F. S. BENSER SHOT

Winside Postmaster Is Seriously Injured.

VICTIM OF SHOTGUN ACCIDENT

A Hammerless Gun Discharges While Loading it Preparatory to a Hunting Trip, the Contents Entering his Right Leg Just Below the Hip—Dr. Cherry is Called and Thinks Amputation May Result.

Frank S. Benser, postmaster and merchant at Hoskins, was accidentally shot in the right leg Tuesday morning at 8 o'clock, with results that are serious and may possibly prove fatal. Mr. Benser was in the hardware store with a number of others, buying shells in preparation for a hunting trip. One man whose name we did not learn, had a hammerless shotgun and was in the act of loading it when it discharged, part of the load striking Mr. Benser's leg just below the hip. The bone was badly shattered and the flesh torn and it has been feared that amputation would be necessary. Dr. Cherry of Winside was promptly summoned and though he was apprehensive, he was unable to say at the time of the first examination whether the limb would have to be removed or not.

The many friends of Mr. Benser will greatly regret his misfortune and hope that medical skill will save his life and restore his leg. He is one of the well known and highly esteemed citizens of Wayne county.

E. F. Jones, the worthy republican candidate for county commissioner, procured a marriage license while here Saturday, authorizing him to wed Miss Elsie M. Lewis of Branson, president in the election now pending, precisely as those fusion managers are now trying to do; and refuse on the final vote to record themselves for the identical bill which they had assisted in framing, which they had helped to carry up to the last legislative stage, and which every fusionist state official had for years been cravily declaring to be "imperatively necessary" for the good of the state.

Later: Since the above was put in type it has been learned that Hazel Barnhart and Dora Felbert, reported fatally burned, died Tuesday evening.

SAMUEL LIVERINGHOUSE.

Samuel Liveringhouse died at the home of his son, John Liveringhouse, in Wayne, on Saturday, aged 88 years, 4 months and 28 days. He had been an invalid for four years. He leaves four sons and one daughter, viz: John, Rouben and William of Wayne county, Sylvester of Madison county, and Mrs. Mary Sagendorf of Oregon. Funeral services were held at his late home Sunday afternoon at 3 o'clock, Rev. Thos. J. Wright officiating. Following personal reference was read as a part of the funeral service: "Samuel Liveringhouse was born May 22, 1821, in Montgomery county, Ohio. While young he moved to Indiana where on May 26, 1846, he was united in marriage with Miss Anna Kenton. Soon after marriage he moved to Iowa where he lived until eight years ago, when he came to Wayne. In the prime of life he consecrated his life to God and with his wife united with the Dunkard church of which he remained a consistent member until his death. Brother Liveringhouse strove to exemplify the teachings of the golden rule and came down to death as a shock of corn fully ripe for the garner of glory."

THE REVENUE LAW.

A new revenue law for Nebraska had become imperative and the last legislature was driven to the task of framing and passing one. Governors, representing both political parties, have for years recommended in their messages the provision of a new revenue law and no one acquainted with the facts—the necessarily increasing expenses of a growing commonwealth—denies that one was needed. In order to keep down the amount of taxes for each individual, the levy should have been reduced, which was done in some cases and overlooked in others. The new law has affected railroads as well as individuals, varying according to the levies, fusion orators to the contrary notwithstanding.

That so complicated a system of taxation is not perfect and can be improved by changes, is generally admitted, but that it is a blunder and an imposition on the public, is nonsense and urged merely to mislead voters in an effort to get their support. The per cent. of increase for the railroads is greater than that of other property according to the figures secured from the state auditor's office.

In speaking of the need and history of the new law, the Lincoln Star of recent date says in part: "In short, the state of Nebraska had come to the forks of the road. At the meeting of the Twenty-eighth session of the legislature at the beginning of 1903, it was confronted by a condition, not a theory. That emergency, demanding revision of the revenue laws, had been forcefully depicted by every fusionist state executive officer, including governors and state auditors, in every one of their messages and reports, as quoted above, but not more forcefully depicted by them than by all other public officials, executive and legislative and by the press of the state, republican and fusionist, for years.

"As a result, thus, of a state-wide movement for revenue reform in the salient points so forcefully set forth by the fusionist officials, as well as by others, a law, the one now in force, was enacted by the last legislature, the Twenty-eighth. During its progress through the legislature, it is fair to say, a large portion of the fusion membership in both houses, aided in the framing and passage of the new system, and leaders of that party publicly spoke in behalf of and advocated the passage of such a law and served on the committee that framed it.

"At the last moment, however, when the final vote came on the bill, some influential fusionists from over the state and party leaders gathered at Lincoln and by the plea that political "capital" could be made out of the revenue law, persuaded fusion members of the legislature, against their better judgment as public officials and as individuals, to refuse to vote for the measure on its final passage, notwithstanding the members explained that they had advocated the bill and many of them made speeches in favor of it; and that it was unfitness to take a contrary position at that time. The fusion members seeing that the law would pass and the state would have the benefit anyhow, finally yielded to the partisan pressure that was put upon them by the Omaha World-Herald and by party leaders hastily gathered at Lincoln, with a view to "play politics" in the election now pending, precisely as those fusion managers are now trying to do; and refuse on the final vote to record themselves for the identical bill which they had assisted in framing, which they had helped to carry up to the last legislative stage, and which every fusionist state official had for years been cravily declaring to be "imperatively necessary" for the good of the state."

pectations of rich harvest. Mr. Lyon is an evangelist of experience and avoids all sensationalism in his preaching. He has a message for the men and women of today irrespective of position in society and knows how to present the truth in an intelligent manner.

The music is no small feature in such a series of meetings and Wayne churches are very fortunate in securing the assistance of such an able musical director as Jas. W. Patterson, who combines

the two faculties of an able director—the large chorus choir and is an exceptionally fine soloist. His voice is full, deep and rich and his solos reach the heart of his hearers.

PENDER MAN FASTS.

The Republic of Pender, reports that W. H. Gaines of that place is fasting for the benefit of his general health, eating or drinking nothing in the way of food. The Republic adds: "Mr. Gaines says that about the second day of his fast he was so hungry that he could almost eat the stones of the street, then the pain passes away, and all desire for food leaves a man. His appetite will not return until from the seventh to the tenth day of his fast. He will then eat two or three oranges the first day and gradually increase the allowance of food. For two or three days his hunger will be almost beyond control, but to fully gratify it would be almost certain death. Mr. Gaines says he has fasted this way before and believes it to be of great benefit in cleansing out and restoring his system. In addition to appearing upon the street as usual, he walks about five miles each day and promises to raise a 100-pound dumbbell above his head with one hand at the expiration of his fast."

Not one has died in Wayne county in five years that wore Staley underwear. Five hundred men are wearing it in this county.

ST. PIERRE IS GUILTY

BUT ONLY OF MANSLAUGHTER IN SECOND DEGREE.

Maximum Penalty is Four Years in Penitentiary—Father of Chilled Boys is Incensed Over Verdict and Speaks Plainly About It.

The jury in the St. Pierre murder case at Elk Point, S. D., returned a verdict of guilty of manslaughter in the second degree Sunday morning, after being out about fifteen hours.

The jurors discussed the evidence and deliberated all night long. Not one was for murder, and five were for acquittal at first.

I had expected a verdict of acquittal. I sincerely believe the Chilled boys came to my house for the express purpose of seeing them and was greatly grieved when I learned they had been killed.

Joe Chilled, father of the boys who were killed by John St. Pierre, was not very lenient in his expressions.

He should have been dead! He killed my boys," he said. "And he did the act in cold blood."

Even the Japanese, to whom the great victory is of paramount importance, seem to be shocked by the slaughter of their enemies.

They were in attendance, and I have thought of their mother, who has been almost a mother to me.

GIBBONS VERY INDIGNANT.

Cardinal Much Angrier Over Father Schell's Course.

A Washington, D. C., special states that Cardinal Gibbons is very indignant over the course of Father Schell.

Father Schell should have so far overstepped the bounds of propriety. The cardinal said Schell had a perfect right to urge action, and in case he felt the officials were not doing all that should be done, even to take the matter up with the president.

The sensational feature of the investigation being held at Homer, Neb., by Inspector Wright came Friday, when Father Schell, instigator of the investigation, was charged by William Odell, of the firm of Odell Bros., butchers of Homer, with attempting to intimidate him in order to make him testify adversely to the charge of murder.

This came after the inspector had heard much testimony in regard to the buying of heirship lands. When the matter of the Ashford and O'Connor charging the Indians was raised by Father Schell that the Indians had to pay a usurious interest on money borrowed from the banks of O'Connor and the Ashfords.

Father Schell is being investigated into the matter of the murder of a little white boy, whose heart and dismembered hands were found in the house of an old man negro sorcerer in the island of St. Lucia.

The child, it appears, was the victim of the man now in custody, and who had been concerned in some litigation, to "work a spell" upon the judge of the supreme court who was to try the case.

JAPANESE SUCCESSES.

Seem to Have the Upper Hand in the Recent Fighting.

No appreciable progress has been made in the projected advance southward of the Russian army under Gen. Kuropatkin since the initial success of the movement in the capture of Bentziangputz. Fighting of the most stubborn description continues practically along the entire front.

Field Marshal Oyama reports the capture of thirty guns from the Russians, and claims distinct successes in forcing the Russians to retire from some of their advanced positions.

St. Petersburg dispatches say that despite fighting and heavy losses on both sides, with varying success for the Russians, is the summing of the situation by Gen. Kuropatkin in a telegram filed Oct. 12.

Flood Situation in the Southwest is More Serious. Seventy dwellings in San Maricao, 80 miles south of Albuquerque, N. M., have been wrecked by the floods of the past week, and there is great suffering and destitution.

KILLED BY A TRAIN.

Taylor Eating Meets Death Under Wheel at Basset.

An east bound freight train on the Northwestern line ran over an old man by the name of Taylor living in the yards at Basset Monday morning a little after 8 o'clock, cut one of his legs off below the knee and crushed the other above the knee.

Mr. Taylor was walking up town from his home in the northeast part of the village and had passed the train which struck him in an arched passage. It was found necessary to amputate both legs above the knees. Mr. Taylor died before the operation.

Mr. Taylor was somewhat deaf and undoubtedly did not hear the approaching train. He stated soon after the accident happened that he thought he was walking across the tracks.

It is reported that ex-Senator Peffer of Kansas has trimmed down his white hair and returned to the ranks of the

republican party.

Voters should not allow over-confidence in the result to keep them away from the polls on election day. Let every man be on hand to exercise his right of franchise.

It is only human nature for Bryan to secretly hope for the defeat of Parker. The latter belongs to an element of the democratic party that is bitterly opposed to Bryan and his policies and would concede nothing to him in the event of success. Bryan's future in politics will be more auspicious with the triumph of Roosevelt, and he knows it.

It is reported that Pat McKillip's managers have issued an appeal to young men to stand by their candidate on account of his youth. Such an effort, though void of reason, is perhaps the best they could do in the absence of convincing argument. The difference between the ages of the congressional candidates is wholly overshadowed by great difference in ability and experience.

The republican candidate for county commissioner, Mr. Jones, is a man who has been successful in his own affairs and who if elected will bring into the office the qualifications of a successful man and in the hands of such the affairs of the county are always safe and guaranteed good management. It is the most important office in the administration of county affairs—in fact it is the office that governs and controls the expenditure of the county funds.

There is a United States senator to be elected by the next legislature. If you are a republican and desire to see republican principles upheld and republican policies prevail it becomes your duty not only to vote for Theodore Roosevelt for president, but to vote for J. J. Williams for state senator and Chas. McLeod for representative, because these two if elected will vote for a republican for United States senator and thus will sustain and uphold the principles you wish to prevail.

Notwithstanding that Congressman McCarthy has urged arrangements for a series of joint debates with his opponent, Mr. McKillip, and the evident weakening of democratic managers to enter such contests, democratic papers keep up a bluster over the matter, assuming that the failure of the two candidates to get together is due to the republican nominee. As a result, Chairman Fales, chairman of the republican committee, has issued a challenge to the opposition, and it is now up to McKillip and his chairman to do something.

This is a busy age and there is no room for the loafer or the man without a business or vocation of some kind. It is always safer to trust your affairs in the hands of men of affairs than to the hands of one who has an abundance of time to spare. In the case of the republican candidates for state senator and representative you have two men that are always busy, in fact too busy to give the time usually given to a canvasser for office. But both Dr. Williams and Mr. McLeod are safe, sound and sane on any proposition and if the voters of the senatorial and representative districts desire to be ably and honestly represented they will make no mistake in giving these two men a hearty support. Do not expect either of them to come and see you personally and ask for your vote, because they are men that are busy and cannot devote all their time and energy to a canvass of the district, but will most heartily appreciate any effort that you as a friend may put forth to get your dilatory or careless neighbor to the polls on election day.

The publisher of the Herald, accompanied by his better half, spent the last two weeks in St. Louis seeing the sights of the great Louisiana Purchase exposition, and feels amply repaid for the necessary time and money spent. It is certainly a wonderful exposition of man's attainments and as an educational factor its benefits will never be fully appreciated. Go where you will, into any of the great buildings—which in themselves are palaces of architecture—and you will find things to interest, educate and surprise you. The exhibits of the handicraft of man are on all sides from the crude craftsmanship of early times up through the various stages to the wonderful perfection of the present, and it would seem that man has reached the limits of his genius, but he has not. Nothing has been neglected or overlooked that effort or money could obtain to make the exposition in its full sense a World's Fair and the men who have had it in charge have succeeded in a wonderful manner. It seems to us that no American citizen who has or can get the means to pay the expense of a trip to the fair should fail to attend. It offers educational advantages not to be found anywhere else on the face of the earth for the same expenditure of time or money because to see what you can see at this exposition you would be obliged to visit all parts of the earth, then not be able to find what is offered to you at the exposition.

To many of us there are always greener fields somewhere else than we possess and our eyes are longingly turned away from home. In some localities this view may be justifiable, but to the man living in Northeast Nebraska there can be no justification for the feeling that somewhere else there is a land where the wants of man are supplied in greater abundance with less effort than here. The record of man's accomplishments here is one that forever sets at rest any arguments that can be brought forward to induce anyone—and especially any tiller of soil—to change from this to some other place with the hope of any betterment of conditions. Here there is always plenty and generally something to spare. Nowhere else on the

face of the earth have farmers fared better in the past 20 years than in this part of the state and on all sides there is an abundance of evidence in the shape of substantial farm improvements and in many cases the homes are models of comfort. These improvements have not been made with money earned in other vocations or brought from other places, but are the result of industry and thrift applied to land that yields grand return for man's efforts.

PHYSICIAN'S GOOD LUCK.

Dr. Hart's Fortunate Experience of Special Interest to Many in Wayne. The happiest man in New England today and one who is receiving congratulations from his friends, is Dr. Phillip Z. Hart, of Laconia, N. H.

Probably no physician is better known in all parts of the United States than Dr. Hart, as he has been a great traveler and known the best people wherever he has been. For years he has suffered with catarrh in its worst

form. Although he resorted to the latest scientific treatment, and consulted with his brother physicians, Dr. Hart finally said, "I might just as well have thrown my money in the river for I grew worse and worse. It is really due to my wife's good judgment that I tried Hyomel." The doctor, in his emphatic way added "Thank God that I did, for Hyomel cured me completely. My wife and I can swear that Hyomel cured me of the worst case of catarrh that ever existed. I used to cough constantly at night, and had a dropping in my throat, which kept me awake a great deal. I raised thick phlegm and was in a horrible condition. However, I am entirely cured, solely through the use of Hyomel."

E. J. Raymond is the local agent for Hyomel, the famous treatment which cures catarrh without stomach dosing. A complete outfit costs but \$1.00, extra bottles, 50c. He sells it under guarantee to refund the money if it does not give quick relief. Ask him to show you the strong guarantee under which it is sold.

Why the Japs Lick the Russians

When the war commenced between Japan and Russia it was the general opinion that Russia would whip Japan, but the Japs have so far successfully whipped the Russians in every battle. It is not necessary to have the largest army to win. Not the largest guns kill the most men. Rapid firing guns in the hands of intelligent men who are near supplies, can whip a nation double its size with big guns and far from home supplies. It is not necessary to go to a large city with department stores to get the best bargains. Department stores are like Russia. They are big and have plenty of clerks who work like machines, but not like the Japs who fight for their homes. We have goods that are rapid firing. They go fast and give satisfactory results every time. They hit every time and fit every one they hit. We are not a department store, but have the right kind of goods and we are small men like the Japs and own the ground we do business on and we will fight any competitor that tries to drive us out of business. We are here to stay and no big store with clerks that get just salary enough to live can beat us selling clothing. Every one in this store is a part of the business and is interested in the customer to whom he sells, and no one can fail to get satisfaction if they buy clothing here. We are like Japan—we have plenty of money to fight with and plenty of clothing of the kind you want. We are at home fighting on our ground and pay no rent. We hit high prices every time they show up and we never fail to capture a customer if we can get him within range of our clothing. We know how to fight all competition and our prices are small but we shoot often. No goods that are slow sale are found in this store. Everything here is up to the minute. Get in range of this store and you will soon become our friends. We have what you are fighting for and it will take less of your ammunition to get it here than at any other place. Don't forget that you cannot fight successfully if you fail to wear Staley underwear. We are now ready for men and boys. We have everything they want to wear and all are invited here before they buy anything elsewhere.

Yesterday presented a lugubrious variety of weather. Louden clouds, a sea of mud under foot and a cold rain driven by a brisk wind, dashed up according to old Boreas' well known taste, made the outer elements about as forbidding as could be imagined or invented at this season of the year. The condition suggested blue devils and other gloomy thoughts and though there was no good reason to suppose that warm sunbeams and cheer had been banished forever, the prospect, to most people, appeared dark and uninviting. There were a few exceptions, however, and John Kate was one of them. He became laughing, rather than discouraged, and

disgusted, and devoted the day chiefly to writing ads and disparaging others. Instantly on the scene of raising chickens. With this department he discussed some of the delicate technique of the science—time of the year and hour of the day when chickens should be hatched, how they should be disciplined and taught in the matter of crowing and eating. As to their diet, there was wide difference of opinion over the question of whether they would do best on sirloin or porter-house steak. Mr. Kate taking a vigorous and determined stand in behalf of the latter, and using all the technical terms known to the science in presenting his side of the case.

M. W. A. MEETING.

E. E. Kester, state deputy of Nebraska for the Modern Woodmen of America, and John O. Burgess, special deputy, are here in the interest of the order and expect to hold a large class initiation in the Wayne opera house about November 10 to 15. Exact date will be given out later. The surrounding camps will be asked to participate in this meeting and the new ritualistic work will be exemplified on that night. Head Counsel H. R. Talbot, of Lincoln, will be present. This will no doubt be the greatest meeting of the kind ever held in this part of the state. Mr. Kester received a message this week from Head Counsel H. R. Talbot that there would be no assessment for November. This is the fourth assessment omitted so far this year, with a surplus of two million dollars on hand on the first day of October, 1904. The membership of the entire jurisdiction is greatly pleased over the success of the new plan adopted and is now thoroughly convinced that eight assessments will be sufficient to pay all death losses and leave a good safe surplus in the benefit fund. All Modern Woodmen should watch for the date of this coming meeting.

Please tell us of a successful candidate for county office the last five years that did not wear Staley underwear.

HARMONY IN CLOTHES

One of the chief characteristics of our Hart Schaffner & Marx suits is the artistic way in which the colors of fabrics, linings, trimmings, etc., are combined. In addition to giving their clothes style and superior quality, the makers of these goods evidently give a lot of attention to these harmonious combinations. You may think the buttons on a suit too small a matter to spend any thought on; but you'll find that even the selection of the right buttons is carefully done in these famous clothes. You should see the real art in these H S & M sack suits. They're right in every respect.

....OVERCOATS....

If we can persuade you to try on a H S & M Overcoat you will surely have one of them.

Health and Education Govern the World

The Weak, Sickly and Emaciated Can Hope for But Little Success.

BY DR. G. M. CALDWELL

In compiling the statistics of the different races of people of the world, it is of interest to note the article of diet in the manner in which it is taken and the extent of medical attendance as practiced in the civilized world. It has been demonstrated conclusively that the most eaters are the strongest, healthiest and the best educated people in the world; therefore it is reasonable to believe that they are the people who govern the world. As demonstrated by Dr. Caldwell, the American people consume an average of six pounds of meat per week, the English, four; and the German, three; the French, two; and the Italian, one-half. Statistics prove that epidemics of contagious diseases more largely prevail among those people whose diet partakes of less meat and more farinaeous foods. Good meat is the most wholesome of all foods to be taken. True, it is not as fattening as the cereals or farinaeous foods, but it is more strengthening and contains more blood and nerve producing elements, so necessary to strength and good health. What is required specially for perfect health is good digestion, plenty of outdoor exercise, and special care as to hygiene and all the laws of nature. Dr. Caldwell, a specialist of many years' experience, has devoted much of her time to the study of diseases of the stomach, diseases of the brain and diseases of the nervous system. From her conclusions it has been demonstrated that a little food properly served and well digested is far better than a great quantity of an unwholesome character to properly digested.

Dr. Caldwell has been afforded special advantage in studying the characteristics of the people, their diet, their hobbies and the special conditions governing medicine as a specialty.

She has been awarded, in contests with the greatest schools of the world, the highest prize and a number of medals. She has been making a specialty of chronic, nervous and surgical diseases, diseases of the eye, ear, nose, throat, lungs, diseases of women and diseases of long standing character. No matter how long such patients have suffered or who has treated them, she never failed to cure these ailments. In over a quarter of a century in the experiment, study and practice of her profession in the diseases of men and women, she has cured thousands who have been pronounced helpless by other physicians. People come to her from far and near to receive her treatment and her offices are crowded at all places of her appointments and all speak in the highest praise of her treatment.

By permission we are pleased to publish some of the "cures" she has made throughout the state of Nebraska. These are only a few, as time and space will not permit us to publish more.

Mrs. Sloan, Akron, Neb., cured of constipation and nervous trouble. The

treatment she took improved her at once, and she was soon cured of all her ailments. O. A. Lundeen, Grand Island, Neb., was troubled with muscular rheumatism and dyspepsia. These troubles soon disappeared. Mrs. R. McBeth, Harder, Neb., cured of female and nervous troubles, was told by doctors operation would be necessary. Cured in four months' treatment. Mrs. J. Dobbins of North Platte, Neb., writes "she had been doctored for years without relief for kidney trouble, female and general debility." Mr. Michael McCabe of North Platte, cured of cancer of the face with two injections. Oscar Emmitt, Columbus, Neb., cured of what other doctors called incurable blood disease. Mrs. Ella Johnson, Grand Island, Neb., cured of chronic eye trouble and catarrh. Mrs. John Connelly, Akron, Neb., cured of cancer. Mrs. E. Zarig, Bluevale, Neb., cured of female trouble, diabetes and stomach trouble. Mrs. E. Fuller, York, Neb., cured of stomach and bowel trouble and kidney trouble. Mrs. Charles Shatt, Pender, cured of rheumatism, almost had consumption. Mr. Nulph, Wyndire, Beaver, Neb., cured of gall stones of liver. Joe Carlson, Ft. Wayne, Ind., cured of large cancer of breast. S. J. Benson, Platte Center, Neb., cured of stomach trouble of long standing, nervous debility was treated by many doctors. Nebraska's most popular specialist Dr. O. Caldwell, registered graduate of the Kentucky School of Medicine, will make her next visit to Wayne, Nebraska, Oct. 27.

W. H. Larson, 66 Nebraska St., New York, N. Y., says: "Dr. Caldwell. After suffering for 30 years I have found no treatment equal to yours. I write you these few lines to speak of the excellence of your treatment and I think it due you."

Mrs. Mary Collins, Wayne, Neb., cured of chronic rheumatism, swollen limbs, heart trouble, headache and general debility. Had almost given up hope when she heard of Dr. Caldwell, her treatment soon cured her and she is now thankful.

Mrs. Charles Shatt, Pender, cured of rheumatism, almost had consumption. Mr. Nulph, Wyndire, Beaver, Neb., cured of gall stones of liver. Joe Carlson, Ft. Wayne, Ind., cured of large cancer of breast. S. J. Benson, Platte Center, Neb., cured of stomach trouble of long standing, nervous debility was treated by many doctors.

Conan Doyle a Rapid Worker.
Sir Arthur Conan Doyle is a remarkably quick worker, most of whose time seems to be given up to the healthy enjoyment of life. He seems, however, to be able economically to combine work with play. For instance, one may see him engaged in a vigorous game of cricket or golf in the early afternoon, and the game may be followed by a brisk country walk with a friend. Returning from the walk, the novelist will say to the friend: "We dine at 8 o'clock; perhaps you would like to take a stroll round the garden before dressing, while I go upstairs," and he retreats, presumably to enjoy a short rest. After dinner he may make some such quiet remark as this to his friend: "By the way, a rather happy idea occurred to me during our walk this afternoon." Hereupon he gives the outline of a very ingenious plot. "What a capital idea for a short story," exclaims his friend. "So I thought," remarks the novelist. "Well, will you do it?" "Oh, I've done it," comes the author's calm reply. "I wrote the story while you were walking in the garden."

Pith of a Tree Used as Food.
According to the report of M. B. Guierand, a French scientist, the Sakalaves of Madagascar use the pith of a certain palm tree as an article of food.

The tree is found in the Ambongo region and is known as the satrabi. According to Perrin, it is the Medemia philifolia, nearly related to the Hypocistis. In that region the satrabi covers vast spaces either along the seaward or bordering rivers. After cutting down the tree the natives take out the pith, which runs from four to ten pounds per tree, then dry, powder and sift it, thus forming a kind of flour. Some of this flour was sent to Marseilles to be analyzed at the industrial laboratory. —Scientific American.

Can't Believe 'Em.
Phyllis—One can't believe a word the man says any more.
Eloise—What's the trouble now?
Phyllis—Well, there's Jack; he promised faithfully never to tell any one if I would permit him to kiss me just once, and in less than a minute he had repeated it.

Mrs. Anderson, Jacksonville, Fla., daughter of Recorder of Deeds, West, who witnessed her signature to the following letter, praises Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—There are but few wives and mothers who have not at times endured agonies and such pain as only women know. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable. "I have seen many cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."
—Miss R. A. Anderson, 202 Washington St., Jacksonville, Fla. — \$3.00 per bottle if original of above letter proving genuineness cannot be produced.

"No other medicine for women has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute."

PELLETIER DRY GOODS COMPANY, SIOUX CITY, IOWA

TO THOSE WHO ARE SUFFERING

From Weak Eyes From Poor Sight

...DR. M. ERSLER...

the well known expert optician of Sioux City, Iowa, will again be at the UNION HOTEL, WAYNE, NEBRASKA SATURDAY, OCTOBER 29, 1904

His 7th visit to Wayne, Nebraska. Since Dr. Ersler has been visiting Wayne he has demonstrated to his patrons that he can fit eyes with glasses where others utterly fail. He can refer you to hundreds of people in Wayne and vicinity. My examinations are thorough, painstaking and scientific. I use no drugs or medicines in my methods. My instruments are the best known to science.

Most headaches are caused by defective eyes and can be cured with glasses. My lenses positively cure headache, nervousness, granulated lids and all pains in and around the eyes, give perfect sight and relieve all strain of the eye muscles. If you have children whose eyes are crossed either constantly or occasionally, or who complain of having any trouble whatever with their eyes at school, bring them to me and have their eyes corrected.

If you have any trouble whatever with your eyes, it matters not if you tried others and they failed to give relief, give me a trial. It costs you nothing to find out whether or not you can get relief. I have fitted thousands and can fit you too.

Take Notice—I give a written contract in every case I undertake. I guarantee to give results or refund the money Union Hotel, Wayne, Nebraska, October 29.

Y. W. C. A. CONVENTION.

(Continued.)

The annual state convention of the Young Women's Christian Association will be held at University Place, October 21 to 23. Many excellent speakers will appear on the program, the most important being two secretaries of the American (national) committee who will make two addresses each, besides some short talks. These secretaries come with broad experience and are always a source of great inspiration both to an audience and to individuals. There will be three Bible hours, probably in charge of a popular professor from the State University, whose work has been widely and favorably known in the state. It will be a particular pleasure to have also Mrs. Emma F. Byers, general secretary of the large city association in Omaha, who, besides making an important address on Saturday, will occupy the pulpit Sunday morning. Mrs. Byers is well known in Nebraska through the splendid work at the head of which she stands in Omaha. Miss Gold Corwin, the state secretary, needs no introduction to the young women of the college and cities where she has visited. She will travel over the southern and western part of the state before convention, organizing and visiting associations and working up as large delegations as possible. Miss Florence N. Hanson, general secretary of the Lincoln city association, will make an important address, touching the world's work which she has had opportunity of studying during her travel abroad. Miss Myra Withers, the successful secretary of the state university, will assist in many ways to make the convention enthusiastic and helpful. At this time, Miss Abbie Burns, who has the chair of modern languages at Nebraska Wesleyan University, will formally take her place as chairman of the state committee to which position she was elected while studying abroad several months ago. Miss Burns is well known as an efficient worker and popular professor and comes to this place with experience in both local and foreign work. Perhaps best known of all is Mrs. M. K. Easterday of Lincoln, a member of the American committee and one of the founders of the association movement. We are particularly pleased to have this capable woman with us. There will of course be a score or more of prominent women of the state, members of faculties, state and advisory boards, as well as large numbers of local workers and Alumnae.

SMOKING CIGARETTES.

(Continued.)

We have noticed of late a number of boys seeking surreptitious delight from the deadly cigarette and we call attention to the fact that the law prohibiting the selling or giving tobacco to minors under 18 years of age is being violated. Nobody supposes that the mere existence of a law on the statute books is going to reform the people. If so there would be no swearing in this great commonwealth. But parents who have any concern for the wellbeing of their children can have recourse under the law for the prosecution of those who put temptation in the way of their children, and should act in the matter. It is difficult to persuade the average parent that his own boy is guilty of indulgence in cigarette smoking even when that fact is generally well known, but it is fair to assume that when a boy's breath suggests the fumes of a pipe, it is time to act.

ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite; growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters: to my great joy, the first bottle made a decided improvement. I continued their use for two weeks, and am now a well man. I know they robbed the grave of another victim." "Do not be afraid to try them. Only 50 cents, guaranteed, at Wayne Drug Store.
