JOHN KATE

of Staley and poultry fame Says

men go to Colorado for their health and some for gold, and others for sight seeing and again there are others who have more money than they can ever spend who never go nor spend a dollar on any of their friends that they may enjoy some of the beauties of nature which Food has so wisely placed before them." But I know that a great many of the Wayne people are going this summer and I know that a great many of them will ask me. 'What will I need for a trip to Colorado?' I would answer, "That depends upon what you want to see and do." If you want to go to all the fashionable resorts, you will need a good suit of clothes and plents, of money—besides a camera. If you want to see some of the grandest scenery in the world, climb some of the "Eternal Hills" and see true fissure veins from 100 to 250 feet wide, containing ore in place that will assay from \$10.00 to \$200.00 per fon. You will need a ticket to Erisco, \$1.00 each for as many days as you want to stay, and a few cents over. To begin with you want SIGHT SENSE. You do not have to be an expert to see that gold is there in abundance. If you have one good eye—some say 'half an eye',—and can tell the difference between a stone wall and a hedge fence, you can see the difference between the fissure veins and the country rock. If you are blind then you should have TOUCH SENSE. You can tell by the weight of the ore whether or not it bears mineral. It does not require much intelligence and little if any know-ledge of geology to sort ore. Any citizen of Wayne could do it with a little instruction. In addition to this you should have COMMON SENSE. I say "in addition." You do not need the others if you have that -but as most people have the sense of sight and touch it is all right

Now, if you will go with me, taking along these three requisites: Common Sense, the sense of sight and the sense of souch, and fail to see that there is gold enough in the Ten Mile Range to keep us busy for this generation, with the best machinery, and that there will then be enough left for the next generation, and you don't know how many more. The trip will not cost you anything, and I'll guarantee you a good time. The stuff is there and you'll want some

If you wanted to know more about chickens you would go to John Kate, so likewise if you to know more about The King Solomon mines go to some one who has been there, such as Dr. Blair, Messrs. H. C. Henney, Henry Lessman, Theo Duerig and others, and hear what they have to say about it.

Two Days more and the offer to pay your fare upon the purchase of 1000 shares will have d away. Ask those who have been and join our ranks of "satisfied stockholders" before midnight, Saturday night.
