, arrived in Detroit Wednesday. He went immediately to his home.

A Lansing, Mich., special says: Gov. Bliss said that in granting a parole to Frank C. Andrews, his action was due to his investigation, which convinced him that if at liberty Andrews could aid materially in ending litigation over the affairs of the bank and in realizing from the assets.

STATE OF NEBRASKA

DECIDED MILES WILL CASE.

Judge Thompson of Grand Island, who is holding district court in place of Judge Still at Falls City, has handed down a decision in the famous Miles will case, which has been pending for a long time. The decision is favorable to the defendant, Joseph H. Miles, who under the first will was practically the sole beneficiary of his father, the late Stephen P. Miles, who left a fortune estimated at \$1,000,000. The test will presented was found in 1883, some time after the old gentleman's death, in a unlocked valise in a hotel at St. Paul, where deceased had often stopped, and was duly probated, although contested by the other heirs.

The will was probated in the usual manner, and a large estate was distributed. The defendant, Joseph H. Miles, who claims to have drawn a later will revoking the first instrument, and on the strength of his testimony the contestants attempted to break the will and thus secure the other half of the share in the distribution of the estate.

In his decision Judge Thompson holds that the evidence of Galsion is not entitled to evidence and this is made the basis for the decision. A motion was at once made for a new trial, but was overruled and the attorneys gave notice of an appeal to the supreme court.

SEAL IS ALL RIGHT.

Art Critics Who Attacked the Seal, Not Good Interpreters of Nature.

Art critics have now turned their attention to the composition of the great seal of the state of Nebraska. It is estimated to the care of the secretary of state at Lincoln. The statute enacted by the legislature in 1867, describing the seal, among other things requires "shades of wheat and stalks of growing corn." In this instance "corn" is supposed to mean the grain and not the animal in sight the critics are much distressed. The corn is there but the impression is made with a fine indifference from years of use. All the constitutional lawyers so far consulted assert that any amendment issued by the governor would be null and void. The seal of the state will not be invalidated but the committee does not stand out plainer or show indications of a better will.

SHOCKING SUICIDE.

Bride of Six Months Kills Herself Without Known Cause.

Mrs. William Spain, a bride six months ago, died at 7 o'clock Monday night from the effects of a bullet in her heart, and the coroner declared she committed suicide.

The autopsy before the tragedy, which was held at her home, showed the house laden with Christmas presents, laughing and talking. Spain fled to leave the room and his wife remained in a room. The husband rushed to her just in time to catch the lifeless form of his bride. The wife was aged 19 and Spain is 21. He is a salesman.

FIVE YEARS FOR WIFE MURDER.

Judge's Instructions Preclude a First Degree Verdict.

A manslaughter is the verdict returned by the jury that heard the evidence in the state's case against Karl Dieschberger, charged with murdering his wife Aug. 21 last by beating her. The jury returned a verdict of manslaughter and Judge Benson said he had instructed that first degree murder was not a crime under the evidence, imposed a sentence of five years servitude.

Close Call for Lineman.

Jack Hodson, a lineman for the Nebraska Telephone Company, had a very narrow escape from death. He was caught between a tower of live wires through which 2,200 volts of electric current was passing. It looked for a moment as though he might not get away. He was rescued by his fellow workers and taken to the hospital. He is now recovering from his injuries.

The autopsy before the tragedy, which was held at her home, showed the house laden with Christmas presents, laughing and talking. Spain fled to leave the room and his wife remained in a room. DECIDED MILES WILL CASE.

Judge Thompson of Grand Island, who is holding district court in place of Judge Still at Falls City, has handed down a decision in the famous Miles will case, which has been pending for a long time. The decision is favorable to the defendant, Joseph H. Miles, who under the first will was practically the sole beneficiary of his father, the late Stephen P. Miles, who left a fortune estimated at \$1,000,000. The test will presented was found in 1883, some time after the old gentleman's death, in a unlocked valise in a hotel at St. Paul, where deceased had often stopped, and was duly probated, although contested by the other heirs.

The will was probated in the usual manner, and a large estate was distributed. The defendant, Joseph H. Miles, who claims to have drawn a later will revoking the first instrument, and on the strength of his testimony the contestants attempted to break the will and thus secure the other half of the share in the distribution of the estate.

In his decision Judge Thompson holds that the evidence of Galsion is not entitled to evidence and this is made the basis for the decision. A motion was at once made for a new trial, but was overruled and the attorneys gave notice of an appeal to the supreme court.

SEAL IS ALL RIGHT.

Art Critics Who Attacked the Seal, Not Good Interpreters of Nature.

Art critics have now turned their attention to the composition of the great seal of the state of Nebraska. It is estimated to the care of the secretary of state at Lincoln. The statute enacted by the legislature in 1867, describing the seal, among other things requires "shades of wheat and stalks of growing corn." In this instance "corn" is supposed to mean the grain and not the animal in sight the critics are much distressed. The corn is there but the impression is made with a fine indifference from years of use. All the constitutional lawyers so far consulted assert that any amendment issued by the governor would be null and void. The seal of the state will not be invalidated but the committee does not stand out plainer or show indications of a better will.

# Bronchitis

I have kept Ayer's Cherry Pectoral in my house for a great many years. It is the best medicine in the world for coughs and colds.

All serious lung troubles begin with a tickling in the throat. You can stop this at first in a single night with Ayer's Cherry Pectoral. It is also for bronchitis, consumption, colds, and sore throats of all kinds.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. Know your own mind.

Herr H. Hansen ist bei Herrn S. Jans über das Fell zu Besuch.

Editor Eugene Hufe machte einen Besuch über's Fell bei seinem Bruder William in Norfolk.

Am Neujahrstag Morgens um halb elf Uhr wird in der Deutschen Kirche Gottesdienst stattfinden.

Fraulein Käthe Froschhäuser von Ostfings ist bei ihrer Schwester Frau G. Göttmann bei Carroll wohnhaft zu Besuch.

Herr Herman Sund, Sektions-Borarbeiter in Randolph war hier um mit der Familie seines Bruders, Karl Sund das Fell zu feiern.

Frank Davey und Frau von Ponca, Schwiegerjohn und Tochter von Land-agent Steen machten einen Festtagsbesuch bei ihren Liebsten dahier.

Herr Johann Frid sen. reiste am Mittwoch letzter Woche nach Hastings wo er in Zukunft wohnen wird und zwar bei seinem Sohn Jakob.

Fritz und Paul Keller, welche bei ihrem Onkel Herrn F. Bolpp sind, machten über diese festliche Lage einen Besuch bei den Eltern in Bloomfield.

Herr J. D. Goll verkaufte ein seiner Häuser an eine Frau Bannister, Verkaufspreis \$600. Die Agenten Steen und Houfer waren Koffer dabei.

Herr Martin Krüger verkaufte seine 160 Acker-Farm in der Nachbarschaft von Laporte an Herrn Ed Sundbust; Verkaufspreis \$60 den Acker. Die Agenten Steen & Houfer vermittelten.

Frau R. Maxwell, deren Gatte die Farm des Herrn Webers in der Nähe von Bedden als Vormann bearbeitet, ist bei ihren Eltern Herrn D. Meyer südlich von Wayne über die Feiertage zu Besuch.

Das Weihnachtsfest ist wieder über, doch ist der Segen desselben hoffentlich in vieler Herzen geblieben, namentlich daß der Herr Jesus auch für die Mensch geboren ist und sie Gott zum ewigen Eigentum erkauf hat.

Die Herren Hefersch, Göttmann und Günther gingen vor Weihnachten nach Lincoln, erster um seinen dort lebenden Bruder zu besuchen, letzterer um Land, Leute und Verhältnisse kennen zu lernen. Sie geben am 2. Januar zurück zu kehren.

In der Deutschen Evangel. Luth. Kirche, P. O. Karpenstein, Pastor, wurde am Weihnachtstag Morgens Predigt-Gottesdienst gehalten. Am Abend versammelte sich die Sonntagsschuljugend und trug ihre Gesänge und Gedichte vor und sang ihre Weihnachtslieder. Den Schluß des Programmes bildete die Austeilung der üblichen Geschenke, wobei auch Lehrer und Lehrerinnen, Organisten und der Pastor und seine Frau bedacht wurden.

Wiederum heigt sich ein Jahr seinem Ende zu. Obwohl keine große welt-erschütternde Umwälzungen in demselben stattgefunden haben, so war es doch in vielen Beziehungen Epochenmachend, und erst der Geschichtsschreiber, der nach Verlauf genügender Zeit, wo sich der Schaum des Zufälligen von den Tatsachen geschieden haben wird, wird einer künftigen Nachwelt zeigen welche gewaltige Rolle das Jahr 1903 in der Kultur und Zeitgeschichte der Menschheit gespielt hat. Wir als Nation haben Ursache zum Dank, denn auf aller ehrsüchtigen Arbeit und Unternehmungen ruhte der Segen des Erfolges. Der Landwirt hatte gute Ernte und nutzbringende Preise für seine Produkte zu verzeichnen, die Industrien hatten gute Nachfrage nach ihren Erzeugnissen. Und auch der Kaufmann erfreute sich an den Vorteilen des allgemeinen Wohlstandes. Daß aus dem wasserflutigen Jahre der sogenannten "Goldfinanz" ein gut Teil Wasser abgezogen wurde, ist wohl nicht zu beklagen, sondern wird den Herrn "Grünberner" eine heilsame Lektion geben. Eine gute Dosis Salz der Ehrlichkeit mag auch diesem etwas kranken Jahre wieder zu der erwünschten Gesundheit verhelfen. Zu beklagen sind die vielen Arbeitsstellen, welche die gefährdrohenen Umfänge annehmen und oft dem eigenen Fleiß mehr Schaden als Nutzen stiften. Ebenfalls ist zu beklagen, daß die Corruption, d. h. die Unehrlichkeit und Bestechlichkeit der Beamten der verschiedenen Zweige der Gemeinwesen so groß ist, und zwar hat diese Festschanden alle Kreise der Gesellschaft und erduldet Verwaltung der Gemeinwesen angegriffen. Doch ist auch da ein hoffnungsvolles Zeichen der Besserung zu sehen, nachdem dieser Schaden bloßgestellt ist, wird das Meiste des Gerichts und der öffentlichen Meinung auch ausfinden und Wandel schaffen. So treten wir aus dem alten in das neue Jahr mit dem besten Willen und Hoffnungen für den Einzelnen und die Gesamtheit.

Beschiedene gute Wohnhäuser, etliche Baupläne und 25 Acker gutes Land billig zu verkaufen unter günstigen Bedingungen. J. D. Goll.
