HARVEST SONG.

Summer all is a pleasure past; Summer charm is a tale that's told; Days of reaping have come, at last; Days of ripeness and days of gold...

A CHILD NO LONGER

THE sound of his daughter's joyous young voice in the hall, and the closing of the front door, brought John Graham out of his study...

For the moment, his daughter and her new gown were uppermost in his mind. His wife was a home where the habit prevailed of "talking things over" and anything pertaining to his daughter was of paramount interest...

"Thank you, father," she whispered. "Does it mean to me that you are still?" he asked...

"No, but I don't like my new dress," she said. "I don't like to speak of it. I don't like to speak of it. I don't like to speak of it..."

"No, but I don't like my new dress," she said. "I don't like to speak of it. I don't like to speak of it. I don't like to speak of it..."

"No, but I don't like my new dress," she said. "I don't like to speak of it. I don't like to speak of it. I don't like to speak of it..."

new element which had come into his daughter's life.

He sat in his study looking the paper before him. His thoughts were not on the columns, but on the girl who had just been married...

"Thank you, father," she whispered. "Does it mean to me that you are still?" he asked. She looked at her father, her eyes telling the truth...

"Thank you, father," she whispered. "Does it mean to me that you are still?" he asked. She looked at her father, her eyes telling the truth...

THE PART HEFTER.

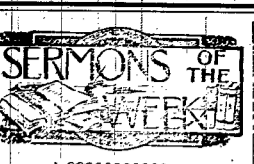

An Actor's Success May Not Depend on the Number of His Lines. An actor, known for his "35" experience, was asked to play a part...

"What's the matter?" he asked. "I don't know," she said. "I don't know," she said. "I don't know," she said...

"What's the matter?" he asked. "I don't know," she said. "I don't know," she said. "I don't know," she said...

"What's the matter?" he asked. "I don't know," she said. "I don't know," she said. "I don't know," she said...

"What's the matter?" he asked. "I don't know," she said. "I don't know," she said. "I don't know," she said...

..KNOCKERS..

Every business man has knockers. There are two kinds. One kind "knocks" his business from him and the other knocks at his door to bring him business. The first kind tells his customers that his leather is chiefly paper, that his prints will fade, his butter is rancid, his weights are light and other things equally false and vicarious; It makes no difference what his business, someone will "knock" him out. Some "knockers" even say mean things about a mining company—a company that is taking the treasures of earth from their hiding places and putting them into circulation, blessing all and injuring none. Some men would be out of a job if they didn't "knock."

Below is the picture of a knocker of the other kind. It is opportunity knocking at YOUR door. She brings you wealth. It is "up to you" to open the door. Our Wayne people are becoming interested. They are waking up to the fact that we have a good business proposition which is run on conservative business principles. A great many of us are listening to the "knock" of opportunity and EACH WEEK BRINGS MORE PEOPLE INTO MY OFFICE making orders for stock.

Last week I took more orders than I have in any one week since I went into the business. Will you be the next or will you wait until you have to pay me One Dollar per share for what you can now get for Twenty Cents?

Listen! Some of you are going to pay me One Dollar per share for stock in the King Solomon and will be glad to get it at that.

Again, I beseech you to listen— It is always a good thing to listen to the right kind of knockers. We will keep the opportunity now knocking at the door as long as we can, but the day will come when she will wait no longer. The only safe plan is to open at once. You have an opportunity to get away from this extreme heat; an opportunity to see some of the grandest scenery in the world; an opportunity to see a good place to invest money where it will bring you good returns for years to come. I START FOR COOL COLORADO AUGUST 30! Some of our Wayne people are out to the mines this week looking over the property and we will soon hear what report they have to make. Come up to my office and we will talk it over. OPEN THE DOOR TODAY for tomorrow never comes and opportunities once lost are gone forever.

O. A. King, Dist. Mg'r

Office Over 1st Nat'l Bank, Wayne, Nebraska

LOCAL AND MISCELLANEOUS.

Rev. J. H. Karpenstein was an Emerson visitor Monday.

J. H. Weatherholt, of Hoskins, was in Sioux City Monday.

Simon Gorman marketed a carload of hops in Sioux City Monday.

Following is the high club score for last week: Miner 24, Fisher 20, E. Jerry 16.

Phil Kohl and Clyde Oman returned Tuesday morning from a trip up in South Dakota.

J. H. Massie and wife left Monday for a few days visit at the Ed Cullen home in Wausle.

The Misses Thompson, daughters of Fred Thompson, deceased, were at Sioux City Monday.

Earn to Mr and Mrs. V. A. Senter, on Tuesday a son, Senter is stepping high, wide and handsome.

Bert Soper and wife returned Monday from Laurel where they spent Sunday with Charley Nichols and wife.

John Harrington, Ed. E. Walmann and R. E. K. Mellor were passengers east Tuesday morning for South Dakota.

Lyle Hungerford, who has been visiting friends in Wayne for some time, left Tuesday morning for Billings, Montana.

Mr. Bourrette, of Harrison, Neb., was an arrival in the city, the early part of the week to visit our townsmen, J. E. Marsteller.

Dr. Miner, of Chicago, who has been visiting the past two weeks at the home of his sister, Mrs. Lew Owen, left Tuesday for his home.

Miss Irene Furchner, who has been visiting at the home of her brother, Alfred for the past few weeks left Saturday for her home at Plattsmouth, S. D.

George Nangle came up from Omaha Sunday night and stayed over Monday with his parents. George has a good job with a railroad contractor in that city.

The Royal Neighbors will hold a social Saturday afternoon and evening on the lawn of Mrs. Ike Walden on First street just west of Grothe's grain office. You are cordially invited to be present and enjoy the occasion.

Bert Wilcox, of Carroll, returned from Sioux City Monday where he had been in a hospital for the past five weeks and during that time underwent a pretty severe operation from which he is recovering very nicely.

There will be a meeting of camp 1078 Modern Woodman of America next Tuesday evening, August 22, and it is requested that a good attendance of neighbors be present as there is very important business to transact.

In E. Cunningham's Seattle letter, the distance of Seattle from the Pacific is given as 15 miles when it should read

150 miles. The error is a typographical one and was not noticed until more than half the edition was printed.

J. L. McCorkle, of Sioux City, Iowa, has been secured to judge the poultry at the fair to be held next month. He is said to be an expert poultry judge and our poultry raisers can rest assured their fowls entered will be properly scored.

Misses Jennie Nelson and Bonnie Reed of Wayne, cousins of Mrs. E. J. Tucker were the latter's guests the first of the week. Eugene Gannon and Ralph Rolph went to Wayne Wednesday, the former to visit his sister and the latter to bring home one of the Doctor's horses which has been up there.—Pender Times.

With one arm already amputated and his blood poisoned, Willie Leasner, aged 10, may die at Oakdale, Neb., as the result of a savage attack by his dog. While herding cattle he fell down and his whip struck the dog, which turned on the boy, biting him incessantly for an hour till men drew the beast's teeth away.—Norfolk News.

August is the best time in the year to kill the weeds. An old mower used on the roadside can save the price in a single year of a good machine, by doing away with the weeds usually allowed to go to seed and to multiply by neglect. Cut the weeds in all the neglected places and add value to your farm as well as beautify your surroundings and lessen the labor of crop culture for years to come. This advice is free, take it or not, but if taken it is mighty good medicine.

From the way readers of the HERALD speak of the recent issue of the paper, it is safe to presume that, generally speaking, they were pleased to have the old man away and the boys at the helm, and we are sure we appreciate the services the lads have rendered. We knew they were all right or we shouldn't have left them in charge of matters, and sincerely hope that we may be able to keep the pace they have set, but it may be pretty strenuous for an old man, and one that is inclined to copyness and laziness.

Miss Winona Moran, who was a graduate of the Normal college of this place and afterwards was a teacher in our city schools, was killed at her home near Creston, Neb., one day last week. It seems that she had been recently married and was living with her husband on a ranch near the above named place, and that she and her husband were horseback riding when by some means or other she was thrown from her horse and so severely injured as to cause death in a very short time. She was well and very favorably known in this city and many will regret the abrupt ending of so promising a life as hers.

Wayne has a few men that come un-

der the application of the new celebrate law, by which those who persist in indulging excessively in the use of strong drink can be sent to a hospital for insane and treated until cured of their taste. To some, at least, of these drinkers and their families or friends it would be a blessing to have the law enforced and have the unfortunates taken care of and properly treated. It is not pleasant to be interfering in what is really the affairs of others but when men persist in making nuisances of themselves and not only disturbing but actually trampling under foot the rights of people who are good citizens, they become a menace to good order and decent society, and in defense of right ought to be restrained.

They came, they saw and they conquered, but that does not tell the story at all. For an aggregation of men dressed in bloomers, they handled themselves in a most lady-like manner. Barring one bad inning we should have beaten them, but it must be remembered that this team has not been together on the diamond before. Wayne certainly has the material for a ball team that would be a winner and if supported and put on a basis where they won't have to play for the playing out of their own pockets the boys will organize and practice and make a team that will be a credit to the town. It is true Wayne got badly soaked by one aggregation, but give these fellows a chance and they will give you a ball team. Come out of that anti-baseball mood, get a little enthusiasm, do something. If it's too late now why start the movement for next year and if we don't get a winner then we miss our guess.

The management of the Fair have secured Prof. Smith of the Nebraska State University as judge of the cattle and hog departments of the big fair to be held here next month. Prof. Smith is an acknowledged authority and has the reputation of being one of the very best stock judges in the west of anywhere else, and will give our exhibitors the advantage of his knowledge and it will be worth more than any money premium to be able to have something on which he will place a ribbon and we trust our stockmen will not only have their stock in exhibition form but will have it on the grounds early and put it in competition. The fair bids fair to be one of the big exhibitions of the north-west and from all indications, will rank with many state fairs. The promise for a large attendance is very flattering and Wayne is going to do her best to see that everything shall be of a high order.

There was a case in Justice Alter's court Tuesday afternoon entitled State of Nebraska vs. J. H. Wright. The trouble grew out of defendant, who is a house wayer, pulling a house through the electric light wires of the city and in so doing tearing down a couple of

poles and breaking some wires. The city authorities had Wright arrested for destroying property and at the trial it developed that defendant had asked permission to arrange the wires so that the house could pass under without damage to it or the city property and that permission was refused because the plaintiff claimed defendant owed an unpaid bill for damage caused to a crossing in moving a house at some former time and after refusing him permission to move the wires, and thus holding the house on the street, ordered defendant to get the house off the street or it would prosecute him for blocking the same. Then defendant took matters in his own hands, fixed the house so as to prevent it from damage, and pulled through, carrying poles and wires with him, and then followed the arrest and trial. The jury, hearing the evidence, came to the conclusion the city was in the wrong and acquitted the defendant.

It's back to the old job with everybody in the office from the devil to the foreman yelling for copy. We had a pretty good time and saw just a little bit of this big country of ours, and after it is all over we are more in love than ever with good old Nebraska with her green fields of splendid corn and her broad pastures filled with sleek kine, fat hogs and elegant horses. You can talk to us of the great and boundless west with its possibilities, but we are more than ever convinced that it is pretty hard to beat the broad prairies of the states of the middle west, and that the average man has really small inducements to change his abode with the expectation of bettering his financial condition, especially if he is a farmer. A trip through the west convinces us of another thing, and that is, the day of cheap lands in the United States is past, because in every little valley where it is possible for agriculture to be made profitable there are men occupying it and about all that is left is barren plains that can only be utilized by the aid of irrigation, and this is of necessity an expensive means and when resorted to makes the lands so reclaimed high in price and we believe, in many instances, of doubtful durability, and in fact, we are persuaded that in many places the fertility of the soils so treated, are already showing undoubted evidences of exhaustion. While many farmers in these irrigated districts show signs of prosperity, in many other cases the evidences are of the contrary kind, and at best the valleys are small as compared with the whole and with a demand for at least half a million new farm homes each year, we are unable to see anything except higher prices in the future for the great fertile farm lands of the middle west. If you do not believe this to be true and have any notion of selling your farm here and going west, our advice to you would be to spend a few dollars in investigating

before you let go of your holdings here with the expectation of being able to better your condition.

Snow Flake \$1.35 per sack.

COLLEGE COMMENCEMENT.
(Communicated.)

The contest between the two literary societies was held Thursday night in the chapel and was indeed a very creditable contest. The contest consisted of essays, orations, recitations and a debate. The contest was opened by a piano solo by Miss Helen Pile after which an essay "Only Air Castles" was given by Miss Laura Neiland which brought out many practical ideas of life. Next followed an essay by Miss Nettie Glaesbarn entitled "Beauty and Utility" which was well rendered. The orations, "Little by Little" and "American Supremacy" by Jennie Vennerberg and John Powers showed a great deal of preparation and thought. The recitations by Miss Lind and Miss Hoggart were well delivered and showed considerable training. The debate, "Resolved, That labor unions are detrimental to the laboring people of the United States" was certainly a well chosen question and a question which is being agitated at the present time by classes of people. The debaters handled the question nicely. The debaters were for the Crescents, Miss Neiland and Mr. Rohn and for the Philomatheans, Miss Vennerberg and Miss Hoggart. The Crescents won the contest by the small margin of one per cent.

Friday night the members of the State Certificate class delivered their orations. The program was as follows: Cimb Through the Rocks be Rugged..... Miss Trilley
He Can Who Thinks He Can..... Miss Davis
Piano Solo..... Miss Malby
Poetry of School Life..... Miss Brachman
My Temper..... Mr. Olson
The Value of Decision..... Miss Moore
Little Acorns of Ideas..... Miss Matherson
Put Your Shoulder to the Wheel..... Miss Maude Davis
Song..... Misses Moore, Lind
Messrs. Blackstone, Reber
Fear of Failure..... Miss Tucker
Preparation..... Mr. Miller
Charity is Good..... Miss Lannan
Smiles..... Miss Johnson
Piano Solo..... Miss DeGroat
Dig..... Miss Waddell
A Tinker..... Miss Clifton
The orations were very well rendered. On Saturday night the first division of the Teachers' Professional class delivered their orations as follows:
Climbing the Rocky Highway..... E. G. Blackstone
Self Control..... Miss Dugger
Piano Duets..... Misses Stuart, Johnson
The College Woman..... Miss Luchsinger
If I had a Chance..... Mr. Lundak
A Thought Changes the Face of the World..... Miss Purdine

Hit it Again..... Jim Pile
Vocal Solo..... Miss Britton
A Trifle..... Edna Vaughn
A Man..... Mr. Schneider
Why go to College..... Miss Lathrop
Patriotism..... Mr. Smith
Piano Solo..... Miss Whitney
Politeness..... Miss Snider
Promoters..... Euzelia Johnson

This program was very good. Sunday morning the members of the graduating classes, with their many friends, gathered in the M. E. church and listened to a magnificent sermon by Rev. Frizzell, of Sioux City. The theme of the sermon was "The coming supremacy of men over all organic and material things." With Christ as the inspiring center, the speaker showed how such a promise had been made to Adam, how it had been reclaimed in the inspired writings of David and how that great theologian of the new testament times, the writer of the book of Hebrews, declared that the promise was not yet fulfilled. With abundant and apt illustration it was made clear that we are now making marvelous strides toward the time portrayed in the prophecy, that we may continue to make advancements and reach the times millenia only to the degree that we shall keep in harmony with the life and principles of the Son of God. Appropriate music for the service was rendered by the college choir.

On Sunday afternoon the meeting of the Christian Associations was one of peculiar interest to students and visiting friends. Prof. Gregg presided, Prof. Elliot read the bible lesson and Miss Euzelia Johnson gave the invocation. The music which interspersed this part of the program was an anthem by the college choir and vocal solos by Misses Stewart and James. Then followed the address of Prof. Gregg, based on Rev. 11:3: "The kingdoms of this world are become the kingdoms of our Lord and His Christ." The great kingdom that John knew was Caesar's and the one the vision of which he caught was Christ's. The speaker drew a strong contrast between the government of the Caesars and the morals, the education and the ideals of those times and the conditions in our own day. He concluded with a rapid summary of the force now at work—greater spiritual vitality, aggressiveness of the church and progress in Christian unity, which forces are now making for a realization of John's vision.

At the close of the address, Prof. Gregg invited the audience to a circle of prayer in which many joined. An interesting feature of the meeting was the student love feast introduced by Miss Neptune. The large number who spoke in this part of the service and the testimonies given were strong evidence, not only that the christian associations are strong factors in the institution, but that the N. C. class of 1905 have caught the spirit of Prof. Gregg's ad-

dress and realize their mission of spreading Christ's kingdom.

The program for Monday evening was as follows:
Esther Samuelson, presiding officer.
Lord Byron..... Miss Perry
Value of Hope..... A. P. Berg
Piano Solo..... Miss DeGroat
A Doubter..... Miss Clark
That Other Fellow..... E. A. Clark
Self Confidence..... Miss Fenike
Substance Against Show..... A. R. Richardson
Mixed Quartet..... Messrs Moore, Lind, Messrs Rost, Reber
Dividends..... Miss Newman
Popularity..... Edward McGee
Piano Solo..... Miss Gann
Precision..... E. W. Wright
The True Value of Life is Usefulness..... Miss Johnson
These orations were well delivered and gave a great many practical ideas of life.

On Tuesday evening the last division of the Teacher's Professional class delivered their orations which were as follows:
Ora F. Dagger, Secretary of Class.
Presiding officer.
Ideal Love..... Miss Samuelson
Big I and Little You..... C. O. Rost
Piano Duets..... Misses Stewart, Walker
Inspiration..... Miss Davidson
The Lion Outside..... E. A. Matherson
Luxury..... Miss McGee
My Neighbor..... Miss Matherson
Piano Solo..... Miss Miller
Sail, Not Drift..... Miss Sealie
Penetration..... Theodore Hall
Having a Good Time..... Miss Johnson
Piano Solo..... Miss Johnson
Man and Opportunity..... Miss Brown
Public Sentiment..... Miss Richardson
These, as well as the others, were well prepared and well received by an appreciative audience.

On Wednesday evening the members of the Scientific class gave their orations, the program being as follows:
The Science and Conclusion..... Miss Reed
Way-Marks of Divinity..... A. P. Dugger
Science..... Miss Beauchemin
Piano Duets..... Misses Stewart, Malloy
Tak e Nothing for Granted..... Miss Brown
The Man Behind the Glass..... C. L. Wright
Put Sunshine Into Your Work..... C. W. Foster
Vocal Solo..... Miss Benson
The Union of Values..... Miss Erickson
The Majesty of the Home..... T. F. Dugger
Specialties..... Miss Gantner
Piano Solo..... Miss Larson
Thank it..... E. L. Coleman
The Masonic Librarian..... Miss McGee
Piano Solo..... Miss Cook
Not in Our Shelves..... Starr, Lee, J. Ott
The oration of the Scientific class of 1905 was a very interesting one and it is one of the highest ever given in the institution.
