Quite a number of college students left for their homes on last Friday and Saturday, but the opening of a new term has brought more than enough to fill the places of the departing ones.

Fred Volpp, a well known newspaper man of Bloomfield, has purchased the Scribner State Bank—Newspaper Union. That is really a piece of news. Fred has done a good many things and has some things said about him not very complimentary, but this is a little the meanest thing that ever happened.

Hoskins and the country round about is enjoying quite a lively season building. In town Doc Averill, Gus Schroeder and Charley Owens are putting up new houses. In the country Carl Strate is building a big new farm home and Simon Strate and L. Laugenberg are each building new barns and all of them good big first class ones in every respect.

An Iowa editor makes note of the fact that most lady soloists are too scantily clad to meet his ideas. We had never thought much about the clothing part of it, but if that has anything to do with the excessive tremulous many of them assume, we believe it would be a good plan to switch their entire persons in horse blankets—not forgetting their heads.

The Herald republishes the statement of the First National bank of Wayne, because last week we made a mistake in proof reading and made the item of "surplus" appear to \$1,500 when it should have been \$15,000—not much of an error, only just a cipher left out—but things of that kind don't go with your Uncle Sam, so we have to publish it again and correct our error.

John Soules got quite a workout in Saturday's Sioux City Tribune telling of his feat in swimming the rapids at Niagara falls, on July 4, 1890. John performed the feat on a wagner and also for the purpose of securing a purse that was offered for the man who successfully made the trip and John says that while he made the trip he never got the money promised.

The Herald desires it understood that it is not in the fight in behalf of any candidate for the appointment as postmaster at Wayne and that it is under no obligations either expressed or implied to any of the candidates to give them any support for the place. We have other things to do than to be pushing some fellow for a place at the public crib.

The Fair Association are at work on one of their big barns down on the grounds. It is 36x100 and will contain twelve stalls with a good closed driveway, where horses can be hitched and unhitched without danger to man or beast. In a little while other buildings will be built and the grounds fenced and put in the best of shape for the great exhibition to be given in September.

Louise Bedford, who until very recently was a student at the Wayne Normal College, drank a quantity of muriatic acid at her home in Holt county on last Tuesday with suicidal intent. Timely application of antidotes saved her life, but at last accounts she was in pretty bad shape. She says she drank a bottle of red ink while attending school in an attempt to get out of the world, but it didn't have any serious effect.

Thirteen years ago at one of the fairs held in this county, Mrs. June Conger lost a valuable gold watch that had been given her by her father or mother. The loss of the watch was advertised far and wide but no trace of it was had. Time passed away and like all other things the loss of the much prized present was eventually forgotten, until last Thursday Mrs. Conger received a package through the mails and upon opening it beheld, the long lost watch was there, but not a word of explanation accompanied its return.

The state fair this fall promises to be better than ever. New buildings are being erected and among these is a fine live stock pavilion 60x100 feet, built of cement and brick, thus making it pretty nearly safe from fire. The amphitheatre is being added to so as to about double its seating capacity. A new administration and also a new poultry building is being built. The Nebraska grounds this fall will be equal of any of the western states and we are assured nothing will be left undone that will in any way help to make the fair a great one.

It is not often that a person lives to celebrate their 91st birthday, yet Grandma Heibenthal, had her 91st birthday

Wednesday and the event was made the occasion of a happy gathering of her children, grandchildren and great grandchildren, and a birthday dinner at the home of August Heibenthal. Her sons Jacob and August, of this city, and Henry, of Scribner, were present, besides the children of two more generations. Grandma Heibenthal is bright and active and crooned a lullaby to one of her great grandchildren, until the little one was asleep. May she live to enjoy many more such events.—Randolph Times.

Last Wednesday was the fifth anniversary of the marriage of Mr. and Mrs. Fred Flege, living in the German settlement northeast of Wayne. The numerous friends of the worthy couple had not forgotten the date and when the shades of evening fell they invaded the pleasant home without giving any warning of their intentions of doing so and brought with them refreshments sufficient to satisfy a multitude and also presents useful and ornamental. While the arrival of the friends was an entire surprise, Mr. and Mrs. Flege did not forget to extend a welcome that was of the heartiest kind and we are informed the occasion will go down through time as one of the many happy events of that good community.

The presiding judge, the lawyers and the clerks of courts of this district are at Niobrara this week and expect to be there until the first of next week. It goes without saying that a crowd of that kind will have a good time camping out, swapping stories, just fresh off the ice—of course one may creep in occasionally with a few whiskers on it—then think of the fishing, feasting and drinking pure cold water, yum, yum, there are others that would have enjoyed just such a time far away from the rush and glare of the busy crowd, where the dollar chase grows in intensity from morn till night, year in and year out. It is safe to presume that while the guardians of the peace and dignity of the community are hatching the evil inclined will take a tuck in their conduct, put away their brass knuckles, iron bars, knives, guns and any other articles of offense or defense they may have on or about their person and attend prayer meetings until the days of recreation for the worthy legal fraternity have drawn to a close by the statute of limitation, when they can again begin their career of crime and plunder.

At a meeting of representatives of the Wayne and Randolph speed associations held at this place last Thursday it was agreed that Wayne would put up the following purses for the race meet in September: Trotting, 2:17 class, purse \$500; 2:22 class, \$400; 2:27 class, \$300; 2:35 class, \$300; pacing, 2:15 class, \$400; 2:20 class, \$500; 2:25 class, \$300; 2:35 class, \$300 and for the runners the half mile race will have a purse of \$50; the 3/4 mile, \$75 and the novelty race \$100. These purses are surely liberal enough to induce some of the best horses racing in the northwest to come here and the association is receiving inquiries almost daily from outside parties regarding the meeting. The fine stock men of eastern Nebraska and northwestern Iowa are very much interested in that feature of the meeting and will certainly be here with some of the best exhibits ever put before the public. The races at Randolph the week following the one here will offer the same classes and all purses will be \$300 at that point, and all purses will be guaranteed at both places, so that the winner will be sure of getting his winnings and is going to be accorded fair treatment at the hands of the managers.

Miss Clara Whitney closed a successful year at the Root school last Friday. The enrollment for the year was thirty one. On Friday a neighborhood picnic was held and a fine time reported by all who attended. Miss Whitney returned to her Wayne home Saturday. The first gasoline motor car passed through Carroll Wednesday. It resembles a hand car in its make up, its propelling power is based on the same plan as an automobile. F. E. Nicholes and road master B. F. Pierce were going over this division on it. They made the run from Bloomfield to here in two hours including stops. What might have proved a serious accident occurred last Saturday at the Ahern school picnic. The boys were enjoying a game of ball. They were playing the ninth inning when a ball from the bat struck Elmer Sasseman in the eye. The eye immediately assumed the proportions of a puff ball. Thereto hangs a moral, "never catch behind the bat without a mask."—Grandma Davies, of Wayne, came up on the noon train Monday to spend the week with Mrs. S. R. Jones. Grandma is always a welcome visitor to Carroll.—Carroll Index.

CROP OUTLOOK FAIRLY GOOD.

Floods and Cut Worm Hurt Corn, but Wheat Suffers Little.

Crop conditions are summarized as follows in the weekly bulletin issued by the Weather Bureau. The week ending June 7 was the most favorable of the season in the Rocky mountain region and over the western portions of the central valleys. Generally favorable conditions also prevailed in the middle Atlantic and Southern States, but in New England and the upper part of the middle Atlantic States, heavy rains have prevented growth.

ARE YOU LOUSY OR HAVE YOU GOT THE ITCH?

Your grandfather had both and if you are free from lice and never had the itch you should thank your mother for cleaning out these diseases. How about your cattle? All over the west it is a known fact that mange and lice kill more cattle than cold weather or storms. In this section the farmers have not yet made arrangements to get rid of these diseases which, even if they do not kill any of their cattle, yet retard their growth and make it less profitable to raise them than if they were rid of the lice and scabs. I have just completed a dipping tank and am ready to dip your cattle, sheep and hogs at a reasonable price and guaranteed satisfaction. You may believe that your stock don't need dipping, but if you will examine them or have some one look them over that understands these diseases you will find out that it will be a profitable investment to have them dipped. It will rid them of lice and help to keep them free of gnats and flies during the hot weather. The large cattle ranges find it profitable to dip their stock and as land in Wayne county is much more valuable it should prove a better investment here to have all stock dipped. It will pay you to investigate and find out my terms to have your stock dipped. Phone No. 190 or write me for information. I will be pleased to have you call and examine my plant for dipping all kinds of stock. It always pays to get rid of lice and mites in any kind of stock.

THE POST OFFICE FIGHT

The fight for the appointment to the postoffice at Wayne, grows in intensity. J. R. Manning is now in the running and it goes without saying that he is putting up a fight that will make it interesting from now until the appointment is made and the matter settled. This puts three candidates in the field as follows: W. H. McNeal, the present incumbent, Bert Brown, former county clerk, and J. R. Manning, and besides these there are others in a very receptive state of mind in regard to the matter and there certainly will be no lack of timber from which Congressman McCarthy will have to pick the fortunate man. It is to be hoped the contest will be waged fairly and that political animosities as a result of the contest will not be aroused that will work injury to the interests of the party as has unfortunately been the case too often in former fights for this place. It is safe to say that personal ambition on the part of aspirants for the Wayne postoffice has worked more harm to the republican party of Wayne county than any other cause and it may do so again, but we hope it will not.

NOTICE.

In the district court of Wayne county, Nebraska.

In the matter of the application of Frederick L. Perry, Guardian of the estate of Harry McNeil, an incompetent person, for license to sell real estate of said ward.

On this 3rd day of June, 1905, it being one of the days of the regular February, 1905, term of this Court, this matter came on for hearing, upon the application by petition of the said Frederick L. Perry, Guardian of Harry McNeil, for license to sell the real estate of said ward, situated in Wayne county, Nebraska, to-wit: The northeast quarter of section nine(9), township twenty-five(25), range five(5), east of the 5th principal meridian, and invest the proceeds thereof at interest for that it would be for the benefit of his said ward that said real estate be sold, and so invested, and was submitted to the court, and it appearing to the court from said petition that said minor and said guardian are non-residents of the State of Nebraska, and that it would be beneficial to the said ward that such real estate be sold, it is therefore, ordered that the next of kin of said minor and all persons interested in his estate and in said real estate appear before me, the Judge of said court, at Chambers, at the court house in the city of Neligh, county of Antelope, State of Nebraska on the 5th day of July, 1905, at three o'clock, P. M. to show cause, if any there be, why license should not be granted to the said Frederick L. Perry to sell the said northeast quarter of section nine(9), township twenty-five(25), range five(5), in Wayne county, Nebraska, for the purpose above set forth. And it is further ordered that a copy of this order be served on the next of kin of said minor and all persons interested in said real estate by publication of a copy of this order each week for three successive weeks prior to the time of such hearing in the Wayne Herald, a weekly newspaper published and circulated in said county of Wayne, and that it shall be unnecessary to personally serve a copy of this order on the next of kin of said ward, and all persons interested in said estate.

J. F. BOYD,

Judge of the district court of Wayne county, Nebraska.

QUALITY VS. QUANTITY.
Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach, and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures indigestion, dyspepsia, belching, sour stomach, weak heart, etc. Kodol Dyspepsia cure for what is sometimes called America's national disease—Dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition.
