UNION MEDIUM JR.
FALLERTON
SIOUX CHIEF

UNION MEDIUM JR., 213 3-4, is a rich Chestnut horse. Weighs 1180 pounds with good style and fine disposition. As to his racing ability may be seen by the summaries of his races in his last two seasons campaign through Iowa, Nebraska, Missouri, Illinois and Kentucky. He was defeated but once and that in a world's record for green trotters of 2:08 3/4. He sires large fine colts with plenty of speed. His two oldest colts Sioux Chief and the Medium, both weighing close to 1200 pounds at three years old. Sioux Chief took a three year old record in winning race of 2:10 1/2 and the Medium working a full mile in 2:15.

FALLERTON is a sea brown horse with good style and action, with extra good feet and legs, stands 15 hands and weighs 1000 pounds. He is sired by the great Allerton, 2:24, dam Elena, 2:20 1/4. His breeding is equaled by few and second to none.

SIOUX CHIEF three year old record of 2:19 1/4, is an extra large fine colt. Is a handsome Chestnut horse, stands 16 1/2 hands and weighs 1260 pounds. Was the fastest three year old pacer in Iowa, Dakota and Nebraska. He is a son of Union Medium Jr., 2:23 1/4, dam Scissors, dam of three with records better than 2:25. This grand young horse crossed on common nunes cannot fail to get large valuable road horses. Service fees, Union Medium Jr., \$25.00; Fallerton, \$25.00; Sioux Chief, \$20.00. KATE ON FAIRS

Wayne County to Have the Up-to-Date Kind.

RACE MEETING AND STOCK SHOW

John H. Kate Says Our Fair This Fall Will Be Good One—Specialist Prefers Blue Ribbon to Premium.

It has been decided to have a fair in September and have one up to date. The old style fair is a thing of the past. No one now cares to look at the biggest pumpkin or the best bread or the finest bushel of corn—these things are now to be found with all intelligent people. The old style fair was taken advantage of by a few people to get all the premiums and the average person stood no show to win anything. Today the premium is a minor consideration—the exhibitor is a specialist who has something he wishes to advertise. Premiums cut no figure with a specialist. He prefers a blue ribbon showing that he had the best stock exhibited at the fair. The farmer in this age is interested in stock and the purpose for which he attends a fair is to see thoroughly bred animals. Some want to see a thorough bred horse in a race while others want to see pure bred cattle and hogs or are interested in draft horses, sheep or chickens. These are the things that specialists have to sell and are ready to show anywhere where they can get a crowd. The up-to-date fair is now a race meeting with thoroughbred stock and with amusements such as vander-ville shows, swings for the young folks and a general meeting of all the people of the country. It is an annual meeting and is taken advantage of by everyone who has moved away and returns to visit their friends. By attending the fair they can see everybody they ever knew in the county. We have in Wayne county a good many specialists who have stock as good as can be found anywhere. I have visited some of these specialists and they are anxious to have an opportunity to show what they have. I believe we can get together a fine collection of pure bred cattle, horses, hogs, sheep and chickens. We are assured of good races as arrangements are now being made for that part of the program. We now want in connection with the horse races a stock show, and the balance of the entertainments will come if assured a crowd. No man who has fine stock will tie it up in an open shed to show. They want a place free from wind and rain. To build buildings suitable and permanent is an expense that our Fair Association cannot meet. Any building in this climate has to be put up to resist the elements, and to last must be painted and cared for. What it costs to care for fair buildings will pay the hire of good tents each year, and all kinds of stock looks better in tents than in buildings, for the light is always good in a tent and good light is a very essential thing in showing stock. All we want is a number of good, clean, large tents, with new stalls and plenty of straw, and the specialist is ready to fill them with the best pure bred stock to be found anywhere. If we can insure a crowd we will not only have special stock men in this county, but those of all adjoining counties are ready to bring their stock, and the larger firms will each ship a car load to advertise. The races will interest the crowd in the afternoon, the forenoon being taken up in looking over the stock and taking in the shows, which will charge admission. It is always interesting to see our friends from different parts of the county meet at one place. We are glad to shake hands with them and renew friendships. We need a place in this county at which to meet once a year. Why not have that place at the county fair? It is impossible to get up an entertainment for the present generation that will meet their expectations (except a world's fair, so large that no one can see it all), but it is possible to get up an entertainment that will be interesting and profitable to a large majority of the people of Wayne county. We need some place to meet each other. We all like animals, and if they are good specimens of their kind we like to look at them. Women like to see a horse race, all of them like chickens and many of them like to look at cattle and hogs. Give them a chance to come and they will be there. We have some people that complain about the way the old fair used to be conducted, but that has nothing to do with an up-to-date fair. The old style is played out. This is an advertising age and unless a person has something to advertise he will not take the trouble to show his friends what he has. This is an age of specialists and only the specialist can win. There are plenty of them and they are ready to show you if you give them the opportunity. The county board, I believe, will be ready to help us when assured that the fair will be conducted on the up-to-date plan. The business men are ready to subscribe to help pay expenses and with a part of the gate receipts the horse races, with a stock show combined, will prove a success. Let this question be discussed by others through the county papers and we will soon have the people interested and making preparations for the fair. Wayne county is certainly one of the best counties in Nebraska and we have a number of specialists in this county who have stock fit to show in Sioux City or any

other city. Why not give them a chance to show it at home? Let us get together on this fair question and we will have a fair that will be satisfactory. Make it an annual affair that will bring all the people together in a reunion that will be enjoyed by all that attend.

J. H. KATE.

LOCAL AND MISCELLANEOUS.

On last Friday night a dance was given at the Beale Home south of the city. A new barn has just been completed there and the dance was held in it. A very enjoyable time was reported by all present.

The catalogue mail order houses are the greatest advertisers in the world and this is the means used to attract the orders of buyers to their houses. In towns where the local merchants are alive, and use printer's ink sparingly, but judiciously are the towns where these foreign concerns have the smallest trade. This is a day of extensive advertising; advertised goods have the right of way and the advertising merchant has the trade. Try it.

Now that Mr. Bressler has presented the city with sufficient land to make a park we hope the city fathers will get at work at once and put the grounds in shape. In donating this tract of land Mr. Bressler has done a commendable thing and we believe it is heartily appreciated by everyone who is interested in having the city beautified. There ought to be no waiting in the matter of putting the tract in proper shape and planting trees thereon because the more rapidly we move in this matter the sooner will we have what has so long been desired and the need of which has been so often and keenly felt.

We point with pride to the number of fine stock establishments fast coming into prominence in our county and say of them that they are the coming money makers. True enough, but we are apt to overlook the smaller concerns, which are making just as much money in proportion to their investment. In 1901 Robert Hefti, of this city, bought one pair of fancy pigeons. Gradually his stock increased until this year he has, after selling a number, about 150. Last year Mr. Hefti sold between \$300 and \$400.00 worth of birds. This year he has already had calls for birds from Alabama, Maine, Wisconsin, Illinois, Vermont and Iowa. Surely the investment in one pair of birds has paid Mr. Hefti well and at the present time it would be difficult to find a better or more profitable block in the whole country.

In the Indian Territory towns trouble is on between the United States government and the business men of the towns. It seems that the government has been collecting a license or tax from the business men of the towns for the privilege of doing business in the territory. The lots in the towns have been sold to the occupants thereof and they are resisting the tax claiming the government has no business collecting a license or tax from them for doing business on their own premises. The government ordered the U. S. marshals to collect the tax or eject the residents. The people of the towns got on their dignity and when an ejectment was attempted the town authorities promptly arrested the marshals and jailed them. Quite a sum of money has been raised to fight the cases to the last point of resort.

A. E. Littel, who for several years has been the principal of the Winfield schools, is making a try for the republican nomination for county superintendent. He is a young man of good educational qualifications and has been a very successful school man and would no doubt if nominated and elected be a very able successor to Mr. Bright, who without a doubt is one of the best superintendents the county has ever had. We understand that Earl Gibson, of this city, is also an aspirant for the place and if this be true the party has two bright young school men to choose between for the nomination and in choosing either one will not make any mistake from an educational point of view. It is one of the very important offices to be filled at the coming election and the HERALD is glad to see these able young fellows aspiring for the place and trusts the race will be a good natured one and that the fortunate man will receive the hearty support of his competitor after the convention has declared its preference.

At the fifth annual sale of shorthorns by C. D. Bellows of Maryville, Mo., the animals brought phenomenally high prices and the sale was the best in the west this year. Nineteen bulls sold for an average of \$404.25, thirty-six cows sold for an average of \$420 and the entire fifty-five head brought an average of \$418.70. The highest priced animal was Hampton's Modie, a red roan bull that sold for \$3,910, a record breaking price. The two highest cows, which sold for \$1,510 and \$1,005, were bought by C. F. Biehler, of Wisler. Two things were brought out at this sale: First, there is an ever increasing market for the pure bred Shorthorn abroad; for this high priced bull was bought for export; and second that the demand for good individuals of the best families in our country is not at all on the wane, but on the contrary men are just waking up to the possibilities of this work with cattle. With foundations for herds such as Mr. Biehler obtained and with herds such as we have in our immediate vicinity it looks as though northeast Nebraska is fast forging to the front in the Shorthorn world.

PRICES HIGHER

Advance in Horses a Very Striking One.

BIG DIFFERENCE IN FEW YEARS

Checks Given in Payment for Horses in 1896-7-8 Taken as Evidence--Horses Were Better Than Now.

D. L. Strickland showed the writer a few days since a lot of checks given in payment for horses in the years 1896, '97 and '98 and another lot given for the same purpose during the past year and the contrast was very striking indeed. The checks given in the year first named ranged from \$80 to \$75 but only one for the lowest amount and just one for the highest, the checks as a rule were for sums from \$10 to \$55. The checks given during the last year ranged from \$100 to \$225, largely around \$140 to \$175 per horse. Now let it be borne in mind that during the early years named only a few horses were bought there and shipped out and they were the very best, because an ordinary horse such as will readily bring \$100 now would not pay freight and expenses in those days. The same class of horses that sold in '96 '97 and '98 at \$50 would today bring from \$175 to \$200 and the horse that today sells for \$75 would not have paid shipping expenses. Things have changed slightly for the better in the horse industry during the last seven years.

A STORY OF SUCKERS.

Once upon a time a patent medicine fakir gathered about himself a vast throng to whom he expatiated in glowing terms upon the curative qualities of his bogus remedies; so smooth was he that in a short time he had sold out his entire stock, but had not yet exhausted the buying propensities of the crowd, the members of which had found themselves afflicted with all manner of diseases which they did not imagine they possessed until their "symptoms" had been described by the man with the "dream pipe."

The fakir was not at a loss what to do, however, and taking a long rope which he had in his wagon, uncoiled it and threw one end of it far out into the multitude there assembled and said: "I want all those who have purchased a bottle of my medicine to take hold of the rope." The people, thinking they were to witness some wonderful feat in ladder-gymnastics or acrobatics, one and all laid hold of the rope. The fakir looked on in satisfied contemplation a moment and then remarked, "Well, that's the longest string of suckers I ever caught at one time," and then drove off to seek pastures new.

At the annual meeting of the directors of the catalogue houses when dividends are declared on the previous year's business, we imagine that remarks like the last above quoted are quite frequent.—EX.

DEATH OF WILLIAM L. BEEBE.

Died at his home in Herrick, South Dakota, June 29, 1905, of typhoid fever, William Leonard Beebe, aged thirty-eight years, ten months and ten days. The remains were brought to Stanton for burial.

The funeral services were held at the Congregational church at 2:30 p. m. Wednesday, Rev. J. J. Klopp delivering the funeral sermon.

The deceased was well known to our people, having lived here for several years, and is a nephew of Batie brother. He was born in Hopper, August 30, 1866 and moved to Wayne with his parents when thirteen years old. The family lived in Wayne eleven years and then came to Stanton where they remained until a year ago. Mr. Beebe worked as agent for the Edwards-Bradford Lumber company at Valley for six years and at the time of his death was stationed at Herrick, South Dakota, as agent for the Wm. Krotter Co. in the grain and lumber business.

He was married November 16, and his young wife, his parents, four brothers and two sisters were present at the funeral, also Mrs. Hampstead and Mrs. Gardiner, of Valley.

It is sad to think of a young man dying in the prime of life leaving behind him loved ones to mourn. We extend our deepest sympathy and hope that when life's journey is over, those who are so sadly bereaved may join him in his everlasting home in heaven.—Stanton Register.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Dr. R. L. Cosner, D. D., says: 'I had stomach trouble and was in a bad state as I had stomach with it. I took Kodol Dyspepsia Cure for about four months and it cured me.' The "standpatter" opposes any changes because he says: "A rolling stone will gather no moss," forgetting the other saying, "a sitting hon never grows fat," or still the other, "A wise man may change his mind, a fool never."

If praising the course President Roosevelt has adopted in dealing with the trusts, is a commendation of W. J. Bryan as so many of our democratic brethren claim, let it be so. It don't matter who originates an idea, it is the fellow that puts it in effect that counts.

Minister Bowen, who represented this country in Venezuela for a number of years, was summarily dismissed recently by the President for mixing in affairs in which he had no business and to his meddlingness on his part is largely attributed our recent troubles with that country.

The contracts for grading the Great Northern from Sioux City to Ashland, Nebraska, have been let and work is to be commenced at once and the road is expected to be completed before the ground freezes up in the fall. This new line runs through a marvellously rich section of northeast Nebraska and is almost a direct air line between the points named and the only towns of any consequence touched by it is Oakland on the Omaha and Fremont on the Elkhorn and Union Pacific railroads. There is room for several good towns on this new line and they will be well supported by a good surrounding country.

A non-partisan organization for the purpose of controlling affairs of state in Nebraska with such men as Bryan, Hitchcock, Mike Harrington, W. V. Allen, Silas Hildcomb and Edgar, Howard as chief mouls and expounders would indeed be a daisy. These gentlemen are all good enough in their way, but to call them or anything they associate in or with for political purposes, non partizan, is a long stretch of imagination. If the fellows who are suggesting this combination to lead a non-partisan movement had included Gov. Mickey, Rube Schneider, Ross Hammond, Robertson, of Norfolk, and a few others we could name, then surely they would have some cause for saying non partizan.

Beginning July 1, it will, under a law passed by the last legislature, be necessary for every person owning, or operating an automobile or any other mode of conveyance not operated by muscular action, to register the same with the Secretary of State and have a number assigned to the machine, and that number must be prominently displayed and a failure to comply with this enactment renders the owner or operator of the machine liable to a fine of \$25 for the first offence and \$50 or thirty days in jail for each subsequent offense. The law permits car operators to send the machines through the streets of towns or cities at ten miles per hour and outside of cities and towns they can go at a twenty mile rate.

The last legislature amended the revenue law in several respects and among the changes is that which compels the county assessor to make up the assessment books instead of the deputies, who under the amended act simply make out the schedules. Another important change makes it obligatory on the county board of equalization to wait until after the meeting of the state board of equalization has certified the state assessment to the county board before it makes the levies for taxes. As amended the various school districts of the counties do not levy the tax necessary to run the districts as heretofore, but make an estimate of the expenses for the coming year and certify the same to the county board and they, after deducting the amount of moneys in the hands of the district and county treasurer to the credit of the district, make a levy sufficient to meet the estimate.

The state has paid out a little over \$1,400 as a gas bill for lighting the state building during the past year. Of this \$700 is said to be an account of the legislature. The legislature was in session just a few days over three months and so far as our memory goes hold but a very few night sessions and it will be pretty difficult to make the average taxpayer believe that \$1 worth of gas was consumed every night while the session lasted or that \$1 per night during the year is consumed. This gas bill is one of the many steals, large and small, that are constantly being perpetrated on the state. Late Secretary of State Porter, who owes the state \$1,000 for fees illegitimately pocketed during his incumbency of the office and which he steadfastly refuses to pay back, is trying to sell the state a plant for doing its own lighting of the capitol building, but judging the present and future by the past, if the state has any deals with Porter it is liable to get it in the neck. The Lincoln Gas Company has been furnishing the gas for illuminating the capitol for a long time, and it doubtless figures like too many Lincoln concerns, that the state is legitimate prey.

The Ponca Journal along with the Fender Republic and the Wakefield Republic, furnish absolute workshippers of C. E. McCarthy that they are to be seen in a recent utterance of the HERALD, a disposition on our part to oppose to the renomination of that gentleman. Let us say to those who are that the present editor of the HERALD was a friend and supporter of McCarthy before any of them occupied an editorial chair in Nebraska and is today as loyal to his interests as ever.

However we have but little patience with men who are so narrow between the eyes as to be unable to distinguish the difference between an item of news that every politician of any importance in the district is cognizant of, and an utterance of opposition or treachery. It is just such fool friends as these papers are demonstrating themselves to be, that have caused the downfall of many good men who had political aspirations and were pulled down to destruction by their short sighted narrow minded chumpions. McCarthy's political managers will do him a kindness by giving such papers as we have named a tip that they are much more harmful than helpful in some of their utterances.

On last Thursday the Supreme Court handed down its decision on the biennial election law passed by the last legislature and declares it to be unconstitutional, because the constitution plainly provides for annual elections. This necessitates the holding of an election this fall at which a Judge of the supreme court to succeed Silas Hildcomb will be elected, also University regents and pretty near all of the officers of the various counties except county attorneys. The news of the decision reached Wayne Thursday evening and as soon as Charley Reynolds and Jack Cherry heard of it they started on a hand shaking tour. The smile that accompanied the request for your support is now being practiced by Charley, Jack, "Uncle Dick" Russell, Grant and Enouph; but they say that Charley Bright is not anxious to control the school marm any longer and is seriously considering the project of going to the Philippines to look after the growth of ideas. It is too bad the law was knocked out because our elections are so frequent as to be disturbing factors in the business of the state, but as long as it can't be helped we will have to roll up our coat sleeves and begin to create trouble with our neighbors of different political faith.

A new law regarding notes given for patent rights goes into effect August first and it is as follows, "A promissory note or other negotiable instrument the consideration for which consists in whole or in part of the right to make, use or vend a patent invention or an invention claimed to be patented, shall have written across the face thereof, and above the signature thereof, the words, 'Given for a patent right,' such instrument in the hands of any purchaser or holder shall be subject to the same defenses as it would be in the hands of the original owner or holder; and any person who purchases or becomes the holder of a promissory note, or other negotiable instrument, knowing it to have been for the consideration aforesaid, shall hold the same subject to such defenses although the words, 'Given for a patent right,' are not written or printed upon its face." The law was conceived and enacted for the purpose of protecting the gullible against the wiles of the smooth graffer, but we cannot see how it will fulfil its intended mission. Suppose the man who writes the note fails to put the words, "given for a patent right," across the face of the note and desires to sell the note, is it all likely that he will notify the purchaser that it is subject to a defense such as that clause is intended to convey, and after getting his money for the note and has left the country, what will it benefit the signer of the note, if he is good, that such a law is on the statute books of the state? Make all notes subject to the same defense in the hands of "an innocent purchaser" as when in the hands of the original owner or holder, and then purchasers will see that there is no string to it, or won't buy.

LOCAL AND MISCELLANEOUS.

Mrs. John Harrington returned Sunday from a week's visit at Tekamah.

Frank Metten, of Winslow, was doing business in town Friday afternoon.

Woonsocket, South Dakota, claims to have had over two feet of rain since May 1.

Mrs. A. I. Tucker entertained several ladies at tea Saturday evening in honor of Mrs. J. H. Felber.

Henrietta Hanson and Winifred Fleetwood spent Sunday in Plinn Creek at the home of Dick Hanson.

Myrtle Rawhouser, of Norfolk, was an over-Sunday visitor with her sister, Mrs. Kingsbury, of Wayne.

Mr. and Mrs. Beckenbrant left Sunday, and Miss Minaie Wright left Tuesday morning for Portland to take in the exposition.

The Elite restaurant has again changed hands. F. M. Skeen sold it last week to R. A. Beach, of Bloomfield, who will open it up for business about July 1.

Washeries do not seem to be in great demand, not a single buyer put in an appearance on Saturday to make a bid on the White Laundry, advertised to be sold at auction on that day.

Rev. O. E. Jacobson and wife, of Sioux City, were over Sunday guests at the home of Victor Carlson west of town. Rev. Jacobson is the Swedish minister of one of Sioux City's churches.

A number of the Chicago excursionists returned Sunday evening. Those in the party were, Emil and Hattie Weber, Laura Lundberg, Tom Fritze, Vaughn Williams, Frank Hood and Lambert Roe.

Some Norfolk lads were shooting at a target Saturday with a boy pistol in which they used 22-caliber bullets and the result was Bobbie Martindale had a bullet sent through his right leg into the left one where it lodged and is there yet.

At the Blaine sale of Angus cattle, which took place at Alva, Iowa, on June 8, several imported Eritas were sold, but two head of cattle in the sale,

which were bred by Judge Moses, of this county, sold better by quite an amount than did their imported sisters. This speaks well for Wayne and its breeding establishments.

It would seem from reading the decision of the supreme court of Nebraska, in which it declared the biennial election law passed by the last legislature unconstitutional, that it sustains the act or part of act which orders the next election of county commissioners to be held in 1906 and if this view is right then "Uncle Dick" Russell can hold down his job for another year without having to go into the campaign business this fall.

Henry Hanson, Ed. Johnson, Henry Stump and Columbus Munson were passengers for South Dakota Tuesday morning. On the same train were several from Bloomfield and other points off the branch and also some from Hastings also bound for Dakota. If the tide keeps increasing for the next six months as it has during the past, three there will be a veritable rush from this part of Nebraska into South Dakota. Nearly everyone that goes into that state find the lands much better than expected and almost invariably become owners of some of the cheap lands before they return.

Cheney Chace was up in the sand hills last week looking after his cattle interests and found everything in good shape and no moisture to spare, in fact some of the boys are repeating a story that Cheney is said to have told to illustrate the wetness of that ordinarily dry country. He says that at one place where he was there is a sand hill that is several hundred feet high and the heavy rains of this year caused the water to follow a jack rabbit trail down the hill and the flow of water has increased to such a volume by the continuous rains that a water course has been made down the hill over sixty feet wide and the water flowing down it is about five feet deep.

Rumor has it that our present railroad service will undergo a change in the near future and that in place of present accommodation trains we will have two regular passenger trains between Bloomfield and Emerson. Bloomfield Journal. It is to be hoped the farmers will become a reality for surely the Bloomfield branch people deserve better passenger service than they have at present. We know but very little about railroad business, but the vast amount of business that is done on the forty odd miles of railroad between Wayne and Bloomfield would seem to justify the company in putting on a good passenger service for the people along the line.

Gossip, says an exchange, is a tumbling bird with eagle wings and a voice like a fog horn. It can be heard from Dan to Berseba and has caused more trouble than all the bedbugs, ticks, fleas, mosquitoes, coyotes, grasshoppers, chinchbugs, rattlesnakes, sharks, snakes, cyclones, earthquakes, blizzards, smallpox, yellow fever, gout and indigestion that this great United States has known or will know when the universe shuts up shop and begins the final invoice. In other words it has got war and hell backed up in a corner yelling for water. It has broken up happy homes, separated lovers, caused murders, suicides and subjected innocent persons to unjust criticism and ridicule and often times to persecution. Don't encourage it. It is one of the greatest vices in the world today.

The other day Al Sherbala and "Beech" Hays were swapping stories and "Beech" had told one or two that tried Al's imagination almost to the breaking point when he happened to remember a novel method he had discovered a few days prior for ridding a field of the potato bug pest and this is the way he told it. "I was out in the country a few days ago and found a farmer busy putting paris green on his potatoes and it didn't seem to be killing the bugs and I noticed that one big old bug seemed to be the leader of the army of invasion and it came to me that if I could just contrive some way to get that old fellow to move on and at the same time attract the attention of the others they could be gotten rid of without having to resort to the poison route, so I went into the farmer's barn, found a string of sleigh bells, brought them out and put them on Mr. Leader bug and drove him out of the patch and the whole army of bugs followed." "Beech" was paralyzed and it required several drinks of cold water to put his tongue in action again.

The Rosebud settlers are already beginning to see that making a home in a new country is not so much of a snap as many of them at first thought it, they are now starting a campaign to induce congress to give them free homes as there is serious doubts about their being able to raise the money to meet the deferred payments on their land. Four dollars an acre looks like a small price to pay for good land but the conditions may be such that it will be impossible for the settlers to produce more than a bare living for the first five years. This writer well remembers that when northwestern Iowa was opened to settlement in 1866 many thousands of people took up land under the Homestead act and that more than three fourths of them abandoned the land within three years being unable to make a living upon land that was given to them and which is worth at this time from \$50 to \$75 per acre. Thousands of people have failed to make good on homesteads in Nebraska; it is not a picnic opening up a new country and any man or woman who is willing to put in five years of his time on a homestead should be given a free deed to it and receive the thanks of the man who comes and pays him \$20 an acre for it. After he has proved up on his claim. -Norfolk Times Tribune.

Have you noticed the big new barn down at the fair grounds? Well it is

there, all completed, 36x60 with twelve excellent stalls and built substantial and good, demonstrating that the people who are pushing the meeting to be held in September have faith in being able to make a success of it and are building for the future, not expecting that one year will be all there is to it. Another barn 32x40 is now in course of construction and when it is completed there will be room on the grounds to care for forty horses in good shape. Horsemen will be certain of having a place in which their animals can be properly cared for and fitted for the races. After the horse barns are completed the management will at once go to work on the fences and places to take care of the hundreds of cattle, hogs, sheep and poultry they are assured will be on exhibition. Every preparation is going to be made in ample time, so that when the time for the meeting comes everything will be in readiness. It is to be an up to date show in every particular and if you have pure bred cattle, hogs, sheep or chickens you think are as good or a little better than anybody else has, get them fitted for the show and tell all your friends it is going to be equal to many of the state fairs, and you will not tell a lie in saying so.

FOR SALE. Three lots, half block north of the new park. They lay well for building and have an east front. Price, \$150. E. H. PHILLIPS.

QUALITY VS. QUANTITY. Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures indigestion, dyspepsia, belching, sour stomach, weak heart, etc. Kodol Dyspepsia cure for what is sometimes called America's national disease—Dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition. Sold by Raymond Pharmacy.

TORTURE A PREACHER. The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for consumption, coughs and colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At Wayne Drug Co.; price 50c and \$1.00 guaranteed. Trial bottle free.

If in a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Risers. The famous Little Pills Early Risers cure constipation, sick headache, biliousness, etc. They never gripe or sicken, but impart early rising energy. Good for either children or adults. Bob Moore, LaFayette, Ind., says: "No use talking, DeWitt's Little Early Risers do their work. All other pills I have used gripe and make me sick. DeWitt's Little Early Risers brought the long sought relief. They are perfect." Sold by Raymond's Pharmacy.

FURIOUS FIGHTING. "For seven years," writes Geo. W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won and cured disease by the use of Electric Bitters. I unhesitatingly recommend them to all and don't intend in the future to be without them in the house. They are certainly a wonderful medicine to have cured such a bad case as mine." Sold, under a guarantee to do the same for you, by Wayne Drug Co. at 50c a bottle.

No Matter Where You Go

Every American citizen should celebrate the Fourth and no matter where you go it is necessary that you should appear as a decent, respectable American citizen and you cannot enjoy yourself if you look different than the average man you meet. To look like the average man you will meet on the Fourth it is necessary that you make a change of what you wear, for no truly patriotic American will celebrate in the clothing he wears every day. If you have not the necessary clothing to make you feel comfortable on the Fourth we wish to again remind you that you will find what you need and at the right price at this store. Winside and Wakefield each say they will have a celebration and we hear of numerous small picnics, but no matter where you go, you will need to make the same preparation and we are the people you ought to see for what you need. You will not feel right if you buy clothing where they do not keep the kind that is up to date. If you buy a suit here you will have the satisfaction of knowing that it is not some old style, but is all right in every respect, and you will have to pay no more than other merchants ask for old-style goods. We hope you will celebrate and enjoy the day, but we are quite certain that you will make a mistake if you fail to have the right kind of clothing to wear on that day. Remember we have everything that men and boys wear. If you need shoes, we have the best kind. Shirts and underwear we have, and can please you. Our hats are right and our neckwear is the latest out. Come in and take a look at our store before the Fourth and you will find what you need and have money left to celebrate with if you trade here! You will make a mistake if you buy a suit before you see ours.

Henry Myers and Nels Nelson went to Omaha Monday with cattle.

James Tompson left yesterday for a trip to Portland and the Pacific coast.

Mrs. John Larson and daughter left last Thursday for Hot Springs, South Dakota.

J. D. King, who has been sojourning at Hot Springs, S. D., returned home Wednesday.

Mr. and Mrs. R. Craven were at Sioux City yesterday to meet a sister of Mrs. Craven.

W. L. Robinson and James McGuire, both of Carroll, went to South Dakota this morning.

Mr. Roland, father of Harry and John Roland, from Kansas, is here making his sons a visit.

Mrs. E. D. Mitchell is at Sioux City today to meet Louise on her return from school in the east.

Mr. and Mrs. Vest, of Indiana, were arrivals Tuesday to visit J. W. Tomlins and Mrs. Phillips.

Wm. House went to St. Paul Tuesday to have further treatment for his rheumatic troubles.

E. H. James, of this place, Ed. Jones and Robert Pritchard, of Carroll, went up to South Dakota yesterday.

C. Atz, of Panama, Iowa, arrived last evening for a short visit with his daughter, Mrs. Frank Whitney.

Mac Claybaugh, of Sioux City, was here Tuesday visiting his parents and incidentally talking trade to the cattle men.

Mrs. Milford, of Ord, who has been visiting her aunt, Mrs. S. R. Theobald, for some time left for her home Wednesday morning.

Mrs. Cassel and Miss Cassel who have been visitors at the Dan Harrington home in this city left for their New York home Tuesday.

Miss Mamie Wallace and Abbie Manning entertained a party of ladies at the home of the former southwest of the city Monday afternoon.

Mrs. Frank Russell, of Meadow Grove, Madison county, has been visiting parents and friends in this city and county during the past week.

O. A. King and Theodore Daerig, of Wayne, and B. F. Swain, of Sioux City, left yesterday for Colorado to inspect the King Solomon mining proposition.

The contract has been let for grading an extension of the Northwestern from Casper, Wyoming, to Poison Creek, on the border of the Rhoshone reservation, a distance of 100 miles.

The McKee-Brown case was postponed Monday, because of the absence of Justice Feather, until Wednesday when a change of venue was taken to Justice Alter's court and the trial set for this (Thursday) afternoon.

The marriage of Miss Eliza Von Seggern, daughter of Mr. and Mrs. Henry Von Seggern, and Mr. Harry Von Seggern, (not related,) of Crookston, Nebraska, occurred at the home of the bride's parents, on the evening of the 21st. First officiating. The newly wedded couple departed on the evening train for the home of the groom in Crookston.—Wisner Free Press.

The HERALD is informed that Olande Wright, of this city, is seriously thinking of being a candidate before the public county convention for the office of superintendent. Mr. Wright is a graduate of the teachers course of the Wayne Normal and has had several years experience as a teacher and is said by those capable of judging to be well qualified for the position should he be nominated and elected.

Sunday was Memorial day for the A. O. U. W., M. W. A., W. O. W., D. of H. and Royal Neighbors and was fittingly observed by the societies of this city. The exercises were held at the M. E. church in the afternoon and were largely attended by the members of the various organizations and others. Rev. Thomas Wright delivered the address and it was a good one, filled with good things from beginning to end. After the exercises were concluded at the church the societies marched to the churches where the last resting places of nineteen departed members were fittingly decorated and the services and ceremonies concluded.

At the council meeting Monday night the city attorney was instructed to commence a suit in the district court against the C. St. P. M. & O. railroad in order to determine the right of the city as to Logan street crossing the right of way of the railroad company. As our readers are aware this is the street east of main street that ought to cross the railroad on the west side of the stock yards and which the city authorities have been trying to get opened, but which up to the present they have been

unsuccessful in doing. The street at this time was open and was used, according to old settlers, but which some years ago the railroad closed and have ever since refused to open. There seems to be a question as to whether the city ever had acquired the right to a street crossing at the place named and it is felt by some that the matter that this suit is now ordered and will be followed with considerable interest by those most deeply interested.

CARROLL NEWS.

Years ago, when we first came here, there was a brand of flour made at Ponca, Nebraska, and sold here, called "Old Reliable," which was a most excellent flour. For years after the mill burned down that made this flour there were inquiries made for this particular brand. People wanted it because they had good success in baking bread from it. In a word, they knew how to handle it with the best results, and to this day you will find people who claim there is no flour made which is quite as good as "Old Reliable" was.

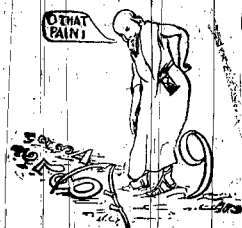

That flour was made of the same kind of wheat that we are using and those who have not used our flour and try it now will find when they get their hand in they will have no other.

Feed your hogs some shorts and your horses some bran. Too much corn will burn them out.

A TIMELY TALE

Guess it and Win Ten Per Cent Discount.

Old Father Time has been reaping figures. A sudden pain causes him to throw down his scythe before he had finished. Had he started five minutes earlier he could have finished his task before the pain struck him.

The proverb emphasizes the importance of doing things at the right time. What should be done today, if neglected, will take longer tomorrow, if it can be done at all. This is a new picture but an old proverb and by thinking a little you can guess it.

Let it teach you that NOW is the time to take advantage of our offer to give you a discount on your purchases, and that NOW is the time to get good goods at low prices.

Our shelves are crowded with bargains in seasonable goods. You cannot miss them in any department of our store, but we have a Special again this week.

Special this week: 10,000 yards ribbon in all colors, all widths From 16 to 40, all silk, 10c per yard. . . . Remember the Teaching of the Proverb is "DO IT NOW."

THE SUCCESSFUL CATTLE MAN DIPS HIS CATTLE

He does not allow them to become the prey of scab, mange, lice or itch. He dips his cattle for two reasons: First, it saves him the lives of many animals and is thus profitable. Second, because it is humane in that it rids the animals of troublesome parasites and heals the wounds upon the cattle. The successful cattleman knows that when he secures the health and comfort of his cattle he is also adding to his profits and while many cattlemen differ on minor points of cattle raising, yet they all agree that dipping leads to health and comfort in cattle and so leads to profit. When you read this ad let it remind you that I have installed a dipping plant and am ready to aid you in obtaining your profits. The price will be the usual one, so drop us a card for particulars. Some complain that the dips separate, but a sample of this dip has been mixed for two weeks and has not separated. The sample may be seen at the Herald office. Phone 190.

A. G. Anderson, of Concord, and H. A. Lewis, of Dunell, Minnesota, were in town Thursday and made us a pleasant visit.
Henry Eickhoff's father, who has been visiting his son in our vicinity, started for his home in the old country on Friday afternoon. The old gentleman made quite an extensive visit here.
A recent letter to Wayne people says that Taylor Steep, a former resident of this city but now of Ellensburg, Washington, has been advanced to freight conductor on the road for which he works.
Jacob Felber and father-in-law, A. L. Tucker, president of the Citizens' bank at Wayne, were in our city Monday on business. Mr. Felber is an old friend of our townsman, Rev. Shafer, both having lived at Laurel at one time and their meeting here was a most pleasant one. Mr. Felber was operating a drug store there then, but since sold out and is looking for a suitable location.—Pierce Leader.

NOTICE.

In the district court of Wayne county, Nebraska.
In the matter of the application of Frederick L. Perry, Guardian of the estate of Harry McNell, an incompetent person, for license to sell real estate of said ward.

On this 3rd day of June, 1905, it being one of the days of the regular February, 1905, term of this Court, this matter came on for hearing upon the application by petition of the said Frederick L. Perry, Guardian of Harry McNell, for license to sell the real estate of said ward, situated in Wayne county, Nebraska, to-wit: The northeast quarter of section nine(9), township twenty-five(25), range five(5), east of the sixth principal meridian, and in vest the proceeds thereof at interest for that it would be for the benefit of his said ward that said real estate be sold, and so invested, and was submitted to the court, and it appearing to the court from said petition that said minor and said guardian are non-residents of the State of Nebraska, and that it would be beneficial to the said ward that such real estate be sold, it is therefore, ordered that the next of kin of said minor and all persons interested in his estate and in said real estate appear before me, the judge of said court, at Chambers, at the court house in the city of Neligh, county of Antelope, State of Nebraska on the 4th day of July, 1905, at three o'clock, P. M. to show cause, if any there be, why license should not be granted to the said Frederick L. Perry to sell the said northeast quarter of section nine(9), township twenty-five(25), range five(5), in Wayne county, Nebraska, for the purpose above set forth. And it is further ordered that a copy of this order be served on the next of kin of said minor and all persons interested in said real estate by publication of a copy of this order each week for three consecutive weeks prior to the time of such hearing in the Wayne Herald, a weekly newspaper published and circulated in said county of Wayne, and that it shall be unnecessary to personally serve a copy of this order on the next of kin of said ward, and all persons interested in said estate.
J. F. Boyd, Judge of the district court of Wayne county, Nebraska.

Are you salting your animals once a week, once a month or do you put it on the ground or in a box where the salt becomes mixed with dirt and filth and the animal refuses to eat it? Remember salt is just as necessary for the thrift of your animals as any feed you give them and unless they have it they are bound to be less thrifty than you desire. Put it where they can get it, where it will be clean, palatable, always ready and the only way to do it is to get one of Laurie's salting devices. Dozens are using it and everyone is highly pleased with its efficiency. Address ALEX LAURIE, Carroll, Nebraska, for full particulars.
