Judge Norris Lecture—Mathematical Prodigy in Sioux City—Waynotes Figuring on Cultivating Rosebud Land—Deputy Postmaster Resigns—Attorney Lundberg vs. a Swarm of Bees.

Fremont is to be afflicted by a street carnival next month.

The News is the name of a new paper launched at Bancroft by W. H. Weeks.

Frank Parody of Wiener has lost the sight of one eye as the result of an accident July 4.

Harvest hands are beginning to pour into the wheat fields of the Dakotas where wages run from \$3 to \$4 per day.

The carnival company which was in Wayne a few weeks ago, held forth before small crowds in West Point last week.

Wesley Nusnetter, aged 6 years, was trampled to death by a horse from which he had fallen, at Alnsworth Monday.

The Pender papers are exchanging vitriolic invectives to keep life and interest from flagging during this dull and sultry season.

Attorney W. P. Cowan of Stanton dislocated one of his ankles and fractured one bone by his foot turning over on a clod of dirt on which he stepped.

G. W. Hyatt went to Wayne Wednesday and remained a couple of days owing to his brother who lives at that place being sick—Randolph Reporter.

The state volunteer firemen's tournament takes place in Norfolk Tuesday, Wednesday and Thursday of next week. Norfolk is preparing to entertain a big crowd.

A patent medicine vender attracted a crowd on Main street Saturday afternoon. He proved a good singer and an adept talker and sold a considerable quantity of his goods.

Invitations have been issued for a party tomorrow evening at the home of Mrs. Dan Harrington, given in honor of her cousin, Miss Marie Snyder, who arrived here Friday from Michigan.

To give opportunity to register for the Rosebud opening inspired many who had hitherto neglected to take out naturalization papers, to become full-fledged citizens of the United States.

The Stanton Picket appeals to its townsmen to mow down the forests of weeds about town. In these days of heat and rain weeds grow luxuriantly and every town has a task in keeping them down.

Lightning struck the residence of Alex Jeffrey on college hill during the storm Monday and tore off a chimney and did other slight damage. Occupants of the house escaped without injury or even a shock.

If you haven't a typewriter and convey the slightest suspicion that you

will ever need one, you will be frequented by agents representing different companies and will be convinced that each make is better than every other one.

Otis Lewis of this place, on Sunday put a match in a small pill of powder, which, exploding, burned his face and neck terribly, and especially his eyes, which were so badly burned, that it was at first feared he would lose his sight altogether.

Silas Woods, an Omaha Indian, killed his brother-in-law, Geo. Phillips, on the reservation, last week by pounding him with a club. It is said Phillips was drunk and insisted on having a row with Woods who finally inflicted injuries which proved fatal.

Most of the gamblers, thieves and thugs who have gathered at Bonesteel for several months and carried on a series of assaults and robberies, have landed in Nebraska, and particularly towns in this part of the state should be on the guard against them.

Winside baseball boys handed Norfolk a defeat on the home grounds yesterday afternoon in an interesting game as has been seen by the fans of this city for a good long while. The score was 9 to 7. The game took place on the old park, north of the city on Fourth street.—Norfolk News.

From the appearance of Attorney Lundberg's fists the past week one would judge that he had introduced the fashion of wearing skin-colored boxing gloves. As a matter of fact, however, he had a controversy with a swarm of bees, and they maintained their ground by pegging the backs of his hands.

The hand of improvement is gradually replacing Wayne's old wooden sidewalks and crosswalks with new and stylish cement walks. Along Main street several such improvements are being made and it is to be hoped that the whole of Main street, and in fact every street in town, will soon show the same improvement.

Registration for the Rosebud land lottery closed Saturday with 106,293 people entered for chances. Of that number 57,434 registered at Yankton and 34,034 at Bonesteel. The drawing takes place at Chamberlain today. Then will follow a rush of the winners to Bonesteel to look over the land and make selections and file.

Chas. F. Smith who has been deputy postmaster in Wayne for a number of years, has withdrawn from the position to be advanced to the railway mail service which he will soon enter. He is an efficient man in the postal department and has a bright future. Miss Helen McNeal who succeeds him as deputy here, is well qualified by education and experience for the promotion.

Wayne may truly be classed among the most prosperous cities in Nebraska. That its business is great and is rapidly growing, the people who crowd its streets every day, testify to. The town is also a beautiful one. Nearly every street is bordered by long lines of fine shade trees, and the residences and grounds around them are marvels of good taste. As a business centre of one of the richest counties in the state, and as a place for residence, it has few equals. Its citizens are ambitious and

progressive; indeed, unquestionably it is destined to continue its growth and prosperity until the population numbers 10,000 at least.

Sheriff Meers was in Winside Monday to serve summons in the case of Susie Sanders vs. John R. Monday, against whom suit is commenced to recover \$10,000 on account of personal injuries alleged to have been sustained by the plaintiff by falling into the cellar under the store of the defendant about a year and a half ago. The case will appear for trial at the next session of the district court.

Each of the several hundred Wayne county people who registered for chances in the land drawing which takes place at Chamberlain today, is figuring on moving to the Rosebud next month and improving a quarter section of land. The style of architecture to follow in building their houses, the kinds of trees and shrubbery they will set out and the most profitable crops to plant, are annoying questions that are being considered and must soon be decided.

The lecture by Judge Norris Thursday evening was attended by an appreciative audience and resulted in adding \$89 to the public library fund, for which purpose it was given. His lecture treated of conditions in the Philippines and was presented in a very interesting style, holding the close attention of his hearers throughout. This lecture was the last of the series for the benefit of the library, and the ladies who have promoted and managed them, deserve praise for the efforts they have put forth for a worthy cause.

Arthur Griffith, the Randolph mathematical prodigy who exhibited his skill in the Wayne college a few months ago, has been in Sioux City making arrangements for a public performance there. In an article concerning his gift, Monday's Journal says among other things: "Griffith adds and multiplies with a rapidity and an accuracy that is nothing short of remarkable. He says he has been interested in figures all his life. According to his mother, he manifested this interest almost before he could say 'Goo-goo'" which would indicate that his aptitude at figures is natural rather than acquired, although he studies continually and claims already to have figured out 500 short systems of mathematics."

A commercial club will be organized at the opera house in Wayne tonight with the assistance of J. F. Hanson of Fremont. Mr. Hanson promoted the club at Fremont and it is one of the best in the state. He will show the merits and benefits of such an organization and outline methods of procedure in starting and maintaining it successfully. A union of effort among business men is indispensable in guarding the best interests and furthering the welfare and growth of a city, and the commercial club, with proper system in its work, is accepted as the most efficient manner to carry out that purpose. As a preliminary step O. A. King saw a number of the business men Tuesday, and they gladly gave their names as members of the proposed club, signifying their approval and desire to cooperate. There should be a large attendance at the meeting tonight.

Frosted Windows
A source of constant annoyance and injury to storekeepers, especially retailers, in extremely cold weather is the gathering of frost on their display windows. Various devices have been tried to remedy it, such as the application of glycerin and other chemicals, but these are generally of little avail.

In northern Russia, where zero weather is not an uncommon experience, the owners of display windows employ as an effective protection against frost a three-inch space between two panes of glass. The outer pane is rendered as nearly tight as possible by caulking and pasting strips over the crevices. A second pane is then fitted and inserted about three inches within the first. This double sash is said to keep out moisture, and if the glass is kept clean and dry is said to be effective. At any rate, this plan is worth trying in these days, when window dressing has become so important an art. The device involves sound scientific principles.—Boston Herald.

THE POPULAR PULPIT

Health Before Wealth.
Nine out of ten ailments first show themselves in constipation. Nature's warning, if left unheeded, means serious chronic trouble later on. Medical statistics show that a greater number of people suffer from constipation than from all other diseases combined. A great talk is made about constipation, but if the truth were known, constipation kills more people than consumption. Within the last few years a medicine has been discovered and made known to the American people, of such merit in curing constipation and its consequences that now over ten million boxes of CASCARETS are sold every year, the greatest sale ever attained by any one medicine in the world, and this is the strongest proof that it is the best and will do all and more than claimed. If you are a sufferer you are not doing right by yourself or your family if you fail to give CASCARETS a trial, and right here is the cure. It is a true and reliable medicine because all great successes breed imitations. The genuine tablet is put up in metal boxes and has the word CASCARETS with the long-tailed "C" on the cover. Every Cascairet tablet is stamped C. C. C.

WAR IS HOT. You never saw war so hot as it is now. It has been going on for weeks after and then you don't care. There is a war between Japan and Russia. Japan is said the Flory Kingdom because of the flour which grows there in great abundance, including the flour of shavily, which also grows there in great abundance. The empire of Japan is said the McAdoo. His brother is made of new work and lives in Jersey City. The chief industry of Japan is raising bamboo and arnyas, hence the popular song The Man Behind the Gunz urgle the Bam boe Tree. Russia is divided into two continents, Europ and Ashia. Even then there is not room, and most of the Russians come to America as soon as they grow weaker, hence the war.

Not Making a Good Start.
In the New Zealand Medical Journal appears this story: On walking to the scaffold in solemn procession a criminal once called to the governor, by telling "me the day of the guv'nor," Monday," answered the surprised governor, "Monday," exclaimed the prisoner in disgusted tones, "Well, this 'ere's a fine way of beginning a week, ain't it?" And he marched on with dissatisfaction imprinted on every line of his face.

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MISS PINKHAM:—Your medicine is indeed an ideal woman's medicine, and by far the best I have ever used for every ache and pain I have had. I suffered misery for several years, being troubled with menorrhagia, my back ached, I had bearing-down pains and frequent headaches. I would often wake from restless sleep and in such a state that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief, but finding that their medicine did not seem to cure me. I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me. I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to purchase and use Lydia E. Pinkham's Vegetable Compound."—Miss NELLIE HOLMES, 540 N. Division St., Buffalo, N.Y.—1899. For full particulars of this medicine see prospectus sent free.

UNCONQUERABLE MEN.
By Rev. C. O. Wright.
Stand fast in the faith, quit you like men, be strong.—I. Cor., xvi, 13.
It is the spirit in a man that makes him unconquerable. This quality we call by many names, such as virtue, character, integrity and manhood. Manhood is a good name for it.
In the beginning God made man. He is now recreating man. Jesus delighted to call himself the son of man, and the apostle exhorts us to behave like men, not like heroes, geniuses, or angels—just like men. Mere man is the greatest thing this side of God, and manhood the finest quality this side of gold.

VALUE OF WORLD'S FAIR.
By Rev. William W. Wilson.
The world's fair at St. Louis, stupendous in size and beautiful in its architectural and scenic effects, is now demanding our attention and appealing to all citizens for patronage and indorsement. Its first claim to our attention is its greatness. In size it covers all previous world's fairs, covering more ground and containing more buildings than any of those which have preceded it.

THE BEST OF MINORITY LEADERS.
Never has a Republican speaker possessed the good will of the opposition in the House as Uncle Joe Cannon has it to-day, and surely not since Mr. Carlisle's time has a Democratic leader on the floor had the Republican good will and admiration bestowed upon John Williams in the present Congress. It was no small task to hold together and in harmony the discordant elements of his party throughout the session, but he did it adroitly, carefully, successfully. He is not a theorist, but he tolerated the theories of others without stamping them with the party brand and giving them the full approval of his leadership. He was not led off into any socialistic vagaries, for he knows a thing or two, and among other things he knows an lattigative from a referendum when he sees them, but he made no display of purging his party of its socialist adherents. His steady presence seemed to be to occupy such rational grounds on the issues that have divided parties and created factional confusion, as to rally around one standard all the scattered forces of Democracy for the impending campaign. That he did this skillfully, under all the circumstances, is universally conceded.—Leslie's Monthly.

STORY OF A GREAT SCANDAL.
Ferdinand DeLesseps and His Competition with the Panama Canal.
Special interest attaches to the Panama canal scandal in France because the great undertaking has become an American enterprise and because, from partisan sources, there have been grave charges of financial crookedness in connection with securing a title to the isthmus of Panama with a canal was projected in May, 1879. De Lesseps went personally over the ground in 1880, said that the waterway could be completed in eight years and that from the start it should pay 7 per cent. of better, upon the investment. It was his name and standing that interested the French people, for he had built the Suez canal, an achievement of his own suggestion. It was opened with imposing ceremonies in 1869, the Empress of France leading the procession of royal personages. The man who had done so much to honor his country upon the eve of her misfortunes was beloved of his people and their confidence in him amounted to enthusiasm.

SIZE OF OCEAN STEAMERS.
Increased Over Fifty Per Cent During Quarter of a Century.
The average length of ships has increased some 50 to 60 per cent during the last quarter of a century. The 455 feet of the Britannic of 1874 seem almost insignificant compared with the 702 feet of the latest White Star liner, the Cedric, and the 700 feet of the projected Cunarders. The 1,000-foot vessel will assuredly not be long in coming. Berths are even now devised to accord with this standard, and entrance locks and graving docks are also being lengthened. A few years back 500 feet were considered an "extreme" dimension, nowadays this is deemed very moderate. The length of an entrance lock does not, of course, absolutely limit the size of vessels.

PRAIRIES BECOMING FORESTS.
Trees Now Growing Abundantly in Sections Traded Bare.
The largest area of timber land in Kansas is the Yaggy tract of 500 acres, near Hutchinson, says the New York Sun. This has been under cultivation for 12 years. In that time \$300,000 worth of posts have been sold and \$100,000 worth more are ready to be taken. All of this production has been secured simply by thinning out the trees where the growth has been too thick, and all of the largest trees are still left for future profit. This gives an idea of the immense profit in reforestation.

By Rev. William D. Leach.
God has a big job on his hands with his hundreds of millions of men and women. He runs the machinery of the universe to turn out the best of men and women. It didn't run long before there was a strike. Adam struck. God did nothing rash. To Adam God said: "Come, let us reason together. This is the first instance of arbitration."

THE FAIR STORE

Is getting ready to receive an immense stock of new fall goods. Mr. Reiffel, of the firm, will be in New York five or six weeks buying the best lines that the markets afford, and the people of Wayne county will profit from the fact that he knows where and how to buy. This store is now headquarters for bargains in all lines.

Bear in mind that we want your butter and eggs and will pay the highest prices in exchange for goods at lowest prices.

NEW MANAGEMENT AT CENTRAL MEAT MARKET

Having succeeded Fred Volpp at the head of the Central Meat Market, I shall do my best to maintain the high standard of the place and merit the confidence and patronage of the public, serving the choicest meats and keeping always on hand everything in our line in season. An experienced butcher, understanding every detail of the work, is employed and will add materially to the good service of the market. We guarantee fair treatment and general satisfaction, and respectfully solicit your business.

It is deplorably small business to reflect discredit on those who fail to patronize you.

An Indiana preacher has just quit the pulpit and gone into the laundry business, inspired, no doubt, by the adage that cleanliness is next to godliness.

It is said the attendance at the St. Louis exposition falls far short of expectations. The fair is not in the right climate for a mid-summer attraction.

In nominating their vice presidential candidate the democrats doubtless recognized the desirability of age, experience and money, all of which the man of their choice has in abundance.

C. J. Rundell who has been a popular leader in Wayne county, is among the members of that party who say they expect to vote for Roosevelt. They feel that they cannot consistently support Parker.

The democratic state convention is to be pulled off at Lincoln August 10, when Chief Justice Holcomb will probably be nominated for governor. Other candidates to be sacrificed for other offices will no doubt be urged forward in time.

Whether democrats are kicking at their assessor from force of habit or from grounds of reason, they should hereafter carefully avoid electing members of their party to office. This is a course in which republicans will cheerfully co-operate.

President Roosevelt was formally notified yesterday of his nomination by the Chicago convention and gave his speech of acceptance, in which he reviewed the policies of his administration and expressed his views on the party's platform.

Having reason to believe that Bryan is secretly indifferent to the success of Parker, the democrats and populists of Nebraska will contribute enough votes to Roosevelt to swell his majority in this state far beyond former estimates. A majority of 60,000 is now expected.

Unwisdom is felt in some quarters over the prospect that Parker, if elected, would not select the proper kind of democrats for members of his cabinet, ignoring such men as Olney. As a matter of fact, there should be no fear that he will ever have the privilege of appointing a cabinet.

It is suggested that if Mr. Parker is elected his secretary of commerce and labor should be August Belmont. Belmont hasn't any conspicuous calouses on his hands but he has connection with thirty-five trusts and this would give him exceptional advantages for getting a line on them.—Fremont Tribune.

By organized effort many things in the interest of Wayne's welfare may be accomplished. We may increase the city's stability and growth by laying aside petty differences, avoiding factionalism and getting together in a spirit of harmony. That which benefits the whole community, benefits each individual in it. An energetic commercial club is exactly the institution needed.

Under the head of "Babies starved to death," the Lincoln State Journal reports Omaha to have a "baby farm," under the diabolical and starvation management of which two babies died last week and three others will die. Those wretches, whether male or female, who thus abuse or starve little children to death, are deserving of a much hotter brand than any heretofore thought of, and it is to be hoped they will in due time get there for a long time.

so far, the Japanese have held and played the winning hand. In nearly every naval encounter, they have also been victorious. What the end will be, no one can tell, but Japan, though a small country, furnishes as brave and successful an army of soldiers as the world has seen in a hundred years. The Russian generals themselves admit this, and the constant triumphant march of the Japanese, shows it.

The big strike in which the packing houses of Chicago, St. Louis, South Omaha and Sioux City were involved, and in which 50,000 workmen went out, was supposed to have been settled on Thursday of last week. But, unhappily, the supposed settlement was torn open the next day, and the workmen were all ordered out again. Hence the situation is now at sea again. Efforts are being made to settle this second strike, but how long it will last or when peace will again prevail is a question of doubt.

The Columbus Journal suggests something new but appropriate in the way of political entertainment. As a joint debate between the two congressional nominees would be embarrassing to Mr. McKillop who is divided against himself, standing as he does on two contrary platforms, it is proposed that he hold joint debates with himself. He could lead off in defense of his position according to the Kansas City platform and then follow with a ringing speech denouncing that doctrine and setting forth the merits of the St. Louis platform. It would be something unique in political discussions and draw packed houses.

Every newspaper is filled with accounts of the diabolical and unparalleled list of crimes and criminals now prevailing everywhere. Assaults, robberies, frauds and murders, hold the attention, and are common in every eastern city. Here, in the west, crime is not so frequent occurrence, the worst criminal in this neighborhood having been at Bonesteel last week, where hundreds of "holdups" occurred, accompanied by some shooting and a few killed. As a matter of fact, all the long catalogue of crimes is the result of an inordinate desire to get plunder, by fair means or foul. That "the love of money is the root of all evil," could not be more plainly demonstrated.

In view of the strike condition and the scarcity and high prices of meat, the Kansas City Journal advises people to adopt a vegetable diet. It says: "A great deal of suffering in consequence of the strike may be prevented if people will not sensibly and adopt a largely or wholly vegetarian diet. Meat is far from being so necessary and healthy a food as most Americans consider it. Excessive meat eating is the cause of a large proportion of cases of appendicitis. A meat diet heats the body and produces particularly disagreeable and injurious effects at this time of year. There is a score or more of other edibles that are more nutritious and easily digested than pork, beef, poultry, or even mutton. If people will use judgment in selecting their vegetable substitutes for meat they will be stronger and more energetic than without it."

Wayne regrets the prospective exodus of a lot of its business men to the Rosebud country to take possession of government land contributions, but it is hoped they will derive full enjoyment from the independent pursuit of agriculture and that their fertile acres will respond to their industry with abundant crops.

The HERALD is requested to correct a paragraph appearing in last week's Hoskins' news. It mentioned that "Oscar Case, wife and children" of Belden were visiting in Hoskins. As the HERALD is informed that Mrs. Case has been dead more than a year, the item should have read merely "Oscar Case and children."

A party of Wayne ladies drove out to the home of Mrs. W. L. Jones today and were to be met there by a crowd of Winside ladies and all were to join in a 6 o'clock dinner. Ladies who went: Mrs. H. F. Wilson, Mrs. C. Schulteis, Mrs. Phil Kohl, Mrs. A. E. Ellis, Mrs. W. F. Norris, Mrs. W. H. McNeal and Mrs. A. G. Parker.

Tuesday night Dr. Blair was called to the residence of Mr. Cullen, seven miles south of Wayne, to attend that gentleman's 12-year-old son who had fallen from a barn and fractured his left arm at the elbow. The accident occurred about 7 o'clock in the evening, and the fracture, being in the joint, is considered a very severe one.

A party of young ladies intended to go to Wakefield for an outing last evening, but finally changed their plans and had supper and a merry time on the lawn at Mr. Tucker's residence. Names of the party: Misses Hattie Weber, Monte Theobald, Marie Snyder, Mamie Feather, Laura Lundberg, Fay Britton, Ethel Norris, Jessie Tucker and Lou Brenner.

Rev. E. E. Duley and family returned Tuesday from a visit at LaCade, Mo. Mr. Duley found considerable improvement in Missouri, not only in material development, but advanced citizenship. Of course the just-riden Ozark settlements are far south of where he visited, but they may have improved a little through the efforts missionaries and investors from the north.

It is estimated that the crooks at Bonesteel reaped a harvest of \$75,000 during the three weeks' registration. The government proposes to see that the lawless element is kept away from that town during the filling or move the office for that purpose to some other point. The citizens at Bonesteel, however, have promised to maintain law and order in the future.

Rev. A. F. Ernst of Macomb, Ill., and his wife and son, have been visiting Mrs. Ernst's parents, Mr. and Mrs. W. O. Gamble of Wayne a few weeks. Mr. Ernst was pastor of the Presbyterian church at this place from 1892 to 1895, and is now pastor of the Presbyterian church at Macomb, with a membership of 899. While living at Wayne, Mr. Ernst purchased a valuable farm near here, which he still retains.

The following composing the Altona and Soranton Hollow ball teams, respectively, lined up for a swift game of ball on the former's grounds Sunday afternoon: Altonites: W. Stubbs, P. Rogganbach, E. Stubbs, F. Rogganbach, Jensen Guthridge. Soranton Hollow's: Henry McGill, Hugh McGill, Art McGill, Pat McGill, Tom Murray, John Murray, Art Swago, Al. Rooth, H. Bruce. Scores, Altona 5; Soranton 6; innings 8; struck out by Murray 15.—Wisner Free Press.

Yesterday a deal was closed whereby Taylor Steen sold the Wayne Bakery to Howard Whalen, of Stanton, possession being given immediately. Mr. Whalen has had long and successful experience in the business and comes to Wayne with the highest of recommendations. His family will arrive here the last of the week. Mr. Steen has been in business here three years and a half and has conducted a first-class bakery in all respects, enjoying a large trade and winning a host of friends. Mr. and Mrs. Steen are uncertain at present where they will locate. They will be in no hurry to decide, but rest for a time during which Mrs. Steen expects to visit in Chicago.

Chas. Vail who was at one time manager of the Boyd hotel in Wayne has associated himself with Mr. Gary in the purchase of the Quard hotel at Norfolk, the deal having been made Tuesday and the transfer of possession today. Of Mr. Vail, the Norfolk News has the following to say: "Mr. Vail has been manager at the hotel for a number of years and is extremely popular among the traveling public. Mr. Gray was at one time a well known conductor on the Chicago, St. Paul, Minneapolis & Omaha railroad, running between this city and Sioux City. He has hundreds of friends in this territory who will be glad to hear of his locating in Norfolk."

The old settlers' picnic is to take place in Jno. T. Bressler's grove, one mile from town, on Thursday, August 18. It is planned to present a program of unusual interest and make the occasion enjoyable and successful in all respects. Congressman Burkett has promised to attend and give an address, and it is expected that the two opposing candidates for congress—McCarthy and McKillop—will be present and speak. Also the democratic nominee for governor, whoever he may be, will be invited to be on hand and take part in the program. It is proposed to employ Reed's brass band of Sioux City for the day, and besides have vocal music from a chorus of fifty trained voices. This would be a very desirable feature and it is hoped the committee in charge can carry it out.

The latest harvest prospects are

condition shows improvement. Dr. Summers, of Omaha, was called in consultation with Dr. Wightman today and made a careful examination, after which he gave the family assurances that there was no reason to fear a turn for the worse. He did not detect a symptom unfavorable to recovery. An examination last week disclosed a slight fracture on the left side of the skull, but that does not necessarily preclude serious developments. Mr. Bressler is receiving the best of treatment, and his many friends who have been uneasy about his condition the last few days, will be glad to know that attending physicians discover no symptoms that should excite alarm. There is reason to expect steady and permanent improvement. The HERALD receives this favorable report from the Bressler home at noon today.

COLLEGE NOTES.

Mr. Porter of Norfolk visited with his daughters, Thursday of last week.

Miss Walters, of Knox county, one of last year's students spent Friday and Saturday visiting college friends.

Mr. and Mrs. Davidson, whose home is in Wayne county near Randolph, spent last Friday with their daughter, Miss Junie, and dropped into various classes and observed the work of the school generally.

Miss Keefe, of Atkinson, a member of this year's teachers' class, was elected to a \$45 position in Stanton county last week. The call for experienced teachers has been greater than the college has been able to meet.

Misses Emma Tripp and Bessie Eaton of the Pine Ridge Indian agency and well known students of the N. N. C. are among the graduating class this year, and will teach in Dixon county the coming school year.

The Philos enjoyed a splendid picnic in the grove southwest of town on Saturday last. Feasting, ball-playing and general fun were the order of the day and the young people returned quite rejuvenated by the day's outing.

The senior class have received caps and gowns which they are to wear during commencement week. Occasionally they may be seen surreptitiously donning these garments, hoping thereby to become sufficiently accustomed as to wear them with becoming grace when they must go forth in public.

County Supt. Bright, as is generally understood among teachers, has some valuable convictions on the subject of teaching and reading, and that more teachers might be benefited. Prof. Bright has upon invitation been addressing the didactics class on the subject for several mornings this week.

Mr. Miller, of Gordon, Nebraska, was a college caller Saturday and Sunday. It is said that this week one of the college young ladies has been conjugating the passive voice of the first Latin verb usually studied with something more of appreciation than is common among students of the classic vocabulary.

The model school and kindergarten work closes next week, but the class work of the college continues for two weeks yet. One week from next Sunday the baccalaureate sermon will be delivered to the graduating class in the Methodist church by Rev. Thos. J. Wright. This service will be followed up by various college programs to be given in college chapel the evenings of the same week, announcement of which will be made next week.

ALTONA.

Prospect for small grain is fine.

Erleben Bros. have threshed some rye and barley.

Geo. Thies, Fred Woolman, Al Jones and Al. Booth returned safely from Bonesteel where they registered.

Theodore Johan is suffering from a nail running into his foot. Dr. Morse of Wisner dressed the foot, and it is doing well.

Rooth & Worth will start out threshing tomorrow. They have ordered for their work a new Foster stoker and a Farson feeder.

The ball game between the Altona and Wisner clubs last Sunday resulted in a score of 4 to 14 in favor of Wisner. The same teams will cross bats again next Sunday. Also the Altona club will give a dance next Saturday evening.

Among its Improvements are:

A metal-covered hub, which will not check or split. A combination wood and steel axle, the wood and steel going the whole length of the axle. This axle will stand twice the strain of an ordinary hickory axle. Also a bolster-stake made from heavy sheet steel. The popularity of the MacKinnon Wagon rests not only on the above improvements, but every piece of lumber used in its construction is carefully selected from the best Wisconsin timber. The parts are fitted and put together by skilled workmen, and nothing is left undone, even in the smallest detail. We make a perfect wagon in every particular. We manufacture our own stock, from the log to the wagon, and as we have been in the manufacture of wagon materials for over 20 years, we have the location of wagon wood season, and the complete and latest machinery. We have the most carefully selected and well-seasoned lumber.

Our Team Harness varies in style and finish according to price, but at all figures there's good value. The stock used throughout is good oak tanned leather. The trimmings, whether of nickel, brass, rubber or iron, are of excellent quality. The workmanship, visible and invisible, is first-class. This harness will wear out, but it won't break out.

WM. PIEPENSTOCK, WAYNE, --- NEBRASKA. NOT A PATENT MEDICINE. Hyomei, the Guaranteed Catarrh Cure, Prescribed by Physicians. No one should confound Hyomei with patent medicines that are advertised to cure catarrh. It is as fast as prior to them all as the diamond is more valuable than cheap glass. Their composition is secret, but Hyomei gives its formula to all reputable physicians. It is not foolish to try and cure catarrh by swallowing tablets or liquids! The only natural way to cure this disease and all other diseases of the respiratory organs is to breathe Hyomei. This treatment has been so successful, curing 99 per cent of all who have used it, that Hyomei is now sold by E. J. Raymond under an absolute guarantee to refund the money if it does not cure. You run no risk whatever in its use.

PREVENTS HAY FEVER. All who are subject to hay fever or sneezing should use Hyomei daily for two or three weeks before the time of their annual attack and thus prevent it. The worst cases are quickly relieved and cured by Hyomei and Hyomei Balm. NOTICE TO TEACHERS. Examination for teachers will be held on July 10 and 11 July 18, and August 3 and 4, 1904. No examination in April and May. C. H. BROWN, Co. Sup.

IN MEXICO It's Inhabitants and their Modes of Living, Marriage Ceremonies, Etc., Etc. THE QUEER DOINGS OF SOME OF ITS PEOPLE.

The woman is a beast of burden; she adds a wild little thing that gets barely enough water to drink and none to wash in; the man stands wrapped in the eyes in his gaudy blankets as still and solemn as if the very silence of the desert had struck into his soul. His body is dwarfed and drawn and his mind runs into every narrow channel. He is but the stunted growth of his poor surroundings. Some day the land around him may be irrigated, and when the green fields stretch away before his eyes and the flowers bloom in his path and birds come to mate in the trees that will grow, it will freshen him and among the sons of man a better place among the sons of man will be his.

It is customary for a couple to live together and get married whenever they have cash enough to pay the fee. The priest makes a trip, among them each year and marries all who are ready. If times are hard the ceremony may have to be postponed for several years and sometimes it is postponed for fifteen to twenty miles away from home he is looked upon as a foreigner, a man who has come from far off. The hot country people, that portion of Mexico on the coast and southern part of Mexico, are content with less than the other desert natives. They have plenty of water and plenty to eat, their surroundings and all being more pleasant, consequently they can muster to a higher standard. They are not very hard workers, however, and get out of it whenever they can. The average salary paid for man's work is about 25 cents a day in Mexican money and the Mexican's entire cost for clothing throughout the entire year would amount to about 67 cents, all of which he wears by a cotton blouse and duck or goat canvas trousers, and home made of sole leather. They eat whenever they get hungry and the cooking is mostly done by two bricks or stones set up edgewise and a piece of sheetiron across the top heated by a charcoal fire. They smoke and fry their meats on these with the stones and the Mexican as a rule does not live to an old age. They are subject to disease and when once disease or plague attacks them they die quite rapidly.

Dr. Caldwell, in her recent work on the disease prevalent in Mexico states that a great deal of neglect is shown by children die before they are twelve years old. In the city of Mexico there are three hundred deaths a day. These deaths are caused principally by neglect and the non-attendance of a physician. The principal diseases arise from the fifth and sixth months of pregnancy in the Mexican child to see a Mexican with a coffin containing a corpse on his shoulder, carrying it down the middle of the street and the mourners following, in the city of Mexico, which has a population of 600,000 people, the graves have provided special funeral streets cars which add greatly to the convenience their burial. Dr. Caldwell has perhaps studied the habits of the Mexican more thoroughly than any other American physician. She has traveled among the Spanish people, practiced among the rich, studied their habits, studied the notions of medicine on different individuals, and has formulated plans and prescriptions from her long experience that rarely fail to cure disease.

Her practice is the last fifteen years has extended in a great measure all over Mexico and the United States. It has, however, been largest in Wisconsin, Minnesota, Iowa and the two Dakotas. Thousands of people have consulted her and thousands have been cured. Her laboratories are the largest of any known physician outside of Chicago, Buffalo and New York. Her ability to diagnose disease is without question, one of the best any living physician. Knowing quickly what is the matter with one, she is not liable to doctor them for the wrong ailment nor is she liable to give them such treatment that would be of no value to them. It is claimed by Dr. Caldwell's friends that she can diagnose any disease without asking a question. She treats those diseases that have principally been neglected or that have been doctored by others.

She does not attempt to cure incurable diseases and if there are certain cases that she thinks are useless to treat and that nothing but death can cure, she will not promise to cure them. In palpitation of the heart, nervousness, confusion of ideas, loss of memory and the many diseases which affect mankind, Dr. Caldwell has perhaps had more experience in treating them than any other living physician. The medical profession seems powerless to stand when they hear of Dr. Caldwell's cures which wonderful cures, especially when they so often fail. Her charges are reasonable and no one need be deprived of a cure, no matter how poor he is. She guarantees her treatment to be just what she claims for it and to pay no more than she asks. She is the originator and founder of the Southern Medical Institute of Louisville Ky., and has within the last three years established a large office in Minneapolis, Minn.

Her system for curing varicose, hydrocele and disease of men is the quickest and best known. Her cure for asthma, hard breathing and shortness of breath has never been known to fail. For blood poisoning, lost manhood and nervous debility she is perhaps at her best. No patient has ever been known to go away from her without being cured. When they once placed themselves under her care and treatment, her treatment is fresh from the hand and you can, out of gratitude, conscientiously recommend her to your fellow men. In diseases of stunted development and dwarfism, deformity, curvature of the spine, both in young and old, etc., her treatment is not equalled. Dr. Caldwell does not want your case for treatment if your home doctor can cure you. She wants those cases that have been given up by such physicians as in dry passed and known. Her cure for asthma, hard breathing and shortness of breath has never been known to fail. In no specialist, no matter where he be, that has anything so good. Some recent cures that she has made we herewith take the liberty to publish: Mrs. Sloan, Akron, Neb., cured of gonorrhoea and nervous troubles. The treatment she took improved her at once, and she was soon cured of all her ailments. C. A. Lundson, Grand Island, Neb., was troubled with muscular rheumatism and dyspepsia. These troubles soon disappeared. Oscar McBeth, Harrier, Neb., cured of female and nervous troubles, was told by doctors operation would be necessary. Cured in four months' treatment. Mrs. J. Robbins of North Platte, Neb., written "I had been doctored for years without relief for kidney trouble, female and general debility." Mr. Michael McCabe of North Platte, Neb., cured of cancer of the face with two incisions. Oscar Emmert, Columbus, Neb., cured of what other doctors called incurable blood disease. Mrs. Ella Johnson, Grand Island, Neb., cured of chronic eye trouble and catarrh. John Connelly, Akron, Neb., cured of cancer. S. J. Blessen, Platte Center, Neb., cured of stomach trouble of long standing, nervous debility; was treated by many doctors. S. E. Fuller, York, Neb., cured of stomach and bowel trouble and kidney trouble. Miss Döbers, Waco, Neb., cured of skin disease of years standing, had been treated by many doctors. Mrs. Oscar Lange, Tekamah, Neb., written "I had been doctored for years without relief for kidney trouble, female and general debility." Louis Harper, Columbus, Neb., cured of Bright's disease, heart trouble, and nervousness. Mrs. S. Jorgensen, Cozad, Neb., had suffered many years from nervous disease, loss of vitality and general weakness. She is now feeling healthy and like a new woman. Mrs. Mary Krakow, Wayne, Neb., cured of chronic rheumatism, swollen limbs, heart trouble, headache and general debility. Had almost given up hope when she heard of Dr. Caldwell, her treatment soon cured her and she is now thankful. Mrs. Charles Schell, Peader, cured of rheumatism, almost had consumption. Mr. Ralph Wyndure, Beaver, Neb., cured of gall stones of liver. Joe Carlson, Ft. Wayne, Ind., cured of large cancer of breast. W. H. Lazon, of Mead, Neb., written "I had been doctored for years suffering for 50 years I have found no treatments equal to yours. I write you these few lines to speak of the excellent cure of your treatment and I think it due more experience in treating them than any other living physician. The medical profession seems powerless to stand when they hear of Dr. Caldwell's cures which wonderful cures, especially when they so often fail. Her charges are reasonable and no one need be deprived of a cure, no matter how poor he is. She guarantees her treatment to be just what she claims for it and to pay no more than she asks. She is the originator and founder of the Southern Medical Institute of Louisville Ky., and has within the last three years established a large office in Minneapolis, Minn.
