REBEKAHS HOLD MEETING

Delegates From This District Gather For Business and Pleasure.

INTERESTING ADDRESSES ARE GIVEN

Officers Elected--The Welcome and Response--Concerning the Holdoblers Again--Livinghouse Guilty and Sentenced.

The Rebekahs of District No. 20 held a meeting in I. O. O. F. hall Friday evening of last week and elected the following officers for the ensuing year: President, Miss DeBow, Coleridge; vice president, Mrs. Shultice, Wayne; secretary, Mrs. Riteley, Coleridge; treasurer, Mrs. Adler, Wakefield; marshal, Mrs. Root, Randolph; warden, Mrs. Whitney, Hartington; conductor, Mrs. Whippleman, Wakefield; chaplain, Mrs. Vincent, Wayne; inside guard, Mrs. Simpsonman, Carroll; outside guard, Mrs. Geo. Stringer.

Miss Hattie Jeffrey on behalf of the Wayne lodge delivered the following address of welcome to the visiting members:

"Sister Rebekahs: Again we meet to measure our strength, to review the year's work, and to plan for the future. These annual meetings are the heart throbs of our work, the pulsations of which reach to each lodge. We are pleased to meet old friends and to greet new ones whose lives have been touched by the beneficent principles of friendship, love and truth.

"A welcome should be felt and not heard only, so we hope by generous deeds and not empty words to attest our high appreciation of having you with us.

"Why should it not be a pleasure to every sister to have an order meet with their own members march under a banner bearing the motto of friendship, love and truth.

"Therefore in behalf of the officers and members of Protection Rebekah lodge, I bid you all a hearty welcome."

Mrs. Livingston, of Fremont, delivered the address of the evening as follows:

"In the District meetings there is an unbounded scope for usefulness, and the good work to be done to individuals as well as lodges is manifold.

"In the first place, when we meet annually or semi-annually as the case may be everyone is inspired to bring some good thought or word, something for the upbuilding of our beloved order. We each take away with us a heart full of fraternity, which has been called the Handmaid of Civilization, the Daughter of Charity, and the Parent of Hope.

"We take with us the three links, encircling the letters F. J. & T. When we see these on the lapel of a brother's coat, we feel that we are no longer a stranger to him but that he has pledged himself to regard all mankind as brothers, and 'God the father of us all.' What word in the English language is sweeter than Friendship. It lifts us from the very depths of despair. The world itself has a fragrance of spring-time about it. Love is one of the dearest words on earth or in Heaven. 'God is love,' and without the love of our fellow man, life would indeed be a desolate habitation. Truth is the very foundation on which we must build, for without it our lives would be vain indeed. True to our God, true to our brothers and sisters, friends, family and to ourselves. Let us live our teachings, not taking them off as we do our regalia as we leave the lodge room. To develop the spirit of helpfulness, to prompt the performance of kindly deeds is the mission of our degree, to do this work promptly, quietly and faithfully. And let not your right hand know what your left hand doeth is some of the admonitions we receive. Do we do it in all its full meaning? Someone has said, 'From the cradle to the grave does not define the boundary line of Old Fellowship, the care, support, and education of those whose birthright entitles them to receive it through childhood, followed by the kindly advice and fraternal teachings in manhood and womanhood. The patient, protecting hands that guide those tottering with old age, and at last close those sightless eyes, and fold those lifeless hands across that silent breast, and thoughtfully and reverently place that form in its last resting place. The truly faithful Old Fellow or Rebekah has never begged for bread or filled a pauper's grave. Busy Rebekah hands are not idle, for those who mourn are to be comforted, and the helpless provided for. Let us not pass by on the other side.' One of the greatest elements in Fraternal life is to be congenial. If we are obliging, courteous and friendly, we will not only gain the confidence of our fellow men but will give them more faith in Fraternity. If we desire to influence others to join our lodge, we must show them by our actions that there is reason for them to do so, and that they will be benefited by so doing, as well as to be of benefit to some one else. If we compare the live, energetic, growing Rebekah lodge with one that barely holds its charter, we will see that in the former there is a general

investigation and in all probability there could be other developments made.

S. A. BRUNER KILLED.

S. A. Bruner, a former Wayne county citizen, but for the past five years a resident of Charles Mix county, South Dakota, was instantly killed at Savannah, Illinois, by a passenger train Sunday, September 17. He was on his way to Chicago with a shipment of fat cattle and was standing on the railroad tracks at the town named 'Railroad' on other parties and did not notice an incoming passenger train until it whistled for him, when instead of getting out of the way, in his sudden fright jumped right in front of the engine and was almost instantly killed. The many friends of the family in this county deeply sympathize with his stricken wife and family.

ATTACKED BY VICIOUS STEER.

St. Relyea had an experience Monday morning with a vicious steer that might have resulted very seriously and as it was will doubtless greatly increase his respect for the fighting proclivities of the bovine race. A bunch of westerners were being driven up Main street by S. E. Anker and when in the vicinity of Frank Hood's home one of the critters got unruly and left the bunch and about that time Mr. Relyea came along and Mr. Steer spied him and made a rush for him and knocked him down and if the steer had not been dethroned would doubtless have gored Relyea to death. He was first tossed in the air and then after coming to earth the steer attempted to hunt him and only by others coming to the rescue was he driven away and the gentleman rescued and although considerably battered and bruised was not seriously injured.

RANDOLPH'S FAIR.

The Randolph fair last week was favored by good weather and attended by large crowds. Frank Strahan's horse made a good record in the races. The Medium won first in the 2:15 pace and Little Rebel second in the 2:20 pace. In mentioning the speed of The Medium, the Randolph Times says: "The fastest time was made in the 2:15 pace when The Medium was driven by Hurst in 2:11.4, only a second and a half behind the state record for half mile track, and the half was made in 1:03."

Miss Hattie Weber, of Wayne, who visited Laurel recently, goes to Boston next to study at the Conservatory of Music during the year.—Laurel Advocate.

The Herald was mistaken in its last issue in saying that Robt. Pritchard of Carroll took first premium on Durco-Jersey sow under six months; this ribbon was taken by James Harst.

The impression prevailing among

some that Henry Bush bought the meat market in the dissolution of the partnership of Bush & Franks is a mistake. Mr. Franks retains the business.

If Patrick M. McKillop spent \$15,000 to lose a fight for congress in the Third district how much would he have to spend to be elected governor of Nebraska? There are six congressional districts in the state.—Fremont Tribune.

A recent order from the postoffice department that boxes on rural free delivery routes shall be numbered has aroused a storm of protests on the ground that the action will operate in the interests of the great mail order houses. It is thought the order may be rescinded.

A letter from George H. Stevens at Stratford, Washington, tells us that he is well pleased with that country and that his wheat crop this year is 6500 bushels. Judging from the tone of the letter George would like to be here during corn picking just to hear the big yellow ears pounding the throw boards.

The high school base ball teams of Wayne and Wakefield crossed bats at the college Friday afternoon and from reports, played a pretty game of ball. At the end of the seventh inning the score stood 7 to 1 and from that until the thirteenth inning neither side scored, but in that inning Wakefield succeeded in getting a score, thus winning the game by 8 to 7.

Complaint is made to the Herald that the city ordinance prescribing the kind of walks to be built within certain limits should, in specifying brick, require vitrified brick. It is argued that such an amendment would be desirable. Though the best brick walk is not so good as cement, the vitrified quality would be more permanent than common brick and more in keeping with the progress of the city.

The cases against L. J. McKee and Fred Brown that came about because of a disagreement over a livery bill and that wound up in a free for all fight in which an iron bar played a very prominent part and that finally brought both parties into district court charged with assault, were disposed of Friday by both pleading guilty and the court imposing a fine of \$10 on McKee and \$20 on Brown.

It is pretty small business to misrepresent the religious beliefs of any man in order to defile him for a county office as is being done in the case of one of the republican candidates. If the story had any foundation in fact there might be some excuse for peddling it, but when it is false from beginning to end the persons circulating such stories are certainly not acting the part of good citizens and ought not to receive any encouragement from any fair minded person.

The annual delinquent tax list, undoubtedly the shortest one in the history of the county—appears in this issue. The delinquent tax list is a barometer of the material condition of the people. It shows whether they are prosperous or hard up. During popular times the delinquent list was so large that newspapers regarded it a very attractive source of revenue. Now it is of little consequence to publishers who, however, reap increased profit from other revenues made to yield by the general prosperity which it denotes. This year's list indicates unprecedented welfare.

DISSOLUTION NOTICE.

AN OPEN LETTER

Prof. Pile Replies to the Winside Tribune.

CLAIMS FALSE INSINUATIONS

President of the Wayne College Disclaims Using Influence on County Officer.

The fact that A. E. Littell was nominated on the first ballot after a spirited three handed campaign, speaks well for the Winside professor. Mr. Littell is a young man unusually endowed with brains and his chances for election are good. He is entirely independent of the college so that no half baked teacher will get a certificate through favoritism if he wins out. It is to be hoped that his opponent will be as free from subtle influences so that in any case the county will have a superintendent who does not believe that the sun necessarily rises and sets within the sacred grounds of the Wayne college.—Winside Tribune, September 14.

The Reader Times chuckles in unwholesome glee because his hated contemporary lost a twenty dollar bill betting that another fellow did not have a first grade certificate. That other fellow simply went down in his pocket and pulled out a certificate, from Wayne college of course, and pocketed the money. When Bro. Hubbard has lived longer in this world of care and trouble, particularly in the neighborhood of Pile's institution, he will find that any old state is liable to possess a certificate.—Winside Tribune, September 23.

Wayne, Neb., Oct. 2nd, 1905.
To J. C. and N. B. Ecken, Editors and Publishers of the Winside Tribune:

Next to the last paragraph in the first editorial column of the Tribune of September 28th is absolutely false, as far as it refers to the Wayne Normal. No school in the state can issue a teachers' certificate. Graduates of Normal schools whose courses of study, methods of teaching and management, and thoroughness of work meet the requirements of the law and the approval of the state superintendent are issued state certificates by the state superintendent. This school does meet such requirements and approval as well as the approval of the state University, and the graduates of our higher courses receive life state certificates and a certificate of admission to the sophomore class of the University.

No teacher of Thurston county nor candidate for county superintendent of that county holds a teachers' certificate from this school nor from the state superintendent on account of having completed a course of study of this school. Both Fowler and McBrien, as state superintendents, have issued certificates to our graduates. Every one knows them to be true men and able educators who would not issue a certificate to a person not fully entitled to it.

Direct statements and insinuations in former issues of the Tribune with reference to this school seeking or receiving favors in any manner from the present and former superintendents of this county are absolutely false. This school has never asked through its president, its teachers, its trustees, its students nor in any other way—a superintendent of the county for a favor to either student or teacher. Lindberg, Bright and Elliott are fair men and strong educators who would not stoop favors to friend or foe in issuing certificates. Any assertion to the contrary is not only false but unjust to every teacher and school in the county.

Most of the teachers of the county live in the county and but few if any counties of the state have a stronger body of teachers. Prominent educators have frequently complimented Wayne county on her successful school works. I am confident that teachers of this county, all of whom hold certificates issued by either Fowler, McBrien, Lindberg, Bright or Elliott, are fully and fairly entitled to them.

This school and everyone connected with it are intensely interested in advancing every educational interest. We shall continue to do whatever we can do fairly to advance every teacher, every school boy and school girl, and the community at large. Wayne county can congratulate herself on the record of such superintendents as Lindberg and Bright. We are interested in having the progress made by them continued and increased, and shall take such part as is our right, in electing a superintendent who is as able and will be as fair as his predecessors.

In conclusion, I emphasize the fact that the school, its officers, teachers, students and patrons have their rights which will be defended. The records, the work, the management of the school are always open to visitation and inspection. Should you so desire, you will be given every opportunity and assistance in learning the facts of the school's relation to every other educational and business interest of our city, county and section of the country. I request you to give the letter the same prominence in the Tribune that was given to paragraphs above mentioned. Very truly,
J. M. PILE.

Staley Underwear

This is our twenty-ninth year selling Staley Fine Wool Underwear and we have yet to find a man that has worn Staley underwear that is willing to wear any other kind. That alone should convince anyone that Staley underwear is superior to any other make. It may seem strange to some that we continue to advertise this well known underwear, but we will never be satisfied until every man in Wayne county wears Staley and we will continue advertising it until all are convinced that they can't afford to get along without it. There are some things in business that cannot be understood. One of them is that men may know that they need Staley underwear, but because they are trading at some store where they don't have Staley, they fail to come here and get what they know they ought to have. Now if Staley underwear was high priced and they couldn't afford to wear it, there would be a good excuse for not buying it, but Staley underwear is made for the poor as well as the rich and every person can afford to wear it and enjoy health and be comfortable. Come in and look at it, feel it and find out why so many wear it.

How It's Made

It is made to fit, not stretched to cover. The seams are sewed with a double over-stitch that makes a smooth seam that will never rip. This stitch is only to be found in Staley underwear. You will always feel comfortable wearing Staley. Try it and you will wear no other.

Why It Is Better

The wool used to make Staley is pulled (not sheared) which leaves the end of the fiber smooth and this underwear will not irritate the skin as do all other kinds of wool underwear. The wool is put in a solution before it is washed that burns out all the foreign matter. This is an expensive way to treat wool and therefore not practiced by other manufacturers, and for that reason anyone can wear Staley even though they cannot wear other kinds. We have never found a man that could not wear Staley fine wool underwear.

45 Different Kinds

Staley underwear is made in 45 different kinds. We can satisfy you, no matter who you are. We please the rich and poor alike. We fit anyone at same price, big or little. We have it in union suits. We have all colors. It will wear so long that you will forget what you paid for it before it wears out. We guarantee it to give satisfaction.

Why You Should Wear It

The best medical authority in the world concede that wool underwear is the only underwear fit to wear. If you will ask your doctor what kind of underwear he wears, he will tell you Staley. Now if it's good enough for him it should be good enough for you. You don't have to wait until you are broken down in health before you buy Staley, wear it now and keep well, don't wait until rheumatism gets hold of you before buying Staley. Avoid bad colds that may lead to lung trouble by wearing Staley fine wool underwear. Come in and let us show you this underwear.

Rheumatism Cured

If you will come in we will give you the names of more than fifty cases of rheumatism that have been cured by wearing Staley underwear. We do not claim that everyone that has rheumatism will be made entirely well, but no matter how bad you may be you will receive benefit by wearing Staley. It will keep your blood warm and your skin dry which is a great relief to those having rheumatism. You will never be without Staley if you once wear it. You can't afford to die as long as you can get Staley wool underwear at our price.

In Jail

No one wearing Staley underwear, except the sheriff, has been found in jail since we came to Wayne. You need Staley underwear.

No One Has Died That Wore Staley

We have sold thousands of suits of Staley underwear during the six years we have been in Wayne, but no one has died that wore Staley since we came here. Why not live and enjoy life by wearing Staley underwear? Think this matter over and decide to visit us this fall. We will do you good.

No Divorce

No one has asked for a divorce in this county in six years that had on Staley. Every good wife should see that her husband wears Staley underwear. They need it.

WAYNE'S NEW INDUSTRY.

A medicated mud company with
headquarters at Wayne, Nebraska, is
now in process of formation and al-
ready two Norfolk men, both railway
mail clerks, have taken stock in the
new concern. Hicora mineral waters
are to be made in Wayne. The med-
icine is derived by a combination of a
peculiarly medicated mud obtained
from Mississippi and a very pure water
obtained from a spring in that state.
The mud is dug up and the water is al-
lowed to soak through it for some
months, the result being a medicated
water which it is claimed, will cure
pretty nearly everything in the chronic
line. The water is used both exter-
nally and internally.

Railway Mail Clerks Rowe and St-
key have taken stock in the concern
and are enthusiastic. The waters have
not yet been advertised to any great ex-
tent, but will be a little later.

P. F. Panabaker of Wayne, formerly
president of the Northeast Nebraska
Teachers' association, is at the head of
the concern.—Norfolk News.

THE HART SALE.

The dispersion sale of H. H. Hart's
Shorthorn herd at the fair grounds on
Thursday, September 28, was very suc-
cessful from all points of view. The
herd was a good one and the buyers
heartily appreciated that fact as the
very liberal prices paid demonstrated.
Thirty-five cows and heifers were dis-
posed of at an average of \$104 per head;
the six males sold for \$670, almost \$112
per head. The purchasers were from
all parts of the country and the bid-
ding at times, on the best stuff, was
quite spirited. Col. George Bellow

was in the box and was assisted in the
ring by Baird of Hartington and Cun-
ningham of Wayne. The following is

Wolfe, of Bear Grove, Iowa, cheated
death. He says: "Two years ago I

great pain, suffering and anxiety, but I
took Electric Bitters, which effected a
complete cure. I have also found them
of great benefit in general debility and
nervous trouble, and keep them constantly

faith and some didn't. Kodol will cure
you if you give it a fair trial, whether
you have faith in it or not. Mrs. J. P.
Baldy, Waukeg, Va., says: "I am 81
years old. Several years I suffered ex-
tremely with indigestion and dyspepsia.
My grandson, A. Baldy, Jr., a mer-

Sickness in the family of E. W. Huse

accordingly established. Liver and stom-

aggravating condition in this case. The

healed it." Soothes and heals burns

"Hooligan's Troubles"

with his empty tomato can and dynamite biscuits depict the life of a genuine American hobo, Hooligan had no money and didn't want any, but I am glad that Wayne hasn't any Hooligans. If she has I have never had the pleasure of meeting them for it seems that nearly every man that I meet tries to instill into my youthful mind the old maxim: "It is better to give than to receive." So I have to give. (Don't tell anybody, but it is to pay up what I owe the other fellow.) In other words this seething, surging mass of humanity are all after the almighty dollar.

Stop for a Moment and Reason

If I could sit in my office with you and demonstrate to you beyond question that I had an investment which would yield you a handsome profit of a hundred per cent. you would take me up. Listen: We have an investment that will do much better than that. You say you don't believe it. Wait a moment. Be fair with me and meet me half way. Come into my office and look over the views, read some of our literature. (The company stands back of every word printed.) Read some books on geology and get acquainted with the mining business; see some of the specimens of ore from the King Solomon. In other words, come to my office and make a thorough investigation and if you are not satisfied that it is a good investment don't put any money into it. You say you would not know ore if you saw it. Hooligan would know that much. Any man with horse sense can tell ore from country rock.

Once More I Ask You to Reason

One hundred thousand horse power can be generated in the Ten Mile river, which we own and control for one mile. Two railroads within a stone's throw from the tunnel. Machinery installed and working day and night. A tunnel proposition requiring no hoisting or pumping machinery. Ore handled but once, gravity does the rest. This past week men have been at work over the tunnel line and have opened thirty-one veins of highly mineralized ore from the surface which President Dinsmore writes certainly means riches for all that hold stock in the King Solomon. In the tunnel the shale is constantly changing for the better according to the report of Superintendent Myers. People are coming into my office every day and purchasing stock. Will you be next?

Mr. Martin P. Jensen and Miss Ella P. Omsu were united in marriage by Rev. C. J. Ringer at the Lutheran parsonage on Wednesday, October 1, at noon. Both the contracting parties are of Wayne county, Nebraska.

John Hartner, who has been acting as street commissioner at this place, was taken before the board of insanity yesterday charged with being an inebriate and was adjudged a fit subject for treatment at the Lincoln asylum, to which place he was taken by Sheriff Meers today.

E. Canisbarham leaves this afternoon for Gilman, Iowa, to attend the funeral of his friend, Dr. W. J. Ward, who died at his home in that place Wednesday morning. Many of our readers became acquainted with deceased during his many visits here at the home of Mr. Canisbarham and will be pained to learn of his demise.

About sixty Baptists attended their annual church meeting last evening. Reports showed that \$1,157 had been paid in for general expenses, \$340 for missions and \$100 to wipe out debt on parsonage. Former officers were re-elected. Cash receipts and attendance at Sunday school showed an increase over the previous year.

Sickness in the family of E. W. Huse was pronounced of sufficient diphtheric nature by a physician Sunday morning to justify a quarantine, and one was accordingly established. Liver and stomach trouble contributed largely to the aggravating condition in this case. The disease is in a light form and every effort is being made to confine it to the one child who is now speedily recovering. Members of Mr. Moran's family, under quarantine with a similar type of the disease, are convalescing and will soon be released.
