ABOUT PORTLAND

Letter Descriptive of that Section of Oregon.

LUMBERING, MINING, FARMING

Portland a City of 112,000 Inhabitants--Boasts of Healthfulness--Fair is All Right.

PORTLAND, Ore., July 24, 1905.

Trip from Salt Lake was made partly during the day and partly at night, leaving the latter point at about 9 a. m. and arriving at Ogden just before noon. From the latter point to Pocatella, Idaho, the country is pretty varied, sometimes through beautiful, fertile valleys and then again through sage brush and dry desert where it would seem that existence for either man or beast must be a hard battle. On all sides the mountains are in evidence, sometimes near by and again far away in the distance, as you traverse the country on the Oregon Shortline, one of the splendid roads under the control of the Union Pacific. The scenery along the road between the points named is quite varied and most of the distance is pretty good. After leaving Pocatella the journey is down the great Snake river and as nightfall came soon after leaving the town we had small opportunity of knowing much about the country through which we passed between there and Huntington, Oregon, where we arrived just at daylight, but if we were to judge the country by the appearance of the cars and our appearance next morning it would certainly lead us to think it was not very excellent. Around Baker City the country looked to us as though it might be fairly good and it had the appearance of being a very good lumbering country with considerable mining in the mountains and the valleys looked fertile and good. It was Sunday and people along the way were generally in their Sunday togs and idling away the day, but at places along the way it seemed as though they did not know or care what the day was because they were busy at work. At near Pendleton we got into one of the great wheat growing, non-irrigated districts of the state and were told that the crop was a good one, yielding 35 to 50 bushels per acre. But say the day was a hot one, being 105 in the shade at Pendleton, and everywhere the wash dust of these dry plains flying in clouds that filled the cars and along with the heat made the journey anything but a continual round of pleasure. Lands around Pendleton are pretty high priced running all the way from \$40 to \$120 per acre. At Umatilla Junction we got our first view of the Columbia river and a magnificent stream it is; the rest of our journey is along this great river. Portland is a city of 112,000 people as shown by the census of the assessor just completed and is one of the prettiest cities we have seen on our journey: It is not, as many suppose, on the seacoast, but is on the Willamette river ten miles from where that stream joins the Columbia and 118 miles from where the latter enters the Pacific. Here again the sight-seeing or observation cars are made use of to view the city and learn what is to be gathered in a three hours' ride. On this ride we passed the first Chinese cemetery we ever saw. The graves are not marked with monuments such as we use, but by boards or stones numbered and without names. The Chinese put one or more bodies in a grave, just as occasion or economy may dictate. A place is provided as the repository of roast chicken, pig, rats or other edibles the departed one may need to feed upon during the journey to the great resting land. Portland boasts of its healthfulness and attributes it largely to the excellent water supply taken from Bull Run, at the base of Mt. Hood many miles distant. The city has 16,000 homes, of these 5,000 are occupied by the owners, the other 11,000 are tenants. Here the U. S. government maintains a hospital for the treatment of the insane from Alaska. Mt. Hood is fifty miles distant from Portland and Mt. St. Helens sixty miles. Portland claims to be the largest manufacturer of lumber in the world. While wandering around the fair grounds on the first day here I came across Fred Thompson and his bride who were apparently enjoying life. The fair is all right and while not on nearly so large a scale as last year's St. Louis show, it is a good one and is worth seeing. As one would naturally expect the Pacific coast and oriental exhibits largely predominate and the coast exhibits in our estimation are better than at the World's fair. The grounds are beautiful and when illuminated at night are a veritable fairy land. The hotels, restaurants and people whose business it is to take care of the great traveling public are very reasonable in their charges and when it comes to methods of graft are not in it for a minute with the Missourians at last year's show. But it looks to us as though people were tiring of so many of these great shows and the diminishing interest is being marked by crowds that do not meet expectations.

On August first our homeward journey began on one of the splendid trains of the Northern Pacific railroad. Our journey was through beautiful valleys and along rolling streams, up and over the great Cascade range and down

the eastern side into the wonderful valley of the Yakima, one of Washington's most productive sections. In crossing the mountains, lumber camps are passed in great numbers where busy men are rapidly converting the timber of the mountains into merchantable lumber and with the destructive forest fires are fast denuding the mountains of the great wealth with which nature has endowed them. The scenery along the way is beautiful, but of the more subdued kind than is presented by the wonderful and awful Rockies. The valley of the Yakima is purely an irrigated district and without the aid of irrigation is nought but a barren waste of sage brush and volcanic ash or alkali—it is hard to tell which—but water works wonders when put onto this soil and has certainly created in this valley a wonderland of high productivity. Land values are very high the cheapest of the lands under irrigation being worth \$50.00 per acre and from that they run up as high as \$200.00. Of course alfalfa is the great crop, along with vegetables and fruit of every description. On the bench lands, being too high for irrigation, wheat is the crop, and twenty to thirty bushels is considered a good crop and remember that a crop is only grown in alternate years. After leaving the valley of the Yakima and especially from Pasco to Spokane wheat is the only crop grown and this is raised on land where irrigation is an impossibility. This country is a high plain with plenty of sage brush and scarcely any grass and in the wild state is selling from \$10.00 to \$15.00 per acre and the improved land sells for about \$25.00. Wheat is the only crop that can be raised and twenty bushels is considered a good crop and in order to obtain even this yield a crop is only grown alternate years and the other year the ground must be summer fallowed and cultivated in order to retain sufficient moisture to grow a crop the next year, for be it remembered very little if any rains descend during the growing months and moisture sufficient must be conserved from the rains of fall and winter or no crop will grow. Winter wheat, which is the greater acreage, is sown as soon as rains come in the fall which may fall in August or may be delayed until November and the seed time must wait for the moisture. From Spokane eastward until North Dakota is reached, the journey is one over mountains and through valleys very much like all mountain countries—some good and some not so good and nowhere any great growth of native grasses as we are accustomed to see on the great prairies. North Dakota, with its wonderful fields of wheat extending away beyond the limit of vision on both sides of the railroad and its great herds of sleek cattle feeding on the wonderful grasses looked mighty good to a prairie inhabitant who had been gazing for weeks on great mountains and bleak plains with here and there a fertile spot, and makes us feel that after all the great middle west holds brighter prospects for the poor man or one of moderate means than can be found in any of the faraway lands of the great west. Big red apples, luscious peaches, excellent plums and pears with all the kinds of other fruits are grown on the coast and valleys of the mountain country but when the crop is good the price is usually small, and a very small acreage of corn properly tilled will buy all the fruits the ordinary family needs or desires and leave a surplus to invest in necessities and luxuries that the great majority of the residents of these mountain countries never are able to indulge in. At Ellensburg, Wash., we saw Taylor and Mrs. Steen and little Lois and visited with them for probably fifteen minutes. Mr. Steen is a conductor on a Northern Pacific freight between Ellensburg and Pasco and he and the family not only look well but seem to be enjoying their new home.

LOCAL AND MISCELLANEOUS.

Statisticians say the value of the agricultural products for the year 1905 will reach the enormous aggregate of \$4,000,000,000.

L. Holtz's new house in north Randolph is looming up in fine shape and is a great improvement to that part of town.—Randolph Reporter.

Mention is being made by some of the North Nebraska papers of the availability of John D. Haskell, of Wakefield, as Governor Mickey's successor.

A Winsdite consoles himself with the thought that in heaven there is no marriage or giving in marriage—he is a married man and sorry for it.

The college students made things pretty lively around town the latter part of the week, but their fun was of the good natured kind that leaves no bad taste in the mouth.

The Jesse James show that held forth here three days and nights last week to very good audiences, and by those present the show is said to have been fairly good and to have given very good satisfaction to the audiences.

The Wayne kids managed to scoop the Randolph kids in the ball game at the old settlers' picnic by a score of 11 to 12. Say, that game was worth going miles to see, not because of the brilliant playing of either team but to witness a real, genuine, dyed-in-the-wool rag chewing match, which as a whole was pretty good natured, but it flowed with surprising volatility.

The judge for the poultry at our fair is from Akron, Iowa, not from Sioux City as stated in our last issue, but he is to be the judge of poultry at the Sioux City Inter-State fair and if he is good enough to hold down a position of that kind he is certainly all right for our fair. Wayne don't intend to have anything but the best talent to act as judges in any department.

An Atchison woman when in the east recently made a personal visit to a woman who conducts the beauty column in a big magazine. She found she had wrinkles, hair on her upper lip, freckles, that her hair on her head was straight and thin, and she was so fat she waddled. The Atchison woman, who had been faithfully following the beauty specialist's advice for a year, hasn't come out of a trance yet.—Norfolk News.

Sioux City has the brightest prospects for the Inter-State Fair of any year since its organization. It is one of the great fairs of the northwest and deserves the grand success it is realizing. It gets together one of the greatest exhibits of live stock and farm products and brings to its racing classes a better lot of good horses than most of the state fairs and treats its exhibitors and patrons courteously and wins friends that push it to the success it so richly deserves. It is a pleasure to speak a good word for the fair and its management and that is one of the reasons it succeeds.

It is pretty difficult for city authorities to enforce the ordinances regarding defective sidewalks against the average citizen, when the boss of the coop will not put his own in a passable condition. It is like a preacher talking against sin, and being at the same time, a notorious transgressor of the laws of God and man, not likely to be very effective. We know a town where the sidewalks along the premises of the mayor are notoriously bad and yet this man is expected to make other people live up to the ordinances and keep their walks in good condition. Why not clean your own house before you attempt to regulate others. There are some things Wayne boasts of and there other things she is ashamed of.

Another year of the North Nebraska Normal College has become a matter of history. The year was a very successful in point of attendance and results accomplished, but no different than its various predecessors for the school has been a grand success from the day of opening its doors in September, 1891, to the close of the year 1905—fourteen years. The attendance has grown with each year, the facilities have been increased year after year and today are not adequate for the demands of the school. Its students are scattered from end to end of the United States and many of them have met and are meeting with grand success in their chosen avocations in life. It is safe to assert that no other school in the country has turned out a like number of students who have more successfully met and won out in the battle of life than have the students of this school of which not only Wayne, but all North Nebraska is so proud. There will be a two weeks' vacation, then the old bell on the hill will ring out its call to work and back to their work will go scores of the old students and hundreds of new ones, for we are assured the prospects for an increased attendance are evident on all sides.

The old settlers' picnic for 1905 is a thing of the past and there is nothing for the promoters to feel sorry over. It was the greatest of its kind in point of number in attendance and it seemed to be highly enjoyed by all present. It is coming to be one of the big events in the country, looked forward to by most of our people with pleasant anticipations that so far, have never been disappointed. It brings together old friends and neighbors once a year who otherwise would have no opportunity of meeting each other. It recalls the trials and tribulations of the early days that fortunately for most of the participants came out all right and today, with enough of this world's goods to pass their declining years in peace and quiet, and surrounded by happy families and friends, they enjoy recounting the days when it was not so. It is good to take at least one day off each year from the hustle and push of every-day work of chasing the slimsy dollar, to think of the past, to grasp the hand of old neighbors, to realize that after all there is something else besides the accumulation of worldly wealth to be sought after. The officers chosen to look after the welfare of the association for next year are E. B. Crawford, president; Levi Diltz, vice president; Geo. Wilbur, secretary and John T. Bressler, treasurer. We are assured next year the picnic is to be the greatest thing ever.

Reminders of summer goods, must be swept away at once from the Fair Store. Believing that whatever is worth doing at all is worth doing with might and living up to that belief is the key to the secret of this store's wonderful success. There is careful study back of every purchase; there is hard work and careful planning back of every sale movement--and if there is anyone else that brings out greater effort than another, it's the final clean-sweep sale of summer merchandise, now in full swing. At this time we are clearing the store decks for action. Every impediment, all obstructions in the shape of broken lines, waifs and strays, the reminders of summer stocks are to be swept away, so that in a few days hence the store can step forward in its entire new dress, prepared to give a battle royal for fall and winter business.

Dated August 21, 1905.
WAYNE SPEED AND FINE STOCK ASSOCIATION.
By C. M. CRAVEN, Secretary.

REPUBLICAN COUNTY CONVENTION.

The Republicans of Wayne county, Nebraska, are hereby called to meet in delegate convention at the court room in Wayne, Nebraska, on Saturday, September 9, 1905, at 2:30 o'clock p. m., to elect thirteen delegates to the state convention to be held at Lincoln, Nebraska, on the 14th day of September, 1905, and to place in nomination candidates for the following offices, to be elected at

the election to be held on November 8, 1905:
County Judge, County Sheriff, County Superintendent of Public Instruction, County Coroner, County Clerk, County Treasurer and County Commissioner for the 1st commissioner's district, also to transact such other business as may regularly come before said Convention.
The several precincts are entitled to a representation in the convention as follows, based on the vote for Honorable A. Galusha for secretary of state at the election held November 8, 1904, being one for each seventeen votes or major fraction thereof and one delegate at large for each precinct:
Barnes, 4; Chapin, 6; Deer Creek, 9; Garfield, 7; Hancock, 4; Hoskins, 4; Hunter, 5; Leslie, 3; Logan, 4; Plum Creek, 6; Strahan, 5; Sherman, 6; Wilbur, 7; Winside, 4; Wayne, 1st ward, 1; 2nd ward, 7; 3rd ward, 8.
It is recommended that the precinct primaries have the election of delegates to the said county convention held at the polling places in each precinct last designated by the county commissioners; that the vote for such delegates be by ballot from seven p. m. until nine o'clock p. m., on Friday, September 8, 1905.
It is recommended that the primaries nominate the precinct officers to be elected at the next general election, and certify such nominations to the county clerk.
A. R. DAVIS, Chairman,
GRANT S. MEARS, Secretary,
Republican County Central Committee,
Dated August 21, 1905.

SUMMONS ON NON-RESIDENT.

To Ewald Koefoed, Annie Koefoed, Nels Pederson, Mrs. Nels Pederson, wife of Nels Pederson, and John P. Tinley, defendants:
You are notified that you will take notice that on the 31st day of July, 1905, the plaintiff, Charles H. Burr, filed his petition in the District Court of Wayne county, Nebraska, against you impleaded with Sophus Thompson, Phil H. Kolb, William Larsen and Olaus Hanson, defendants, the object and prayer of which are to foreclose two certain mortgages, one dated December 13th, 1902, given by the defendants, Sophus Thompson and Ewald Koefoed, and one dated December 13th, 1897, given by Sophus Thompson, each given to Charles H. Burr, and each upon the following described premises situated in Wayne county, State of Nebraska, to-wit:
The West half of the Southeast quarter of Section Twelve (12), and the Southwest quarter of the Northeast quarter of Section Twelve (12), all in Township Twenty-one (21), Range Two, East of the Sixth Principal Meridian; that there is now respectively due upon the notes secured by said mortgages, the sum of Fifteen Hundred Dollars (\$1,500) with interest at ten per cent from December 11th, 1904, and the sum of Twenty-two Dollars (\$22.00) with interest at ten per cent from December 14th, 1903; for which sums with said interest plaintiff prays for a decree declaring the same liens upon said premises prior to any and all interests of the defendants or either of them in said premises; that said premises may be sold to satisfy the amount due plaintiff on said mortgages; and that the purchaser of said premises at such sale may be put in possession thereof and for such other relief as may be just and equitable.
You are required to answer said petition on or before the 11th day of September, 1905.
Dated July 31st, 1905.

THE WAYNE HERALD.

Boyd county papers are pushing Congressman Kinkaid for the senate to succeed Senator Millard. If Senator Millard is to have a successor other than himself Judge Kinkaid is as good a choice as could be made.

A short time ago the HERALD received a letter in which we were asked what we thought of Supreme Court Commissioner Ames as a candidate for the nomination at the republican state convention for judge of the supreme court of the state.

The "Work Times" is of the opinion that primary election laws are not the best way to get the real expression of the country's preference in a county convention and believes many precincts under a law of this kind would have no representation in convention because farmers would not take the time necessary to organize and attend the primaries.

Considerable comment has been made on the stand this paper has seen fit to take regarding the boosting of candidates for office, and it seems some of the newspaper brethren are laboring under the impression that any candidate who gets the support of the HERALD will have to pay for that support at local advertising rates.

The private secretaries of congressmen and United States senators are a form of graft that costs the people of the United States a pretty snug sum each year and we are just old-fashioned enough to believe that if congressmen and senators need these lackeys they ought to foot the bills themselves and that it should not be paid by the general government.

through the proper channels or else become as sure to do the bidding of their masters without protestation.

If some of the reports current about Commissioner of the Supreme Court Ames are true he is hardly a fit person for the republicans to nominate and elect for judge of that court.

"Suppose," said the professor, "that there were no microbes." He smiled. "What would happen then? Then there would be no sour milk, no spoiled meat, no tainted fish, no rancid butter, on the earth's surface.

"How would this come about? It would come about through the absence of decay. Most animals live on vegetable growth and all vegetable growths live on decay. Decay is what fertilizes, what nourishes them. Without decay vegetation would cease. Then soon, the carnivora would cease, for, having no herbivora to feed on, they would feed on one another, and thus soon eat themselves up.

LOCAL AND MISCELLANEOUS.

Herman Lundborg returned from his South Dakota trip on Monday.

Mrs. Frank Strahn and son were passengers for Omaha Tuesday morning.

Mrs. F. E. Smith, of Emerson, was in town Tuesday visiting her mother, Mrs. Speer.

Joe Love was in the city on Monday on his way home to Carroll from Le-mars, Iowa.

Otis Strahn and family, of Malvern, Iowa, are visiting their brother and sisters in the city.

Prof. Davies and wife left Friday evening for Denver, expecting to be away a few weeks.

J. A. Bent, the veteran land man, was in town Tuesday morning looking as hale and hearty as of yore.

Miss Lena Morehouse, of Tekamah, returned home Tuesday after a pleasant visit with her sister, Mrs. Walter Weber.

Archie Curtis, for a time employed by J. E. Marsteller, was an arrival in the city Saturday for a visit with friends.

Frank Martin reports the birth of a new daughter at his house Saturday morning and says mother and daughter are doing nicely.

Word comes from Sioux City that Jim Conover and wife are rejoicing over the birth of a big boy at their home on last Saturday.

Jeroy Riggles left Saturday for Portland, Oregon, to not only take in the fair but to visit various other places and points of interest on the coast.

John Evans, of Carroll, Iowa, has been in this section for a few days visiting his friend, Walter Williams, and looking around trying to buy a piece of Wayne county land.

The pulpit of the Presbyterian church will be occupied next Sunday, morning and evening, by visiting pastors of the Baptist convention which is being held in the city this week.

Peter Iversen, who for the past two years has been living near Herman, has been in the county during the past week and rented a farm near Winside and will move here in the spring.

Quite a sprinkling of old soldiers and others will take advantage of the cheap rates to Denver on account of the National G. A. R. encampment and will visit points of interest in the mountain country.

O. A. Sellon recently purchased the old A. L. Davis quarter section in Sherman precinct, paying \$60 per acre for it and we understand Bert Brown sold his quarter section in the same precinct to John Hadly for \$46 per acre.

The contractors on the Great Northern extension from Sioux City to Ashland are advertising for men and teams to do grading work. The grading is being pushed as rapidly as possible and Oakland and Fremont feel as though they were particularly favored in having the road built through them—in fact Fremont feels so good over it that she is turning up her nose at Omaha and inviting her people to get out of the pumpkin patch.

Lucille, the seven-year-old child of Eugene Gildersleeve, while playing around home Saturday afternoon was bitten by a snake which the children said was a rattler. Dr. Blair was summoned at once and during the time intervening before he arrived all kinds of home remedies were applied to the wound and when the doctor arrived he found the patient in such good shape that he expresses a doubt as to the bite being that of a rattler. The bite was on the child's leg and she is now not suffering from the bite.

WAYNE HERALD: In a recent issue of the Hoskins Headlight I read an article in regard to the resignation of John Kaulan as marshal of the town and which lauded him as the best marshal the town ever had. I believe he did more harm to the town than ten so-called "bums" could do in a year and with others draw the line on the "bums" that he has been harassing and molesting until they went to other towns to do their trading. It is a pity that the citizens of Hoskins will now have to lock their doors on account of the "bums" that will infest the town because John Kaulan has resigned as marshal. All hail the incoming marshal whoever he may be, but let him understand we are the people, not "bums" that support the town and must be respected accordingly.

us to say, that for the young man who is made of the right metal, the young man who is constituted of talent, determination, and keen desire, there is no keener incentive to better achievements in the breeding business than to meet in honest competition the product of a contemporary breeder's ability in mating, developing and fitting prize winning individuals. * * * It pays to show—there is not a doubt. When you show you advertise. You do not tell people of your goods, you give a real, live demonstration. They are not obliged to accept your statements, they have a clear opportunity of observing by the eye, your goods. The impression obtained is a picture stamped upon the mind. They want to buy. They have your card. They write you. They become your patron. Or maybe, they have a neighbor who resorts to them for information where certain stock may be had. They have your stock in mind at once. Thus there are a hundred different ways in which advertising and profit may accrue from showing.

A RAIN-PROOF SALT BOX AND HOG FEEDER.

After using and experimenting for six months with these, I now have one that works perfectly, and at a lower price than before. Can sell you a Salt Box for cattle or Feeder for hogs for \$2.25, or the two combined for \$4.00 and up. The need of such an article is becoming more evident every day; there has scarcely been an issue of the Iowa Homestead in the last few months that has not urged the farmers to feed their hogs something to keep them healthy and many valuable recipes have been given which this Feeder is adapted for and it is sold with a guarantee that the hogs can neither waste nor mix dirt with the medicine. A dairyman wrote to the Homestead a few weeks ago to ask what was the reason his cream took so long to churn and was told to salt his cows regularly and the trouble would cease. Just tell me how many cattle and hogs you have and I can fix you out.

LOCAL AND MISCELLANEOUS.

George Yarran, of Carroll, was in town Friday. Lon Evans and Jim Shannon, of Carroll, were in town Friday afternoon. An Campbell was down from Holt county last week visiting friends in this county. Joe Cullen came in from South Dakota Friday evening for a short visit with his folks. Thirty-five patients were brought up from the Lincoln asylum for the insane to the Norfolk hospital, on last Saturday. Dr. and Mrs. Plimpton and family, of Glenwood, Iowa, are visiting with Mrs. Plimpton's parents, J. W. Bartlett and wife. Clem Theobald came in from Madison, Wis., Friday evening for a few days' visit with his brothers and other friends. The four daughters of C. H. Chace, of Stanton, who had been visiting friends in the city, left Friday morning for Lake Okoboji. Representative Chas. McLeod and daughters, of Stanton, stopped over Friday night in the city and left on Saturday for Lake Okoboji. Mark Stringer came up from Lincoln Thursday to attend the old settlers' picnic and to look after some building he is having done on his farm east of town. Thursday evening the rain was so heavy in the vicinity of Stanton that a piece of the Elkhorn railroad track was washed from the roadbed. Down in the Emerson country corn was pretty badly knocked down by wind and rain, but is getting up again. Mr. Backus and wife, of the Pierce Leader, were in town last week attending college commencement exercises and made us a very pleasant call. By the way, the Pierce Leader, under Mr. Backus, is one of the very good papers of North Nebraska, and is justly entitled to the excellent patronage it is receiving. Some of the Dixon county newspapers were considerate enough to mention the fact that E. E. Shackelford of the Allen News would make good timber for a county officer and "Shack" comes back in a rush and assures the brethren that he is content to lead the simple life and edit a country newspaper and does not wish either office or the responsibilities an office entails forced on him, and "Shack's" judgment is mighty good. In the trial of Tom Bell on Saturday for inebriacy, sufficient evidence was produced to convince the board that Tom ought to be given the benefit of the cure, but it was decided to suspend commitment pending good behavior. In other words as long as Tom lets booze alone he can be at liberty, but when he breaks over, the asylum doors will swing open to receive him, and there are others likely to get the same dose almost any time. Reed's Fourth regiment band of Sioux City, one of the best if not the very best musical organization in the west, has been secured for the fair and will furnish the best music you ever heard. Each evening during the fair they will give free open air concerts on the streets of Wayne. If there are any other attractions you can think of that the managers ought to get to entertain you during that week, just mention it and probably it will be secured. Chapman, the hustling secretary of the Randolph Fair Association, was in town Friday and while he was here he did not fail to put in some good work in letting people he met know Randolph was going to put up a fair that would be a good one and one that would be worth attending. Exhibitors can show their stuff at Sioux City, Wayne and Randolph for three weeks in succession and to more people interested in fine stock than they could possibly get together anywhere else in the same length of time or with so little effort. C. B. Owens' team became unmanageable Thursday afternoon while coming in from the north and one of the horses kicked over the tongue and broke it and ran away. They came down the hill north of the standpipe at a terrific rate until the tongue struck one of the city's stone crossings when the wagon pretty nearly turned a somersault, throwing Mr. Owens, his son Herbert, Dick Williams and Will Skadden several feet in the air and pretty badly bruising up all of them. The horses became detached from the wagon and ran until exhausted when they were gathered in only slightly scratched. Mr. Owens was rendered unconscious by the tumble, but was around town the next morning. The horses evidently became excited on account of the numerous teams passing and rearing on their way to and from the old settlers' picnic and for a time it looked as though more than one person was likely to be seriously injured in the mixup. C. H. Bright and wife left Tuesday for Rogers, Neb., to visit a few days with the parents of Mrs. Bright, leaving there on Saturday, August 26, for St. Paul and from there to Portland, and after stopping there a day or so will go on to San Francisco, from which place they sail September 6 for the Philippines. As our readers are aware Mr. and Mrs. Bright both enter the government service as teachers in the islands, and will be gone for at least three years. Mr. Bright has been county superintendent of Wayne county for almost six years and it is safe to say could have held the office for sixteen years longer if he had desired to do so. He has been by far the ablest and best official who has ever filled the position, doing his work in a thorough and conscientious manner and as a result the schools of the county are in most excellent shape. Wayne county dislikes to lose Charley Bright and his estimable wife but wishes them not only a safe journey to their chosen field, but will ever feel interested in knowing that they are having their fondest expectations fully realized. After they have fulfilled their engagement with Uncle Sam we hope they will return to our midst and conclude to make this their home for the rest of their days.

THE BEST... FOR THE PRICE

The good lands that can be bought at low prices grow scarcer every day soon the day of lands at \$20 per acre or less will be past for all the country east of the Missouri river. Buyers are rushing into Hand county, South Dakota, at a wonderful rate and are amazed at the grand crops in evidence everywhere and at the extraordinary fertility of the soils and prices are advancing very rapidly. If you want to become an investor where a good home or profitable investment is assured, do not put off the day of coming.

South Dakota Lands are Booming

There is a great rush for farm lands in South Dakota and prices are advancing very fast. Now is the time to invest a little money and make a good year's wages. Take a trip with me and see the crops in this part of the country. This will convince you that now is the time to buy. I can get you excursion rates any day in the week. Don't delay. Land is going up, and your money won't go as far in six months as it will today. Fine, improved farm land from \$12.50 to \$25.00 per acre. LOCAL AND MISCELLANEOUS.

Mrs. E. B. Young is visiting at Unadilla and Nebraska City.

Ella Beyer was an arrival Monday morning for a visit with her sisters.

Edna Britton left Saturday for Aberdeen, Wash., where she will teach in the city schools.

A. E. Young, wife and daughter, left Saturday for Rapid City, S. D., to visit their son at that place.

Hank Slaughter passed through town Monday from Wakefield on his way home to Napier, Boyd county.

Mike Lower stepped on a rusty nail one day last week that ran almost through his foot and he has been pretty badly crippled as a result.

It is said that Bob Mellor contributed a very good gold watch to some light fingered fellow at Huron, S. D., on a recent trip of Bob's up there.

Jack Dornberger came in Friday from Sherman, precinct where he has been putting in a good bath room and fixtures for M. S. Moats, the Duroc-Jersey breeder.

B. P. Peterson, of Carroll, was in town Friday and says he and Mrs. Peterson expect to leave in a few days for Colorado, where they will go for the latter's health, she being afflicted with lung trouble.

Next week James Hurst and Frank Strahan will be at the big races at the Minnesota state fair where The Medium is entered in one of the big races and if no accident befalls the big colt it is expected he will make a pretty creditable showing.

If you are a boy or girl wanting to learn a trade and have the necessary education and natural ability to learn and the ambition to work, the HERALD can give you a job, but it don't want anyone looking for a soft soap as it has nothing of that kind to hand out.

Mrs. W. A. K. Neely went over to Ames, Iowa, the latter part of the week to visit her son John who is one of the students in the engineering department of the Iowa state college and who has been spending his vacation in actual work connected with the course he is taking.

Mrs. Elsie Paulson returned to Wayne Wednesday evening after a week's visit with Emerson relatives. Misses Laura Neising and Nellie Palmer visited over Sunday at the home of Dr. and Mrs. J. A. Maronde and left Monday morning to attend teachers institute at Ponca.—Emerson Gazette.

The date for the Monte sale of Duroc-Jersey boars and Aberdeen Angus cattle has been fixed for Wednesday, October 11 and it will be a good one where some glorious opportunities will be presented to get first hand deals of the very best families of Duroc Jerseys in the state and also to get some grand good black cattle.

Next week is the Nebraska state fair week and the Nebraskan who fails to visit the exposition will miss the greatest fair in the history of the state. It pays to visit these expositions and see what others are doing to further the agricultural and live stock interests of the state. You can always learn something by seeing what the other fellow is doing.

A deal was completed on Monday by F. M. Skeen and George Damon by which the stock of A. Rosenberg, was sold to W. M. Orr, of North Bend, Neb., and W. H. Morris, of Mulvren, Iowa. These gentlemen we understand are fully informed on the ins and outs of the general store business and it is their intention to put in groceries and run a general store in the building occupied by Rosenberg. The new merchants are well spoken of by those acquainted with them and we trust they may find this place fully up to their expectations.

The Hastings Republican says: There is no use talking these times are bedouning altogether too strenuous. Down in Missouri the other day a girl in looking after her departed lover "rubbered" her neck so badly that she broke it and died. In New Jersey a man fought mosquitoes so hard that he died of exhaustion. In Kentucky a colonel tried to break off drinking whiskey and his mouth dried up. In Iowa the other day a base ball pitcher pitched so hard his arm was jerked out of joint. In Chicago a woman roasted a street car and hog so hard the street car conductor went into convulsions. In St. Joe a young woman in looking over her left shoulder at the moon became dizzy fell backwards into a cistern and was drowned. Yes, these are strenuous times.

Last night about 10 o'clock fire was discovered in a freight car located on a side track at this place. It proved to be a car of merchandise loaded by Helphand & Co. to be shipped to Council Bluffs where they expect to locate. It was a difficult fire to manage and it took over an hour to get the flames under control. With one exception the department found the car windows and doors very difficult to open, they being bobby barred. When the fire was extinguished a box was found in the west side of the car containing a half gallon fruit jar partly full of coal oil and gasoline leading into which there was a fuse the outside end of which had been burned. The car had been sealed about 6 o'clock p. m. when A. Spigle, a member of the firm took the train for his home in Omaha. Dave Helphand, of the firm, left for the same place Wednesday evening. The railroad company took charge of the stock and shipped it to its destination. It is very likely

something will be "doing."—Pender Times.

L. J. Holle writes The Advocate from Hartington that Mrs. Holle and the children are expected home from their Ohio visit tomorrow evening. They have been absent three months. Holt Bros. & Durrie is the name of the new stock buying firm that succeeds C. E. Needham, the change having been made Monday. Holt Bros. are the well known breeders of thoroughbred Hereford cattle, and with J. R. Durrie will make a strong firm. Mr. Needham will move to Coogan, Iowa, where he will take the management of a line elevator on the Chicago, Anamosa & Northern a new railroad that is being built from Anamosa to Quasqueton, Iowa. Mr. Needham says four elevators will be erected this fall and that during their construction the firm will do truck buying. Next year they will build a number of elevators and Mr. Needham expects them to make his permanent home at Quasqueton. Here is success to the outgoing and the incoming. James Greer and family from near Wayne visited at the Burch Clark home north of town the first of the week.—Laurel Advocate.

LETTER FROM "BOB" OSBORN

Lakeside, Wash., Aug. 16, 1905.

E. Cunningham, Wayne, Neb.: Hello, Eph. shake. How are you? I enclose your Uncle Sam's paper for \$1 for which please send me one hundred cents worth of a Wayne newspaper, the edition of which I leave to your judgment.

You have no doubt discovered I long ago that as a correspondent I am an utter failure, not having written to one of the many Wayne parties I had promised to and not even answering the letters of those who wrote to me, yours among the rest. There is no good reason or excuse for this state of affairs and I have nothing to plead in extenuation except plain procrastination. If I could wield the pen of a "Who's Who" I should be tempted to give you a long description of this country, but as I could not do the country justice, and would only succeed in bringing you I will not attempt it.

The Wayne contingent are all well and happy, fat and fat, too.

Our climate and scenery are the best ever met while you will, of course, say that we can't live on climate and scenery, still we have managed to have two square meals and a dinner every day since we arrived and have all grown fat and some of us pretty sassy, especially me, Henry. We have everything that anybody (except a pop) could ask for as for our fruit just last week Henry told about our fruit. I say, Eph, it would do your heart good to see Henry Goll, Steve, Hanson, Nels Gramsley and I were over to see Henry last week, and say what he has all swelled up over his crop prospects until Fred Volpy would look like a greyhound pup beside him. He has 300 acres of wheat and oats, about 300 of it is wheat and will probably yield between 40 and 50 bushels per acre and he says that beats the butcher business, and especially since "old old Jim and Eph can't bother him." I don't doubt but that you have seen lots of growing wheat, but I am absolutely certain that you have never seen anything to equal the immense crop of wheat in the Big Bend country this year—thousands and thousands of acres that will yield over 50 bushels per acre, six feet tall and as thick as it will stand on the ground and all this from a sowing of from twenty-five to forty pounds per acre. It is certainly one of the finest sights I ever saw.

But there, this letter will be like Ed. Smith, "good only for length," so I must break it off. Tell Uncle Chas. I will soon send him a photo of some fish that will show him about what kind of trout we have here in the lake. Give my regards to all the "boys" and tell everybody that any time they call on us we will use them right and show them a good time. Respectfully yours, K. O. OSBORN.

SIoux CITY FAIR.

Forty men and teams are at work transforming the Interstate Live Stock fair grounds at Sioux City into the "White City" where will be given the third annual fair September 11-16. Half of the elaborate interior decorations of the buildings have been finished. Unless promises from all the towns within 150 miles of Sioux City are held, there will be a total attendance during fair week this year of nearly 200,000.

Of the \$20,000 offered in premiums, \$500 is open for corn displays alone, while there is more first money for Shorthorn and Hereford cattle than at any state fair in the United States, as a result of co-operation of national breeding associations.

For the \$1,000 hung up in purses, there will be thirteen harness races and twelve running. The latter includes the \$400 Western Brew derby, which will undoubtedly be the best running race ever seen in Iowa. In addition every day three men and one girl will be seen in the 30-mile relay race, changing mounts at the end of each mile.

Six brass bands of all varieties will add to the gaiety of the week. They include: Reid's Fourth Regiment band, of Sioux City, the best in the three surrounding states; the Grangers' clown band from Mammen, Iowa, every man dressed in hickory shirt, cowhide boots and overalls; the Rock Valley, Iowa, military band; the Maynard's juvenile band, of Irwin, Iowa, said to

be the best boys' band in the west, and the Hawarden, Iowa, and Allen, Neb., bands.

As a special display Swift & Co. will show their eight prize draft horses, each worth \$2,000; and the Sioux City Brewing company, the Sioux City Stock Yards company and Schloeman & Co., will parade their beautiful draft horses. While in the exhibition halls will be found live stock and products of the three states surrounding Sioux City that will give conclusive evidence that this is the richest spot in the world.

WAY TO TREAT HAY FEVER.

No Stomach Dosing. Just Breathe Hyomei—Stops Sneezing and Smarting.

E. J. Raymond is recommending to his customers as a cure for hay fever, Hyomei.

It is claimed for this remedy that it stops the spasmodic paroxysms, the sneezing, the smarting and running of the eyes and nose, and other acute symptoms of the disease.

Many persons have been cured of hay fever by Hyomei, and the discoverer of the remedy promises to be able to prevent both the occurrence of the annual attack and to stop the progress of the disease, even in the most chronic forms.

A Hamlin of Westford, Mass., writes "Hyomei cured me of hay fever in one week's time. I consider it a duty to tell others who suffer from this disease."

This endorsement is only one of hundreds that have been received by the proprietors of Hyomei. E. J. Raymond offers to refund the money if Hyomei does not do all that is claimed for it, is the strongest proof that can be given as to the confidence he has in Hyomei's power to cure hay fever. The complete outfit costs but \$1.00, while extra bottles can be procured for 50 cents.

Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for consumption, coughs and colds and other medicines thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 30 years. A sure protection to you is our name on the wrapper. Look for it on all Dr. King's or Bucklen's remedies as all others are imitations. Sold by J. T. Leahy, druggist.

The Only Way

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, riting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. For sale by Raymond's pharmacy.

Grave Trouble Foreseen

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine as Mrs. J. A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened and I could not eat. I was very bad for a long time but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by J. T. Leahy, druggist, at 50c a bottle.

Soothing and Cooling

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for piles and skin diseases. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits. They are dangerous. Sold by Raymond's Pharmacy.

Pharmacizing Burns

are instantly relieved and perfectly healed by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully, so that it blistered all over. Bucklen's Arnica Salve stopped the pain and healed it without a scar." Also heals all wounds and sores, 25c at J. T. Leahy's drug store.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

LOCAL AND MISCELLANEOUS.

George Yarnau, of Carroll, was in town Friday.

Lon Evans and Jim Shannon, of Carroll, were in town Friday afternoon.

At Campbell was down from Holt county last week visiting friends in this county.

Joe Oulien came in from South Dakota Friday evening for a short visit with his folks.

Thirty-five patients were brought up from the Lincoln asylum for the insane to the Norfolk hospital on last Saturday.

Dr. and Mrs. Plimpton and family, of Glenwood, Iowa, are visiting with Mrs. Plimpton's parents, J. W. Bartlett and wife.

Clem Theobald came in from Madison, Wis., Friday evening for a few days' visit with his brothers and other friends.

The four daughters of C. H. Chace, of Stanton, who had been visiting friends in the city, left Friday morning for Lake Okoboji.

Representative Chas. McLeod and daughters, of Stanton, stopped over Friday night in the city and left on Saturday for Lake Okoboji.

Mark Stringer came up from Lincoln Thursday to attend the old settlers' picnic and to look after some building he is having done on his farm east of town.

Thursday evening the rain was so heavy in the vicinity of Stanton that a piece of the Elkhorn railroad track was washed from the roadbed. Down in the Emerson country corn was pretty badly knocked down by wind and rain, but is getting up again.

Mr. Backus and wife, of the Pierce Leader, were in town last week attending college commencement exercises and made us a very pleasant call. By the way, the Pierce Leader, under Mr. Backus, is one of the very good papers of North Nebraska, and is justly entitled to the excellent patronage it is receiving.

Some of the Dixon county newspapers were considerate enough to mention the fact that E. E. Shackelford of the Allen News would make good timber for a county officer and "Shack" comes back in a rush and assures the brethren that he is content to lead the simple life and edit a county newspaper and does not wish either office or the responsibilities an office entails forced on him, and "Shack's" judgment is mighty good.

In the trial of Tom Dell on Saturday for inebriacy, sufficient evidence was produced to convince the board that Tom ought to be given the benefit of the cure, but it was decided to suspend commitment pending good behavior—in other words as long as Tom lets booze alone he can be at liberty, but when he breaks over, the asylum doors will swing open to receive him, and there are others likely to get the same dose almost any time.

Reed's Fourth regiment band of Sioux City, one of the best if not the very best musical organization in the west, has been secured for the fair and will furnish the best music you ever heard. Each evening during the fair they will give free open air concerts on the streets of Wayne. If there are any other attractions you can think of that the managers ought to get to entertain you during that week, just mention it and probably it will be secured.

Chapman, the hustling secretary of the Randolph Fair Association, was in town Friday and while he was here on business other than the fair, yet he didn't fail to put in some good work in letting people he met know Randolph was going to put up a fair that would be a good one and one that would be worth attending. Exhibitors can show their stuff at Sioux City, Wayne and Randolph for three weeks in succession and to more people interested in fine stock than they could possibly get together anywhere else in the same length of time or with so little effort.

C. B. Owens' team became unmanageable Thursday afternoon while coming in from the north and one of the horses kicked over the tongue and broke it and ran away. They came down the hill north of the standpipe at a terrific rate until the tongue struck one of the city's stone crossings when the wagon pretty nearly turned a somersault, throwing Mr. Owens, his son Herbert, Dick Williams and Will Skadden several feet in the air and pretty badly bruising up all of them. The horses became detached from the wagon and ran until exhausted when they were gathered in only slightly scratched. Mr. Owens was rendered unconscious by the tumble, but was around town the next morning. The horses evidently became excited on account of the numerous teams passing and rearing on their way to and from the old settlers' picnic and for a time it looked as though more than one person was likely to be seriously injured in the mixup.

C. H. Bright and wife left Tuesday for Rogers, Neb., to visit a few days with the parents of Mrs. Bright, leaving there on Saturday, August 20, for St. Paul and from there to Portland, and after stopping there a day or so will go on to San Francisco, from which place they sail September 6 for the Philippines. As our readers are aware Mr. and Mrs. Bright both enter the government service as teachers in the islands, and will be gone for at least three years. Mr. Bright has been county superintendent of Wayne county for almost six years and it is safe to say could have held the office for sixteen years longer if he had desired to do so. He has been by far the ablest and best official who has ever filled the position, doing his work in a thorough and conscientious manner and as a result the schools of the county are in most excellent shape. Wayne county dislikes to lose Charley Bright and his estimable wife but wishes them not only a safe journey to their chosen field, but will ever feel interested in knowing that they are having their fondest expectations fully realized. After they have fulfilled their engagement with Uncle Sam we hope they will return to our midst and conclude to make this their home for the rest of their days.

Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for consumption, coughs and colds and other medicines thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection to you is our name on the wrap-

per. Look for it on all Dr. King's or Bucklen's remedies as all others are imitations. Sold by J. T. Leahy, druggist.

Take Kodol After Eating.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for indigestion, dyspepsia, gas on stomach, weak heart, sour risings, bad breath and all stomach troubles. L. A. Soper, of Little Rock, Ky., says: "Kodol Dyspepsia Cure deserves all the commendation that can be given it, as it saved the life of our little girl when she was three years old. She is now six and we have kept it for her constantly, but of course she only takes it now when something disagrees with her. We feel grateful for the benefit derived from its use and would not be without it." Sold by Raymond's pharmacy.

CHEAP EXCURSION TO THE BLACK HILLS.

August 25, excursion tickets will be sold to Hot Springs and return for \$10. Deadwood and Lead \$15. Good returning until September 10. ...THE BEST... FOR THE PRICE

The good lands that can be bought at low prices grow scarcer every day soon the day of lands at \$20 per acre or less will be past for all the country east of the Missouri river. Buyers are rushing into Hand county, South Dakota, at a wonderful rate and are amazed at the grand crops in evidence everywhere and at the extraordinary fertility of the soils and prices are advancing very rapidly. If you want to become an investor where a good home or profitable investment is assured, do not put off the day of coming.
