### Praise for Wayne

Edgar Howard in the Columbus Tel ogram: The most-talked-about smal city in Nebraska is Wayne. There is always something in the cally paper regarding Wayne, and on the railros town, which is said to be the livelies burg of its size in the state. I one wondered why Wayne should be suc plain now. I have been making an in of the Wayne papers carried more than seven hundred inches of advertising for the merchants of that town. That tells the story and tells it true.

### Sewerage System Needed.

wape is well located for natural drainage, but its future good health can be made doubly secure by a first class system of sewerage. This, will soon be an imperative need, and the city author-tities should not delay action in that direction. A complete system will prob ably cost \$20,000, but it will be mone well spent.

### Occurs on Bloomfield Branch at Night.

CAUSED BY A FLANGE BREAKIN

One Man Suffers a Fractured Rib at Other Passengers Less Seri-ously injured.

Train No. 53, being a combination passenger and freight cars belonging to the Bloomfield brauch, was wrecked one mile and a half from its destitation Friday night. Joe Benesche, the mal clerk, was considerably bruised and on and had to lay off for several days One passenger whose name we did no learn suffered a broken rib and other injuries and three or four others we bluttes and three or four others were the haggage car and immediately after the accident lit out leaving in report for how badly they were injured. It believed, however, that they receive some severe bruises.

The train left Wayne with one refrestor at two coublington haggans.

The train left Wayne with one re-frigertor car, two combination bagging, mail and passenger cars and one extra coach to accommodate the crowds at-tending the fagt at this place. When near Bloomfeld, a fisher suddenly broke on the refrigerator car, de-railing all of the cars and tearing up the tract for 200 feet. The trucks were torn from each car and the air drum under the the baggage car was forced up through the floor into the mail apartment, break. ing loose the radiator, which contributed to the injuries received by Ma Benesche. A special train was sur noned to clear the track and take char of the wreck, but the regular train se vice was not resumed over the line u til Saturday afternoon.

A mile this side of where the accide courred, the train had stopped, and onsequently was making slow time then the flange broke. Otherwise the result of the wreck would doubtl ave been much more serious.

If the field is well drained and not plowed when wet, there may be no clods. It will, however, take two or three seasons to thoroughly find the soil that has been induced by previous instananagement. Full or winter plowing, turning the land in ridges and leaving it as rough as possible, so as to expose the molat as possible, so as to expose the moist surface to the frost, will do the work but unless there are underdrains to carry off the water the plowing may do as much harm as good.

Who are interested in having their teeth properly treated, filled and kept in a good healthy condition, I can safely recommend Dr. Eells to any person to be the best dentist have ever had do work for me. He theroughly understands his business. Only give him a trial and let him prove to you, by his work, what can be done. There is no need of any person in Wayne going to Sioux City, Omaha or elsewhere to have their teeth attended to while Dr. Eells resides in Wayne. I have had sufficient experience with dentists to prove what I say.

# The Wayne Fair

## What it wasn't-What it will be

The Fair is over and is now launched for the future. A great many thought it would prove to be an entire failure. They were happily disappointed. It was not a failure, but a success in every way. No fair minded person could find fault with it. Every person was happy and all the exhibits were good. The races were the best ever had in this county. Now, the ques-Now, the question is, What will be next year? Arrangements are already under way to make the fair next year more than twice as good as it was this year. Any business that does not grow and get better each year is not entitled to the patronage of the nublic. We wish to again remind you that this tore grow, and is today much larger than it was last year.

Our stock is nearly a third greaten and our prices. are lower than ever before, considering that nearly everything has advanced during the last year. If you have not been in this store since our fall stock has arrived, just step in and see clothing piled up as high as your head, ready for fall and winter trade. No town in the state the size of Wayne has a large a stock of clothing as you will see here

If you have ever failed to find what you want in the past in Wayne give this store a trial and you will be agreeably surprised, for you will find here a high class of clothing, shoes, and, in fact, everything that men and boys wear and at satisfactory prices. If it was possible we would compel every man in Wayne county to come in this store and see what we have, for we know that "seeing is believing" and, as we are in a position to save every family money on their clothing, we think it right to have everyone see what we have.

It costs nothing to see our clothing and you will betreated courteously if you come in; whether you buy or not makes no difference here. We are always pleased to show you what we have. Why not visit this store before you buy any clothing this fall?

Next week we will tell you all about that famous STALEY FINE WOOL UNDERWEAR.
